DETAILS OF SUMMER STEAMSHIP SERVICE

Announced by G. A. McNicholl on Return from Vancouver This Afternoon.

On April 1, the bi-weekly service by the C. G. M. M. coast steamers between Vancouver and Prince Rupert will commence and on June 15, the tri-weekly service will be started.

CANADA TEMPERANCE ACT TO BE CHANGED

OTTAWA, Feb. 28.—Hon. D. D. McKenzie, solicitor general, is introducing an amendment to the Canada Temperance Act providing for Dominion co-operation with provinces having prohibition in force.

BASKETBALL GAMES

In the last basketball game of the season last night, the Maple Leafs won the Ladies' League game from the Kiens by 24 to 18.

Drug Pedlars Mostly Chinese According to Report Given House of Commons, Ottawa

OTTAWA, Feb. 28.—Astounding figures in regard to the drug traffic have just been issued by the minister of health in the House of Commons.

WEATHER PREVENTS TAKING OF FERRY OFF PORCHER ID.

After making several attempts to take the Swanson Bay car ferry off the beach at Porcher Island the tug Bernada returned to port this afternoon unsuccessful on account of the weather conditions.

Edmonton Newspaper Urges the Construction of Grain Elevator and Coal Bunkers at this Port

The Edmonton Bulletin editorially urges that coal bunkers and a grain elevator be built at Prince Rupert. The paper says: While it is important from every point of view—and especially from that of the National Railways—that the port of Vancouver should be efficiently and sufficiently equipped to handle wheat from the prairies, it is well to remember that Canada has another Pacific port—Rupert—which is the terminus of another and an important section of the National Railways.

TRAFFIC HEAD C.N.R. SYSTEM

J. E. Dalrymple of Grand Trunk Gets Position Under Consolidated Roads

OTTAWA, Feb. 28.—It is officially announced that J. E. Dalrymple has been appointed vice-president in charge of the traffic department of the Canadian National Railway, reporting to the chairman and president, M. J. Dalrymple is also to have charge of the sleeping, dining and parlor car and hotel department system.

NICHOLSON IS HONORED

Handsome Presentations Made to Him and Mrs. Nicholson by Former Associates

At the banquet given in his honor on the steamer Prince George at Vancouver on Monday evening, Capt. C. H. Nicholson, retiring manager of the Grand Trunk Pacific Coast Steamship Service, was presented by his old associates in the service with a handsome solid silver cigar box.

Adequate Bunkerage

To improve as greatly as possible the facilities for ocean trade, there should be adequate coal bunkering provided at Rupert. The best steam coal from the mountain mines on the national railway and its branches west of Edmonton can be supplied to steamers at Rupert at prices that make it desirable for them to coal there.

DIVORCES FOR 2,000 FRENCH GIRLS WHO MARRIED AMERICANS

PARIS, Feb. 28.—Two thousand French girls who married American soldiers during the war period and have since been deserted by them are to be granted their release in the divorce courts, according to a decision just given at Brest where one of the girls was granted release from her husband, a sailor in the U.S. navy.

NOTICE

Applications will be received by the undersigned up to 5 p.m. Mar 15, 1923, for the position of City Treasurer and Collector for City of Prince Rupert. Salary \$225 per month. Duties to commence April 1st, 1923. Applicants please state qualifications and give references. E. F. JONES, City Solicitor and Clerk. 49-52-54.

C.P.R. DIVIDEND VANCOUVER, Feb. 28.—The C.P.R. has declared its usual quarterly dividend at 2 1/2 per cent payable on March 31 to shareholders of record March 1.

THE DAILY NEWS

PRINCE RUPERT - BRITISH COLUMBIA
 Published Every Afternoon, except Sunday, the Prince
 Rupert Daily News, Limited, Third Avenue.
 H. F. PULLEN, Managing Editor.

DAILY EDITION Wednesday, Feb. 28, 1923.

**Development Of Mine
 At Maple Bay.**

Another mine is to be developed. The property of the Granby Company at Maple Bay has been worked for some time and now trams and docks are to be erected in order to get the ore out and ship it to the smelter.

The Granby Company may be depended upon to become an active factor in the mining development of the north. It is no longer content to rely on its Hidden Creek ore to keep the smelter running, but is launching out with a view to increasing the ore supply and making the smelting of ore at Anyox perpetual. There are plenty of good prospects in the district and the Granby Company will help to develop and work them. Already they have been active in connection with several properties, including the Outsider group at Maple Bay. They also have two groups of claims near Stewart that are being tested and will be developed.

**Hobbies Of Boys
 Much Improved.**

The hobbies taken up by boys today are a great improvement over the recreations of the former generation. Today boys take up such things as radio and other mechanical and scientific subjects and experiment with them just like adults. They play with the great forces of nature, some of which are little understood.

Who would have thought a few years ago of boys talking with people hundreds of miles away without even a wire to connect them. The radio-telegraph was a great thing but the radio-telephone is an advance on it. We have dozens of young lads still in their teens with radio outfits of their own, reading about the latest discoveries and appliances and testing them out for themselves. The boys of today are to be congratulated on their advancement. It is especially creditable when they earn the money themselves with which to purchase the outfits.

**Japanese Struggle
 For What We Have.**

The Japanese people are putting up a struggle for the suffrage. They are awakening to the necessity of every person taking a part in the government of the country. Like the British did many years ago, they are trying to secure for every person in the country the right to say how the government shall be carried on. In this we wish them all success. As long as we have a country where cheap labor abounds adjoining us, we shall find it difficult to make progress such as we could wish. Uniformity of conditions is very desirable. It is to be hoped that the Chinese will make a similar effort within a reasonable time. At present the ignorant coolies are scarcely fit for responsible government, but the cause of education and responsibility go hand in hand and one gives an impetus to the other.

**Discuss Fisheries
 At Montreal.**

The special despatch from Montreal which was published in this paper yesterday in regard to the halibut fisheries proved interesting reading to many people here. The facts given in regard to fishing were not particularly new, but the fact that they were being discussed at the other end of the country by people who are taking a deep interest in the problems which affect us is what gives promise of better things. The matter is to be brought before the Dominion cabinet with a request that they take it up at Washington.

**Daily News Not
 On Witness Stand.**

The Daily News does not propose to be placed on the witness stand by anybody. Yesterday we answered a question submitted by Louis Forkrud because it was a very interesting one although not at all new to readers of this paper. We believe in discussing such subjects fearlessly.

To submit to a series of cross questions in which the questioner has the right of reply is not contemplated, however. When a reader of the paper feels that he has an opinion on a vital subject that he must discuss, we shall be glad to give space for the purpose, and when an inquirer has a question which he cannot answer but on which he thinks we might have some information, we shall at all times be ready to do our best to provide such information. If, however, it is the intention to conduct a campaign through these columns for any particular group or in favor of any particular object, we shall have to assure ourselves that the object is one of which we thoroughly approve. In any case the Daily News is not on trial and does not propose to be cross questioned. Readers are not usually left in doubt as to our views on most subjects.

**Used After Shaving
 Keeps Skin Soft and Smooth**

Many men suffer from irritation of the skin as a result of shaving. With some it assumes a form of eczema and becomes most annoying and unsightly. By applying a little of Dr. Chase's Ointment after shaving the irritation is overcome and Barber's Itch and Eczema are prevented or relieved.

DR. CHASE'S OINTMENT

60 Cents a box, all dealers, or Edmanon, Bates & Co., Ltd., Toronto

**Sheriff Shirley, Veteran
 Civil Servant and Pioneer
 of North, 79 Years of Age**

The oldest member of the civil service in Prince Rupert district and probably the oldest in the entire province of British Columbia, John Shirley, sheriff of Prince Rupert county, today celebrates his seventy-ninth birthday. Though so many summers and winters, many of them filled with hardship and adventure, have passed since first he saw the light of day back in Ontario, Sheriff Shirley seems to have been treated very kindly by Father Time and he still executes his official duties in Prince Rupert with the vigor and despatch of one far younger in years. Indeed, those who have come in contact with him would place his years at least twenty less than the actual 79.

Born on February 28, 1844, on the farm of his father in Montagu township, 6 miles from Smith's Falls, Ont., Sheriff Shirley was the fifth of a family of ten. His father, John Shirley, was a native of Wexford, Ireland, and came to Canada at the age of six years. That was nearly 120 years ago and the homestead near Ottawa at that time was indeed a pioneer one set in the primeval woods.

Jane Kidd, mother of Sheriff Shirley, also came from Wexford, Ireland, at the age of nine and settled with her family near Smith's Falls. Mr. and Mrs. Shirley Sr. died some thirty years ago within ten months of each other.

Brothers Living

Three of Sheriff Shirley's brothers are still living—two older and one younger. The older ones are William, who is in the United States, and Thomas, who still lives on the old homestead at Smith's Falls and is the grandfather of the fourth generation on the same farm. The younger brother, Isaac, lives at Metcalfe, Ont. The other members of the family, all of whom lived to a ripe old age, have now passed away. The last to die was George M. Shirley, younger brother of the sheriff and with whom he shared all of the adventures and experiences in the West, who passed away in Prince Rupert on February 14 of this year.

Sheriff Shirley left the old home at an early age to attend school in Toronto and 59 years ago with his brother, George, arrived in Western Ontario. In 1882 the brothers came to Manitoba and it was in Brandon where John Shirley had his schooling as a sheriff, being deputy there for five years. Going to Calgary in 1887, the Sheriff engaged in office work and remained there for nine years. In the meantime, his brother George had gone to the United States and married, his wife dying not long afterwards.

Went to Yukon

Rejoined by his brother, Sheriff Shirley, responding to the wild lure of gold, left Calgary bound for the Yukon and in January 1897 sailed for the north on the old steamer Willapa which was making a special run with an overflow of gold seekers from the steamer Tees. Leaving the ship at Wrangell, the brothers went up the Stikine River and over the Ashcroft-Teslin trail into Atlin. The several hundred mile trip overland from Wrangell to Atlin was fraught with many delays and it took over twelve months, dog team being the principal mode of travel. However, they arrived safely at Atlin in March 1899.

For a couple of years Sheriff Shirley mined with his brother but this was not altogether successful although, like many others, they spent much money. He then went into the wood and water business with dogs and made good at this. In 1902 Mr. Shirley received the appointment of deputy sheriff, the head office then being Vancouver. In April 1905, with the creation of the separate county of Atlin he was named sheriff on the same day that F. McE. Young was made county court judge. When the administrative headquarters of Atlin district was brought to Prince Rupert, Sheriff Shirley also moved here arriving in January 1910.

First Trip Out

A year ago last fall, Sheriff Shirley went to Vancouver to give evidence in the Engineer Mine case and this was his first visit south in 24 years.

Sheriff Shirley was the only member of his family who never married.

**The Man in the Moon
 SAYS—**

THE more laws are passed the more lawlessness there is bound to be.

IF our neighbors could see us as we really are, it would take more than a dress suit to cover our deficiencies.

LOTS of nerve carries a block-head over many a tight place.

MORAL uplift is all right in its way, but the only kind of uplift suited to some people has for motive power the toe of the boot applied with celerity.

SUCCESS is often the result of being able to use to advantage the information supplied by assistants.

THE Terrace philosopher says that the world is divided into two classes, socialists and those who work.

THE same old philosopher says that a great many people are very religious and others are healthy.

THE country philosopher looking at the big waterfall soliloquizes that there is more power in a few tears falling from a woman's eyes than in half a dozen rushing cataracts.

THE man who is engaged in some important work has no time to think what the world would be like if there were no work and no money and the capitalists were in Hades.

IF Adam had been a gentleman he would never have said "The Woman did tempt me." The low down shyster!

In the Letter Box

CHURCH UNION

St. Stephen's Church,
 Winnipeg, Manitoba,
 Editor Daily News.

It has been intimated to me that a report is being circulated that I recently stated that I believed the Church was not ripe for Union. I desire to categorically deny the correctness of any such report.

Ever since the meeting of the Assembly of 1921, I have held firmly to the opinion that not only is the Church ripe for Union, but that any delay for delay's sake, or any delay in the hope of bringing together the negotiating Churches in any other scheme than that of organic union, would seriously endanger the well-being of the Church and the interests of true religion in the country.

There was a time during this long period of negotiations, when I confess I was impatient with the Anti-Unionists and regarded them as pursuing a course not only unjustified but wholly mischievous. I want to frankly say that I have changed my mind on this point. I do not think that the long delay has been wholly injurious. The Church, in thus proceeding with extreme deliberation, has shown its desire to consider the feelings, and indeed the prejudices—of I may use the word without offense—of the brethren opposed to Union.

But now, while I am unwilling to wound or grieve brethren in our Church who do not see eye to eye with me regarding the necessity for Church Union, and while I would do everything possible to win them to my way of thinking, I have come to the solemn conviction that the limit of delay has been reached and that there is nothing now for the Church to do but march steadily forward, along lines on

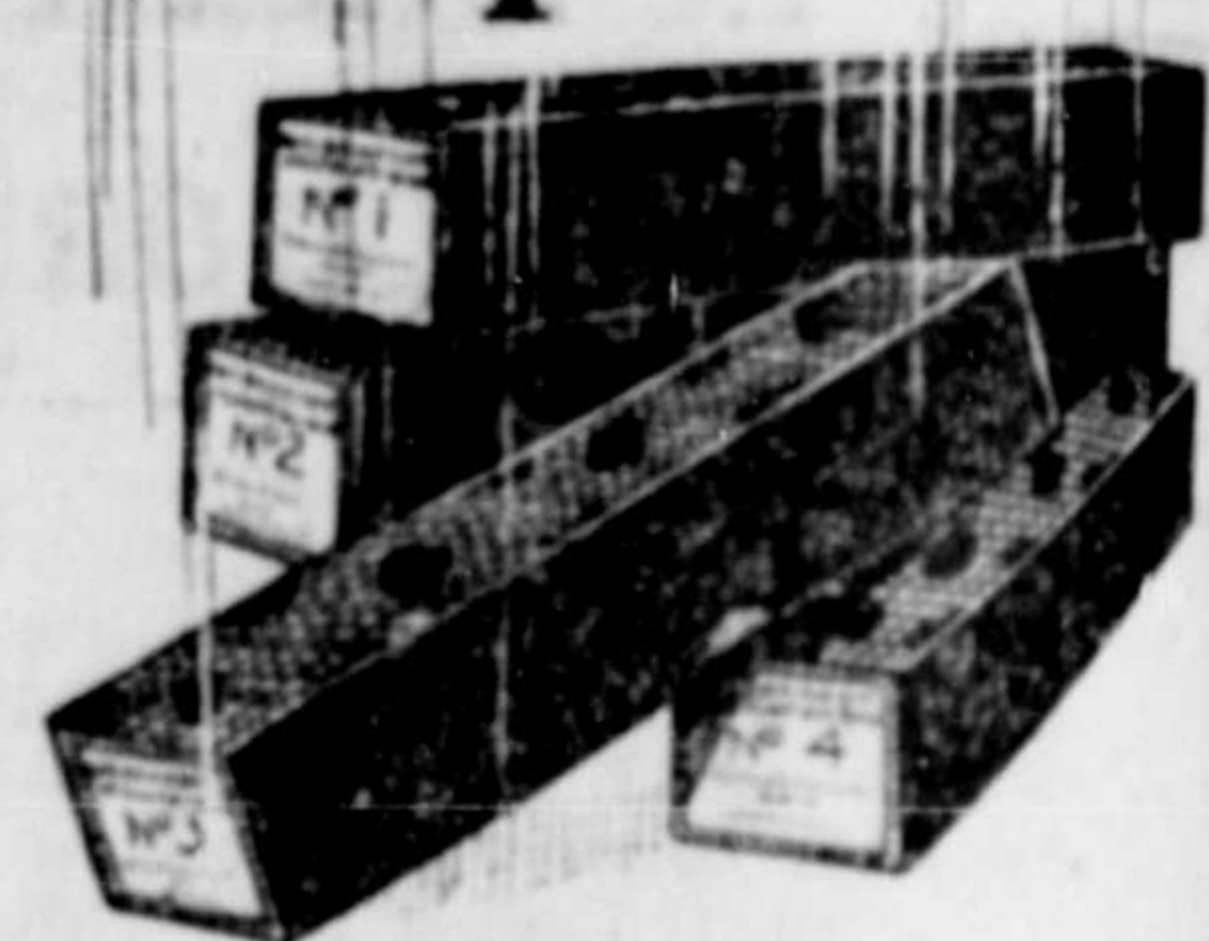

The Player You Can Really Play

The Power of Personal Expression

in player music is given to YOU by the four Gulbransen Instruction Rolls

Supplied with Every Gulbransen Player Piano

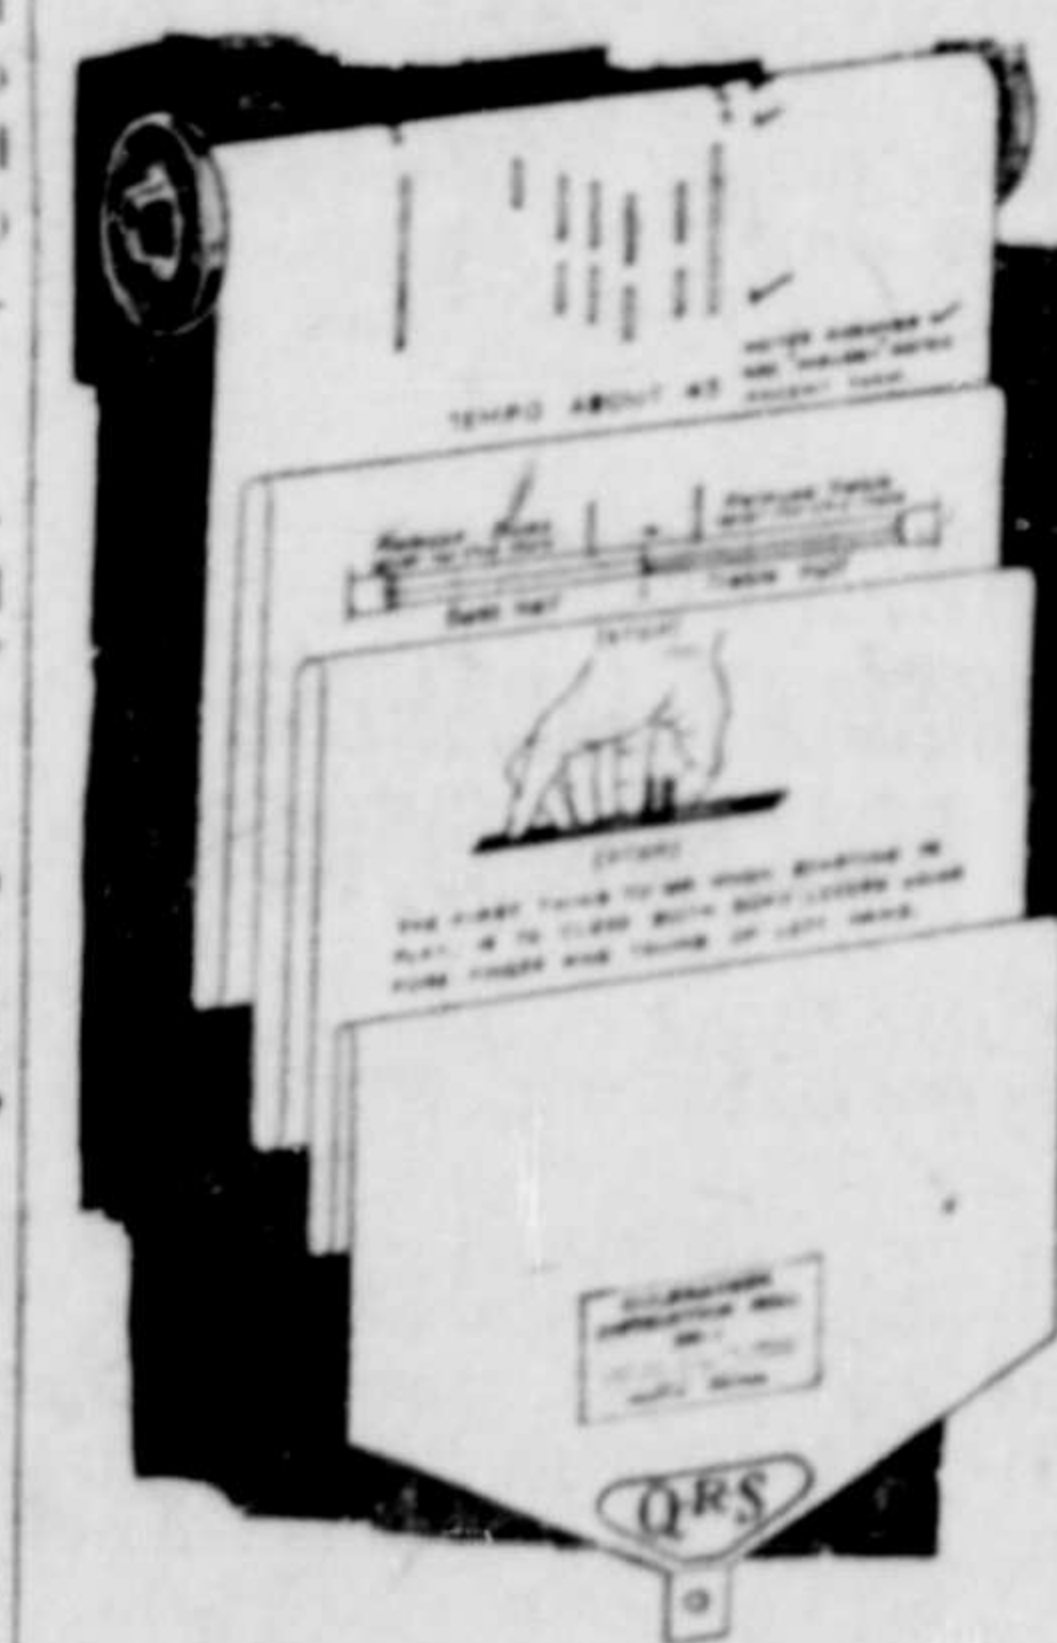

You have possibly seen some expert demonstrator produce remarkable results with a Player Piano. Or you may have been in a home where some member of the family could produce real music on a Player—but the great majority of Player Owners never learn to play the Player well, so many people have come to look upon Players as mechanical, and are prejudiced against them.

The fault lies partly in the limitations of ordinary players and partly because no effort is made to help you master it.

Not so with the

**GULBRANSEN
 The Player-Piano**

Gulbransen Instruction Rolls on the Gulbransen Players lead you, step-by-step, surely and steadily, to where the whole world of music is yours to command!

Knowledge of music is not necessary; previous experience is not necessary—nothing but the desire and love for music. And we will positively prove to you, in ten minutes at the Gulbransen, that you have within you the power to do as you will with music—almost as you would by hand.

Until you have acquired this capacity—until you have experienced the thrill of this power—you will never appreciate the boundless measure of pleasure and happiness that lies within a Player-Piano, and the Gulbransen is one instrument on which you can acquire this art quickly, easily and satisfactorily.

**Her Three Children
 HAD
 Whooping Cough**

Many mothers make the mistake of thinking that whooping cough is not of serious importance, but it is one of the most dangerous diseases of infancy, and yearly causes more deaths than scarlet fever, typhoid or diphtheria, and is more common in female than male children.

**DR. WOOD'S
 NORWAY PINE SYRUP**

is highly recommended by mothers everywhere for the relief of this trouble as it helps to clear the congested air passages of the mucus and phlegm that has collected, and in this way brings on the "whoop" which brings the so-much-sought-for relief and heals and soothes the lungs.

Mrs. H. W. Mahar, Kentville, N. S., writes: "My three children had whooping cough. I tried every medicine I could think of until an old gentleman told me to try Dr. Wood's Norway Pine Syrup, before they had one bottle taken the cough seemed better and after two bottles they were about well. It loosened the cough and relieved them of that hard, distressing and straining feeling that goes with it."

"Dr. Wood's" is 25c and 50c a bottle. Put up only by The T. Milburn Co., Limited, Toronto, Ont.

Local and Personal

B. C. Undertakers. Phone 41. 17
 Mayhew, Undertakers. Phone 3517. 17

Mrs. M. P. McCaffery will not receive tomorrow.

W. W. Wright returned today from a trip to Vancouver.

A. C. Beatty was among those returning to the city on the Prince George today.

O. M. Watson, of Alice Arm, is returning north today on the steamer Prince George from Vancouver.

A. Strachan, manager of the Pioneer Laundry, returned this morning by the Prince George from Vancouver.

Kilday, the Barber, has removed from old stand to Le Clerg's shop, Sixth St., between Third and Fraser. 53

Capt. W. B. Finglass, C.G.M.M. marine superintendent, arrived today on the Prince George from Vancouver and will be here a week.

C. R. Biggart, manager of the Rupert Bakery, is back from a trip to southern cities. He returned on the Prince George this morning.

Albert Davidson, a well-known Alice Arm mining man, is returning north on the Prince George today after a business trip south.

Mrs. S. D. Johnston returned home today after having spent the past two months visiting her home in Victoria and also in Vancouver and Nanaimo.

A. L. Box, of Beilbroner's jewelry store, who was called south recently on account of his father's illness, returned from Vancouver on the Prince George today.

S. J. Evans, with a purchase of \$3.40 won the box of chocolates on Monday and J. O. Olsen with a purchase of \$1.30 won on Tuesday at Ormes Branch Drug Store.

Word has been received from W. G. Barrie, who recently underwent an operation at the Mayo institute, that he is improving rapidly but that he intends to remain in Rochester for several weeks yet.

Special Meeting of Civic Employees Union to-night 8 p.m. in Carpenter's Hall to consider the revised wage scale. All employees requested to attend whether members of union or not. Geo. Casey, president.

B. C. Keeley, manager of the C.G.M.M. is expected next Wednesday from Vancouver, according to advice brought from the south on the Prince George today. Regional Beaumont, superintendent, is still in Vancouver but is expected back here at the end of the week.

Capt. D. Donald arrived this morning from Vancouver to take command of the steamer Prince Rupert which resumes service next week, replacing the Prince George which will then go into dock. Capt. W. S. Moorehouse was back on the bridge of the Prince George today.

Owing to a typographical error Alderman Perry was made to say in Tuesday's Daily News that bridge carpenters were getting 65c. an hour. What the reporter wrote was "Bridgemen on the railway were getting 48c. an hour and city laborers were getting 65c. which was too high."

PROSPECTS FOR 1923 BASEBALL

Managers of New York Teams Confident that Their Players Will Again Capture Pennants

NEW YORK, Feb. 28.—Interest among the big baseball league fans is centered largely in the prospects of the New York Giants and Yankees repeating their triumphs of the past two seasons in the face of increasing strength among several of their more dangerous rivals. While they are not discounting the opposition they will encounter this year, Managers McGraw, of the Giants, and Huggins, of the Yankees, are confident their teams will keep the National and American League pennants in the same city for the third straight year.

Both pilots declare their teams will be decidedly stronger, although they plan relatively little rebuilding. The Pittsburgh Pirates, in McGraw's opinion, loom as the club the Giants must eliminate to stay at the top of the heap, while the Yankee leaders expect his strongest battle from Ty Cobb's Detroit Tigers. Cincinnati, in the National, and St. Louis in the American, are picked as the next strongest contenders by the metropolitan club managers.

Giants' Prospects McGraw has announced that he will stand pat on his 1922 championship line-up, with the possible exception of center-field, devoting most of his attention to bolstering weaknesses in the pitching staff which nearly cost the club the pennant last season. Jimmy O'Connell, \$75,000 "phenom" from San Francisco, is expected to fill the berth in midfield, but McGraw will give the veteran Casey Stengel whose come-back was a sensation last year, and Bill Cunningham on opportunity to contest for the job with the coast youngster.

Jack Bentley, another expensive acquisition, is expected to add considerable strength to the pitching corps. Bentley starred both as a portside slinger and slugger with the Baltimore Orioles for several years, but his work with the champions will be confined to the mound, according to McGraw. The Giant leader has a dozen or more recruits from which he hopes to weed out another twirling star. He also looks for decided improvement from his veterans—Hugh McQuillan, Jack Scott, Art Nehf and Jess Barnes—besides greater effectiveness from younger moundmen like Bill Ryan, Claude Jonnard and Virgil Barnes.

Pittsburgh Dangerous Pittsburgh's veteran and hard-hitting aggregation, in McGraw's belief, will prove a formidable obstacle, under the leadership of Bill McKenzie, who took the Pirate helm mid-season last year and developed the club into a dangerous contender in the closing month of the campaign. Cincinnati, reorganized with a brilliant young infield and good pitching, also figures strongly in McGraw's calculations, while the Chicago Cubs, with a pitching staff above the ordinary, promise to bear watching.

Higgins bases much of his confidence in 1923 prospects upon his belief that the Yankee pitching staff, the deciding factor in last year's race, will be even more constant this year and that Babe Ruth, if he returns to 1921 form, will bolster the morale and attacking

After Every Meal WRIGLEY'S and give your stomach a lift. Provides "the bit of sweet" in beneficial form. Helps to cleanse the teeth and keep them healthy.

strength of the club. Higgins' Views The diminutive pilot figures Carl Mays and Sam Jones, whose pitching was a disappointment last season, will flash old-time form, while Bob Shawkey and Joe Bush, 1922 mainstays, will be more effective than ever. Ruth's determination to regain the home-run hitting laurels he lost last year has been demonstrated by the strict program of conditioning to which he adhered during the winter on his Massachusetts farm.

SUCCESSFUL WHIST DRIVE AND DANCE

Given Last Night in Elks' Home by Ladies of Royal Purple

The whist drive and dance given last night in the Elks' Home by the Ladies of the Royal Purple was a most successful and enjoyable affair, about 200 persons being in attendance. There were 32 tables of cards and the prize winners were Mrs. C. Folsom, ladies' first cutting with Mrs. Thor Johnson, and C. Richards, gentlemen's first on a cut with Alex. Macdonald. Consolation awards went to Miss B. Caldwell and K. Hallberg.

Sport Chat

Berating the approach of spring and another diamond campaign, advance caravans of nearly all the sixteen National and American League Baseball clubs are now on their way south for the annual conditioning process. Training camps, scattered in lands of the palm tree and cactus from Florida to Catalina Island, California, will be in full swing for all the clubs by the second week in March. For the veterans, the next weeks or so

Daily News Classified Ads. 2 CENTS PER WORD IN ADVANCE. No Advertisement Taken for Less than 50c

of conditioning and exhibition pastime will mean shedding excess poundage acquired during the winter lay-off and limbering up for competition with eager and ambitious recruits, hundreds of whom will strive for big league positions for the first time in their careers. This rivalry for regular berths promises to be especially keen among several clubs going through a marked process of re-organization, including the Cleveland and Boston Americans, and the Brooklyn, Chicago and St. Louis Nationals.

Florida is the most popular training ground this year, seven clubs choosing the Everglades state for their conditioning. Texas, Alabama and Arkansas each have two clubs in their confines while Louisiana, Georgia and California each have one. The list of 1923 training sites follows: National League New York, San Antonio, Tex., Cincinnati, Orlando, Fla., Pittsburgh, Hot Springs, Ark., St. Louis, Bradenton, Fla., Chicago, Catalina Island, Calif., Brooklyn, Clearwater, Fla., Philadelphia, Leesburg, Fla., Boston, St. Petersburg, Fla.

and Mrs. J. M. Earley, supervised refreshments, and Mrs. J. Gawthorne looked after the music. H. F. Glassey was master of ceremonies for the card tables and M. M. MacLachlan for the dance. Herbert Hampton and F. Dibb presided at the door.

HEAVY RAINFALL According to H. O. Crowe, Dominion meteorologist, 3.65 inches of rain fell yesterday. This does not set up any record but was the heaviest fall in a single day for some months.

CITY IS SAVED \$25,000 A YEAR BY CUT IN SALARIES AND WAGES AND REDUCTIONS DEPARTMENTAL STAFFS.

(continued from page one)

Telephone operators and salaries remain as at present. The application of J. J. Little as wire inspector is referred to the superintendent with the recommendation that the office be either abolished or combined with other necessary work. The application of S. J. Howe for the position of meter reader is also referred to the superintendent as well as other applications for positions in the department. The applications of S. Massey for wire chief and those of J. Stewart and B. Long for linemen are also referred to the superintendent.

Superintendent Cut

The saving in the utilities department includes a \$25 cut in the salary of the superintendent from last year. Other sweeping reductions not included in this report but brought about by the committee in reducing the outside staff represent a saving of \$960 a month. Further reductions by the committee are planned. Seven men were cut off the outside staff about the middle of February.

H. G. Hilland retains his position at the weigh scales at his present salary of \$30 per month. J. M. Munnis is appointed storekeeper in charge of city stores at a salary of \$130 a month. He is under the direction of the treasurer.

The reorganization resolution as adopted also includes the following provisions:

Messrs. Allstone, Birch and Brookshank to confine their present duties in the treasurer's department until a treasurer is appointed after which they will be assigned by the treasurer. Mr. Allstone, acting city clerk, and Mr. Birch, acting treasurer, are to retain their present salaries while so acting.

One Accounting Department There shall be only one clerical and accounting department in the city hall, this is to be under the direction of the city treasurer who shall have power, with the approval of the finance committee, to engage temporary help when required. The clerical and accounting work of the engineering department shall be done in the treasurer's office.

Such laborers as are actually necessary in the waterworks department shall be employed, all working under the direction of the city engineer.

The city engineer shall also act as building inspector and sanitary inspector.

All the provisions of the entire reorganization scheme go into effect tomorrow, March 1, when members of the staff not re-engaged leave and the remaining ones start on their new rates of salary and wages.

The first matter dealt with last night was the report of the utilities committee recommending the consolidation of city stores in one place with the appointment of James Munnis as storekeeper. This was adopted unanimously, the provision being added that the consolidation be as far as possible. It was reported that it would not be practicable to move all the city stores to the quarters under the Fire Hall. Material for immediate use will be kept under the Fire Hall and the utilities warehouse on Fraser Street will be used to hold reserve stocks.

Opposition to Scheme

Ald. Macdonald, at the outset of the consideration of the reorganization resolution, said he was opposed to reductions from beginning to end until the whole matter had been gone into by a commission. He would vote against the resolution.

Mayor Newton said he was sorry to see this phase of the situation coming up. It was the first he had seen of the proposal and he had not heard that any of the deliberations, which seemed apparent, had taken place. It came to him as a complete surprise. It had been deliberated upon, it seemed, with himself and possibly other members of the council knowing nothing of it. He felt like Ald. Macdonald. He believed in curtailing the staffs wherever possible but did not think that living costs had gone down sufficiently to warrant a general reduction in salaries and wages. Personally, he would rather see those retained in the service of the city re-engaged at their present salaries. Good work had been

done in combining and cutting down the staffs but he would like to see a committee of the whole discuss the present proposals. He did not think the council would have been asked to decide on a quick motion such as this. Further combinations and cutting down of staff might bring about a saving just as well as this method which was new to some of the members of the council who had had not time to consider it. He could not support any reduction in salaries of those retained in the city service. Although it would probably make no material difference he thought that all ought to express the way they felt on the matter.

Unfair Attack

Ald. Stephens, speaking somewhat heatedly, said he had listened with surprise to the remarks of the mayor. As chief magistrate of the city, he was surprised that he would thus attack two aldermen who had introduced a motion that was quite in order. He thought that such an attack was unbecoming on the part of the mayor. The mover and seconder of the resolution were probably quite as conscientious as the mayor who had unduly indulged in clap trap talk for the benefit of the newspapers. He, Ald. Stephens, would himself submit to no such attack as this. It was unfair and unequal for to attribute motives and insinuations on the matters of which he had no knowledge. An apology was due Ald. Perry and Ald. Collart and any others who might be included in the insinuations. If His Worship did not have the courage to tackle the problem he should leave it to those who had.

Not Playing to Newspapers

Ald. Macdonald said he had introduced an amendment on Monday night but it had been turned down. He for one was not playing to the newspapers as Ald. Stephens suggested.

Ald. Mackenzie said there had been several committee discussions on the matter already. He championed the cause of the newspapers and said that the public should know what the council was doing.

Ald. Collart, speaking in the direction of Ald. Macdonald, said he had looked at the matter simply in the light of making new appointments at the salaries the city wanted to pay.

Ald. Macdonald replied that he had attacked no one. Surely he was entitled to say what he wanted and vote against the resolution if he felt so disposed.

Ald. Collart said it was Ald. Macdonald's privilege to bring in an amendment to which Ald. Macdonald replied there would be little chance of his amendment passing.

Played Game Square

Ald. Stephens made it clear that his attack had not been launched against Ald. Macdonald but against the mayor. Ald. Macdonald had always played the game square.

Mayor Newton, in reply, said he did not intend to take orders from Ald. Stephens. If he saw

fit to offer comment he was going to do so. He felt warranted in letting the people know that he for one and possibly other members of the council knew nothing about the resolution submitted until he had arrived at the council chamber. He meant no reflection on Ald. Perry or Ald. Collart but simply had expressed disappointment on there being no round table talk on the matter. If he had known about it before he would not have protested. He was not trying to be disrespectful to any member of the council but if holding his tongue meant being respectful he would choose being disrespectful. Since taking the mayor's chair, he had always tried to preserve harmony in the council and all he could say to Ald. Collart and Ald. Perry was that he did not desire to cause strife. He would reiterate, however, that he did not like the idea of accepting a motion without the opportunity of being part and parcel of it.

Ald. Stephens replied that he had never attempted to give the mayor orders and the insinuation was unfair. Taking His Worship at his word, he would have to be willing to accept his dissension.

Employ Returned Men

Ald. Mackenzie, referring to the fact that Mr. McNeill had been retained in the engineer's department and Mr. Landrey let out, spoke on behalf of the returned soldiers and said it was up to the city to see that the men who fought for the Empire, the Dominion and the city were considered. They had made it possible for Ald. Collart and the others to sit in the council chamber tonight.

Ald. Collart immediately took up this point and hurled out the remark that he had fought on the line just as long as Ald. Mackenzie and had done his duty just as well. When considering the appointments he knew no one and acted accordingly.

Ald. Mackenzie said he always thought of the returned men and referred to the messages sent out by the Attorney General that returned men be given preference in employment where possible.

Ald. Macdonald asked Ald. Perry, of the Board of Works, if there was any possibility of Mr. Landrey being taken care of. Ald. Perry said there seemed to be no chance at present but there might be later.

Ald. Mackenzie said Mr. Landrey was just as capable as Mr. McNeill and he was a returned man. It was up to the council to act accordingly.

Ald. Collart pointed out that Mr. McNeill's appointment was only temporary.

A. Montezano, who is let off the garbage wagon through the reorganization, was given the opportunity to speak by the council. He said he was a married man with a family of five and was an old resident of the city. What was to be done for him?

Ald. Perry replied that the Board of Works had decided to put on another man named Piper in his place.

Ald. Mackenzie thought the storekeeper should be in charge of the superintendent of utilities to which Ald. Collart replied that it had been deemed advis-

able to have the treasurer supervise this department in order to have a check on the stores.

Pay for Laborers

Ald. Perry then moved and Ald. Collart seconded that laborers employed in the city be paid 50c. an hour, this to be added to the resolution.

Ald. Macdonald maintained

that at 65c. an hour laborers, on account of weather conditions, received barely enough to live on. They and their families could not live decently at 50c. an hour. Giving averages at the rate of 65c. an hour, Ald. Macdonald said in December a laborer earned \$90.37; in January, \$86.90; and in February,

\$85.40.

Before the question was finally put, Ald. Macdonald moved that the resolution be given a six month's hoist. This was seconded by Ald. Mackenzie and lost, the mover and seconder only voting for it. The resolution was then put and it carried by a similar division.

SMOKE OGDEN'S CUT PLUG

HOW TO SLEEP IN A BARE ROOM... More a matter of SLEEP than of bed or board... Many people can sleep sitting up, standing up, even while walking... There is always a reason for sleeplessness. Usually, it is a "sour" stomach, a liver that has "lain down" on the job, congested bowels, or biliousness... Men, just before retiring, take Chamberlain's Pills. They soothe an uneasy stomach, encourage the organs of digestion and elimination to their natural activity, and assure you a good sleep no matter what!

How often can We Advertise? NOT How often should we Advertise? WHY are the Canadian and American Manufacturers appropriating fifty per cent more dollars in Newspaper Advertising for the year 1923 than in 1922? There's a Reason BECAUSE they have implicit faith in the pulling power of Newspaper Advertising and in the future trade conditions for the coming year. The daily newspaper has proved itself worthy of this tremendous responsibility and trust. Men who spend millions of dollars on Newspaper Advertising yearly know what it has done for them in the past and feel safe in trusting their future fortunes to the advertising columns of the daily press. The Daily News Phone 98 P. O. Box 1723

COPPER MARKET KEEPS STRONG

Price Now is Well Above Fifteen Cents: Germany Buys Two Million Pounds

NEW YORK, Feb. 28.—Substantial sales of copper have been made at 16 cents a pound delivered. While consumers are showing a slight hesitancy to pay 16 cents, there is every indication that with good tonnage sold at 15 7-8 cents Saturday and Monday morning, price will be firmly established at 16 cents by afternoon buying. All producers by one o'clock were holding at 16 cents delivered so far as could be learned. This is a jump of 3-8 cents a pound since Friday and marks a rise of 1 cent to 1 1-8 cent rise during the last ten days.

This is the most rapid rise in price of copper in times of peace in more than ten years of the industry's history. Predictions are freely made that price will go well above 16 cents before the present buying movement is over. Producers were unusually busy all Monday morning answering long distance calls from all over the country and it is virtually certain that business will be done this afternoon at 16 cents delivered. Demand is extraordinarily large from both wire and brass mills. Sales on foreign account are unusually large and it is estimated that a total of 6,000,000 pounds have been sold to Europe today by American producers.

Germany has bought over 2,000,000 pounds in the last 24 hours from American producers. France, England, Italy and Scandinavia have also been good buyers.

Sixteen Cents Refused
Monday afternoon two producers refused to accept bids from consumers of 16 cents delivered as they are holding for higher prices. Only two or three producers have any considerable tonnage of copper for shipment up to and including April. Copper for shipment after April is somewhat easier to obtain, but price is same as for nearer shipments. Demand is mainly for February, March and April shipments. This accounts in part for the rapid rise in price.

Price of electrolytic copper for domestic shipment is 16c a pound delivered to end of May. Price of Lake copper is 16 cents to 16 1-8 cents delivered to end of April. Priced aside ship New York is 15 7-8 cents. Prices for European destination are at levels corresponding with 16 1-4 c.i.f. Hamburg or London.

NORTHERN MINES ARE DESCRIBED IN OLD COUNTRY

"The Mining World and Engineering Record" Says World's Gold Must Come From This Province

Latest news of the B.C. Silver, Premier and other mining properties in the Portland Canal district is given in a special article appearing recently in "The Mining World and Engineering Record," a London, England, publication.

In view of the older mining fields showing signs of exhaustion, the article says that it is to Canada the world must look for an expansion of output. In British Columbia, it is stated, the possibilities of increasing gold production are brighter now than they have been for years past.

Proven and promising properties mentioned in the article include the Premier, B.C. Silver, Big Missouri, Prince John, Belmont Surf Inlet, Dolly Varden, Wolf and North Star. There are pictures of the cairn marking the boundary between British Columbia and Alaska, the mill at the Premier mine, the town of Alice Arm from A. C. Garde's photograph, and the Premier tramline.

CITY ENGINEER'S DEPARTMENT MAY NOT OPEN THURSDAY

Unless F. W. Pearson, the new city engineer, arrives from Manitoba on tonight's train, the city's engineering department may be as a ship without a helm tomorrow. With the council's re-organization program into effect

OPENING DAY

"The Maxine Hat"

We have received two shipments of hats and as usual we buy our hats on approval. We keep what we like and return the hats we do not like. We will keep them until Thursday, March 8th. Come in and choose yours while the entire stock is here.

The word "MAXIME" is in itself enough to qualify the style of hats we have. The "Maxime" Hat is a New York Hat which we purchased through Canadian agents. Therefore if you buy your hat from our stock you will get the same opportunity as they have back east.

DISTINCTIVE SPRING COATS.

are ready for your inspection. If you are looking for novelty of design and quality at a moderate price, come in and **SEE THEM.**
