**Thirty Million Surplus But
For National Railways Says
Fielding: Warns His Opponents**

OTTAWA, Feb. 7.—The National Railways were the cause of a great deal of the Canadian government's trouble and expenditures, stated Hon. W. S. Fielding, minister of finance, in the debate on the address in reply to the speech from the throne yesterday in answering Arthur Meighen's statements regarding the increase in the national debt since Mackenzie King assumed the government of the country.

Mr. Fielding compared the increase in the national debt in 1922 with the increase of the two previous years showing a big improvement in 1923. The government, he said, would provide for everything and have a balance of \$30,000,000 on hand except for the national railways.

Mr. Fielding said he was not unmindful of national ownership but he realized that the country was in it and had better make the best of it.

Defining the attitude of the government toward the amendment of Mr. Healy and the amendment of Mr. Shaw to the address, the minister of finance said whatever the consequences, no self-respecting government could accept the amendments. They should be withdrawn. Those who thought the amendments did not constitute a vote of non-confidence must understand that their passage would impose consequences of the gravest character.

"Are we to have conditions such as face the turbulent states of Europe?" asked Mr. Fielding. "If these amendments are carried there is only one thing open to the government. You will produce a condition of political chaos in Canada, a condition not good for either political party or for the state."

Lifeboats and Ships Standing
By**

SAN FRANCISCO, Feb. 7.—Four hours after the passenger liner *Wilhelmina* collided with a wooden motorship *Sierra* at about 20 miles from here at 15 this morning, members of the crew of the *Sierra* were taken off in lifeboats, while the *Wilhelmina* was in no danger and undamaged except for a dented bow.

The *Sierra* was bound from Portland to a southern port with lumber. The vessels are reported standing by.

**PRINCESS ROYAL IS
COMING NEXT WEEK**

Owing to the Princess Beatrice being tied up for repairs, the Princess Royal will take the Prince Rupert run next week leaving Vancouver February 14 and arriving here on the following Saturday.

W. G. Orchard, the local agent, has received word that the Princess Beatrice is likely to resume the run leaving Vancouver on February 24.

Princess Mary bound to Skagway sails from Vancouver on Friday evening and will arrive here Monday morning.

TIMES SAYS FRANCE WILL BE TO BLAME

Greatest Danger to Peace of
Europe is Ruhr Says
Newspaper

LONDON, Feb. 7.—The Times in an editorial on the question of peace in Europe says that while deeming from the evidence of the past few days that the French people equally with the British do not desire to break down the entente, it remains convinced that the present greatest menace in Europe is the French government's policy of deliberate provocation of hostilities.

The Times adds that if the French government persists in extending the occupation of Ruhr, it will result in the final breakdown of the Versailles treaty.

GIANT IRRIGATION SCHEME IN ALBERTA

Two Large Districts Will Have
130,000 Acres Under Water
This Year

LETHBRIDGE, Alta., Feb. 7.—The year 1923 will see two large irrigation undertakings in Southern Alberta brought to a stage where the land will be "under the ditch," with water being delivered to the farmers' land.

The larger of these projects is the Lethbridge Northern Irrigation district, comprising some 220,000 acres of land, of which 105,000 acres are irrigable. In general terms this project lies between the Old Man and Little Bow Rivers, west and north of Lethbridge, and extending as far west as the pioneer town of Macleod. The smaller is known as the United Irrigation district, and lies in the foothill country west of Cardston and about 25 miles south of Macleod. This project is of 23,000 irrigable acres. The two projects will bring 130,000 acres of land under the ditch, or the equivalent of almost six townships.

Both projects were built during the past two years under the Alberta Irrigation District Act, and the financing was made possible by the guarantee of the districts' six per cent bonds by the provincial government. The bonds are 30 year bonds, interest only being paid the first ten years, and thereafter equal annual installments of principal are added.

The cost of the Lethbridge Northern will be just over \$40 per acre, while the United will get off with about \$25. The districts are, however, arranging to carry the interest charges until the end of 1923 as a capital charge, so that the Lethbridge Northern in the end will find the irrigation venture capitalized at \$50 per acre while the United will cost about \$30.

MOVE TOWN TO GET
IRON ORE FROM MINE

WASHINGTON, Feb. 7.—The town of Hibbing, Minn., with a population of more than 45,000, will be moved to enable the Oliver Iron Mining Company to mine the iron ore which underlies it, as a result of the recent action of the supreme court in dismissing a warrant of jurisdiction of the appeal of Henry P. Reed and others.

The mining company owns most of the land on which the town is located and when it was proposed that the people of Hibbing should move, Reed and 72 other residents made an unsuccessful court fight against the proposal.

Thus Assuring Themselves at Least a Play-off in the Intermediate Basketball League

Chicago has had the pennant-winning team in the National League eleven times. New York comes second with ten pennants

and Boston third with nine.

Brooklyn has won the flag five times, Pittsburgh four, and Philadelphia and Cincinnati once each.

The St. Louis Nationals have never finished at the top of the league nor in second place.

World's championships in the National League have been held as follows:

New York, 3; Chicago, 2; Boston, 1; Pittsburgh, 1; and Cincinnati, 1.

Only two cities, Chicago and Boston, have retained their franchises in the National League since its inception.

In addition to the eight cities now represented

in the National League, the following cities have held membership in the circuit (the length of their membership also is included): Cleveland, 17 years;

Washington, 12 years; Louisville, 9 years; Baltimore, Detroit and Providence, 8 years each; Buffalo, 7 years; Indianapolis and Troy, 4 years each; Worcester, 3 years; Hartford, 2 years; Syracuse, Milwaukee and Kansas City, one year each.

The Browns and the Blues of the Ladies' League.

There were no casualties, although the encounter was by no means devoid of all that goes with basketball.

The play was clean and keen, and when this league hits its stride sensational playing may be looked for.

The Blues won with a tally of eight points to four.

OVERTURNED URING LADY NEAR HOME FRANCOIS LAKE

On Friday, when a sleigh in which she was being driven was turned near her home on the bank of Francois Lake, J. J. Hickey received painful injuries, was severely bruised, another leg broken just above the knee, says the Burns Lake observer. Owing to the ice on Francois Lake being in a precarious condition it was impossible for Williams, of the Francois Lake, to attend the case and it was advisable to risk taking Hickey to the hospital.

Hickey brought the victim to Burns Lake and she was taken to the Burns hospital for treatment on Saturday morning's

SAYS COMPLETE P.G.E. IN YEAR

H. G. Perry of Prince George in Optimistic Tone at Smoker

H. G. Perry, M.L.A., made a ringing speech at the Liberal smoker when he dealt with the P.G.E. railway problem and gave substantial reasons why the line should be completed to that city, says the Prince George Citizen. In the course of his remarks he gave it as his conviction that the railway will be finished to Prince George within the next twelve months. He admitted the railway had few friends in the legislature and among the private members there were not more than one or two besides Mr. Yoston and himself, but he was satisfied the premier was in favor of finishing the line and he was equally sure the new minister of railways was of the same mind.

The legislature had passed a vote of \$50,000 for a survey of the resources of the country to be served by the railway and as soon as the snow was off the ground the premier and the minister of railways will visit the district and he was confident that they would give a satisfactory assurance for an early resumption of the work.

Tore Into Report

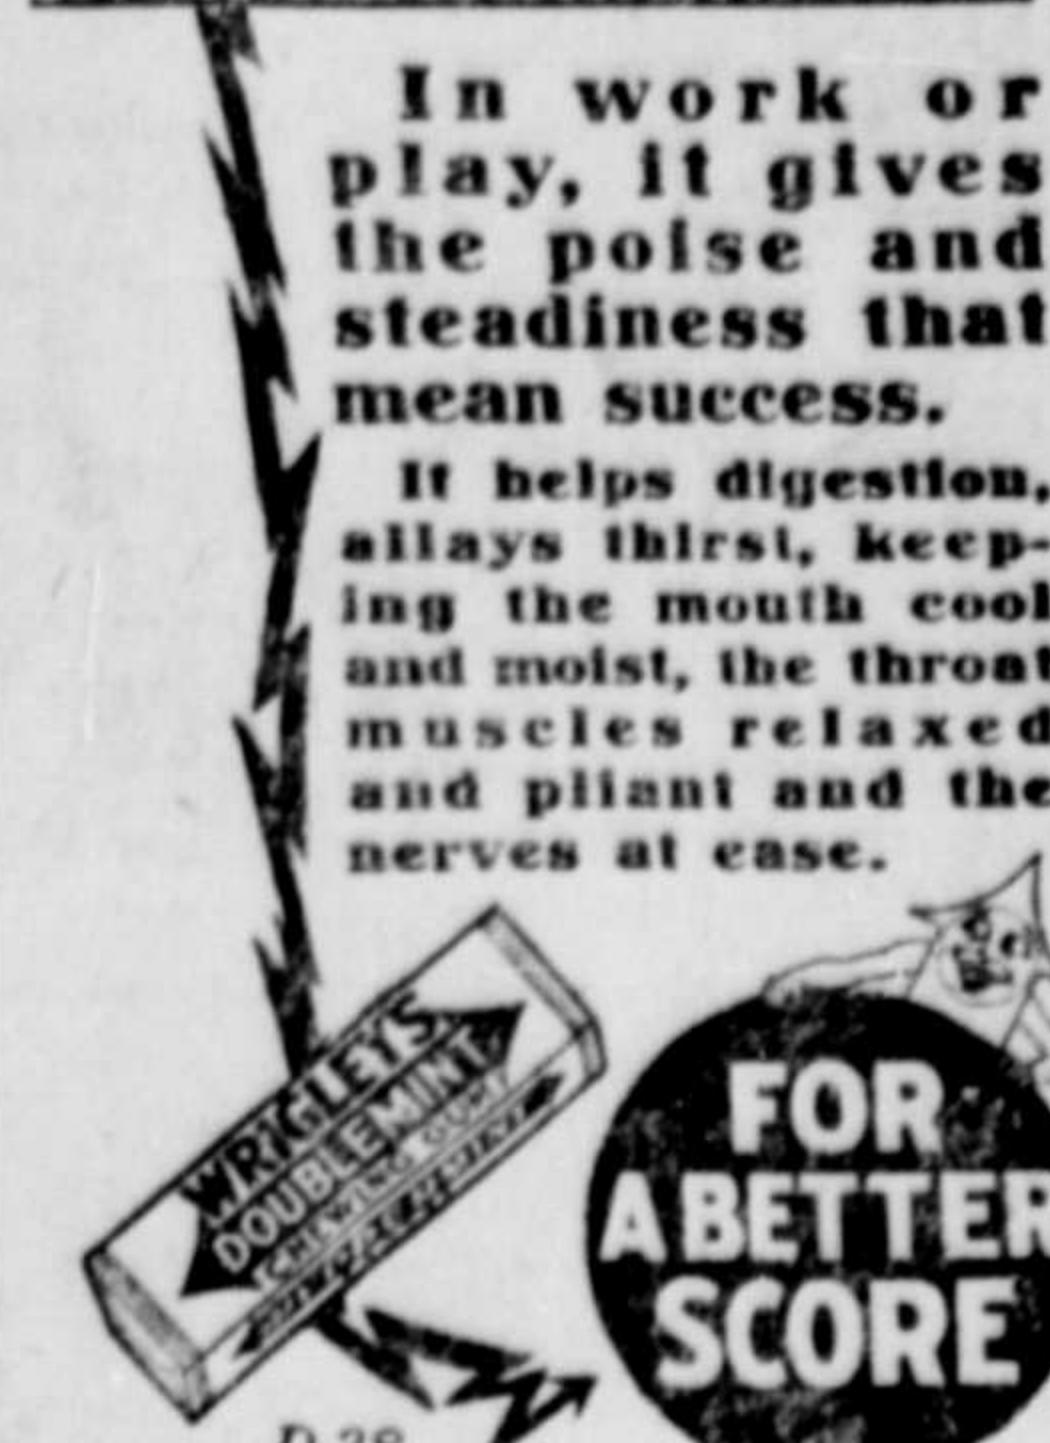

Mr. Perry tore the famous Sullivan report to pieces. He admitted it had a very damaging effect upon the fortunes of the railway quite out of proportion to that which would be accorded to it when the report was carefully examined. In the opinion of Mr. Perry the report of W. P. Hinton was entitled to greater consideration than either the report of Mr. Sullivan or that of J. S. Dennis. Mr. Hinton was much more familiar with the country through which the P.G.E. would run. From Quesnel north the information secured by Mr. Sullivan was gathered on a trip on the river from the Quesnel end, and by speeder over the seventeen-odd miles of road constructed from this point south. This was not a very intensive study upon which to base a railway policy for the great interior of the province—but if covered all the first-hand research which Mr. Sullivan gave to the question. Scant as it was however, it was more extensive than the study given to the district by Mr. Dennis. He pleaded guilty in his report to having made a trip at one time to a point twenty miles south of Prince George, on the west side of the river. This in itself could hardly qualify him to deal with the railway problem of the province, and more especially when it was remembered the railway is located on the east side of the river.

Hinton Better

The Hinton report was in favor of the completion of the railway to Prince George, and was supported by very sound reasoning. The completed line meant first economy in operation, the securing of an outlet to market for a considerable portion of the province, and the stimulation of settlement.

The Sullivan report, if it could be said to make any recommendation, said the line from Quesnel of the soil.

COMMUNITY LEAGUE OF ANYOX MEETS

Attempt to Make Ice Rink This Winter is Abandoned

ANYOX, Feb. 7.—At the regular weekly meeting of the Anyox Community League Council, held in Recreation Hall, Vice-President E. J. Conway occupied the chair, councillors present being Sec.-Treas. G. J. Lowry, Mrs. James McKay and F. Noel.

The secretary reported the abandonment of the attempt to make an ice rink at the Flats on account of the open nature of the winter, and told of the action taken to discontinue the effort. This was endorsed by the council.

Dealing with the formal opening of the new gymnasium, reports were made on the progress of the different committees.

A letter was read from President C. J. Ferguson, asking that his resignation as a member of the council be accepted as he had decided not to return to Anyox. The council accepted Mr. Ferguson's resignation with considerable regret. As the general election for councillors will take place later in the month, no attempt will be made to fill the vacancy caused by Mr. Ferguson's resignation at this time.

R. Armour forwarded a letter from a Mr. Goodman, welfare supervisor of the Scottish Cooperative Wholesale Society, an organization with headquarters in Glasgow and having a membership, as Mr. Armour explained in a covering note, of some 12,000 employees. Mr. Goodman's letter was in appreciation of the regular receipt of several copies of the "Granby News," the little paper which the Granby Company publishes in the interests of community welfare.

Other general business had to do with the installation of two drinking fountains in the new gymnasium, and the offer of F. Brown to conduct a gymnastic class on a certain number of mornings each week if admittance could be had to the building at six a.m. The council agreed that a key should be placed at Mr. Brown's disposal for this purpose.

EDMONTON OUT FOR INDUSTRIES

Board of Trade Would Grant Concessions to Those Establishing in City

EDMONTON, Feb. 6.—Encouragement of new industries to the city by granting concessions and the appointment of an industrial commissioner as recommended by the industrial committee of council was given the entire approval of the Board of Trade through a special committee of that organization appointed to investigate the matter with the committee of council. At a meeting of the two committees Thursday afternoon arrangements were made for immediately starting a publicity campaign which for the present will be handled by the Board of Trade, and later to be taken over by the industrial commissioner when he is appointed.

SPECIAL CONCESSIONS

The recommendations of Ald. A. U. G. Bury, chairman of the industrial committee to grant special concessions to any industries that could be induced to locate in the city was favored by the meeting. The concessions which will be offered are to be sites at low prices, leases of land at reasonable terms and utilities, the exact nature of which will have to be determined by the council.

It was made quite clear by the meeting that no inducement would be offered industries who would furnish unfair competition for industries already established in the city. An effort will be made as far as possible to secure new industries.

The industrial commissioner who will be appointed will be attached to the city land department. The meeting also suggested that the offices of the

Had an Awful Cold & Cough was confined to bed

Some coughs and colds seem hard to shake off—stick right to you in spite of what you do to get rid of them. These are the kind that are dangerous—the kind that weakens the lungs so that the germs of consumption find a ready foothold.

Obstinate coughs and colds yield to the grateful soothing properties of

Dr. Wood's Norway Pine Syrup

It soothes and heals the irritated lungs and bronchial tubes, cuts the phlegm, and aids nature clear away the morbid accumulations.

Mrs. Geo. D. Langdale, Barton, N. S. writes:—"In the year of 1920 I was taken with an awful cold and cough, and was confined to my bed for some time. I thought I was going into consumption. I commenced to use Dr. Wood's Norway Pine Syrup and found it to be an excellent remedy. I can highly recommend it to every sufferer from coughs and colds."

MUSIC INCITED RIOT IN INDIA

Hindus and Moslems Strive in City of Bangalore Over Religious Rights

BANGALORE, India, Feb. 7.—Friction between Hindu and Moslem communities has resulted in serious disturbances in Tiptur, in Mysore province, during recent weeks. Numerous assaults have been reported, and on several occasions the shops have had to close their doors. Special police forces have been called out, and now have the situation well under control.

The cause of these disturbances lies in part in the differing attitudes of Hindus and Moslems regarding music. Hindu religious ceremonies are usually accompanied by music. Moslems have no music at their services, and are seriously disturbed when interrupted by musical sounds.

In 1882, the government permitted the reconstruction of a mosque within the Hindu quarters, with the distinct understanding that the Moslems should on no account object to processions with music passing in front thereof. The Moslems now contend that since music was never played before this mosque from 1882 to almost the present time, permission should always be disallowed for processions with music in that place. The Hindus, on the other hand, have been asking since 1920 for permission to take an image in procession in the streets, absolutely without restrictions. The government, after a prolonged inquiry, decided to admit the Hindu claim.

Crowds Incited

The present trouble began at the Dussehra procession last September. On this occasion the government refused to grant a license, on account of the excited feelings of both communities and the influx of irresponsible crowds in the city. In the following month, however, a procession was allowed. Before the procession occurred, the Moslems left the mosque in a body as a protest, and the procession passed quietly.

This incident led to high feelings between the two communities. Many individual assaults occurred, and general apprehensions of a breach of the peace were prevalent. On account of threatened violence, the Hindu shops were closed for two days. The district magistrate was called and, with a large police force, reached the place in time to prevent further disorder. Reinforcements are now present, and are keeping careful watch over the district.

WAR ON GAMBLING IN FAIRS OF MANITOBA

No Illegal Methods of Raising Revenue to be Allowed in Province

WINNIPEG, Feb. 7.—War has been declared against gambling devices, games of chance and counter attractions, other than of an educational nature, at Manitoba agricultural fairs. The prevalence of these devices and attractions at the 1922 summer fairs was criticized severely this morning at the annual convention of Manitoba Agricultural societies and intimations were given that unless they are eliminated from the 1923 fairs government grants will be withheld.

S. T. Newton, superintendent of agricultural societies for the province, referred to the subject in his annual report. He said:

"Owing to the increased number of exhibits available funds have been taxed to the limit, with the result that the directors have been forced to seek other means of revenue, and this has proved to be the opportunity of the concessionaires to operate gambling devices under the guise of skill and science, where those who play them have not a chance to win."

GAMES DOUBLED

"There were double as many games of chance and skill in Manitoba during 1922 as in the previous years, although you have no legal right, and God knows you have no moral right to permit temptation to be put in the way of boys and girls at your fairs that you would not tolerate for a minute if one of your storekeepers attempted to dispose of his goods in that way."
