Provincial Police Officers Leave Today to Bring Him In

Provincial Police Chief Minty was notified this morning that an unknown man had been discovered by a fishing boat on a small island in the vicinity of Stephens Island, in a destitute condition. Lear, passing noticed the man and put in to discover the reason for his being there. He was found to be without food and shelter and refused to be brought into the city. LIBRARY BOARD HELD MEETING

Membership Increased 38 in July—Money is Badly Needed

In order to raise funds, it was decided to take a booth at the forthcoming exhibition where a canvas will be made for public subscriptions.

During the absence of Miss Grant, who is going south on her holidays, the library will be closed on Saturday evening, Aug. 4 to Monday, Aug. 29. Members will be allowed to take out double the usual number of books and fines will be suspended.

Thornton's Statement Is Reassuring.

Sir Henry Thornton's statement as to when the Canadian National Railways may be expected to take care of themselves without burden to the taxpayers is reassuring. Having established a reputation of conservatism and stability, Sir Henry's prediction will be accepted with confidence. It is one of the most important and definite statements he has made since he became the head of the system. If it proves to be correct, Sir Henry will have proved his worth and there will be no danger of the Canadian people recalling him from his office as he suggested yesterday. The attitude of the president with respect to the administration of the system is a firm one and one which will be generally admired by most people. He is tackling his big problems imbued with determination and confidence and already success is making itself apparent.

Important Minister Is Visiting City.

The city of Prince Rupert extends a hearty welcome to Hon. Dr. J. H. King on the occasion of his first visit as federal minister of public works. Heading one of the most important departments at Ottawa and having much to do with matters of development his visit here is timely, especially in view of the fact that influences are now working towards the federal development of Prince Rupert. Many demands and requests have been made of the minister in the south but it is to be hoped that he will lend a sympathetic ear to the claims of this port and that he will co-operate with others who are working for it at Ottawa.

This is not Dr. King's first visit here and, as a member of the House of Commons from British Columbia, he has doubtless familiarized himself with the situation. His present visit will allow him to make some personal observations, also giving local interests a chance to confer with him. The Board of Trade and the city will have a straightforward case to present and all that will be asked of the minister will be straightforward replies and action with due observance of the good reasons actuating any requests made.

Make Responsible Body Of Senate.

In view of recent events and sayings, there are some signs that the matter of Senate reform may become a real public question instead of a topic for academic debate, suggests the Winnipeg Free Press. Parties in the past have undertaken the job but nothing yet has followed.

When a political party submits to the people a definite principle to govern the reform of the Senate and pledges itself, if given office, not to be seduced from its purpose by the lure of patronage, for which the Senate gives ample opportunity, it will become a live question capable perhaps of effecting the result of a general election.

The present system of appointing senators makes the Senate always the ally of one or other of the political parties in the Commons—either of the opposition, in which case it may interfere unreasonably with the government's legislation, or of the government, in which case it ceases to perform any of the legitimate functions of a second chamber and becomes a mere registering body.

All modern democracies have fitted themselves with second chambers, elected by the people upon some basis which differentiates them from the popular chamber. These bodies are thus responsible to the people. They have powers, defined by the constitution, which they exercise in the knowledge that they are accountable to the electors. Canada needs a second chamber of this type and public opinion would strongly support a definite proposition to this end. The character of this body, its functions, the conditions governing its election—these are matters which would call for much careful consideration. But a declaration in support of the principle that the Canadian Senate should be so modified that its members will be elected by the people and will be responsible to them can be made at any time to the great political advantage of the party making it. Does any political party care to take advantage of the opening?

Editors of Canada's Weekly Newspapers Photographed at Halifax.

NO annual convention trip which the Canadian Weekly Newspaper Association has ever taken has been more memorable than that which has just been completed. Newspaper men from all parts of Canada—from far west as Vancouver Island, B. C., and as far north as The Pas, Manitoba met together at Toronto to board the special Canadian Pacific train that was to take them by a series of easy stages to Halifax Nova Scotia. The editors and their wives and some children numbered altogether about 180, and it took a train of twelve cars to accommodate them. The train was made up of eight standard sleepers, two diners, a baggage car, and a compartment observation car

which added greatly to the comfort of the trip. The train was manned by a picked crew of operators and stewards and was accompanied by W. B. Howard, Assistant General Passenger Agent and Mr. J. Harry Smith, Canadian Press Representative of the Canadian Pacific Railway. The success of the trip was to a large extent due to the organizing ability of E. Roy Sayles, Manager of the Association. Pulled by one of Canada's finest locomotives the train made a special run to Montreal arriving there ahead of time schedule and the party was joined by many Quebec members. The next stop was at Fredericton, N. B. where the citizens joined in a splendid welcome to the travellers.

The Lieutenant Governor, and Premier Veniot of New Brunswick gave a reception and dance in the Legislative Chamber, and the party moved on to St. John where similar hospitality was enjoyed. On the Canadian Pacific steamer "Princess" the party enjoyed a delightful sail to Digby, N. S. from where the trip through the Annapolis Valley to Halifax was made over the Dominion Atlantic Railway. The wonderful orchards and dike-lands of the Evangeline country were looking their best and a stop was made to visit old Fort Anne at Annapolis Royal where much of the early history of Eastern Canada was made. Kentville's fine band turned out with the population to greet the newspaper people and

here as in most other places touched, citizens came with autos to give the visitors a glimpse of the surrounding country. The ancient city of Halifax outdid herself in hospitality, and here the annual convention was held. At one of the meetings it was decided that the annual trip would next year be to England and France. The members will thus have a chance to visit the great Empire Exhibition at Wembley. The return trip was made via Canadian National to Quebec where the party was entertained by the Canadian Pacific at the famous Casino Frontenac. The newly elected president of the Association, J. I. Fortin, of "L'Espresso," Beauport

BEAUTIFUL PRINCESS IS BEING TRIED AT LEIPZIG FOR TREASON

LEIPZIG, Aug. 1.—Slender, beautifully gowned, a striking figure in the box despite the hunger-thinned lines of her aristocratic face, Princess Margaretha Hohenzollern charged with having aided and abetted the notorious Captain Ehrhardt in high treason.

The princess, by a special order of Judge Schmidt, president of the state court for protection of the republic, was permitted to enter the courtroom without being blindfolded, as is customary in the case of prisoners who might make use of knowledge of their surroundings to escape. Judge Schmidt, who granted her many other favors is reported to have resigned because the Saxon state government objected to his easing the rigors of prison life for the titled prisoner.

On the stand, Princess Margaretha was reticent. She was formally charged with aiding and abetting the original flight of Captain Ehrhardt, after failure of the Kapp putsch, which he led.

She testified she had come to know Ehrhardt at a time in 1921 when the Kapp troops, on their way to take Berlin, camped near her uncle's castle. The gallant dashing officer made an instantaneous hit with the pretty princess, who celebrated her 29th birthday Saturday.

She went to see Ehrhardt several times afterward, she testified in Berlin and in Munich. The princess attempted to dodge the question as to whether she knew he was a hunted man at the time.

The Man in the Moon SAYS--

IN Ontario, Toronto is called "Hogtown" for appearing to be too greedy. But Toronto has nothing on a little city about 500 miles south of here.

FIRST Vancouver wanted Prince Rupert's drydock and now they say Prince Rupert got the C.N.R. railway directorship that ought to have gone to them. Now they want another, a railway commissioner.

WONDER what they'll want next?

IT'S a pity they wouldn't want a road into Prince Rupert. Then the provincial government could find thousands of dollars to pave it with.

QUERY? If the cost of four miles of the Vancouver pavement road had been spent on a plain ordinary dirt road out of Prince Rupert, how many miles long would our road be?

NEXT to Victoria, I'm glad that I live in the Moon where the roads are good. I'd hate to drive a car in Prince Rupert to be taxed by the government for a car and then not to have a road to drive it on.

BUT who wants to drive a car out of Prince Rupert anyway? Most everybody there has a boat and the rest want to stay here.

The entire accommodation was wired for from Skagway to take care of the bookings in the north. The steamer will sail at 6 o'clock for Vancouver.

A fire broke out this morning in the cabin of the Canadian fishing boat Westerner which is on the N. M. McLean ways undergoing a general overhaul. The fire was extinguished by the crew before any great damage was done. Several articles of wearing apparel, which had been hung in front of the stove to dry, became ignited.

E. A. Donohoe will leave for the south on the steamer Prince Rupert tomorrow night en route to the United States where he will locate. His departure from the city will be regretted by a wide circle of friends. Mr. Donohoe has been active in sport circles and was a particular worker in the interests of baseball. He was a respected member of the Elks and Knights of Columbus orders and devoted much time to the recreation work of both organizations. The Elks will tender a banquet to Mr. Donohoe tomorrow night prior to his leaving.

AUSTRIANS ARE NOW MOVING TO GERMANY

Living Much Cheaper Because of Deflated Value of Mark Compared With Crown

BERLIN, Aug. 1.—Living is so much cheaper here today than in Vienna, due to the fact that the German mark is worth so much less than the Austrian crown that many Austrians are said to be moving to the German capital. Reports from Vienna describe long lines of people waiting day and night in front of the German consulate, seeking the proper endorsement on their passports to cross the frontier.

SONS OF CANADA AND GROTTO TIE

Each Side Got Four Goals in Stuart Shield Game Last Night

The football game between the Sons of Canada and the Grotto teams last night in the Stuart Shield series resulted in a draw of four goals each. Campbell was responsible for the Grotto tally. In the second half Jimmy Marks and Jack Vincent scored for the Sons while Pat McGowan put through two and Sam Eskine added another one for the Wasps.

The teams lined up as follows: Sons—D. F. Fozzell, goal; G. Mitchell and H. Menzies, full backs; H. Astoria, W. Menzies, and E. Smith, half backs; W. Mitchell, Bert Long, J. SMELTER WON OVER ELKS AT BASEBALL.

Lodge Men Unable to Field Strongest Team at Anyox and Lost by 5 to Nil

ANYOX, Aug. 1.—Owing to pressure of work, the Elks were unable to field their strongest line-up in their last engagement with the Smelter, the result being that the "Gas Filters" annexed a win to the tune of 5 to nil. The game was devoid of excitement, the Smelter boys playing fair ball and winning easily. They did not have to extend themselves at any time during the game. Both pitchers played good ball. Fortin getting eight strike-outs to his credit and holding the Elks' batters to two hits, both singles. Cody getting one and Cy. Greenwood the other. Draudson, on the mound for the "Brother Bills," fielded his position in good fashion and got four strike-outs, and allowed the Smelter sluggers three singles. Brown getting two and Sinclair one; and an equal number of two baggers, well placed by Fortin, Sherman and McKeown. The Smelter lads got their runs in the third, fourth and seventh.

Umpire—W. Olson; base umpire, Geo. Greenwood.

Line-ups:
Smelter—Matheson, 3b; Fortin, p; Brown, ss; J. McKeown, c; Loseke, rf; Cole, lf; Sheen, 2b; Sherman, cf; Sinclair, 3b.
Elks—Cody, c; Greenwood, ss; Robertson, lf; Sloan, 3b; Draudson, p; Thorley, 1b; Dodd, cf; Whitteker, 2b; Waterman, rf.

SMELTER BEAT MINE IN ANYOX FOOTBALL

Spirited Game With all Scoring in Second Half—2 to 1

ANYOX, Aug. 1.—The football league has resumed play again, the last contest being between the Mine and the Smelter. This was a very spirited game, particularly in the first half, when both sides failed to secure a tally. In the second half, however, the Smelter crew made a supreme effort and managed to secure two goals before the whistle blew, the Mine getting one to its credit.

Referee, Evans.
Line-ups:
Smelter—Goal, McDougall, backs, Mair and Kirkland; half backs, A. Kirkland, Ross and Mat; forwards, Boyd, Wilson, Westwood, Armstrong and Duffie. Mine—Goal, Gorkle; backs, Spears and Stewart; half backs, Cane, McKeown and Currie; forwards, Twaddle, Barnes, Lange, Evans and Stuhls.

Sport Chat

Nothing further has been heard from Smithers regarding the invitation for a local baseball team to go up there on August 4. The Smithereens will have to let the locals know in short order if their terms are accepted or the boys won't be travelling this time. Fare and expenses have been asked for.

Definite word has been received by John G. Kent, managing director of the Canadian National Exhibition, Toronto, that the famous Leander Boat Club, Henley-on-Thames, will send a crew to compete at the two-day Exhibition regatta on August 29 and 30. This will be the first occasion that a British crew of oarsmen have ever visited Canada.

Epsom, with its Derby picnic, is undoubtedly the most popular racing course in England; Royal Ascot is the most fashionable, but to Goodwood goes the distinction of being the most exclusive. Not only is Goodwood the most perfect race-track in England but no other track has such a glorious situation and environment. The annual four-day racing meet at Goodwood opened on Tuesday of this week and will continue till Friday.

Anyox tennis players journeyed to Stewart last week and played a series of games with the latter town. Thirteen events were played, Anyox winning eight and Stewart five. The Anyox players making the trip were Mrs. Champion, Mrs. Deane, Mrs. Munro, Mrs. Speight, H. J. Ballion, S. Cole, T. Townshend and O. G. McIntyre.

Blind Man's Buff

EVEN in this age of enlightenment some folks spend their money blindly. They buy with their eyes shut. They grope in the dark as truly as if their eyes were bandaged.

And all the time a powerful light is being thrown on the very things they need and want!

Advertising is a beacon to guide you in buying. It shows you what to buy-- where to buy-- and when to buy. At the same time, it protects you against fraud and inferiority.

Merchants and manufacturers who advertise deliberately focus thousands of eyes upon their wares. Their values must be honest and their prices right, or they could not advertise successfully.

Don't play blind man's buff with the elusive dollar. Spend a few minutes each day running through the advertisements in this paper. Then buy the products that have proved up in the light of advertising.

Canada Faces the Future With Confidence

CANADIANS have always been noted for courage, optimism and faith in their country.

Canada was not built up by pessimists, nor will Canada continue to develop if her people allow themselves to become croakers and grouchers. Canada is fundamentally an agricultural country. We have a soil and climate which can grow the world's finest agricultural products.

Canadian farmers who have earned the capital invested in their farms out of profits in farming are numbered in thousands. These successful farmers have paid off their mortgages, stocked their barns and stables, bought their machinery, and brought up their families. It meant hard work, but today they are independent.

Money in Mixed Farming

In recent years, at different points on the prairies, oats fed to steers have brought from 70c to \$1.07 as against the Fort William price of 42c per bushel, while barley used for the same purpose has brought as high as 99c as against Fort William price of 57c per bushel. Farmers marketing their coarse grains in this way lower marketing cost, have a sure market and make money on their grain, while at the same time they market their roughage, otherwise often wasted.

The cattle embargo is now off. Steers are worth more money and certain to make good money for the Canadian farmer from now on.

Money in Pigs

The Dominion Experimental Farms have proved by actual test that there is a profit in feeding pigs. Last year at the Central Farm, Ottawa, after paying

for feed, labor, interest and depreciation, the net profit per pig was still \$4.63.

Profits from Sheep

As money-makers, sheep are hard to beat. In every Province from Prince Edward Island to British Columbia are found many flocks returning generous profits to their owners.

Poultry Pays

Poultry makes money for those who adopt modern methods, whether East or West. Little Prince Edward Island markets co-operatively in carlots, shipping annually upwards of one million dozen eggs. The British Columbia Co-operative Poultry Men's Exchange markets in the same way, thus saving ruinous glut in their local market.

Grow Seed

Canada's Northern grown seed possesses extra vitality. There is a large market for it to the south. Canada exports seed potatoes, but imports other seeds. She has the opportunity to grow seed for herself and for export.

The Future

Ten years from now the pessimists of today will have been forgotten. Britain has removed the embargo against our cattle. She wants our beef and bacon, our cheese, butter, eggs and apples, our wheat and flour. As the population of the United States increases, she will compete less and less against us on the British market. Eventually, she will herself be an importer of many other food stuffs besides wheat from this country.

Canada has the men, the climate, the land, the stock and the potential markets necessary for agricultural success. Let us farm with all the industry and science we can muster. Let's get to work and pay off our debts. Canada is moving forward with confidence in its future. Let us keep going ahead.

Gossard Corsets

TO LOOK MORE YOUTHFUL.

The modern corset doesn't aim to make us all over, so we look all alike, as the old-fashioned corset did. It doesn't aim to give us that objectionable corseted look. It just coaxes, restrains, redistributes a little — makes us longer waisted, taller and a bit more slender. It gives us that graceful ease of movement which can only come with genuine comfort.

GOSSARD TYPE CORSETRY

insures each of us looking our individual best, always. Our corsetieres can tell you some interesting things about this new beauty aid.

LIVE FISH SHIPPED ACROSS DESERT FOR 125 MILES IN SOUTH

MEXICALI, Lower California, Aug. 1. — Mullet, of which fish there are great schools in the waters of the Gulf of California below the Colorado river delta, are now being transported alive in tank trucks over the intervening 125 miles of arid desert, and reshipped from here by express to the various fish markets of the country. Sea bass, weighing from 125 to 300 pounds, and turtle tipping the scales at from 200 to 500 pounds, are to follow in their season.

Fishermen of wide experience pronounce the Gulf of California on the Lower California side the most prolific in all kinds of fish and shell fish on the entire west coast of the Pacific Ocean.

AMERICAN COLONY IN JAPAN GROWING

LONDON'S COAL FIRES MAKE CITY VERY DIRTY

Atmosphere Said to be Smokiest and Most Polluted in World — Soot Floats Overhead

LONDON, Aug. 1. — London's atmosphere is said by experts to be the smokiest and most polluted in the world. At 10 o'clock one day recently 70 tons of soot were floating about the capital. Twenty tons is an average amount for any day in June.

The smoke and soot are due largely to the fact that most homes, offices, factories, and hotels in the capital are heated by the old-fashioned coal fire, which gives off excessive smoke. The Englishman loves his open hearth too much to bother with steam heat or gas and electric appliances.

ANCIENT COINS ARE FOUND NEAR ETNA

Brass Vases and Pieces of Gold Believed to Belong to Period Before Christ

ROME, Aug. 1. — Interesting relics in the form of two large brass vases filled with pieces of gold, and believed by experts to belong to a period 300 or 400 years B.C., have, by order of the government, been removed from Ognina, which is situated at the foot of Mount Etna, to Rome.

The vases were discovered in a fissure in the ground under an old wall, after a slight earthquake, by a deaf and dumb peasant. The news of the find only reached the authorities when the peasant offered the vases for sale to collectors.
