## ALASKA STEAMSHIPS ARE TO CALL HERE

### TWO DAY DISCUSSION TAKES PLACE IN PARLIAMENT ON PARIS HOTEL DEAL

#### Alaska Steamship Company to Make Prince Rupert Regular Port of Call for Steamships

On Thursday of next week the steamer Jefferson of the Alaska Steamship Company will inaugurate a service between Seattle and this port and will call here regularly on her way north and south except on the sailing of June 27 when she goes to Sitka. On that occasion the Alaska will take her place. Word to this effect has been received by W. F. Roberge, the local broker.

Mr. Roberge has written the company in connection with the service on several occasions giving them information which has decided them to make the call. The Pacific Fruit and Produce Co. of Seattle, for which he acts, has also used its influence and the Seattle Chamber of Commerce has recognized the value of keeping in close touch with this city and has promised the company business if the ships come here.

John H. Bunch, general traffic manager of the Alaska Steamship Company has written Mr. Roberge saying that the service will be inaugurated. It is understood that the ships will develop business between this port and Alaska as well as with Seattle.

#### TOW OF BIG BAY LUMBER FOR SOUTH

Peggy O'Neill will Clear for Vancouver and Seattle Tomorrow Morning

The tug Peggy O'Neill, Capt. R. T. Dreyer, owned by the company formed recently by H. J. F. Turney, former manager here for the Wallace Shipbuilding Co. sails tomorrow morning for the south having in tow a barge of lumber from the Big Bay sawmill and also Capt. Soriano's trawling boat Summer which is to have a full diesel engine installed at Seattle.

#### BOY DROWNED AT SURF INLET

Young Son of Mr. and Mrs. H. S. Irving Met Untimely End: Parents Lived Here

Many Prince Rupert friends of Mr. and Mrs. H. S. Buck Irwin will learn with shock of the untimely drowning last week at Surf Inlet of their only son, Dennis, aged 3.

Mrs. Irwin arrived at Surf Inlet on Thursday of last week from Victoria to join Mr. Irwin. The next day they were preparing their residence for occupancy and the little had wandered away for a few minutes. On looking for him, they were unable to locate the boy and made the shocking discovery that he had apparently fallen in the nearby lake. They found a board with which he had been playing floating on the surface of the water. Drowning operations were instituted but without success in recovering the body from the water which was very deep.

Mr. and Mrs. Irwin are both well known in Prince Rupert. Mr. Irwin was former district forester here and is a brother of Miss Irwin, of the H. G. Helgerson of A.C. Mrs. Irwin, formerly Miss Elsie Taylor, was at one time a member of the local teaching staff. Mr. Irwin has located this year at Surf Inlet with the J. R. Morgan Co. Ltd.

#### CHURCH UNION WILL CARRY

Only Question Now is How Many Will Vote for Immediate Action

PORT ARTHUR, June 9.—When the Presbyterian General Assembly adjourned at noon today all indications pointed to discontinuance of the debate on Church Union throughout Monday's session with possibility of a vote being reached late in the day. At the close of the morning session, which was featured by a number of addresses favoring union, at least a dozen more speakers indicated their intention of taking part in the debate when it opens at 10.30 Monday morning. No one in the assembly takes the view that the amendment favoring delay in Church Union can be carried, the only question being as to the percentage of delegates who will vote one way or the other.

The debate this morning was less than ever with evidence of deep feeling as instanced by some tendency to interruption and the calling out of remarks.

#### New York Syndicate Formed to Take Over Paris Hotel Bought by Canadian National Recently

OTTAWA, June 9.—Opposition charges that Sir Henry Thornton, president of the Canadian National Railways, stepped behind his reasonable authority in the purchase of the Hotel Serige in Paris, were heard during a sharp discussion in the Commons last night.

Hon. George Graham, minister of railways, warmly repudiated the charges. "There's not one illegal thing the Canadian National Board has done," he said.

The matter came up in a discussion of the vote of \$73,000,000 for the Canadian National Railways to meet expenditures or indebtedness incurred, operating deficits, acquisition of property, materials, supplies, and for various other purposes. Mr. Graham informed the House that the building had been secured in the name of Mr. Avronvici, Canadian National representative on the continent of Europe, for two million dollars on the understanding that the Canadian National Railway, the Government, or any other company could have it provided accommodation was provided for the C.N.R. A syndicate had been formed in New York to take it over. No money had been spent by the C.N.R. but a guarantee had been given the bank for the two million dollars, the bank advancing this sum to the New York syndicate.

The Canadian National board has an option on any space they want in the building at a fair rental.

#### GOVERNMENT TO AID ENTERPRISE

Hon. T. D. Pattullo says Will Get Behind Any Sound Concern

VANCOUVER, June 9.—In an address here Hon. T. D. Pattullo took credit to the provincial government for advanced new legislation. "Our government stands committed over the signature of the Premier that we assist any company which comes before us with real collateral by going behind it to the extent of one third of the cost of financing such an enterprise," he stated. This was in answer to propaganda against the government for not getting behind the steel project.

Mr. Pattullo said that a Chicago and San Francisco group of financiers with which the Bridge River Power Company had been negotiating, was one of the concerns likely to start a pulp and paper mill in the province soon.

#### WIRELESS PUT OUT BY WATER

U.S. Mine Sweeper Cardinal Unable to Send Messages From Ship

ALL CREW ARE SAFE

Struck Last Tuesday: Men Taken Off by Discoverer Yesterday

SEATTLE, June 9.—Yesterday twelve men, members of the crew, remained on the U.S. mine sweeper Cardinal which went ashore on rocks off Chirikoff Island. All the others had gone ashore or been taken aboard the coast geodetic survey ship Discoverer, according to a radio report received here. The message indicated that the men aboard the Cardinal were in no danger but the vessel was a total loss.

The naval supply ship Cuyama was rushed to her aid and is standing by. According to the message the Cardinal struck the rocky reef late on Tuesday night, the shock grounding the disabled vessel's wireless and by the time she was repaired water crept up in the hold putting the main generator out of commission. The distress calls were sent out continuously wave length the ending of the sixth.

The Discoverer took off 32 men and officers and nine men, including one officer, went ashore and was picked up yesterday morning.

#### JUST OBEY OR LEAVE COUNTRY

This is What Mr. Justice Murphy Told Doukhobors Yesterday

VERNON, June 9.—"You and our countrymen must obey our laws or leave the country, whichever suits you best, and your children must go to school," declared Mr. Justice Murphy yesterday in sentencing Sam Chocronoff, a Doukhobor, to three years in the penitentiary for attempting to burn a schoolhouse near Grand Forks.

#### DROWNED AT ESQUIMALT

VICTORIA, June 9.—George Buck, an ex-naval man aged 42, was drowned yesterday near the Esquimalt drydock. He became entangled in a hawser and was thrown into the water.

#### CHINESE DEMAND AN APOLOGY FROM JAPS CHANGSHA SHOOTING

PEKIN, June 9.—The Chinese government yesterday sent a note to Tokio demanding an apology from the Japanese government for the shooting of Chinese supporters of the Japanese boycott in Changsha on June 2. They also demand indemnity and the punishment of the Japanese commander who did the shooting.

The business boycott has always been one of the strong weapons used by the Chinese against those who offend and has been used with great effect against the Japanese on many occasions.

#### ARE RESPONSIBLE FOR DAMAGE TO PROPERTY

Abbotsford Lumber Company Must Pay For Negligence in Setting Bush Fire

VANCOUVER, June 9.—Mr. Justice Macdonald awarded \$1800 damages to John Stevens against the Abbotsford Lumber Company, adjudging the latter negligent in stopping a bush fire which spread and damaged the Stevens property. Twenty similar claims are said to hinge on this decision.

#### DR. SUGDEN DROWNED IN YUKON RIVER

NEW YORK, June 9.—Dr. Leonard S. Sugden, city lecturer and explorer, lost his life by drowning at Mayo, Yukon territory, on June 6, friends were advised yesterday. Sugden was formerly sergeant of arms in the Royal Northwest Mounted Police and later became an expert pilot at Mile Canyon and Whitehorse Rapids on the Yukon.

#### BROWN HYLDA WAS WINNER OF OAKS

EPSOM DOWNS, June 9.—Brown Hylde, 13 to 4 against, owned by Vicomte De Fontarion, won the Oaks classic event for three year old fillies. Sir Edward Shelton's Shrove, 100 to 7 came second, and Aga Khan's Teresena, 8 to 1, was the third filly.

#### PORT ESSINGTON MAN WEDS VICTORIA GIRL

Miss Elizabeth Crawford Brown and Harold John Cunningham Were Married Last Evening

The marriage took place quietly last night at 8 o'clock in the rectory, Archdeacon G. A. Rix officiating, of Miss Elizabeth Crawford Brown, daughter of Mr. and Mrs. William Murray Brown, of Victoria, and Harold John Cunningham, of Port Essington. The witnesses were R. G. Cunningham, uncle of the groom, and George J. Frizzell, of this city.

Mr. and Mrs. Cunningham are spending the day in the city and will leave tonight to take up their residence at Port Essington where the groom is employed as accountant in the store of Robert Cunningham & Son, Ltd.

#### DECREASE IN DEBT OF CANADA FOR MAY

OTTAWA, June 9.—The net debt of Canada was decreased by \$4,303,700 during the month of May. On April 30 it totalled \$2,410,702,210 and on May 31 it had fallen to \$2,406,399,509.

A year ago there was an increase in the national debt during the same month of \$10,034,476, and on May 31, 1922, it stood at \$2,390,617,679.

#### BRITISH GOVERNMENT TO PROSECUTE SWEEP

LONDON, June 9.—It is understood the government intends to prosecute several people in connection with the Otley sweepstakes on the Derby on which the first prize was won by Mrs. Nellie Ford, a Yorkshire weaver.

#### WRECKED IN TYPHOON

MANILA, June 9.—One vessel was wrecked and two others stranded in a typhoon which was raging around the Philippines for three days.

#### KAMLOOPS PIONEER

KAMLOOPS, June 9.—Allan Grainger, a pioneer, died here aged 90. He was active in ranching and mining twenty years ago.

#### RUSSIA AGREES MOST DEMANDS

But Will Not Withdraw Representatives From Persia Because of Dignity

MOSCOW, June 9.—It is understood Russia's answer to the British note sent today agrees to practically every stipulation except that Russia must withdraw her representatives from Persia. The note says Russia will not lower her dignity among the nations by acceding to this request.

It was rumored last night that Russia and Persia were about to sign a pact as allies.

#### GENERAL MCRAE COMING IN JULY

Head of Provincial Party to Address Political Meeting in Prince Rupert

T. Ross Mackay, of this city, has been notified that General A. D. McRae, head of the Provincial party, and his lieutenant, B. G. Stewart, will arrive in Prince Rupert on July 29 in the course of a speaking tour of various points along the line of the railway. Arrangements are being made to have General McRae address a meeting here.

#### Ambitious Canadian Scheme to Fly Around the World by Way of British Columbia

MONTREAL, June 9.—An airplane flight around the world returning by way of Alaska and British Columbia is planned to take place next year. It is to be made in a British made machine manned by British pilots under the auspices of the legion of frontiersmen, according to a plan unfolded by Capt. Harold Steele, who is here in connection with the proposed flight.

The plan is to start from England some time next year in a powerful seaplane with the route leading across France to Egypt, India, across Asia to Kamchatka thence across Behring Sea to Alaska, and down the coast to Vancouver. From there it is proposed to fly across Canada to Newfoundland and by the Atlantic to Ireland.

#### SEA TRAGEDY IS REPORTED

Second Officer of Ship Killed Commander and Others Then Committed Suicide

LISBON, June 9.—A terrible sea tragedy took place according to a message received here, when the second officer of the steamer Brave Coeur killed the commander of the vessel, the wireless operator and another officer, wounding a seaman and passenger while on the high seas then committing suicide.

#### FRED STRONG DIED IN HOSPITAL TODAY

Was a Native of Canada, Aged 30, and Formerly Worked at Surf Inlet for J. R. Morgan

Fred Strong, aged 30, died this morning at 5 o'clock in the General Hospital after having been ill for some time. Deceased, who formerly was employed as a logger by J. R. Morgan at Surf Inlet, was unmarried and has a brother, David, at Blue River, B.C. He was a Canadian by birth. Haynor Bros. are in charge of funeral arrangements.

#### Two Day Debate

OTTAWA, June 9, (later).—The two day debate on the vote of \$73,000,000 for the Canadian National Railways for all purposes ended when the money was voted on the understanding that further discussion would be permitted later on the action of Sir Henry Thornton in guaranteeing two million dollars for the purpose of the Hotel Serige at Paris to be occupied in part by Canadian National French headquarters.

The debate ranged about this subject throughout with Hon. Arthur Meighen and other conservatives bitterly opposing.

#### Futile Amendment

Hon. H. H. Stevens brought in an amendment asking the Commons to cut \$2,000,000 from the vote in protest against the Thornton action. This amendment was defeated by 78 to 18, the Progressives mainly supporting the government. Robert Forke, Progressive leader, said that too much had been said about the hotel incident and damage might be done the National interests thereby.

#### Conservatives took the stand

that Sir Henry had no right to participate in the hotel purchase without permission from Parliament.

Premier Mackenzie King said Thornton had full powers to manage the road and the Government would stand by his action so long as it was good for the railway.

#### CHURCH UNION STILL DEBATED

Vote Will Probably be Taken Next Week Before Other Business

PORT ARTHUR, June 9.—The debate on Church Union continued to occupy the time of the Presbyterian General Assembly last night with the delegates refusing to consider any other subject until this is disposed of. Probably the assembly will not reach a vote until next week.

Judge Swanson of Kamloops supported the Union and Dr. W. Leslie Gray of Victoria opposed.

#### PASSENGERS TO GO DRY ON ATLANTIC

SOUTHAMPTON, June 9.—It is officially announced that after June 10 British vessels will carry on westbound voyages to the United States only sufficient liquors to carry them to the three mile limit. Ships will make the return journey dry.

#### KING GEORGE RECEIVED WINNER OF DERBY RACE

LONDON, June 9.—King George received Barney Irish, owner of Papyrus, Derby winner. On account of Princess Christian's illness the King did not attend the Derby and the usual Derby dinner at Buckingham Palace was postponed.

### Value To Country Of Small Papers.

Members of the British Columbia and Yukon Press Association, and also the Alberta Press Association, are expected to arrive here Monday and will be in the city for several hours. Most of the members of those associations represent country papers and in many cases weekly papers. Once each week these men put before the people of the community in which they live, what they consider to be the important local news. The columns of their papers are more or less complete diaries of the happenings in those communities, and the comments thereon represent one shade of opinion in each community. These papers are most valuable. They create a community spirit and are always to the fore in advocating anything that will be of benefit to the people they serve. Take away the small weekly papers and life becomes a dull round of uneventful drudgery. The recording of the small happenings adds a glamor to them which otherwise they would not possess.

The visitors who are to be here Monday should be given a hearty welcome and an effort should be made to let them see some of the things for which Prince Rupert is famous.

### Hotel For Rupert Should Be Built.

As a matter of railroad policy doubtless Sir Henry Thornton knows what he is doing when he takes a cinch on a two million dollar building in Paris for Canadian National Railway purposes. Apparently it is not his intention to buy it, but simply to get control to the extent of securing accommodation therein for the railway offices, something which could not be secured in any other way.

Some years ago the Grand Trunk Pacific Railway undertook to build a hotel in Prince Rupert and the company was given a very considerable rebate in taxation as one of the considerations leading to its erection. The matter is specifically recorded in the bylaw published in this paper at that time. For ten years this rebate was granted and the city faithfully carried out its part of the bargain. On the other hand the railway company got no further than scooping out a hole in the ground for the foundations of the hotel. Now the company owes Prince Rupert that money. It is under contract to build the hotel. In view of the rising tide of tourist travel and the need of providing the tourists with proper accommodation at this point, Sir Henry Thornton will doubtless see that he can at one and the same time carry out the railway contract with Prince Rupert and provide a valuable and necessary accommodation at this point for the people who use the Canadian National system.

### Must Obey Law Or Leave Country.

People in this part of the country will be in full agreement with Mr. Justice Murphy when he told the Doukhobors at Grand Forks that they must either obey the laws or leave the country. That is true not only of the Douks but of all classes of settlers. There are certain ones who sometimes act as if they considered themselves above the law and feel much aggrieved when the law is enforced. While we want settlers in this country, we do not want any class of people that cannot conform to the customs of the country.

### Are We Too Keen On Making Money?

Are we as a people too keen on making money? It is a question often asked and almost always answered in the affirmative. We are being constantly told that we are, yet we go on just the same as usual unaffected by the sermons against the evil. Two thousand years ago the people were warned against seeming to love money and the warning applies just as much today as ever it did. Of course it is the power and pleasure that people think money will buy that causes the incentive. Take away the purchasing power of money and no one then wants it.

While we condemn those who devote themselves wholly to gathering dollars, at the same time we do not approve the action of those who are negligent over money affairs or who fail properly to provide for their dependents. There must be a certain business sense developed in the making of any good citizen. The person who is always in debt is usually in that condition because he spends more than he earns. To keep expenditures within the earning capacity is one of the big problems for every person to learn and unless he has learned it he is not classed as one of the very best citizens.

## Eczema Covered Arms of This Healthy Child

Mrs. Alex. Marshall, Sprucedale, Ont., writes:—

"When my little son was three months old he broke out in sores on his chest and arms. We did all we could to heal those terrible sores, but nothing did him much good. Finally I ventured on a box of Dr. Chase's Ointment and kept on using it. At last we were rewarded by the steady healing of the sores, and finally he was completely relieved of them. He is now three years old, and has had no return of the trouble since."

## GOOD REPORTS OF FISHERIES

Cannery at Essington to be Re-built Next Year by B. A. Company

George Frizzell, who returned yesterday from a weekly visit to Skeena River cannery points, reports conditions flourishing at the mouth of the river with indications pointing to a successful pack at all plants this season. The canneries are all ready for the year's activities and Balmoral is already canning and mild curing spring salmon. The run of the spring salmon has been falling off the past few days and they seem to be scarce now. Of course, activities will not be on in full swing for a few days yet when the sockeye commence to run.

Mr. Frizzell reports that the B. A. Company has erected a fine two storey 100 by 50 ft. building which will be used as a net loft this year and a unit of the entire new plant which will be built next year to replace the one destroyed by fire a few weeks ago. This year the company's canning operations will be centered at the North Pacific cannery.

There is extremely high water on the river, Mr. Frizzell states, and the freshets are bringing down large quantities of debris.

## BODY OF BOY WAS BEING TAKEN SOUTH

Remains of Lad Who Was Drowned at Ketchikan on Board Princess Louise

Southbound on the steamship Princess Louise which called here yesterday was the remains of Ralph Berquist, seventeen year old son of Mr. and Mrs. J. E. Close, who was drowned when on a fishing trip last Wednesday in Ward's Cove Creek, near Ketchikan. He fell on some smooth stones and struck his right jaw before being precipitated into four feet of water.

Early that morning after being up late attending a dance at their home, Ralph left with two Campbell boys for a two day fishing and hunting trip. Arriving at the cove they all went to sleep but Ralph seems to have got up and gone off fishing alone and met with the accident. His faithful little dog, Buster, swam around the body and barked until some men were attracted to the spot but it was too late then to save the boy. The body is being taken to Seattle by the parents for interment.

## HORSES FOR STEWART

W. J. Crawford Bought 22 Head in Edmonton and They Will be Here Soon

W. J. Crawford, the well known Stewart transferman, returned to the city last night from Edmonton where he spent the past week. Mr. Crawford bought 22 head of horses while on the prairies and these will arrive in a day or so en route to Stewart. Mr. Crawford remaining in the city to take them north. Mr. Crawford's two daughters, Miss Edith and Miss Muriel, will be arriving in the city next week en route to Stewart after having been attending the Columbian College, New Westminster.

## ST. ANDREW'S SOCIETY

A letter from the Gaelic Society of Inverness, Scotland, appealing for financial support in the way of subscriptions for the maintenance of the memorials and relics of the famous battle of Culloden Field fought in 1746, was received at the meeting of the St. Andrew's Society last night. The secretary of the society is drawing the attention of individual members who might be interested in the matter. The memorials, it said in the letter, are falling into disrepair.

Other business of the meeting included the adoption of revised bylaws. President D. C. Stuart was in the chair.

## PRINCE JOHN WAS ON WALLACE WAYS

Local Boat Went on Southern Dock For Scraping, Painting and Inspection

The C.N.R. steamer Prince John was on the Wallace dock at North Vancouver last week for painting and scraping and inspection following a grounding in the Queen Charlottes a few weeks ago. It was ascertained that the vessel suffered no damage.

The John was also involved in another accident about three weeks ago when she collided with the Marine Express at Vancouver. The latter vessel had to go on dock for repairs.

## The Man in the Moon SAYS:—

WOMEN have such a keen sense of humor that they take men as a joke.

GLASSES with oversize tips are all right for a movie comedian but for a common everyday individual they tend to bring him into disrespect with the community.

THERE is a controversy raging between the mayor of Hole-in-the-wall and the Reeve of Shames as to which is better: the Cockney accent or the Canadian dialect.

THERE are some people who say it is impossible to speed in Prince Rupert. That may be true but there are several people I know who are not what one might call slow.

THE only objection I have to the forthcoming Elks' entertainment is the announcement that there is to be a saxophone quartet. My ear for music is not yet cultivated sufficiently so that I can enjoy the classic outpourings,

shrieks and woeful throbbings of that kind of pipe. I much prefer the old fashioned corn cob.

WHY work when, according to all the publicity agents, there is gold for the digging and silver everywhere in the contact belt?

IF all the mineral prospects were worth what the prospectors say they are, it is estimated that in northern British Columbia alone the value of the properties would be ten billion trillion dollars.

AT some points in the interior (names of places suppressed by the censor) the mosquitoes are so big that they are trying to invent a summer sleigh similar to the dog sleigh to which to hitch them and utilize them in carrying hot air from Prince Rupert to run the mines with.

## Ten Years Ago in Prince Rupert

William J. Leadbetter, station engineer at Mile 185, was brought to the local hospital last night suffering from a lacerated leg the result of being caught in a pulley.

News reached the city today that the general store of F. L. Charlson at Telkwa has been completely destroyed by fire. Mr. Charlson is in Vancouver on business.

The married and single men of the city played football on Second Avenue last night, the former winning by a score of 4 to 3. Alex. Holmberg was referee.

## ECZEMA

### Hands Were Raw Would Crack and Bleed

Eczema or Salt Rheum, as it is commonly called, is one of the most agonizing of skin diseases. The intense burning, itching and smarting, especially at night or when exposed to heat, are almost unbearable and relief is gladly welcomed. The pre-eminent success which

## Burdock Blood Bitters

has met with in permanently removing a disease of such severity is due to its wonderful blood cleansing and purifying properties. Mrs. M. R. Willard, Dudswell, Jct., Que., writes:—"For about three years I had eczema, in a very bad form, on my hands. They were all raw and would crack and bleed so that I could not do my housework. I tried everything I could think of without any results. At last I got a bottle of Burdock Blood Bitters, and when I had it about all taken I could see it was helping me; by the time I had taken five bottles my hands were all well again and I have not been bothered since. I cannot praise Burdock Blood Bitters enough."

## How to Foil Wind and Weather on Washday

From now until spring a battle that endangers health must on washday be waged with rain and sleet.

That, or drying the washing in the cellar or attic, with its attendant inconvenience and sour smells.

Of course we can not order weather to our fancy, but if you would laugh at mud and water, save your health and keep your hands and face free from chapping and roughness, telephone us.

Next, bundle up your family washing and have our driver call for it.

In our laundry your things are initialed where the mark never shows. Everything is sorted, too—table linen is washed only with table linen, hosiery with hosiery. There is no indiscriminate mixing. And it is laundered in fleecy suds of silky softness.

The weather, and the hardship of fall and winter washing need never be a source of worry. Use your telephone and let us help you.

### BEST GAME ANYOX BASEBALL SEASON

All Teams Now Have Equal Number of Wins and Defeats

ANYOX, June 9.—By defeating the hitherto unbeaten "Gas Eaters" the "Muckers" tied the Baseball League up, all teams now having an equal number of wins and defeats. From a spectator's standpoint, this game between the Smelter and the Mine was easily the best of the season. There were quite a number of exciting moments when anything might have happened and as a result the fans were happy.

The Smelter captain started Lee to do the twirling, and he was doing very nicely until his arm went back on him and he asked to be replaced in the fourth, and was relieved by McKeown, who failed to keep the Mine scoreless, a mighty hard thing to do on this particular occasion as they seemed to have a batting streak which was aided and abetted by several costly errors on the part of Smelter players. The Mine got one in the first time at bat, one in the fourth one in the fifth and the winning tally in the seventh. The Smelter tried hard to overcome the one run lead which the Mine established in the seventh, but it was not to be.

The batteries—Mine; Greenwell and C. F. Ferguson. Smelter; McKeown, Lee and McKeown.

Strike outs—By Lee, 4; by McKeown, 5; by Ferguson, 3.

Empires—Balls; W. Olson; bases; Williscroft.

The line-up was:

Mine—Mealey, Greenwell, C. Ferguson, Anderson, J. Ferguson, Olson, Gorkle, Stewart, Allan.

Smelter—Matheson, Sinclair, Brown, Cole, Sheen, Matfix, S. McKeown, C. McKeown, Lee, J. McKeown.

### SUFFERED SO from Heart and Nerves LIFE WAS A BURDEN

Mr. A. H. Lee, Beamsville, Ont., writes:—  
"I am delighted to let you know what I have to say regarding the good Milburn's Heart and Nerve Pills did me."

A short time ago I suffered with heart and nerve trouble, and was so bad I could not sleep, only about two hours each night. My heart was so bad I had spells when driving on the road and would faint away, and neighbors would carry me in from my wagon. I also took these pills in the night and during my daily work on the farm. My nerves were so bad I would jump out of bed, and was then compelled to walk the floor before I could settle down again, but after taking a few boxes of

not be too stormy. While Khadada still gives forth its good strings, the trout are also reported to be biting more freely in Shawallans and Woodworth Lakes, McNicholl Creek and other nearby points than they have done for some seasons past.

The boxing bout between Mike McTigue and Georges Carpentier, scheduled to take place on July 4, has been postponed until August 11, by Tex Rickard at the request of the Frenchman who recently injured one of his hands. The fight will be staged at Boyle's Thirty Acres, Jersey City, where Carpentier was defeated by Jack Dempsey. Negotiations have been commenced by Rickard for a battle in which McTigue will defend his world's light heavyweight title against Harry Greb, former title holder. It is proposed to hold this fight also at Boyle's Thirty Acres, on June 22.

Junior football and baseball league fixtures scheduled for last night were postponed on account of the weather.

### GRANBY FOOTBALL BEARS OUT PROMISE

ANYOX, June 9.—As the schedule advances in the Anyox Association Football League, more than ever does it become apparent that the teams are maintaining the promise made in the opening games, that they were the best-balanced trio of football teams ever performing in Anyox. The latest game staged between the Smelter and the Mine gives further assurance of this, when, working for all they were worth on the aggressive as well as the defensive, neither team was able to get a tally during the entire period of play. Evans continues to give great satisfaction as a referee, and appears to have the game well in hand. The teams were:

Smelter—Goal, McGuire; backs, Mair and Kirkland; half backs, Rowan, Ross and Wilson; forwards, Fitzpatrick, Skeplorne, Greenwell, Main and Armstrong.

Mine—Goal, Lee; backs, Spears and Pyne; half backs, Valpy, Currie and Jerome; forwards, Twaddle, Cane, Stewart, Greenwell and Forbes.

### ANYOX

The output for the Hidden Creek Mine for the period May 22 to May 28 inclusive was 12,879 wet tons. Total output to May 28, 56,862 wet tons.

May 22 to May 28 inclusive, 1,360 short tons of coal were charged at the Coke Plant, and 960 short tons of coke were produced; 3,349 imperial gallons of light oil were recovered and 22,425 lbs. of sulphate ammonium were manufactured.

From May 21 to May 27 inclusive, 14,336 tons of ore were treated at the Anyox smelter. This was made up as follows: Anyox ore, 13,033 tons; outside ore, 1,303 tons. Average price of copper for the week, 14.75c.

### SUMMER EXCURSION FARES VIA CANADIAN NATIONAL RAILWAYS

The Canadian National Railways have now on sale Summer Excursion Tickets at exceptionally low fares to Winnipeg and Points in Eastern Canada and the United States. Another feature that will no doubt appeal to Prince Rupert people is the very low Special Excursion Fare to Edmonton and Calgary, with the privilege of travelling in both directions via direct rail lines or if you desire you may travel via direct rail in one direction and in the other via Vancouver and Coast Steamships at very little additional cost. Tickets are good for stopover at any point en route, and bear final return limit of October 31st. No one should miss the opportunity of stopping over and visiting Canada's New Playground, Jasper National Park. Full information at City Ticket Office, 528 Third Ave. Phone 260.

### Sport Chat

If a storm brews up this weekend anglers generally will be disappointed for many parties had planned leaving tonight and tomorrow morning for favorite haunts. So far fishing has been reported just fair but it is expected to be better now. Glondy weather would be just the thing now for the recent very sunny weather has not been conducive to biting trout. However, the piscators are hoping that it will

Doings of the Mosquito Fleet which is the chief source of Prince Rupert's prosperity

"Going up" is the waterfront slogan nowadays and not without cause. The halibut arrivals have materially increased over those of last week, and the Admiral of the Mosquito fleet is particularly well pleased with the manner in which the high boat squad has been putting the business over. In spite of the hot weather all action stations have been fully manned and all crews have been working to full capacity. A number of the large American schooners have again joined the northern fleet after their annual visit to home ports in the south for general overhaul. Halibut arrivals jumped up on Monday to 194,000 pounds and on Tuesday they tipped the beam at 105,000 pounds. Prices have remained firm throughout the week and Canadian second class catches have been conspicuous for their continued good prices, having obtained half a cent more than the American in certain cases. Incoming skippers report the weather conditions on the high spots as being ideal. With the long evenings and light nights fish-

ing has been carried out almost continuously.

The Mosquito fleet proper is out to a boat. The little fellows are smeared over the waters to all points of the compass and are now doing a thriving business with the fish packers. According to reports gleaned from incoming boats the salmon run has commenced in good shape with the advent of warmer weather and an excellent season's business is predicted for the canneries.

Activity is noticeable around the home base among the public hire launches of the fleet and a bold bid is to be made this season for the tourist business. Owners of public hire power boats are working hard on their respective charges to put them in first class shape for this work. The hire boat fleet this year is to be increased and there will be some eight or nine put into commission for this service during the coming season. The question of a suitable wharf for this traffic is now under consideration. It has been found that the Cow Bay floats are not suitable for the tourist business and an endeavor is to be made by the boat owners to obtain an embarking and disembarking wharf at a point more centrally located to the steamer and railway docks. A large signboard advertising the harbor trips will be erected at some conspicuous spot adjacent to the Canadian National wharf.

**Ala on Long Trip**

Ala sounds like the name of a new brand of Turkish cigarettes but it really applies to the nifty little cruiser skippered by Ralph Macdonald, which left port on Thursday morning bound for Porecher Island on a prolonged cruise. At Porecher Island the Ala picked up a party of government surveyors who will be engaged on survey work between Kitkatla and Millbank Sound during the summer. The boat was well provisioned and gassed upon leaving port and is equipped to stay out for at least three months.

**Vaquero Changes Skippers**

The coastal cruiser Vaquero, previously owned by C. L. Heindel, of Seal Cove, was recently purchased by Lieut.-Col. Stuart, O.B.E., who in company with his wife is making periodical trips in local waters. Colonel and Mrs. Stuart returned to port on Wednesday night from a prolonged cruise and expressed their delight with the beautiful scenery of the northern Pacific. The cruiser is skippered by the Colonel while Mrs. Stuart, a wizard with machinery, is acting as chief engineer. The Vaquero will leave port over the week-end for an unknown destination.

**Arthur in Tears**

It so happened that a party of tourists disembarked from a certain steamer early in the week on a post card hunting expedition. The party consisted of three heavily jeweled ladies accompanied by three hefty and prosperous looking males plus the regulation knickerbocker suits and gold watch chains. Their footsteps carried them to the gum chewing emporium, situated N.E. x E. from the fish houses, which at the time was presided over by the president of the company in a brand new ice cream apron. As the visitors stood surveying the colossal and tempting stock of sweetmeats, daintily displayed amid pyramids of full pop bottles, the gaze of the female members of the expedition chanced to hang upon a couple of mink skins fresh from the pound. Now two mink hides could not very easily be divided between three ladies, and as a consequence a long and heated discussion was soon under way.

Arthur took in the situation at a glance and told a blood curdling yarn of how he had scalped three grizzly bears in catching the mink. The purchase price soared while the male members of the party swore. Eventually a stupendous deal was made, the fur market closing at the vendor's quotation, and the ladies tripped gaily over the threshold clutching their new purchases tightly by a single hair. The whistle of the steamer tooted for breaking away and the party of tourists were soon lost to sight. It was at this juncture that Arthur came to his senses. He realized, when too late, that it may have been possible to have obtained another ten spot on each hide. Oh, unhappy man! With tears of anguish blinding his optics, the fur merchant cursed himself for a fool and went home sorrowing.

**Joy Bird Arrives**

The power boat Joy Bird has been purchased by the renowned Jimmy Thomas from Queen Charlotte Island interests and arrived in port yesterday from the islands. The Joy Bird was originally the Oh Baby, owned by Myhill Jones. Jimmy is joining the public hire boat fleet and after making general overhaul of the craft will engage in the local and transient tourist business. Skipper Thomas is well-known locally and is one of the nautical pioneers of the port, having been for some time in the boat game with the old Alice B. It is rumored that the old man is to appoint Jimmy to the post of vice admiral and a half at the home base.

**Fish Business**

During the week 487,000 lbs. of halibut has been marketed through the local Fish Exchange. The highest price paid was 15.5c and 10.5c, and the lowest 13.1c and 9.5c. The arrivals were: Gonah, Reliance, Vansee, Kodiak, Tom and Al, Eureka, All, Mayflower, Kouyos, Tyeg, Democrat, Venus, Livingstone, Ringeader, Joe Baker, Renfell, Mildred, Osuni, Tallow, Latang, Rolfe, Sirius, Defence, Ethel June, Pair of Jacks, Dolphin, Reveille, Ruth, Rosepit, Viola, Senator, Inez H., Lillian L., Rose Point, Toodie Annie May, Kingcome, Tramp.

**Surveyor Surveying Trout**

The day being hot and business having eased off a little the gang at the Royal fish house, headed by Skipper P. Laurensen, engineered a trouting expedition to Shawallans early in the week. It seems that an order had been received from the east for a carload of trout and Pete had decided that the order could be easily filled from local trout streams. The party of trouters included Chas. Starr, the star trouter; C. A. Kirkendall, the man who is reputed to have caught a whale with a fly bait; and A. D. Gillis, the guy who put the e's in express. The power boat Surveyor was put into commission and the party were soon clamoring aboard loaded down with salmon eggs and hooks. Just to celebrate the occasion, and to prove what a good sailor he really is, Charlie took a header into the drink while boarding the boat and was thus the first fish caught. With the rescuing business finished the outfit headed for Shawallans Lake which was reached without further mishap. After Charlie had been dried out a little, and the members had partaken of a glass of milk, fishing commenced in earnest. While the fly bites were coming fast the fish bites seemed a little slow. At midnight the lanterns were turned on the waters to enable the fish to see the bait so that there would be no valid excuse for their not biting. However, nothing happened, and

# On the Mountain Top

**CLIMB** the mountain--stand on the peak--and before you there unfolds a panorama extending as far as your eye can reach. Stay in the valley, and your view is restricted by the surrounding hills.

This newspaper, properly used, will guide you to the mountain top. Read it and your vision is enlarged. You get a bird's-eye view of world events. You glimpse the doings of the day.

Fail to use it, and your view is limited--you remain in ignorance not only of events at home and abroad, but of much that concerns you even more vitally--news of the very things that have to do with your personal, everyday life.

Some one might be selling a new, better and more economical food; or a utensil that would add immeasurably to your comfort and well-being; or some better material for shoes or clothing--but you would never know, because of your restricted view.

You may read every line of the news columns, but if you overlook the advertising, you are still living in the valley. You remain uninformed about many things you ought to know in order to live a happy, useful, profitable life in this age of progress.

Climb out of the valley to the mountain top. Read the Advertisements.

Charlie still being a little moist from his first encounter with the drink, decided to strip off and go in to see why the fish were not living up to their good name. After a prolonged and chilly hunt the swimmer located a couple of trout agitators holding a conference under an old can. These he clubbed to death and hung on to the protruding hooks. Nothing else in the fish line maturing the gang decided to return to port to enable the two fish to be iced and packed in the spotted trout car. The remainder of the catch will take place during the summer. The carload of local trout will be despatched over the Canadian National lines for the eastern market probably about Christmas eve.

**Peggy McNeill Quits**

The tug Peggy McNeill, Capt. Dreyer, which arrived from the south on Tuesday morning with 500 tons of Nanaimo-Wellington coal for the Albert-McCaffery interests, cleared port on Thursday morning on her return trip.

**Fight With Crab**

Yes sir, Skipper McDonald, of the good ship Meave, nearly lost his trim little craft and his life too during the week. It seems that the skipper was born with the hunting instinct in his blood and having nothing else to hunt he started out across the harbor for crabs. All went well and taking up a vantage point opposite McNicol creek Mac was soon busy with his crab nets. While soliloquising in the stern of the boat, after all his nets had been set, Mac was surprised to feel the boat give a mighty

jerk. Scrambling to his feet and rushing upon the bridge to look for the reason of the said jerk he was astounded to see a monster crab, with the anchor in its mouth, making for shore and pulling the boat with it. Grabbing an oar, his rifle being at home behind the washing machine, Mac made an onslaught upon the armoured wretch but could make no impression. By this time the boat was being hauled dangerously near the shore and visions of a wreck leaped through his mind. Realizing his danger he produced his knife, and to prevent the crab from pulling the boat into the bush, cut the anchor away. As far as Mac knows the crab is still endeavoring to digest the anchor. The next time the skipper goes crabbing it will be with a machine gun nicely placed on the bow of the boat.

**White Lilly all Set**

The Canadian halibut schooner White Lilly, Capt. Chas. Hall, is all set for the high spots and will be leaving port to ply her calling over the week-end. The Lilly has just been fitted with a 15 h.p. brand new Vivian engine while the hull has been overhauled and the interior remodelled. With this new power installation the White Lilly is one of the finest schooners in the fish game. The work has been done at the N. M. McLean shipyards.

The halibut schooner, Eleanor Mac, skippered by Jimmy Thomas left port on Thursday morning for Inverness with a party of cannery men and customs officials aboard.
