JOHN OLIVER IMPRESSES ON EAST JUSTICE OF CAUSE OF PROVINCE

Britain is Anxious to Arbitrate Question of Control of Oil Fields

PARIS, Jan. 30.—The dispute between Great Britain and Turkey over the Iraq frontier involving the oil producing fields of Mosul, was brought before the council of the League of Nations by Earl Balfour.

The council took no action as it is awaiting an indication from the Turks as to whether they will accept the league's jurisdiction in Mosul.

Earl Balfour said it was a question for the league to consider because Iraq was mandated territory. Britain was acting on behalf of the council of the desire of Britain that the Turks should be invited to sit on the council in the case on an equal footing with others and to help arbitrate the case.

PEND MONEY BIG BAY MILL

Closing Down Next Week in Order to Make Extensive Repairs and Alterations

The Big Bay Lumber Co.'s sawmill at Georgetown will be closed down in about a week's time when repairs and alterations to the plant costing a good deal of money will be made according to George McAfee, manager of the mill, who arrived this afternoon from the venture from a business trip to Anyox and who will continue through to Vancouver this evening on that steamer to be away about a fortnight on business. The improvements at the Big Bay mill will include the installation of two new water wheels and a new band saw.

FOX FARMING FOR TELKWA

Fine Silver Grey Animals Imported by Eli Henry For Ranch

TELKWA, Jan. 30.—Fox farming is the latest industry to be undertaken at Telkwa. It is just its infancy but there are all sorts of possibilities of extension. There is plenty of suitable land, there is just the right climate and the people have energy and ambition. It is pointed out by some of the residents that the district is a rival Prince Edward Island where very long as a place where foxes are raised and exported.

Eli Henry is the man who has made a beginning by importing a pair of beautiful silver grey foxes for breeding purposes. He will place them on his land across the river from Telkwa where he expects to establish a genuine up-to-the-minute fox ranch for the raising of the very finest furs. Naturally Telkwa people are much interested in the venture.

Ernest F. Jones, the newly appointed city clerk and city solicitor, is expected to arrive in the city on the Prince George tomorrow. He will take over his duties on Thursday, February 1.

Tomorrow Will Be a Critical Time in Lausanne Conference Treaty Has Been Completed

LAUSANNE, Jan. 30.—Fear of what might result from the abrupt termination of the Near East conference here tomorrow when the allies formally present their treaty to the Turkish delegation is apparently having a temporary influence at this critical stage of the negotiations and influences are at work to prevent Wednesday's allied pronouncement from savoring of an ultimatum.

The treaty draft contains several clauses to which the Turks have expressed their unalterable opposition whether they take the stand which will enable a continuance of the conference among experts after a temporary adjournment, remains to be seen.

EXTRA HELP INSTEAD OF OVERTIME POLICY

Adopted by City Council on Recommendation of Finance Committee in Connection with City Hall

A report from the Finance Committee recommending that the policy of overtime be discontinued in the city hall and that, where necessary, extra outside help be obtained instead, was adopted by the city council last night. Ald. Collart raised some objection to the report on the grounds that regular employees of the city would be better able to take care of their family with it, but this was overruled and the report was adopted unanimously.

Premier Oliver Carries B.C. Problems to Eastern Canada in a Campaign of Education

TORONTO, Jan. 30.—Hon. John Oliver told the Canadian Club here yesterday of British Columbia's Oriental problem and warned the Easterners that Canada's melting pot would produce Canadian nationalism just as good and no better than the raw material flung into it. He said the Orientals were unmixable and therefore retarding the growth of the Canadian population.

Premier Oliver condemned discriminatory freight rates as a real issue of irritation in the West, which is steadily growing.

ARE TOO MANY WHITE SHIRTED

Men Today are Afraid of Losing a Little Honest Sweat Says Oliver

UNEQUAL DISTRIBUTION Great Wrong British Columbia Has Suffered During Past Forty Years

HAMILTON, Jan. 30.—Pleading for rugged honesty of the pioneer days, Premier John Oliver of British Columbia told the Canadian Club here that much was wrong with Canada at present because the mental attitude of its men and women was wrong.

"For one thing," he said, "there are too many white collared men who are afraid to lose a little honest sweat but who exacts fat livings from the grime of the toiler. Men and women are crying for bread while countless acres of land that would produce food are lying idle. The rewards of industry are not equally distributed. There are too many parasites living on the men who are really producing the wealth of the country."

Mr. Oliver dealt with a resume of what he called the "great wrong British Columbia had suffered at the hands of the Dominion government, the railroads and the country during the past forty years. The result of this discriminatory treatment was discontent and a sentiment of doubt as to the advantages of confederation."

LALONDE GETS A GOLD WATCH

After Presentation at Vancouver Arena, Star Player Does Great Work

VANCOUVER, Jan. 30.—After Vancouver admirers through Mayor Harry Gale had presented the Newsy Lalonde with a gold watch on the arena ice before the face-off for the game, the Saskatoon Crescents, led by Newsy, came from behind in the third period, caught up with the six goal score of Vancouver and held the locals to that score after 80 minutes hockey. The game was one of the inter-league series and each team gets one point.

Mayor Lectures School Board and This Resented by Chairman; Overexpenditures are Discussed

Called in to give explanation of certain vouchers for expenditure in connection with the reconstruction of the Booth School exceeding the authorized amount for the purpose and also for technical education not provided for, the school board presented itself at last night's council meeting and received a diatribe at the hands of Mayor Newton, who condemned past methods of the board and tried, without success, however, to have the council pass a resolution requiring the board to guarantee that such an occurrence would never take place again. Among other statements, the mayor expressed the opinion that, if the council saw fit, it might hold the members of last year's board personally liable for its over-expenditures.

Dr. Kergin, chairman of the board, and J. C. McLennan took hearty objection to His Worship's remarks, the former stating that he was willing at all times to cooperate and consult with the council but he did not intend to be subjected to such lectures as the mayor had given.

Remarks Uncalled For

Certain members of the council also expressed the opinion that the mayor's remarks had been of the nature of a diatribe against the school board, which was not called for, while others sat back seemingly enjoying the fun, at the recent election and is subject to the approval of the new was that the accounts for the Booth School reconstruction now held up by the civic finance committee and also those for technical education were laid over for further consideration by the council in committee of the whole. Much in the way of spectacular debate had been expected from the civic reorganization matter but it remained for the Booth School to provide the best bit of by-play it has so far been the privilege of city council spectators to enjoy. There was a good crowd in the public section of the chamber last night. Doubtless there would have been more had they known what was in store.

Opens the Ball

In opening the subject, Ald. Stephens said that the school board had been invited to the meeting at the instance of the finance committee. The particular matters in question were certain vouchers for expenditure in connection with the reconstruction of the Booth School exceeding the authorized amount voted for the purpose. The total was \$5,187.43 which represented \$3,727.40 in excess of the amount authorized by last year's council. To date there had been an expenditure of \$49,772.05 on the reconstruction of the school and some other accounts still coming would bring the total to over \$50,000. Accounts totalling \$509.19 in connection with technical education were also held up.

Mayor Newton asked the chairman of the board to explain the expenditures.

Exceeded Estimates

Dr. Kergin explained how the school board last summer, with the approval of the council, had started on a scheme of reconstruction of the school. The work had exceeded the estimates. That had been unfortunate but the job had now been completed with the exception of the footings of some of the fire escapes and there was no criticism of the work. Referring to the technical education accounts, Dr. Kergin stated that the accounts in question were for December. No policy had yet been decided upon by the board this year in connection

WILL REDUCE BRIDGE PLANS

Council Committee Decides on \$22,000 Timber Structure Instead of \$47,000 Steel

Meeting in committee of the whole last night after adjournment, the city council decided to submit a new bylaw for the Hays Creek bridge. It will call for a \$22,000 timber structure instead of the \$47,000 steel composite bridge endorsed by the ratepayers at the recent election and is subject to the approval of the new city solicitor. This action has been taken in view of representations made to the city that the original bridge would not be in the interests of economy at the present time. It is considered by the board of works that the present contracts are not binding but advice of the city solicitor on this point is to be secured before final action is taken.

NEW RIDING FOR NORTH

Vancouver Island to Have Three Members and Vancouver Four; Kootenay One Less

VICTORIA, Jan. 30.—Vancouver will have four members and Vancouver Island three, according to plans of W. M. Ivel, a prominent Liberal, who at the request of the Ottawa Government laid out a redistribution scheme for the province.

On Vancouver Island the present Nanaimo riding is abolished and Nanaimo city and Ladysmith are absorbed into an enlarged Comox-Alberni, which constituency is to be stripped of the Powell River and mainland section, which now forms a large part of the riding. The southern boundary of the new Comox-Alberni constituency is to be the 49th parallel which runs just south of Ladysmith to Alberni Canal.

Other ridings on the Island are Victoria city and Saanich-Cowichan.

There is a possibility that the two Kootenays will be roughly combined into one riding and a member thus saved will be put into the new riding to be created from Cariboo and Northern B.C.

Truth Must

Triumph Eventually.

However much the powers that be may belittle Prince Rupert, the fact remains that she has those things which must eventually compel attention. The railway passes through the richest part of British Columbia, rich in its farm lands and rich in mining possibilities. The coal areas have been proved but not developed. The metaliferous mines are now being developed and are shipping ore. The fish trade is steady and the lumber business seems likely to come back. Possibly the Alaska trade will eventually be done by this route and with the filling up of the vacant areas of the interior, the development of the Queen Charlotte Islands, the opening of the coal fields, and the general development of the country, this line of railway will prove much more valuable to the company and to the nation than will the line running through practically unproductive territory to Vancouver. The wealth is here. All that is needed is brains and energy and determination and a modicum of encouragement from the powers that be to make us a great city, a great port, a deep sea shipping port, a coaling station, a fish shipping and manufacturing port, and a pulp and paper town.

Grasping Hand Seen Everywhere.

Vancouver has no real need of a drydock. As we have said before, if the drydock were moved from here it would simply injure the business of the government drydock at Esquimalt and make the expenditure on the partly completed second drydock rank foolishness. Yet a Vancouver waterfront journal comes out with a long screed about the need of Prince Rupert's drydock in Vancouver.

The Dominion government offered a large subsidy to any Vancouver firm that would build a floating drydock but not one man there with capital had sufficient faith in the port to go into the business. They let the subsidy drop. They were afraid of it. Instead of that they looked across at Naxoth with his flourishing little vineyard and envied him his little all and set out to get it. It was a mean, contemptible action and a cowardly one. It is difficult to get words sufficiently biting to characterize it. Afraid to spend their own money they would take from us what we have.

C.G.M.M. Vessels Overhaul Here.

C.G.M.M. vessels do not have to go out of their way to dock at Prince Rupert. They call here on their way southward down the coast as they return from the Orient. It is hardly an hour out of their course. It ought not to be a mile out of their way for these vessels should all call at the Grand Trunk Pacific port, the only port the railway has of its own on this coast.

All sorts of misrepresentation is rife in the effort to influence Sir Henry Thornton to remove the dock from this port. Sir Henry possibly may remove the dock, but if he does, it would not be a bad guess that it will never reach Vancouver. Prince Rupert people are very hurt even at the suggestion to rob her of one of her industries. They feel so strongly that it is difficult to convey to outsiders what it means. The dock was built under contract with the railway company, signed and sealed by the city, the company and the provincial government. Sir Henry Thornton has stated that he will respect agreements and if he goes back on this one what are we to think? We do not believe he will break this sacred contract. We believe he is a man of honor and sterling integrity and will refuse to be beguiled into any such action at the behest of Vancouver.

"I Avoided an Operation Appendicitis Disappeared"

Mrs. James Wells, Udora, Ont., writes:—

"I took a severe pain in my right side. It was very bad at times. I tried oils and tablets without gaining any relief. The doctor pronounced it chronic appendicitis. I dreaded an operation and a friend advised Dr. Chase's Kidney-Liver Pills. I used them and not only obtained relief from pain, but I believe it has completely freed me of appendicitis, as it is now over a year since I have had any of the old symptoms."

THE HORRORS OF INDIGESTION

Relieved by "Fruit-a-tives" the Fruit Medicine

Indigestion, Weak Digestion or partial digestion of food, is one of the most serious of present-day complaints—because it is responsible for many serious troubles.

Those who suffer with Indigestion, almost invariably are troubled with Rheumatism, Pulpation of the Heart, Sleeplessness and excessive Nervousness. "Fruit-a-tives" will always relieve Indigestion because these tablets strengthen the stomach muscles, increase the flow of the digestive juices and correct Constipation, which usually accompanies Indigestion.

MAYOR LECTURES SCHOOL BOARD AND THIS IS RESENTED BY CHAIRMAN, OVER EXPENDITURES ARE DISCUSSED.

(continued from page one)

with the continuation of the polytechnic work.

Other members of the board expressed the opinion that the accounts in connection with the school reconstruction would have to be met.

Ald. Stephens said he would like an understanding with the school board ensuring that future grants would not be exceeded.

Mayor Newton

"It seems to me," said Mayor Newton "that it would not be right here tonight unless I endorsed the sentiments of Ald. Stephens in connection with this matter. I do not wish to be personal in the matter but I feel that no public body of the city responsible for its expenditures to the city council has a right to spend money and proceed with the placing of orders absolutely without any constituted power. The members of the school board it is true had the endorsement of the city council up to a certain point but the school board chose to spend away and beyond what the city council was reputed to have sanctioned. As a result the citizens were driven into great expense which they had never approved and which made the members of last year's school board personally liable absolutely. Even what the school board is presenting tonight is another way of practically defying the people. If it was in my jurisdiction as mayor of the city I would refuse to acknowledge these expenditures. However, though the school board may have wrongly contracted the accounts, the work has nevertheless been fulfilled by citizens. As a result it might be a hardship to have them held up while the question was being threshed out through legal action between the school board and the city council. In one hand I would like to throw down the gauntlet to the school board in refusing to pay them but, on the other, ratepayers have performed certain works and it would be working a hardship upon them if they were not paid. Under such circumstances I do not know what would be the best solution and it is a matter for aldermanic action. Were it not for the latter circumstance I would have no hesitation in asking the city council to repudiate these accounts. The least we can ask is that there shall be no more of these methods and I would suggest that a resolution be passed fixing the school board against such methods in the future. I do not feel that the school board has dealt justly with us in the past and so far I do not feel any assurance that such methods will not continue."

Dr. Kergin Replies

Stating that it would be hardly fair for the school board to rest under His Worship's remarks, Dr. Kergin pointed out that Mr. Parker, Mr. Casey and Mr. Montgomery had not been members of last year's board and might be left out of the matter altogether. "I would point out," said the doctor, "that in this Booth School construction, the school board for the first and only time in the history of the city came back to the city for more money. I thought that we had come here tonight to explain and assist but we apparently came to receive a dressing down which we have certainly got. As far as I am concerned, I do not intend to come here for such. The school board, with the approval of the council, started a job which it could hardly estimate. If you say that

the school board spent in a high handed manner it is certainly not the truth and I refute it. Whoever was to blame, the Booth School construction was not a success but the council was as much committed to the undertaking as we were. Personally, I warned against over-expenditure but Mr. Jeffers failed to keep us posted when the reconstruction was in progress. That is the only criticism we have to offer of him."

Gave Best Service

Trustee McLennan pointed out that the vote on the Booth School had been taken at a time when there was a campaign on for permanent buildings. He had voted against it. The bylaw having been passed, however, he and the chairman had given their best service. Both had pressed for further investigation of the original plans but they had been unsuccessful and here they were hearing the sins of that board. They were misled in connection with the reconstruction. If money had been squandered or misappropriated, then they should be punished, but he did not think the citizens believed that. If the school board had not reconditioned the Booth School, then the city council would have had to do it.

Ald. Collart could see no use of further talk on the matter. The city council was here for business and not for election talk.

Ald. Stephens said he was sorry if he had hurt the feelings of any members of the school board. All he asked was that in future extraordinary grants would not be exceeded. If they were, he for one would not pass on the expenditures.

Little Co-operation

Ald. Macdonald regretted that so little co-operation between the school board and the city council was apparent. It was premature to lay any charges pending an investigation. He had never believed or said that the school board had made anything out of it or did anything wrong.

Ald. Munro declared that he did not agree with the lecture that had been given the school board. He thought they had done their best to do right. They, like the city council, were dependent on the advice of their experts and employees. He did not feel that the criticism they had received was altogether coming to them. Almost any school board might have got into the same fix. The only mistake they had made was that they did not get a proper estimate at first.

Mayor Newton said that if his strictures had seemed harsh it was only because he felt the citizens had been misled and unduly imposed upon. The fact that \$50,000 had been spent after an estimate of \$15,000 had been made he felt was enough to support his convictions. Regarding the Polytechnic, he had been given to understand that it was not being patronized as well as had been expected. If that was the case he would favor concentration down to the essentials.

On motion of Ald. Stephen and Ald. Mackenzie, the accounts were referred to a later discussion in committee of the whole.

Investigation or Audit

Inquiring as to what steps had been taken with a view to an investigation, Mayor Newton was told by Dr. Kergin that the school board was now awaiting advice, and provision would be made for such in the estimates.

Ald. Collart inquired as to what had become of Trustee Casey's suggestion for an audit. Trustee Casey replied that they were awaiting estimates as to the cost of a real investigation. If this were considered too high the books would be audited instead.

Trustee Parker thought the estimate for an investigation might be exceeded, as had been done in the building of the school. What would the council say then?

PLENTY OF WINE IN FRANCE THIS SEASON

May be Cut in Price to Move Surplus Stocks; Algeria Also

PARIS, JAN. 30.—The amount of wine produced in France in 1922 exceeded that of 1921 by more than fifty per cent, according to the official figures published recently. The 1922 crop produced 1,513,500,000 gallons of wine, as compared with 990,000,000 in 1921. In addition to the

It is anticipated by many dealers that a cut in the price of wine will be necessary to move the surplus stocks.

Suffered from PIMPLES & BLOTCHES for Fifteen Years

When the blood becomes impure it is only natural that pimples, blotches, boils or some other blood trouble will manifest itself by breaking out of the system.

There is only one way to get rid of these obnoxious skin troubles, and that is by giving the impure blood a thorough cleansing by the use of a good blood purifier such as

Burdock Blood Bitters

This remarkable remedy has been on the market for over forty years; is the best obtainable, and will do all we claim for it as a blood cleanser.

Mr. Albert B. De Witte, Lake Valley, Sask., writes:—“I have suffered very much from pimples and unsightly blotches for the past fifteen years, and was so bad I hated to go out anywhere. I tried many different medicines, but none seemed to help. A friend told me to use Burdock Blood Bitters. I have used three and a half bottles, and now I have a clear, rosy complexion.”

CHANCES ARE TAKEN WITH COLD IN HEAD

Such a Cold Should at Once Be Cured or Ailments Likely to Follow.

It is not a long way from the head to the lungs when the passage is made by a cold. When it reaches this stage a cold is tenacious and hard to cure, whereas, if treated in its early symptoms it would yield to a good remedy and save a lot of trouble. Everyone dreads pleurisy and pneumonia, but thousands neglect a cold in the head, which often is the cause. That cold can be relieved in a single night by starting to take Grip-Fix as soon as the trouble appears. This remedy is the one any reliable doctor would prescribe, only put in handy capsule form and it strikes right at the root of the trouble. It keeps the system open and relieves the muscular pain. It reduces the feverish symptoms. Two capsules taken three hours apart give wonderful results, and one capsule at two-hour intervals thereafter finishes the work. Never be without a box of Grip-Fix in the house. On sale at Orme's Drug Store Ltd. 35c a box.

TELKWA HOLDS BURNS CONCERT

Dance Follows Musical Event; Boy Scouts Active; Hazelton Anniversary
TELKWA, Jan. 30.—On Friday night under the auspices of the Anglican and Union Churches, a concert was held in commemoration of Robert Burns. Solos were rendered by Mrs. Garey, Mr. Wilson and Miss Hunsperger. Miss Grace Peterson won much applause in her rendering of the Highland fling. Another very interesting number was given by Mr. Spouse which consisted of several stories accompanied by blackboard sketches. Rev. Mr. Mulvaney and Rev. Mr. Brayfield gave a few remarks on Burns. Whistling by Mr. Hanley and a guitar and mandolin solo by Mrs. Hanley and Mr. Richardson completed the program.
A dance followed the concert, very good music being supplied by Miss A. Hunsperger and J. Neve.
A boy scout service conducted by Mr. T. Spouse was held at the Union Church on Sunday afternoon. This is the first demonstration of any kind given by the Scouts who are coming along very well.
Rev. Mr. Mahwinney spent the week-end in Hazelton where he preached the sermon at the anniversary service of the opening of the new church.

VISITING EVANGELIST PALESTINE LECTURE
Nearly Two Hundred Very Fine Pictures of Scenes in the Holy Land Shown
The lecture on Palestine by E. A. Robinson, of Toronto, proved to be something above the ordinary in general interest. The pictures were wonderfully good, showing as they did scenes in the Holy Land that are familiar to most people from reading the bible accounts but unfamiliar in picture. Last night the historical and religious associations were nicely blended with the actual conditions of today made by one who has visited the scenes.

PILOTS HAVING A TROUBLOUS TIME
Wholesale Resignations Are Forecast, According to Vancouver Story
The fact that Capt. Roberson, Capt. Barney Johnson, Capt. Park, Capt. Wearmouth and other well known skippers are interested in the pilotage business at Vancouver and Victoria makes the following articles from the Vancouver World interesting here:
All is not well in the camp of the British Columbia pilots and startling developments may be expected within the next few days, it was learned today from an authoritative source in pilotage circles.
Wholesale resignations from the B.C. Pilotage Association Ltd., are immediately contemplated, it is stated, involving a number of

HEART PALPITATED and Was Short of Breath

Through one cause or another a large majority of people are troubled, more or less, with some form of heart trouble.
Many people may be unaware of having anything wrong with their heart till some little excitement, over-work or worry starts it to palpitate and throb, skip beats, beat fast for a time and then so slow as to seem almost to stop, then it causes great anxiety and alarm.
To all such sufferers

Milburn's Heart and Nerve Pills
will give prompt and permanent relief.
Mrs. Alice Bishop, 15 Hawthorne Ave., Hamilton, Ont., writes:—“I take pleasure in recommending Milburn's Heart and Nerve Pills to all persons troubled as I had been.
I suffered from palpitation of the heart and shortness of breath; my heart would skip beats, and in the night, at times, I would have to sit up to get my breath. I could not go up stairs without my heart fluttering, and my nerves were all unstrung, but since using your famous pills I have been cured.”
Price 50c a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

The Sons of Canada will have to win tonight's Senior basketball game from the Colts if they intend to prevent the latter organization from getting pretty much of a swing on the season's honors. The way things stand now the Colts have four wins and two losses and the Sons just opposite. In the Ladies League the Kaiens are down for a match with the Maple Leafs and the latter are pretty confident of winning the game which will put them on even footing with the Adanues for first place. The K.C.'s and E.K.s meet in the Intermediate League.

the basis of good and economical COOKERY

A saving of at least two months' time can be made for the big eastern hunters who under the present system spend about two months in weeping travel and have only time for about ten days of hunting. The supply bases could also be used by prospectors and would aid greatly in opening up a country said to be as rich as the Yukon.

The Man in the Moon SAYS--

DON'T they wish they were back in Prince Rupert, some of those people who went to the sunny south to make their fortunes.

WHEN a man gets his fortune through his wife it is usually a misfortune.

OLD Scrub says: "Gee, ain't I'm glad I am not a house-keeper. If I were I should never know what sort of eggs to buy.

I would just as likely buy Seattle fresh when it should have been B.C. fresh or strictly fresh instead of just plain fresh. Then there is the case eggs and the fresh case eggs and packed eggs and all the other kinds of egg delicacies. I believe if I had to lay eggs I'd keep hens and pay the extra price.

THE QUEEN CHARLOTTE ISLANDS

Editor Daily News. There appears to be a difference of opinion throughout the country, with reference to the large group of islands, lying out in the Pacific Ocean, within eighty-five miles of Prince Rupert. During recent times a small number of people from England emigrated to the islands under promises, and understanding little of conditions in an unknown country thousands of miles away from the land of their birth.

Naturally, the so-called "Settlers" desired to better their condition, expecting to find ready employment or land on which to settle, without any struggling or privation. The majority of them did not consist of a class able for pioneering work and they found fault with the means employed to induce them to leave their native land.

Understand Conditions It would be advisable for all others, seeking pastures new, to understand conditions, not only on the Queen Charlotte Islands, but elsewhere. Farming lands and conditions cannot be obtained so easily in any country, let alone on these islands. Transportation facilities, capital, a desire to aid in the building up of a country, are requisites, and must be considered by those desiring to change their place of abode.

The Queen Charlotte Islands are large and will be settled, when people understand conditions here. The summer climate cannot be exceeded, with twenty-hours of daylight in mid-summer an opportunity is afforded, to live in a country, where the summer heat is normal, while the winter is mild, the thermometer never reaching the zero point. Snow falls at intervals, seldom remaining more than a few days. It would be a mistake to say that no winter fodder is required for cattle. People have wintered stock without storing food for cattle, but it is a mistake to be unprepared for eventualities.

Regarding farm lands, it is all very well for some people to argue that farmers will thrive in a country like this. There are places where pre-emptors could get along, but farms are not "found" in any country, prepared for the pre-emptor to locate on without effort. Land must be cleared, crops must be sown, buildings must be erected, transportation of produce and cost of living must be considered. In our day farmers are not clearing land and working under the difficulties and disabilities of old time pioneers.

Sixty Years Behind The Queen Charlotte Islands are in the same condition so far as population, farming lands, transportation facilities and otherwise, that Vancouver island was in sixty years ago with this difference—there is a line of railway within one hundred miles, along which compelling settlers will have quicker means of transportation, and other conveniences, which an outlying settlement will not possess.

MACDONALD'S

the Queen Charlotte islands, are timber and fish, which cannot be excelled in any other part of the Dominion. The great bugaboo of those who visit the islands, and of those who talk about the islands, is a stretch of water which must be crossed and is known as Hecla Straits. There is no denying the fact that these Straits are at times very boisterous. The writer has crossed the Straits on many occasions in all manner of craft. The trip should not be considered a drawback, but few in our day choose the waters of Hecla Straits for an excursion.

However, the islands from many standpoints, are a source of wealth to the Province, and many homes will be seen along the shores in the future. If one, who has spent thirteen years in the neighborhood, will be permitted to forecast: "The Queen Charlotte Islands will become one of the most permanent assets of the Province, within the next ten years."

FISHING BOAT HAD A NARROW ESCAPE

Belated Exchange from Ketchikan Tells of Difficulties of the Tordenskjold

A belated exchange from Ketchikan says: Few people realize the dangers attending the halibut fishermen's work. The Morgen, Swiftsure and Convention have entirely disappeared without any trace of either boats or crew. The recent wreck of the Washington might have resulted in a similar fate or even worse for the Tordenskjold and crew on their last trip, for the boat lay at the mercy of the waves for four days before help arrived.

During the heavy weather off the Lytuya Bay coast, the bearings were burned out of the Tordenskjold's engines, which made the big boat helpless in the heavy sea. Fortunately they were sufficiently far off shore or they would have been piled up on the beach.

Clothing Burned

Oilskins and clothing were burned at night for flares and signals of distress, until the fourth day when the halibut schooner Republic picked up the signals and ran to the Tordenskjold's relief. To emphasize the perils of the sea and in order to gain some understanding of what the crew had to contend with during the four days they lay disabled, the Republic had to stand by for eight or ten hours before it was safe to attempt to put a line on the crippled boat.

When the Republic did get a line on the boat she towed the

PRINCE RUPERT ASSESSMENT DISTRICT.

NOTICE IS HEREBY GIVEN that a Court of Revision and Appeal under the provisions of the Taxation Act and Amendments thereof and "Public Schools Act" respecting the assessment roll for the Prince Rupert Assessment District for the year 1922, will be held at the Provincial Assessor's office in the Court House Building, Prince Rupert, B.C., on Wednesday, the 21st day of February, 1923, at 10 o'clock in the forenoon.

Heard at Prince Rupert, B.C., January 27th, 1923.

JOHN BYRHAU,
Judge of the Court of Revision and Appeal.

SYNOPSIS OF LAND ACT AMENDMENTS

Minimum price of first-class and reduced to \$5 an acre, second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering any land suitable for agricultural purposes and which is non-timber land.

Partnership, pre-emption, abandoned, but parties of not more than four may arrange for adjacent pre-emption with joint residence, each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 1/2 acre hereon.

Where pre-emptor in occupation for less than 5 years, and has made pre-emptive improvements, each Amendment of the Act and Amendments thereon, shall be deemed to have been made, and a certificate of pre-emption issued thereon, provided the pre-emptor has obtained a 1/2 acre hereon and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10 per acre, including 1/2 acre cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown Grant may record.

Pre-emptor holding Crown Grant may require land in conjunction with his farm, without actual occupation, provided statutory requirements made and residence maintained on Crown granted land.

Unsurveyed areas not exceeding 20 acres, may be leased as homestead, title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural gas shows traceable by existing roads may be purchased conditional upon construction of a road of at least one-half mile cost, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all pre-emption and serving with His Majesty's Forces. The one within which the heirs or devisees of a deceased pre-emptor may apply for title under the Act is extended from one year from the death of such person, as formerly, and one year after the conclusion of the great war. This privilege is also made retroactive.

No fees relating to pre-emption are due or payable by aiders on pre-emption recorded after June 26, 1913.

Taxes are remitted for five years on lands in soldiers' occupations.

Interest on agreements to purchase town or city lots by members of parliament, former or deceased, acquired direct or indirect, remitted from an instalment to March 31, 1922.

SUB-PURCHASERS OF CROWN LANDS.

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes upon purchase money do not claim whole of original part, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1922.

LOCAL NEWS NOTES

The tender of \$58.25 submitted by Rose, Cowan & Latta for the printing of 11,400 telephone, light and water account forms was accepted by the city council. There was only one bid.

J. O. Tretheway, of the Tretheway Logging Co., which is instituting extensive operations at Alice Arm, yesterday afternoon on the steamer Venture having passed through here on Sunday night.

Repairs to the steamer Carrosson, following her collision with the Princess Beatrice recently, consist of the repairing of seven plates, replacing of one and putting on of a new guard. The work is being done at Wallace's yard at North Vancouver.

Clarence Arthur, the popular chief engineer of the steamer Vancouver who has been off sick in Vancouver for the past two months, will be back on the steamer next week. J. Reynolds, second engineer, has been acting chief during Mr. Arthur's absence.

The Union freighter Chilcot arrived at 12:45 today from Vancouver and, after spending about an hour in port, cleared for Stewart. Capt. Findlay is in command of the steamer this week in place of Capt. George-son, the regular skipper, who is off on the important business of home-coming. Capt. George-son married a Vancouver girl last week.

DOG AND COCK FIGHTS ARE TO BE BANNED IN MEXICO CITY SOON

MEXICO CITY, Jan. 30.—Dog fights have been prohibited in Mexico City. The decree, recently issued by Mayor Prieto Laurens as one of the first acts of his administration, refers to regulated fights, and not the ordinary street affairs between belligerent curs. Mayor Laurens says it is a disgrace for blooded animals to be matched in a death struggle, and there are strong intimations that a ban will be placed soon on cock fights, which vie with bull fights as the favorite Sunday afternoon diversion.

To many Mexicans, however, there is nothing brutal or inhuman in bull fights, dog fights or cock fights. In many quarters boxing is considered an uncivilized sport, and the newspaper El Mundo recently conducted a vigorous campaign to prevent further bouts in the capital, asserting that it is most disgraceful for men to pummel each other until blood flows.
