TERRIBLE SWEEP JAPANESE EARTHQUAKE

YOKOHAMA, TOKYO AND SEVERAL OTHER CITIES ARE LITERALLY ENGULFED

EDITORIAL

MAKE THIS PORT GRAIN SHIPPING POINT.

In a few weeks the Great Lakes route for the shipment of grain from the Canadian prairies to Europe will be closed and from that time on most of the wheat will go out by way of American railways and be shipped through American ports. The railway rates per mile to those ports are lower than to the ports on the Pacific. In this way grain is forced from the Canadian to the American route.

With the shipment of any large quantity of grain to Vancouver the facilities there are blocked and it is necessary to stop routing that way.

There are two things necessary in order to make it easy for the Canadian farmer to market his grain. One is to put the Pacific coast on an equal basis with the East in the matter of rates. The other is to build an elevator at Prince Rupert and encourage the shipment of grain through this port.

We are promised an elevator in the near future and Prince Rupert people are anxious that actual work on it shall commence soon. The next step will be to back up Premier Oliver in the fight for lower rates on grain. He has championed the cause for some time and has already secured some reduction in the rates.

Very soon a grain commission will be here and they will hear evidence in regard to these matters. The Prince Rupert case must be laid before them very carefully. Should the rates appear of Premier Oliver before the Privy Council fail, it will be necessary to continue the fight and carry it into the enemy quarters. To place the matter clearly before the commission is a very important step.

JAP SENTENCED TO TWO YEARS

Nakimishi Gets Stiff Term for Wounding Ikeda Who Himself Goes Down for Two Months

Y. Nakimishi, Japanese, was sentenced to two years in New Westminster penitentiary this morning by Judge Young, having been found guilty of unlawfully wounding his countryman, K. Ikeda, who himself was sentenced to six months for unlawfully wounding Mrs. Watanabe. The trial lasted all yesterday afternoon and sentence was passed this morning. W. E. Fisher and L. W. Patmore appeared for the prosecution, the latter representing Mrs. Watanabe.

The wounding occurred recently at Cassiar cannery. Ikeda injured Mrs. Watanabe with an axe but evidence was brought to show that it was accidental. Nakimishi stabbed Ikeda.

PENNY POSTAGE IN NEW ZEALAND AGAIN

Loss of Revenue From Change Estimated at Million Dollars Yearly

WELLINGTON, Sept. 6.—Penny postage will be reintroduced into New Zealand on October 1. The upper workings with 8 per cent maximum grade, to cost \$1250.

Repairs to Bear Naas mining trail to cost \$1000 and \$700.

Repairs to Sutton River trail.

Order is now Rising out of Awful Destruction in Japan; Relief Work is well in Hand Advices Indicate

LEGISLATURE TO MEET OCTOBER 29 PREMIER ANNOUNCES

VICTORIA, Sept. 6.—B.C. Legislature will meet in annual session on Monday, October 29, Premier Oliver announces. Legislation providing for distribution of constituencies will be brought down by the Government. Other important matters will also come before the House, the Premier said, among them a revision of some of the existing statutes.

SECURE LABOR ALBERTA CROP

Fourteen Thousand Outside Helpers Have Been Employed This Year

SCHOOL BOYS WORKING

EDMONTON, Sept. 6.—So vital has become the labor question in connection with the harvesting and thrashing of the crops that school authorities are being urged by the Government to encourage high school boys to spend several weeks on the farm instead of entering school and they will be given credit for the time so spent. The provincial normal school is also closed to male students and 150 of these have taken employment on the farms for a short period.

Over fourteen thousand extra helpers have been enlisted for harvest work in Alberta this fall, most of them being employed through the Government labor bureau. The distribution of these has proved a difficult task and naturally there have been a few disappointments, but on the whole the results have been satisfactory and the crop is being fairly well taken care of. Information as to where employers are needing men is sent through the Government agencies to the cities and towns and in most cases help has been secured by this means.

ROADS AND TRAILS IN ATLIN DISTRICT

VICTORIA, Sept. 6.—Appropriations have been made by the provincial government department of mines in the Atlin district as follows:

Repairing trail to Dunwell mine, \$1,000.

New road to B.C. Silver Mines

Repaired to Bear Naas mining trail to cost \$1000 and \$700.

Repairs to Sutton River trail.

FISH PRICES WERE HIGH THIS MORNING

Seven Boats Marketed 59,000 Pounds at Halibut Exchange Today

Halibut prices were high at the Fish Exchange this morning and the Canadian schooner Ring-leader topped off the bids receiving an offer of 17.1c and 12.5c. American boats all received over 16c for first class catches. Seven boats were in with 59,000 pounds five Americans having 53,000 and two Canadians 6,000.

Arrivals and sales:

Anna J., 14,000 pounds, at 16.2c and 12.5c, and Hi Gih, 7,500 pounds, at 16c and 12c, to the Booth Fisheries Canadian Co.

Washington, 11,000 pounds and Augusta, 14,000 pounds, at 16.2c and 11.9c, to the Pacific Fisheries.

June, 6,500 pounds, at 16.2c and 11.9c, to the Atlin Fisheries.

Canadian

Ringleader, 4,000 pounds, at 17.1c and 12c, and E. Lipsett,

2,000 pounds, at 15.1c and 12c, to the Royal Fish Co.

NEW STEAMER FOR ALASKA

Suggested Name of New Vessel Will be Prince Henry: Tenders Will be Called

The Vancouver World says: "Apropos of the announcement made in Prince Rupert by F. G. Dawson, member of the board of railway commissioners, that the Canadian National Steamship Service would have a new vessel in commission next year for the Prince Rupert-Alaska service, it has been learned here that the ship will be named the Prince Henry, and will be 60 feet longer than the Princess Louise. All rooms, according to the report, are to be en suite. The new craft will be in operation in June. Swan, Hunter & Richardson of Newcastle, England, who built the present 'prince boats,' are to build the new vessel, it is understood."

Interviewed this morning in regard to the report, Mr. Dawson said when the plans and specifications were ready tenders would be invited both here and in England and all shipyards would have an opportunity to bid on the work. He doubted if the vessel could be built either here or in England in time to be put in operation by June of next year. However, no time would be lost getting the work underway.

He and his wife have been as far west as Vancouver and Prince Rupert. Rev. Mr. Ness said he had become impressed with Canada's two great needs. These were men and money. Canada needs men who will settle, he said.

One of the great troubles of the unemployment insurance scheme in the Old Country, he said, was that youths of 16, after a few months' work, were able to claim the unemployment allowance. Quite a number preferred to do that, he said, and it was producing a demoralizing effect. That was one reason why he thought migration to Canada would be much more beneficial to them.

MOSCOW, Sept. 6.—Despatches today received from Harbin and Pekin say revolutionary elements in Japan are taking advantage of the disaster to start armed uprisings in Tokio where there has been fighting in the streets.

NO CHAMPION YET IN B.C. BASEBALL SERIES

Game Last Night Resulted in Tie With Five Runs Each at Naino

NANAIMO, Sept. 6.—The second game in the British Columbia championship baseball series between the Young Liberals of Vancouver and the home team resulted in a tie when the game was called because of darkness last evening. Another game will be played to decide who is to carry off the trophy this year.

MONEY SAVED FROM FIRE IN JAPAN

OSAKA, Sept. 6.—All the money in the Bank of Japan vaults was saved from destruction by the fire which followed the earthquake and tidal wave.

RADIO STATION DAWSON CITY

Chain of Stations to be Established by Government Way of Mackenzie River

OTTAWA, Sept. 6.—Wireless communication between Dawson City and Mayo is promised by the department of defence by the end of the year. Major W. A. Steel of the Canadian Signal Corps is en route from Ottawa to Dawson City where he will erect the first wireless station and the new mining camp at Mayo will be connected up immediately.

Next year it is proposed to continue the erection of a chain of radio stations in the Mackenzie Valley connecting with Dawson station and thus give telegraphic communication from Yukon to Alberta by way of McMurray. The northernmost station of all will be at Atlinac on the Mackenzie River.

WILL URGE BRITISH MEN TO COME HERE

Rev. David Ness, British Orange Leader, Says Canada Needs Men and Money

MONTREAL, Sept. 6.—"I am going home with a much stronger resolve to recommend men and women who cannot find employment in the Old Country to migrate to Canada," said Rev. David Ness, of Glasgow, Scotland, before sailing on the S.S. Metagama for home.

Rev. Mr. Ness, who came to Canada for the July 12 celebrations of the Orange Order, is the immediate past imperial president of the Grand Orange Council of the World.

He and his wife have been as far west as Vancouver and Prince Rupert. Rev. Mr. Ness said he had become impressed with Canada's two great needs. These were men and money. Canada needs men who will settle, he said.

One of the great troubles of the unemployment insurance scheme in the Old Country, he said, was that youths of 16, after a few months' work, were able to claim the unemployment allowance. Quite a number preferred to do that, he said, and it was producing a demoralizing effect. That was one reason why he thought migration to Canada would be much more beneficial to them.

MISS HENRIKSEN TO BE CARNIVAL QUEEN

Final Returns Not Yet in but Local Girl Has Won Out It Is Conceded

The Fair Board's carnival queen contest closed last night at 10 o'clock. While returns are not all in as yet and reports from outside points are being awaited, it is conceded that Miss Adeline Henriksen, the Moose and Fishermen's candidate, is the winner and that she will be the honored young lady in connection with next week's Fair proceedings. An audit will be made before the committee announces the final result. A preliminary count was made last evening.

AUSTRALIAN KILLED JAPANESE EARTHQUAKE

MELBOURNE, Sept. 6.—The father of J. B. Hawkes, the Australian Davis cup tennis star who is now in the United States, was killed in the Japanese earthquake.

Canada Sends First Relief Ship to Japan with Foodstuffs as a Contribution from this Country

OTTAWA, Sept. 6.—The S.S. Empress of Russia leaves Vancouver for Japan today with every available cargo space filled with canned milk and flour as Canada's contribution to Japanese relief.

The Canadian Pacific Steamship removed some less urgent cargo to provide more hold space, Premier Mackenzie King informed the Japanese consul. He will increase Canada's contribution considerably if Japan will indicate what food stuffs are most required or any other form of relief preferred. Japanese advices are awaited before further steps are taken.

JAPAN IS OFFERED CONTRIBUTION FROM B.C. FOR BUILDING

VANCOUVER, Sept. 6.—Hon. T. D. Pattullo has offered the Japanese consul on behalf of the province of British Columbia a contribution of lumber for rebuilding Japan. He suggests that Japan herself should indicate the form the contribution should take.

The consul general has wired his government for instructions.

FORESTDALE RANCHER PAINFULLY INJURED

Daniel Day Run Over by Mowing Machine is in Hospital at Smithers

SMITHERS, Sept. 6.—Daniel Day, of Forestdale, was brought to the hospital in Smithers on Wednesday, suffering from bruises and internal injuries caused by being run over by a mower when his team bolted.

From the meager details available it appears that the injured man was unhitching his team preparatory to going in for dinner when the horses became frightened and dashed off tangling Mr. Day in the mower wheels. He was dragged for some distance until the machine passed over his body. In passing over one of the wheels caused a severe injury to his abdomen.

Dr. Melting, associate of Dr. Hankinson, met the victim at the station and accompanied him to the hospital in the ambulance.

RAILWAY EARNINGS INCREASE STEADILY

Good Percentage Ahead of Corresponding Period of Last Year

MONTREAL, Sept. 6.—The gross earnings of the Canadian National Railways for the week ending August 31 last were \$7,179,880, an increase of \$808,838 or thirteen per cent over the corresponding week of 1922.

The gross earnings from January 1 to August 31, 1923, have been \$159,739,065.90, an increase of \$17,575,113.51 compared with the corresponding period of 1922.

The deer and mountain goat season opens one week later, namely, September 15, and will continue until December 15. The grouse season will be open until December 15.

Local nimrods are taking their shotguns and rifles down from the summer places of storing and are oiling and shining them up in readiness for the fall shooting season.

This week-end will see the first bird hunters going forth as the season for migratory fowl including ducks, snipe, coots, plover, yellowlegs, geese and brant, opens on Saturday, September 7, continuing until December 23.

The deer and mountain goat season opens one week later, namely, September 15, and will continue until December 15. The grouse season will be open until December 15.

Good Training For Local School Boys.

At the Labor Day sports the Public School football team won a prize of \$25 donated by the Trades and Labor Council. Having the money, the next thing was to know what to do with it. With most boys the natural thing would have been to divide it up and spend it. Not so the members of the fine little team that beat the Colts. They decided to give a banquet and entertain some of their seniors who had been interested in their sports. A great spread was prepared at the St. Regis Cafe and everything was carried out in a most creditable manner.

Special attention is made of this because it marks the changing ideas of youngsters in regard to their duties and responsibilities and their attitude toward their elders. We all know that parents have to undergo a period of education at the hands of their children, but this seems to have been one of the first organized attempts on the part of schoolboys to educate their seniors. It was a great success and the Daily News extends its congratulations to the lads who made such excellent hosts on that occasion.

Good Opportunity To Own Homesite.

The present time is a good one for Prince Rupert residents to consider the question of purchasing a homesite on which to build when ready. Lots in the city can be bought at low prices just now but the prices will not always be low. This seems to be a good time to buy, before the activity begins. It seems almost certain that there will be early activity here which will tend to create a demand for real estate. Today the prices are so low that anyone may purchase who has a few dollars.

Apart altogether from the homesite idea, there are a number of people who use a part of their money for speculative purposes. They like to gamble. For these there is no better gamble today than a plunge into real estate. At present prices there is bound to be money in it and the taxes on residential property are not very high. It costs little to carry one or two lots for a few years. It is a speculation but it looks a lot better than oil stock or any of the thousand and one companies in which people put their money.

Get Ready Now For Next Year's Garden.

This is the time to make a garden. Anyone intending to grow flowers or vegetables next year should dig the land now so that it may be in good shape for planting in the spring. The autumn work of many gardens is neglected with the result that people do not get as good results as they otherwise would. Lay out the garden and get it dug over before the winter and then next summer a crop may be expected.

Rushing Relief To Japanese.

Prompt action was taken to rush relief to Japan from this coast. People south of the border lost no time in sending their first shipload of food supplies to Yokohama, and others will follow in rapid succession. This is the era of speed and when a big catastrophe makes the appeal a strong one, people lose no time in responding. It is one of the good features of modern civilization that while we are ready sometimes to spring to our guns we also are ready to come to the rescue of the needy.

Betty Compson and John Bowers in a scene from the Paramount Picture 'The Bonded Woman'. Starring tonight at the Westholme Theatre.

The Man in the Moon SAYS:-

FRANCOIS LAKE FOREST ESSAY

Written by Miss Lucilla Clarke,
Intermediate Grade,
Danskin

ONE of the latest inventions in connection with diagnosing disease is what is known as the Abrams system. By testing the vibrations of the body, the operator can tell whether a person has cancer, measles, tuberculosis or simply mental disinclination. A Canadian who was recently visiting San Francisco visited the Abrams clinic and a test was taken. The operator was amazed when he looked at the record of vibrations shown by the machine. He looked again at the patient and inquired what was his occupation. The answer was "Canadian Senator." The operator showed great relief remarking, "the machine is right. It indicates you are dead."

IF the present civilization collapses whose toes will get squeezed in the impact?

THE press found a way to bring the Irish to time. The newspaper representatives were dissatisfied at the accommodation provided for them in the Irish Dail. They all closed their notebooks and refused to reopen them until their demands were conceded. Now they are given everything they ask.

DOWN in Michigan a dancer must not look into his partner's eyes. What is the good of dancing in Michigan anyway?

IN Illinois mosquitoes have forced the stores to close. But then, who would live in Illinois if they could live in a civilized country?

BETWEEN the Fascisti, the socialists, the Ku Klux Klanners, Society Blue Rum artists and the Progressives the poor old world is in an awful mess. Why not invent another political nostrum right here and label it Bupertitis.

NOW that the schools have reopened and the children will get back to work, what about the grownups also doing a little now and then for a change?

IF man goes to see his girl in a tall silk hat, it may be referred to as his spark plug.

SUPPOSE a girl's figure is not prepossessing, it helps if her figure is all right at the bank.

YOU can't tell a typewriter by the ribbons.

IF you take things seriously you are likely to land in the Vickers' Hostelry.

WE all believe in home rule, but when it comes to settling who is to be the home ruler, there is only one answer. She is.

JUDGING from results it seems clear that some people can learn to love anything.

HERE lies the poorest prig in town. He died without a quiver. He always said how good he was. Then something clogged his liver.

A FAILURE is a man who is always grousing at the successful.

WHEN Jiggs said Adam discovered the talking machine, he wondered why Maggie threw things at him.

PREPARATIONS FOR BETTER BABY SHOW OPENING TOMORROW

Preparations are being made today for the better babies contest which opens tomorrow morning in the vacant store opposite the Great War Veterans Association headquarters. The place is being put in good shape. A stove has been installed and everything possible is being done to make the future citizens of Prince Rupert comfortable.

The cups both for that contest and for others are being displayed in the windows of the store and they make a fine showing.

Why not subscribe for the Daily News and have it sent to your home regularly?

Musical Director, H. Aubrey-Pryce, professor and teacher in the art of violin and piano playing.

Fall Term begins Tuesday, September 4. Pupils may now be enrolled for the season.

Senior Orchestra Practice — Tuesday evenings, 7.30 o'clock.

Junior Orchestra Practice — Friday evenings, 7.00 o'clock. For terms, etc., Phone 674.

Ten Years Ago in Prince Rupert

September 6, 1913.

The Vancouver Sun editorially urges Vancouver business men to get busy after the trade that will develop in Northern B.C. with the linking up of steel on the Grand Trunk Pacific Railway.

A. Götter, assistant to C. H. Nicholson, manager of the G.T.P. coast steamships, arrived from Vancouver on the Prince Rupert this morning.

We would feel very indignant were some one to enter our house and destroy our effects. We certainly would try to stop them from damaging our goods and if we were not able to do so ourselves we would secure help from our neighbors if possible.

Protection Necessary

This is exactly the situation in the case of protection of our forests. Since our fathers and brothers directly or indirectly, earn their living through work in connection with timber or lumbering it rests with us to do all in our power to protect and help others to protect the green belts around us.

Our teacher explained to us the uses to which lumber is put. We now thoroughly understand the value of this timber and the effect that its destruction would have to our province and we have agreed in our school to do everything that lies in our power towards the protection of the forests.

If the Forestry department were to prepare a small booklet for use in our schools showing the value of our timber and the uses to which it is applied and giving an idea of the amount of timber in trees of certain size, I believe it would help the boys and girls in our schools and eventually help in the protection of our forests for the school children of today will be the grown-ups of tomorrow.

The commercial classes will open next Monday and the music classes also about that time.

PORTUGUESE PRESIDENT IS FRIEND OF ENGLAND

Gomes Lived in That Country
Twelve Years in Diplomatic Capacity

LONDON, Sept. 6.—The Portuguese minister, Senhor Teixeira Gomes, who has unexpectedly become president of the republic, is an old-established member of the Diplomatic Corps. He has been in London for twelve years, and is a firm friend of England.

In his own country Senhor Gomes is well known as an author. He has written novels, travel-books, and plays. He is the grandson of an officer who fought in the French army at Waterloo. In Portugal the president plays by custom an important part in the direction of the foreign policy of the country. It is of some importance that the new president is a man who has been an old and active friend of this country. His influence with his government counted for a good deal in bringing Portugal actively into the war on the British side.

LICENSE FEES ARE DOUBLED IN VICTORIA

VICTORIA, Sept. 6.—New and increased business license fees here are increasing city license revenue nearly 100 per cent.

Operation of the new license schedule so far indicates that it will raise about \$66,000 in the last half of the year. This, in addition to the \$33,000 collected during the first half of the year, will make the total license revenue about \$100,000. In framing its annual budget, the city council estimated only \$82,500 for license revenue for the year. The probable surplus of something like \$20,000 will all be needed before the end of the year, however, according to city officials.

Last year's total revenue from business licenses was \$67,343, or just about what the present license schedule will raise in the last half of this year.

Next year, under the present license schedule, the total revenue will be over \$120,000, almost twice the revenue of last year. City officials believe that the present schedule is capable of raising \$125,000 a year.

GERMANS SEND 40,000 BOOKS TO MOSCOW

LEIPZIG, Sept. 6.—German publishers have sent more than 40,000 books for exhibition at the exposition which the Soviet government is holding in Moscow this fall. Two members of the society for book exportation have accompanied the exhibit to Russia, and will supervise the arrangement in such a manner that the books will give a definite idea of the historical development of Germany's publishing business.

David Thomson, who broke his leg some weeks ago, left the hospital for home today.

J. L. Mitchell of the firm of Stewart & Mobley had a bad turn last week but is reported today to be recovering.

Andrew Pavlakes, who injured his foot in an accident at the dry dock last Saturday morning, will not be able to get around for some considerable time. A bone in his left foot was broken and the member was crushed considerably.

William Ralph, advertising manager for W. H. Malkin & Co., Vancouver wholesale grocers, arrived from the south yesterday afternoon. He will be here for a week and will put on an attractive commercial display for his firm at the Fair next week.

BRINGING UP FATHER

By George McManus

BARBECUE WAS GREAT AFFAIR

**Fred Stork, M.P., Says it Was the
Best Yet in Every Respect—
Horses Par Excellence**

**JACK MCNEILL'S
NARROW ESCAPE**

**Two Million Ties to be Cut in In-
terior This Winter Is Good
News**

The annual Bulkley Valley barbecue held at Telkwa last Monday in every respect was the best yet according to Fred Stork, M.P., who returned to the city last night after opening and attending the event. The crowd in attendance, which must have numbered 1,000, came from all parts of the interior from west of Hazelton to the Lakes district. Some 20 or so Prince Rupert citizens were there. The attendance was larger than ever, arrangements were better and there were several new features. The weather was fine.

"The Bulkley Valley has good reason to be proud of its horses as displayed at the Telkwa barbecue," declared Mr. Stork. "Many splendid animals were assembled in the races and on the grounds. Nothing in all Western Canada could beat them, I should say."

Mr. Stork left for the interior Saturday evening and visited Burns Lake and Smithers beside Telkwa. The announcement that 2,000,000 ties—half a million more than last year—are to be cut this winter between Prince George and Terrace for the G.N.R. is being well received, Mr. Stork says.

Other local people who attended the barbecue were George Woodland, A. A. Eason, Sam Antonis, Mr. and Mrs. William Millar, A. Tyson, E. Hutchinson, Mrs. Ross, Miss Elizabeth Ross, Johnny Wilson and Mr. and Mrs. Olof Hanson.

The big day was marred by no untoward accidents although Jack McNeill, the prominent Telkwa business man, had a narrow escape from being injured. During the bucking contest, one of the spirited animals got beyond the control of his rider and bolted towards the crowd which speedily dispersed. Mr. McNeill stumbled and fell and the horse passed right over him. Fortunately, he was not injured and the people were able to laugh over an incident which might have been attended with a serious result.

**FRED STORK ACCEPTS
INVITATION TO OPEN
FALL FAIR NEXT WEEK**

Fred Stork, M.P., notified C. H. Orme, president of the Northern B.C. Agricultural & Industrial Association, this morning of his acceptance of the invitation to formally open the eleventh annual Prince Rupert Exhibition next Tuesday afternoon.

Miss Violet Cameron of the C.N.R. ticket office left on last night's train for her old home, Sydney, N.B., where she will spend a three months' vacation. During her absence, Miss Clara Orchard is relieving in the ticket office.

HYDROPLANE CANNOT FLY

**Hazelton Has Been Unable to
Take off From its Interior
Drome This Year**

The Railway Employees' Industrial & Investment Association's hydroplane Hazelton has not made a flight since it took off from here on its return to Hazelton last fall. Several attempts have been made to take to the air this summer but without avail.

It appears that the motor of the Hazelton was taken apart here last fall but was not assembled properly. The machine was able to take off from the harbor here but, since its return to Hazelton, has not been able to develop sufficient power to rise from its limited length of water there. It is said that it is an easier matter to rise off the salt water than the fresh because of the greater buoyancy of the former.

The Hazelton will have to have some expert attention before she will fly again. Considerable business has been offering for it in the interior this year but it has been unable to handle it.

The Hazelton will have to have some expert attention before she will fly again. Considerable business has been offering for it in the interior this year but it has been unable to handle it.

**OVER HUNDRED
NEW PUPILS**

**Registration to Date in Public
Schools is 336 With 24 More
Expected**

Eighty-nine new pupils have entered school since the holidays and 24 have come from outside points making a total of 113 new pupils in all. Nine of these are at Seal Cove.

The total enrolment to date in the public schools, exclusive of the High School and Catholic schools is 636 of which 50 are at Seal Cove. There are also 24 pupils expected to return to school within a few days.

The teachers are located as follows:

Booth School—D. H. Hartness, vice-principal; Miss Mercer, A. R. Lane, Misses Stone, Rothwell Mitchell, Mrs. Walker, Misses Marsh, Lindsay and Gladwell.

Borden Street—Miss Mills, vice-principal; James Mitchell, Misses Louden, Sims, McLeod, Hibbard and Scott.

Seal Cove—Misses Stewart and Donaldson, vice-principal.

PORTLAND CANAL MINING AREA

Engineer Tells People of Toronto About Stewart and Surrounding Country

The Portland Canal area of British Columbia is declared by R. B. Lamb, well known mining engineer, to be the most important mining area to open up since the discovery of Northern Ontario, in an interview given the Financial Post, Toronto. Mr. Lamb along with a number of other eastern men, has just returned from a close study of the district. Aside from the wonderfully rich ore which is being mined and the promising outlook for the many operations in the area, Mr. Lamb incidentally called attention to one interesting fact. It is that the boundary between British Columbia and Alaska, with its turning and winding some distance north of Stewart, does so in a manner that leaves the large bulk of the promising mining prospects on Canadian territory. From what Mr. Lamb states there is every indication that in a few years the area will be able to boast of several important operations.

At this season of the year, when bowel troubles are so prevalent, we would advise the precaution of always having on hand a bottle of Dr. Fowler's Extract of Wild Strawberry so that you will be ready for any and all emergencies. You will find that a few doses of this valuable remedy, taken promptly, will be the means of preventing a great deal of unnecessary suffering, and many a time save life.

Mrs. W. M. Judd, 174 Catherine St. S., Hamilton, Ont., writes: "Last summer I had a very bad attack of summer complaint, cramps and diarrhoea. I tried many different remedies, but they did not seem to help me. I heard of Dr. Fowler's Extract of Wild Strawberry, so decided I would try it. I only took a few doses, and in a short time I was better."

Price 50¢ a bottle; put up by The T. M. Burn Co., Limited, Toronto, Ont.

two track electric train in its tunnel. Its mill is now 200 tons capacity but plans of the company are to increase this to 500 tons. About 200 tons of high grade and concentrated are taken out daily over a 14 mile aerial tram to Stewart and are shipped to Tacoma and Granby. The Indian has 35 men at work. Mr. Lamb says it is developing into a base metal mine, zinc and lead rather than gold and silver. B.C. Silver and Seluecke are two important developments. Then there are the Alaska, Premier Extension, Virginia, Alaska Premier and further north the Big Missouri and still further the Forty-Nine. The latter Mr. Lamb stated has probably the best outcroppings of the area. It is located between Salmon Glacier and Mt. Dillworth.

Marmot River

The Marmot district and Georgia River section have promising prospects. In the latter the gold veins in evidence are of the fissure type, heavy in iron. Geological conditions are entirely different from the Premier area where the mineralized zones are near the contact of porphyry dykes. The enrichment occurs through replacement and the secondary enrichment by downward circulating waters.

The area of Northern British Columbia presents attractive possibilities for new mines, said Mr. Lamb. Some will be slow in reaching production because of the short season and the distance from the coast line. However, the relatively high grades of some of the properties will no doubt cause transportation to penetrate and this will help the others.

Mr. Lamb expressed the opinion that the Reno Conference on silver which will be attended by the leaders of the industry, will be a beneficial influence on silver production in the United States and Canada.

SUMMER COMPLAINT Cramps and Diarrhoea

There is no other kind of disease that comes on so quickly and with so little warning as an attack of bowel trouble. One may retire at night, in the best of health, and before morning be awakened by terrific cramps and pains in the stomach followed by diarrhea, dysentery, summer complaint or bowel trouble in one form or another.

At this season of the year, when bowel troubles are so prevalent, we would advise the precaution of always having on hand a bottle of Dr. Fowler's Extract of Wild Strawberry so that you will be ready for any and all emergencies. You will find that a few doses of this valuable remedy, taken promptly, will be the means of preventing a great deal of unnecessary suffering, and many a time save life.

Andy Lindberg, who has been suffering for several weeks in Vancouver from an attack of paralysis, is reported to be gradually recovering.

Miss Elizabeth Pitt, daughter of Mr. and Mrs. Dale Pitt, has gone to Prince Rupert to enter St. Joseph's Academy. She was accompanied south by her mother.

STEWART

H. C. Magee has built a stone house at the Aberdeen mine in the Marmot River valley. It will be used as a permanent camp.

Flood waters have done considerable damage in the Salmon and Bear River valleys. Two bridges have been washed out on the Salmon River road which is practically impassable for traffic. The Bear River bridge is unsafe and part of the west end of town is inundated.

Andy Lindberg, who has been suffering for several weeks in Vancouver from an attack of paralysis, is reported to be gradually recovering.

Miss Elizabeth Pitt, daughter of Mr. and Mrs. Dale Pitt, has gone to Prince Rupert to enter St. Joseph's Academy. She was accompanied south by her mother.

BURNS LAKE

Mr. and Mrs. Eber Twadell left last week for the prairies where they will spend three months.

P. V. Fallon, station agent, is spending a two weeks' vacation visiting various points in the Lakes district.

Miss Daniels, formerly teacher at Tschesinkut Lake, is this year teaching at Smithers.

A Liberal Association has been organized at Burns Lake with the following officers: Honorary President, Hon. W. L. Mackenzie King; Honorary Vice Presidents, Hon. John Oliver, Fred Stork, M.P. and Hon. A. M. Manson; president, Alex. A. Connon; vice-president, A. M. Ruddy; secretary-treasurer, G. B. Robb; executive, A. A. Connon, A. M. Ruddy, G. B. Robb, Fay S. Short and D. M. Gerow.

Marmot River

The Marmot district and Georgia River section have promising prospects. In the latter the gold veins in evidence are of the fissure type, heavy in iron. Geological conditions are entirely different from the Premier area where the mineralized zones are near the contact of porphyry dykes. The enrichment occurs through replacement and the secondary enrichment by downward circulating waters.

The area of Northern British Columbia presents attractive possibilities for new mines, said Mr. Lamb. Some will be slow in reaching production because of the short season and the distance from the coast line. However, the relatively high grades of some of the properties will no doubt cause transportation to penetrate and this will help the others.

Mr. Lamb expressed the opinion that the Reno Conference on silver which will be attended by the leaders of the industry, will be a beneficial influence on silver production in the United States and Canada.

Dated at the City of Prince Rupert, this 24th day of August, 1923.

E. F. JONES, Esq., for the applicants, Municipality of the City of Prince Rupert.

H. F. MACLEOD, Registrar of Titles.
