RUHR VALLEY TO BE ISOLATED ENTIRELY LUMBERING ACTIVITIES ON GRAHAM ISLAND STEADILY GROWING IN SCOPE

French Undertake Move to Cut off Industrial District from Germany

DUSSELDORF, Feb. 1.—The closing of the Dortmund gate, the only remaining exit into unoccupied Germany, was undertaken by the French this morning in order to complete the isolation of the Ruhr valley.

Yesterday's coal production was slightly more than fifty thousand tons which is less than half of the usual amount. The prohibition of the export of coal and coke from the Ruhr to unoccupied Germany has been in force since midnight. There has been no reaction by the Germans up to one o'clock this afternoon.

The French announce that should Germany fail to come to terms, the interdiction upon exports will be extended to include iron and other manufactured articles now permitted to leave Germany.

The railway strike is still in force.

GRANBY BUYS NEW PROPERTY

MEETING OF CAPITAL STOCK OF COMPANY TO BE AUTHORIZED NEXT WEEK AT MEETING

VANCOUVER, Feb. 1.—A special meeting of the shareholders of the Granby Company has been called for February 8, to authorize an increase in the capital stock of the company from 200,000 shares to 500,000 shares and to ratify the purchase of the Canada Copper Co., having therefor 155,000 shares of Granby, Canada Copper Co. shares and to reserve total 10,000,000 shares and Granby's about 5,000,000 tons. Canada Copper's 2,000 ton mill at Princeton is to be put in condition to cost \$800,000 is to be spent on Princeton property to put it in first-class shape. All who own the property, feel that the consummation of this deal will allow the great Princeton property to demonstrate its real value.

In spite of the Ruhr trouble interfering with copper exports to many, copper sales are holding up, and prices firming. Indications are that copper prices is here to stay. The copper business has had tough sledding, but the future looks very bright and B.C. should share the prosperity.

DEATH OF PRINCESS BEATRICE MUST BE WHOLLY REPLACED

The whole bow of the steamer Princess Beatrice will have to be cut out and be replaced with new timbers as a result of the damage sustained by the vessel in her collision with the Camosun here recently. The ship is present at Yarrow's in Esquimalt and will not likely be back in service for three weeks, it is stated in southern papers.

FORBIDS SHIPMENT OF COAL TO ITALY

PARIS, Feb. 1.—Forbidding shipment of coal from the unoccupied part of Germany, the French have automatically cut off the supply to Italy.

MINE MANAGER DIES

NANAIMO, Feb. 1.—Thomas Hills, mine manager and prospector on Vancouver Island for the past thirty years died here yesterday.

BIG CAPTURE IRREGULARS

Twenty-four Taken by Free State Army — Arms in Possession

DUBLIN, Feb. 1.—Twenty-four irregulars, believed to be members and leaders of the Active Service Union who have been responsible for many recent attacks on the National troops in Dublin, have been captured after extensive raids and searches conducted by the Free State army last night and today. Most of the men captured were in possession of arms and ammunition when taken.

PRICE OF LEAD GOES UP TO EIGHT CENTS

VANCOUVER, Feb. 1.—Burdick, Logan & Co., Ltd., report the price of lead eight cents a pound, the highest since April 1920. The rise is caused by the continued excess of demand over supply. The zinc market is a trifle easier at 7 1/2 cents. The output from 80,863 retorts in operation at the smelters amounted to 42,841 tons in December.

REFUSES DEMAND

LONDON, Feb. 1.—Bonar Law has refused the demand of the labor members that Parliament be assembled earlier than the thirteenth to discuss the Ruhr situation.

Committee of Inquiry is to be Appointed for an Investigation into Booth School Construction

At the meeting of the school board last night W. E. Fisher, legal adviser to the board, advised against taking legal action in regard to the Booth School matter. He outlined the proceedings which would have to be taken in conducting a judicial inquiry and said that no one could tell what the cost would be.

The whole matter was discussed at length and it was then moved by Trustee Casey, and seconded by Trustee McLennan, that the city council, the board of trade, the school board, and the trades and labor council be each asked to appoint a representative on a committee to make a full public inquiry with power to examine everything pertaining to the Booth School construction including the minutes of all meetings of the Board and contracts entered into. The meetings of the committee are to be held in public and at those meetings any person other than the committee will be entitled to ask questions or bring information.

The committee will also be given power to ask for an audit of the books and accounts and will get other information as they may think necessary.

The school board will await the report of this committee before deciding whether legal or other action shall be taken.

RUHR CHEERED BY WILD RUMOR

German Papers Said War Certain Between France and England

ESSEX, Feb. 1.—Ruhr forgot its troubles last night upon receipt of despatches from German sources announcing a final break between England and France over the Near East situation. "Certain War Between Great Britain and France" read the headlines of one news paper extra. Great crowds gathered for the first time in three weeks. Great joy was expressed and the Ruhr bulletin newspaper boards were crowded with tumultuous cheers. Extra newspaper editions sold readily for 100 marks a copy. The French authorities here announced no break in their diplomatic relations with England.

LUMBERMEN WILL BE LATE IN ARRIVING

Westbound Passenger Train Running Over an Hour Behind Time With Another Slide to Pass

Tonight's westbound passenger train, carrying the Western Retail Lumbermen's tour party, was one hour and ten minutes late in leaving Pacific today so will be at least that much late in arriving here this evening bringing her time to 6:10. The delay at Pacific was caused by a slide. There is also another slide at Kaien but this, it is expected, will be cleared in time to let the train by when she arrives there.

BATTLING SIKI IS BARRED FROM BRITAIN GOVERNMENT ORDERS

LONDON, Feb. 1.—The British Home Office has refused permission to Battling Siki to land in Britain where the promoters had bouts waiting for him.

GERMAN MINERS ASK FOR DOUBLE WAGES

PARIS, Feb. 1.—The miners in the Saar Valley will strike on Saturday unless their wages are doubled. The demands are based on economic and not on political grounds.

CHASED RUM RUNNER AROUND NEW YORK HARBOR WITH GUNS

NEW YORK, Feb. 1.—The police boat Manhattan chased the auxiliary sloop Jennie Forrest all round the harbor here, raking the sloop with machine gunfire before the alleged rum runner was captured.

PRESENTATION TO OFFICIALS

City Hall Staff Last Night Gave Mr. Woods Cigarette Holder and Mr. Vance, Sterling Silver Case

The office staff of the city hall last night gathered in the city council chamber and presented Ernest A. Woods, the retiring city clerk with a pearl and gold mounted cigarette holder, and W. D. Vance, the retiring treasurer, with a monogrammed sterling silver cigarette case. Brief addresses of farewell and appreciation of long and pleasant association were read and presented to Mr. Woods and Mr. Vance. The entire office staff was present at the ceremony including the fire chief, city solicitor and superintendent of utilities.

BOUNTY FOR FISHERMEN

Provided for in Order-in-Council Passed at Ottawa

OTTAWA, Feb. 1.—Provision has been made by an order-in-council for the payment of bounties to owners of fishing vessels and to fishermen as follows:

Owners of vessels a dollar per registered tonnage not to exceed a total of \$80 per vessel and to vessel fishermen, \$6.95 each.

Boat fishermen complying with regulations to receive \$5.35 each.

Boat owners a dollar per boat.

BABIES LOST LIVES IN ONTARIO FIRE

BANCROFT, Feb. 1.—When the farm house of William Thompson of North Hastings was destroyed by fire early on Tuesday, three children aged respectively two, eight and ten were killed while the older son was fatally burned and frost bitten in his efforts to save the babies.

BLUE FUNNEL LINE TO HAVE OWN PILOT

VICTORIA, Feb. 1.—Capt. J. Gosse, the veteran pilot, has resigned from the British Columbia Pilots Association to accept a position as company pilot for the Blue Funnel Line.

W. S. Featherstonhaugh, C.N.R. district engineer, whose transfer to Calgary was announced yesterday, leaves on tomorrow night's train for Calgary to enter upon his new duties. He will be back, however, in about a week's time to clear up his work here. Mrs. Featherstonhaugh and family will not be moving for a while yet.

CANADIAN MURDERED

Body of Travers Allan, Nephew of Sir Montagu, Found Near Luxor on Nile

CAIRO, Feb. 1.—The body of the Canadian who was reported missing from a private steamer on the Nile river was found yesterday and has been identified as that of Travers Allan, of Montreal, nephew of Sir Montagu Allan, deceased, who was 45 years of age and unmarried, was murdered and robbed two miles from Luxor.

CITY OFFICIALS LEFT OFFICES LAST NIGHT

E. S. Allistone is Acting as City Clerk and Harry W. Birch, As Treasurer

E. S. Allistone was appointed by the Finance Committee last night to be acting clerk until Ernest F. Jones, the new appointee, arrives from Vancouver to take over his duties. E. A. Woods, the late incumbent of the office terminated his service with the city last night as did also T. G. Hooper, city solicitor, T. C. Duncan, superintendent of utilities, W. D. Vance, city treasurer, and F. J. Whittaker, city engineer. Harry Birch is acting treasurer pending the arrival of J. H. A. Fitzalan, the new treasurer, from Vegreville, Alb.

IRISH RAILWAYMAN MAKES HIS ESCAPE

DUBLIN, Feb. 1.—Senator John Bagwell, general manager of the Great Northern Railway, who was kidnapped on Tuesday night last, is again free according to a semi-official announcement.

As to whether he was released or escaped is unknown.

Four Features Forecasted for Present Session of Parliament in Speech from Throne Yesterday

OTTAWA, Jan. 31.—In the speech from the throne at the opening of Parliament yesterday, gratification was expressed that from a period of world-wide trade depression following the war, Canada had made substantial progress toward recovery. The speech referred to trade conventions reached with France and Italy, the appointment of a new board of directors for the Canadian National railways, a commission to inquire into freight rates on the Great Lakes, and the agreement reached with Great Britain in regard to the removal of the cattle embargo. Four outstanding forecasts of legislation were made as follows:

1. A bill to safeguard the interests of the consumers and producers from undue enhancement of prices or unfair restriction of trade.
2. The appointment of a special committee to look into such agricultural matters as the mixing of grain in terminal elevators, etc.
3. Revision of the Bank Act.
4. A redistribution Bill.

The speech further referred to additional advertising and a general publicity campaign in Great Britain to secure settlers for the land, the decisions reached at the postal conference and the gift by France to Canada of 250 acres of land on Vimy Ridge.

OTTAWA, Feb. 1.—The promise in the speech from the throne of a bill to safeguard the interests of consumers and producers from undue enhancement in prices or unfair restrictions to trade by combines, monopolies, trusts or mergers is believed to be a proposal to now place before parliament a similar bill to that which some years ago, was placed on the statute books when the present Premier was Minister of Labor. Under that Bill two or three consumers or producers could themselves go before a judge and ask for investigation into alleged trusts or combines. With the passage a few years ago of the Board of Commerce Legislation the act ceased to be effective.

Reviving Old Act

OTTAWA, Feb. 1.—The promise in the speech from the throne of a bill to safeguard the interests of consumers and producers from undue enhancement in prices or unfair restrictions to trade by combines, monopolies, trusts or mergers is believed to be a proposal to now place before parliament a similar bill to that which some years ago, was placed on the statute books when the present Premier was Minister of Labor. Under that Bill two or three consumers or producers could themselves go before a judge and ask for investigation into alleged trusts or combines. With the passage a few years ago of the Board of Commerce Legislation the act ceased to be effective.

First Lumber Schooner for Buckley Bay is at Anyox with Oil Cargo

Will Proceed to Mill to Load Cants for Los Angeles---Double Shift to be Started---Third Seattle Schooner Berths.

The first of the Massett Timber Co.'s steam schooners, which are to be used in carrying cants from the Buckley Bay sawmill to Los Angeles for remanufacture, is at present at Anyox discharging a cargo of fuel oil which she brought north from San Francisco. Information to this effect was received this morning on the steamer Prince John which is in port from Buckley Bay. After unloading her oil at Anyox, the schooner will proceed to Buckley Bay to take on her cargo of rough lumber for Los Angeles. Arrangements have been made to have these schooners bring oil north instead of coming light and this will be the regular business of the boats which are in reality combination oil and lumber carriers. The cargo which the first schooner has is understood to be from the Union Oil Co. The schooner's return cargo of lumber for Los Angeles is now cut and ready for loading at Buckley Bay.

The mill at Buckley Bay is running full blast at single shift and, according to word brought to the city yesterday, arrangements are being made to start a double shift in the near future.

SKATED RINGS AROUND SASKATOON VISITORS SEATTLE LAST NIGHT

SEATTLE, Feb. 1.—The Metropolitan skated rings around the Saskatoon Crescents, defeating them 7 to 4 in the final game of the Saskatoons on the coast tour. Other hockey results were:

National League
Hamilton 4, Montreal 5; at Montreal.

Western Canada League
Regina 3, Edmonton 12; at Edmonton.

REFUSES PERMIT FOR DEMPSEY-WILLARD BOUT

NEWARK, N.J., Feb. 1.—The New Jersey boxing commission has refused a permit for the Dempsey-Willard bout in New Jersey.

+ Beginners will not be received on February 1, at any of the Public Schools.
+ W. D. Vance, Secretary.

How To Estimate Value Of Teacher.

There is a tendency among people who have not been closely identified with teaching to estimate the value of a school teacher according to the results in passes. They would make the teacher into a machine and the more stuffing that machine could do, as shown by subsequent examinations, the more credit the teacher would get.

If the end and aim in life was the passing of examinations, then the examination method would be the only test of teaching ability. As the work of the school is to fit the pupils for life work generally it can readily be seen that it is impossible to gauge this by mechanical results.

One way in which our democracy fails and fails lamentably is in placing education matters in the hands of men and women who have never studied it and who base their estimates of ability simply on pass lists. There have been teachers in British Columbia who have always got the very highest marks for their pupils but yet the product of whose classes have been the most useless unadaptable pieces of human mechanism that could be found in the country.

Great Value Of Real Teachers.

The teacher is the most valuable worker in any community or should be. If she is not, it is time there was a change. The commodity with which the teacher has to work is plastic as clay, variable as the wind, and valuable as the finest diamond. To a parent, the child should be the most valuable thing in the world. To the community the next generation should be the chief consideration in everything they do.

Course Of Study For All Trustees.

Instead of having a property qualification for school trustees, we suggest that the department of education should secure powers from the legislature to examine all trustees before allowing them to take their seats on the board. The matter of correct spelling or grammatical construction or even ability to add up columns of dollars and cents should not be included in this test.

All parents would do well to take up some of these subjects but especially he who seeks to control the destinies of the communal education of the young.

Mechanics Of Education Of Small Importance.

What might be called the mechanics of education, while important in their way, yet on the whole are of relatively little importance. It is desirable that a pupil should read well, write well, should manipulate figures according to the simple rules, and even should be able to spell ordinary words.

In the Letter Box

ESSENTIALS FOR SETTLERS

Editor Daily News. The few residents of the Queen Charlotte Islands are not asking for an influx of settlers without means or the disposition to face whatsoever betides in a new country. It is all very well for those living in the cities, on the proceeds of the taxes on outlying lands, to belittle the people who go into the wilds and hew out a home, as some ambitious writer has done in the Christmas number of an Eastern Magazine.

When we talk of the possibilities of a country and buy our produce, furniture and other wares in foreign countries, we know little of, and appreciate less, the manner of assisting our own race. The Asiatics have opened our door, and poured into the country until even those who brought them here are beginning to complain.

Outpost of Empire

We have seen this province grow in the last sixty years. We have witnessed the struggles of the settler, and the drawbacks the pioneer encountered. British Columbia is a good portion of this large Dominion and the Queen Charlotte Islands form the "Outpost of Empire."

The writer of an article, published in the Christmas number of McClure's magazine, who expected to ride in an automobile along paved roads to the black sand deposits on the East coast of Graham Island; who expected to pick up the glittering precious metal along the sandy shore; who invested in town lots, eventually found his proper working place in a salmon cannery.

that they will become better known and properly understood. The curse of the country has been the investment of money by those who expected to reap rich reward without consideration of the people the investor has been dealing with. We have always advised those seeking homes or investment to visit the islands and see for themselves conditions as they are, and the prospects of obtaining fair returns for capital invested.

WILL EDMUNDS AS POPULAR AS EVER

His Numbers Delighted Audience at Westholme Last Night—Picture is Also Fine One

Will Edmunds, whose abilities as a cello soloist and black-face comedian are well known to all Prince Rupert people, delighted the audiences at the Westholme Theatre last night on his re-appearance in these roles. He demonstrated that he has lost none of his skill as an instrumentalist and none of his pep as a singer of darktown melodies.

Besides Mr. Edmunds' entertainment, the program includes a splendid Paramount picture, "The Woman Who Walked Alone," featuring the ever-popular star, Dorothy Dalton.

SMOKE OGDEN'S CUT PLUG

There is also a very funny Christie Comedy to round off the program.

MAKE PROVISION FOR DENTAL CLINIC IN THE PUBLIC SCHOOLS

Provision was made in the school estimates by the school-board last night for the establishment of a dental clinic where pupils whose parents could not afford dental treatment could get the service free of charge.

S. E. Parker reported having interviewed the dentists of the city in regard to the matter and while all favored it, there were varied estimates of the probable cost. One man suggested \$8,000 a year as the probable cost.

STATE CONTROL OF INDUSTRIES NOT SUCCESS

Australia is Already Ridding Itself of Incubus by Selling Out

WASHINGTON, Feb. 1. — (By Canadian Press.)—Control of industries by government, both Commonwealth and State, for long characteristic of business activity in Australia, is beginning to lose favor. So says F. R. Eldredge, chief of the Far Eastern Division of the U.S. Department of Commerce in a report which has just been issued.

Operates Factories

The Australian government owns and operates a shipping line as well as a shipyard, a considerable part of the railways, and also the production and distribution of sugar and metal. All of the States operate railroads, and in Victoria, says Mr. Eldredge, the State operates eleven separate undertakings ranging from beet-sugar production to accident insurance. New South Wales similarly conducts among other things a sawmill, a bakery and a motor garage. Increased opposition to such interference with individual enterprise is now so marked, however, that it is expected government control may soon be confined to public utilities.

"The isolation and comparative youth of Australia," remarks Mr. Eldredge, "have been great factors in inducing the governments to constitute themselves the centres for business enterprise, but this tendency is giving way with the improvement of communications and transportation."

Refused to Extend

The latest indication of the tendency away from government control, he says, was the recent overwhelming defeat by the shareholders of the proposal that the British Australia Wool Realization Association (commonly known as Bawra) extend its fundamental operations and become a central selling agency for all Australian primary products. The Bawra was created primarily to provide an organization to dispose of the carry-over wool from previous clips and to protect the interests of the wool trade during the transition period from abnormal war time conditions to normal peace times.

While the Bawra at present is an independent agency, it was induced by prominent government officials, and it was quite evidently feared that should the association fail in its program, the government stood ready to assume control.

Will Sell Out

"The New South Wales government has begun to abolish the various State industries set up by the former labor governments," the report adds. "These industries include many and various undertakings, but each one is burdened by a staff of administrators. It is the intention of the government to sell most of these industries and to confine the rest to operating for purely State requirements."

J. Hodgson, C.G.M.M. foreman carpenter, arrived from Vancouver on the Prince George yesterday afternoon. He is here in connection with the overhaul of the steamer Prince Albert which is at present in dry dock.

Mixing Tomato Soup

Mrs. Henderson has written to thank us for a cream of tomato soup recipe we sent her. She says it is the only one she has tried so far that does not curdle into lumps. If any other woman would care for this recipe we shall be glad to send a copy. Mrs. H. says she believes it is Pacific Milk which keeps the soup from curdling, but really it is the way it is mixed.

'WHAT YOUR HUSBAND NEEDS'

"One night my husband came home looking so ill and worn out that I thought he would faint. I knew there had been something wrong with him for some time, but I could not get him to tell me what it was. Finally he confessed he was tired and sore all over. I made him go to bed. Next morning he insisted upon going to work although he was anything but well. I knew that his trouble was partly due to worry because for some months before he had been out of work. This put us so heavily in debt that the grocer and butcher refused to give us more credit. It was being out of work that worried my husband. He wouldn't eat because he was afraid there would not be enough food for the children. We were so poor that we had to keep the children from school because they had no clothes. I knew that if I could only get my husband strong and well again everything would be all right. He is a carpenter by trade and when in good health earns good wages and he is always sober and industrious. But I knew that it was impossible for any man to do good work when he was ill and worried. I decided to speak to our old family doctor, who had retired from practice. When I explained how we were situated he gladly offered to do all he could to help us, although he didn't like to interfere with the new doctor's practice. Finally he said, 'What your husband needs is a good tonic and I know of nothing better than Carnol. I thought that if our old family doctor recommends Carnol it must be all right. On my way home I got a bottle and before the first bottle had been used, my husband was a changed man. After he had taken four bottles his appetite returned, he had more energy, that tired look in his eyes disappeared and what is most important his wages have been more than doubled and he is now superintendent of the wood working shop in which he formerly worked as a carpenter. Thanks to Carnol our troubles are over and we are once more a happy and contented family.'"

Carnol is sold by your druggist, and if you can conscientiously say, after you have tried it, that it hasn't done you any good, return the empty bottle to him and he will refund your money.

Sold by Ormes' Drug Store and McCutcheon's Drug Store.

The Man in the Moon SAYS:-

WHAT about organizing a "Stay at Home Club." There is all sorts of opportunity for effective work in that line.

IT'S hardly worth while making a mark in the world. You can buy a thousand marks for a few cents.

NOW that peace has returned to Ireland and the war against Germany is won, what about turning our attention to farming or some such exciting occupation

COLE says: "Every day in every way we howl louder and louder.

SOME people work in order that they may have something to boast about and others never work for the same reason.

SOMEONE objects to what I said about new laid eggs. I also have discovered the error of my way. Speaking from a Prince Rupert point of view the article is a minus quantity.

NO politician likes eggs. They are too suggestive.

NO one objects to the saying "Eggs is Eggs," but what I would like to know is stale eggs eggs."

SILVERADO MINE HAS BEEN BONDED BY THE SILVER BELL COMPANY

The Silverado mining property at Stewart has been bonded to the Silver Bell Mining Company, of Seattle, says the Alice Arm Herald. Tenders are now being called for a 100 foot extension of the present tunnel. The Silverado is owned by John Haabti, and bond was taken on the property by H. J. Conchian and associates in the fall of 1921. They did considerable work on the property, closing down last spring, and the bond expired on December 31st. The property is situated above the mouth of the Bear River, near the town of Stewart, at an elevation of some 4,000 feet.

PROWLING WOLVES AT KETCHIKAN, ALASKA

Man Claims to Have Been Surrounded by Hungry Animals Close to Town

KETCHIKAN, Feb. 1.—Wolves are within the three mile limit. Not the wolves of the prohibition traffic, but the gaunt, hungry, howling wolves of Little Red Riding Hood fame and the howls of our childhood days.

Walter Anderson, employee of the Citizens Light, Power and Water Company, not only saw wolves on Friday afternoon but was at one time entirely surrounded by a band of this species of animal, about two hundred yards off the Charcoal Point road, opposite the Smiley cannery.

Anderson went to this point late Friday afternoon to repair a leak in one of the company's mains. He had hardly commenced work when he noticed a pack of wolves closing in on him. They circled around him in Indian fashion, closing in all the time, until he decided that a battle with wolves, when armed with a Stilson wrench, can be done much better in Hollywood than Ketchikan, and adjourned the meeting while he came to town for a rifle.

When Anderson returned to the scene with his gun, the wolves had departed, destination not known.

CHURCH ARMY PAYS METLAKATLA VISIT

Thirty Three Natives Arrive From Kitkatla—Later Go-Inn to Port Simpson

Thirty-three natives, members of the Anglican Church army, arrived at Metlakatla from Kitkatla this week and are now holding revival services at the neighboring village. They will remain here for some days and will then go to Port Simpson. The band includes six instrumentalists and is headed by James Lewis and Henry Brown.

Ten Years Ago in Prince Rupert

February 1, 1913.

The following were elected members of the council of the Board of Trade at the annual meeting last night: J. H. Thompson, F. H. Mobley, A. J. Morris, A. E. McMaster, G. D. Tito, Douglas Sutherland, W. E. Williams, M. P. McGaffery, J. G. Scott, W. P. Lynch, J. G. McNab, Lee Baker, H. B. Rochester, H. F. McRae and S. P. McMorris.

D. G. Stewart and O. H. Nelson were elected president and vice-president of the Hospital Board at the first meeting of the new directors yesterday afternoon.

Capt. Tuttle, in charge of the Salvation Army here, has just been notified of his transfer to Lethbridge.

The Prince Rupert Indoor Baseball League has been formed with the following officers: President, Rev. W. H. McLeod; Vice-president, D. B. Taylor; Secretary-Treasurer, Frank Pratt

The Overseas Club has elected the following officers for the year:

Husband Didn't Dare Leave Her Alone Heart Was So Bad

Those feelings of faintness, those dizzy spells, the all-gone sinking sensations which come on from time to time indicate a weakened condition of the heart and a disordered state of the nerves.

Milburn's Heart and Nerve Pills

have no equal as a remedy to strengthen the heart, invigorate the nerves and build up the run-down system. Mrs. C. Vanhorn, Eckville, Alta., writes: "About a year ago I had heart trouble. My husband didn't dare leave me alone, and often had to stay up at night with me. I would just feel kind of faint and my heart would seem to stop beating. I would just faint away, and it would bring me back to life, someone told me about Milburn's Heart and Nerve Pills. I got three boxes; I took them and felt much better, so continued all Winter, and now I never feel any such faintness. I surely do appreciate the good they have done for me." Price 50c a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

How often can We Advertise?

NOT How often should we Advertise?

WHY are the Canadian and American Manufacturers appropriating fifty per cent more dollars in Newspaper Advertising for the year 1923 than in 1922?

There's a Reason

BECAUSE they have implicit faith in the pulling power of Newspaper Advertising and in the future trade conditions for the coming year.

The daily newspaper has proved itself worthy of this tremendous responsibility and trust.

Men who spend millions of dollars on Newspaper Advertising yearly know what it has done for them in the past and feel safe in trusting their future fortunes to the advertising columns of the daily press.
