WAR VESSELS ARE ON VISIT TO THIS PORT

POSSIBILITY OF MAKING PRINCE RUPERT C.P.R. TERMINUS IS DISCUSSED

Suggests Prince Rupert as Terminus for C.P.R. Peace River to Coast

Persistent rumors indicate that the C.P.R. is active in connection with another railway north of the Grand Trunk Pacific that will tap the Peace River agricultural area, the Ground Hog coal areas and the fine country around the head waters of the Naas River. The Peace River Record tells of survey parties going through and suggests that Naas Bay will be the Pacific Terminus of the line.

A correspondent suggests that Prince Rupert would be the natural terminus for this railway. He says in part:

SENATE STICKS TO AMENDMENT OF LIQUOR ACT

Notes Forty to Thirty Favor of Plebiscite Before Change Made

OTTAWA, June 28.—Despite the request of government leaders that the Senate amendment to the liquor bill be dropped to conform to the wishes of the British Columbia government, the Senate last night supported by forty votes to thirty the provision that British Columbia citizens may continue to import liquor for their personal use until a plebiscite expressed a contrary wish on the part of the citizens.

LOGANBERRY WINE INDUSTRY

Arrangements Made to Make Product Near Victoria for Liquor Board

VICTORIA, June 28.—Arrangements were completed today between the Liquor Control Board and 300 fruit growers in Saanich for the establishment of a wine industry here. The wine will be made from Loganberries which, as a result of tests conducted during the last two years by liquor department officials, is declared to be superior to all other wines. The first output under the arrangements is to be of 5,000 gallons. The producers are to get about two dollars a gallon for the product.

J.P. FOR ATLIN

VICTORIA, June 28.—The appointment of Thomas Kirkland of Atlin to be a justice of the peace is announced by the Premier.

His Majesty's Canadian Ship Patrician, a torpedo boat destroyer, which, accompanied by H.M.C.S. Curlew, arrived in port this afternoon.

Two War Vessels Arrive Today on Visit to Port: Light Cruiser Curlew is Here and Patrician

WAS PLEASED WITH ROUTE

Capt. Watson of Transporter Liked Direct Course Here to Japan

Capt. Watson, of the C. G. M. M. freighter Canadian Transporter, and his officers were delighted with the route from this port which enabled them to set a direct course for their destination in Japan from Triple Island, stated Capt. E. McCoskrie, harbor master, on his return from Triple Island to which point he piloted the big freighter which yesterday pulled out for Yokohama with a cargo of Prince Rupert lumber.

The Canadian Transporter left port shortly after 10 o'clock yesterday morning and was off Triple Island at 1 o'clock. There Capt. McCoskrie debarked and returned here at 4.20 on the launch Pachena.

LOCAL GIRL WINS

Jean McKay, 15 years of age, of Prince Rupert, won first prize in the provincial essay contest on "Our Forests and why we should protect them from fire."

DEATH AT HOSPITAL

August Crooks, Russian, aged 52, died at the General Hospital yesterday afternoon. He came from Queen Charlotte Islands and was in the hospital a week. The remains are at the B.C. Undertaking Parlors.

United States May Seize Those Vessels Carrying Liquor More Than Allowed by Volstead Law

WASHINGTON, June 28.—The increasing number of foreign ships docking in American waters with more liquor than is permitted under the supreme court ruling has brought government officials to the point of considering application of the provisions of the Volstead Act for the seizure of foreign vessels. The situation has been considered at a series of conferences with Secretary Hughes and other officials. Reluctance to invoke the enforcement of the laws in regard to the ship seizure provision is explained by officials as being due to a desire to avoid serious international disputes.

His Majesty's light cruiser Curlew, of the North Atlantic squadron, commanded by Capt. Holbrook, M.V.O., and H.M.C.S. torpedo boat destroyer Patrician, commanded by Capt. Oland, steamed into the harbor at one o'clock today and will remain here until Sunday. The Curlew tied up at the ocean dock and the Patrician is moored at No. 1 G.T.P. dock.

The cruiser Curlew is direct from San Pedro, California, and Prince Rupert is her first Canadian port of call. The Patrician, which is from Quadsino, picked up the Curlew yesterday afternoon at sea, some 70 miles off Quadsino. The ships took the outside passage on their voyage north. The Curlew is manned by a crew of 650 officers and men while the torpedo boat destroyer Patrician has a crew of 60 officers and men.

On leaving here Sunday, the Curlew and Patrician will make for Portland, Oregon, and from there to Esquimalt. Whether or not they will visit Vancouver en route has not yet been decided.

Capt. Holbrook, M.V.O., in command of the Curlew, is the brother of Capt. Holbrook, V.C., who won distinction at the Dardanelles during the Great War.

This is the first visit of the Curlew to the Pacific coast but the Patrician is well known here having been stationed at Esquimalt for some months. She was here last December in the course of a cruise of the coast.

Owing to the fact that the warships arrived an hour ahead of time there were not many people on hand to witness their arrival. However, this afternoon the vessels are the centre of attraction along the waterfront. They present a particularly smart appearance.

The Curlew is the second battle cruiser ever to visit this port, the first having been the Rainbow, late of the Canadian navy.

Smart Landing
The Patrician tied up with despatch at No. 1 dock. Capt. Oland making a very smart landing in-

deed. The Curlew, a much larger boat which entered the harbor first, approached the ocean dock slowly and a landing was made in true naval fashion, the mooring ropes being taken off by Jack Tars in life boats and thereby thrown up on the dock. The vessels will take on water and certain supplies here and, it is understood, will be thrown open at appointed hours for public inspection.

Capt. E. McCoskrie, harbor master, received notice of the vessels by wireless early this morning and made arrangements for the berthing of the ships here.

Up-to-Date Warship
The Curlew is the most up-to-date warship that has ever entered this port and is up to the minute as far as full naval equipment is concerned. She is a low lying craft and is fitted out with cannons, torpedo tubes and all the bristling armor of modern marine warfare.

Mrs. R. R. Grant left on last night's train for Winnipeg where she will visit her son, Archie Grant. Miss Lorraine Grant accompanied her mother. They will visit Fort William as well as Winnipeg and returning will stop off at Fernie, Nelson, Vancouver and Victoria. They expect to be away about two months.

Suggested Plan to Reduce the Number of Seats in Legislature from 47 to 30 in Redistribution

VICTORIA, June 28.—The Oliver Government will bring down a redistribution bill at the next session of the Legislature and will endeavor to have 47 provincial constituencies reduced to something in the neighborhood of 30.

The proposal was announced here today by men prominent in Liberal circles and close to the administration, although it was not possible to obtain official confirmation, premier Oliver being out of town and other ministers declining to make a statement.

Assurance was given on reliable authority that redistribution of seats is the aim of the government and that it will be effected at the October session of the House if possible. It was stated, in fact, that if Oliver, who is named as chief sponsor for the redistribution bill, meets with defeat, he will call a general election shortly after the House prorogues and appeal to the country with a reduction in the number of ridings as one of the major issues of the campaign.

Upwards of fifteen members will lose their seats if the redistribution plan as it is being drawn is carried by the Legislature. Just how the seats will be allocated under the system is still unsettled and this phase of the change is now being worked out.

Considerable support is being given the proposal, which would establish a population basis by fixing certain members for Vancouver and Victoria and then distributing the seats in other districts throughout the province with regard to population in relation to the two principle centres. Economy is the motive behind the plan for reduction and that is one important point which the government expects will appeal to the people.

FISHERIES PRODUCTS OF BRITISH COLUMBIA INCREASED LAST YEAR

OTTAWA, June 28.—The value of the fisheries products of British Columbia in 1922 was \$18,872,833 as against \$13,953,670 in 1921, an increase of 35 per cent.

Salmon fisheries in 1922 represented a value of \$13,106,315 and an increase of 69 per cent over the previous year.

The halibut catch was smaller than in 1921. Whaling operations were suspended in 1921 but resumed last year showing product valued at \$158,815.

DIED AT FUNERAL

LONDON, June 28.—During the funeral of her husband, Brig. Gen. Sir Robert Benwick Gopley, Lady Gopley died suddenly yesterday.

BURNS TO ERECT BUTCHERING PLANT AT PRINCE RUPERT

VANCOUVER, June 28.—P. Burns & Co., Ltd. are planning to erect a killing plant in Prince Rupert and plan to use about two cars of cattle a week, getting as many as possible from the country adjoining the western lines of the Canadian National Railway through central British Columbia. In the autumn when a great many beef cattle may be available, Bulkley Valley beef will be shipped to the plant at Edmonton.

CRITICISM OF TREATY MAKING

Meighen Objects to Independent Move of Canadian Statesmen at Washington

UNREPENTANT SINNER

OTTAWA, June 28.—Following three hours of sharp debate, the House of Commons approved the North Pacific halibut fishing treaty between Canada and the United States. The treaty itself was little criticized but the manner of affixing the signature to it was. Hon. Arthur Meighen claimed that Minister of Marine Lapointe by signing on behalf of the British Government had figuratively speaking kicked Sir Auckland Geddes out of the door. Mr. Meighen asked why it was necessary constantly to emphasize and magnify before the world the desire on the part of Canadian to disassociate themselves with the Empire.

Mr. Lapointe replied that Canada was of age and able to sign promissory notes without her guardian's endorsement. If his action in signing alone was a sin, he was an unrepentant sinner.

Premier Mackenzie King urged that the treaty was one concerning Canada alone and required only Canada's signature as the responsible nation.

Some of the members of the House opposed the criticism of Mr. Meighen and said that the action of the United States in attaching a rider to the agreement making it applicable to other parts "of Great Britain" was an affront to Canada.

SIR HENRY THORNTON IS GONE TO SEATTLE VICTORIA ON FRIDAY

VANCOUVER, June 28.—Sir Henry Thornton and party arrived here yesterday. In an interview with the newspapers Sir Henry said the Peace River branch of the Canadian National would certainly be built, perhaps next year, from a point to be settled on after the surveyors now on the ground had reported.

The railway president went on to Seattle last night and will visit Victoria Friday.

OTTAWA, June 28.—"I have no intimation of anything of the kind," declared Premier King last night when referred to a dispatch in a Toronto paper that Sir Henry Thornton may resign from the Canadian railways because of parliamentary interference.

Mrs. H. H. Hemmings is leaving the city on Saturday on a combined business and pleasure trip to Calgary via Vancouver. While in Calgary, Mrs. Hemmings will visit her daughter, Mrs. W. Bebb, and will also visit another daughter, Mrs. J. H. Smith and her son, Frank Hemmings, in Vancouver.

DAILY EDITION

Thursday, June 28, 1923.

Road To Canneries Is To Be Built.

The provincial government may make a start this year on the actual construction of the road to the canneries, is the announcement made by Hon. Dr. Sutherland, minister of public works, who was here at the beginning of the week. That is good news to us all. The fact that survey work is going on and that estimates are being prepared as to cost is one of the encouraging features. The government is realizing that the road is a modern necessity and they will get busy on it. The next move will be to arrange for the city to connect up its end.

Higher Taxes On Timber Likely.

Holders of timber will in future have to pay exactly what they owe the government. In the past there has been no way of determining just what timber was on the land and the taxes have often been too high and more often too low. The tax is based on the value of the timber.

The government is now cruising all the timber of the province with a view to making adjustments. This cruise will be valuable for taxation purposes and it will also be valuable to the owners of the timber, many of whom are finding that the original cruise conducted on behalf of vendors was not correct. It will be of value to purchasers of timber as a check on what might possibly be false estimates of quantities.

The change in the valuations will add to the revenue of the province slightly, more than enough to pay for the cost of making the cruise.

Levy On Capital Is Latest Move.

The old time socialist wanted to immediately confiscate all property. He orated from the soap box and inveighed against the evils of capitalism, often with considerable effect, but in the aggregate he did not get far because every person is at heart a capitalist.

Now the method is changed. He is now urging that the change be brought about gradually and is advocating a levy on capital. Instead of taking all the property at once he would do it a little at a time and to enlist the sympathy of the small capitalist he would exempt the small man from the levy.

The custom has been to raise the income of the country by taxing incomes. The capital is allowed to remain intact but a goodly portion of the income derived from it goes to the state, and the greater the income the greater the proportion the state takes. The goose which lays the golden egg has remained untouched but the egg has been taken.

To change that method and begin to take the principal as well as the interest is a change of policy that has never been inaugurated in any civilized country. Kings at one time made levies when they ran short of cash and such things have been done in China by semi-brigands, but the principle is a most dangerous one. It is doubtful if it will ever be adopted in any English speaking country.

Interesting Speculation Regarding C.P.R.

Interesting speculation in regard to the possible next move of the C.P.R. is going on all over the west. No one seems to know anything but there are plenty of people who pretend to have inside information.

There is no doubt but the country to the north of us will be opened up before long and it is likely it will be done under private auspices rather than by the National system. The C.P.R. look over the old Mackenzie & Mann charter to build from Peace River to Stewart, but the terminals are never very definitely fixed in a charter and are usually subject to change. Any railway will make a thorough investigation before finally deciding on the location and many different factors will determine the route. What we say, what Stewart says, or what the people along the route say has little influence. The project is so stupendous that minor considerations have to be swept aside and the general usefulness of the line considered.

GEORGE WALLEY GETS 6 MONTHS

Pleaded Guilty in Police Court This Morning to Charge of Breaking and Entering With Intent

George Walley pleaded guilty in the police court this morning before Magistrate McClymont to charges of driving a motor vehicle while under the influence of liquor and to breaking and entering the residence of Charles Youngman, Graham Avenue, with intent to commit an indictable offence. Electing for summary trial before the magistrate, he was fined \$200 or six months imprisonment on the first charge and a sentence of six months at Okalla was imposed in the second, the terms to run concurrently. W. G. Fulton, of Patmore & Fulton, appeared for the accused.

Mr. Fulton asked to make a statement on behalf of the accused before sentence on the second charge was made. He explained that Walley had been raised in the city and had shown promise as he was growing up. A year or so ago he got in with bad company and had gone into what he now realized was a bad business, that of taxi driving. He had gone from bad to worse and had been drinking a lot. Finally he had gone fishing and had returned the night before the morning in question. He had been up all night the night before, having taken a shift with the taxi on request of his partner. Having been drinking heavily that night, he had taken a ride on the morning in question to clear his head. Walter Scrimgeour had accompanied him.

Incapable Condition

The cold air or the bad liquor he had been drinking must have affected him for when he arrived at Section 2 he realized that he was not in a fit condition to drive the car. He knew where Mr. Youngman lived, having taken him there previously in his car. He did not know Mrs. Youngman, however, and had never met her before. On arriving in front of Mrs. Youngman's house, he got out of the car, telling Scrimgeour that he was going to phone into town for a man to take charge of the car. By this time he was "crazy drunk." He did remember having had a conversation with Mrs. Youngman but did not remember anything that transpired thereafter. This was confirmed by the fact that when he left the house he had taken two gramophone records with him. He had acted in a discreditable manner but if he appeared he did not know what he was doing.

Mr. Fulton also referred to a case at the recent Assizes where a man, pleading guilty to a serious offence, had been let off by the judge because it was proven that he had been drinking and was incapable, not knowing what he was doing. He submitted that Walley was absolutely incapable as had been shown by his actions. Though a plea of guilty was being entered, he (Mr. Fulton) felt that all the circumstances should be taken into consideration and a moderate prison term imposed. A long sentence might prove the turning point to a life of crime.

Magistrate's Advice

Magistrate McClymont, addressing accused, said that Mr. Fulton had put in a fine plea on his behalf. Accused must be intelligent enough however, to realize the danger to the community of people running wild as he had done.

"I do not like to give a young man like you a long prison sentence though this is a serious offence," continued the magistrate. "It is evident to me that you have been in bad company and, perhaps being easily led, it has run away with you. I do not think, however, that I would be doing my duty to the community in letting you off with a warning and I am also doubtful if such action would do you any good. I therefore sentence you to six months at Okalla Prison Farm and my advice to you is that, when your term has expired, you remain away from this city to prevent your getting into the same trouble again or worse."

Fred Stark was the speaker at the weekly luncheon of the Rotary Club today.

Prosperous advertising means regular continuous advertising.

The Secret of Its Success

THE SALVATION ARMY not only believed that there was hope for the worst, it went after the worst—in the slum, in the gutter, in the prison—

It is still doing this all over the world

YOUR contribution to The SALVATION ARMY Annual SERVICE APPEAL is a wise investment in practical Christianity.

Annual Service Appeal

Adjutant Kerr, financial representative, asks only that he be given the funds with which to serve the community for another year.

BUSY DAY FOR SYNOD MEMBERS

Anglicans Deal With Questions Affecting Church at Gathering Yesterday

Following the "charge" of Archbishop Du Vernet already reported the Synod settled down to a full day's work. The roll call revealed a very full attendance only three of the clergy in the diocese being absent, the difficulties of travel from their remote stations being the cause. These three were Rev. G. Moss of Allin, Rev. O. Thorne of Aiyansh, and Rev. F. P. Thorman of Telegraph Creek. Those present were: Rev. R. E. W. Biddell, Smithers; Rev. J. S. Brayfield, Telkwa; Rev. Geo. J. Gray, Nechaco; Rev. J. B. Gilson, Anyox; Rev. J. B. Gillett, "The Western Hope"; Rev. E. Hodson, Ocean Falls; Rev. J. H. Kerr, Burns Lake; Rev. Rural Dean Marsh, Terrace; Rev. T. D. Proctor, Hazelton; Ven. Archdeacon Rix, Prince Rupert; Rev. Canon Rushbrook, "The Northern Cross"; Rev. Wm. Sweetman, Endako; Rev. Canon Simpson, field secretary for General Board of Religious Education was also present by invitation. The lay delegates were: G. P. Tinker, representing Anyox; Miss Du Vernet, Stewart; Miss Inez Smith, Hazelton; S. Kinley Kitwapa; C. V. Kvitt, Smithers; W. C. Grehard, Prince Rupert; G. Whitehead, Prince Rupert; S. Bazett-Jones, Terrace; R. Lepine, Georgetown; Mrs. Campbell, Glentannar.

The reports of the executive committee and the secretary treasurer took up all the time allotted to the morning and afternoon sessions. The interesting feature of the executive committee's report was the bringing out from the clergymen in charge of the various districts and missions their financial strengths and weaknesses, by the raising of amounts these districts and missions were assessed to pay towards the main upkeep of the diocese. In each case a splendid spirit of loyalty to strive to the utmost to accomplish the task set by the ruling body was outstanding.

G. V. Exall, secretary, who was again elected to fill that position was complimented on his report for its clearness and lucidity. It satisfactorily explained all queries put to him by those wishing further enlightenment on his figures.

Mrs. George Eckerman and daughter arrived yesterday afternoon from the south to join Mr. Eckerman, storekeeper at the Prince Rupert cannery.

P. H. Leigh, of Gavin & Leigh, Vancouver confectioners, is in the city on business having arrived from the south on the Prince George yesterday afternoon.

J. S. Rogers, accountant for the Prince Rupert Bi-Products, Ltd., Tucks Inlet, returned yesterday afternoon by the Prince George from a business trip south.

The Standard Oil tanker J. A. Moffatt is due this afternoon at 3 o'clock from San Francisco with 60,000 barrels of fuel oil for the local Imperial Oil Co.'s tanks.

L. Jessen, district manager for Boyle Bros., Spokane diamond drilling firm, was passenger bound from Vancouver to Anyox on the Prince George yesterday afternoon.

Miss Tassie, matron of the Anyox Hospital, was a passenger bound north on the Prince George yesterday afternoon returning to her duties after a holiday trip south.

The Anglican Synod district meeting which is in progress in the city reached its final stage today with the receiving of reports. The session will close this afternoon, it is expected.

R. H. Marfall, superintendent of the Massett Timber Co.'s mill at Buckley Bay, arrived from Vancouver on the Prince George yesterday afternoon and crossed to the Islands on the Prince John last night. He has been south on a holiday trip.

Alfred Fraser brought in some fine specimens of red top and timothy pulled on the townsite this morning. The red top measured 4 ft. 8 in. and the timothy 4 ft. in length. Calculations as to the value of a hundred acre plot are now in order.

Miss Betty Weller of the hospital nursing staff left last night to spend her holidays near Massett as guest at the home of Mr. and Mrs. Frank Ward. Miss Ward, who has been attending the high school here, will go over on the next steamer.

A deal for the transfer of the Kleanza Co.'s sawmill at Usk to a Minneapolis syndicate is still pending and no definite decision has yet been made as far as is known locally. William S. Jenkins, of the party of capitalists who visited here several weeks ago in connection with the matter and upon whose advice further negotiations are dependent, has been seriously ill ever since he returned East and has not been allowed to talk business. It is understood, however, that the prospects for the taking over and future operation of the Kleanza mill are still bright.

CARD OF THANKS

Mrs. J. Ogilvie and Mr. J. Cameron wish to convey their sincere thanks to the G.W.V.A., the L.O.L., and all other friends for their kindness in connection with the funeral of the late R. Ogilvie.

Package of 10 now 18¢
2 Packages " 35¢

Dissolve in boiling water

Use enough to get a big lasting suds

Big lasting suds—one secret of Rinso's amazing power to dissolve dirt. If you don't get lasting suds, you have not used enough Rinso.

After soaking, only the most soiled clothes need a light rubbing with dry Rinso.

Your clothes don't need boiling if you use Rinso. But if you like to boil your white cottons, use enough Rinso solution to get the suds you like.

NOTE: In hard water it takes from 3/4 to 1 package of Rinso to a tub to make good suds. In very hard water you will need from 1 1/2 to 2 packages to a tub to get the big lasting suds that loosen all the dirt.

Steel beams and other material for the repairs to the interior of the Bank of Montreal having arrived, work is proceeding with despatch. So as not to disturb the business of the institution during the day, Mitchell & Currie, the contractors, are doing the most of the work during the evening and at night.

MENUS SUGGESTED TO INVITE APPETITE

A new device for saving passengers trouble has been adopted by the Dining-Car Service of the Canadian National Railways. Throughout the coaches on all trains to which Dining and Cafe Cars are attached, little dodgers are now distributed before each meal, with several suggestions for a suitable combination of dishes. These dodgers are printed both English and French. This gives the patron of the Dining-Car a little time to decide upon what he will order later, and eliminates the tiresome necessity of studying a large menu card. If the traveller is accustomed to set a limit of price upon his meals, there is no need whatever to exceed it. The prices for a complete menu for breakfast, dinner and supper are most moderate, ranging from 35c to \$1.25. Having made his choice according to his pocket book and appetite, upon entering the Dining-Car, the traveller will find himself served as quietly and satisfactorily as he would in any well appointed home.

BIG HOLIDAY BILL OFFERED

There Will be no Excuse For Those Wanting Entertainment to Leave the City on Monday

If entertainment is desired, there will be no reason for anybody to leave town next Monday when the Sons of Canada stage their annual Dominion Day celebration. A most attractive bill of sports is to be offered fraught with general interest from the parade in the morning until the dance in the evening. Several features, besides the usual celebration events, are on the program which is as follows:

9.30 a.m.—Children's parade, headed by North B. C. Regiment Band, from old government buildings on Second Avenue to Aeropolis Hill. 10 a.m.—First inter-school field and track meet to be held in Northern B.C. 1.15 p.m.—Baseball, Anyox vs. Prince Rupert. 3.30 p.m.—Senior football for Dominion Day cup. 6.45 p.m.—Baseball, Anyox vs. Prince Rupert. 9.15 p.m.—Maple Leaf dance in Auditorium.

GIL'S DEFEAT GROTTO AGAIN

Ill Feeling Marked Last Night's Senior Baseball Game; Umpire Left Field

Gil's won last night's Senior League baseball game over the Grotto by a score of 18 to 10. It was a loose game on the whole and ill feeling was apparent at times culminating in the fifth inning when P. Laporte, umpire, quit the field over remarks made by Harvey Fraser, manager for the Grotto, who took exception to certain decisions. This was an unfortunate development and while some of the fans seemed to enjoy the squabbling which showed signs of developing into fistfights, others didn't appreciate it and the general feeling was that the umpire's decisions, right or wrong, should be accepted.

Gil's piled up nine of their runs in the fifth inning when Alex. Roy, who had entered the box replacing Walls, went to pieces showing signs of the same discomfiture which was apparent among others of the Grotto camp. There were also many errors in the Grotto field. Outside of the fifth inning, play was pretty even as far as scoring was concerned. First to hit, the Grotto made no runs in the first and Gil's made four. The Grotto came back in the second with five and in the third Gil's made one and evened up. The Grotto made four in the fourth and Gil's three and at the first of the fatal fifth, the Grotto was leading 9 to 8. The nine runs put Gil's away in the lead by 17 to 9. In the sixth each side made one run and in the seventh there was no scoring.

In the fourth inning, Walls made a home run for the Grotto and scored two men ahead of him, Elmer Smith and Sam Handenschild.

Pitchers Change Montgomery pitched the first two innings for Gil's and was replaced at the first of the third by Howard Frizzell. Walls pitched till the end of the fourth for the Grotto and then exchanged positions with Alex Roy from short. In view of the nine runs Gil's made in the fifth, the

Stomach Trouble "Indigestion" Relieved by Burdock Blood Bitters

There Will be no Excuse For Those Wanting Entertainment to Leave the City on Monday

The sufferer from dyspepsia, indigestion or other stomach troubles who has to pick and choose his food is the most miserable of all mankind. Even the little that is eaten causes much torture, and is digested so imperfectly it does but little good. Before you can eat heartily and enjoy your food, you must put your stomach right so that it will manufacture its own digestive ferments. Mr. Wm. Kruschel, Morden, Man., writes: "Some time ago I had quite a serious case of stomach trouble, indigestion. I could scarcely eat anything, outside of some light food, and even then I generally had pains after each meal. I tried many different medicines, but without any improvement, and had almost given up hope of ever being well. A neighbor recommended Burdock Blood Bitters, and after using it a short time I felt much better, so I continued to use it until I was completely relieved. I can honestly say that B. B. B. has done wonders for me after all other medicines failed."

B. B. B. is put up only by The T. Millburn Co., Limited, Toronto, Ont. change proved unfortunate and was perhaps responsible for the result of the game. Strike-outs were as follows: Walls (four innings), 1; Alex. Roy (three innings), 3; Howard Frizzell (five innings), 8. The game went seven innings, Gil's not coming to bat in the last.

TRAP SHOOTING IS PROVING POPULAR

Thirteen Marksmen Turned Out on Park Avenue Range Last Night—Automatic Trap Is Ordered

The trap shooting meets of the Prince Rupert Gun Club on Wednesday evenings at the Park Avenue range are ever becoming more popular. Last night thirteen marksmen turned out, Al Field being the high man with a score of 21 out of 25. The club has wired for an automatic trap for trophies later in the season when all equipment has arrived. The scores last night out of 25 were as follows: Al Field, 21; Joe Flood 17; C. W. Kirkendale 16; Jack Keefe 16; Harry McLeod 15; Joe Scott 14; W. Watts 11; Dr. Doherty, 9; Capt. C. B. Smith 9; Jack Barnsley 8; J. A. Lindsay 5. Harry Welford made 3 out of 10.

Playing with the Anyox visitors next Monday in connection with the Dominion Day celebration, local baseballers will have their first opportunity of the season of testing their talent with an outside aggregation. Despite the fact that a number of good players have left the city since last season, there is still a good array of baseball strength here and the local players have every confidence that they will be able to cope with the men from the smaller town which boasts this

Sport Chat

The Dominion Day cup preliminary football game between the Sons of England and Grotto on Monday night was said to have been the most hotly contested engagement so far this season. It is, therefore, to be expected that the replay on account of the first tie which takes place tonight will not be lacking in vigor of the players and interest to the spectators. The Grotto, it is understood, were not altogether satisfied with the outcome of the first affair and are out tonight to make their rivals extend themselves for all they are worth. On the other hand, the Sons have all confidence in their ability of changing the tie into their victory.

The Sons of England are fielding the following team: Goal, Hemmonds; right back, Lambie, left back, E. Craggs; half back, Shaw, Kelsey and Tinker; forwards, Hamilton, Hodgkinson, Ford, Johnson and Farquhar. The Grotto will field the following team: S. Gawthorn, goal; H. Hamilton and George Waugh, backs; P. McGowan, Alex. Roy and J. M. Campbell, half backs; J. Joyce, J. Campbell, S. Erskine, H. Gawthorn and J. Andrews, forwards; B. Barrie, George Howe and Fred Hardy, reserves.

year the best baseball talent in its history. The two games on Monday should prove of exceptional interest.

ROBIN HOOD SHOWS FOR THREE DAYS AT WESTHOLME THEATRE

Owing to the unusual interest taken in Robin Hood, the big feature picture featuring Douglas Fairbanks which has been awaited with interest for some weeks, it has been decided by the management of the Westholme Theatre to show it three days instead of two. It will be on tonight and the second show will not commence until 9.15.

TO HAYSPORT WAY OF LAKES

H. C. Black Is Making Preliminary Survey From Port Edward up River

In connection with the interview with Hon. Dr. Sutherland published yesterday, in which it was stated that the road was being surveyed as far as the canneries on the Skeena River with a view to building the road, commencing possibly this autumn H. C. Black is doing the work. He is making a preliminary survey to see if it would be possible to get as far as Haysport or Tyece. It is expected that the road will cross from the Island at Galloway Rapids and thence to Port Edward, up Wolfe Creek and by way of Diana and Rainbow Lakes. A rough estimate of the cost will be prepared.

CALEDONIA WOMEN'S AUXILIARY ANNUAL MEETING TUESDAY

More Delegates Than Ever Before Were Present—Officers For Year Elected

The Caledonia Women's Auxiliary annual diocesan meeting was held on Tuesday afternoon in St. Andrew's Church Hall, the president in the chair.

Reports were read from outlying parishes and short addresses were given by Mrs. T. W. Herra on "Prayer Partners" and Rev. Canon Simpson, of Saskatchewan, on "Missionary Education."

There were more delegates from outside branches at this meeting than ever before.

Officers for the year were elected as follows:

- President, Mrs. F. H. Du Vernet.
- Honorary vice-president, Mrs. G. A. Rix.
- First vice-president, Mrs. E. McCoskie.
- Second vice-president, Mrs. B. L. Melgosh.
- Secretary, Mrs. G. Whitehead.
- Treasurer, Miss West.
- Secretary of girls, Miss Alice Du Vernet.
- Secretary of juniors, Mrs. J. H. Pillsbury.
- Secretary of little helpers, Mrs. H. St. G. Lee.
- Literature secretary, Mrs. B. Blance.
- Thank offering secretary, Mrs. Wallace G. Orchard.
- Envelope secretary, Mrs. A. E. Bazett-Jones.
- Doreas secretary, Mrs. W. E. Collison.
- Prayer partner secretary, Miss R. M. Davies.
- Leaflet message editor, Mrs. Adam Mackie.

ENID BENNETT IS IN FAIRBANKS FEATURE

Has the Role of Maid Marian in Robin Hood, Super-Production Here Tonight

"The strength of a nation has always been in the beauty of its women, and civilization never would have been advanced so remarkably had there been no such beauty to wield such potential in-

Nerve-Worn Women Gain Strength and Vigor by Using Dr. CHASE'S NERVE FOOD

fluence." This is the unqualified statement of Enid Bennett, who appears in the role of the Maid Marian opposite Douglas Fairbanks in his elaborate screen version of "Douglas Fairbanks in Robin Hood," showing this week end at the Westholme. In the course of the unfolding of the dramatic drama abounding in this cinema classic, Miss Bennett's characterization proves to be a series of charming activities. She charms Robin Hood to such an extent as to inspire him to perform great deeds of valor and to prove himself an unerring exponent of the highest form of chivalry, a manly element which predominated in England during the Twelfth Century as it never has since, Miss Bennett says:

"All women do not meet the requirements of physical standards set by artists and sculptors, but there is beauty in every woman and there is always somewhere a pair of masculine eyes to detect it and a heart to respond to it. The women of today are the women of yesterday—only their dress is different. Their method of dominating man is the same and their influence over advancing civilization is undying."

FISH ARRIVALS

Seven Boats Sold 63,500 Pounds at Exchange Yesterday

Seven halibut schooners sold catches totalling 63,500 pounds at the Fish Exchange yesterday, three American boats having 21,000 pounds and four Canadians, 39,500 pounds. Top late for the sale, the American schooner Tom and Al arrived with 65,000 pounds and held over until today.

Yesterday's arrivals and sales:

- American**
 - Cora, 5,500 pounds, and Eagle, 5,500 pounds, at 15.3c and 16c to the Pacific Fisheries.
 - Venus, 13,000 pounds, at 15.4c and 16c, to the Booth Fisheries Canadian Co.
- Canadian**
 - Ethel June, 5,500 pounds, at 13.6c and 14c, and E. Lipsett, 9,000 pounds, at 13.3c and 10.5c, to the Canadian Fish & Cold Storage Co.
 - Gibson, 15,000 pounds, at 13.7c and 10.7c, to the Alin Fisheries.
 - Nuba, 10,000 pounds, at 13.5c and 10.5c, to the Pacific Fisheries.
- Salmon**
 - Victor, 2,800 reds and 500 whites, to the Alin Fisheries, at 10c and 2c.
 - Douglas, Jack, who was here last year on the staff of Ormes Drug Store, returned to town on the Prince George yesterday afternoon.

In the Letter Box

PRICES AND PANICS

Editor Daily News.

In a recent issue the Daily News outlined the general conditions that prevail during the so-called cycles of prosperity and depression, but left unanswered the question of a remedy. This would be a difficult task, no doubt. A reason why such periods occur might be ascribed to what seems to be a natural law, that one extreme follows another.

It is generally accepted as a fact, that prices are an important factor in increasing or decreasing production, and in order that production may be continuous and sufficient to meet requirements, without creating too much surplus, it has been suggested that prices should be stabilized. It is clear that unless the use of a commodity keeps pace with its production a surplus must result, and during an industrial boom, is what happens.

Rise and Fall

The rise and fall of prices are due to various causes, but there is a difference between the price of a thing and its value that is too often overlooked. A price is the prerogative of a seller and in some instances can be arbitrarily placed, because of artificially created conditions and other circumstances and often does not reflect the value of the article on which it is placed.

Productive value on the other hand is controlled by the primary economic law of production and use and not by legislation nor artificial methods and unless the price of a thing conforms somewhat to its value it cannot be maintained. A monopoly, for instance, may fix a price for a commodity, but in order to maintain it must either of itself or by understandings control its production. Even then, it cannot regulate its use, which may either increase or decrease because of economic reasons, with the result that its value would be affected which in time would affect its price. During the war the greatly increased use of many things particularly metals, greatly increased their values and thereby caused an advance in prices, but at its cessation the use of such was greatly lessened and in some instances abolished and in the latter cases they became valueless and without a price. For this cause prices cannot be indefinitely fixed because values cannot be controlled arbitrarily. When however, the value of a thing changes, a change in its price is justified.

Fictitious Values

One cause of undue industrial expansion and credit inflation is the fluctuating value of the medium of exchange. When the value of the monetary unit decreases, it has the effect of placing a fictitious value on all things that it measures, whether such is recognized or not, and sooner or later results in increased prices which are usually followed by increased production, etc. If the value of a dollar should decrease ten per cent, prices expressed in terms of that dollar should be advanced ten per cent, because of the defect in the measure and because it would retain its title, and in order that value be given for value.

In order to stabilize prices in so far as they are affected by monetary conditions, it has been suggested that the value of the dollar (which means gold) should be fixed. In defence of this theory it might be pointed out that although the gold dollar is the same in appearance, weight and fineness as that of thirty years ago, its value and purchasing power are not, and that this change in value has had a far-reaching effect on prices and trade conditions no observer can deny.

International Co-operation

Again consider the impracticability of advancing prices as has been done in the States lately with the dollar that was in circulation in the latter part of the last century. Further, when money is the cause, prices of everything that it measures advance in unison which is the case during periods of inflation, with rare exceptions.

The value of gold can be approximately stabilized by international co-operation in controlling its production and regulating its use, which would largely prevent fictitious prices, that lead to extremes in industry and commerce. That the paper substitute of gold should be stabilized goes without saying. Owing to the unequal distribution of gold (as a gold famine exists in many places while in some, it is so plentiful that it has set up inflations) and because inequality as opposed to uniformity seem to be a rule of nature that pervades every state of existence and renders co-operation (except it be limited) among men and consequently nations, difficult, the stabilization of the value of gold may be a long way off. It has

On the Mountain Top

CLIMB the mountain—stand on the peak—and before you there unfolds a panorama extending as far as your eye can reach. Stay in the valley, and your view is restricted by the surrounding hills.

This newspaper, properly used, will guide you to the mountain top. Read it and your vision is enlarged. You get a bird's-eye view of world events. You glimpse the doings of the day.

Fail to use it, and your view is limited—you remain in ignorance not only of events at home and abroad, but of much that concerns you even more vitally—news of the very things that have to do with your personal, everyday life.

Some one might be selling a new, better and more economical food; or a utensil that would add immeasurably to your comfort and well-being; or some better material for shoes or clothing—but you would never know, because of your restricted view.

You may read every line of the news columns, but if you overlook the advertising, you are still living in the valley. You remain uninformed about many things you ought to know in order to live a happy, useful, profitable life in this age of progress.

Climb out of the valley to the mountain top. Read the Advertisements.

ADDRESSES AT CHURCH SYNOD

Rev. James Gillatt Showed Pictures and Rev. Canon Simpson Spoke on Religious Education

Last evening in St. Andrew's Church Hall in conjunction with the session of the Anglican Synod which is now in progress in the city, a public meeting was held at which Rev. James Gillatt, of the mission launch Western Hope, gave an illustrated address and moving picture exhibition and Rev. Canon Simpson, of Calgary, western field secretary of the Board of Religious Education of the Anglican Church, spoke on "Religious Education." Archbishop DuVernet presided and the attendance was large and representative.

Rev. Mr. Gillatt's moving picture exhibition, which occupied the first part of the program, was both interesting and amusing and demonstrated to local people the value of the work which he is carrying on at the Queen Charlotte Islands. His first film was an educational one entitled "Our Enemy the Wasp" which was portrayed minutely, the life and habits, etc. of the pest. The second picture was a domestic comedy.

Canon Simpson dealt with the various phases of religious education and emphasized especially the work of the Sunday School by

SYNOPSIS OF LAND ACT AMENDMENTS

Minimum price of first-class and second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership is abolished, but parties of not more than four may arrange for adjacent pre-emption with joint residence, but each necessary improvements on respective claims.

Pre-emptors must occupy claim for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres before receiving Crown Grant.

Where pre-emptor in occupation of less than 5 years, and has made no improvements, he may, by purchase of 10-acre or other, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$20 per acre and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his former, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads, title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company. Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased on conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditionally upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT. The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or surviving of a deceased pre-emptor may apply for title under the Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the great war. This privilege is also made retroactive.

No fees relative to pre-emptions are due or payable by soldiers on pre-emption recorded after July 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1918, on account of payments, fees or taxes on soldiers pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents acquired direct or indirect, remitted from enactment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS. Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING. Grazing Act, 1915, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued, based on numbers ranged, priority for established owners. Stock-owners may form associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

Shortest Haul. The shortest possible haul to tidewater would be given for Western Canadian wheat, the distance from Peace River to Naas Bay being only about 415 miles over the route which a railway line would follow, as against over 800 miles to Vancouver. A new road over this route would place Edmonton nearly 100 miles closer to tidewater than at present, and would make possible the handling of all western wheat from the Manitoba-Saskatchewan boundary at a lower rate than would be possible eastward.

HEART PALPITATED and Was Short of Breath

Through one cause or another a large majority of people are troubled, more or less, with some form of heart trouble. Many people may be unaware of having anything wrong with their heart till some little excitement, over-work or worry starts it to palpitate and throb, skip beats, beat fast for a time and then so slow as to seem almost to stop, then it causes great anxiety and suffers. To all such sufferers

Milburn's Heart and Nerve Pills

will give prompt and permanent relief. Mrs. Alice Bishop, 15 Hawthorne Ave., Hamilton, Ont., writes: "I take pleasure in recommending Milburn's Heart and Nerve Pills to all persons troubled as I have been."

I suffered from palpitation of the heart and shortness of breath; my heart would skip beats, and in the night, at times, I would have to sit up to get my breath. I could not go up stairs without my heart fluttering, and my nerves were all unstrung, but since using your famous Pills I have felt like a different person."

Price 10c a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

post which is being carried on most successfully on the prairies. In connection with the address, Canon Simpson exhibited specimens of the literature which are being circulated. The address proved very interesting to the audience.

SUGGESTS PRINCE RUPERT AS TERMINUS FOR C.P.R. PEACE RIVER TO COAST

(continued from page one)

coast are given added color by development of the past few days.

"While it is highly improbable, according to the opinion of many people, that the C.P.R. will ever take over the P.G.E., there are many reasons to believe that the big corporation has in view as an ultimate development the opening of a northern line to the coast, the terminus probably being at Naas Bay, where the company already has large holdings, and which is the nearest ocean point readily accessible from this section of the country. The C.P.R. is also reported to have large holdings of coal and timber in the country lying between Hudson's Hope and Naas Bay, and of the three parties, of mining engineers now inspecting the iron deposits of the Hudson's Hope field, one is reputed to be working in the interests of the big railway company.

Making Reconnaissance. "A party of men believed to be engaged in reconnaissance work are now on route from Spirit River to Hudson's Hope. Mr. Douglas Simpson left Spirit River on Sunday last to join the other members of the party at Pouce Coupe to make a prospecting tour of the country in the interests of the C.P.R. Their plan is to cover about two hundred and fifty miles west from Hudson's Hope, for which purpose guides and transport were arranged by local men at Spirit River.

"That there are many advantages to be gained by having a new railway terminus at Naas Bay is shown in the activities of the C.P.R. in connection with the silk trade. During the past two years competition has been keen between American railway railways and the C.P.R. for the handling of the silk shipments from the Orient, in connection with which speed is the largest factor. The C.P.R. has been enabled to compete with other roads and give a service several hours quicker than any American road by operating their special silk train schedule. A port at Naas Bay, however, would be 500 miles nearer the Orient than the port of Vancouver, and with direct rail connection through Edmonton this would give an advantage in the handling of Oriental trade against which no American road could possibly compete in point of time, and would result in diverting a large proportion of it over the new route.

TO WHOM IT MAY CONCERN. Please take notice that Mr. T. M. Wilkie has terminated his agreement with the undersigned as representing the Board of Marine Underwriters of San Francisco and is no longer acting for me in any capacity.

S. CULLINGTON, Surveyor to the Board of Marine Underwriters of San Francisco for British Columbia. 154
