PRESIDENT HARDING'S FUNERAL SERVICES

QUEEN CHARLOTTE ISLANDS ARE ATTRACTING MUCH ATTENTION TODAY

EDITORIAL

QUEEN CHARLOTTE

Prince Rupert will do well to keep in close touch with the Queen Charlotte Islands where developments are taking place rapidly. The islands are larger than Prince Edward Island, which is itself a province of the Dominion and the climate is most salubrious while the natural resources are very considerable.

Today the islands are attracting much attention and the people of the northern terminus cannot afford to neglect so great an opportunity as lies close at hand. If they neglect it, other cities will take advantage of the business which awaits them.

The announcement of the Railway Company that a weekly boat service is to be established commencing next week, is good news both for the people of the islands and for Prince Rupert. It puts us in much closer touch and will tend to make life much pleasanter for the people there.

P.G. MAKES A GOOD SHOWING

North Vancouver Section Pays for First Time in History of Line

VICTORIA, Aug. 8.—For the first time since it was constructed the North Vancouver section of the Pacific Great Eastern Railway paid a profit during the month of June, according to figures laid before the cabinet yesterday by the minister of railways. While the profit amounted only to \$709 for the month it is regarded here as significant indication of the success of the plans for increasing the efficiency in the line's operations for the revenue on the Squamish section to be increased by \$10,000 during the month of June, the cabinet was told today.

FISHERY BOATS BE BUILT HERE

John W. Allen, Engineer, Arriving From Vancouver This Afternoon With Plans For 60 Ft. Cruisers

FOUR MONTHS JOB

John W. Allen, superintendent engineer for the Dominion Fisheries department, will arrive from Vancouver on the Prince George this afternoon bringing with him the plans for the two motor cruisers which are to be built for the government in the local shipyard.

The boats will be 60 feet long and will be engine with semi-diesel engines. They will take about four months to build. The boats are to be used in fishery patrol service.

JIMMY DEFOREST NOT TO TRAIN ARGENTINE

INDIANAPOLIS, Aug. 8.—Jimmy DeForest, credited with having developed Firpo into a champion possibility, will not train the Argentinian for the bout in New York on September 14 with Dempsey. G. Widmer, Firpo's secretary announced. He said, however, there was no break with DeForest.

Thousands March in Funeral Procession of United States Dead President at Washington

WASHINGTON, Aug. 8.—A swelling tide of honors bore Warren Gamaliel Harding back today over the road by which he came triumphantly to the presidency two crowded years ago. For him the urge of ambition was ended. The compelling call of duty was stilled in death. Amid tens of thousands of his silent countrymen grouped along the way he passed in such state as only the great dead of the nation may know and beyond the brief hour of ceremony and of sorrow there awaited him eternal rest on the soil that gave him birth.

With General Pershing ahead of the marching escort thousands led the way to the capitol under the dome of which the dead president will rest awhile. Soldiers, sailors, marines and citizen soldiers all were there and behind them came the new president, bowed in grief that his high office came at such a price. Also in the procession there came Woodrow Wilson and Chief Justice Taft who also held that office. Mr. Wilson was stricken and so crippled by illness that he might not give himself as he would to the sorrowful duty of the day.

Behind these in endless array marched the great body of American citizens. Military bands interspersed in the columns played the old old hymns that stir and comfort. No sound or movement came from the great crowds lining the way until the fateful burden flag-bedraped, had been lifted to the catafalque in the rotunda. There in keeping with the simplicity of the man who lay dead the funeral services were brief and impressive.

The body will lie in state until nightfall while thousands upon thousands file past the bier with bent uncovered heads to bid farewell to the upright kindly man so soon to leave Washington forever.

Mrs. Harding was up early after a few hours sleep renewed in her determination to bear up bravely, a determination which carried her three thousand miles through scenes of sorrow unsurpassed in the nation's history. She was alone with the body of her dead husband for half an hour at one a.m. Heavily veiled her frail figure made a pitiful picture amid the splendor of pomp and great honors which by a full measure of devotion she had helped and inspired her husband to achieve.

Canada was officially represented at the funeral by Hon. Arthur Copp, secretary of state.

FLAHERY RE-ELECTED KNIGHTS OF COLUMBUS HEAD AT PHILADELPHIA

MONTREAL, Aug. 8.—James A. Flahery of Philadelphia, was unanimously re-elected supreme knight of the Knights of Columbus at the 41st annual convention today. He received 210 votes against 112 for W. J. Mulligan, Connecticut, who last year was unsuccessful candidate for supreme advocate.

The fall financial meeting of the Methodist Church for Port Simpson district is in progress today at the local church. Those in attendance are: Rev. G. G. Haeker, Prince Rupert; Rev. J. Herdman, Ansox; Rev. Dr. J. C. Spencer and Dr. W. Sager, Port Simpson; Rev. W. H. Pierce, Port Essington; Rev. G. Edgar, China Hat; Miss Haddock, Prince Rupert and Miss Andrews, Bella Bella.

SOCKEYE RUN ON SKEENA EXCELLENT

Sockeye fishing on the Skeena River is the best since the year 1910, according to some of the cannery managers. Boats are bringing in something like 180 fish each and all are earning good money and the cannerymen are happy.

Cohoos have not yet arrived in any numbers it being still too early for that grade of fish. Pinks are not running quite up to expectations but next week it is thought will see an improvement. A good many are being taken in Gatham Sound. The Naas results continue poor.

VICTORIA MAN IS APPOINTED

H. S. Hurn Selected for Supervising Principal of Local Schools—Martin Unable to Accept

H. S. Hurn of Victoria, has been appointed supervising principal of the Prince Rupert public schools. This was announced this morning by W. D. Vance, secretary of the school board. Edward S. Martin of Nanaimo, upon whom the first choice of the board fell, has been unable to accept on account of unforeseen circumstances.

Mr. Hurn has been on the staff of the Victoria Public Schools for some time and comes here highly recommended, having received the endorsement of George H. Deane, municipal inspector of Victoria, and other departmental inspectors in that city.

Other appointments to the local staffs definitely announced today are those of H. R. Lane of South Wellington, Vancouver Island, and Miss Irene Stewart of Vancouver, formerly of Gopper City, as grade teachers and Miss A. A. Pierce of Vancouver as commercial instructor in the High School.

ROCK WALL STREET TO ITS FOUNDATIONS

NEW YORK, Aug. 8.—Revelations made in the reported confession to federal attorneys by R. Fuller and M. Magee, confessed stock bucketeers, are likely to rock the financial section of New York to its foundations. Carl Whitney, new counsel for two former stock brokers announced today

KING HONORS DEAD PRESIDENT

Flowers from British Government and Dominion of Canada Carry Sympathy

WASHINGTON, Aug. 8.—The body of late President Harding reached here at 10 p.m. yesterday and was greeted by a huge throng of people who with the official party in reverent silence conveyed it to the White House where it lay in state until the official funeral service at the capitol today. Amongst a mountain of floral tributes awaiting was a tall graceful easel of lilies of the valley, Easter lilies and China asters from the British King inscribed "In deepest sympathy, George, R.I." Also there were big wreaths from his Britannic majesty's government and from the Dominion of Canada.

Big Lumber Industry at Buckley Bay is Most Important of all and Operations are Increasing

(By H. F. Pullen)
The big industry of Queen Charlotte Islands at the present time is the lumber mill at Buckley Bay which turns out about 175,000 feet of lumber a day in a shift and a quarter. This is without the aid of the new re-saw plant which is about ready for operation and which will considerably increase the output. The management is also considering putting on a double shift, when it is hoped to cut something like 400,000 feet a day. The payroll of the company averages about \$80,000 a month with about 450 men employed.

The Massell Timber Co., Ltd. that operates the mill, controls most of the timber on the Inlet. Only spruce and hemlock is being cut at present, the cedar, which comes out with the other timber, is stored awaiting a market for the product. There is talk of putting in a shingle mill but nothing definite has been done so far.

Eight Camps

The timber is taken out at eight different camps in different sections of the Inlet but it is noticeable that a large quantity of logs are left on the ground or standing owing to there being no demand for the lower grades of lumber. To make the most of the timber there should be a pulp or paper mill. Such an industry would make for economy of operation and would insure the consumption of all the timber. Waste would be avoided and the province would benefit.

In the operation of the camps between twenty and thirty donkey engines are used and in the total operations of the company no less than 32 engines of this description are on hand.

Of the total cut of logs approximately 60 per cent is spruce and 40 per cent hemlock. Then there is a medium of cedar amounting to about five per cent of the other varieties, which, as before mentioned, is not at present manufactured.

Method of Loading

The mill is right up to date and the camp is being gradually improved with a view of increasing the comfort of the employees. The camps are thrown into the water and made up in small rafts of from 700,000 to 800,000 each and three of these are moored to the side of the ship and loaded aboard at one time. This method of handling it is claimed, is as speedy as any that could be devised. A shipload of 1,600,000 feet can in this way be loaded in three and a half (continued on page two)

British Proposals Unpleasant to Germany says Chancellor Cuno Vatican Looked to for Proposal

BERLIN, Aug. 8.—Chancellor Cuno made his promised speech in the Reichstag today, on reparations. He dealt particularly with the proposals for settlement recently advanced by Great Britain. In the course of the address the chancellor said the principles on which Great Britain had based her proposals were unpleasant to Germany. The government, he declared, could not agree with the French demand that the government should suggest to the people of Ruhr that they abandon passive resistance.

Look to Vatican

LONDON, Aug. 8.—Constant efforts toward settlement of the Ruhr situation are in progress at the Vatican, says the Daily Telegraph. Charles Jonnart, French ambassador to the Holy See, according to the newspaper, had another long important audience with the Pope.

Former chancellor Wirth of Germany and the German minister at the Vatican have been in constant communication with Cardinal Gasparri, papal secretary of state. Powerful political forces in Germany are looking to the Vatican to bring about a weakening of the French hold on the Rhine, says the newspaper.

IRON INVESTIGATING PARTY VISITS HERE

Dr. G. A. Young of Ottawa and His Men Were in City Today—Left for Nearby Islands

Dr. G. A. Young, of Ottawa, who is heading the geological survey party working this year on the coast investigating deposits of iron ores for the federal and provincial governments, arrived in the city yesterday afternoon on the Victoria gasoline boat limit which is under charter to the party. The party has been for several weeks on the Queen Charlotte Islands from whence it arrived here for supplies. This morning the boat pulled out for Port Simpson where an engineer will be picked up. From there the party will proceed to Pitt and Porcher Islands. Dr. Young stated that they would be back here on Friday of this week.

Three members of the party sailed from here on the Cardena last night for Alert Bay where investigations are also being carried out. They were C. Swanson, R. Hayes and F. Osborne.

FRANK OLIVER MAY BE COMMISSIONER ON DOM. RAILWAY BOARD

OTTAWA, Aug. 8.—While nothing is given out for publication following the cabinet meeting here, the rumor that Frank Oliver of Edmonton will be appointed to fill the vacancy on the Dominion Board of Railway Commissioners caused by the death of Dr. Rutherford becomes more insistent.

SHOT HIS OWN SWEETHEART

Toronto Man Phones Police Telling of Rash Deed and Threatens Suicide

TOLD TALE TO DRIVER

TORONTO, Aug. 8.—Four hours after George King, 25 years of age, shot and killed Eric Johnson, his seventeen year old sweetheart, on the veranda of her home, he was arrested today on a charge of murder.

After the shooting King jumped into an auto and entered a Toronto restaurant. This morning he phoned the police he had shot his sweetheart and intended committing suicide. Officers hurried to the cafe and found King apparently demented but unharmed.

In escaping King jumped into the car and at the revolver point forced its owner, Archibald Kells, to drive to Toronto. During the wild ride Kells, with the revolver chafing his ribs, was forced to listen to a story of love, jealousy and murder.

GERMANY WILL BOLSTER MARK

That is Announcement of Minister of Economics, Johannes Decker

BERLIN, Aug. 8.—Dr. Johannes Decker, minister of economics, is reported by the Vossische Zeitung as saying that the government does not intend to abandon paper currency as reported. He declared that the government was resolved to do everything possible to support the mark and would not cancel the measures already taken toward this end.

Marks sold in New York today at seventeen cents a million.

PORTABLE MILL FOR VANARSDOL

John Hagen to Establish 15,000 Foot Plant—Machinery Arrives But Site Not Yet Selected

John Hagen, formerly engineer at the Royal Mill, Hanall, is making preparations to establish a small portable sawmill at Vanarsdol with an output of 15,000 feet or so daily. Mr. Hagen holds timber limits in the neighborhood of Vanarsdol. Some machinery has arrived for the plant but a site has not yet been located.

DAILY EDITION

Wednesday, August 8, 1929.

Make Prince Rupert Manufacturing Centre.

It was suggested to the editor of this paper recently that there was a great advantage in using a terminal point as a centre for manufacturing anything whether it might be lumber, pulp, paper or any other product of the natural wealth of the country.

Prince Rupert is the natural terminal point for the whole north country to which point the best railway and steamship rates are obtainable. At any place off the railway there is an extra tariff which increases the cost of the manufactured article.

In the south most of the industries radiate around Vancouver because it is the cheapest base of supplies and the best shipping rates are obtained from there. In the north Prince Rupert should be a similar centre. It has the same rates as Vancouver from the East and has practically all the advantages of the other cities.

For a new industry about to start operations, Prince Rupert is the natural centre. At large expense the people have installed municipal government and street improvements and all the facilities which go with modern development.

Advantage Of Terminal Point.

Let us suppose that a pulp and paper mill is to start operations in this neighborhood. There are possibly some advantages in being near the power supply and also in being able to have a closed town. Yet these are minor advantages. The major advantages is in favor of the place already established. In the building of a paper plant almost half the cost is in providing facilities for the employees. By placing the mill at or near Prince Rupert there is no expense to the company in providing these facilities. The employees are more contented when they have city advantages, and there is less difficulty in getting an abundance of labor. Prince Rupert already has its municipal government, its water and light, its streets, library and reading room, its theatre and educational facilities. In establishing a new industry in the wilds, all these have to be provided to a greater or less extent and they are very costly. Also there is an embargo on all supplies in the way of increased freight charges and the facilities for shipping out and marketing to advantage are also denied.

Everything points to the city as the natural place for the establishment of new industries and especially the pulp industry.

City Should Be Interested.

Now, looking at the question from the point of view of the city, it is easy to see what an advantage it would be to have such an industry here. The townsite is at present too big for the population and the result is that keeping up the streets and paying for other facilities becomes a burden. Add a few thousand to the population and the burden is more widely distributed and becomes at once less heavy. What is needed is population. Anything the city can do to increase population is effort well invested.

During a recent visit to Massett Inlet it was noticed that only about half the timber on the ground was taken by the mill, the other half being left to rot on the ground or allowed to stand until the next windy gale came along and overthrew it. All this timber could be utilized if there was a pulp mill near. It is estimated that there is a sufficient supply of timber to keep a pulp mill going indefinitely in the neighborhood of Massett Inlet. There is also a good location for a power plant on the Ian River, close to Buckley Bay. What seems reasonable is for a ground wood plant to be established at or near Buckley Bay and for a paper plant to be located at Prince Rupert at which the ground pulp would be utilized. This would necessitate the development of one of the big water powers in the neighborhood.

Some of the timber used in the paper mill would be secured in this neighborhood while the whole of the adjacent country would be drawn on to help provide the supply.

Garden Spots of Dominion but Difficult to Bring Under Plow are Queen Charlotte Islands

(By H. F. Pullen)

One of the common questions I am asked by those I meet, is "How do you like the Queen Charlotte Islands?" or "What do you think of the Queen Charlotte Islands?" At Massett they asked, "Well, what do you think of Massett?"

None of these questions can be answered. Anyone who thinks at all, thinks so much about all the places that it would take hours to tell it all. Just dropping into a place, spending a day and getting out again does not give one a chance to form much of an idea what it is like, or to give a correct estimate of the importance of the country and to prophesy as to its future.

There is a charm about the Queen Charlottes that is bound to impress any visitor. After looking around at the gardens and homes it is easy to agree with those who say it is the "Garden spot of the Dominion." But— and there must always be qualifications in any statement of this kind—but it will be a long time before the whole country is a garden. It is a difficult country to settle and those who go there must expect plenty of hard work. They must expect disappointments and discouragements, for farming in a large way is still experimental. Many who have lived there, however, declare they would live nowhere else, that nowhere is nature so lavish, is the climate so congenial, and are the future prospects so good.

Sandy Yet Rich

Take Massett as an example. There the soil is sandy yet rich and a glance at the gardens shows that every kind of garden truck does wonderfully well with any reasonable amount of care. Flowers bloom there in profusion, honeysuckle lends its fragrance to the air, potatoes show prospects of a wonderful crop and the quality of any tubers with such a soil is bound to be excellent. Dairy cattle do wonderfully well, beef cattle fatten on the natural grasses, poultry give as good returns as anywhere for the expenditure of time and money. Pigs increase and thrive, and the only complaint against the keeping of sheep is that they get too fat.

Why is it then with all these advantages that people do not go to the district in large numbers and that the country is today so sparsely settled that it is impossible to get a frequent steamer service with mails and other advantages? The chief difficulty is with the clearing of the land. It is mostly heavily timbered, and only those who have tried it know how difficult it is to grub or blow out the immense stumps and to collect and burn the roots. It is a heart-breaking job to anyone who is not inured to toil or who delights in hard manual labor. It can be done, and is being done and the joy of achievement is great when new land is seeded to crop, but for one who makes a success of the work dozens will fail and their failure discourages others.

Vision of Future

As I drove through to the west beach with Charley Spence and sailed down the inlet with Rev. James Gillett in the mission boat Western Hope I saw visions of thriving farms, of picturesque homes, of lowing herds, of bleating sheep, of villages and of towns here and there. Actually, I saw the homestead of an occasional settler with a little clearing in the woods or on the edge of the inlet. He was growing a few potatoes, milking two or three cows, keeping a pig or two, selling a few eggs and occasionally marketing a fat steer. That was the man I saw everywhere. He eked out a scanty livelihood, happy as he cleared an extra half acre of land, added a cow to his herd or a pig to his pen. All were happy and hopeful, proud of the district, optimistic in regard to the future, grumbling a little at the transportation companies, the governments, and the unappreciative public.

Wonderful Waterway

Massett Inlet is a wonderful waterway, and, on its shores there will some day be thousands of farms and tens of thousands of people. Boats will ply in every direction, tourists will come from all parts of the world to see it and the whole island will be a hive of industry. There is no doubt of this. But today the few settlers are lonely. The people live too far apart. The method of scattered settlement seems almost criminal. Transportation is very poor because there is not enough business to induce better. The market is unorganized and the practical knowledge of the

settlers is strictly limited. Throughout the islands there is going on a tremendous single-handed unorganized fight against nature, and nature wins most of the time. A few people with greater advantages, better adaptability or more determination, win out and point with pride to their own progress. Others carry on and where they leave off someone else will take up the burden until in generations to come man will be conqueror, the forests will have disappeared, to a large extent, roads will be built and the modern facilities of civilization will have removed all hardship and at the same time much of the joy of life such as the pioneer enjoys today.

Those Who Should Go

Anyone who wants a luxurious life should not go to the Queen Charlotte Islands today. Anyone who is not afraid of a lonely life, of hard work, and who delights in the constant fight to overcome nature can go there and succeed.

BIG LUMBER INDUSTRY AT BUCKLEY BAY IS MOST IMPORTANT OF ALL AND OPERATIONS ARE INCREASING.

(Continued from Page one.)

days and the same can be discharged into the water at San Pedro in 18 hours. The water gives unlimited storage capacity and the lumber is improved rather than injured, it is claimed, being immersed in salt water. It will keep months without injury. This has been proved on more than one occasion and no sign of teredo has been seen.

There are at present three steam schooners engaged in transporting the lumber and cants to San Pedro. These are the El Ceuto, El Cedro and El Abeto, the Spanish names meaning respectively The Hemlock, The Cedar and The Spruce. Each of these schooners carries 1,600,000 feet and it takes them 21 days to make the round trip. There is talk of larger vessels for the business but so far nothing has been done to provide them.

Company Officials

The chief officials of the company are:
General Manager, F. L. Buckley.
Assistant General Manager, G. P. Hale.
Local Manager, R. H. Marlatt.
Logging Superintendent, A. B. Pleas.
Mill Superintendent, J. Chase.
Supplies, G. H. Stevens.
Stores, C. B. Shrigley.
Medical Officer, Dr. Briggs.
Chief Accountant, J. A. O'Donnell.

The company is logging off a new townsite on which it is planned to erect 80 up-to-date houses for the accommodation of the employees. At present most of the houses are built along the waterfront. The recent fire which threatened the existence of the mill and townsite has made an effective fire break which will be a protection to the town for years to come. The woods all around the townsite were burned but only one house was lost in the conflagration.

As soon as the new townsite

FREE—10 finer shaves. Use the coupon

The First Shave Repays You

—quicker, easier, cleaner

Everything you might want in a shave is offered you here. As a test—at our expense—of the shaving cream which today saves time and skin irritation for millions of men.

We spent 18 months making it perfect for you—first asked 1,000 men what a shaving cream should be, then conducted 130 laboratory experiments. But we have produced, in Palmolive Shaving Cream, the 5 sure ways to cleaner, quicker, easier shaving:

It multiplies itself 250 times in luxurious lather. Softens the most obstinate beard in one minute, without tedious "rubbing in."

Lather lasts, creamy, moist, rich, for 30 minutes on your face, if necessary.

Strongest-walled bubbles hold each hair erect—for easy, clean, close cutting.

Finally, the skin is left soft and soothed by the careful blend of palm and olive oils.

We will value your judgment. That's why we ask you to make the test millions of men have already made. You stand to lose nothing, or to gain greater shaving comfort. Mail the coupon now—for your 10 free shaves.

EIGHT LADIES QUEEN CONTEST

Interest is Keen and Work Has Already Started in Real Earnest

With eight young ladies already entered in the Fair Board's carnival queen contest, interest is already keen and work by and on behalf of the various candidates has started in earnest. The Fair Board office reports having received some penitances already from those in the running. The first table of standings will be announced on Monday next, W. F. Roberge, manager of the contest, announces.

The ladies already entered are: Miss Marjorie McDonald, of Anyox.

Miss McRae, of Buckley Bay, who took the place of Miss Marlett who dropped out.

Miss May Reid, of Prince Rupert, nominee of the Royal Purple and Elks' lodges.

Miss Adefine Hendricksen, of Prince Rupert, nominated by the secretary of the Deep Sea Fishermen's Union and endorsed by the Moose Lodge.

Miss Anne Kelly, of Prince Rupert, Great War Veterans' candidate.

Miss Margaret Wattie of Hazelton.

Miss Elizabeth Stratton, candidate of the Smithers Athletic Association.

Miss Kathleen Brown, of Prince George, nominated by W. P. Ogilvie.

REMARKABLE GROWTH OF VEGETABLES AND GRAIN IN INTERIOR

Remarkable growths of grains and vegetables in the interior are reported by W. F. Roberge, director of the Northern B.C. Agricultural & Industrial Association, who is just back from a tour on behalf of the Fair Board.

On Stanyer's ranch near Burns Lake rye wheat pulled on July 17 before it had reached its full growth measured five feet in height. On the same farm, fall rye on July 9 measured 6 feet 6 inches and clover two feet. On R. G. Stearns' farm fall rye was pulled 7 feet in height.

At Hazelton, Mr. Roberge saw a really wonderful head of lettuce. It was 64 inches in circumference and 21 inches in diameter, measured from the outside leaves tight around the solid head.

T. Jefferson and a party of four longshoremen sailed last night on the steamer Cardena for Ocean Falls.

T. E. Hennessey and B. Child were among the passengers sailing for Vancouver on the Cardena last evening.

The steamer Redondo is expected to arrive in port tomorrow evening to load empty fish oil barrels for Port Walters.

C.P.R. steamer Princess Louise Capt. Arthur Slater, southbound from Alaska ports to Vancouver, is due from the north at 3.15 this afternoon and will sail for the south at 5.

Lillie Jackson, native, was discharged this morning in the police court on a charge of having liquor in her possession. The liquor found in her room by the police did not belong to her, it was established.

The Ladies Auxiliary of St. Andrew's Society will hold a sale of work in St. Andrew's rooms, Second Avenue, November 16.

The Fair Board last night decided to call for bids for concession spaces at the exhibition building this fall. The formal advertisements will appear in the course of a day or so.

Mrs. J. G. Steen has returned from Lake Kathryn where she spent several weeks visiting with Mrs. Olof Hanson at her country home. Mrs. S. P. McMorde, Mrs. G. W. Nickerson and Mrs. Jarvis McLeod, who were also visiting there, returned last week.

Elks Flag Day, August 9, at Acropolis Hill. Children's Masquerade Dance in Elks' Home in evening. Six valuable prizes for the best dressed, comic and original couples. Adults take the floor afterwards. Special music and refreshments provided. 186

David Call and Rev. William Fisher, high dignitaries of the Orange Lodge of England, will arrive on the train from the East tonight sailing by the steamer Prince George for Anyox and then on to Vancouver by the same steamer tomorrow evening.

In a letter to the Fair Board last night, the provincial department of agriculture reported that a reduction in grants to exhibitions had been made all round this year. Instead of the \$300 which the Prince Rupert fair received last year it will get \$247 this year.

G.T.P. steamer Prince John, Capt. Harry Nedden, arrived from Stewart at 10 this morning and is today loading at the Tucks Inlet fish products plant. She will return to the Grand Trunk wharf at 3 o'clock tomorrow morning sailing for Vancouver and the Queen Charlotte Islands at 6.

The housing of native visitors at the forthcoming exhibition promises to be this year, like in the past, quite a problem. The Fair Board is already taking steps to deal with it. The dry dock commissary, which was used last year, in several respects is not suitable and other arrangements will probably be made. A suggestion has been advanced that large army tents be secured for the purpose.

Don't forget the ELKS' FLAG DAY tomorrow, Thursday. Parade leaves Elks Home at 1 p.m. to Acropolis Hill with the Clowns' Band in the lead. Afternoon sports - Races, Tug-of-War, Baseball, Football. Evening - Baseball, league game, special feature at 6.30. Don't miss it! Masquerade Dance from 8 to 10 in the Elks' Home for children. Those in costume free. Prizes for the best dress, best comic and best original couples. Dancing will continue until 1 a.m. Special music and refreshments. Let's put it over, Boys!

Some improvements and repairs to the exhibition building will be required before the fair is held next month, the building and grounds committee reported at the meeting of the Fair Board last night. It was decided that the full board should inspect the building on Thursday afternoon of this week. Those present at last night's meeting were President C. H. Orme, Vice-President R. V. G. Lepine, Directors Ben Self, W. F. Roberge, E. A. Mann, Thomas McMeekin, Ald. R. F. Perry, R. E. Benson and Honorary Secretary Frank Dobb.

ANYOX ELKS BIG FLAG DAY

Sports For Children Are Feature of Occasion at Smelter Town

MEMORABLE OCCASION Procession Headed by Kazoo Band Marches to Ball Grounds

ANYOX, Aug. 8.—The "Brother Bills" are nothing if not good hosts at all times; but when the occasion has to do with the wee brothers and sisters, they're a wee bit better than usual. On the recent celebration of their annual flag day at Anyox, there was nothing left undone to make the day a memorable one in the lives of the bonnily decorated kiddies who took part. The weather was made for the occasion, and was warm enough to make the good things which the big brothers dispensed doubly welcome. Fruit, peanuts, ice cream and colored drinks in profusion were distributed and partaken of to the limit, which meant a lot, for the youngsters' limit is something not yet established.

Starting from the Elk's Hall at 1 p.m. a long line of kiddies dressed in summery things, carrying flags and balloons, and wearing caps of gaudy colors, all of which were furnished gratis, and headed by the Elks' kazoo band, the procession went to the ball grounds, where the big events of the day were staged. Before the sports started, Rev. J. Herdman told of the object of the day's recognition, what it meant, and how its observance would be all to the betterment of everybody. The flag was raised and the program provided for children only was then commenced and carried to a conclusion without a hitch. Energetic committees were responsible for the great success achieved. These committees were as follows:

Chairman of committees—Robert Armour. Refreshment committee—Chas. Wing, J. Foxley and J. Thompson. Band committee—E. J. Waterman, M. Cranley and S. A. Down. Transportation and children's prize committee—A. W. Seaton, J. Balfe and G. Carson. Dance committee—H. Thorley, A. Nickerson, H. Down, B. Sheen, A. LaFortune, E. Drandson. Ladies' baseball and dance committee—E. J. Waterman and J. Cody. Children's sports committee—T. J. Kirkwood, A. W. Seaton, Rev. J. B. Gibson, J. Blaney, J. Balfe, G. Carson and R. Armour. Ladies' tug-of-war committee—Mrs. J. T. Wilson and Mrs. A. Morton. Tent erection at grounds committee—J. Smith, G. Kinnrade, G. Kattray and J. Cloke. Publicity committee—E. Moss and Robt. Armour.

The Races Following is a list of events and winners:

Girls' race, under 4 years—1, Doreen Harrington; 2, Mary Smith. Boys' race, under 4 years—1, Murray Roberts; 2, Douglas Gill. Girls' race, under 5—1, Tennie Haid; 2, Alva Johnston. Boys' race, under 5—1, Michael McGinnis; 2, Biffie Coulter. Girls' race, under 8—1, Doris Grigg; 2, Isabel Munroe. Boys' race, under 8—1, Sidney Brown; 2, Freddie Calderone. Girls' race, under 11—1, Edna Herrin; 2, Patricia O'Neill. Boys' race, under 11—1, Willie Cloke; 2, Willie Barclay. Girls' race, under 13—1, Edna Herrin; 2, Patricia O'Neill. Boys' race, under 13—1, Angus Morrison; 2, Willie Cloke. Boys' race, 13 years and over—1, Bobbie Moffatt; 2, Willie

Bobbie Moffatt; 2, W. Barclay. High jump, girls over 12—1, Margaret Marriott; 2, Inez Leslie. Barrel race, boys over 11—1, Frank Anderson; 2, Jack Barclay. Barrel race, girls over 11—1, Inez Leslie; 2, Annie Scott. The prizes were distributed by Mesdames Haffner and Coulter.

SMELTER BEAT MINE AGAIN AT BASEBALL

Last Game at Anyox Was Best of Season—Score 2 to 1

ANYOX, Aug. 8.—The Smelter ball team made it two straight by defeating the Mine in the last game played to date in the Anyox Baseball League. This game was probably the best contested game of the season and was anybody's fracas right to the finish, the score being three to one. The Smelter started scoring at the very commencement of the game and got two of their runs on their first appearance at bat.

Both pitchers threw nice ball, and hits were not plentiful. Fortin, for the Smelter, allowed the Mine four hits, three singles and a two-bagger. C. Ferguson allowed three singles and two two-baggers. Strike-outs: Fogin, six; Ferguson, three. Both Cole and Sherman did good work in the field for the "Gas Eaters." Umpire—W. Olson; base umpire, C. Olson. Line-ups: Smelter—Matheson, Fortin, Brown, McKeown, Cole, Losoke, Sherman, Sinclair, Sheen. Mine—Mealey, Greenwell, C. Ferguson, Anderson, Gorkle, J. Ferguson, Kirk, Stewart, Halverson.

Sport Chat

Every arrangement has been made and all that is required now is the presence of the kiddies themselves at the Elks' Annual Flag Day at Acropolis Hill grounds tomorrow. Even the old Weather Man is behaving himself wonderfully well and if King Sol smiles tomorrow like he is doing today that will be all necessary to make the affair an unqualified success. Past Flag Days still linger as delightful memories in the minds of the kiddies and this one promises to be the best yet. There will be fun and frolic for everyone both old and young tomorrow from the time the band and clowns lead the youthful merry makers up the hill in the early afternoon until the last strain is played by the orchestra in the dance that is to wind up the day. Bert Morgan says he has 200 pounds of nuts and two barrels of ice cream for the youngsters.

"Beauty parading" and idle street flirtations, heritage of the Spanish colonial days, are becoming extinct pastimes in Argentina, the South American Republic. The devotion given by the Argentine youth to outdoor sports in the last decade, first by the young men and now in growing measure by the young women, is held accountable for the change. About all the outdoor exercise Argentine young folks took 25 years ago was flirting on the streets. Today there is hardly a vacant lot in Buenos Aires that is not the scene of some game or other. Football, tennis, golf, sculling, field sports, swimming, basketball, boxing and yachting are among the favorite sports. Young men and women participate alike. Encouragement of outdoor sports is one of the special policies of President Alvear, who shows his interest by kicking off at a big football match and attending many sport events while he sets an example as a devoted golfer.

MANY EXHIBITS FOR EXHIBITION

All Interior Districts Will Send Displays Equalling if Not Excelling Those of Last Year

W. F. Roberge, director of the Northern B.C. Agricultural & Industrial Association, who has been on a trip to the Interior in the interests of the forthcoming exhibition, reported at the meeting of the Fair Board last night that all the districts between here and Prince George were planning to send fine collections to the fair equalling if not eclipsing those of last year.

The Prince George Agricultural Association is set upon retaining the challenge cup which that district won for its display last year and plans are already well under way for this year's show. Vanderhoof, Burns Lake, Smithers, Telkwa, Hazelton, and New Hazelton districts are also going to send displays. Terrace will also come in it is expected and Mr. Roberge intends to make a trip there at an early date.

Local exhibits will also be good this year and the industries will be represented including the Tunks Inlet by-products plant and various canneries. The Royal Bank of Canada has presented the association with a silver cup for the cannery exhibit competition.

PRESENTATION MADE GEORGE H. MC NICHOLL

Prince Rupert Club Remembers One of Former Members at Smoker Last Night

Last night at the Prince Rupert Club George H. McNicholl, general passenger agent of the Canadian National Railway was the recipient of a nice present from his former club members as a token of their respect. This was the first opportunity that they had of making the presentation owing to the hurried visits of Mr. McNicholl on former occasions.

Reginald Beaumont, president of the club, presided and expressed the general regret the club felt at losing Mr. McNicholl. He said the visitor had always been a valued member and while he was to be still in Vancouver and therefore in more or less close touch with them they could not allow the occasion to pass without showing their appreciation of his membership. He referred to some of the activities in which they had been engaged together and hoped they would see Mr. McNicholl often. He then on behalf of the club presented him with a pipe as a token of good fellowship and asked that as he inhaled the fragrant weed he would sometimes let his thoughts stray to the old associations which had been so pleasant.

J. H. Pillsbury, M. P. McGaffery and D. G. Stewart also spoke along similar lines and said they often met Mr. McNicholl when on their business visits to Vancouver. It was a great thing to know they had a Prince Rupert friend in that city.

There was a large gathering in the big sitting room of the club, all of whom cheered the complimentary references to the guest.

Tonight Mr. McNicholl goes to Anyox and returns to Vancouver tomorrow night.

BOARD OF TRADE ISSUES BOOKLET

The sports and attractions committee was authorized at last night's meeting of the Fair Board to bring in three outside baseball teams and one football team during Fair Week. Anyox, Smithers and Ocean Falls will probably provide the baseball teams. It has been suggested that the Anyox football team also come but Telkwa has a strong objection which has been clean-up interior honors and it is believed that the team is desirous of coming here.

The matter of appointing a sports manager for the Fair has been left in the hands of the committee. Several applications for the post have been received.

STEWART

Eastern interests have acquired control of the Hercules group near the Big Missouri and will

Blind Man's Buff

EVEN in this age of enlightenment some folks spend their money blindly. They buy with their eyes shut. They grope in the dark as truly as if their eyes were bandaged.

And all the time a powerful light is being thrown on the very things they need and want!

Advertising is a beacon to guide you in buying. It shows you what to buy-- where to buy-- and when to buy. At the same time, it protects you against fraud and inferiority.

Merchants and manufacturers who advertise deliberately focus thousands of eyes upon their wares. Their values must be honest and their prices right, or they could not advertise successfully.

Don't play blind man's buff with the elusive dollar. Spend a few minutes each day running through the advertisements in this paper. Then buy the products that have proved up in the light of advertising.

Read the Advertisements.

WHITE SOX SCORE WIN OVER COLTS

Intermediate Leaguers Put Up Another Fine Baseball Game Last Night—Score 6 to 5

In as snappy a game as the Intermediate League has yet put up this season, the White Sox defeated the Colts by a score of 6 to 5 at Aeropolis Hill grounds last night thus scoring their first victory of the league series against these opponents. At the end of the seventh, the score stood 5-5 so the eighth was played and the Sox succeeded in putting the winning run across the plate. There were only three errors in the entire game. Each pitcher had nine strike-outs to his credit.

J. W. Hamilton umpired and the teams took the field as follows:

- White Sox—S. Gawhorn, c.; W. Lambé, p.; G. Blyth, 1b.; V. Meagher, 2b.; B. Wendell, ss.; D. Garvich, 3b.; J. Martin, lf.; M. Smith, rf.; G. Hills, cf.
- Colts—C. Budenich, c.; G. Clapp, p.; J. Sims, 1b.; T. Fraser, 2b.; D. Frizzell, ss.; N. Chenoski, 3b.; A. Palmer, rf.; Bert Kelly, lf.; E. Ratchford, cf.

EXONERATES UNDER COLONIAL SECRETARY

LONDON, Aug. 8.—Replying to inquiries instituted by Premier King in regard to a newspaper despatch that W. G. Ormsby Gore, under secretary for the colonies, had presided at a meeting of the Grand Trunk shareholders in London on July 17, at which the Canadian Government was criticized for treatment of the road's shareholders, the Duke of Devonshire cabled that the under secretary was not at the meeting. Confusion arose from the fact that another man of the same name was present.
