BIG WEEK END RAID ON IRISH PLOTTERS

WHILE SENATE OF U. S. FAILED TO PASS TREATY IT WILL BE ENFORCED

*Silent Raid on Irish Suspects
in Britain Results in Hundreds
Being Deported to Native Land*

LONDON, March 12.—A swift and silent raid upon Irish suspects in Great Britain created something of a sensation here developments are awaited with much curiosity.

Judging from the customary reticence of the Free State government, however, it seems unlikely much information will be given out. A statement on the subject in the House of Commons may fill gaps in the story.

DUBLIN, March 12.—Nearly 300 prisoners taken in the recent raids in England and Scotland, it is understood, have landed here from British warships, two hundred men from the balance, including about thirty women, from another.

All were convoyed under heavy armed guard to jail.

**ARRESTS MADE

Eight Landed at Dublin
From England Custody of
Troops

DUBLIN, March 12.—Ninety men and women arrested in England and Scotland were landed here yesterday in custody of Free State troops. No explanation has been given out regarding the offenses with which they are charged but it is understood they have been involved in a plot against the Free State government.

Bjornstad, the deceased, is accompanying the body East and some or 40 local masons made an effort from the B.C. Underwriters' Parlors to the train.

**MRS. WRINCH
DIED SUNDAY**

Wife of Well Known Interior Medical Missionary Passed Away at Hazelton

VANCOUVER, March 12.—Warrants have been issued for the arrest of Edward J. Donohue, formerly general manager of the Britannia Mining and Smelting Company on a charge of misappropriating company funds to an amount estimated at more than \$100,000. He was last heard of in Oklahoma and the United States police are asked to assist in locating him.

Donohue had been with the company fifteen years and during the last three, up to the time he resigned a year ago, he was general manager.

The information was laid against Donohue by W. J. Quigley, of El Paso, Texas, vice-president of the company.

**Railway Company Owes
City \$339,000 Default
on Taxation Contracts**

A brief has been prepared by Ald. Collart showing that \$339,000 has been saved the G.T.P. Railway Co. in the past eleven years through taxation agreements with the city. It is pointed out that the company made certain pledges to the city in connection with its development program in return for concessions and failed altogether to carry them out while the city fulfilled its end of the contract.

The document will be given to Hon. T. D. Pattullo and E. C. Gibbons, local delegates to Ottawa who will leave on Wednesday night for the East, to be used as an argument in their case for railway and port development at Prince Rupert.

Halibut Treaty Fails to Become Law but There Will be no Fish Taken by Boats after November 15

SEATTLE, March 12.—A Washington special to the Times says that although Congress adjourned without passing the Act enforcing the provisions of the treaty prohibiting halibut fishing in the North Pacific waters during the winter months, it is certain that no fishing will be permitted during the closed season for the next five years. The treaty went to Canada for ratification by parliament and the state department requested that action be expedited. One of the first acts of the new Congress will be the passage of a law providing a penalty for the violation of the treaty.

As Congress does not meet until after the closed season becomes effective, the state department will request the treasury department to use the coast guard cutter service in enforcing the law, and officials of coast ports will be instructed to seize any shipments of halibut landed after November 15.

The officers of the Fishing Vessels Owners Association are in perfect accord with the treaty between the United States and Canada, closing halibut fishing from November 15 to February 15, it was stated at the headquarters of that organization. They point out that halibut are growing scarcer each year and that catches are therefore decreasing. One officer said the halibut begins to spawn about November 1, and that under present conditions thousands of spawning fish are taken every year.

**Patriotism in the Home is Urged
by Dr. Grant when Addressing
Municipal Chapter of I.O.D.E.**

Attributing the cause of the crime wave that has swept the world since the Great War to the fact that the home was losing its grip on those within it because the children were supplanting the parents in its control and the discipline necessary to good citizenship was thus being lost, Rev. Dr. H. R. Grant made a stirring appeal for women to use their influence in improving the citizenship of Canada in an address at the annual meeting of the Municipal Chapter, Imperial Order Daughters of the Empire, held on Saturday afternoon in the Presbyterian Church Hall.

"I have been impressed with the amount of work done by your tions are fit to be citizens of order during the year and the Canada."

"There has been a crime wave since the war. Some say that it has been caused by the upsetting thing to have success and in my experience I have seen that it is of conditions by the war. Police takes women to put work over authorities say that it is due to well. The organization of women have not been under the discipline of the home as in previous generations. Boys are not being taught the duties of the home and are not under the discipline of the home which fits them for the discipline of work. Records show that one out of every 12,000 persons in the United States is murdered. Why? Because the home fails to discipline its members."

Tremendous Influence

"The women are the queens of the home and a child remembers the mother more than any other member of the home. The mother has a tremendous influence in the heart of the boy. Can you do a wonderful thing? Cannot you do a wonderful thing of British and Dominion boys and girls honesty and truth is being exemplified upon them by their mothers which will be carried on from generation to generation."

Justice, Fair Play, Truth

"The spirit of justice, fair play, truth and righteousness lies behind the British Empire, and women not use that influence in these are primitive morals on improving the citizenship of Canada which are founded the manhood ada? Cannot you do a wonderful and nationhood of Great Britain, work in putting into the Empire Even now that spirit of British and the Dominion boys and girls honesty and truth is being exemplified in her determination to pay off, despite the almost overwhelming difficulties, her tremen- dous war debts without pushing her own debtors. People who undertake such a task as that must be a wonderful people. The tremendous innate honesty of the British people is brought out in its tremendous national honesty."

The valor of British men does not need to be referred to here. You all know that too well and perhaps more intimately and with more heart pangs than I. Enough be it to say that it all goes to reflect to the honor of the British race."

British Spirit

"While we are loyal to the British flag let us be loyal in our hearts to the British spirit of honesty — the underlying moral factor that makes the nation great. Let us take it into ourselves into our business and into our homes in order to preserve that high plane of citizenship worthy of our ancestry."

"Who can better teach these principles than the women of our homes? You women occupy a strategic position in the training of the future citizens of Canada for the best training can be given in the home."

"I can remember when the home was the citadel of the nation, when the mothers and fathers were interested in the homes. Out of such homes came the sterling men and women who have made the name of Canada great."

Deterioration

"Today, I think, the home has lost its grip upon those in the home. Instead of the parents running the home the children are running it. That is not as it should be and, as a consequence, the home is deteriorating. Let me tell you the nation is the sum of its individuals and the home is the unit that is putting the citizens into the nation. Thus it is the tremendous problem of the sized and founded with the loss home to see that future genera-

**Be A Bulldog,
Hang On.**

Be a bulldog, men and women of the north. Hang on. Discouragements come in every walk of life and in every place. British tenacity is needed to carry us over rough places of life until once again we find smooth going. After all, as the Parsons tell us, these rough places in life are the training grounds. We should never properly appreciate the smooth if there were nothing in the world but smooth.

All the most rugged characters have come from the north. The climate is such as to invigorate and to form a character that can withstand difficulties. See what the Scottish have done. Look at the work of the Norwegians and Swedes. Iceland has made a big mark in the life of Canada, though it has sent here only a very few people. From the north come the great men of the world who have learned in the school of adversity what it meant to hang on and prepare for better things.

There is a favorite picture used by Englishmen of a bulldog sitting on the folds of the Union Jack and beneath it the caption "What we have we hold." That personifies the British spirit. It is the spirit that has come from the Vikings of Norway, from the highlands of Scotland and from the verdure clad mountains of Ireland. This is a time when it is good to remember this British characteristic and to hang on in the old British way.

**Lost Art Of
Conversation.**

Is the art of conversation a lost one or nearly so? Do people sit before the fire and talk of serious subjects and thrash out problems such as they did in the old days? Many assert they do not and that the decay of family life is largely responsible for the change. People are seldom invited out to spend the evening today just to sit and talk. There must be cards or games or something extraneous to entertain them, when to many the interesting thing would be to talk.

How often today are the best books discussed? Where in the homes are visitors entertained by the host or hostess in the evening by talking politics or economics or philosophy. This resort to cards or to gossip is a confession of weakness. It is a confession that we have no resources within ourselves but must resort to artificial stimulus in order to be amused.

This is not a tirade against cards, for they are all right in their place. It is not against games or other organized entertainment. It is simply a suggestion that one of the most enjoyable means of spending an evening is to sit around the fire with a few friends and discuss current events. More than that it is one of the most beneficial methods of spending an evening as long as the members of the party have thought enough about the subjects discussed to be able to give an intelligent opinion.

**Do We Suffer From
Bad Reputation?**

A report of the dinner given in California recently by Prince Rupert people at which reindeer meat was served because it was thought this city being close to Alaska reindeer would be the natural food of the people, gives an idea of the popular impression in the south in regard to Canada. There is no objection to such ideas being prevalent as long as they do not harm us. If we suffer thereby, then we naturally set out to educate people in the south as to the real facts of the case.

The process of education is a long one. People naturally look to the north for snow and ice and for hardship during the long fight against the elements. It is impossible to prevent this. Movie artists are turning their attention to the rigors of the north for their latest sensations, and this is bound to continue. We cannot help advertising our drawbacks more than our advantages. The question which arises is what is the antidote? We have none to suggest but put it up to our readers. What are we to do about it?

A Clear, Beautiful Skin

There are millions of tiny openings or pores in the skin and these must be kept open and clean if the beauty of the skin is to be maintained.

Because it cleanses these pores and encourages the healthful action of the skin, Dr. Chase's Ointment is most effective as a skin beautifier. Roughness, redness, pimples and all sorts of skin blemishes disappear by its use, and the skin is left clear, smooth and velvety.

**FOOTBALL SCENES IN
PLAY AT WESTHOLME**

University Team Secured to Play
Scene in Movie Shown
Tonight

Jack Hersholt and Jack Livingston, who have the leading roles in "The Golden Trail," here tonight featuring the charming Jane Novak, had quite a hilarious time while the scenes in the football game, which is one of the features of the drama, were being staged.

Louis Moonaw, who supervised the production, in order to make this feature of the film drama possess all the realism possible, secured the co-operation of one of Oregon's leading universities' varsity football team together with a scrub eleven to picture the football game. Hersholt, who appeared as tackle, and Livingston who appeared as half-back, had to go in training for a week, in order to appear to as good advantage as the well trained college boys. The scenes were staged so realistically with Hersholt and Livingston mixing up in all the scrimmages and by-plays with all the enthusiasm of the regular football players that their muscles were so sore in the conclusion of the game that they had to take several days off in which to recuperate.

**FRANK WOODS TO
FILM "TALISMAN"**

Chief Withey has been engaged to direct Frank Woods' initial production, a screen version of Sir Walter Scott's "The Talisman," featuring Wallace Beery in the role of Richard the Lion Hearted which he made famous in Douglas Fairbanks' interpretation of Robin Hood.

This picture will represent the first of a series to be put out by the Associated Authors, made up of Frank Woods, Elmer Harris and Thompson Buchanan. The productions are to be released through the Allied Producers Corp., owned by Mary Pickford, Charlie Chaplin, Douglas Fairbanks and D. W. Griffith, and a subsidiary of the United Artists.

**OLD "BAR HOUNDS"
LOOKED FOR "SHOT"**

But, Alas, Only Cold Tea Was
Used in This Scene

Seven or eight thirsty looking extra men, picked because they were ideal types for the habits of the barroom—a species that became extinct with the Eighteenth amendment—looked lovingly at rows of bottles in a set representing an old fashioned saloon, a scene in Thomas Meighan's new paramount picture, "If You Believe It, It's So."

The bottles contained only colored water or cold tea, but by some species of auto-suggestion, the dejected "bar hounds" managed to keep up a semblance as they lounged about the bar and placed speculative feet upon the familiar rail. But as the

time for quitting drew near, they grew restive and almost audibly thirsty. Finally the star said to Tom Fornan, his director: "Come on, bring the boys over to this side and we'll get that shot."

There was a noticeable brightening among the extra men. They looked up with shining eyes and licked their lips. Fondly had they imagined that there might be a secret store of "likker." But alas, disappointment was their portion.

"Shot" in movie parlance means taking a scene, not the colloquialism of the street: "If you believe it, it's so," will be presented at the Westholme theatre next Wednesday only.

In an interesting sermon at the Baptist Church last night, Rev. W. H. McLeod maintained that it was the right of the press to criticize the teachings from the pulpit.

Hon. Dr. H. E. Young, provincial secretary, was in the city this morning on the Princess May bound north for the new gold fields north of Teslin Lake.

A. J. M. Hosom and J. B. Owens, of Seattle, who have extensive interests on Graham Island, arrived in the city yesterday on the Prince John and sailed for the south this morning on the Curacao. They look for great mining and agricultural developments on the Queen Charlottes in the very near future.

IT'S about ten to one there will be not more than half a dozen native born Canadians at the meeting of the Canadian Club tonight. The people who come from overseas are usually more Canadian than those who came to be Canadians.

IF an American Club was formed here, all the U.S. citizens in the place would be on the job.

EMPLOYEES
STATE CASECOME TO CANADA TO
GET AWAY FROM BARS

So Says Member of House of Commons on Immigrants From Britain

Will Submit Their Appeal for Board of Conciliation to Council Tonight

The statement of the Civic Employees' Union in appealing to the Department of Justice for a board of conciliation in connection with the recent civic reorganization will be submitted to the city council tonight.

The appeal affects some 60 of the city employees including waterworks employees, street men, accountants, cashiers, stenographers, fireman and, indirectly, telephone operators and police.

The appeal states that reductions in wages and changing from a 7 to 8 hour day system were made without due notice. It points out that a minority of the council attempted to arrange a conference between the council and the employees but without avail and that certain members of the council had conducted a campaign against the Civic Employees' Union and particular objection was taken to firemen and policemen belonging to that union.

The following scale of former and revised salaries is given:

Accountant, \$175 to \$150.

Head clerk, utilities, \$170 to \$150.

Tax and assessment clerk, \$165 to \$150.

Stenographers, \$84 to \$80.

A free motion of the bowels daily should be the rule of everyone, then there will be no constipation, sick or bilious spells, heartburn, foul breath, sour stomach, etc.

Mrs. H. C. Hunt, Port George, N. S., writes—"I have been troubled by being constipated for the last six months.

"My tongue has been terribly coated so much so that it made my breath bad. I was talking to a friend about it, and she advised me to use Milburn's Laxa-Liver Pills, which I did, and now I am perfectly well. My tongue is as smooth as it was before I got that way, and I owe it all to your Pills, of which I only used two vials."
