JAPANESE SHIPPING MAN VISITING CITY

GENERAL McRAE STATES HIS CASE HERE TO SMALL AUDIENCE LAST NIGHT

Japanese Shipping Man Declares That Prince Rupert Should Get Large Share of Pacific Business

"There are unlimited natural resources tributary to this city, there is a good harbor here and a good hinterland back of the port and there seems to me to be no reason why large volumes of shipping should not go through Prince Rupert if provision is made for handling it along business lines."

This is the opinion of Y. Sato, Tokyo, Japan, an official of the passenger department of the Nippon Yusen Kaisha Co., Japan's greatest merchant marine company, who is visiting Prince Rupert in the course of a tour of America to investigate particularly passenger carrying possibilities. Mr. Sato, while explaining that his mission is in the interests of the company, says it is also in the nature of a holiday. He is making a personal investigation here and no particular significance is attached to it.

ASK HARDING LIQUOR BOND

Board Will Lay Case Before President of U.S. When He Goes to Vancouver

VICTORIA, July 21.—The contention of British Columbia interests that liquor should be allowed to be shipped into the United States for medicinal purposes and that it should therefore be permissible to handle liquor in transit across United States territory between British Columbia and the Yukon, the latter of which had been forced into involuntary prohibition as a result of the Alaska dry law.

The board's argument will be that large quantities of Chinese liquor are being shipped into the United States for medicinal purposes and that it should therefore be permissible to handle liquor in transit across United States territory between British Columbia and the Yukon, the latter of which had been forced into involuntary prohibition as a result of the Alaska dry law.

HALF BILLION WHEAT CROP

Sir Henry Thornton Says Will be Half Billion Dollars Added Wealth

WINNIPEG, July 21.—A five hundred million wheat crop with the yield of other grain proportionately high was the prediction made by Sir Henry Thornton today on his arrival from the West. It is expected this result will be obtained unless some unforeseen disaster occurs within the next few weeks. It would mean nearly half a billion dollars of added wealth, when all farm produce is considered, to flow into legitimate trade channels.

While here Sir Henry will confer with officials regarding the feasibility of issuing bonds for branch line construction.

STORM SWEEP PART PRAIRIE

One Man Killed and Buildings Demolished by Hurricane With Mail

REGINA, July 21.—Neil McLennan, a farmer of Harpree near Bengough, was killed and several buildings were razed to the ground, hundreds of acres of crops were damaged and machinery and implements blown about by a hurricane accompanied by a hailstorm which swept over Bengough, Viceroy, Ceylon and Harpree districts, according to meagre details received here.

VILLA KILLED AND SECRETARY

Caught in Ambuscade by Half Dozen Assassins Three of Whom Captured

MEXICO, CITY, July 21.—Official reports state that General Villa, his chief of staff, Colonel Miguel Trillo and three members of Villa's escort were assassinated in an ambuscade on the outskirts of Parral.

About half a dozen men comprised the band of assassins, three of whom have been captured. Villa's party was in an automobile.

First reports received that the famous bandit leader was killed by Trillo proved to be erroneous.

ORE BODY IS DISCOVERED BEAR RIVER

Dunwell Mine Shows Ten Feet Solid Carrying Good Values

STEWART, B.C., July 21.—The north and south vein encountered at 280 feet in the Number Two tunnel of the Dunwell mine on Glacier Creek, Bear River, has been crosscut for seventy feet, the last ten feet being in solid ore carrying good values in gold, silver and lead.

The finding of the body of ore in this mine has caused a good deal of excitement here and will give encouragement to other owners of properties to continue development. Being on Bear River and only a few miles from here, the town will benefit much more than from the development of the properties on the Salmon River.

Work is proceeding on a number of other properties and the revival of interest in Bear River is one of the hopeful signs of the Portland Canal mining development.

ALASKA SALMON ARRIVES HERE

First Shipment of Year For East via G.N.R. Came in Yesterday—1100 Cases

The first shipment of canned salmon to arrive here this season from Alaska for delivery to the Eastern States via the Canadian National Railways was brought in yesterday afternoon from Ketchikan by the motorship F. C. Barnes, Capt. A. B. Johnson. The shipment consisted of over 1100 cases and was unloaded at No. 3 G.T.P. wharf. The Barnes arrived at 3 in the afternoon and sailed in the evening on her return to Ketchikan. She is expected back in a couple of days with another similar cargo.

Three members of Swedish royalty on a visit to London. Left to right, Duke of Vasterbotton, the Duke of Uppland, and the Swedish Crown Prince.

General McRae Gives Address on Issues of Day, Empress Theatre

The public meeting called by General A. D. McRae and at which General McRae and B. G. Stewart were the speakers under the chairmanship of T. Ross Mackay last night in the Empress Theatre, was little different from any other political meeting. General McRae, who is the temporary leader of the Provincial Party which he is trying to form and for which he is asking support, slated the other two parties and especially the Liberals for their extravagance in public expenditures. From a constructive point of view he urged the encouragement of the pulp business with a view to making it easier for big money men to invest in the pulp and paper business, advocating legislation similar to that in Ontario and Quebec. He also urged good treatment for the prospector and for mining generally. By encouraging the establishment of industries, the farmer would be helped by providing a market for him.

The meeting was not well attended but those present showed great interest in the proceedings and on several occasions applauded heartily.

In opening, General McRae explained that it was not the intention to get mixed up in local difficulties. The party was sticking close to its own business. "I had its own job to do. He had spent a quarter of a century in the battle of business and was not qualified to deliver the usual political speech. The job as leader and organizer of the party had been forced on him as a public duty. The present work was of a temporary character and he was not enamoured of the political job. Until a few months ago he had been an innocent bystander in politics. He was no stranger to Prince Rupert having been here in 1909. The wonderful improvements made since that time indicated the splendid character of the people who lived here. He had expected it would never be more than a Klondike town.

"Governments can put cities on the map, but only commerce can keep them there," said the General. "We must carry on our efforts along sound business (continued on page two)

BOOTH SCHOOL BYLAW APPROVED AT VICTORIA

Word was received at the City Hall this morning that the Booth School bylaw as well as the bridge bylaw had been approved by the inspector of municipalities.

LUMBER RATE IS REDUCED

Special Tariff on Hemlock For John Macdonald of Toronto Export From This Port Made by Railway Charged With Seditious Utterance

ASSOCIATION NOTIFIED
Concessions Made as Result of Recent Visit of Officials to Port

When the railway officials here were recently the Northern B.C. Timbermen's Association asked among other things for by ex-Mayor A. C. MacCormick concessions in local export tariff on the railway with a view to encouraging the export lumber business from this port. This came with their damn flag and has been granted by the railway take you."

Macdonald last year took to Macdonald from District 26 application for admission to the Red In this effect has been received by E. F. Doby, president of the association, as follows:

"Referring to my conversation with yourself and other members of your association when in miners will align themselves on Prince Rupert recently, also your application to our president, Sir Henry Thornton, for a reduction in the export rate on lumber from Amsbury, Terrace, U.S. and Hanall.

"In my discussion with you, you will remember, the argument advanced by the lumbermen was that the timber being shipped for export consisting of hemlock, weighed considerably more per thousand feet than did fir or spruce. Your members also expressed willingness, if some reduction could be made in the rate, to have us establish the carrying capacity of the car but not less than 60,000 lbs. as the minimum weight. It was stated by the members of your association that the timber could be loaded to this weight.

"The matter is one to which we have given very careful consideration. We are particularly anxious to develop the lumber industry in the territory mentioned and have decided to publish rates on square hemlock timber to Prince Rupert for export, subject to the minimum weight per car as mentioned above on the following basis:

"From Amsbury and Terrace, 11 cents per 100 lbs.
"From U.S., 12 cents.
"From Hanall, 13 cents.
"This adjustment we feel should be entirely satisfactory to the members of your association. "The rates are being published in the tariff immediately and will become effective on the 23rd instant."

SIR JAMES CRAIG MAY RESIGN OFFICE PREMIER OF ULSTER

BELFAST, July 21.—It is rumored that Sir James Craig will resign as premier of Ulster, says the Irish News. The report is based on the absence of the Premier from Belfast during last week for the Orange demonstration.

The Belfast News says Sir James' name has been associated with the coming appointment to the Colonial Governorship.

Report Denied
BELFAST, July 21. (noon).—Sir James Craig declared this afternoon that the report that he contemplated resigning to take the Colonial appointment was a malicious falsehood.

C.N.R. steamer Prince John, Capt. Harry Nodden, is due early Monday morning from Vancouver and Queen Charlotte Island points.

MEN'S LEADER IS ARRESTED

John Macdonald of Toronto Charged With Seditious Utterance

DELEGATE TO MOSCOW

SYDNEY, N.S., July 21.—John Macdonald, Toronto representative of the workers party of Canada, was arrested at Glace Bay where he recently the Northern B.C. Timbermen's Association. The information was laid against him by ex-Mayor A. C. MacCormick of Sydney who alleged Macdonald in a speech said, supposedly encouraging the export lumber business from this port. This came with their damn flag and has been granted by the railway take you."

Macdonald last year took to Macdonald from District 26 application for admission to the Red In this effect has been received by E. F. Doby, president of the association, as follows:

"Referring to my conversation with yourself and other members of your association when in miners will align themselves on Prince Rupert recently, also your application to our president, Sir Henry Thornton, for a reduction in the export rate on lumber from Amsbury, Terrace, U.S. and Hanall.

BRITISH NOTE NOT PUBLISHED

Is Sent to France and Belgium and Negotiations Will Commence Next Week

LONDON, July 21.—The British note in reply to the British reparations communication has been delivered to the allied ambassadors and all members of the British cabinet despatched to the country for the week end. It is understood the French cabinet meets tomorrow.

PARIS, July 21.—The British note on reparations was received at the foreign office today but knowledge of the contents is limited to a small group of officials, each of whom is in honor bound to keep the information to himself until the British government agrees to its publication.

Actual negotiations among the allies will be begun next week as soon as the French and Belgian premiers have had time to discuss the note with their respective cabinets.

STRIKE AND LOCKOUT CAUSE DISORDERS AT BRESLAU IN GERMANY

BERLIN, July 21.—Serious disorders occurring in Breslau, the Governor of Silesia has proclaimed severe exceptional conditions in the town and district. Indoor meetings have been forbidden, hundreds have been arrested and several plunderers killed. All the metal works in the Breslau and Ratibor districts are at a standstill as a result of the strike and lockout.

Is A Golf Links Possible Here?

H. S. Wallace of Vancouver and formerly of this city, who is in the city, gives it as his opinion that it might be quite possible to construct a golf course in this city either on Montreal Heights, in Section Three, or at some other nearby location.

It does not seem probable that the whole cleared townsite will be needed for residential purposes for a number of years and in the meantime it might well be used as a golf course. It would have to be drained to some extent and greens made, but the result would well repay for the trouble and expense involved.

Mr. Wallace points out that throughout this country and the United States and Britain a golf course is being looked upon as necessary to a town this size. It is the greatest possible attraction for tourists and along with the promised Canadian National hotel would place this city on the tourist route as a stopping off place. While an eighteen hole course is desirable, nine holes would serve the purpose and this would give a most attractive feature.

It was further mentioned that golf is no longer looked upon as a game for the rich or the old. It is a game for democracy. Looked at commercially it would be the greatest attraction Prince Rupert could offer to people travelling this far north.

Many Will Regret Death of Villa.

The death of Francisco Villa will be regretted by many who admire a daring bandit of any kind in any country. For a long time he defied his opponents in Mexico and also the government of the United States, and when Pershing went out to pursue him he made that noted general look anything but dignified.

Villa is a type of a passing age, a man who could only spring to prominence under conditions such as have existed in Mexico for a number of years past. He has gone the way of most Mexican leaders.

General McRae Seems Sincere.

Whatever may be said against General McRae, leader of the provincial party, he at any rate seems sincere. The difficulty is that he is trying to reconcile two opposite lines of policy. On the one hand he is out for ruthlessly cutting down expenditures, and on the other hand he would offer inducements to capitalists to come in and start pulp and paper industries, would encourage prospectors, would remove the tax from mining until the capital invested had been returned, and would give Northern British Columbia larger appropriations. Just how he would do all this he does not tell.

He says there are three men to one job in the government service. It might be well to ask the civil servants here if that is true. Complaints have come to us that the staffs in some departments here are overworked and that instead of cutting down there should be increases in the staff in order to cope with the work. There are also complaints from time to time that the men and women in the service are underpaid. Yet General McRae would "ruthlessly prune" these still more.

Again complaints have sometimes been made that the department of lands under Hon. T. D. Pattullo has made too many concessions to pulp and paper companies already. Yet General McRae would go further and give them more inducements than those already offered. If on the one hand he is going to hand out the income of the province to the big capitalists and on the other cut down expenditures by ruthlessly pruning the civil service, then he will have to explain a lot more fully before we are with him.

Like other politicians, the General knocks his opponents, cries "wolf, wolf," says everybody is wrong but himself, carefully refrains from detail in connection with any proposals he makes, and panders to local prejudices. His visit is further proof to us that the name of a party does not count but that all politicians are alike in many respects only some are worse than others and of course some are better.

NABOB TEA

KELLY DOUGLAS & CO. LTD.

GENERAL McRAE GIVES ADDRESS ON ISSUES OF DAY, EMPRESS THEATRE

(continued from page one)

lines. Cities like individuals must walk before they can run."

Cost of Government

Taking up the address of Hon. A. M. Manson who was here recently and who had referred specifically to him, General McRae said it was difficult to answer the challenge of the Attorney General to say where reductions in expenditures could be made because the facts and figures were not available in detail. The Government was a large corporation in which the people where the shareholders and they should issue a statement each year showing what they were doing with the money. The revenue and expenditure statement issued he could not understand, he had to get one or two chartered accountants to compile figures for him. Mr. Manson admitted he did not know how much they had spent but, according to his figures, there had been \$108,770,000. The money had eventually to be paid by the consumer for the manufacturer of an article added the taxes to the price and this was passed on to the wholesaler and retailer until the consumer paid the bill. This caused the high cost of living.

Fifteen years ago there was as much cash in the bank as debentures outstanding. Today the debt of the province was \$87,000,000 and it would be \$100,000,000 before the present legislative term expired. This to a family of five was a mortgage of \$1,000 and the interest and sinking fund on it had to be paid. Mr. Manson and John Hart prided themselves on keeping their sinking fund intact but they had to borrow money to provide it. Mr. Pattullo said the people of the province were a great and wonderful people. This was true for if they were not they would not be able to lug the load.

Wants Investigation

General McRae quoted a lot more figures and stated that in the B.C. Government service it took three men to do the job of one. He characterized the Department of Industries as "one of the worst scandals of the present day," and asked that a reputable firm of chartered accountants go into it and he would pay the expense of the audit and also the cost of advertising the result. He did not think this could be refused.

Giving credit for the Mothers' Pensions as legislation of which the Government might well be proud, the speaker asked why they should suggest it be cut out. He thought however, the act might be stiffened so as not to carry the obligations belonging to other provinces. They did not want to take care of their own responsibilities.

Liquor Business

The General then dealt with the liquor traffic and the statement of the Attorney General that he was going to get the export liquor houses. It was surprising to him that he had not got them long ago. He told of liquor warehouses in the interior of the province which paid a license of \$10,000 to the province and exported the liquor in Cadillac cars. No proper check, he claimed was made to see that the liquor got out of the country, but was sold by bootleggers in the Kootenay and some of it was brought back to Vancouver. His friends in Vancouver now bought their liquor from bootleggers instead of from the Government liquor stores because they could get it for a dollar a bottle cheaper. If Manson wanted to get them he thought he could do so. He did not see why the Federal Government allowed it to go on.

The more he saw of the administration of the province, the more he was impressed with its business inefficiency, declared the speaker. He did not believe they got more than 40 per cent efficiency. All communities which he had visited said they were not getting their due. He suggested that sixty million dollars had been thrown away.

Irrigation and Reclamation

General Stewart then took up the matter of Mr. Pattullo's irrigation and reclamation policy and criticized it in some detail claiming it would show a big loss. No one was pleased with the development schemes. He did not think money should have been spent that way when there was unoccupied land in central British Columbia on which the

AN INTERVIEW WITH PROMINENT THEATRICAL MAN

W. J. MALCOMB

Famous Character Man of the Old School.

JO-TO COMPANY:

Under God, Jo-To saved my life. Why, man, I had suffered tortures from stomach trouble for thirty years. I had five X-Ray examinations made of my stomach and three doctors told me I had ulcers there that would finish me. For two years and eight months I never did a tap of work and what I suffered no one will ever know. During this period my wife and I lived on \$350 and the generous assistance given us by the Elks, of which lodge I am a member. I fell away in weight from 263 pounds to 130. Just think of that for a man of more than average height. Why, man, I was dying, and was in a condition that I did not care how soon it happened.

Then I happened to try Jo-To. I was in such agony that I would have taken anything, and you can fancy how happy I was when I found that Jo-To relieved me. I took the first box and as I continued to improve I took four more before I was back to the normal. Now look at me! I weigh 180 pounds and feel like a boy. Why, the benefit to my nerves was wonderful. It used to be that I would feel like screaming if I heard a scratching sound, but when you came in, I was filing a thin piece of steel to make a key, and the rasping did not bother me a bit. Let me tell you something else. My head is now so clear and I feel so active that my earning capacity is wonderfully increased. In addition to my regular work here I carry out little plans on the side that have added materially to my income. In short, instead of dying I am alive in every sense of the word.

Go ahead and tell the world about Jo-To. Tell them I have so much faith I would stake my life on its efficacy, for Jo-To saved my life as sure as God is in heaven. Anybody that doubts this can only write me or come and see me, and I will convince them that it is the truth. The farther you can spread the story the better it will be for mankind.

W. J. MALCOMB

Jo-To quickly and harmlessly relieves all stomach distress and suffering such as gas, acid, sour stomach (heartburn), bloating, and all after eating distress. Guaranteed absolutely harmless. Sold at all drug stores.

Lord put water and it was not necessary to take any off. If the money had been spent along the line of the G.T.P. what would this have meant?

However, the situation was not hopeless. The Provincial Party was pledged to develop industry and agriculture. In the north there were two partially developed industries, timber and mines. Lumber business had been profitable during the past six months owing to the development of the Panama Canal route.

Concessions to Capital

In the north were the best pulp reserves in North America. Mr. Pattullo said they had been figuring with seven syndicates but he was tired of this development in the press. He wanted to see the men on the ground. While there had been great activity in the industry there was not one new plant. Pattullo had not been frank. He knew that the facts were the Oliver Government was afraid to deal with the situation courageously. No financier would put five or ten million dollars into the business under the present basis. To get into the business at least thirty years supply of lumber must be assured and no company could pay the license fees in addition to the stumpage. In Ontario and Quebec they had legislation to encourage the pulp and paper business. Similar legislation must be adopted here in order to give it stability.

Royalty on timber was based on the selling price of timber. The stumpage was high because lumber prices were high and there would be advances in future. Legislation should have been passed five years ago. Pulp industries would not be started until there was this definite legislation.

Mining

Turning to the mining indus-

try, the speaker spoke of complaints made regarding taxation. Minerals in the hills were of no value. It was only when they were dug that they had value. The money was spent in supplies and machinery. The miner should be allowed to get his capital back before the Government went after him for income tax. He would also encourage the prospector. What, he asked, would become of the province if they did not encourage the prospector to go into the hills. Development of the industries would provide a market for the produce of the farms.

There was a feeling in the north that Vancouver was not concerned about them. The people of Vancouver were deeply concerned, however, at the financial burden to be borne. For increased development they were looking to the interior of British Columbia. Lack of information in regard to that part of the province was due, he claimed, to the failure of the members. While they boasted the district they did not tell about the problems of marketing, roads and other difficulties.

Restricted Viewpoint

General Stewart then stated the people of Prince Rupert as being restricted in their viewpoint. In Vancouver they were educated to the fact that their success was due to the success of agriculture. The district from here to Prince George belonged to Prince Rupert and he asked how much time they had given to developing it. Active support was necessary to help them work out their problems. He thought the north was much neglected. Ministers were making good fellows of themselves in the south and losing out at home. There were at present two ministers in Prince Rupert but the Provincial Party would not promise them that many. The question of expenditure in the north should be settled. He thought southern B.C. would support any reasonable policy. He intended to state in Vancouver what he had said here. If the present members had not the nerve, he would do it.

Brass Tacks

Concluding the General said this was a real country, but they must get down to brass tacks, and pull together as a unit. He asked if they wanted five years more of Liberal Government.

A voice: "Ontario has gone back."

General McRae: "Yes, Ontario has gone back because the one turned out was worse than the one in before. They spent more money. It was a class movement."

Money and men must be got in and they could not do this unless they got rid of the government at Victoria. There must be good men to represent them. There must be ruthless cutting down of expenditures and running the Government on business principles in order to succeed. He was not out after votes but he found that eighty per cent of the people were sick of the old parties.

The speakers were introduced by Chairman Ross McKay and the first speaker, Mr. Stewart, gave an interesting resume of the founding of the Provincial Party and its objects.

NOTICE TO CONTRACTORS.

ANYX GOVERNMENT BUILDINGS.

SEALED TENDERS, superscribed "Tender for Anyx Government Buildings," will be received by the Honourable the Minister of Public Works up to 12 o'clock noon of Tuesday, the 15th day of July, 1923, for the erection and completion of Government Offices at Anyx, in the Atlin Electoral District, B.C.

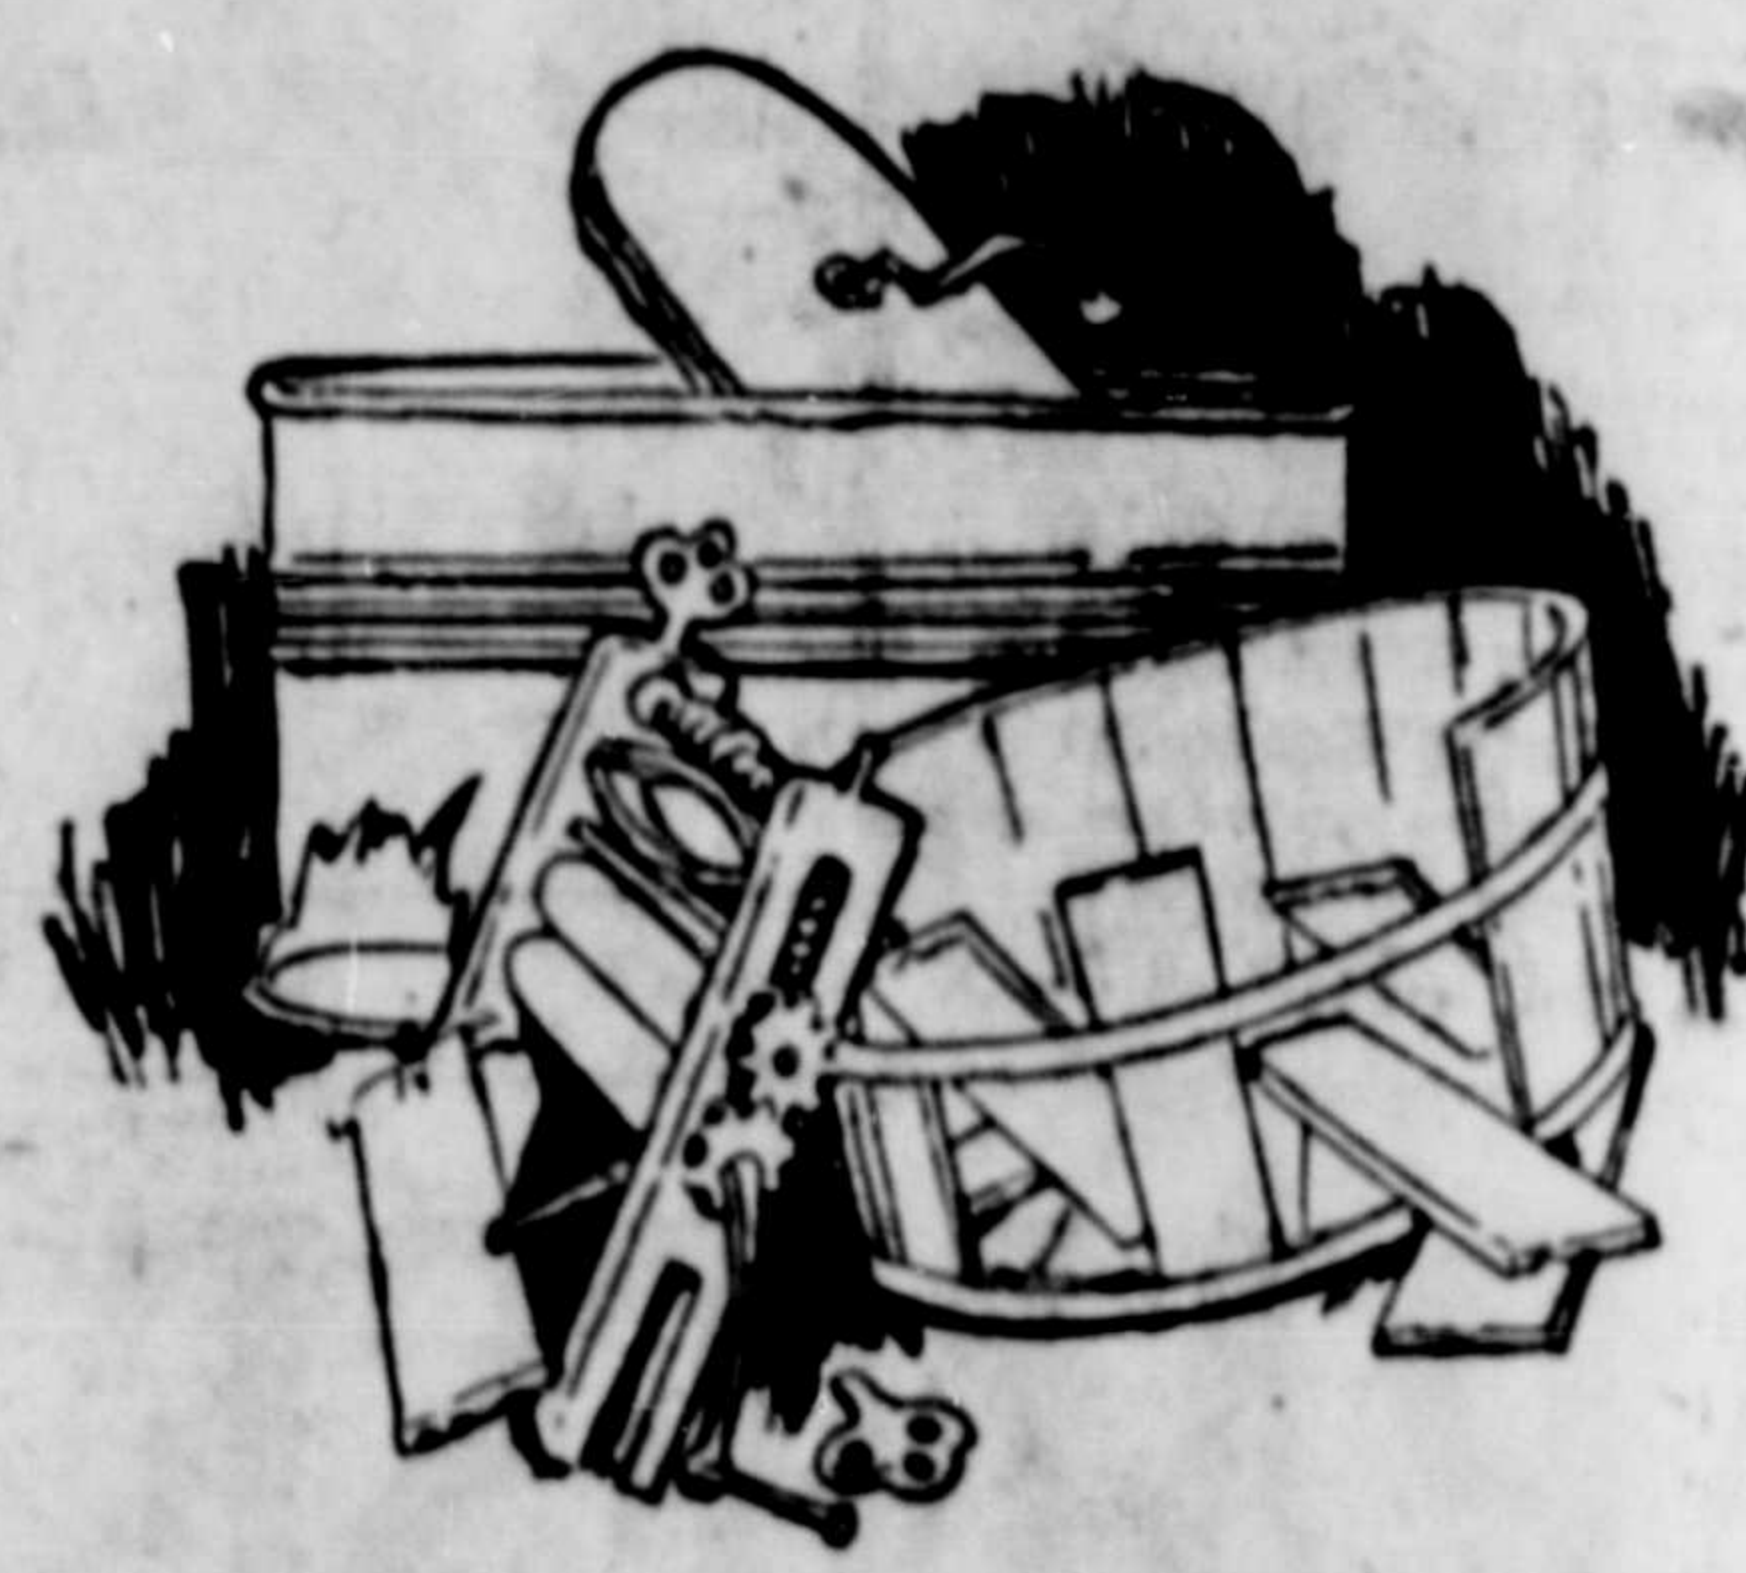

Plans, Specification, Contract and Forms of Tender may be seen on and after the 18th day of June, 1923, and further information obtained at the Department of Public Works, Parliament Buildings and at the following offices:—Government Agent, Court House, Vancouver, and Government Agent, Court House, Prince Rupert. Copies of plans, specifications, etc., can be obtained from the Department on payment of a deposit of Ten Dollars (\$10.00), which will be refunded on their return in good condition.

The lowest or any tender not necessarily accepted.

P. PHILIP, Public Works Engineer, Department of Public Works.

TENDERS.

Tenders are requested for the removal of the former Provincial Government Court House, Third Avenue, to the Masonic Lot, corner of Sixth Avenue and Bowser Street, Prince Rupert, B.C., and the placing of said Court House on a proper pile foundation. Details of tender and specifications may be seen at the office of Mr. R. V. G. LePine, c/o Big Bay Lumber Co., Ltd., Cow Bay, Prince Rupert, B.C. Sealed tenders will be received at Mr. LePine's office until twelve o'clock noon on the 21st day of July, 1923. The right is reserved to reject any or all bids.

Will you be One of the 2,000,000?

Ten years ago almost every woman baked her own bread. Today, in most of the United States, the majority patronize the baker.

Five years ago almost all washing was done in the home. Today almost 2,000,000 send their entire family bundle to the laundry.

And nowhere is this modern method more popular than right here in our own city. If you were to call any day at our laundry, we could show you proof.

Why? Because the service we offer takes all the washing completely out of your home.

Think of it—no laundress to bother with; no water, tubs, and soiled clothes to struggle with. Just a minute at the phone, and your washing is taken off your hands.

We have a number of services for you to select from—telephone and have us explain all about them. Regardless of whether you employ a laundress or do your own washing, you will find this service will save you time, and money, too.

CHOLERA INFANTUM A Fatal Disease of Children

Cholera Infantum or summer complaint of children is one of the most dangerous bowel complaints during the summer months.

It begins with a profuse diarrhoea, the stomach becomes irritated, very often accompanied by vomiting and purging and the matter excreted from the stomach has a bilious appearance. The child rapidly loses flesh, is soon reduced to languor and prostration, and in a great many cases death ensues.

Mothers, if any of your children become sick with cholera infantum do not endanger their health, perhaps their life, by experimenting with some new and untried remedy; get one that has stood the test of time; one that will quickly offset the vomiting, purging and the diarrhoea. This you will find in Dr. Fowler's Extract of Wild Strawberry, a remedy that has been on the market for the past 78 years.

Mrs. W. A. Harrison, 10 Elevator Court, Halifax, N.S., writes:—"Dr. Fowler's Extract of Wild Strawberry saved the lives of three of my children when all other remedies failed. It stopped the vomiting and terrible diarrhoea with which they were troubled. I always keep a bottle of it on hand in case of emergency."

"Dr. Fowler's" is 50c a bottle; put up only by The T. Milburn Co., Limited, Toronto, Ont.

FISHING PARTY IS BACK FROM KHTADA

Fred Gilhuly, Charles and Will Balagno and E. A. Donohoe
Returned to Town Yesterday Afternoon

Reporting a splendid week's fishing amid the grand scenic beauty of Khtada Lake, Fred Gilhuly, Charles and Will Balagno and E. A. Donohoe returned to town yesterday afternoon. Many fine fish were caught and the party says that the popular lake still remains without a peer as far as angling in this district is concerned. They went up on the Harla last week end and returned to town by train.

ANYOX

A wedding of considerable local interest was solemnized in the Catholic Church on Thursday morning, when the Rev. Father Fleck united in wedlock Miss Nancy O'Neill and J. McGuire, both of Anyox.

Owing to the loss of his church in the fire, Rev. J. Herdman will preach at a joint service to be held in Christ Church on Sunday, July 22.

H. F. Noel, of the Stores' staff, returned to Anyox on Thursday from the south bringing a bride with him.

Dr. and Mrs. Zeigler were southbound passengers by Thursday's boat. Dr. Zeigler was the physician at the Mine for some time past, and has now left the service of the Granby Company.

Owing to the fire damage at the ball grounds and the demands made upon the workers to get things in shape football games scheduled for this week have been called off. The baseball game for Tuesday night was postponed also, but it is expected that the game called for Friday, July 20, will come off.

An outstanding feature in connection with the fire was the work of Mrs. Weir, who was on duty at the Telephone Exchange Sunday night. All through the trying hours, when it was a question of whether the fire could be controlled or not, Mrs. Weir stayed at her post and rendered splendid service.

Coke plant production, July 10 to July 16 inclusive, 1,608 short tons of coal were charged and 1,410 short tons of coke produced; 3,316 imperial gallons of light oil were recovered and 6,755 lbs. of ammonium sulphate were manufactured.

The Smelter returns from July 9 to 15 inclusive, show that 711 wet tons of ore were treated at the Anyox smelter. This was made up as follows: Anyox ore, 16,696 tons; outside ore, 1,015 tons. Average price of copper for the week, 44.1876c.

GYRO CLUB IS STARTED

Twenty-five Members Are Enrolled and Charter Is Applied For

MILTON GONZALES
CHOSEN PRESIDENT

The Gyro Club has been added to the fraternal and public service organizations of this city. Last night, following a luncheon held in the St. Regis Cafe, 25 charter members met and drafted the constitution, elected officers and decided to make formal application for a charter. Early in August a team of Gyro members will arrive from Vancouver to formally institute the club and install the officers.

The officers elected are as follows:

President, Milton Gonzales.
Vice-president, S. K. Campbell.
Secretary, E. A. Mann.
Treasurer, J. Lorne MacLaren.
Directors (in addition to the officers)—Dr. L. W. Kergin, Joe Greer, R. W. Cameron and M. M. McLachlan.

Charter Members

The charter members are: Milton Gonzales, J. H. Pringle, Joe Greer, A. R. Nicholls, E. A. Mann, Dr. L. W. Kergin, S. K. Campbell, R. F. McNaughton, S. W. Taylor, N. W. Pringle, G. A. Hunter, M. M. McLachlan, R. W. Cameron, F. W. Henning, W. W. Wright, A. L. Holby, W. F. Roberge, C. C. Mills, J. Lorne MacLaren, H. McEwen, W. J. Nelson, Charles Balagno, Dr. E. S. Tait, L. W. Waugh and E. N. Valentine.

After the club is formally established, luncheon meetings will be regularly held on second and fourth Wednesday of each month at 6 in the evening. Committees will be appointed by the president later.

VANCOUVER TAKES MOST OF HONORS IN ROWING MEET

Wins in Singles, Doubles and Fours at Shawnigan Lake Yesterday

VICTORIA, July 24. — In the first day's results of the meet of the North Pacific Association of Amateur Oarsmen at Shawnigan Lake crews representing Vancouver, Victoria, and Portland were placed as follows:

Junior Singles — 1. W. H. Fletcher, Vancouver; 2. A. Abraham, Portland; 3. W. Locke, Victoria.

Junior Doubles — 1. Fletcher and Finlayson, Vancouver; 2. Riddell and Watson, Victoria; 3. Martin and Miller, Portland.

Junior Fours — Vancouver defeated Victoria by two lengths.

Senior events are being rowed today.

CANNERY TALLYMAN DIED ON THURSDAY

Hans Severtson, Aged 56, Succumbed to Attack of Heart Failure—Survived by Widow

Hans Severtson, tallyman at Dominion Cannery, Skeena River, died at midnight on Thursday night from heart failure and his remains were brought to the city yesterday. The B.C. Undertakers have charge of funeral arrangements. Severtson had been ill before and was in the local hospital for a time. He appeared to be in good health preceding his death, however, and worked the full day Thursday. Deceased was 56 years of age and was a Norwegian by birth. He is survived by a widow in Sedgewick, Alberta, who has been communicated with.

REPAIRS TO BELMONT ARE ABOUT FINISHED

Belmont-Surf Inlet Co.'s Yacht Will Be Ready to Resume Service Next Thursday

The Belmont-Surf Inlet Mining Co.'s gasoline yacht Belmont which was wrecked some weeks ago down the coast, is off the pontoons at the local dry dock and interior repairs are now being finished up. The Belmont will be ready to resume service next Tuesday.

CAPTAIN SWANSON HAS FLOATED TUG ENOLA, BEDFORD BAY

The tug Enola, owned by the Whalen Pulp & Paper Company, of Swanson Bay, ran on to a sandbar off Bedford Island on Thursday night and toppling on her side filled with water. Capt. A. Swanson left here yesterday morning with the launch "23" and a scow in tow to pump out the boat. The lifting of the water was successfully accomplished and the tug towed into Bedford Bay. Upon examination little damage was found to have been done other than to the machinery which will need overhauling.

Capt. Swanson returned to port at 8 o'clock this morning.

ROBINSON WINNER OF KING'S PRIZE

Ashe of Victoria Got 68 in Big Shoot at Bisley, England

BISLEY, July 21. — Capt. E. R. Robinson won the King's prize today in the rifle competition here. He tied with Lance-Corporal Norton and on the shoot-off won.

Major Pixley, of London, with a score of 73 won the St. George's challenge vase final. The Canadian scores were: Ashe of Victoria, 68; Morris, Tyers and Caplin, 67 each; Crowe, 66.

GROTTO WIN GILHULY GAME

Defeated Sons of Canada by 3 to 1 in Opener for Gilhuly Cup Last Night

The Grotto defeated the Sons of Canada in the opening game of the Gilhuly Cup Senior football series last night by a score of 3 to 1. It was a poor exhibition of soccer featured with no play of a spectacular nature. All scoring was made on the up grade, the Grotto getting their tallies in the first half through S. Erskine (two) and Jack Campbell. The Sons scored their one and only in the second half through Eddie Smith. Harry Menzies was ordered off the field in the first half for talking back to the referee.

George Russell was referee, A. Clapperton and D. Hodgson acted as linesmen and the teams took the field as follows:

Grotto—S. Gawthorn; H. Hamilton and G. Cochrane; P. McGowan, A. Roy and J. M. Campbell; George Waugh, M. McPherson, S. Erskine, J. Joyce and J. Andrews.

Sons of Canada—W. Murray; H. Menzies and V. Menzies; D. Gurviech, G. Mitchell and W. Hamilton; H. Astoria, W. Mitchell, J. Marks, E. Smith and A. Mitchell.

Sport Chat

On August 5 at Lake Kathryn near Smithers there will be a big water gala in aid of the Bulkley Valley Hospital. Fifteen aquatic events, including diving, swimming and boating, are on the program and a handsome silver cup will be the main award. There will also be a list of sports for dry land and the principal event will be a baseball game. Smithers has invited an all-star Prince Rupert team to be present for competition on the occasion but arrangements at this end have not yet been completed.

Among all lawn tennis players, Vincent Richards of the United States stands out as the most remarkable player for his age that has ever been known says the Manchester Guardian. In 1918 he became the doubles champion of the United States in partnership with "Big Bill" Tilden at the age of fifteen. Gaining further distinction since that time and meeting with the greatest players, last season, he stood out as the third best player in the world—at nineteen years of age.

Unlike most of the youthful wonders of the American continent, Richards comes from the Eastern States, Yonkers, New York, being his home. A further point of difference, and one that augurs well for a prolonged career, is that his game is based on placing rather than sheer pace. He combines the steadiness and headwork of a veteran with the agility of youth. He adds to these the wonderful powers of anticipation of a Norman Brookes and the delicate touch of a violinist. He is indeed the Kubelik of lawn tennis, thinks the writer in the Manchester Guardian, who says the sheer artistry of his play is without an equal. These qualities make him the finest volleyer in the world today. Richards already reveals occasionally a real "hit" on the forehand, and when this becomes consistent and sure there is no reason why he should not fulfil Tilden's prophecy of two years ago and become "the greatest player the world has ever seen."

Doings of the Mosquito Fleet which is the chief source of Prince Rupert's prosperity

Business along the waterfront, according to the Admiral of the fleet, has been on the quiet side during the week as the consequence of light halibut landings which are usual at this time of the year. The arrivals started off well on Monday when 132,000 pounds were offered on the Fish Exchange. Since the Monday landings the catches have fluctuated from 19,000 to 80,000 pounds. As a result of transporting the first fruit crops throughout the Dominion, there has been a scarcity of refrigerator rolling stock on the Canadian National systems. On Monday the shipment of six carloads of fish cleaned up the local quota of refrigerator cars. However, it is anticipated, with the light offerings during the latter part of the week, that the local refrigerator car pool will soon be up to strength again. The prices offering for both Canadian and American catches have remained firm and have differed very slightly from those offering the previous week. Incoming skippers report fair fishing weather on the high spots and the run of fish to be up to the average. The only mechanical casualty reported to the local fleet was the breaking of the tail shaft by the schooner Reveille, owned by Bradbury and Yell, while out on the fishing grounds. The boat is now on the dry dock for necessary repairs. It is anticipated the repair work will take some time to complete as a new part will have to be ordered from the south.

The fishermen report business brisk on the Skeena and the canneries are optimistic as to the success of the season's business. The same conditions apply to the Rivers Inlet activities. Conditions on the Naas are slow but a good run is expected towards the end of the month which is the usual time for good business in this particular district. Good reports have been heard from the southern trolling grounds.

Sockeye at Shawatlans
The Shawatlans falls are alive with salmon which are endeavoring to climb into the lake for the purpose of spawning. On a bright day it is a wonderful sight to see hundreds of these beautiful fish sparkling like a huge tiara of diamonds as they leap through the water in their efforts to reach the calm and placid waters of the lake in which they are wont to spawn. Those which get caught go to the canneries to be mingled into the table delicacy, while those that are fortunate, and strong enough to make the grade, land in the lake and do the spawning.

Loss for Georgetown
The power boat Zorra, Capt. Brown, which has been in port for the past week undergoing a minor overhaul, left for Dundas Island on Thursday morning to tow in a boom of logs for the Georgetown mill.

Bob Thomas, the genial manager of the Prince Rupert Boat-

house, made an official visit to the base of the Mosquito fleet during the week and called upon the Admiral. Much to Bob's disgust the old man was out of the doings and endeavored to prime him with a shot of coffee but there was nothing doing.

The secret service is endeavoring to obtain the name of the budding mechanical genius who sat up all night trying to time his engine with an alarm clock. Should any reader know the name of the gentleman in question it will be thankfully received at the office of the secret service.

Watch Your Gas
The terrible fatality which befell the native gasboat Kynquod recently, when two men and a boy lost their lives by the explosion of gasoline, should prove an object lesson to the owners of gasboats. On the ill-fated craft the gas tank was located near a lighted stove and while trying to clean out the tank, with no shut off valve on the feed pipe, the gas spurted on to the hot stove and ignited. The stove in a gasboat should never be near enough to the gas tank for the gas to become heated in the slightest degree, and a shut-off valve is a necessity on the feed pipe. Before tampering with the gas or priming the engine one should make sure that no lighted cigarette or pipe is near. In the hot weather the gasoline becomes particularly flashy and the slightest thing will set it off. The safest way to clean out a gas tank is to remove it from the boat altogether and with this object in view the installation should be on a plan which will readily permit of this. It is a good idea to carry a chemical fire extinguisher on board or a box of sand or dirt.

Pete on Hand Logging
Pete Corrigan, one of the champion hand loggers in his day and well known along the waterfront, is of the opinion that no money can be made in the hand logging game as it is carried on at present. Pete says there is too much effort lost and time expended in getting the logs to the water. When he was in the game in his youth he could carry a couple of logs to the water without resting, but now the logs are so far from the water that he has to rest them a couple of times, which is a detriment to his earning capacity.

The power boat Wigwag, Capt. Clude Ketchum, left port on Wednesday for Port - Edward. The Wigwag will engage in business in connection with the Skeena canneries.

Colonel and Mrs. Stuart left on the coastal cruiser Vaguer yesterday on a prolonged trip to northern waters. They expect to go as far north as Skagway.

A Remarkable Find
This story concerns two heroes, namely Joe Harvey of the C.N.R. baggage department situated at the depot, and Doc Clapperton. Mrs. Hadyn, en-

route to Ketchikan, chanced to alight from the C.P.R. steamer at the provincial dock, and having a little excess baggage in tow placed it in the charge of Doc. The lady then proceeded for a stroll along the waterfront to take in the sights. A few minutes before the steamer was due to depart the lady returned to claim her baggage and seemed very much agitated informing Doc that a handkerchief containing fifty dollars was missing from her person. Upon cross examination Doc learned that the lady had made some purchases at the Canada News stand and this clue connected the scene of the lost money with the brain of the learned gentleman. Grabbing the phone Doc sang the sad news to Joe, and Joe thereupon got busy in making a sleuth like search of the vicinity. At this moment the steamer whistle blew for all clear and the lady, minus change, hit for the boat. The propeller of the steamer had commenced to churn for the northern trip when Joe was seen rushing madly towards the dock waving something white in his mitt. Doc dashed to meet him, like a Roman champion in an Olympic relay race, and grasped the missing handkerchief containing the fifty plunks—for such it was. Rushing to the boat he was just able to throw the missing bank to the lady, who was leaning so far over the side that her hat brushed the side of the dock. With a sigh of thankfulness the lady sank back into a deck chair, and the last Doc saw was the agitated one counting the contents of the handkerchief. It appeared that Joe, upon receiving the S.O.S. from Doc, immediately rushed to the news stand and there found the handkerchief containing the money on the dock. It must have dropped from the lady's handbag when taking out some loose change. Now Doc and Joe are sitting up at night waiting for the reward.

Capt. R. Gammon, who has been confined to his home for several days with a severe cold, is once again on the deck of the good ship Provincial.

Fish Business
During the week 339,500 pounds of halibut has been marketed through the Fish Exchange. The highest price paid was 15c, and 10.5c and the lowest 13.2c and 10c. The arrivals were: Virginia, Norma, Tatooch, Defence, Cape Spear, Point May, E. Lipsell, D.C.F., Murineag, Cape Spencer, Ring-leader, Nornen, Venus, Eastern Point, W.T., Plop, Tramp, Nuba, Lillian M., Mab, Reliance, P. Doreen, Royal III., Uranus, Unimak, Teddy J., Star, Kaien, White Lilly, Sampson, Rolfe, Toodie, Pair of Jacks, N. & S.

J. Field, of the Northern Exchange, has purchased the spacious office building previously used by the Prince Rupert Shingle Mill outfit. The building has been placed on a new float and is now tied at the Shockey wharf. The float will probably be towed over to the Salt Lakes in the near future to be used by John as a summer residence. It is understood the interior is to be decorated in Turkish art, or in other words the walls will be papered with Murad papers.

Paddy Clapperton, the canine pet of the government dock, took a stowaway passage on the Canadian Scottish, on Monday night. Paddy followed Algy Hunter, who had business on board, and evidently missed the latter on his

coming off the boat. Paddy has been in the city for some years and evidently is taking a well earned voyage. His absence is sorely felt.

Ten Years Ago in Prince Rupert

July 21, 1913.
Fishing has stopped at Lagnara Island, the purchasers and fishermen moving to the west coast where the salmon are more plentiful.

Graham Island eggs are meeting with favor in Prince Rupert and quite a market has been established here.

H. Silverstone passed through this city en route to his farm near Houston. He had several head of thoroughbred stock with him.

The Man in the Moon SAYS—

MONEY is not everything in this life. Germany and Russia have so much they do not know what to do with it, yet the people are alleged to be no happier than those who live in Prince Rupert where we chase the elusive from daylight to dark.

SOME children eat strawberries; others wear them.

JUDGING by the published reports it seems as if the Germans and the Turks won the war.

IN 1916 there were 76 golf clubs in this country. Today there are 358. This is pointed to

as one of the signs of the decadence of our national spirit.

RAMSAY Macdonald intimates that Scottish music has a humanizing effect. I had also noticed it. I had heard people muttering broad and uncouth words in a decidedly human tone when the bagpipes played near by.

"WAITER!" From the table by the window the voice of an elderly man rose in wrathful accents. "Waiter!"

"Yes, sir," replied the much-harassed one.

The elderly man, overcome by his emotions, made several vain efforts to speak. Then—

"Take this egg away!" he roared. "Take it away!"

"Yes, sir," said the waiter, as he glanced wistfully at the offending article. "And— and what shall I do with it, sir?"

"Do with it?" The outraged customer rose menacingly from his chair. "Do with it?" he belittled fiercely. "Why, wring its neck!"

Blind Man's Buff

EVEN in this age of enlightenment some folks spend their money blindly. They buy with their eyes shut. They grope in the dark as truly as if their eyes were bandaged.

And all the time a powerful light is being thrown on the very things they need and want!

Advertising is a beacon to guide you in buying. It shows you what to buy-- where to buy-- and when to buy. At the same time, it protects you against fraud and inferiority.

Merchants and manufacturers who advertise deliberately focus thousands of eyes upon their wares. Their values must be honest and their prices right, or they could not advertise successfully.

Don't play blind man's buff with the elusive dollar. Spend a few minutes each day running through the advertisements in this paper. Then buy the products that have proved up in the light of advertising.

Read the Advertisements.

HIGHLANDER DUE SUNDAY

C.G.M.M. Vessel Will Commence
Loading Lumber for Orient on
Monday Morning

C.G.M.M. freighter Canadian
Highlander, Capt. Fisher, will ar-
rive tomorrow afternoon from
Vancouver Island to complete her
cargo of lumber for the Orient,
sailing direct from here to Japan.
Most of the 500,000 feet which
the vessel will load at this port
has already arrived from interior
mills and the balance will be here
tomorrow evening. Loading on
to the trans-Pacific freighter will
commence on Monday morning
at the lumber assembly wharf.
Capt. Duncan McKenzie, C.G.M.M.
pilot, is bringing the Highlander
up the coast.

The Highlander at 9 o'clock
this morning reported her position
in Queen Charlotte Sound
bound for Prince Rupert.

Inventor Develops System in
Which Low Power Can be
Utilized

LONDON, July 20. — Another
great step in the development of
wireless telegraphic transmission
has been realized, says Senator
Marconi, who has returned to
London after a two months' ex-
perimental cruise in his yacht.

QUEEN CHARLOTTE LAND DIS- TRICT.

Application to Lease Foreshore
Lands.

In Queen Charlotte Land Dis-
trict, Recording District of
Prince Rupert, and situated at the
mouth of Slatechuck Creek, Kagan
Bay, Skidegate Inlet, Graham
Island, B.C.

Take Notice that W. G. Mc-
Morris, of Vancouver, B.C., occu-
pation miner, intends to apply
for permission to lease the fol-
lowing described foreshore lands:
Commencing at a post planted at
high tide mark on the west bank
of Slatechuck Creek, about 1,500
feet west of the southeast cor-
ner post of Lot 4; thence 40
chains southeasterly; thence 40
chains northeasterly; thence 40
chains northwesterly; thence fol-
lowing high water mark to point
of commencement, and contain-
ing 40 acres more or less.

WILLIAM GEORGE McMORRIS.

Dated May 26, 1923.

CANADIAN NATIONAL RAILWAYS.

"Electra." A system has been
evolved by the Italian inventor
whereby wireless messages are
transmitted with a minimum of
electrical power, and at very low
cost.

"We have transmitted mes-
sages up to a distance of 2,250
miles, not only with a very much
smaller amount of power and en-
ergy, but faster and more cheaply
than with the ordinary system of
long-distance wireless," said
Senator Marconi. "When the new
system is adopted it will mean
that a power station for long-dis-
tance work can be erected at much
less cost than at present. I have
telegraphed on this system from
Cape Verde Islands, off the Afri-
can coast, to London. To send
messages clearly and more rap-
idly over those 2,500 miles took
less power than a message from
London to Paris by the ordinary
methods."

FISH ARRIVALS

Seven Boats Sold Halibut Catches
Totalling 101,000 Pounds
This Morning

Seven halibut boats sold
catches totalling 101,000 pounds
at the Fish Exchange this morn-
ing. Two American boats had
40,000 pounds and five Cana-
dians, 61,000 pounds. The Cana-
dian boat Livingstone had an
exceptionally fine catch of 30,000
pounds taken by her crew of five
men in ten days. The Canadian
Fish & Cold Storage Co. paid
13.5c, and 10.5c for the catch.

Arrivals and sales:

American
Harding, 18,000 pounds, at
14.8c, and 10c, to the Booth
Fisheries.

Senator, 22,000 pounds, at
14.5c, and 10c, to the Alfin
Fisheries.

Canadian

Livingstone, 30,000 pounds, at
13.5c and 10.5c, and Hanaco, 16,-
000 pounds, at 13.7c and 11c, to
the Canadian Fish & Cold Stor-
age Co.

Fanny F., 6,000 pounds, at
13.6c and 10.2c, to the Booth
Fisheries.

Gageon, 4,500 pounds, at
13.5c and 11c, to the Alfin Fish-
eries.

Gibson, 4,500 pounds, at 13.5c
and 10.5c, to the Royal Fish Co.

JAPANESE SHIPPING MAN DE- CLARES THAT PRINCE RU- PERT SHOULD GET LARGE SHARE OF PACIFIC BUSI- NESS.

(continued from page one)

placed against Japanese fisher-
men this year by the government
and considers that they are very
unfair. Men who have been here
for many years are being depriv-
ed of their occupation. He was
not inclined to the belief that
such action was necessary to the
industrial self-preservation of
the Canadian people. Canada
would prosper most by allowing
all people to work. There were
unlimited industrial possibilities
which gave room for all people.
If Canada, through the use of
Oriental labor, could produce
more cheaply, it would be to her
commercial advantage. Japan,
while not desiring to lose her
people, placed no obstacles in
their way of coming to Canada
and whites were welcomed in
Japan. Mr. Sato took the view
that if the Orientals could com-
pete to the disadvantage of the
whites in labor, it was an indi-
cation that the whites were in-
clining towards a life of ease
and luxury. Such conditions had
preceded the fall of the Roman
Empire before the Teutons from
the north.

WOMAN SUSPECTED OF TAKING \$160 OUT OF FISHERMAN'S ROOM

John Renberg, fisherman, re-
ported to the city police this
morning the loss of \$160 from his
room in the King George Hotel.
A woman is suspected of the theft
and the police are now taking
steps towards her arrest.
