# CANADIAN PARLIAMENT WANTS NO TITLES

## DEBATE ON SOCIALISM ON ORDER PAPER OF BRITISH HOUSE OF COMMONS

### Motion Favoring Titles Voted Down by House of Commons with Conservatives and 3 Others for

OTTAWA, March 20.—The action of the House of Commons last night in re-affirming its stand of 1919 against granting of titles in Canada by a very large majority is likely to prove the final say of the Dominion parliament on this important question. By a vote of 121 to 14, giving the large majority of 107, the House defeated the motion of Leon J. Ladner, Conservative member for South Vancouver, which would have permitted the granting of decorations, save those carrying titles, for distinguished service or high attainment in education, literature, art, and science.

To the main motion A. W. Neill, independent member for Comox-Alberni had an amendment which by deleting the limiting clause would have permitted the granting of all decorations. The amendment was declared defeated without a recorded vote and the main motion was lost on the vote indicated.

Hon. Arthur Meighen, leader of the Conservative opposition, voted for the Ladner motion. Supporting it were eleven Conservatives, one independent, Mr. Neill, and two Liberals, Fortier of L'Abord, Martell of Hauts.

OTTAWA, Mar. 20.—The House one independent, Mr. Neill, and two Liberals, Fortier of L'Abord, Martell of Hauts, defeated Leon Ladner's motion for the restoration and Martell of Hauts. Premier King and all the other members present with "all" the Progressives voted against the motion. Three Conservatives, George Black, member for the Yukon; W. F. McLean and F. L. Church of North Toronto, also voted in the negative.

A. W. Neill of Comox-Alberni proposed an amendment restoring all decorations without reservation. The amendment was defeated also.

Hon. Arthur Meighen voted in favor of the Ladner motion but all Liberals and Progressives voted against it.

During the course of the discussion on the main motion, Ladner was asked if he would favor the acceptance by Canadians of decorations from Chinese and Japanese Governments. Ladner said he certainly would. British Columbians had no quarrel with the Oriental governments but with the nations of low intellectual caliber who reduced the Canadian standard of living and competed unfairly.

### IRISH ISSUES NEXT ELECTION

Labor Objects to Making Anglo-Irish Treaty Chief Issue

DUBLIN, March 20.—Tom Johnson, Labor leader in the new Irish parliament, declares the Labor party is opposed to any attempt to make the Anglo-Irish treaty the main issue at the next general election. It is the intention of his party, he said, to raise social and economic problems as issues.

### FAILS TO MOVE CITY COUNCIL

Delegation Presents Petition Asking For Conciliation Board For Civic Employees

#### CLERGY TAKE PART

Petition Contains Names of 730 People Who Ask For Further Consideration Wage Question

In spite of a petition bearing some 730 names asking that the city assent to the establishment of a Board of Conciliation on the civic wage dispute and representations made to that end by a delegation consisting of Venerable Archdeacon G. A. Rix, Rev. Dr. H. R. Grant and T. Ross Mackay, the city council once again last night refused to enter into negotiations with the Civic Employees' Union by appointing a representative to the arbitration board which the union has asked for.

Knowing that the vexed subject was to again come up and in anticipation of developments that might occur with the presentation of the petition and the presence of the delegation, there was a large crowd of spectators in the council chamber.

The matter was brought up with the reading of a night letter from F. A. Acland, deputy minister of labor, Ottawa, notifying the council of the application of the Civic Employees' Union for a conciliation board and stating such a board could not be established unless the city council gave its sanction.

Right to be Heard

Ald. Mackenzie and Ald. Macdonald moved that the delegation be heard. A debate ensued between Ald. Stephens and Ald. Macdonald, the former pointing out that the council had already gone on record on the matter and if a petition was to be presented there was a regular way for it to come before the council.

As to hearing a delegation on anything on which the council had already gone on record and on which it did not wish to recede, he would vote against it. Ald. Macdonald remarked that if Ald. Stephens knew that the attitude of the council had been against the wishes of the people he might be willing to reconsider his stand.

Ald. Mackenzie and Mayor Newton felt that the delegation had a right to be heard.

The officers said Hughes was drunk and pestered the captain when the latter was navigating the difficult narrows. Later Hughes followed the second engineer round the engine room shouting, "O death, where is thy sting?"

On the question being put, all the council favored the hearing of the delegation with the exception of Ald. Stephens.

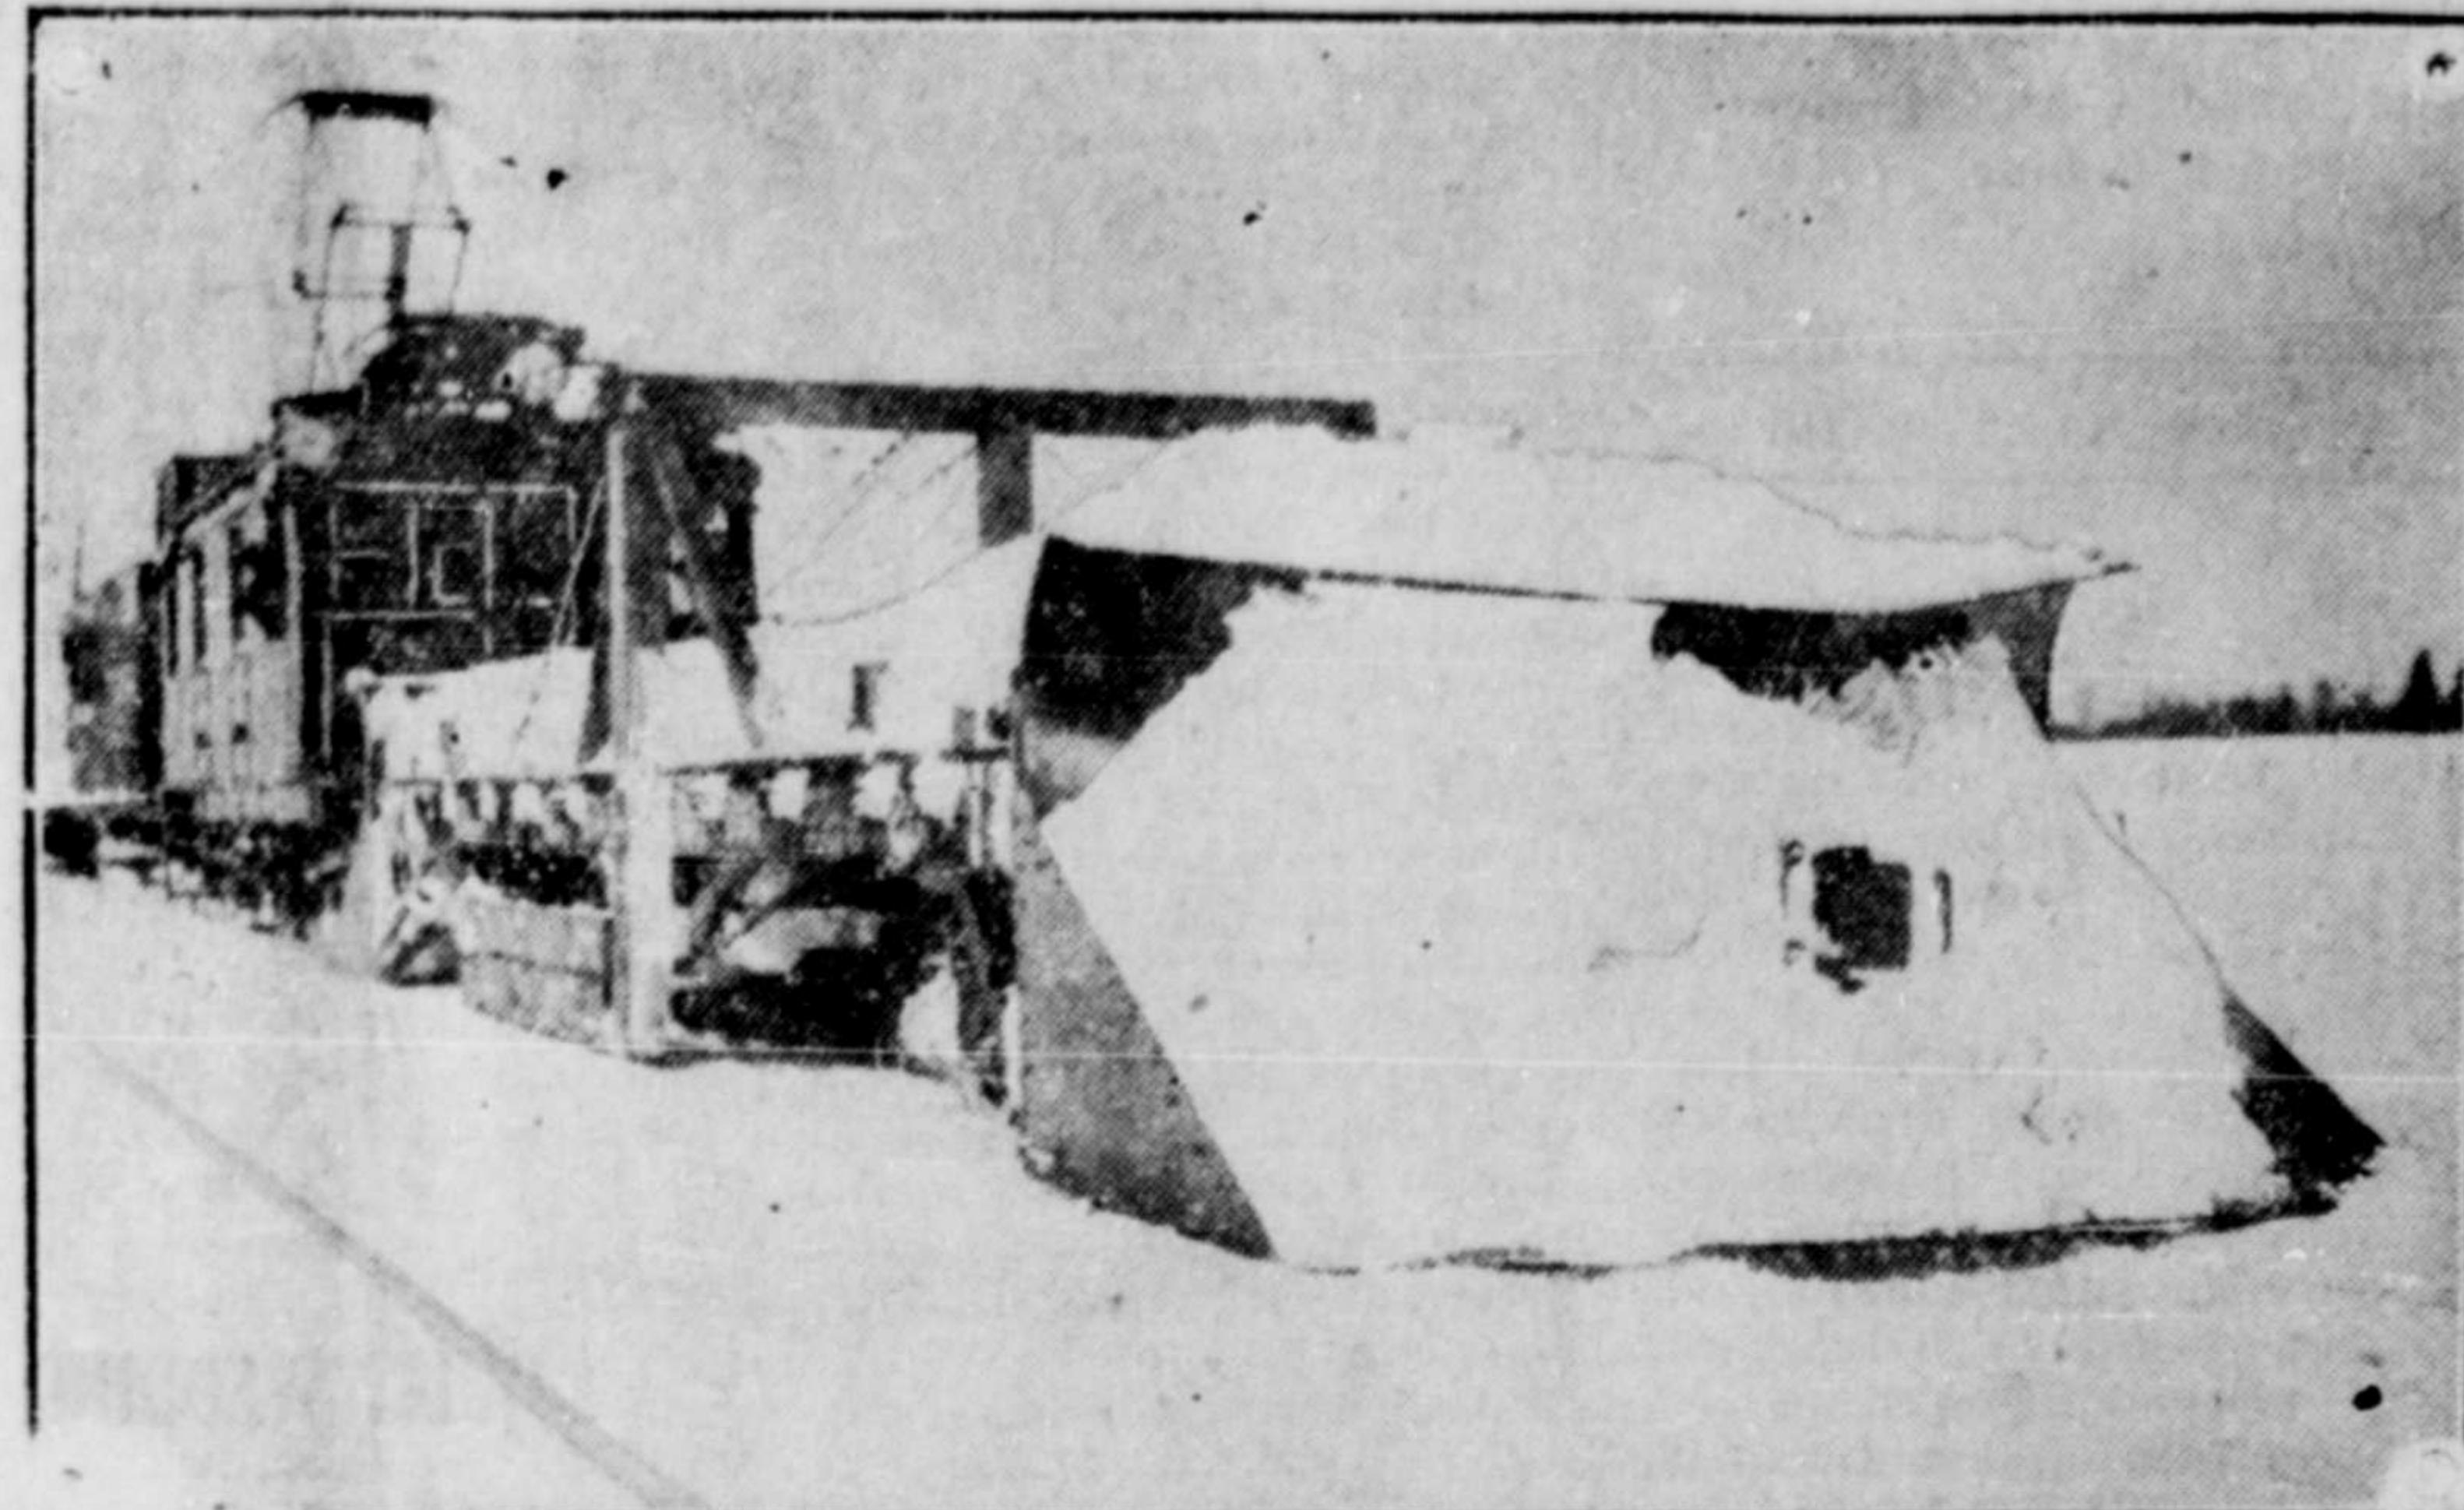

Archdeacon Rix, in presenting the petition to the council, said that it contained 730 names which

### SOCIALIST CHALLENGE TO BRITISH PARLIAMENT IS ON ORDER FOR TONIGHT

LONDON, March 20.—Socialism throws down the gauntlet to capitalism in the House of Commons tonight when Philip Snowden, one of the leaders of the Independent Labor party, puts a motion denouncing "the capitalistic system" as a failure and proposing that legislation be directed toward its gradual suppression by the substitution of a social order based upon public ownership and democratic control of the instruments of distribution.

This will be the first time in history for a socialistic campaign to be launched in the British parliament in the shape of a direct formal challenge of the existing order and an event to be regarded as one of the most significant happenings in a long time.

All other parties are united in opposing Snowden's motion.

## COMPLIMENTARY LOCAL MEMBER

Victoria Paper Draws Attention to Compliment Paid Oliver Ministry

It will be satisfactory to Mr. Pattullo and his colleagues in the cabinet to know that the efforts which British Columbia has been and is still making to obtain settlers for this province are appreciated by the Federal Minister of Immigration, says the Victoria Times. Mr. Stewart informed the House of Commons that the Oliver ministry is doing a good deal more in this respect than the prairie governments.

Although this province may not be as favorably situated for the reception of a new farming population as those sections of the country which possess greater available acreage, and are able to draw upon the co-operation of the railway companies and the various colonization agencies, the fact remains that if the Dominion government will recognize British Columbia somewhat in the light of a special case, lending its co-operative assistance to plans which we believe Mr. Pattullo already has placed before Mr. Mackenzie King and his colleagues, this province will be able to meet its peculiar obstacles with greater prospect of success.

Officials in charge of Empire settlement in London are familiar with British Columbia's opportunities through the personal representations which Mr. Pattullo was able to make on his two visits to Britain. It is to be hoped, therefore, that while the minister is in Ottawa the Federal cabinet will be able to assist him to go ahead with the plans which he considers would be successful.

## SANITARY MATTERS BEFORE COUNCIL

Monthly Official at Salary of \$132 to be Out on Basis of Common Labor

The city council decided last night, on recommendation of the Board of Works, to eliminate the position of a sanitary man at a salary of \$132 per month and change the basis of pay of such an employee to that of common labor. The position is at present held by J. Carroll.

In connection with this matter Ald. Macdonald said that it was necessary to do something in connection with the city's garbage dump. At present there were four dead dogs there which should be buried. He wanted to know who was supposed to attend to this work and why it was not done.

Ald. Perry agreed that something must be done in connection with the garbage dump. It was menace to the public health as it was.

Mayor Newton stated that the city engineer as sanitary inspector was responsible.

Ald. Stephens suggested that the Board of Works might go into the whole matter of garbage disposal and decide whether or not free service should be given.

John Tait, native of Port Simpson, appeared in the County Court yesterday afternoon charged with attempting to commit a statutory offence and was remanded until today. W. E. Fisher is prosecuting and L. W. Patmore, of Patmore & Fulton, appears for the defence.

## In the Letter Box

RETURNED SOLDIERS PRE-EMPTORS

Returned soldiers, who were members of the allied forces in the great war who, before enlistment were the lawful holders of pre-emption records of land in British Columbia, and who had entered into occupation of their claims, or their heirs may, by filing their application before the 30th of June, 1923, still obtain "free grant."

The Pre-emptors' free Grant Act was passed by the British Columbia Government in 1916 to provide for the free grant being made of their lands to those pre-emptors who became members of the Allied Forces and who took part in the European War, as well as their heirs of such pre-emptors who fell or died subsequent to enlistment. It also provides for the return to the pre-emptors who became members of the allied forces, of all monies which accrued due and were paid by them subsequent to August 4, 1914, on account of payment, fees, or taxes in respect to pre-emptors to which said act applies.

The act was to have expired on August 31, 1922. At the last session of the Legislature an amendment was made extending the time to June 30, 1923.

It is very unlikely that any further extension will be made and all who are entitled to claim a free grant under the terms of the act, will require to make their application before June 30, 1923, in order to benefit by it.

A. MACKENZIE,  
Secretary G.W.V.A.

## FORMER TREASURER ASKED COUNCIL TO PAY FOR HIS TRIP

A request from W. D. Vance, ex-city treasurer, asking that his expenses in attending the Union of B.C. Municipalities at Kamloops last fall be paid was turned down by the council last night.

A letter received from Mr. Vance stated that Ex-Mayor Rochester, who was the accredited delegate of the city and whose expenses had been paid, had come to him for his notes on the convention which had been furnished, allowing the ex-mayor to submit to the council a report on which he had been complimented. In view of the fact that the city had thus gained the benefits of trip, Mr. Vance felt that his expenses should be allowed.

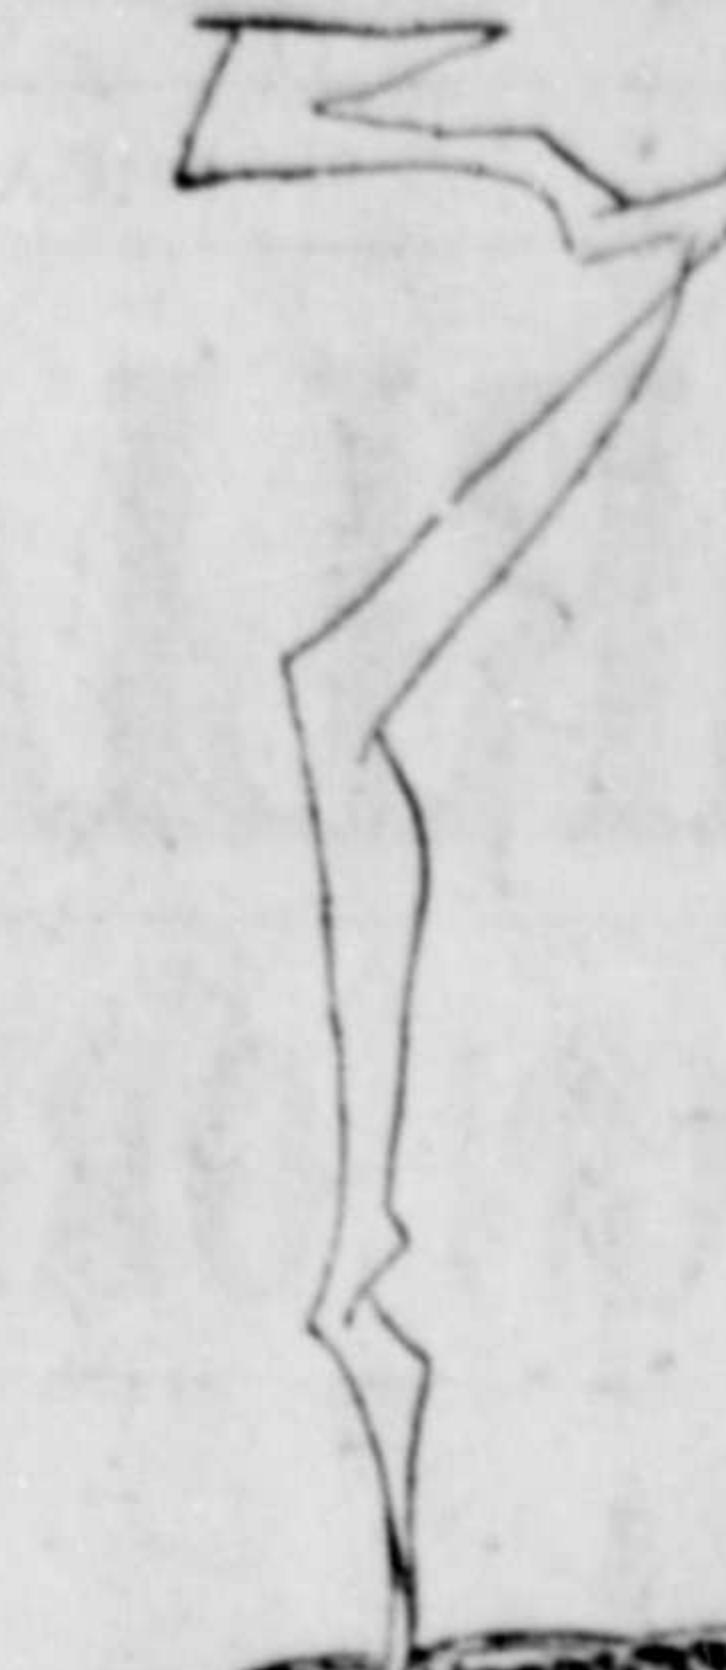

## FUNERAL OF LATE DAN MC GREGOR IN TERRACE ON SUNDAY

TERRACE, Mar. 20.—The funeral of the late Dan McGregor, who died in the Prince Rupert Hospital, took place here Sunday afternoon at 2:30 from the G.W.V.A. hall under the joint auspices of the G.W.V.A. and the Oddfellows. There was large attendance at the hall where Rural Dean Marsh conducted the regular service. Mrs. Munro sang "Face to Face" and the L.O.O.F. conducted the ceremony of their order.

The services of both orders were conducted impressively at the graveside.

Definite arrangements have been made for the Alberta Press Association and the British Columbia Press Association to meet at Jasper Park on June 7 and 8. The press men will do the house warming for the hotel there. The members of the association are being invited to make the round trip by way of Prince Rupert and Vancouver.

BIG BOAT RACE  
NEXT SATURDAY

Oxford and Cambridge Will Engage in 75th Varsity Scull Contest

LONDON, March 20.—(By Canadian Press)—The University Boat Race, the "Derby of Boating" in which crews representing Oxford and Cambridge have struggled for supremacy for nearly a century, will take place next Saturday at 4:30 p.m., over the historic four-and-a-quarter-mile course from Putney to Mortlake. This year's will be the seventy-fifth inter-Varsity contest, of which Oxford has won 39, Cambridge 34, with one tie, the race of 1877.

Cambridge was the first to make a serious start with preparations for the forthcoming boat race, thirteen men having been ordered by the boat club president to be in readiness for practice on Jan. 7. Included in these were B. G. Ivory, F. D. A. Collet and K. N. Craig, who rowed for the Light Blue last year. Oxford began training a week later. G. O. Nickalls, the Oxford president, had a lot of promising material to begin his task with, as six members of last year's crew were available this year.

Cambridge finished its training on the Cam on Feb. 8 and on the following day rowed their boat down to Ely, a distance of eighteen miles, where they went through the second stage of their training, remaining there until the end of the month. At the start of their practices the Light Blue eight was anything but impressive but during the ten days previous to going to Ely they made extraordinary strides and at that stage of their training were quite the equal of any crew to leave the Cam.

Early this month the Light Blues left Ely for Marlow where they remained ten days, leaving for Putney for the final stages of their training.

The selection of the Oxford eight was more difficult than usual this year. In the Trial Fights at Moulsoford much promising material was uncovered and critics were strongly impressed with the physique of the two crews, either of which in this respect was superior to last year's eight. Physique, these critics pointed out, was the most important factor in building up a crew and with these available it only required intelligence on the part of the oarsmen and good coaching. Dr. G. C. Bourne, who did the early coaching of the Dark Blues, gave them a good deal of strong work, with long and short course alternating. Oxford went into strict training on Feb. 14, and on the following day the crew was decided upon. Eight days later the Dark Blues left the home water for Henley, to undergo the next stage of their preparations.

Oxford and Cambridge which takes place next Saturday afternoon. Since the early days of the race the contest has become especially dear to the heart of a sport-loving nation, and there has been romance and tragedy associated with the event ever since the first was rowed at Henley in 1829.

The first boat race was from Hambleton Lock to Henley Bridge, a distance of over two miles against a summer stream and was won by Oxford. Of the winning crew one member later became Bishop of St. Andrew's, another Dean of Ripon and a third the Dean of Lincoln, while the Cambridge crew contained G. A. Selwyn, afterwards bishop of New Zealand. During the next seven years there was no contest, but in 1836 Cambridge won over the Westminster-to-Putney course.

In 1854 the race was rowed for the first time over the Putney-to-Mortlake course. It was a memorable race, with twelve degrees of frost, and ice floating in the Thames. In 1856 the race at Putney became a recognized fixture for the first time.

The official announcement of the 1859 race: "Oxford won in 24 minutes, 20 seconds and Cambridge sank" gives a little idea of one of the most sensational incidents of the whole series of races. Putney Reach on the day was a veritable sea and Cambridge, shipping water all the way, went down beneath the waves on passing Barnes Bridge. Oxford paddled home in a sinking state. In 1872 the race was rowed in a snowstorm. Four years later, sliding seats were used by both crews, while know, figuring, as they do, that in 1877 the race resulted in the they have somewhat of a hockey famous dead heat that was the team themselves. "What have cause of much discussion for they done?" asks an Anyox

## PERMANENT WATER MAIN

Be Installed on Fifth Avenue  
West and Dunsmuir Street,  
Council Decides

At a cost of \$7,527.57, the city is to proceed with the putting in of a permanent-water system on Fifth Avenue West between McBride Street and Agnew Place on Dunsmuir Street between Fourth and Fifth Avenues. A report recommending this was presented to the city council by the Board of Works last night and accepted. Eight inch pipe will be used and connection will be made with the 12 inch main on McBride Street at Fifth Avenue, totaling to the value of \$3,286. The work has already been purchased by the city.

Speaking to the report, Ald. Munro, chairman of the Board of Works, stated that the work in question was in the program of last year's council. In view of the fact that much of the material was already on hand and that it was necessary to do the work in order to give fire protection to that part of the city, the Board of Works had made its recommendation.

Ald. Stephens favored the work being done. The old water system on the hill had been practically destroyed by grading operations and something had to be done. He would favor permanent rather than temporary work. Fire protection was also an important consideration and there was little protection there now.

Other members of the council also expressed their approval of the work being done.

This undertaking together with others in connection with the waterworks will be submitted by the council to the people in the form of a bylaw at a later date.

## FISH ARRIVALS REMAIN HEAVY

Eleven Boats Sell Catches at Good Prices—151,000 Pounds

Halibut is arriving at the local Fish Exchange in good quantities and the price still remains high, much to the satisfaction of the fishermen. The biggest boat in today was the American schooner Commonwealth and her crew drew down 18.4c and 10c for 55,000 pounds of fish. The Senator got similar prices for 24,000 pounds. Eleven schooners marketed a total of 151,000 pounds today.

Arrivals and sales were as follows:

Senator, 24,000 pounds, at 18.4c and 9c, to the Pacific Fisheries.

Venus, 8,500 pounds, at 18.7c and 9c, to the Canadian Fish & Cold Storage Co.

Democrat, 18,000 pounds, at 18.6c and 9c, to the Canadian Fish & Cold Storage Co.

Mab, 1,500 pounds, and Baisey, 500 pounds, to the Canadian Fish & Cold Storage Co.

### NOVEL METHOD TO ENCOURAGE BUILDING

VICTORIA, March 19.—That the city encourage building by allowing ten years' taxation exemption on all buildings erected here this year is the proposal which Alderman E. S. Woodward will lay before the city council when it considers the amount of the improvement levy for 1923.

"This is the system adopted with such extraordinary success by New York City," Alderman Woodward explained. "After the war New York was faced with a housing shortage. To encourage building it decided to allow taxation exemption for ten years for all buildings started in 1921. As a result fifty thousand houses were started and the exemption was renewed for buildings started the following year."

"Whether we have government control or prohibition we shall not have perfection, and I place more confidence in education and moral restraint than in any law," Mr. Pauline went on.

Mr. Pauline referred to Mr. Bowser's charges of extravagance. These charges carried little weight, coming as they did from a party which, among other things, had projected the P.G.E. to win an election.

### FAILS TO MOVE CITY COUNCIL

(continued from page one)

had been obtained without difficulty under the adverse weather conditions of the past few days. No doubt the number could have been doubled. As it was many of the signatures were of tax-payers. He had no apology to make for being present in support of the petition.

### Making Low Wages

"I am quite sure that this council had the intention of doing the people's will and giving a square deal to all but I do not think that a reduction in the rate of pay of labor from 65c to 50c an hour is the will of the people," declared the archdeacon. He had heard and had proved for himself that laborers had been making less than \$100 a month. The council must agree that \$75, \$80, \$85 or \$90 a month was not sufficient to keep a married man and his family in a city like Prince Rupert, which was an expensive place to live in. It was impossible for a self-respecting man to hold his head up and pay his way under such conditions.

If the railway company paid the wages he heard it paid, it should be ashamed, but that was no reason why the city should follow its example. The employees had simply asked for a conference to discuss the matter and had not threatened a strike. Companies

everywhere were following the policy of consulting employees on such a question and such a policy should be followed by the city council. The only way a Conciliation Board could now be obtained was with the consent of the council. He felt certain that the large majority of the citizens favored such a course. He had yet to meet a citizen who agreed with such a large reduction in wages as had been decided upon. With such a petition as was now before the council, it must realize that the general opinion was that the employees had not been given a square deal. Economy animals were subject to punishment. If the city's wage reduction did not enable its employees and their families the minimum standard of living it was in the spirit of the law in the same position as the man who ill treated his horse or ox. The Labor

reduction made in wages was unheard of, being more than 20 per cent. If the council had been a board of directors of a company it would have had to have submitted to arbitration whether it wanted to or not and failing to do so would have faced a fine of \$4,000 a day. The council was not up against anything like that but it would seem unfair for it to take advantage of such a technicality in the law.

T. Ross Mackay said a person who drove a horse with an ill fitting shoe or failed to feed his animal was subject to punishment. If the city's wage reduction did not enable its employees

## The Greatest Asset Of Any Business

The leading men in control of any organization are the most valuable asset of the concern—the power to plan, build and execute.

Therefore, it is quite logical to place a definite property value on such brains, in their relation to the particular organization, and it is business wisdom and propriety to insure this against loss.

No one disputes the advisability of Fire Insurance for property. Life Insurance on the individual—for the benefit of the business—is even more important. Fire may never occur. Death must come. And there is no salvage to human life. Is your business protected against the inevitable?

about economy by reducing wages. The employees wanted peace and harmony but he could foresee nothing but trouble if the new scale was put into effect. He felt sure, however, that if the council could be shown it had made a mistake that it would be ready to rectify it and submit to a board of conciliation and appoint its representative.

### Nothing to Lose

The mayor explained that a board of conciliation would cost the city nothing. He failed to see where the city stood to lose anything by it. If it would be a means towards bringing about better feeling between the city and its employees, surely it would be better than to let things drift the way they were going at present. Because men would not work for 50c an hour, ears with lumber for the city were lying

unloaded in the railway yards and demurrage charges were about to accrue. That was but a small matter however, as compared to the trouble that might arise. Personally, he would like to see the council agree to a conciliation board in the hope of an amicable arrangement being reached.

Ald. Macdonald, stating his feeling that the mandate of the petition and deputation should be listened to by the council in fairness to the citizens as a whole, moved that the council name a representative to the conciliation board. This was seconded by Ald. Mackenzie.

### Firemen and Police

Ald. Munro favored a policy of negotiation but could not support such a request coming from the Civic Employees' Union con-

cerned. Firemen and policemen belonging to a Union.

Ald. Stephens also felt that the Civic Employees' Union could be the cause of much trouble. The only reason there had not already been trouble was because of the good quality of citizens that comprised its membership.

Ald. Macdonald defended the Union and stated that there was little danger of trouble through the firemen and policemen belonging to the Union. The firemen could not strike if they wanted to without a three-fifths vote of the Union. In other cities, organization of the police and fire departments had been successful. Vancouver departments were organized and their efficiency was well known.

On the motion being put, it was lost only Ald. Macdonald and Ald. Mackenzie voting for it.

## RAISE \$10,000 FOR CAMPAIGN

Meeting of Eighty Businessmen  
in Victoria Passes Resolution  
For Prohibition

VICTORIA, March 20.—"Huge sums of money" are being "diverted from the channels of trade" and sent out of British Columbia under the present system of government liquor control which is "crippling industry and impoverishing the homes of our people and depriving women and children of the necessities of life."

This is the charge made in a strongly-worded resolution demanding the re-enactment of prohibition, and passed at a meeting of about eighty business men in the Chamber of Commerce Rooms under the auspices of the Prohibition party, with Rev. William Stevenson in the chair. Passage of this resolution followed an address by Rev. A. E. Cooke, president of the British Columbia Prohibition Association, who announced plans for an extensive campaign to bring back prohibition in this province.

The resolution, proposed by Arthur Lee, seconded by ex-Mayor William Marchant and passed by the businessmen, follows:

### The Resolution

"Resolved that this meeting of Victoria business men views with grave apprehension the extensive sales of alcoholic liquors under the system of government sale prevailing in British Columbia."

"We call upon all the business men and generally upon all the citizens of the province to support the British Columbia Prohibition Association in its efforts to make known the enormous evils of the liquor traffic in British Columbia and strongly urge the repeal of the Government Liquor Act and the re-enactment of a Prohibition Act as the best means of restoring normal conditions of trade in British Columbia."

British Columbia under so-called "moderation" has become the Mecca for liquor outlaws, gunmen and undesirables from all over North America until its reputation "stinks in the nostrils" of decent Americans, Mr. Cooke said in his address. He announced that a campaign fund of \$10,000 was being raised in British Columbia this year for the purpose of bringing about a new liquor referendum. This, he said, would give the people a chance to scrap the present liquor system and re-inaugurate prohibition. If prohibitionists could get the facts of the present situation before the people prohibition would be re-enacted, he believed. Mr. Cooke said that \$2,000 had been set as Victoria's quota of the \$10,000 campaign fund and asked business men here to contribute this money.

"We strongly condemn the obnoxious efforts of the Liquor Control Board to increase such sales by keeping open the government stores on the Wednesday half-holiday and upon hours after ordinary business hours are closed; and by opening 63 liquor stores to supply our population of 123,369 as contrasted with the province of Saskatchewan, which under government sale opened 23

## SYNOPSIS OF LAND ACT AMENDMENTS

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished but parties of not more than four may arrange for adjacent pre-emption.

A joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of land, etc., before receiving Crown grant.

Where pre-emptor in occupation more than 3 years and has made proportionate improvements, he may be entitled to health certificate, cause to be granted intermediate certificate of improvement and transfer his claim.

Pre-emptor holding Crown Grant may record another pre-emption, if he remains in continuous use of his farm without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas not exceeding 20 acres may be leased as homesteads, title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes or record same will operate as rottentitle. Title cannot be obtained in less than 2 years, and improvements of \$10 per acre, including 5 acres cleared and cultivated and residence of at least 2 years are required.

Mr. Cooke said he had been told by a professional man "on the inside" that seventy-five per cent of the business men of Vancouver would quit business if they were forced to pay their arrears of taxes and rent. It was time that business men began to realize that people's money was being spent on liquor instead of the necessities of life.

"If you business men want to restore prosperity, get up on your hind legs and see that this system is abolished in spite of every politician and the wet press of this country," he urged.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued to date of record since August 4, 1914, on account of payment, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Armed Forces. Beneficiaries acquired direct or indirectly from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchases involving forfeiture, on fulfillment of conditions of purchase interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole or part applications must be made by May 1, 1920.
