ANGLO-JAPANESE TREATY IS ABROGATED

NEW FOUR POWER PACIFIC PACT TAKES PLACE OF FORMER AGREEMENTS

Four Power Pacific Pact Takes Place of Anglo Japanese Treaty with Ratification at Washington

WASHINGTON, Aug. 17.—The naval limitation treaty and four power pact agreement reached at Washington finally became effective today when representatives of all the signatory powers gathered at the State Department and formally exchanged ratifications.

The actual scrapping of the first line ships under the naval treaty begins immediately and by the terms of the four power Pacific Pact the Anglo-Japanese alliance is terminated automatically by today's deposit of ratifications.

NO CHANGE IN POLICY OF U.S.

Secretary Hughes Sends Message to British Government That Effect

LONDON, Aug. 17.—Acting upon cable advices from Secretary of State Charles E. Hughes, American embassy officials in London have made clear to the British Foreign office that the United States contemplated no departure from its attitude on reparations as taken before President Harding's death and as announced by Secretary Hughes in his New Haven speech.

This dispenses of any hope on this side that Coolidge's accession to office might result in more active interest by the United States in Europe's problems.

Reiteration of America's policy was conveyed verbally and informally to the British Government and not through a note.

Miss Edith McCall of Vancouver Appointed by Hospital Board Last Night

At a meeting of the hospital board last night Miss Edith McCall who had been night supervisor at the Vancouver General Hospital for the past year and also at St. Luke's Hospital, Spokane, was appointed matron of the Prince Rupert Hospital in place of Miss Charlotte Black, resigned. The only other name brought before the meeting was that of Miss M. B. McMillan who had been for three years in charge of the Royal Inland Hospital at Kamloops and also three years at Naramata. The house committee reported that there had been a number of applicants.

Miss Randal spoke very favorably of Miss McCall and it was also reported that Dr. McEachern had been trying to get her for a position in the United States.

Valera May be Interned Britain Making Irish Loan Woman and Irish Politics

DUBLIN, Aug. 17.—It is believed the Free State government will take advantage of the law permitting it to intern de Valera for six months instead of trying him before a civil tribunal.

Republicans believe the chances of success in the forthcoming elections have been greatly enhanced by de Valera's arrest and republican candidates are being nominated in many ridings not hitherto represented.

LONDON, Aug. 17.—The Morning Post says Britain is arranging a loan of £6,000,000 to the Free State Government, while the British Government is abandoning its claim to compensation for damage to British property in southern Ireland during the civil war.

ROCHESTER, N.Y., Aug. 17.—Mrs. Charles Wheelwright, mother of de Valera, says de Valera is a United States citizen and Britain in arresting him "has something on her hands now for she will have to deal with the United States."

Alban B. Green, brother of Mrs. Hubert Ward, arrived today from Vancouver by the steamer Venture with his bride formerly Miss Macdonald. They were married last week in the south.

Immense Oil Tank in San Pedro is Burning Today and Threatens to Spread to Others: Loss Big

SAN PEDRO, Cal., Aug. 17.—A large underground tank owned by the General Petroleum Co. exploded here this morning. The blast was caused by spontaneous combustion and shook the whole city. Approximately a million barrels of oil is burning.

Fears for the safety of three adjoining tanks and a number of nearby homes is felt as the tank shows signs of boiling over and running down the hillside. The loss will be many hundreds of thousands of dollars, it is estimated.

MANY INDIAN CASES CITY POLICE COURT

Four \$25 Fines Handled Yesterday Afternoon—More Cases Slated for Hearing Today

Indian liquor cases are being featured in the police court these days. This is largely due to the fact that the salmon season is nearing a close and natives are flush with funds following a good pack. Yesterday afternoon and again this afternoon Magistrate McGlynn and the city police were busy on these cases.

The five natives who were arrested by Sergeant McGlynn on Fraser Street yesterday morning appeared in court in the afternoon. Sam Wesley, Mike Wesley, Albert Derrick and Mrs. Herbert McGlynn were each fined \$25 under the Indian Act for having liquor in their possession. Percy Ryan, charged with supplying, was remanded with supplying, was remanded until this afternoon.

Last night Daisy Durham, colored, and Sam Cecil and Cecilia Cecil, natives, were arrested by Sergeant Bailey and Dominion Constable Watkinson. The Durham woman is charged with supplying and the natives with intoxication. Their cases are being dealt with this afternoon.

HOSPITAL SHOWS LOSS FOR MONTH OF JULY

Financial Statement Indicates Position of Institution With Small Deficit

At the meeting of the hospital board last night the finance committee reported in regard to the finances for the month of July. The earnings had been \$4,638 from all sources, or \$3.85 per patient per day. The expenditures were \$4,341 or \$3.59, showing a gain of 30¢ per day per patient. However, there were debts which were considered bad amounting to \$716 or 59¢ a day, leaving a net loss of 29¢ a day.

Several members spoke highly of the work of the Berlin Reichenbach for the first week of August show an increase in the currency of 30,500,000,000 marks, a total of 63,333,000,000,000 or the doubling of the paper currency in two weeks.

APPEAL COURT ON PENSIONS

Colonel Belton is Permanent Chairman of New Body—View to Unbiased Administration

OTTAWA, Aug. 17.—Colonel W. G. Belton of Toronto, former director of military medical services for military district Number 3, has been appointed permanent chairman of the central board of appeal which will hear the claims of veterans against the decision of the board of pensions commissions.

The Government announces that the board has been chosen carefully with a view to giving the veterans unbiased administration of the spirit of legislation passed last session for the relief of returned soldiers.

YUKON LIKELY WILL GO DRY

Liquor Remains on Dock at Vancouver With No Likelihood of Change

VANCOUVER, Aug. 17.—With but a few days left in which liquor can be shipped in time to catch the last boat, there is no indication that the United States Government will permit transportation to the Klondike of 12,000 cases of liquor now here awaiting shipment across the strip of American territory, which is the only present approach to the Canadian Yukon. It is considered extremely unlikely that this permission will now be granted and it appears inevitable that the Yukon, which voted wet and whose supply of liquor is now exhausted, will have to face a long cold winter uncomfirmed.

DOUBLE PAPER MONEY GERMANY

Occupation Authorities Confiscate Money at Limburg: Lots of Paper

BERLIN, Aug. 17.—Occupation authorities have confiscated \$9,250,000,000 marks from the Reichsbank premises at Limburg. There is much unrest amongst workers in this section and the committee of revolutionary action has been arrested.

The returns of the Berlin Reichsbank for the first week of August show an increase in the currency of 30,500,000,000 marks, a total of 63,333,000,000,000 or the doubling of the paper currency in two weeks.

**Still Are Building
Stores In City.**

Although there are several vacant stores here, others are being erected, a new business block having just commenced on Third Ave. within the last few days. Apparently there are some people who have faith in the place and who expect it to grow.

While there are plenty of stores here at present there is a scarcity of good houses. It is almost impossible to rent a good place today. People looking for houses have to wait until one is vacated. There are a few houses of a sort offering but as a rule a well-located house with any modern conveniences snapped up long before the vacating tenant leaves.

**Alberta Crop Is
Best On Prairies.**

According to the latest reports the Alberta wheat crop is much better than the crop in Saskatchewan or Manitoba. In the latter province it is not very good in spite of the early prospects. Rust and saw fly and other pests have done their work. Judging from the despatches the prairie crop this year will be an average one but the long straw will make harvesting expensive with no larger yield than usual. The section of the prairie that ships to British Columbia has the crop, however, which is something to be thankful for.

**Need Of Better
Mail Service.**

There is great need of a better mail service in and out of Prince Rupert. It seems curious that with a daily train service we cannot have a daily mail service. Also it seems odd that places near this city should have its mail by way of Vancouver instead of distributed from here.

Now that we have a good train service and that the railway people are making a real effort to popularize the National Railways, it is to be hoped that they will also be allowed to start measuring distances and give the mail service. It rests with the Post Office Department to arrange. Possibly it might be well for people here to once more urge upon the de-

The Art of Spending

Getting the most for your money and conquering the tendency to spend for trifles is possible only through practice and self discipline.

When possible avoid the habit of buying on credit. A good rule is "Pay as you go." Think twice and challenge the necessity of every expenditure.

**GREAT SUCCESS
FOR LOCAL MAN**

**Deputy Minister of Finance
Praised by Municipal Journal
of England**

AHEAD OF ALL OTHERS

The department of finance over which E. D. Johnson has charge under the minister of finance has just received a well deserved compliment from England. It is expressed in an article in the Municipal Journal under the caption "Colonial Accounts a Lesson for England," and as follows:

"British Columbia is a typical example of efficiency and loyalty in colonization. From the accounting point of view it is also a good instance of that freedom and elasticity which youth so freely imparts into the rigidity of the home systems of an old country.

"We have before us, in setting down these reflections the published accounts of British Columbia, printed by authority of the legislative assembly for the fiscal year ending March 31, 1922. After the formal preface to the volumes, consisting of two lines of print from the minister of finance and the comptroller-general, respectively, the whole spirit of the publication may be understood from the unofficial preface at the head of the index: 'The form of the accounts should bring to light extravagance and inefficiency, and enable criticism to be usefully applied.'

To Educate Public

"It can be said without reservation that the volume consistently maintains this note, namely, that the accounts are for the education of the public and give them the maximum assistance in applying useful and constructive, as well as destructive criticism. Those familiar with many similar publications at home will realize the force of this judgment of the British Columbia statement, but the book proves its worth when tested either by general or specific instances.

"In general terms, the arrangement of the volume is simple, the sections are sequential and logical in order and in form, until we get to the statistical appendices, which might be improved in classification and, indeed, would form the nucleus of a separate section of the book capable of arrangement in as good a form as the accounts themselves which precede the statistics.

A Balance Sheet

"Here is a government which submits a balance sheet. Moreover, it is an understandable balance sheet which even government officials could understand. There is a summarized statement of the income and outgoings of the government superior to anything published in Britain, and even making allowances for the comparative simplicity of government by a legislative assembly in British Columbia, there is sufficient to prove that the more complex conditions of national life in Great Britain do not render impossible the publication of simple statements of accounts giving the nation's financial position, and its annual turnover in a simple form which could be understood by the people.

"The details of the expenditure given in full, down to the humblest messenger's salary, would of course be too great at home for publication in a handy volume, but the way in which one can test the cost of various branches of government of the province in relation to the return in cash form obtained from such outlay, is surprising.

Public Benefit

"There is always, of course, the element of public benefit not to be expressed in cash form, to be derived from the outlay of a department like the public works, which has to be borne in mind and which no formal accounts can satisfactorily illustrate. This, however, is a difficulty inherent in local government accounts and can only be tested, even approximately by statistics as to the volume of work done, docks and harbors built, streets and roads constructed, and so on.

"The volume is capable of improvement in this particular, and the statistical results or facts expressed in summarized statements of work done or in the form of costs per suitable unit of work done, might advantageously be incorporated in future volumes.

"These accounts are, however, so far ahead of any publication by the British government that it might almost appear captious to

The Man in the Moon

SAYS:-

ONE of the Senators has wakened up and states he thinks the Senate should be allowed to run the country and that the House of Commons should be abolished.

IT will be good news to husbands who pay the bills to know that women are to wear their dresses longer.

A SQUEAK from the progressives intimates they do not think John Oliver should say he likes his job or that he is getting well paid for it. Happily John is not a professional financier or a millionaire, or even a general.

MARATHONS may be all right in the running game, but we hear now of a man who was drunk for forty-eight hours without even a stop for meals.

THE difficulty in this part of the country this year is that the rain won't rain.

IF Wordsworth had lived here he would have written: "It is not raining rain today. It's raining bright sunshine."

"Aren't you bathing this morning?"

"I had my swim before breakfast."

"Before breakfast! Why there couldn't have been anyone to see you!"

**Ten Years Ago
in Prince Rupert**

August 17, 1913.

H. C. Brewster, recently appointed leader of the liberal party in the province, sends a rousing message of cheer to all parts of the province. He predicts an early return of the party to power.

Many rumors have been circulating concerning an old three-masted Japanese sailing ship which is moored at the quarantine wharf. She was suspected of being a smuggler but it turns out she happened to make this her first port of call coming from the Orient to New Westminster for salmon. The passage across the Pacific took thirty-eight days.

"You can state positively that there will be no delay in completing the building of the proposed trail from Stewart to the Groundhog so that by next year it will be ready for use," is the announcement by G. J. Gilligan, road superintendent.

PEOPLE ARE ALIKE EVERYWHERE

Some ruralites were talking of the strange sights to be seen in a great city, and one paid tribute to New York.

"I don't believe any one of you could think of any combination of circumstances that hasn't at some time occurred on the streets there," he said.

"I reckon I know of one that's never occurred there," said Si Wilson.

"What's that?" asked the other curiously.

"I guess," said Si slowly, "that you've never seen, nor ever will see, a brass band that's going in one direction and the heft of the folks goin' in the other."

BORDEN STREET SCHOOL REPAIRS

Board Receives Report That Building at Present is Structurally Unsound

Receiving verbal reports from Trustees Parker and Casey to the effect that structurally the Borden Street School was in anything but a safe condition, the school board last night authorized the doing of such work to the building as would restore its stability before the opening of the fall school term. Carrying out of the work is left in the hands of a sub-committee and George Scott, contractor, who is at present working on the building.

Trustee Parker enquired if the members of the board knew that the building was belying up in the centre with a consequent damaging effect on the walls. Trustee McLennan reported that Mr. Scott had noticed this and knew just what to do. All that he wanted was the authority.

Trustee Casey felt that it was a matter that should not be delayed in remedying. The present condition was dangerous and might possibly result in collapse. It would not be difficult or expensive of remedying. Bolted timber supports on the walls would ensure the stability of the building.

All members of the board favored immediate action which was authorized.

At the present time repairs to the foundation and floors of Borden Street School are in progress under Mr. Scott. Some minor repairs to the Seal Cove School are also to be executed.

MANUAL TRAINING INSTRUCTOR WANTED BY SCHOOL BOARD

Having received a telegram from S. J. Willis, superintendent of education, stating that there were several persons in the south qualified to become manual training instructor at Prince Rupert and that it would take W. V. Tattersall of this city at least two sessions at summer school to fit himself for the position, the school board last night decided to advertise in the south for a successor to R. H. Shockley, resigned. Applications are to be in by August 24 and a salary of \$4,800 is offered to start with.

A suggestion was made that it be left with the Department of Education to appoint the instructor but this was opposed by Trustee Casey who accused the department of trying to control the job and hand them out to those in exclusive circles. "Applying to the department for a teacher would give them just what they are looking for and I am opposed to such a course," said Mr. Casey.

BOOTH SCHOOL REPORT IS TO BE PUBLISHED

Statement Prepared by George Borie, Chartered Accountant, Will Appear in Local Press

Declarer his intention of living up to his election promise that he would bring about an investigation of the Booth School affair or, failing that, the publication of an auditor's report of expenditures. School Trustee Casey moved at the meeting of the board last night that the secretary be instructed to publish a report prepared by George Borie, chartered accountant, in the local paper giving the best rate. The resolution was seconded by Trustee Parker and carried unanimously.

ARRIVE IN CITY AFTER VISITING HOME IN NORWAY

Mr. and Mrs. A. Larsen and Mr. and Mrs. B. Alvestad and family arrived in the city on last night's train from the East returning to the coast from a visit in Norway. Mr. and Mrs. Larsen sailed this morning on the Princess Alice for Ketchikan and Mr. and Mrs. Alvestad and family and the same steamer for Juneau. The men are engaged in the halibut fishing business. Mr. Larsen was in the Old Country for five months and brought back silverware is at stake. This will be the last game but one of the time. The Alvestad family, who Giltihuly Cup series and the city are old residents of the coast, have been in the Old Country on a year's vacation. The son, Earl, and daughter, Judith, were born in Alaska.

If the Sons of England win tonight's football game from the Sons of Canada they will clinch the Giltihuly Cup. If the Canueks win they will at least have another chance in a replay. Both teams will be on their toes since the Grotto and Sons of England soccer league. The last one will be the postponed match between the Grotto, and Sons of England which will be staged early next week. The Grotto, though only one point behind in the standings, have no chance for the trophy.

Clayton Bourne of Montreal, who was born in Atlin B.C., was the sensation of the Canadian swimming championships, staged last Saturday at Grand Beach, Winnipeg. He won all three men's events at the meet, namely the 50, 100 and 220-yard races. Harold Plant of Winnipeg gave him keen competition but the eastern crack finished strong in every race. Though born in Atlin, Bourne has spent most of his life in Eastern Canada. His father is a member of the pioneer New Westminster family of Bourne and Harry A. Bourne, Vancouver barristers, is his uncle.

FREE—10 Much Finer Shaves!

Cleaner Shaves—Quicker with no skin irritation!

If you were paid for putting into words the perfect shave, you would probably define it as . . . "the cleanest, quickest, easiest on skin."

Because that's what 1000 men told us a really good shave should be.

Now we ask you to judge how well we've put those three requisites into a shaving cream. At our expense.

We've put it up to millions of men. And, having tried it, they refuse to use any other cream or soap.

There are 5 distinct superlatives, shaving advantages, in Palmolive Shaving Cream. It cost us 18 months' work, 130 laboratory experiments, to perfect them. Now judge our work.

You'll find cream multiplying itself 250 times in lustrous lather.

You'll find that lather softens the most unruly beard in one minute—without any irritating "rubbing in."

You'll find the lather remains rich and creamy for 10 minutes on your face, if necessary.

You'll find cutting easier, cleaner, because bubbles of extra strength hold each hair erect. This is important. Finally, you'll marvel at the cool, soothed "after feel"—a result of the carefully blended palm and olive oils.

We ask your judgment on these points as a favor. Failing, the loss would be all ours. Send along the coupon for your ten free shaves.

SMITHERS

J. S. Gray has gone to Vancouver for the purpose of consulting medical specialists.

Numerous boys and girls of the town were the guests of William Fidler, on Saturday. The occasion was his twelfth birthday and it was a merry one. Sports and games were greatly enjoyed, while the feast of good things provided made a great hit with the youngsters, who came away wishing that Willie's birthday days were of more frequent occurrence.

Mrs. C. E. Elliott and daughter who have been holidaying in Kamloops are back in town.

J. E. Kirby, mining recorder, is on a vacation, part of which will be spent in Vancouver and other coast cities.

While the people of Prince Rupert have been rejoicing in rainfall, the farmers of the interior are in the opposite frame of mind, and would be grateful for a few weeks of dry weather.

Large quantities of hay are down, and it is a heart breaking task to have it just about ready for the hay-mow when another tempestuous downpour comes along and causes a serious setback. The farmers are being seriously handicapped this fall, and falling a lengthy spell of dry weather many tons of hay and other fodder crops will be lost.

A representative of the chautauqua which opens here on August 17 is in town, and a special ticket selling campaign is under way. Good progress is re-

Blind Man's Buff

EVEN in this age of enlightenment some folks spend their money blindly. They buy with their eyes shut. They grope in the dark as truly as if their eyes were bandaged.

And all the time a powerful light is being thrown on the very things they need and want!

Advertising is a beacon to guide you in buying. It shows you what to buy---where to buy---and when to buy. At the same time, it protects you against fraud and inferiority.

Merchants and manufacturers who advertise deliberately focus thousands of eyes upon their wares. Their values must be honest and their prices right, or they could not advertise successfully.

Don't play blind man's buff with the elusive dollar. Spend a few minutes each day running through the advertisements in this paper. Then buy the products that have proved up in the light of advertising.
