FRANCO-BRITISH ALLIANCE NEAR BREAKING

PROHIBITIONISTS AGGRESSIVE AT CONVENTION WHICH CLOSED YESTERDAY

Prince Rupert Moderationists Challenged to Make Good Claim That Taxes Would be Reduced

VANCOUVER, Nov. 17.—"Moderationists of Prince Rupert, make good your claim that taxes will be reduced," challenged William Savage of the law committee of the British Columbia Prohibition Association at the annual convention yesterday, who quoted figures to show that Prince Rupert showed net sales of liquor amounting to \$280,000 while the net profits were only \$14,000.

Mr. Savage jeered at the suggestion that the Moderation Act was making any money for the province but claimed rather that it was keeping out good spending citizens.

The convention decided that prohibitionists must go into politics and it voted \$10,000 for an educational campaign in the province.

BALDWIN HAS HIS TROUBLES

Under-Secretaries of State Have Revolted Against Admission of Churchill

LONDON, Nov. 17.—It is rumored that Premier Baldwin is having great trouble in holding his cabinet together and that the under-secretaries have revolted against the entering of Austen Chamberlain and Lord Birkenhead into the cabinet.

Ronald McNeil and W. Ormsby Gore lead the revolt.

Lord Robert Cecil's secession to the peerage in his own right is significant because Cecil, who is a confirmed free trader, has refused to run again for the Commons and as a peer will be a member of the House of Lords.

Parliament was prorogued yesterday and the Royal Gazette proclaimed that the new parliament must meet on January 8 next.

DEADLOCK WITH FRANCE RESULT OF RECENT PROPOSAL

LONDON, Nov. 17.—Britain will not accede to the demands of France for punitive measures against Germany and has sent notification to Paris to that effect through the ambassador after a lengthy cabinet council meeting today. This implies a deadlock between the two countries because Poincare has already declared that France will proceed alone against Germany if the allies refuse to assist.

M. Reville, famous London dressmaker, has designed dresses for six queens of Europe. For fifteen years he was the official creator of gowns for the Court of St. James.

DRYDOCK EMPLOYEE MEETS ACCIDENT

H. Sandstrom Suffers Broken Jaw When Something Slipped on Steamer

H. Sandstrom, a riggers' helper, who was helping put in the shaft on the steamer Canadian Volunteer, now in dry dock being repaired and overhauled, met with a painful accident this morning. Something slipped, and striking the man on the jaw broke it. He was immediately sent to the hospital.

ITALY STANDS WITH BRITAIN ON GERMAN OCCUPATION QUESTION

ROME, Nov. 17.—Premier Mussolini told the Senate last night that Italy cannot give its approval to any further occupation of German territory because it is important that the German people be not utterly destroyed.

FISH ARRIVALS

Three Boats Marketed 56,000 Pounds at Exchange This Morning

Three halibut schooners marketed 56,000 pounds at the Fish Exchange this morning. Two American boats had 32,000 pounds and one Canadian, 24,000 pounds.

American.
Constitution, 30,000 pounds, at 16c and 9c, to the Atlin Fisheries.
Genevieve, 2,000 pounds, at 15.6c and 9c, to the Canadian Fish & Cold Storage Co.

Canadian
Livingstone, 24,000 pounds, at 14.7c and 12c, to the Royal Fish Co.

LIQUOR SUPERVISOR ACQUITTED BY JURY

Found Not Guilty of Extortion as Charged by Detectives and Witness

VANCOUVER, Nov. 17.—George E. McLeod, a former supervisor of the liquor enforcement act under the liquor control board, was acquitted by the assize jury last night on a charge of extortion, the verdict being reached after two hours' deliberation by a jury of ten men and two women.

McLeod was charged by a colored man named Dobson and three city detectives with extortion of fifty dollars from Dobson as the price of his silence in prosecuting under the liquor act.

Defendant contended he was but carrying out the duties of his office and when arrested had been endeavoring to find out to whom Dobson was paying the graft money.

BUILD ROAD OUT OF CITY

Associated Boards of Trade Endorse Prince Rupert Highway Scheme

VANCOUVER, Nov. 17.—At yesterday's session of the Associated Boards of Trade, the B.C. Provincial Government was urged to complete the Prince Rupert highway. Delegate W. J. Aifer, representing Prince Rupert, stated that pledges given fourteen years ago when the townsite was first laid out had not been kept in connection with highway construction. The Government owned one sixth of the property in the city and paid no taxes yet, had not spent a cent on road work but collected the license fees from 200 automobiles in the city.

LIFE IMPRISONMENT RALPH D. HAWKINS

PRINCE GEORGE, Nov. 17.—Ralph D. Hawkins, charged with the murder of Bernard Duggan in the vicinity of 153 1/2 mile house on the Cariboo Road on May 1 last, was found guilty of manslaughter and sentenced to life imprisonment by Mr. Justice Macdonald and a jury composed of ten men and two women.

Mrs. R. Gammon, who has been on a holiday trip south, returned from Vancouver on the Princess Beatrice this morning.

T. E. Brooks, who has been assistant station agent at Terrace, is spending a few days in the city awaiting a transfer.

FIRST JAP ORANGES ARRIVE HERE TODAY

Princess Beatrice Brought 1,200 Boxes This Morning From Vancouver

Six hundred bundles of Jap oranges, each bundle containing two boxes, arrived from Vancouver on the Princess Beatrice this morning for the local market. They are the first to be offered here this season. Large consignments reached Vancouver at the first of the week from Japan on the steamers Empress of Asia and Shimidzu Maru.

J. C. Gavigan, manager of the Rupert Table Supply Co., is on a business trip to Stewart.

BASKETBALL DANCE ENJOYABLE AFFAIR

About 60 couples enjoyed the dance which was held in the Elks' Home last night in connection with the opening of the basketball season.

Eddie Craig was master of ceremonies, H. A. Breen presided at the door and the committee comprised Eddie Craig, J. R. Mitchell and Ralph Smith.

Music was furnished by the Westholme Orchestra and the North B.C. Regiment Band, which played selections as the games were in progress, favored with the opening dance numbers.

Refreshments were served at midnight under the supervision of Mrs. Carrall.

YUKON PIONEERS BREAK FINAL CAMP

DAWSON, Nov. 17.—Michael Day, a pioneer aged 70, died here. He was born in Quebec.

Another Yukon pioneer, William Cuthbert, passed away at his old home in Owen Sound.

BLUENOSE STILL CLAIMING TROPHY ASKS ARBITRATION

HALIFAX, Nov. 17.—The solicitor for the schooner Bluenose writes the trustees of the International Fishermen's trophy, suggesting that if they are not willing to turn over the trophy to Bluenose they should refer the dispute to a committee of arbitration or to a judge of the supreme court.

Final Effort Being Made to Save the Entente from Break on Policy of France in Germany

LONDON, Nov. 17 (noon).—Strong efforts are being made over the week end on both sides of the channel to preserve the integrity of the Franco-British alliance. There are indications that France is changing her attitude as to some of her threatened penalties against Germany in the event of failure to give up the Crown Prince and to permit inter-allied military control to resume the interrupted investigation of German armaments.

PARIS, Nov. 17 (noon).—A final effort to save the entente from dislocation is to be put over until Monday as the British cabinet is seemingly not ready to give the final word to the British ambassador here as to its position on the application of further penalties upon Germany.

Efforts, which will be made meanwhile to prevent a break, are regarded in political circles here as not likely to be successful.

Eight Hour Day, Fuel Oil Duty, Admission of Women, Considered by Associated Boards of Trade

VANCOUVER, Nov. 17.—Opposition to the passing of legislation making compulsory in British Columbia an eight hour day in all industries was recorded by delegates to the convention of the associated boards of trade of British Columbia at their concluding session here yesterday.

W. L. Macken of Chilliwack was re-elected president and W. C. Tiernan of Rossland vice-president. Kamloops will be next year's meeting place.

An additional duty on fuel oil entering British Columbia will be urged as a measure of protection for the coal industry.

A petition asking that women be admitted to Board of Trade membership was referred to the executive for transmission to individual boards.

ARCTIC CLIMATE BECOMING WARMER

DAWSON, Nov. 17.—The possibility of the Arctic climate getting warmer; as advanced by a Norwegian scientist, is being discussed here. The Yukon has just experienced the hottest summer and autumn on record. The daily mean temperature has been the highest in 25 years. The Yukon River remained open for six months.

FARMERS ASK PROVINCE FOR SAVINGS BANK

Attack Present System in Canada and Discuss Home Bank and Merchants

VICTORIA, Nov. 17.—The farmers, through their advisory board, appeared before the House Committee on Agriculture yesterday and made a spirited attack on the banking system of Canada and asked the Government to establish a provincial savings bank system for British Columbia.

"Today we have reached a situation where the people of Canada are beginning to doubt that we have stable institutions in our banks," declared James Bailey, a member of the Board.

The Merchants' Bank case and the Home Bank affair were discussed extensively before the committee.

MUCH MONEY IS LOANED FARMER

VICTORIA, Nov. 17.—More than fourteen million dollars of British and American money has been loaned on British Columbia farm lands by one company alone, operating in Victoria. This was divulged before the house committee on agriculture during the examination by members of Colonel D. Davies, chairman of the Land Settlement Board.

Colonel Davies said the Land Settlement Board had a total of \$1,800,000 out on loans.

HOSPITAL TO HAVE STERILIZER AT ONCE

Work of Installation Ordered at Meeting of the Board Last Evening

The hospital board at its meeting last night decided to proceed with the spending of close to a thousand dollars for a new sterilizer and re-wiring the building. The sterilizer would cost \$494.50, besides from \$50 to \$75 to instal. Wiring the building to do away with the present danger of fire and to accommodate the new apparatus would cost \$400. It would cost \$310 to change the wiring even if the sterilizer was not installed. This had to be done at once.

The house committee will promceed with the work immediately.

Considerable shoals of herring have been sighted in the harbor this week.

PAPER TOWNS FELT 'QUAKE DISTINCTLY

Thursday evening's earthquake was distinctly felt at Ocean Falls and Swanson Bay according to word brought to the city this morning by the Princess Beatrice. At Ocean Falls the hotel shook and at Swanson Bay the men in the mess house made a hurried exit.

GRABBED BAG WITH \$10,000

MONTREAL, Nov. 17.—Bandits this morning held up the two paymasters of Lowrey's Ltd., on Wildam St., as they returned from the bank with the payroll. The robbers grabbed the bag containing \$10,000 in cash and escaped in a car amid a blage of crackling pistol shots.

GERMANY UNABLE TO MAKE REPARATIONS HER LATEST CLAIM

BERLIN, Nov. 17.—Germany still holds herself bound by the Treaty of Versailles, says an official statement made here last night, but she finds herself financially unable to continue making reparations in kind.

France's accusation that Germany has declared herself in rebellion against the treaty is denied.

VICTORIA BEAT VANCOUVER TEAM HOCKEY LEAGUE

VICTORIA, Nov. 17.—The Cougars won the first game against Vancouver in the Pacific coast hockey season, the score being five goals to one. This sends Vancouver to the cellar in the league. Seattle leading with two wins.

SICKENING HEADACHES ENDED BY "FRUIT-A-TIVES"

Effect was splendid when she tried this Fruit Medicine

East Ship Harbour, N.S.

"For years, I was a dreadful sufferer from Constipation and Headaches, and I was miserable in every way. Nothing in the way of medicines seemed to help me and I was almost discouraged.

Then I tried "Fruit-a-tives" and the effect was splendid; and after taking one box, I can safely say I am well. I feel like a new person in every way and I am deeply thankful to have relief from those sickening headaches".

Mrs. MARTHA DE WOLFE.

"Fruit-a-tives" will always relieve Headaches due to Constipation because they act directly on the liver and cause the bowels to move regularly and naturally. This rids the system of impurities and keeps the blood pure and rich. "Fruit-a-tives" are made of fruit juices combined with tonics, are pleasant to take and mild and gentle in action.

50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent by

STORK SPEAKS TO RATEPAYERS

Interesting Address on Functions and Usefulness of Association is Delivered

Members of the Prince Rupert Taxpayers' Association listened with interest last evening to an address given by Fred Stork, M.P., in which he submitted observations with respect to the functions and usefulness of such an institution in the city. There was a fair attendance at the meeting which was presided over by J. C. McRae, vice-president, in the absence of the president, John Dybhavn.

Mr. Stork expressed the opinion that the formation of the Taxpayers' Assn. had been an excellent idea. Many smaller unincorporated communities in the district had their citizens' associations whose work and functions were similar to those of this one. Their principal object was to give guidance and direction to those in authority. Many such associations were having marked success but too often they died out when a city became incorporated. At such a period in a community's life, the speaker felt, a citizens' association could be active to the best advantage. It was at such a time when the greatest opportunities of doing good presented themselves and the association could be of the most value.

Stating that the keynote of a taxpayers' association should be economy, Mr. Stork gave his opinion that many things could have been headed off 10 or 12 years ago for which the city was now sorry if a citizens' organization had been active. Better plank roads could have been built and the present situation in that respect might not have been so serious. As it was, specifications had not been adhered to and the contractors had done about what they wanted.

Like a Company

A municipality was just like a limited liability company, the speaker said, and every taxpayer was a stockholder. All having stock in a common concern, it behooved the taxpayers to see that the best possible service was being given. Waste should be checked and economy should be observed. No matter how efficient and painstaking a council might be it was bound to make mistakes. The taxpayers' association could profitably point out where economies and savings could be effected. Success of a town depended much on economy and appearance and the taxpayers' association might well institute a movement with such objects in view.

Mistakes had been made in the past and many of them were unavoidable, declared Mr. Stork. One of such mistakes was in connection with the materials in the Booth School. It was a magnificent building and a credit to the city but it had been found that brick construction was not suitable here. The provincial government in the erection of the court house had also proved this. There had been too much talk and criticism about the Booth School, when, after all, it was purely the result of experimentation and the same mistake would not be made again.

Too Much Criticism

Stating that there was an inclination on the part of citizens generally to criticism of public officials rather than assistance, Mr. Stork urged the Taxpayers' Association to avoid such tactics. It was on account of them that it was so difficult at this time to get the best men to enter the sphere of municipal service.

Urging that political feelings be kept out of municipal affairs, Mr. Stork stated that he knew of nobody that was better equipped to offer nominations for civic office than the Taxpayers' Association. Its members paid the piper and they should be the judges of those who could best serve them.

In thanking Mr. Stork on behalf of the association, Vice-president J. C. McRae referred to the fact that \$100,000—twenty per cent of the city's total revenue—had been paid last year for the operation of the schools.

General Discussion

F. W. Hart suggested that committees might be appointed to make investigations into various civic matters. W. J. Kirkpatrick had some suggestions to offer in connection with plank roads and Mrs. Kirkpatrick re-

got established one patient a day to use it would be a conservative estimate.

S. K. Campbell said they were faced with the possibility of a deficit of probably \$5,000 by the end of the year. The Nurses' home was costing a great deal.

Asked if he had any plan to suggest, Dr. Kergin said the doctors had collectively no money as they had turned in all the association possessed to the Nurses' Home. Individually they could not do much, he did not think the doctors were called upon more than anyone else to put up the money. As a citizen he would do his part.

D. C. McRae said he saw no place they could get the money.

Make Loan

W. E. Williams suggested that the medical board loan the association the money and that the profits from the apparatus be set aside and used to repay it. He would like to see this hospital have the best X Ray that could be procured but the council had cut down their appropriation and they were building the nurses' home. The board could not tax the patients for it and the alternatives were to borrow or pass the hat. They had already done the latter for the Nurses' home and could not well do it again.

Dr. Kergin said they did not own that much money among them but they would discuss the matter.

The doctors then retired and came back later with the proposal which was adopted and the apparatus will be ordered at once and installed in the basement of the building.

NEW APPARATUS FOR HOSPITAL

Doctors Advance Six Hundred Dollars Toward Purchase X Ray Machine

All the doctors of the city attended the meeting of the Hospital directors last night, D. G. Stewart presiding, and as a result of their representations and following an offer to advance \$100 each to make the first payment, the Board last night decided to instal such apparatus as is necessary to bring the present X Ray machine up to date.

The doctors who attended were W. T. Kergin, L. W. Kergin, C. A. Eggert, J. P. Cade, H. E. Tremayne and J. A. West, all members of the Medical Association. Dr. W. T. Kergin was the chief spokesman for the Association. He said that a fairly good machine had been installed years ago but it was not complete even at that time and since then many improvements had been made. The doctors had recently discussed the matter and decided to recommend to the board that the sum of \$1500 should be expended to bring the apparatus up to date. Hazelton had a better apparatus than the one here. Also Smithers and Granby were better equipped. This was the only hospital of its size in the province so poorly provided for in that respect. A Coolidge tube and other additions were necessary. At present all they could use the machine for was for bone and foreign body work. They had no method of testing for stomach trouble, kidney stones, gall stones and chest conditions. Patients had to go to Vancouver which proved a hardship for the people who were ill. If they spent \$1500 it would make the apparatus complete but not elaborate. It would then answer

the purpose.

Would be Revenue

Dr. Kergin said he knew the Board were short of money but this was a necessity. The Victory X-Ray Corporation would instal the apparatus for \$5,000 down the balance to be paid in monthly instalments. What was now a loss to the hospital would then be converted into a revenue. The proposal was for one of the local doctors to specialize in that sort of work and to divide the fees with the hospital.

Dr. Eggert said he had little to add to what Dr. Kergin had said. An X Ray instrument was no longer a luxury but a necessity. The American College of Surgeons had laid down a standard which hospitals must adopt to receive recognition, and it included an up to date X Ray machine. Without it the institution was simply a nursing home. The present X Ray was ten years behind the times. It was impossible to use it except for detecting fractures. The diagnosis of many diseases was impossible with the present equipment. The expenditure of \$1500 should be a paying investment and should also make for greater efficiency at the hospital. He mentioned the matter in 1909 but it was the same old story of lack of funds every time.

D. G. Stewart said the matter had been discussed with Mr. Ponton who strongly advised the purchase of Coolidge tubes. The Board was sympathetic to the idea but they did not see where the money was to come from.

Patients Go South

Dr. West said patients had again and again been sent south in order to get X Ray examinations. Patients had come here from outside points expecting to get treatment but had to be sent to Vancouver. Not to have it was a knock to the town.

Asked what he thought the income from it might be, Dr. Kergin said he thought when it

The Man in the Moon SAYS:-

Fortify Now

Against the sudden changes of temperature which are such a shock to the system

MILD one day, cold the next. Warm and dry indoors, cold and damp outside. These sudden changes waste vitality at an enormous rate. If the benefits of summer temperature and outdoor life are to be maintained it is necessary to fortify the system against this strain of sudden change of temperature.

The fresh air, the more natural foods, the exercise you take in the summer time help to get your blood rich and your nerves steady.

How to retain this benefit to your health is the problem now confronted.

It is worth while to try to keep well and there is nothing like Dr. Chase's Nerve Food to help you.

If you are down it will help you up, but it is so much easier to keep well than

to get well that we like to dwell on this side of the picture.

Disease germs are harmless to a body strong enough to fight them—to a body supplied with an abundance of rich, red blood.

Instead of becoming an easy prey to coughs, colds and all sorts of contagious diseases you find that you have the reserve strength to fight them off and to feel that you are master of your health.

By fortifying your system you also protect yourself against worry, for worry is fear of the future and nothing is so trying on the nervous system.

Begin to-day to store up vitality in order that you may fight the battle for health all through the trying weather and win. You will not follow this treatment long before you will realize that you are feeling stronger and better and enjoying life as only one can when health is at the high water mark.

Dr. Chase's Nerve Food

Push into the blood the very elements which are necessary for the creation of new nervous energy. new vitality and good health. 50 cts. at all dealers or Edmondson, Bates and Co. Ltd. Toronto.

ferred to chimneys which were letter of notification of their proposal for Fifth Ave. The causing annoyance to neighbors, assessment under the grading letter was filed.

Mrs. W. Keith urged that cinder paths be put on Fifth Ave. East in connection with the rough grading program. Ald. Munro replied that final plans were not yet made in connection with this work. The whole matter of sidewalks was being deferred in the meantime as it was not definitely ascertained yet as to how they were to be paid for. He had urged that, though the sidewalk be on one side of the street, both sides should pay for it. He did not know, however, whether this could be arranged under the Municipal Act.

The hospital board at their meeting last night heard read a

McRae Bros., Ltd.

FINDS VICKS GOOD FOR COUGHS

Winnipeg Mother Tells of Experience With External Vaporizing Salve.

The quick, direct treatment for children's coughs and colds is an application of Vicks over throat and chest at bedtime.

Not only is Vicks absorbed through the skin, but its healing vapors of Camphor, Menthol, Eucalyptus, Turpentine, etc., are breathed all night long directly into the affected air passages. Relief usually comes by morning. Just as good, too, for the cold troubles of adults and for cuts, burns, and bruises.

Mrs. W. Simpson, of 290 Arnold Avenue, Winnipeg, Manitoba, says: "I put a little Vicks on the chest of one of my children to see if it would have any effect on stopping his cough as he always coughs so much when he takes a cold. His cough was stopped right away. I also did the same with my little girl and the results were the same. I am pleased to find something to check the awful cough that my children seem to get and loosen up their colds so quickly."

At all drug stores, 50c a jar. For a free test size package, write Vicks Chemical Co., 344 St. Paul St., W., Montreal, P.Q.

Though Vicks is new in Canada it has a remarkable sale in the States. Over 17 million jars used yearly.

Ten Years Ago In Prince Rupert

Winter freighting has already commenced from Whitehorse to the Chisana gold fields according to arrivals from the north on the Princess Sophia yesterday afternoon. There is a good trail on which are located comfortable road houses. Whitehorse, the centre of supply for the new district, will be a busy place this winter.

Larry Clayberg, lawyer, teacher, fisherman, miner and sailor and a pioneer of Stewart, is returning to San Francisco where he will resume the practice of law. His last experience in British Columbia was that of teacher at the Massett Indian School. He is the son of Judge Clayberg of San Francisco.

W. W. Wrathall, photographer of Hazelton, and K. L. Rank, one of the proprietors of the Omineca Miner, are visitors in the city.

At the meeting of the hospital board last night the chairman of the House committee reported that the floors in the wards had been repaired at a cost of \$30. They now needed staining and new castors had to be secured for the beds.

At the meeting of the hospital board last night D. C. McRae announced that collections had been coming in well. Expenses were kept as low as possible and during the past two months the institution had broken even on ordinary expenditures.

What Is A Diamond?

A crystal of carbon made by tremendous volcanic heat and pressure.

It is the hardest substance known. Nothing will scratch it. No acid will affect it. Heating it to redness will not even dull it. It is so hard to break that the British soldiers, who captured the temples in India, tested them with hammers to find if genuine. Diamonds are polished with diamond dust. Diamonds have been worn and prized for centuries and in India people count their wealth in jewels instead of in money.

What are diamonds worth? See Monday's advt.

Miss Jean Burns arrived from Vancouver, on the Princess Beatrice this morning.

Those failing to get last issue of Government Bonds can have orders filled now. Call or phone T. McClymont.

At the meeting of the Hospital Board last night it was decided to keep up membership in the Hospital Association, the annual dues for which are \$20.

Charles Richards, K. E. Hallberg, S. P. McMordie and Ald. G. H. Munro have been elected to membership in the Prince Rupert Taxpayers' Association.

Rebekah Bazaar Saturday, November 24, in new store next to Benson's Studio. Fancy work, plain sewing, novelties, home cooking, candy and afternoon tea.

Delayed on account of heavy freights and also because of stormy weather, C.P.R. steamer Princess Mary, Capt. Arthur Slater, from Alaska, is not expected before tomorrow morning.

In reply to a letter received from Fire Chief Macdonald, by the hospital board at its meeting last evening, T. Ross Mackay said full provision was being made for fire escapes in the new nurses' home.

Hospital Association membership cards have been sent to all those who subscribed five dollars or more in the Nurses' Home drive, the secretary reported at the meeting of the hospital directors last night.

In regard to a sewer difficulty at the hospital, the chairman, D. G. Stewart, informed the Board last night that he had ordered the matter attended to and the bill for \$18.75 was presented for the work. As there are a number of houses using this sewer, it was decided to ask the city to pay it and the matter was left with the proper committee to deal with.

The report of the building committee of the Nurses' Home to the directors last night showed that the work was well advanced and up to the present extras had amounted to only \$27. The building was a credit to the community and if at any time not needed for the purpose for which it was designed it would make a good residence or boarding house.

After a short discussion the hospital board last evening decided not to purchase three lots adjoining the Nurses' Home offered them through Thomas McClymont. The reason for refusal was that the hospital had no funds for the purpose, but the opinions expressed indicated that it was not considered that the hospital needed them. S. K. Campbell said if they ever built a new hospital it would probably go on some other site, and the present site would then be sold.

Now That You Have Passed Thirty

A HANDBOOK OF INFORMATION

You realize that life is less a matter of brilliant spurts than of a long pull. You no longer dream of a fortune at forty. You expect to be working away steadily at fifty—at sixty, perhaps.

You need not be one of the many men who at sixty-five find themselves compelled to turn to others for support. By paying at the rate of only sixteen cents a day between the ages of thirty and sixty-five years you can buy a Canadian Government Annuity which will pay you \$500 a year, starting at the latter age and lasting as long as life.

You may buy an Annuity of any value from \$50 to \$5,000 a year. Your investment will be safe, and you will get every cent that your money earns. There are Plans of purchase to suit all, including the married and those having dependants.

Remember, the earlier you buy the easier the terms. Therefore, fill out this coupon immediately and address it as directed. No postage necessary, as it is Canadian Government business.

Mail this Coupon—No Postage Needed

Doings of the Mosquito Fleet which is the chief source of Prince Rupert's prosperity

The Admiral of the Mosquito fleet reports the Thanksgiving holidays as having gone off very successfully among the high boat squad. Up to the time of writing not a single casualty had been reported to the admiralty offices which speaks volumes for the morale of the nautical. The holiday was taken advantage of by a number of waterfront officials for the enjoyment of a little hunting and fishing. Several fishing and pleasure boats left port on Friday night, the cabins piled high with the good things of this life to eat and drink, and manned by gangs of good fellows bent on getting a little joy. The majority of the hunters returned to port on Monday night in readiness to jump into the business whirl again on the morrow. Deer seem to have been plentiful at the various points, most guns accounting for one trophy of the chase. The bad weather together with the intervention of the holiday somewhat affected the halibut arrivals during the week. With the hold-over last week end the sales on Tuesday morning started off well with 224,700 pounds. The bad weather experienced on the high spots had a detrimental effect upon the landings for Wednesday and Thursday only 87,000 pounds were marketed for the two days. Prices offered for the halibut landings have not been high, hovering around the 15c mark for first class and 9c for second class catches. Both the McLean and Suga shipyards continue busy and the ways are occupied all the time. The new 65 ft. halibut boat for the Doreen Bros. in the former yards is rapidly taking shape and the Canadian schooner Lillian M. will be completely overhauled and in the water again in a few days. A number of boats of the home fleet are awaiting to get on the McLean slips for winter fixing.

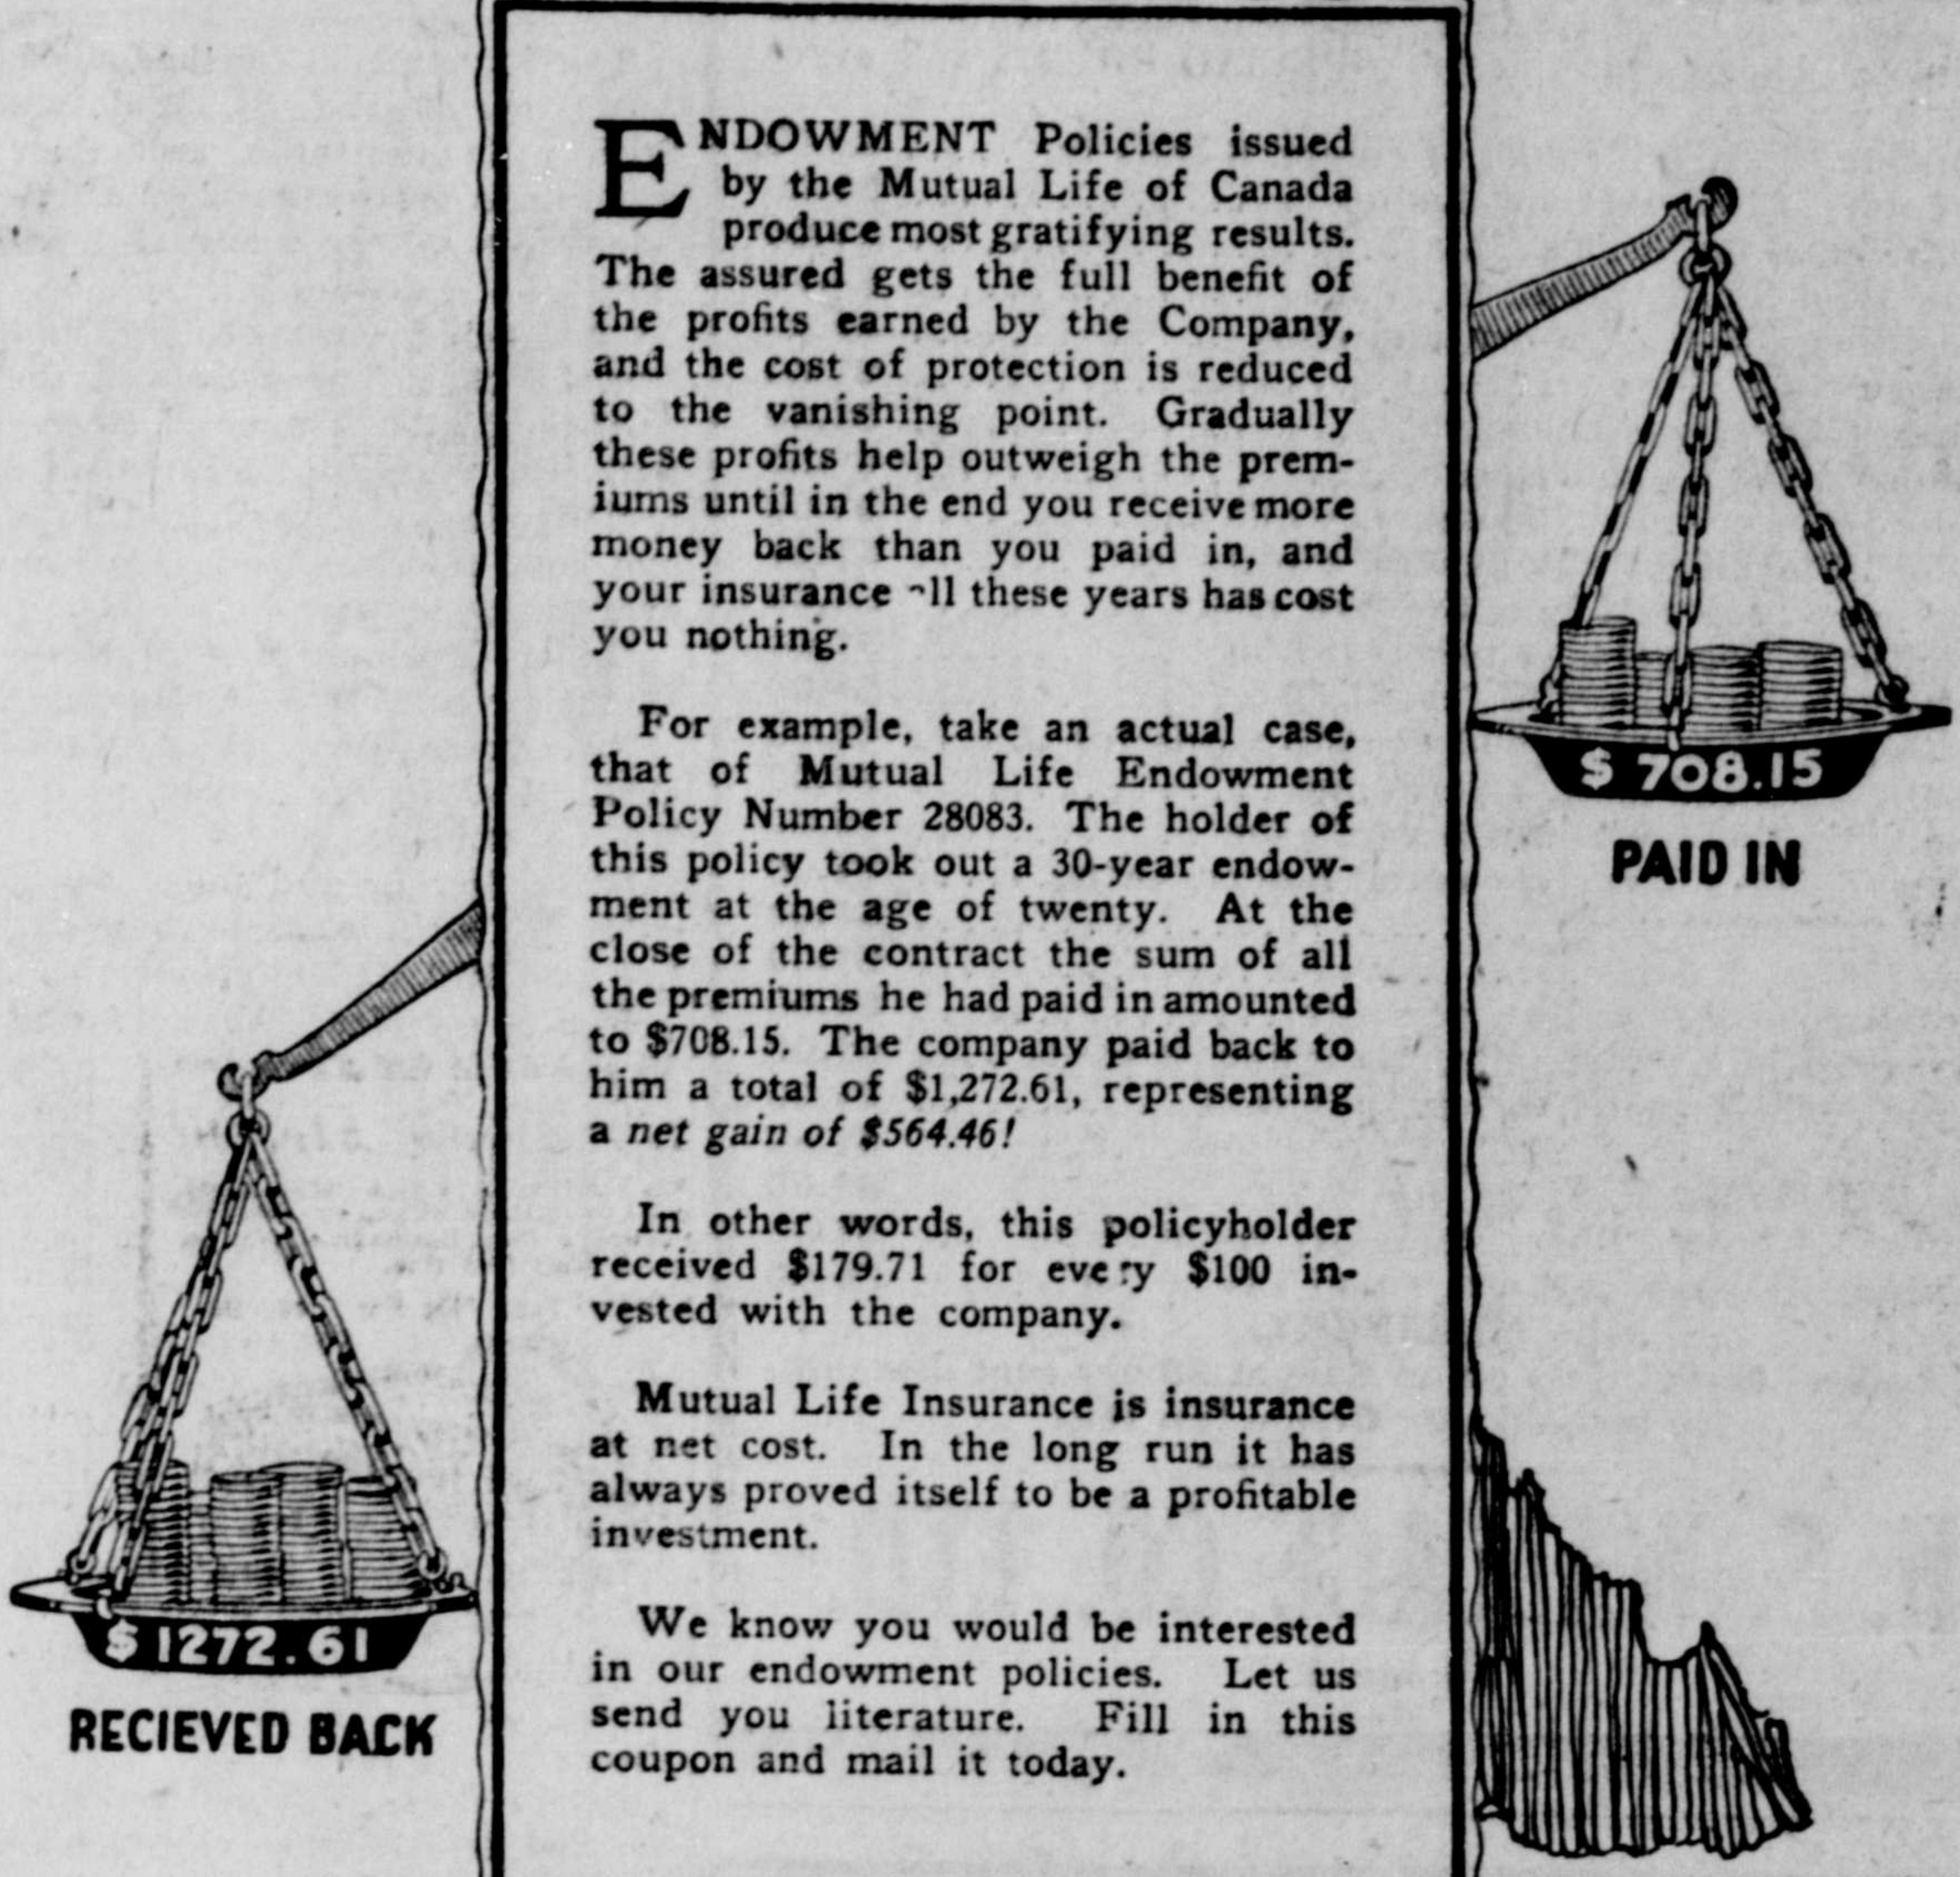

Fish Business

During the week 381,700 lbs. of halibut has been marketed on the Fish Exchange. Americans were high at 15.9c and 9c. and low at 14.8c and 9c. Canadians were high at 15c and 9c. and low at 13.6c and 9c. Arrivals were: Kodiak, Imperial, Anna J., Kanatak, Orient, Alten, Mah, Annie May, Albatross, Lituya, American, Scandia.

The Kayosu in Posee.

This is a story of how Art and his merry men behaved when the schooner Kayosu hit the rock. By Walt Mason, jr. Art was quite a wonder man with his little fishing boat, having sailed the seas for many a day with water in his throat. If you'll just lend thine yearning ear, for quite a little while, we'll tell a blood and thunder yarn of Art's old fishing pile. The story is a horrid one. It'll fairly turn you blue, of how the crew and skipper got off the Kayosu. The boat it had been fishing, as fishing boats will do, when returning to the old home port the sea got thick as glue. The boat was playing pitch and toss, the crew were shooting craps, while the skipper, feeling kind o' tired, was taking little naps. The cook was in the pilot house a counting out his money, the engine it was running wild and acting kind of funny. The pet hen aboard, a broody bird, foresaw an awful fate, and just to help the others out laid courses on a plate. And so things stood aboard that night, as the ship plowed through the mud, while the hen was laying hard boiled eggs to give the crew some grub. Just then a cry went up aloft "Oh, goodness what was that?" A crash, a bang, and all was dark for the boys were in the fat. The skipper grabbed his knife and fork, the cook grabbed for his dough, while the crew were out like lightning coming down from up below. The skipper yelled "Put off the boats and save yourselves and

\$564.46 on the proper side of the Balance

ENDOWMENT Policies issued by the Mutual Life of Canada produce most gratifying results. The assured gets the full benefit of the profits earned by the Company, and the cost of protection is reduced to the vanishing point. Gradually these profits help outweigh the premiums until in the end you receive more money back than you paid in, and your insurance all these years has cost you nothing.

For example, take an actual case, that of Mutual Life Endowment Policy Number 28083. The holder of this policy took out a 30-year endowment at the age of twenty. At the close of the contract the sum of all the premiums he had paid in amounted to \$708.15. The company paid back to him a total of \$1,272.61, representing a net gain of \$564.46!

In other words, this policyholder received \$179.71 for every \$100 invested with the company.

Mutual Life Insurance is insurance at net cost. In the long run it has always proved itself to be a profitable investment.

We know you would be interested in our endowment policies. Let us send you literature. Fill in this coupon and mail it today.

Mishap to Viola S.

The good launch Viola S., owned and skippered by Ben Self, came to grief in the storm which raged last Friday and Saturday. While at anchor at low tide the force of the wind pounded poor Viola upon the rocks so hard that several of the hull planks parted company and invited the tide inside. However, the young lady was not long submerged. Sandy was on the job and soon had Viola on the grid where necessary repairs were completed.

Native Boats In

A flotilla of native boats from the Naas district and Kitkatla anchored in the home base on Saturday to spend the Thanksgiving holiday in the city. While in port several of the visitors took advantage of the occasion to entertain relatives and friends residing in the immediate vicinity aboard their floating homes. Sumptuous spreads of smoked salmon and chicken minus the smoke were provided. Machinery repairs were done and groceries purchased prior to their return to winter quarters.

Hunting Parties Out

Dr. J. P. Cade, and a party of friends aboard the power boat Kermae, left port last Saturday night on a hunting trip to Smith Island. While bad weather was encountered several deer were also encountered, the sequel being four dead ones. During the trip, and owing to a heavy sea, the rowboat in tow broke away from the painter during the night and was lost. The force of the seas breaking over the boat stove in several windows in the bow otherwise the trip was completely successful.

Have You Seen Homer V. Bagley

Last heard of in the vicinity of Anyox, B.C., Aug. 22, 1922. Was employed at the construction of a dam. Age 25 years. Frequents dance halls. Any information concerning him will be greatly appreciated and will make it worth your while.—Address:

GEO. W. BAGLEY,
c/o Bagley Tire & Rubber Co.,
Hot Springs National Health Resort,
Arkansas, United States of America.

Ruby Mae Busy

The power boat Ruby Mae, owned by J. C. Currie, put into port during the week from Haysport where she has been engaged in connection with the work on the new Port Essington-Haysport ferry. The Ruby Mae will take out supplies for the ferry, and will engage in log towing at the conclusion of the work.

Jim Lee, manager of the Atlin Fisheries, is confined to the house suffering with his jaw. We wonder if he has been attempting to tell the lady of the house how to grow spuds for exhibition purposes.

The power boat Wigwam, Capt. Claude Ketchum, left port on Wednesday for Georgetown to tow in a couple of scow loads of fish boxes for local consumption and arrived back on Thursday.

The launch Narbethong, skipper Hoopes K. Freeman, was over to Digby Island on Monday to bring in the Canadian National pile driver. The driver is moored at the lumber assembly wharf.
