# LEGISLATION TO CONTROL TRUSTS SOUGHT

## TWO OF THE PROVINCIAL GOVERNMENT BUILDINGS ARE LEASED BY MONTH

### EDITORIAL

#### PRINCE RUPERT CENTRE FOR MINING ACTIVITY.

Prince Rupert is the central contributing point for the mining activity which surrounds it. It is never as a place so well suited for this purpose, especially in view of the recent development of the interior provinces and the certainty that a great deal of ore will be shipped from them in the very near future. The activity will be chiefly in the Bonanza Bay Mountain, Rober Roy and Douie Mountain and Dome Mountain. It is generally understood that the Duthie mine will be shipping steadily but there is a great deal to do before the output from that mine can be very large. Probably a tramway will be installed and large quantities of ore blocked out. There is some activity on Queen Charlotte Islands, Surf Island and at Drum Lummon. All these mines are in addition to those at Stewart, Alice and Anox and other Port-Canal points. The activity at Stewart thus promises to be greater than ever before, both on the Bear and Salmon Rivers and in fact there is general mining activity in the North. Prince Rupert being the central point from which to serve all these camps, it seems curious that there are not more distributing agencies for mining machinery located here. It is undoubtedly the best centre and the point from which all others can be worked.

### CONSIDERABLE DAMAGE DONE TO CAR BARGE

Extensive Repairs Necessary—Work Will be Done at Local Dry Dock

Considerable damage was done to the Swanson Bay car ferry as a result of her grounding on Heather Island recently. Capt. B. Englass, C.G.M.M. marine superintendent, completed his survey yesterday and found that the bottom was badly smashed in places necessitating extensive repairs. The job has been left to a local dry dock and will take at three weeks.

### RAYFLOWER IS POWER CRAFT

Being Schooner Cut Down and Equipped With Motor for Commercial Work

GLOUCESTER, Mass., March 6.—The Mayflower, smartest power schooner of the American fishery under sail, is to be cut down and equipped with a motor. The fishing syndicate have lost \$14,000 in two years trying to get the Mayflower recognized as a fisherman, eligible to compete for the Hatfield cup international trophy. The Mayflower will now be the high liner between Boston and Gloucester fleets and the shore, utilizing her speed to carry fish to market.

## Government to Control Trusts Combines and Monopolies and to be Given Wide Powers for Action

OTTAWA, March 6.—Legislation is to be passed by the Dominion Parliament at the instance of the government for the purpose of controlling trusts and preventing monopolies exerting too strong an influence. A resolution was proposed by Premier Mackenzie King yesterday and on this resolution a bill will be based to be introduced later. The resolution commits the House to the principle of the bill and the details will be discussed when the bill is brought down. The text of the premier's resolution provides for an investigation of combines, monopolies, trusts and mergers and contains provisions giving power to remit or reduce duties or revoke patent rights when combines are proved to exist and also for the imposition of penalties for violations of the proposed legislation.

### St Andrew's Society Leases One Government Building and North B. C. Regiment Second

The St. Andrew's Society has secured a month to month lease on the old provincial government building on Second Avenue formerly occupied by Government Agent J. H. McMullin and his staff. The building will be used as the society's club room and the new tenants expect to be established there on April 1, moving from the present quarters of Fulton Street. The Northern B.C. Regiment has obtained a similar lease on the old land registry building and it will be made militia headquarters.

### PAGAN CHILDREN IN SCHOOLS OF PROVINCE

So Says Dean Quainton of Victoria When Discussing Religious Training

VICTORIA, March 6.—The growing number of "pagan" children in the schools of Victoria is likely to cause serious trouble in the future unless religious training is given more attention, Dean Cecil Quainton, rector of Christ Church Cathedral, told members of the Rotary Club at their luncheon in the Chamber of Commerce. "We read that Bishop Falthin says Bolshevist schools are being started in Canada to break down belief in the existence of God and destroy Christian standards," said the Dean. "I do not say that such schools will ever be started in Victoria, but such institutions would find a fertile field in the minds and hearts of the pagan children who are attending our schools. There are not many such children, but there are some, nevertheless, who have received no religious education whatever. They are the soil in which the germs and seeds of Bolshevism may find strongest root and perhaps bring about disaster."

### HUMAN FLY FALLS FATALLY INJURED

Dozen Movie Cameras Catch Final Stunt of Howard Young at New York

NEW YORK, March 6.—Howard Young, known as the human fly stunting for the movies while climbing the Hotel Martinique on Broadway in the presence of 20,000 persons, fell from the eighth storey and was fatally injured. A dozen movie cameras were in action at the time of the accident. The Union steamer Ghelohsin, Capt. Stacey, is due in port at 5 o'clock from the Skeena River. She is scheduled to sail for the south at 6.

### BOWLING GREEN IS PROPOSED FOR THE GOV'T. GROUNDS

It has been suggested that part of the large grounds in front of the new government building might be secured for the purpose of laying out a bowling green for the use of the people of the city. The land is already level and could be made into a green without any very great expense. The matter is worth consideration by those who are fond of that kind of sport.

### GRIFFITH-BOSCAWEN RESIGNS PORTFOLIO

Rumored That Lord Robert Cecil Will Succeed Him as Minister of Health

LONDON, March 6.—Hon. Griffith-Boscawen, who was defeated a second time in an effort to secure a seat in parliament, has resigned the portfolio of minister of health and it is rumored Lord Robert Cecil has been offered the position.

### CO-OPERATION FOR FOREST PROTECTION

OTTAWA, March 6.—A resolution urging co-operation between the provincial and federal governments to preserve the forest wealth of Canada submitted by Pius Michaud of Madawaska was carried in the House of Commons without a division after much discussion as to ways and means of forest protection.

### MOLLY MALLORY WAS BEATEN BY BRITISH LADY AT MENTONE

MENTONE, Mar. 6.—Mrs. Molly Mallory, American tennis champion, was defeated in the second round of the women's singles in a tournament here by Miss Cadie of England, the score being 6-0, 7-5.

### PRO PATRIA TOWED TO ST. PIERRE IN DISABLED CONDITION

HALIFAX, March 6.—A Canadian government steamer with the disabled steamer Pro Patria in tow reached St. Pierre last night after a strenuous battle with heavy seas.

### LEAGUE HOCKEY

Western Canada League Edmonton 3, Regina 1. PUBLIC WORKS SUPPLY

OTTAWA, March 6.—Today in parliament the House of Commons will be in committee of supply on the estimates for the public works department.

### PLACE DUTY ON ALL MAGAZINES FROM THE U.S.

House of Commons Places Itself on Record Favoring Canadian Publication

### 10c POUND SUGGESTED

Government Favors Resolution But Opposes Admission of Materials Free

OTTAWA, March 6.—Without dividing, the House of Commons yesterday adopted a resolution brought by H. C. Hoeken, West Toronto, that it is desirable a measure should be adopted to encourage publication of Canadian magazines and periodicals. Imported magazines were described as trashy, anti-British and anti-Canadian and Hoeken asked that a duty be imposed of fifteen cents a pound on the advertising section of imported magazines or ten cents a pound on the weight of the whole magazine. Hon. Arthur Meighen supported this point. Members of the government favored the resolution but opposed the amendment brought by John Evans, progressive of Saskatoon suggesting the abolition of duty on all materials used in the publication of magazines and newspapers. This amendment was lost.

### HIGH PRICES FOR HALIBUT

Nineteen and Half Cents Paid This Morning for First Class Fish

The halibut scarcity of the past few weeks has had the effect of stiffening prices at the Exchange and this morning the highest price for some time past was paid when the schooner Tordenskjold took down 19.5c and 11c for her 35,000 pounds from the Booth Fisheries Canadian Co. The fortunate boat will thus get something in the neighborhood of \$5,000 for her catch. The Roald Amundsen, with 12,000 pounds, also drew a good price from the Canadian Fish & Cold Storage Co. at 19.1c and 11c.

### BRITISH TRADE IS IMPROVING

Cost of Living Falls Slightly but is Still Well Above July 1914

LONDON, March 6.—British foreign trade made a good start this year. All British exports except coal showed an improvement in January. The cost of living in this country has fallen slightly but is still 77 per cent above the figure for July 1914.

### SUMAS LAKE SCHEME ALMOST COMPLETED

VICTORIA, March 6.—The British Columbia government's two and a half million dollar job of reclaiming and opening to settlement the rich bottom lands of Sumas Lake over an area of five by fourteen miles will be completed by May 1. Hon. E. D. Barrow announced yesterday.

### Three Delegates Appointed to Present Rupert's Case Before Dominion Government at Ottawa

The sending to Ottawa of a delegation consisting of Hon. T. D. Pattullo, Hon. A. M. Manson, and E. C. Gibbons, president of the board of trade, to press the requirements of the port was authorized by the city council last night following a committee-of-the-whole conference with a deputation from the board of trade. The city will bear the expense of the delegation which is to be limited to \$1500.

The deputation present from the board of trade at the council meeting consisted of President E. C. Gibbons, M. P. McCaffery, W. E. Williams, J. W. Nicholls, S. J. McLeod, David Thomson, J. C. McRae, J. W. Scott and J. H. Pillsbury. Mr. Nicholls, spokesman of the delegation, pointed to the fact that much money was being spent by the federal government at Vancouver and Victoria on port developments while Prince Rupert had not got enough to buy marbles for the children. Vancouver had been successful in its representations at Ottawa through the energy of the Board of Trade and city council. Delegations had been sent and had got what they wanted. Prince Rupert would be lacking in its duty if it allowed the opportunity to pass of sending a delegation at once. The estimates were now before the House of Commons at Ottawa. Premier King had said that the Laurier policy in connection with the railway and this port would be carried out and he believed it would be done. Now was the psychological time and he believed a delegation should be sent to strengthen the hands of Mr. Stork at Ottawa and also interview the railway management at Montreal. Something had to be done this year.

### SHARP FIGHT FIVE KILLED COUNTY KERRY

DUBLIN, March 6.—Two irregulars were killed, three wounded, and seven captured in a sharp fight against Free State forces in County Kerry. The Free State lost three killed and two wounded. The irregulars fired on the city hall, telephone exchange and Fowler's Hall in Dublin City with several casualties.

### TRAINS COLLIDE NEAR COBOURG

Canadian National Toronto Express Ran Into Rear End of Ottawa Train

BOBOURG, Ont., March 6.—Ignorant of the fact that the Ottawa train stood on the main line of the Canadian National Railway just ahead of him, Engineer J. Reid piloted the Montreal train to Toronto, swung around a curve and pitched into the rear end of the Ottawa train. Scores of passengers were injured and several of the train crew were hurt.

### OTTAWA CHAMP HOCKEY LEAGUE

Montreal Comes Second Beating Hamilton in Final Last Night

MONTREAL, March 6.—By defeating Hamilton last night 4 to 1, Montreal clinched second place in the National Hockey League. Toronto defeated Ottawa two to nothing but Ottawa has first place. The season ended last night.

### MUTILATED BODY OF MAN PICKED UP ON TRACKS SASKATCHEWAN

SASKATOON, March 6.—A mutilated body was picked up on the tracks near Exena yesterday and has been identified as that of George Goubling, 21 years of age, who was employed on the farm of his cousin. His parents reside at Shawinigan Lake, B.C.

### VICTORIA MAN DIES

VICTORIA, March 6.—Alexander McNiven, 80 years of age, for many years secretary of the Association of Marine Engineers of Canada died here yesterday.

### TOOK PHOTOS DEAD EYES

Deep Criminal Investigation of Murder of E. Lionel Lorenz at Victoria

(Special to Daily News) VICTORIA, March 6.—Police criminal experts are seeking the image of the murderer of Ernest Lionel Lorenz in the dead man's eyes. Mayor Hayward announced this afternoon that on Saturday, before the funeral of young Lorenz, the police set the body upright in the mortuary with both eyes open and took many photographs looking at the eyes to see the theory that the eyes retain the image of the last person seen before death or unconsciousness and that it can be taken off with accurate focussing.

### UNIVERSITY STUDENT SHOT AS A BURGLAR

First White Child Born in Nome Met Death in Tragic Manner at Seattle

SEATTLE, March 6.—"Nome" J. Gimvin, the first white child born at Nome, Alaska, and a former student of the University of Washington here, was shot and killed by Charles Gilbert, night watchman at the City Dye Works, when he discovered Gimvin a few minutes after the latter had broken a window and effected an entrance into the building. DAILY EDITION Tuesday, March 6, 1923.

Canada Needs Prince Rupert.

The former mayor of Winnipeg puts the case for Prince Rupert as a shipping port in the right way. Canada needs her, he says. There is need of a second outlet on the Pacific coast and this is the port.

We have already heard from Edmonton and here is Winnipeg now being heard from. The prairies are anxious to get the best and cheapest route to the coast with the least possible obstruction to shipping. That is why they are interested in Prince Rupert. It is not because of any love for us or for sentimental reasons of any kind. Trade has little sentiment. What they want is to do business in the best place in the best possible manner.

Delegates To Ottawa And Their Work.

The city has decided to send several delegates to Ottawa to interview the Dominion government and Sir Henry Thornton to urge that this port be put on the map as a shipping centre. The board of trade and the city council are at one in the desire to see this done and they have agreed to pay the expenses of the delegates. The next thing will be to get the delegates to go.

This is the time for action to be taken. There are a lot of matters which it is desirable should be taken up with the government. They will doubtless centre their efforts, however, on making this an ocean shipping port through which not only the products of the coast and of the wheat fields but also the general merchandise of the East may be shipped to the Orient, to Australia and to other countries of the world. It might well be one of the shipping ports for the United Kingdom and other countries of Europe.

Will Welcome Marine Managers.

Prince Rupert will welcome the marine managers of the Canadian Government Merchant Marine when they visit Prince Rupert in the near future. While we were not aware that they knew the way to this port, we are now assured that they do and that they will make their first visit here in a very short time.

A committee of the board of trade has been appointed to lay before them the transportation problems as we see them. Doubtless it will be drawn to the attention of the managers that in the past no effort has been made to utilize this port but on the other hand every possible effort seems to have been made to prevent any business going this way. Even when boats were sent here, shippers were never given more than a few days notice that space would be available to them.

Prince Rupert people will be willing to forget the past if they can get proper treatment in future. What we want is for the railway and steamship officials to realize the value of Prince Rupert to Canada and to the railway. If the railway is to pay, it must be used and the only way it can be used is for the railway and steamship officials to act like ordinary businessmen instead of like politicians, as has been the case in the past. We believe that there is a desire to give the port a fair show from this time on and we shall welcome the general manager and the coast manager as men who are anxious to do the right thing by their company and by us.

Would Like To Return Here.

The lure of the north is strong. Already the Prince Rupert people in Los Angeles are saying they would like to be back here. They will come. Already we are preparing to receive them. Let them keep their eye on Prince Rupert. While they are away sunning themselves in the south the people here will be grabbing off the good things that come along.

"I Was Terribly Weak After Baby Was Born"

Mrs. H. McClure, Norwood, Ont., writes:

"After my baby was born, I was terribly weak and run down, with pains across my back. I had heard so much of Dr. Chase's Nerve Food that I decided to try it. Three boxes proved enough to make me quite strong and well again. I also used Dr. Chase's Ointment for a rash which broke out on the baby, and the rash disappeared completely in a short time."

FAVORS RUPERT AS FISH PORT LOG EXPORT IS RECOMMENDED

New Alaska Paper Urges a Free Board of Trade Urges an Advisory Competitive Market for Halibut Board for Northern B.C.

Another Alaska paper has just come to hand, the first number of "The Alaska Fisherman," published by the Alaska Native Brotherhood, William L. Paul, secretary at Juneau. The announced policy of the paper is "Alaska for the Alaskans, Abolishment of all Fish Traps, Full Territorial Government, One Nation, One Language, One Flag." It is opposed to the domination of Alaska by Carl Strong and others of Ketchikan, and ridicules the idea of a ferry to Prince Rupert. An editorial dealing with this question follows:

Big Interests

On December 21st last the Ketchikan Chronicle had an editorial which was reprinted in the Juneau Empire on the above subject. This editorial, spokesman of big interests, called attention to the fact that the steamship Victoria went south with the largest shipment of fresh fish ever to leave Ketchikan. Extra men were hired to load, greater loads were purchased locally, and it is argued that this would be the situation if the above amendment had passed. Would it?

The above amendment was proposed by the Washington Senator to take the place of the Jones Amendment which was that "no fresh or frozen halibut, salmon, or swordfish from the North Pacific Ocean or its tributary waters shall be admitted into the United States through any foreign country, except when the same shall be in bond from an American port."

Guarantee a Joke

At this time, Senator Jones showed the so-called guarantee by Ketchikan interests whereby Carl Strong, Barber and others guaranteed that a daily ferry system would run to Prince Rupert. The joke of the guarantee is that none of the men who signed his property in such shape that they can be forced to make good on their guarantee. As one signer said, "Oh, they can attach my stock if they can find it."

The Poindexter amendment then followed providing that "No fish packed or frozen in a foreign country shall be exempt from duty" and affixed a duty of 2c per pound on fish so packed, although Mr. Strong had asked for 3c, saying that 2c was not enough to offset the natural advantages of Prince Rupert. The purpose was to drive the fishermen to seal at Ketchikan. The charge was then made that there were no buyers in Ketchikan. Strong answered that the duty would force the Canadian buyers to American soil and that a ferry would be constructed that would run to Canada daily.

Rupert's Good Faith

The activity of one day when the Victoria was in port is made to represent a normal condition under the Poindexter amendment. This amendment is not the cure-all for citizens of Alaska. The real answer to the demands of fishermen is a free competitive market. If Ketchikan will furnish that, then it will get the fish. Car ferries will not matter. But unfortunately, Carl Strong cannot furnish a free and competitive market. This the British at Prince Rupert have consistently furnished. Their good faith is shown by their record for it is Prince Rupert that has changed the market for the fishermen from the 2c rate of Seattle to the 40c and 48c rate of Prince Rupert.

The situation of the Ketchikan buyers is the same that caused a famous American to say, "You cannot fool all the people all the time." The American system of doing business is by combination, and in regard to the Ketchikan market, there would have to be an entire change in the personnel of the buying interests, meaning thereby, Carl Strong and J. C. Barber would have to get out and stay out, before the fishermen will believe that a competitive market was really established there.

We will have more to say about that ferry system later.

A letter from W. J. Kelly and others complaining of an overflowing cesspool on Lotbiniere Street was referred by the city council last night to the Board of Works for report.

At the meeting of the council of the board of trade last evening the special lumber committee brought in a recommendation which was adopted as follows: The special lumber committee of the council of the Prince Rupert board of trade begs to report:

We have considered matters in regard to the export of cedar and No. 1 & No. 2 spruce logs from the Northern Coast District of British Columbia and recommend the appointment of an advisory board for the northern portion of British Columbia to advise the lieutenant governor in council from time to time as to what logs should be permitted to be exported.

That the said advisory board consist of the district forester for the Prince Rupert district, and for the time being, a representative of the saw mill industry and of the timber brokerage industry, and would suggest as a representative of the milling industry, either E. F. Doby or R. E. Allen, and as a representative of the lumber brokerage industry, G. W. Nickerson.

We also are of the opinion that until such time as the local prices for cedar and No. 1 & No. 2 spruce approximate Vancouver prices, that permits should be issued to export this class of logs when in the salt water.

FISH COMPANY IS OPENING UP

New Manager Has Arrived at Butedale and Plants Being Overhauled

BUTEDALE, March 6. — The Canadian Fishing Co. Ltd., which has taken over the plant here formerly operated by the Western Packers from the North Pacific Packers Ltd., now has a crew of men here putting the cold storage and salmon canning plants in shape for the coming season's operations. A general fish business will be conducted and a large supply of bait and ice and general stores for fishermen will be carried. All kinds of fresh fish will be bought to be shipped to the different markets.

D. McArthur, who will be general manager here for the company, arrived last week on the steamer Camosun accompanied by H. C. Poole who will be in charge of the cold storage plant. Mr. McArthur is well known in coast cannery circles having been very successful in past operations. Mr. Poole, who was formerly with the Atlin Fisheries at Prince Rupert, is a pioneer in the fresh fish business on this coast and is very well known to both fishermen and fish shippers.

J. N. McPhee, local customs officer, arrived last week from Prince Rupert on the steamer Venture and re-opened the customs' excise office which was closed during the winter months.

The Man in the Moon SAYS:-

HOORAY, hooray! A la Goue We're getting better every day.

THERE'S lots of opportunity here for an active weather prophet.

Ten Years Ago in Prince Rupert

March 6, 1913

There were several good bouts at the Eagles' smoker held last night, the main event being a six round go between Ray Bronson and Ernie Gray won by the former on a foul. Mark Harby gave comic recitations and G. Gouture and Harry Fletcher delighted with popular songs. Ben Self and J. Jacobsen caused much amusement with their burlesque boxing bout. Other bouts were between Kinsell and Nicholson and Valpey and Kingston. Roi Barnes was referee.

A giant smokestack 183 feet high will be erected this year at the dry dock by the Webber Chimney Co. of Chicago. Many sub-contracts are now about to be let.

L. Bullock-Webster, secretary of the Agricultural Association,

in reply to a News editorial, writes: letter expressing his regret at leaders not being asked from McRae Bros. and the News for job work recently let by the association.

WHIST DRIVE AND DANCE AT TERRACE

Parent - Teachers Association Hosts on Friday at Big Event

TERRACE, March 6.—The Parent-Teachers Association put on a whist drive and dance in the G.W.V.A. Hall Friday night. There were fourteen tables of whist and a number came later for the dance. All thoroughly enjoyed themselves and the association realized almost thirty dollars for their funds. Mrs. Bleecker won the first prize for the ladies and G. H. Thomas the gentlemen's. The ladies' consolation prize went to Mrs. Brewer and the gentlemen's to Mr. Anderson. There was an abundance of delicious refreshment and a number of cakes were auctioned by Mr. Bishop, floor manager, at the close of the evening.

Passengers leaving for the interior on last night's train included W. A. Allan for Smithers; J. H. Hamilton for Terrace, and J. L. Christie for Port Essington.

J. Brown, local manager for A. P. Shade & Co., is leaving shortly for Vancouver with his family. E. G. Davis will likely remain here in charge of the warehouse of the company.

C. J. Lunquist, contractor for the rough grading on Fourth and Fifth Avenues West, was given a thirty days' extension of time on the contract by the city council last night on recommendation of the Board of Works.

An advance of \$1,000 out of the distribution of liquor profits by the provincial government is to be made by the city council to the Hospital Board. A report from the finance committee recommending this was adopted last night by the council.

Supplies of magazines and newspapers for the public reading room this year will cost \$160 as against \$210 last year. A recommendation from the reading room committee for the purchase of supplies was adopted by the city council last night.

M. Gillis was found guilty yesterday afternoon by Magistrate McElmoynt on a charge of being a frequenter of a disorderly house and was released on suspended sentence on the understanding that he leave the city. The charge of breaking a window was withdrawn.

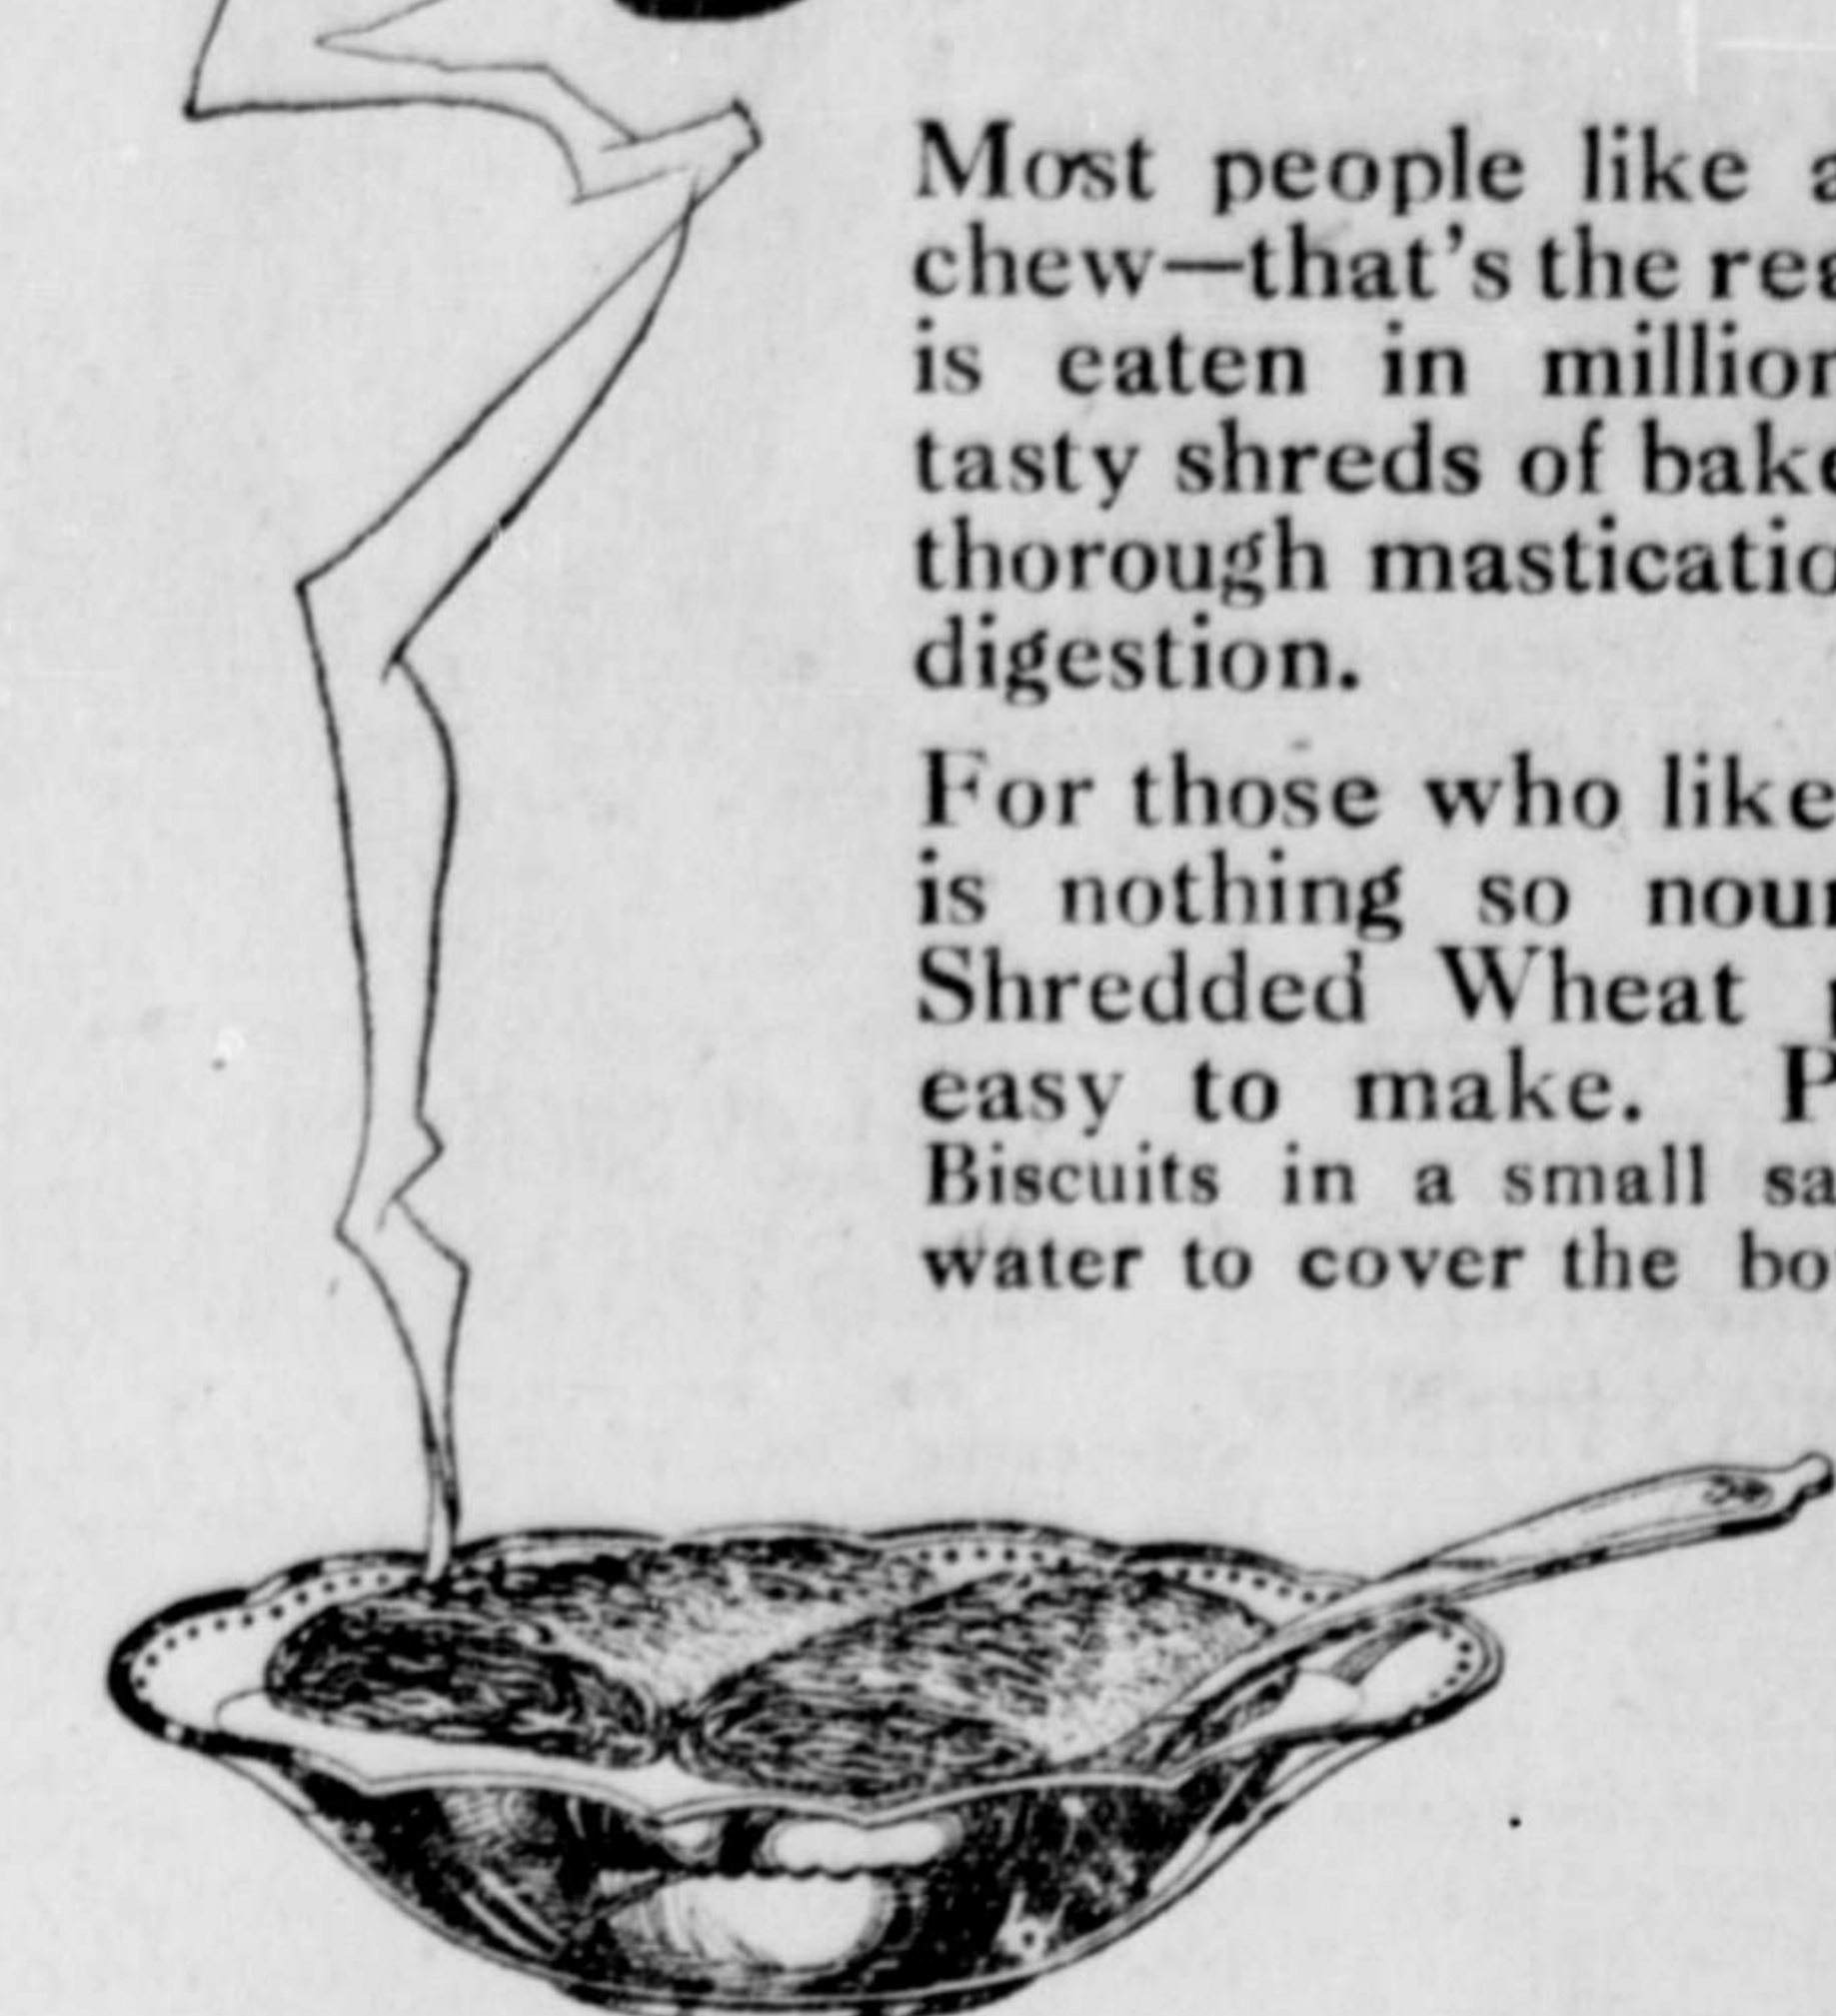

On Wednesday, March 7, the newest in Spring Millinery will be on display at our store on Sixth Street. We gladly await the opportunity to welcome you here and surprise you with the profuse variety and splendor of our new lines. Miss Barbeau's, Sixth St.

The city council had a committee of the whole conference with F. W. Pearson, the new city engineer, following the regular meeting last night. Owing to the fact that the entire office staff of the engineering department left the employ of the city on March 1, Mr. Pearson has been having some difficulty in establishing himself in his new office.

With the object of endeavoring to stimulate the purchase of "Made in British Columbia" goods, the Department of Industries of the provincial government has issued a directory of products manufactured by British Columbia industries. The booklet is quite complete and covers all fields. Prince Rupert and district has many of its businesses in the list although there are some that have been missed.

Tenders for 10 tons of coal for the city hall was opened by the council last night and referred to the Finance Committee for report. The bidders were: Consumers Coal Co., \$8.15 and \$10.10; Philpott & Evill, \$9.20, \$8.45 and \$10.15; Prince Rupert Coal Co., \$6.15, \$7.65, \$9.40, \$8.15 and \$10.35; Prince Rupert Feed Co., \$10.50; Albert & McCaffrey, \$12.75; D. Meld. Hunter, \$9.75, \$9.60, \$9.15, \$9.50, \$8.75 and \$8.30.

**Start the day right**

Most people like a cereal that makes them chew—that's the reason why Shredded Wheat is eaten in millions of homes. Its crisp, tasty shreds of baked whole wheat encourage thorough mastication—and that means perfect digestion.

For those who like porridge, however, there is nothing so nourishing and satisfying as Shredded Wheat porridge, and nothing so easy to make. Put the Shredded Wheat Biscuits in a small saucepan; add salt and enough water to cover the bottom of the pan; stir and boil until it thickens, then serve with milk or cream. Better than ordinary porridges for youngsters or grown-ups.

Shredded Wheat contains all the bran you need to stimulate bowel movement.

**Shredded Wheat**

Ready-cooked-saves fuel, saves money

**COLDS ARE ENEMIES OF HEALTHY LUNGS**

A Neglected Cold Is Always Looking For Mischiefs

It may start in the head—nothing unusual just an ordinary cold, but that is just the cold, because you neglect it, which sows the seed of lung troubles. Prevention is far better than cure. The cold can be cured and other and more serious ailments thus prevented. Anyone suffering from a cold, however slight, should take prompt measures to break it up.

You cannot do better than take Grip Fix, which has an unrivalled record of success in cases of either cold or grippe. Grip Fix does its wonderful work in a single night. It tones up the system, takes away the fever and relieves the soreness. It is compounded of the same pure drugs which every physician prescribes, which are stated on the box. Grip Fix, however, comes in a capsule form that is ideal for home use. It can be given to children without the slightest fear of harm.

Once you have tried Grip Fix, you will keep it as a friend in need whenever you or another has a cold. On sale at Orme's Drug Store Ltd. 25c a box.

Salvation Army Concert and Prizegiving, March 9 at 8 p.m. Chairman, Mayor Newton. Admission 25c.

MORE MEN TEACHERS PRESENT NEED SAYS MANITOBA'S PREMIER

WINNIPEG, Mar. 6.—I am convinced we need more men in the teaching profession and until that stage is reached education in this country will be inefficient and inadequate. This is the statement made by Premier John Bracken, when he addressed the annual convention of the Manitoba Schools trustees association. Premier Bracken invited the trustees to make recommendations to the government regarding the composition of the royal commission which will this summer investigate the educational system of Manitoba. The five weaknesses of the rural school he outlined as being irregularity of attendance, inexperienced teachers, too frequent changes in teachers, falling off in attendance after the fourth grade and want of understanding on the part of teachers of the needs of rural life.

FURS SELL POORLY WINNIPEG AUCTION

About Five Per Cent Drop Recorded on Average of Business

WINNIPEG, March 6.—Limited bidding with the market inclined to weakness prevailed at the sale held by the Winnipeg Fur Auction company at the Royal Alexandra hotel. It was stated by purchasers that the fur business was a little too high for the ideas of the public at present. The first important lot to fall were beaver, of which there were 17 groups. These sold on the open market basis and about five per cent lower than at the preceding sale, it was estimated. Beaver were reported not to be moving at this time of year, and on some sides they were said to be neglected. Mink lots of which there were 74, varied in quality and price, the latter ranging from \$1.50 to \$10 per skin. The average was about \$6.50 per skin for good ones and twos. In the silver fox division there were 72 lots with wide spreads between price quotations, the range being from \$20 to \$135 per pelt. Other lots disposed of were: 57 cross fox; 34 red fox; 5 white fox; 35 martens, 62 fisher, 26 otter; 41 weasel; 20 lynx; 23 skunk; 9 bear; 48 wolf and 45 rat, in addition to several miscellaneous.

FORMALLY APPLY FOR CONCILIATION BOARD

Falling Co-operation of Council in Effecting Settlement, Civic Employees Take This Step

The Civic Employees' Union meeting last night endorsed the action of its committee in endeavoring to settle reorganization matters with the city council by conference. This failing, it was decided to apply to Ottawa for a board of conciliation and T. Ross MacKay was named representative of the Union on such a board.

LUMBER TENDER OF LITTLE ACCEPTED

The tender of George Little, of Terrace, for the supply of some 250,000 feet of green hemlock lumber to the city at \$22 a thousand was accepted by the council last night on recommendation of the board of works.

FUNERAL OF SOLOMON STONE THIS AFTERNOON

Deceased was 65 Years of Age and Native of Scandinavia—Died from Hemorrhage

The funeral of the late Solomon Stone took place at 2:30 this afternoon from Hayner Reos, Undertaking Parlors to Fairview Cemetery. Rev. Dr. H. R. Grant officiated and the pall bearers were Carl Niebuhr, Hugo Sanstrom, Louis Astoria, Henry Smith, A. McLeman and John Buckley.

Deceased was 65 years of age and was a Scandinavian by birth. His death was due to cerebral hemorrhage.

PRINCE RUPERT IS ON PONTOONS AGAIN

Having Hull Painted and Shaft Installed Preparatory to Resuming Service Friday

The G.T.P. steamer Prince Rupert went up on the pontoons again at the dry dock this morning for hull painting and installation of the new tail shaft. The boat will probably be on the pontoons for a couple of days. She is scheduled to replace the Prince George on the coast run next Friday morning with the sailing for the south.

IMPORTER LEFT DOCK YESTERDAY AFTERNOON

C.G.M.M. Freighter Cleared For Union Bay and Fraser Mills

The C.G.M.M. transpacific freighter Canadian, importer, Capt. McConahey, went off the pontoons at the dry dock yesterday and cleared at 4:30 for the south. The steamer will proceed to Union Bay for bunkering and will then go to Fraser Mills to load lumber for Australia.

EDMONTON CUTS OUT MANUAL ARTS IN THE HIGH SCHOOL COURSE

Eliminates One Grade From School Thus Saving Six Thousand Dollars

EDMONTON, March 6.—Elimination of the domestic science and manual art courses as well as the discontinuing of the teaching of the twelfth grade work in the high schools after September 1, was approved by the Edmonton public school board. Another new departure which was approved by the board and will go into effect September 1, will be free school books and supplies for all students up to the eighth grades.

The discontinuing of the teaching of the twelfth grade work although opposed by superintendent W. G. Carpenter was passed by the board with a unanimous vote. The original notice of motion was made by Trustee Dr. Craig as a means of reducing expenses of the school board and although there was a considerable discussion over the advisability of such a move it was considered by the majority that this work could well be carried on in the university and the school board be saved that much expense.

URNS DOWN EMPLOYEES' REQUEST

In the Letter Box

REPLY TO MR. PATTULLO

Editor, Daily News, I received a letter from the Hon. Mr. Pattullo, Minister of Lands, in regard to the export of logs from this district and I take the liberty of replying thereto in order to clear up some matters.

In the first place I wish to make it clear that there is no desire on the part of the Northern B.C. Timbermen's Association, or the Company I represent, to have any government adopt a policy of wide open export of logs, but there are exceptions to all rules, even in the government regulations, and I contend that the conditions which have existed on the northern coast of British Columbia during the past four years, and still exist, should receive special temporary consideration.

No Mills Operating

No person contends that it is now impossible to export lumber from the Northern B.C. coast if the mills were now operating, and it is also a fact that it is very much more difficult to export lumber from this coast district than from the Vancouver district because the transportation facilities are much more limited, and every person in Prince Rupert realizes what a difficult proposition it has been to get shipping out of this port. It is also true that if local people could make a little money out of logs they would operate mills, and the reason that local people cannot make money out of logs is because they can get no remunerative local market for their high grade logs, spruce and cedar, which are in world demand, but which we are compelled to sell at pulp prices for pulp purposes. It is also true that if the proper sort of saw mill, well situated, could get operating, it could find a ready export market for its output. Mr. Pattullo's deductions are therefore more facetious than convincing.

In Minority

In regard to a representative from northern B.C. on the Vancouver Log Advisory Board, I do not think such an arrangement would be practical, nor have any semblance of justice, if it were. Applications for export from the northern district would go in but very occasionally and it would be only on these matters that a northern representative would be competent to pass an opinion upon; he would then have to go to Vancouver at a substantial expense and loss of time to himself and would be in the minority, one against three. In all matters relating to

EXTRA HELP

City Council Decides to Employ Millwright at \$135 per Month

E. Willisoff is to be temporarily engaged by the city at salary of \$135 to work on the accounts which must be set up to facilitate the work of the millwright. A report to this effect from the Finance Committee was accepted by the city council last night.

BY NORMAN BEING HEARD FROM AGAIN

March 6. — The report of the Imperial Oil Co. is beneficially of the future of the Fort Norman oil field. From results already obtained he shows that the field is likely to show up something quite out of the ordinary later on.

A report from the Finance Committee recommending that action be taken in connection with the request of the Prince Rupert Lumber Co. for reduced rates in view of the fact that cost of installation would be greater than revenue derived therefrom, was adopted by the city council last night.

PRINCE RUPERT TIDES

Table with tide information for Wednesday, March 7 and Thursday, March 8, listing high and low tide times and heights.

More leisure hours—

Sunlight Soap brings many extra hours of leisure on wash day. How? Because its efficiency and absolute purity save you from many weary hours of wash tub drudgery. Clothes rubbed with Sunlight and put to soak need only rinsing to make them clean—the dirt runs away. No other laundry soap has the wonderful Sunlight blend of coconut and palm oils.

The purest laundry soap in Canada.

the export of logs produced in the southern portion of the province, he would not be familiar with the conditions, and would be in no position to pass an opinion. I contended that we should in no sense be lacking on the Vancouver Advisory Board in this fashion, but we should have an advisory board for the northern district of British Columbia, which was refused. Why should Vancouver Advisory Board give an opinion as to whether or not logs produced in northern British Columbia should be permitted to be exported?

Mere Fraction

Mr. Pattullo admits that forty-seven million feet of logs were exported from crown timber last year. If the export of high grade cedar and No. 1 and No. 2 spruce were permitted on the northern coast of British Columbia for the coming year it probably would not amount to fifteen million feet, a mere fraction of what is being permitted to be exported from other portions of the province.

For Mr. Pattullo's information I would advise him that I have trade inquiries to purchase logs for export to both the United States and to Japan. The eighteen million order referred to was for the American market.

Waste of Resource

Mr. Pattullo contends that my statement that "first grade of spruce and cedar should not be permitted to be turned into pulp" is debatable, and says that the Government gets just as much revenue as if the timber was turned into lumber, and that more labor is employed in turning logs into paper than in turning logs into lumber. This is all true, but there is ample less valuable timber suitable for pulp, and in the case of the cedar better suited for pulp. Would it be common sense to make ship-lap out of aeroplane spruce lumber and sell it for \$25.00 per M. when it could be shipped as aeroplane spruce lumber at \$175 per M.? True, it makes just as good ship-lap as would the common grades but there is certainly a waste of resource. If it is sold for \$175 per M. our district is \$150 better off. I contend it is a waste of our assets to force high grade cedar and No. 1 and No. 2 spruce into the pulp mills. It would be just as sensible to make logging chains out of gold. W. E. WILLIAMS.

TERRACE NOTES

Mrs. Fred Bishop made a trip to Rupert on Friday, going down on the afternoon train and returning the same night.

Clare Giggey paid a business visit to Remo last Tuesday.

S. V. Ardagh of New Hazelton was in town on Friday.

Mrs. Ed. Eby of Smithers arrived in Terrace on Sunday's train.

Mr. Gobb made a trip to Remo last week.

Miss Eric Richmond returned to Hazelton Friday night.

The warm weather makes logging operations increasingly difficult. The hillsides roads are almost bare and sleighing on this bench will probably be impossible after this week. On the

bench above town it will be good for a little longer.

Mrs. Brooks entertained a number of her friends at a very enjoyable tea on Thursday, among those present were Messrs. Sundaq, McKinnon, W. Little, Brewer, Aidous and White.

Mrs. Souci was hostess at another delightful little tea on Thursday.

Mrs. A. Y. Wilson of Remo was in town on Friday and attended the whist drive and dance in the evening.

Mrs. Donald has returned to her home on the hill after spending a month visiting her friends in town.

Sport Chat

The St. Louis Cardinals, tied for third place in the 1922 National League race, have been the baseball gluttons for punishment. Like the St. Louis Browns, their American League rivals, the Cardinals never have won a championship. In fact, the Cardinals never landed any higher than third place and, in twenty-eight of their thirty-five years in the National League, they have been in the second division. Not only have the Cardinals the lowest life time percentage of any club in the National League but they have lost the series in each of their seven rivalries. St. Louis has won 1799 games from its present opponents and lost 2513 games giving them a percentage of 41.7. Yet St. Louis was a prominent member in the early years of the League. Chicago, Boston, St. Louis and Cincinnati are the only teams of the present National League which are in the field when the veteran Major League made its start in 1876. In view of the long series of reverses, the loyalty of the St. Louis fans to the Cardinals is unsurpassed in professional baseball.

The International Baseball League opens the season this

Her Heart Skipped Every Third Beat

Mrs. James Burleigh, 248 King St. E., Chatham, Ont., writes:—"I think it my duty to let you know what Milburn's Heart and Nerve Pills have done for me.

I suffered for years with palpitation of the heart, my nerves were very bad, and I could not be left alone at any time. I doctored for over a year, and the doctor said my heart was very bad as it skipped every third beat.

I gave up, just at this time, and then my mother advised me to try Milburn's Heart and Nerve Pills, saying my eldest brother had been relieved by using them when he was very bad with his heart and nerves. I got a box and started to take them, and when I had used it I felt a lot better; could sleep a little and felt stronger. I continued taking them for about three months, and felt better than I had for years.

When I think of the misery and suffering I went through before I started Milburn's Heart and Nerve Pills, I feel like letting everyone know what they did for me."

Price 50c a box at all dealers or mailed direct on receipt of price by The Te-Milburn Co., Limited, Toronto, Ont.

year on April 18, with Buffalo at Reading, Syracuse at Baltimore, Toronto at Jersey City and Rochester and Baltimore at Syracuse. Toronto is the only Canadian City in the International League this year. Montreal formerly had a franchise.

The laying out of the new nine-hole golf course in Jasper National Park has just been completed by Willie Thompson,

golf professional, of Calgary. The new links, the clearing of which will start early next spring is situated east of Lac Beauvert adjacent to the Canadian National Railways "Jasper Park Lodge," and within easy access of the town. The site is considered a first class one and when the links are completed they should compare favorably with the well known course at Banff, which is one of the big

attractions of the Banff National park. Play will be possible, it is hoped, about the middle of the next season. The Jasper course will be 3,000 yards long and provision has been made for nine additional holes at a later date. The presence of suitable natural turf in the vicinity will greatly reduce the cost of the new course.

How often can We Advertise?

NOT How often should we Advertise?

WHY are the Canadian and American Manufacturers appropriating fifty per cent more dollars in Newspaper Advertising for the year 1923 than in 1922?

There's a Reason

BECAUSE they have implicit faith in the pulling power of Newspaper Advertising and in the future trade conditions for the coming year.

The daily newspaper has proved itself worthy of this tremendous responsibility and trust.

Men who spend millions of dollars on Newspaper Advertising yearly know what it has done for them in the past and feel safe in trusting their future fortunes to the advertising columns of the daily press.

**OLD PEOPLE  
BECOME YOUNG**  
Scientist Discovers Treatment  
Has Wonderful Effect on  
Body

LONDON, March 6.—Professor Burton Seammell, of the Dover Radium Institute, has discovered that by the use of radio-phosphate of potash, a man can be rejuvenated in a remarkable manner, according to the Westminster Gazette's correspondent. It is claimed that as a result of the treatment a man can live to be 125; always feel as fresh as a daisy, and develop the square jaw which is an essential feature of the American movie hero.

A retired banker of Wokingham, says an interviewer a remarkable account of his mental and physical transformation as the result of taking advantage of Professor Seammell's discovery. This man, who is 77 years old and who took the treatment for three years, says his eyes are stronger than they were 46 years ago. He can read without glasses, his voice has become deeper and stronger, and he never experiences that "tired feeling" any more.

**BABY THAT DIED WAS  
BROUGHT BACK TO LIFE**

Injected Adrenalin Into Heart and Infant Begins to Breathe and is Alive and Well

NEW YORK, March 6. — (By Canadian Press) — The use of less than one cent's worth of a drug, a stimulant extracted from the adrenal glands of sheep, has saved the life of a baby boy who died during birth in the Borough Park Maternity Hospital, Brooklyn.

Ten days after its birth the baby, Daniel Isaacson, weighing three pounds ten ounces, started with tiny blue eyes upon reported.

**SYNOPSIS OF  
LAND ACT AMENDMENTS**

Minimum price of first-class and reduced to \$5 an acre; second-class to \$2.50 an acre.  
Pre-emption now confined to surveyed lands only.  
Records will be granted covering any land suitable for agricultural purposes and which is non-timber land.  
Partnership pre-emption abolished but parties not more than four may arrange or adjacent pre-emption with joint residence, but each making necessary improvements on respective claims.  
Pre-emptors must occupy claim to five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 1/2 acre before receiving Crown Grant.  
Where pre-emptor in occupation less than 2 years and has made no portmanteau improvements, he may be cause of ill-health, or other cause is granted a temporary certificate of improvement and transfer his claim.  
Records without permanent residence may be issued, provided applicant records improvements to value of \$50 per annum and records same each year. Failure to make improvements or records same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of value of \$10 per acre, including 1/2 acre cleared and cultivated and residence of at least 2 years are required.  
Pre-emptor holding Crown Grant may convey another pre-emption to a third party without actual occupation, provided statutory requirements made and residence maintained on Crown granted land.  
Disurveyed areas, not exceeding 20 acres, may be surveyed and a homestead title to be obtained after fulfilling residential and improvement conditions.  
For grazing and industrial purposes areas exceeding 650 acres may be leased by one person or company.  
Mill, factory, or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.  
Natural meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Relief of half of cost of road, not exceeding half of purchase price, is made.  
**PRE-EMPTORS' FREE GRANTS ACT.**  
The scope of this Act is enlarged to include persons joining and serving with His Majesty's forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for the land under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the great war. This privilege is also made retroactive.  
No fees relating to pre-emption are due or payable by holders on pre-emption recorded after June 26, 1918. Taxes are remitted for five years.  
Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldier pre-emption.  
Interest on agreements to purchase town or city lots held by members of Allied Forces or dependents acquired direct or indirect, remitted from enactment to March 31, 1920.  
**SUB-PURCHASERS OF CROWN LANDS**  
Provision made for issuance of Crown grants to sub-purchasers, or Crown lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, interest and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.  
**GRAZING**  
Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged, priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

**Household  
Necessity**

Make Gillett's Lye your household assistant. Use it for making soap, for washing dishes, for cleaning sinks, for washing greasy pots and pans. It cleans and disinfects.

**RUSSIAN MONEY IS  
EASIER TO HANDLE**

MOSCOW, March 6. — Book-keeping has become a possible occupation again in Russia with the advent of the new money. Six ciphers have been thrown into the discard. The new bills which take the place of the old 1,000,000 rouble tokens call for one rouble, and accountants now can book small sums without writing ciphers clear across the page.  
Also it is easier for Americans to realize a dollar is worth 40 rubles, instead of 40,000,000.

**BRITISH MIGRANTS  
TO UNITED STATES**

NEW YORK, March 6.—A statement which has been issued by the Cunard Line discloses that 15,149 British immigrants have arrived in the United States since the beginning of the fiscal year, July 1, 1922. The British lead all other nationalities. Italy is second with 12,057, Germany third with 21,126, Poland, 21,076; Russia, 18,358; Czechoslovakia, 14,357, and Sweden, 9,169.

**NUMBER OF ANIMALS  
THAT NEVER DRINK**

In Hot Countries the Herbivorous Creatures Suffer Less From Thirst Than Here.

Some animals never drink. That is curious to those who live only in temperate climates. "Meat animals," like the dog, lap up water with the tongue, while vegetarian animals, like the horse, suck the water up. We know that all the common animals with which we are acquainted drink at least once a day, some of them many times. If we were asked what animal can do without water the longest, we would probably name the camel.

Most of our pet animals, like the dog and cat, drink nearly as often, and would die of thirst nearly as quickly, as a person. This is partly their nature, but very largely a result of habituation. A horse can, when he has to, do without water several days, though he suffers greatly after the first day.  
**Stomach Pouches.**  
Camels travel four or five days without drinking, but they are not doing without water all that time. A camel's stomach is peculiarly made with a number of pouches—"pockets on the sides." Water is stored here when the animal drinks, and he can draw on these "reserve canteens" one at a time for bodily moisture. His keenness in detecting water at incredible distances makes it easy for him to regulate his water rations between drinking places.  
Hunters and naturalists say that a giraffe can do without water three or four days. One famous explorer states that in Africa he kept a herd of giraffes under closest observation for a week, and that not one of them drank a single time.  
**Drink Rarely.**  
Some of the African antelopes drink but rarely; the eland, in spite of its bulk and fat, goes for weeks without a drink. The hartebeest drinks when water is handy, but goes drinkless without apparent inconvenience when necessary. The klespringer, one of the liveliest of antelopes, and the gerenuk, called by the natives "little camel," are said never to drink. The long-souled dikdik could not get water even if it so desired; its home is a hot dry thicket which it never leaves. The jerboa, a sort of kangaroo rat, is another curious creature of the Dark Continent that lives entirely without drink—under conditions of heat and dryness that to a man without water would be fatal within forty-eight hours.  
**Just a Habit.**  
According to Dr. Heller, eminent scientist and explorer, autopsies on these non-drinking animals proved them not organically different from other mammals. The most feasible explanation is that of habituation. It is significant that no flesh-eaters (carnivores) are among these "water fasters"; it is probable that they, being more ferocious, drove the timid animals into the high, dry altitudes. As the centuries passed the herbivores developed, by compulsion, a constitutional tolerance of thirst. We will never know how many generations perished prematurely because of insuffi-

**Stomach Trouble**  
"Indigestion"  
Relieved by  
**Burdock Blood Bitters**

The sufferer from dyspepsia, indigestion or other stomach troubles who has to pick and choose his food is the most miserable of all mankind.  
Even the little that is eaten causes much torture, and is digested so imperfectly it does but little good.  
Before you can eat heartily and enjoy your food, you must put your stomach right so that it will manufacture its own digestive ferments.  
Mr. Wm. Kruschel, Morden, Man., writes:—"Some time ago I had quite a serious case of stomach trouble, indigestion. I could scarcely eat anything, outside of some light food, and even then I generally had pains after each meal. I tried many different medicines, but without any improvement, and had almost given up hope of ever being well. A neighbor recommended Burdock Blood Bitters, and after using it a short time I felt much better, so I continued to use it until I was completely relieved. I can honestly say that B. B. B. has done wonders for me after all other medicines failed!"  
B. B. B. is put up only by The T. Millburn Co., Limited, Toronto, Ont.
