Strikers Prevent Pumps Operating CHINA IN A BAD WAY OWING TO LACK OF GOVERNMENT HEAD

Cape Breton Coal Strike is Still on and Mines are Filling with Water; Pumps Stopped

SYDNEY, N.S., Aug. 17.—Four collieries are already reported to be flooding because the volunteer pumpmen cannot keep up with the influx of water.

The first 24 hours of the miners' strike has seen the stationing of troops which today took possession of the New Aberdeen collieries. Workers were sent from Halifax to man the pumps there, but were driven back to Halifax with stones.

Soldiers and civilians clashed later and several shots were fired, but there were no casualties.

Returned soldiers at Glace Bay have demanded the withdrawal of troops in wires sent to Halifax and Ottawa and are planning for a demonstration today.

NORTHCLIFFE BURIAL HELD

Seldom Did Westminster Abbey See Such Assemblage to Honor Private Citizen.

LONDON, Aug. 17.—The funeral of Viscount Northcliffe was solemnized at noon today at Westminster Abbey. Seldom has the last tribute to any Englishman whose position was wholly personal and unofficial gathered such an assembly. A great company of eminent people crowded the edifice and the humbler persons filled the street outside. The body was interred in St. Mary's cemetery in Finchley.

BROTHERHOOD AND RAILWAY WAGES DISPUTE

Men Demand That Old Scale Continue Until Conciliation Board Finishes Job

OTTAWA, Aug. 17.—When the conciliation board considering the wage reduction by the Canadian National Railways to members of the Brotherhood of Railway employees met today, A. R. Mosher, for the men, demanded that the railways follow the precedent in the shopmen's strike and suspend the reduction until the board finishes its job.

The railways representative could not promise this off hand and the board was adjourned for the day.

ROBB VICE-PRESIDENT

Will Be General Manager of the Grand Trunk Railway in Place of Kelly.

MONTREAL, Aug. 17.—The board of the Grand Trunk Railway has appointed W. D. Robb ranking vice-president of the company with the title of general manager. He will take up the duties of President Howard G. Kelly, who has resigned.

Mr. Robb is the first native Canadian to be called on to occupy the office of chief executive of the Grand Trunk Railway. He rose step by step from an apprenticeship.

DANGERS OF BEING STRUCK BY BIRDS

Visitor to Queen Charlotte Islands Enthusiastic Over Game at North End.

The danger in travelling around Queen Charlotte Islands is from being struck by flying grouse or ducks or geese, according to L. Gustave de Seville, who is here from a visit to the Islands and who is leaving for Seattle tonight. Mr. Gustave visited Port Clements, Buckley Bay and Massett and says the islands are badly in need of development. The climate is wonderful, the scenery the best and game is there in abundance.

While Mr. Gustave was travelling from Tow Hill in the direction of Four Corners a grouse fled past and would have struck his companion, Charles Spener had the latter not ducked his head. It gave them both a shock as they were not anxious to be struck by bullets that size. On the trail they saw quantities of ducks and geese, especially ducks. Mr. Gustave says it is a wonderful place for hunting.

MAY BRING GREAT BOTANICAL EXHIBIT AS FAIR FEATURE

The Fair Association is considering the possibility of bringing Gustave Gervais' botanical collection from Hazelton as a feature of the forthcoming exhibition and the matter will be taken up at an early meeting.

This collection, which is said to be one of the most valuable and most complete in the Dominion of Canada, contains specimens from all over the Dominion. It has been a life work of Mr. Gervais and for the past nine years he has been constantly adding specimens from this district to it.

The collection will require 4200 square feet of wall space for exhibit or a length of 200 feet to a height of 6 feet. If it is to be shown a special building will have to be used for it. Mr. Gervais refuses to break up or to let it come here unless under his personal supervision. In 1913 an unsuccessful attempt was made to show it, some damage having been done to it then occasioning monetary loss to the owner.

FINISHED ARGUMENT

MONTREAL, Aug. 17.—Both sides finished their argument in the shopmen's wage dispute and the board assembled today to clear up the proceedings.

PEACE PROSPECT LOOKING BETTER

Between Unions and Railways at New York Conference Today

CHICAGO, Aug. 17.—An end of the strike of the "Big Four" transportation brotherhoods on the Western Railways and an improved outlook for peace were the high lights in the New York conference today between Union representatives and employers. A program for the settlement of the shopmen's strike is to be submitted to the executives of 118 railroads this afternoon.

U.S. TARIFF LIKELY PASS THIS MONTH

Probably Will Go Into Effect in October Spite of Opposition

WASHINGTON, Aug. 17.—(By Canadian Press)—While there is still more or less talk in Washington that the Fordney-McCumber tariff measure will not go into effect until next winter and may not go into effect at all, the fact that the Senate is expected to pass the measure this month has caused the belief to obtain generally that it will become law about the first of October. And this is causing a great deal of speculation about its effect on United States business with other countries.

The rates in the bill are extremely high and in some cases almost or entirely prohibitive. The evidence on this point is so strong that it can hardly be open to successful dispute.

UNION OPPOSES ANY WAGE CUT

Meeting Last Night Objects to Proposal to Pay Carpenters \$6.50 a Day.

The Carpenters' Union at the specially called mass meeting last night unanimously decided to oppose any cut in wages. This was done in view of the cut which a local firm proposes putting into effect on September 1. The result according to union officials will be that this firm will be placed on the unfair list and, if the cut is effected, the men will, in all probability, be called off their work. The union rate here is \$7 per day and the proposal is to pay \$6.50.

In the course of the discussion it was brought out that the Great War Veterans' Association had a fair wage clause in their new building contract. A resolution appreciating this was passed by the Union.

There was an unusually large attendance at the meeting which was presided over by President J. J. Gillis.

BRITISH PRINTERS STRIKE AT AN END

Men Go Back at Three Shillings a Week Reduction with Prospect of More.

LONDON, Aug. 17.—The printers strike which has disorganized the newspaper world for months has been settled with the men taking a reduction of three shillings weekly with a promise of a ballot on the question of gradually reducing to a total reduction of twelve shillings. The strikers will get their former positions back.

MRS. SEALY WILL HAVE CHARGE OF HAZELTON EXHIBIT

Jack Venables, fair manager, has been advised that Mrs. J. C. K. Sealy has been chosen by the Hazelton Citizens' Association to take charge of the Hazelton district exhibit at the forthcoming Prince Rupert exhibition. In the meantime, the farmers of the district are all busy working on the collection.

POPULAR GOVERNMENT IN CHINA IS UNSUCCESSFUL AND ABOUT TO COLLAPSE

PEKIN, August 17.—The attempt to revive popular government in China is on the verge of collapse. Military leaders are openly defying the government and cabinet ministers are refusing to assume the responsibilities of their positions. The treasury is empty and civil employees left unpaid have quit their positions.

President Li Yuan Hung has renewed his pleas to Sun Yat Sen to co-operate with Pekin in the eleventh hour to prevent the militarists from obtaining complete control of the government. His refusal is expected.

BETTER CONDITIONS DURING COMING WINTER

Minister of Labor Sees No Indications of Unemployment Coming

VICTORIA, Aug. 17.—When Hon. James Murdock, Minister of Labor for Canada, arrived in Victoria on his coast-to-coast survey of labor conditions, he was very optimistic.

Unemployment will not be as bad in Canada during next winter as it has been during the last two winters, he said, summing up prospects.

"I have been advised that the situation would be much worse this coming winter," Mr. Murdock said, "but I have not seen anything that would indicate that to me. Industry in the East has been picking up, and it looks as if it would escape any serious slump in the winter months."

"But out here on the British Columbia coast you have got a situation that is possibly not as good as conditions and prospects are in other parts of Canada. You here, I find, have had more than your percentage of returned men and unemployed to glut your labor market."

Mr. Murdock said that this situation here was being considered at Ottawa in connection with relief measures.

DAILY EDITION Thursday, Aug. 17, 1922.

Salmon Catch Is Diminishing.
 Following the session of the Fisheries Commission there is a good deal of discussion going on in the city as to the salmon pack and its importance. Owing to no fault of ours we unfortunately published on Tuesday erroneous figures in regard to the pack. Today we are able to give the corrected list, which makes a rather better showing although it indicates, as was stated Tuesday, that there is a serious falling off in the sockeye pack.
 Up to last Friday the pack from the Skeena River catch was 86,600 cases. The only season with which this can intelligently be compared is the season of 1918, four years ago. Then the pack was 123,322 cases. As the season closes on Tuesday next it can hardly be expected the Skeena pack will reach much beyond 90,000 cases for the season, a falling off of approximately thirty thousand cases. The fact that it is twice as big as last year means nothing, for there is no relation between the pack of last year and the pack of this year. The fish return every four years and if the pack is heavy this year it is likely to be heavy four years from now providing enough fish get up the river to spawn. If the river is over-fished, enough fish do not get past the nets and the catch four years hence is going to be smaller.

Important To Conserve Fish.
 Whatever else the fisheries commission may have in view, one thing they should certainly do, and that is see that the river is not fished out. The Fraser River fishing has been ruined and the Skeena will follow as a depleted stream unless precautions are taken. This year there has been a weekly close season from Friday evening until Sunday evening each week when the salmon are allowed to pass unmolested and, judging by reports, it is safe to say that the law has been generally respected. The fish have had a good opportunity to get past the nets and the result should prove most satisfactory. If 48 hours weekly is not sufficient, the close season will have to be still further lengthened, possibly by allowing the first fish of the season to get past. Anyway, in the interests of canners, fishermen and consumers, it is important that the fish be protected. The Skeena is the only important all-Canadian river in the West, from a fisherman's point of view, and its salmon should be jealously guarded.

Pink Salmon Run A Good One.
 The pink salmon, better known perhaps as the humpback, is running well this year. Up to Friday last the pack for the season on the Skeena was 129,000 cases. In 1918 the pack of the same class of fish was 161,727 for the whole season. As the pinks are still running well, last year's pack may be reached this year or very close to it. Possibly it may be exceeded. There seems to have been no falling off in the pinks, but the pinks are a cheaper fish and not as valuable to either canners or fishermen as the sockeye. Still the time is coming when they may be a most valuable asset.

Settling Strikes. Very Important.
 Strikes at periodic intervals have become chronic. Employers and employees seem to expect them and yet both deplore the necessity, and well they may. A strike always means a loss to both. As a rule the men suffer worse than the employers because they have not the resources. However, nothing is ever gained by either side that might not be gained by peaceful means if there was a greater degree of confidence shown on both sides.
 Men cannot understand how it is that coal which is dug for a dollar and a half a ton must sell at four or five dollars in order to make the operators a profit, and yet the matter is simple enough if the facts are investigated. Overhead is something that the average workingman does not understand, and yet the operator who does not take it into account will soon face the bankruptcy court.

ORIGIN OF ROSARY
 Play at Westholme Shown Last Night to be Repeated
 The Rosary, the First National photoplay shown at the Westholme Theatre last night will be repeated tonight. It is human interest story telling of three great loves, one of which is unrequited.
 The origin of the Christian Rosary is shrouded in ancient legendry, but it is known that in the fourth century, Peter the Hermit used pebbles to help concentrate his thoughts, casting them aside one by one until his prayers were said.
 From this crude pebble rosary came that which is used today, the string of beads ending with the cross—the symbol of sacrifice.

INTERMEDIATE LEAGUE BANQUET ON TUESDAY

Lively and Enthusiastic Affair Held in St. Regis Cafe Following Final Game of Season
 On Tuesday night, following the final Intermediate League baseball game, there was a lively and enthusiastic banquet held in the St. Regis Cafe to celebrate the close of the season and the victory of the Grotto in capturing the Golt Cup and the Reach medals. There were about fifty persons present including the members of the Grotto, Gil's and Sons of Canada teams and officials of the league. W. J. Cash presided. Following the disposal of the dainty entables that had been provided, speeches were made by Bert Morgan, Fred Gilbuly, Harvey Fraser, R. Gilmour, R. Smith, P. Laporte and J. McAleenan. Mr. Cash presented the Golt Cup to Roy Gilmour, captain of the Grotto. Another pleasant feature of the evening was the presentation to Alex Roy of a purse from his team mates on the occasion of his recent marriage. Toasts were drunk to the various teams, players and officials and the pleasant gathering dispersed about 11:30 after the hearty singing of the National Anthem.

MUST WASH HANDS OF RED INTERNATIONAL

LONDON, Aug. 16.—The British Miners' Federation has decided to have no alliance with the Russian Red International, or the Russian Communists or Bolsheviks. A motion calling for affiliation with the Russian element was defeated at a recent meeting of the federation by 883 votes to 118. "If we want to save British trade unionism," said Frank Hodges, general secretary of the federation, "we must wash our hands of the Red International."

GIANT SWORDFISH TOWED A FISHING BOAT TWENTY MILES

HALIFAX, Aug. 16.—It has been learned that an empty boat found in tow of a giant swordfish did not indicate any loss of human life as was at first feared. A Lunenburg fisherman had speared two swordfish and while landing one the other made off with his boat at the end of the line. It towed the boat twenty miles before it was discovered.

DIARRHOEA is Dangerous To Teething Babies DURING HOT WEATHER

Hot weather is a dangerous time for the babies when cutting their teeth, and all mothers should watch very closely for any sign of diarrhoea, dysentery, cholera infantum or any other bowel trouble.

There is no remedy so safe and effective for diarrhoea as Dr. Fowler's Extract of Wild Strawberry, and all mothers who have used it speak of it with the greatest of confidence.

Mrs. James E. Green, Vermilion, Alta., writes under date of Aug. 14th, 1921 as follows: "A week ago my baby boy, just one year and four months old, started cutting two stomach teeth, and was so sick he couldn't eat or sleep, and had the diarrhoea most terribly bad; his rectum was raw and bleeding, but after giving him Dr. Fowler's Extract of Wild Strawberry regularly for three days he was as well as any boy could be. I wouldn't be without your grand remedy for untold good."

"Dr. Fowler's" is for sale at all dealers; price, 50c. a bottle; put up by The T. Milburn Co., Limited, Toronto, Ont.

SPLENDID TRIP ON THE LAUNCH DOLPHIN

J. W. McAuley and Party Return From Five Hundred Mile Cruise.

The finest scenery in the whole district is at the north arm of Wark Canal, according to J. W. McAuley, foreman of the Canadian National Locomotive shops, who with a party has just returned from a cruise of the neighborhood during which he covered something like 500 miles in his fine little launch Dolphin. They went to Wark Canal, Khutzmateen Inlet, Port Simpson, and southward around Poreher Island, Macauley Island and Pitt Island. In the course of the trip they saw two bears but had few adventures. The party consisted of Mr. McAuley's son Jack, daughter Muriel and Mrs. T. Priest, Miss Stephen and Fred Richmond.

Wonderful Scenery.

Speaking of the trip Mr. McAuley said there was no scenery he had seen anywhere equal to that on the north arm of Wark Canal. Mountains rose sheer for several thousand feet from the water's edge and there were snow capped ridges and waterfalls and all the combinations that make for fine scenery.

At Khutzmateen Inlet there was a glacier right at the water's edge. This inlet is northward from Wark Canal but is not as picturesque.

To the southward they visited the Salt Lakes on Poreher Inlet north of Kitkatla. They saw the totem at the Indian village and generally enjoyed life in the open camping wherever the fancy suited them.

Miss Alda Henry, advance agent for the Dominion Chautauqua, arrived from the East on last night's train to make arrangements for the putting on of the performances here from September 18 to 21 inclusive. There will be a full meeting of the local committee tonight.

M. M. Stephens, A. W. Edge and O. H. Nelson form the local committee of delegates which is to leave tonight to attend the provincial Conservative convention opening on Monday in Vancouver. Alternates are ready, failing any of these not being able to go. Delegates from outside points are also expected to pass through the city tonight.

FINAL SCENES TRIAL OF THE TWO MURDERERS

Efforts to Make Political Speech to Court Frustrated by Judge

At the final scenes at the trial of the two murderers Dunn and O'Sullivan, who killed Sir Henry Wilson in London and who were hanged a few days ago, the prisoner Dunn asked to be allowed to read a statement which the judge declared was a justification of the right to kill. This he refused to read. Dunn addressing the court said:

I suppose I must cut out the patriotic adjectives I fell inclined to use under the present circumstances but I must state that I feel still, under these very same circumstances, proudly conscious that I am an Irishman. You have all heard the accounts from the Divisional Inspector who has been asked for accounts of my character, and you will agree that this is the first time that I, and my friend, for that matter, have appeared in any criminal court. That I take a particular pride in, besides my national pride in being a member of the Irish race, I had endeavored to give an honest statement of the matter from a national point of view, but it seems that privilege is denied me. I for my part, am sorry that you, as members of the jury are denied the chance of hearing an honest Irishman's statement. Several of you, I have no doubt, endeavored to do your best in the recent great European war. I also took my share in that war, fighting for the principles for which this country stood. Those principles, I found, as an Irishman, were not applied to my own country, and I have endeavored to strike a blow for it.

Not Mean Assassin.
I have no doubt that, from the evidence which has been put before you by the prosecution, and from the more legal point of view, you will return a verdict of "guilty" against me and my comrade, but I wish to assure you even your verdict and the verdict of the Judge here will not be sufficient to denounce me, before the members of the race to which I have the honor to belong, as a criminal. I have never before appeared in any criminal court, and my intentions have never been criminal, as such. I am not a mean assassin who endeavored to slink away; hear that in mind. I have been termed by various journals a cut-throat and assassin, although, of course, the term cut-throat does not apply but I wish to state that the motives which impelled me in

BRINGING UP FATHER

By George McManus

this action were seriously considered, as I believe the motives which impelled the taking of human life in the great European war were seriously considered. I received no money for this particular piece of business.

So, in conclusion, I wish to state that even though, as I surmise, I will be found "guilty" by this jury, and by you members of the jury who were probably my former comrades in the European war, I trust that the Higher Court, which is the only Court which matters, and which does not belong to this world, will consider the purity of my intentions.

O'Sullivan.
O'Sullivan, when asked by his Lordship whether he wished to make any statement replied: What I have to say, my Lord, was contained in the document you have, and as you will not let the jury hear that, I have nothing further to say.

Mr. Justice Shearman asked the Attorney-General whether he wished to have the document read. The Attorney-General replied that the right of the prisoner to make a statement on matters relevant to the charge made against him had not been taken away. The document which had been handed to his Lordship contained a number of statements which, if given in the witness-box, would be stepped as being irrelevant to the case. It was in his Lordship's discretion whether the document should be read by an officer of the Court.

Imaginary Grievance.
Mr. Justice Shearman—The only doubt is whether there will be any imaginary grievance about the non-reading of the statement. My own feeling is that the statement is wholly irrelevant, and will serve no good purpose. Unless you desire to have it read I will adhere to my decision. The Attorney-General—I do not wish to take any course that would put the prisoners at any disadvantage. I do not see that

this statement can give them any advantage.

Mr. Justice Shearman read passages from the statement referring to the prisoners' career in the British Army. The Attorney-General then addressed the jury briefly, saying that the evidence that had been given completely proved that the two prisoners had wilfully and purposely fired at and murdered Sir Henry Wilson.

Mr. Justice Shearman, in summing up, said there was not a shadow of relevant evidence to prove that the acts of the prisoners were in self-defense, or in any circumstances which could reduce the verdict to manslaughter.

Verdict and Sentence.
The jury retired at 1:20, and returned after an absence of two minutes. They brought in a verdict of guilty against both prisoners.

Dunn was asked the formal question of whether he had anything to say why sentence should not be pronounced and he replied: Yes, I have a few words to say. There exist, and have existed, certain living exceptions to this general rule of justice. Captain Bowen-Godhurs, who murdered Mr. Sheehy Skiffington (Captain Hardy, of Dublin Castle, who murdered Brigadier McKee of the Irish Army and Peter Clancy).

Mr. Justice Shearman—Now listen to me Reginald Dunn. You are asked the question whether there is any legal ground why judgment should be postponed. You are not at liberty to use this opportunity for a political address, and I shall not permit you to do so. Is there anything on the record to show why judgment should be reserved instead of being given now? That is the only matter on which you are at liberty to address me. You are not at liberty to address to me a political oration.

Did It For Ireland.
Dunn proceeded as follows:—The motives for this crime, be-

DATE MUFFINS

1/2 cup butter
1 egg
2 cups flour
2 teaspoons Dr. Price's Baking Powder
1/2 teaspoon salt
1/2 cup milk
1/2 lb. dates

Cream butter, add beaten egg, then flour, baking powder and salt which have been sifted together, and milk. At the last stir in dates which have been pitted and cut into small pieces. Bake about 25 minutes in greased gem pans in hot oven. If a sweet muffin is desired, add 1/4 cup sugar to dry ingredients.

COFFEE CAKE

2 cups flour
1/2 teaspoon salt
2 tablespoons sugar
4 teaspoons Dr. Price's Baking Powder
2 tablespoons shortening
1/2 cup milk

Mix and sift dry ingredients; add melted shortening and enough milk to make very stiff batter. Spread 1/2 inch thick in greased pan; add top mixture. Bake about 30 minutes in moderate oven.

TOP MIXTURE

2 tablespoons flour
1 tablespoon cinnamon
2 tablespoons sugar
3 tablespoons shortening

Mix dry ingredients; rub in shortening and spread thickly over top of dough before baking.

SELF EXPLAINS PRINCE GEORGE

Sets Facts and Rules Governing Self Shield Series Squarely Before Interior Team.

With reference to the proposals of self shield Northern B. C. 1922 baseball championship series and the letter received from Prince Rupert asking that the series be played there this year, the following letter has been sent to Ben Self, donor of the shield, by J. C. Pidgeon, manager of the Prince George team:

"This shield was given for the championship of Northern British Columbia and, as you are well aware, there was considerable dispute at the time of the competition last year over the professional players that you had on your team who did not live in B. C. but were only travelling through. Still, since there had been no regulations regarding the contest for the players who should take part in the games, it was agreed by Anyox and Prince Rupert to concede you the shield under the circumstances. Only at Fair.

"The conditions for this shield can only be made possible by the financial assistance of the Prince Rupert Fair and it is therefore, under their supervision, that the games will have to be played at the Fair in this city and under the same conditions as nearly as possible to all competitors as possible.

"I have communicated with Ben Self and Ocean Falls regarding the series and they have indicated that they run strictly according to the B. C. amateur regulations. This I have pointed out would be practically impossible for both Prince George and Prince Rupert as we have no permanent positions to offer players which they have, also it would prevent many local players in both towns as very few have amateur cards.

"The next fairest proposition for all would be to require all players to be in the city for 30 days previous to the competition. This was agreeable to Ben Self, Anyox and Prince Rupert and will be put into effect for next year's competition.

Set of Rules.
"I feel sure, will clear up any doubt as to where the

shield has to be played for. For this season you will have the benefit of the doubt regarding the players but after this fall there will be a set of rules governing the same under the Prince Rupert Exhibition supervision. There will also be a joint committee representative of any desirous competitors.

"Regarding the three games that you want our boys to play at your Fair on Sept. 3, 4 and 5, I have taken the matter up with the Baseball Association and, while I cannot definitely state yet, it is practically sure they will come for these games. You will be advised definitely in a very few days.

Home and Home.
"I hope that this letter will explain the situation to your satisfaction and that our boys may meet you on your home grounds and that you return for the fair here."

FOOTBALL PLAYERS MAY GO ON STRIKE

LONDON, Aug. 17.—A strike of professional football players is threatened. Rugby league players are requesting better conditions and will withdraw if they are not granted. The season opens on August 26 and this is the date that the strike will take effect.

The Sons of England line-up for the Stuart Shield football game with the Callies tonight will be as follows: Stockdale, Lambie, Hemmonds, Ed. Craggs, Kelsey, Mansell, Farquhar, Shaw, Tinker, Lewis, Hodgson, Cameron and Greenwell.

SONS OF CANADA WON OVER ELKS

Lacrosse Game Last Night Resulted in Score of 12 to 7 in Favor of Canucks

The Sons of Canada defeated the Elks in last night's lacrosse fixture by a score of 12 to 7. The game showed an improvement over previous ones although it was rather lopsided in favor of the Sons who were fully entitled to their win. The home players of the team played excellently for the first three quarters and got through the defence of the Elks for 12 goals in that time.

The first quarter proved a runaway for the Sons, the score at the end standing 7 to 1. The Elks lightened up in the second and third, the score at the end of each quarter standing 9 to 2 and 12 to 3 respectively. There was a reversal of things altogether in the last session, the Elks scoring four while the Sons made none, making the final score 12 to 7. In the last period it became rather dark showing that it will soon be necessary to open games earlier.

George Tite was referee and M. M. McLachlan and George Mitchell made the goal decisions. R. Robertson was timekeeper. The teams lined up as follows:

Elks—H. Lipsitt, L. Styles, J. McAuley, Wrigglesworth, Mansell, R. Oliver, A. A. Easson, J. Mitchell, E. Smith, M. Gonzales and S. W. Taylor.

Sons of Canada—D. Brown, A. Saint, R. Grossett, H. Pringle, Jacobs, H. Scott, A. Gray, H. Menzies, E. Mackintosh, U. U. La-Casse, and C. Blythe.

Prince Rupert baseball players will take their first trip of the season tonight when the so-called team leaves to play with Ocean Falls. The selection has been as good a one as it was possible to send out but some of the stronger players will be going particularly Easson for second base and Vic Menzies for first. Otherwise it is pretty well the same aggregation that met Anyox, O. P. Smith, if he makes such a hero of himself, with timely hits and good out-fielding, as he has done on several occasions in the City League should be considerable help to the locals in bringing home the bacon.

Harry Astoria has been chosen as the tenth man for the Prince Rupert team that will leave tonight to play baseball with

AIR NAVY IS FUTURE ARM

Successful Attack on Britain But Defenses Weak

LONDON, Aug. 16.—"The navy of the future must take to the air; otherwise it will be at a hopeless disadvantage," said Captain Viscount Curzon in the House of Commons when the naval estimates came up for discussion. He pointed out that according to the latest figures the navy had only nine fighting airplanes, in contrast with the 86 possessed by the United States navy.

To offset the allegation of Captain Curzon, the Air Ministry has issued a statement declaring the British navy to be better equipped with airplanes than that of any other power and claiming no fewer than 98 fighting air machines in commission, with a large number of reserves.

George Lambert, a former Civil Lord of the Admiralty, expressed the opinion that the British navy was very inadequately equipped with aircraft. "Can the navy say that from the defensive point of view the money of the taxpayer is being spent to the best advantage?" he asked. "You are going to spend £16,000,000 on two new battleships, but it is useless to spend money on capital ships unless you have sufficient aircraft for the ships you already possess."

Exposed to Attack

Lieutenant-Commander Kenworthy emphasized the great need of strengthening the air fleet. "We are exposed to two great dangers from the air," he said, "massed attacks by fleets of airplanes flying by night and scattering poison and disease germs on our cities, and having our food supplies cut off by attacks on the trade routes. The two capital ships would be of little use warding off such raiders."

Mr. Amery, Financial Secretary to the Admiralty, answered some questions about recent experimental attacks by airplanes on warships in the Channel. According to published sensational reports, he said, the attacks were completely successful, and if made in real warfare would have completely wiped out a considerable portion of the British navy. The manoeuvres were not of a

"wholly novel character," but part of a series of valuable and constructive exercises which have been carried out for some time. It is not true that the airplanes threw out smoke screens. The torpedo-carrying airplanes were sighted 15 minutes before firing their torpedoes. They were under dummy gun-fire.

Dummy Gun-Fire

"There is a great difference between the effect of dummy gun-fire and real gun-fire on the morale and the steadiness of a flyer when at a low altitude at the moment of discharging torpedoes," the speaker continued. "They were attacked by gun-fire in dummy from light cruisers and destroyers. The attack developed under favorable conditions. We could not use real counter-measures. The attack thus developed its full offensive effect, and a number of hits were recorded under the most favorable conditions. I do not know the exact number of hits, but I am informed that from the Admiralty Staff point of view it was not considered to be at all large, or in any way beyond what was expected."

CLERGYMEN HAVE SMALL FAMILIES

LONDON, Aug. 17.—Clergymen no longer have large families, the members of the Neo-Malthusian Birth Control Society were told by Professor MacBride at a recent conference. Thirty years ago the clergy were reckoned among the most prolific members of the community, and rightly regarded as breeders of talent; but today road sweepers, dock laborers and people of that class indulge in large families, while clerical families consist of only one or two children.

The Professor declared also that every species of animal and plant, if allowed to exercise unchecked its natural powers of reproduction, would in a few years completely overrun the earth and crush out other forms of life.

To Holders of Five Year 5 1/2 per cent Canada's Victory Bonds

Issued in 1917 and Maturing 1st December, 1922.

CONVERSION PROPOSALS

THE MINISTER OF FINANCE offers to holders of these bonds who desire to continue their investment in Dominion of Canada securities the privilege of exchanging the maturing bonds for new bonds bearing 5 1/2 per cent interest, payable half yearly, of either of the following classes:—

- (a) Five year bonds, dated 1st November, 1922, to mature 1st November, 1927.
- (b) Ten year bonds, dated 1st November, 1922, to mature 1st November, 1932.

While the maturing bonds will carry interest to 1st December, 1922, the new bonds will commence to earn interest from 1st November, 1922, GIVING A BONUS OF A FULL MONTH'S INTEREST TO THOSE AVAILING THEMSELVES OF THE CONVERSION PRIVILEGE.

This offer is made to holders of the maturing bonds and is not open to other investors. The bonds to be issued under this proposal will be substantially of the same character as those which are maturing, except that the exemption from taxation does not apply to the new issue.

Holders of the maturing bonds who wish to avail themselves of this conversion privilege should take their bonds AS EARLY AS POSSIBLE, BUT NOT LATER THAN SEPTEMBER 30th, to a Branch of any Chartered Bank in Canada and receive in exchange an official receipt for the bonds surrendered, containing an undertaking to deliver the corresponding bonds of the new issue.

Holders of maturing fully registered bonds, interest payable by cheque from Ottawa, will receive their December 1 interest cheque as usual. Holders of coupon bonds will detach and retain the last unexpired coupon before surrendering the bond itself for conversion purposes.

The surrendered bonds will be forwarded by banks to the Minister of Finance at Ottawa, where they will be exchanged for bonds of the new issue, in fully registered, or coupon registered or coupon bearer form carrying interest payable 1st May and 1st November of each year of the duration of the loan, the first interest payment accruing and payable 1st May, 1923. Bonds of the new issue will be sent to the banks for delivery immediately after the receipt of the surrendered bonds.

The bonds of the maturing issue which are not converted under this proposal will be paid off in cash on the 1st December, 1922.

W. S. FIELDING, Minister of Finance.

REVOLT AT SOVIET REGIME TURKESTAN

Government Industries Prove to be Unprofitable; Enver Pasha Leads Revolt.

MOSCOW, Aug. 17. — Far greater concessions toward a complete capitalistic state of affairs than prevail in Russia proper have just been made by the Soviet government in Turkestan.

The Turkestan economic council decided to remove all regulations and previous decrees which restrained trade and commerce and to retain control only of a very few "key industries." Turkestan is normally one of the largest cotton growing regions of the world.

The decision came as a result of two factors—first, the unprofitableness of government controlled industries, and second, the unrest among the population due to the revolt against the Soviet regime which is being led in Bokhara by Enver Pasha, formerly commander-in-chief of the Turkish armies.

Cotton growing has increased greatly during the past few years. The pre-war area sown with cotton in Russian Turkestan was nearly 400,000 desyatines. In 1921 about 100,000 desyatines were sown, and this year, in Turkestan, without Bokhara and Khiva, where the Enver Pasha revolt is stronger than in Turkestan, only 63,000 desyatines were sown. This is expected to yield about 15,000 tons of cotton. To transport this to the Russian factories about 20 trillion Soviet rubles will be required by the Turkestan cotton committee. The state bank has assigned only one trillion, and though ten trillion more are to be forthcoming, much of this cotton will remain in Turkestan unless private enterprise moves it. The railway conditions are also unfavorable for its transport.

German Rum Runners Do Business on High Seas.

STOCKHOLM, Aug. 16.—Legislation in Sweden against drunkenness and consequent heavy taxation on liquor and beer has resulted in very high prices for alcohol of every kind. So much so that smuggling of drink into Sweden has developed all along the coast, and it is asserted that about 5,000 gallons from the Baltic are landed and sold in Sweden every day.

Recently a German ship was said to be anchored outside territorial waters with a cargo of spirits for sale. In order to establish the truth of this alleged rum-running, the correspondent of the Associated Press decided upon a personal investigation. With a friend he embarked on a six ton cutter for this German boat, which was expected off Sandham, and after a pleasant sail in the moonlight came up with the vessel which was riding at anchor with the usual lights showing.

Cordial Welcome.
On halting the vessel we were requested to go aboard and were received cordially by the Captain. "Just waiting for somebody else," he said, "but you are very welcome anyhow." Asked down to the cabin, the visitors explained they were neither buyers of alcohol nor in the service of the customs, but only wanted to learn something first hand about selling spirits on the high seas. The captain was a young Ger-

man, about 30 years old. "You take me for a smuggler," he said, "or bootlegger out for business beyond the law, but you are quite mistaken. My name is Ludwig Wolff, formerly of the German navy. I do no business which cannot bear examination, and would not for anything in the world infringe on the privileges of Sweden. I am in international waters and am entitled to trade here as much as I wish with anybody who wants to do business with me. I can offer you the purest and best whiskies English and American at about \$1.25 a quart. I have the best Danish schnaps for three krona a bottle, and many thousand bottles of German Brandy."

Made 500 Per Cent.
Wolff, referring to himself, explained that he had been paid off from the navy when the armistice was declared, and on hearing of the liquor trade with Norway, he decided to join in. "I am not dealing for my own account," he said; "this business is organized in Hamburg by big capitalists. Liquor in Germany is very cheap and Scandinavian currency very high, so we sell much cheaper than do registered dealers ashore, the profit for us is nearly 500 per cent." He added he expected to get rid of his present cargo within a week and return for more. He made ten trips last year to Norway, and with the same number to Sweden this year he expects to clean up enough for a five years' rest.

UNEMPLOYMENT IN SWEDEN DECREASES

Only 83,000 Now Registered and New Work to Be Done

STOCKHOLM, Aug. 17. — Sweden seems to be approaching a successful solution of her unemployment problem. It has been one of the most difficult that the country had to deal with of late years, and only recently has the government clearly seen light ahead in this troublesome situation.

According to the latest official report of the Government Unemployment Commission, the total number of unemployed in Sweden is now under 83,000 which is less than one-half of the figure recorded at the beginning of this year. About one hundred industrial provincial communities have reported a complete cessation of unemployment, while the general demand for labor shows a decided increase. The government expenses for relief work during the first five months of this year amount to about 31,000,000 kronor, but owing to the rapid reduction in the number of men without work, considerable savings are expected.

Placing Orders
The unemployment situation will be further relieved in the near future by the placing of government contracts for 27,000,000 kronor with various industries. The state railroads are going to place large orders for rolling stock, signaling apparatus, structural steel work for bridges and other reconstruction work. The Waterfalls Board will apply several millions of kronor toward continued electrification, the construction of power stations, and canal repair work, while the Department of Communications will order new telegraph cables and construct new lines.

Minister of Finance Thorson, in a recent speech, said that even when Swedish industries reach the 1914 level of activity there will be about 10,000 supernumerary workers for whom employment must be found, chiefly in agriculture. To meet this situation preliminary work is now being done for establishing agricultural colonies for the unemployed, and the back-to-the-soil project, the minister said, will be one of the main questions for next year's Riksdag to settle.
