## HOME BANK OF CANADA FAILS AND DOORS ARE CLOSED TO PUBLIC TODAY

### Home Bank of Canada Suspends Payment Owing to Impairment of Resources: Many Bad Debts

TORONTO, Aug. 18.—The Board of Directors of the Home Bank of Canada announced today that it had received from the recently appointed assistant general manager an official report of a serious character as to the amount of bad and doubtful debts among the assets of the bank.

It appears from the report and from inquiry in respect thereto that the resources of the bank are very seriously impaired. Immediate liquid resources of the bank are practically depleted and the directors have decided to suspend payment.

The suspension in no way involves the bills of the bank in circulation. These will be redeemed at face value on presentation to other chartered banks.

According to the annual statement issued on May 31 last, the bank had on deposit \$22,154,177.

Negotiations with other banks for absorption of the Home Bank having proved futile, it was found necessary to close the doors.

The affairs of the bank will be administered by A. G. Barker, manager of the Toronto clearing house, who has been appointed curator under the Bank Act.

Only a few days ago the regular dividend was declared and from speeches delivered at the annual meeting there was no indication of financial difficulty.

Within the last few days there have been heavy withdrawals on the part of depositors as a result of rumors that the bank was in difficulties which were circulated in this district recently.

Among the number of loans referred to as "bad and doubtful" it is stated is one to a large pulp and paper mill company near Vancouver which for some time has been closed down.

There are two branches of the bank in British Columbia, one at Vancouver and the other at Fernie.

Hon. J. A. Robb, acting minister of finance, asked this morning regarding the suspension of the Home Bank, stated that the finance department would make no comment at the present time. Meanwhile it is understood an investigation by officials of the department is proceeding.

NEW YORK, Aug. 18.—Strauss & Co., investment brokers who recently handled the financing of \$1,300,000 of the Canadian property Company on the lands and buildings of the Home Bank of Canada, today assured holders of their bonds in Canada and the United States that all payments of principal and interest would be made regardless of the bank's position.

#### FISH ARRIVALS

Only four Canadian halibut boats marketed catches at the Fish Exchange this morning, the arrivals totalling 24,500 pounds. Arrivals and sales:

Johanna, 14,000 pounds, at 12c and 10.4c, to the Atlin Fisheries.

Muirneag, 2,500 pounds, at 12c and 10.7c, to Torber, 3,500 pounds, at 12c, and 10.4c, to the Canadian Fish & Gold Storage Co.

Ruth, 4,500 pounds, at 12c and 10c, to the Royal Fish Co.

James Gatt, who for several years has been superintendent of the Dominion government hatchery at Lake Lakelse, is sailing for the south on the Prince George tonight to Ottawa. Mr. Gatt has been appointed to an inspectorship of fisheries in the maritime provinces.

#### WONDERS WHY GRAIN NOT SHIPPED FROM PORT PRINCE RUPERT

Conservative Editor of Moose Jaw Evening Times Visiting City Today

"I do not understand why grain is not shipped through Prince Rupert," stated Frank Wright, one of the editors of the Moose Jaw Evening Times who is in the city today having stopped off to see the city and rest up.

Mr. Wright says that in spite of reports to the contrary the crops will be above the average in Saskatchewan and he would like to see this additional outlet for the grain on this coast in order to relieve congestion.

According to the annual statement issued on May 31 last, the bank had on deposit \$22,154,177.

### Americans Exploit Natural Resources of Canada and Draw Dividends from them says Victorian in London

LONDON, Aug. 18.—Edward Clark of Victoria, B.C., a member of the delegation of Vancouver businessmen who recently visited the United Kingdom with a view to promoting trade between this country and British Columbia, has written to Premier Baldwin with reference to representations made to the Premier by an industrial group of members of the British House of Commons as to the continued unsatisfactory state of industry in Great Britain. He says:

"The principal natural resources of Canada are being exploited and dividends of many million dollars are passing to Americans. There are sufficient natural resources in British Columbia to pay the whole of the British National debt in ten years if properly handled besides finding remunerative employment for tens of thousands of men."

Clark instances the pulp and paper industry and he also says some of the largest copper mines in British Columbia are in the hands of Americans.

#### ENTERTAINMENT PLANS MUNICIPAL DELEGATES

Prominent Visitors in the City Next Week will be Given Civic Banquet—Committee is Busy

Plans are under way for the entertainment of the delegates to the Union of B.C. Municipalities convention which will take place in Prince Rupert next Wednesday and Thursday. The program will include a civic banquet but final details are pending the receipt of advice as to the number of delegates there will be. The visitors will also be shown the industries of the port, its facilities and points of interest. The city's entertainment committee consists of Acting Mayor Collart, Ald. Stephens, Ald. Munro, City Solicitor Jones and City Treasurer Matheison.

The convention sessions will take place in the city council chamber.

### BASEBALL AND SOCCER TEAMS FOR FAIR WEEK

Arrangements Finally Made by Fair Board to Bring Teams from Ocean Falls, Telkwa, Anoyx and Smithers

Ocean Falls and Telkwa football teams and Anoyx and Smithers baseball teams will come here during Fair Week to participate in the sport program on that occasion it was definitely decided by the Fair Board last night. The board was in session from 8:30 to 12:30 and the principal business was the settlement with these towns to send their teams.

The Fair Board will pay the expenses incurred by the teams in coming. Ocean Falls is putting up \$200 towards the cost of its baseball team coming on the understanding that there will be a return game with Prince Rupert at the paper town next year.

### GREAT INCREASE IN TRADE OF COUNTRY

Imports Still Ahead of Exports But Increases Evenly Divided

OTTAWA, Aug. 18.—There was an increase of \$140,000,000 in the total trade of Canada for the four months ending in July, it was officially announced. For July alone the increase over the previous July was \$29,000,000.

LOS ANGELES, Aug. 18.—Four persons were killed and seriously injured when an automobile was struck by a Pacific electric train. None of the dead have been identified. They are two men, a woman and a child.

### Tenders are Invited Provincial Government for Skeena River Bridge

The provincial government is inviting tenders for the construction of a bridge over the Skeena River at Terrace, tenders to be in by September 1. The bridge is to be constructed of steel and will be a permanent modern structure. Plans and specifications will be on hand here Monday.

The bridge connecting Terrace with the big district across the Skeena River including Lakelse, Remo and Copper City, has been badly needed for some time but the expense of the structure was so great that the provincial government has

### CHANGES MADE KING CABINET

Robb to be Minister of Immigration and Law of Trade and Commerce

OTTAWA, Aug. 18.—Hon. J. A. Robb, minister of trade and commerce, has been appointed minister of immigration and colonization in the Mackenzie King government. He will be succeeded

by Hon. T. A. Low, minister without portfolio, according to an announcement of important cabinet changes.

At present access to the other side of the river is by a provincial government ferry. This has served the purpose temporarily but during the winter the river is frozen and there are long periods, especially in the spring, when it is impossible to cross the river owing to the precarious condition of the ice and the impossibility of using the ferry. Hon. N. M. Macdonald, who has such time the community on the northern side of the river is completely isolated.

The changes entail two by-elections. Mr. Low will seek re-election in South Renfrew and Mr. Macdonald in Pictou.

OTTAWA, Aug. 18 (noon)—Hon. E. M. Macdonald was sworn in minister of national defense at Halifax this morning. Hon. T. A. Low and Hon. J. A. Robb were sworn in minister of trade and commerce and minister of immigration respectively here.

May Go To Devil  
But Don't Stop There.

There is a story told about a brakeman on the Canada Atlantic who always stuck his head into the smoker and shouted "Next station Casselman; Casselman next station. This train don't stop there."

In regard to the position of Prince Rupert it is not uncommon to overhear people saying "This town is going to the Devil." The reply is, "But this town don't stop there."

Raising Families  
Seems Lost Art.

Raising large families seems to be a lost art. Judge Sir Alexandre Lacoste, K.B., whose death was reported yesterday, had thirteen children, 39 grandchildren, and eight great grandchildren, of whom fifty are still alive. There are other French families in Quebec much larger than that of Judge Lacoste, plenty of them, and they are taken as a matter of course. Under these conditions the French Canadian influence is bound to be strong in Canada. People there are proud of their families and the more there are the better they like them.

Everyone Expresses  
Surprise At Rupert.

Such poor reports of Prince Rupert have been propagated, not only by outsiders but by a few people who have lived here, that those who visit the city express surprise at the appearance of the place and at the amount of business which is being carried on. Many say they thought the fishing business was pretty much a myth, that the cold storage plant which they had heard mentioned was simply some little one horse affair, that only a few roughnecks lived here and that it rained 365 days in the year. Naturally it is rather disconcerting to find conditions here as good as in any other part of the province, to find good streets, salt water

swimming, and the fishing industry flourishing.

Liquor Interests  
Strong In Britain.

Liquor interests are strong in Britain and the talk of Britain going dry is more or less visionary. Yet when a country starts in regard to the position of Prince Rupert it is not uncommon to overhear people saying "This town is going to the Devil." The reply is, "But this town don't stop there."

According to the fuller reports brought by mail, the amendment introduced into the House of Commons by Lady Astor and finally amended and passed, is a most innocuous measure. While it says that liquor must not be sold to a person under 18 years of age, it must be proved that the vendor knows the person to be under 18 before a conviction can be obtained. Also it is allowable for a person under 18 to purchase beer to drink with a meal. That means that a boy may have a biscuit in his pocket which he may eat with the drink and he is supposed to be having a meal. It is not necessary that he purchase the meal at the same place he got the beer. The result of this is that the bill is practically useless, except that it has set out a principle and it tends to keep alive the sentiment in favor of prohibition for young people. It is sometimes spoken of as the "Beer and Biscuit Bill."

Fire Chief J. B. Dexter of Sudbury, Ont., passed through the city yesterday afternoon from the steamer Prince George to the eastbound train. He is returning from the Fire Chiefs' convention which was held recently in Vancouver. Other Ontario fire chiefs have passed through the city enroute East during the past few days.

Arthur G. Young, traveller for Lowney's chocolates, was an arrival from Vancouver on the Prince George yesterday afternoon.

MAKING INSPECTION  
TOUR CENTRAL B.C.

Officials of Department of Agriculture Arrived from South Yesterday Afternoon Enroute to Interior

C. Tice, acting chief soil and crop instructor and potato specialist for the provincial department of agriculture; J. W. Eastham, provincial plant pathologist and G. H. Thornborrow, assistant accountant for the department of agriculture, were arrivals from Victoria on the Prince George yesterday afternoon bound for the interior. Mr. Tice and Mr. Eastham are on a tour of inspection of Central British Columbia and Mr. Thornborrow is visiting Telkwa to confer with D. D. Munro of the land settlement board.

It is Mr. Tice's and Mr. Eastham's mission to visit various points along the line of the railway east of here in order to get first hand information as to what lines of agriculture are being practised. Mr. Eastham will make investigations especially in regard to plant diseases.

Mr. Tice will compare values of northern and southern grown seed potatoes. It is generally said that the northern grown seed is far superior to that of the south. Various varieties of seed will be studied and the most suitable for this country recommended.

An investigation of crop conditions will also be part of the business of the officials on their visit north. Mr. Tice stated yesterday that it was the intention of the provincial department of agriculture to give more attention to the Central B.C. district in the future than it had done

PRESIDENT OF ANYOX  
LEAGUE HAS RESIGNED

Vice-President William Callanan Takes Position Vacated by George Lewis

ANYOX, Aug. 18.—After a vacation extending over a period of weeks, the council of the Community League met on Wednesday night last, and transacted a considerable amount of business. The secretary's report dealt with receipts and expenditures connected with the Dominion Day celebrations, and showed a small balance in excess of expenditures. The manager of Recreation Hall had given an advance in wages, but this could be changed again at the discretion of the finance committee if results justified it. The gymnasium had been rented to the Granby Company for a period of two months, the rental to be one hundred dollars a month. Individual members of the council had each approved of this arrangement, and it was necessary to confirm the action in council. It was suggested that Labor Day should be recognised by a field day restricted to those who took an active part in baseball, football and basket ball, the celebration to conclude with a dance in the evening. No answer had been received from Toronto, in connection with the request for information as to kindergartens. This report was endorsed, and it was decided to celebrate Labor Day along the lines suggested.

## Prizes Next Year

A communication was read from J. Pinder-Moss in which it was stated that Mrs. M. McIntosh, of Prince Rupert had won the medal offered by the league for best results in the dressmaking class. In the electrical class, for which the league had also offered a medal, no one of the students had made the necessary qualifying marks. Mr. Moss wanted to know if the league would continue these prizes in the future, and on motion by Mrs. Dwyer the council agreed, subject to the possibility of any new council deciding differently.

A letter was then read from Geo. Lewis, president of the Community League, in which he asked the council to accept his resignation, stating that he couldn't possibly attend the meetings, having to work so much at nights. The resignation was accepted with regret, and a vote of thanks was tendered to Mr. Lewis for his services to the community. Wm. Callanan is the new president, and in his place Mr. Yard has been appointed a counsellor. In the absence of Mr. Townshend in Vancouver the council appointed J. T. Jones to be acting secretary-treasurer.

## CHOLERA INFANTUM A Fatal Disease of Children

Cholera Infantum or summer complaint of children is one of the most dangerous bowel complaints during the summer months.

It begins with a profuse diarrhoea, the stomach becomes irritated, very often accompanied by vomiting and purging and the matter excreted from the stomach has a bilious appearance. The child rapidly loses flesh, is soon reduced to languor and prostration, and in a great many cases death ensues.

Mothers, if any of your children become sick with cholera infantum do not endanger their health, perhaps their life, by experimenting with some new and untried remedy; get one that has stood the test of time; one that will quickly offset the vomiting, purging and the diarrhoea. This you will find in Dr. Fowler's Extract of Wild Strawberry, a remedy that has been on the market for the past 78 years.

Mrs. W. A. Harrison, 10 Elevator Court, Halifax, N.S., writes:—"Dr. Fowler's Extract of Wild Strawberry saved the lives of three of my children when all other remedies failed. It stopped the vomiting and terrible diarrhoea with which they were troubled. I always keep a bottle of it on hand in case of emergency."

The Sons of Canada and Sons of England played to a 1-1 draw in last night's Gilluly Cup senior football game. It was a fast game from start to finish and the teams seemed very evenly matched providing plenty of excitement for the good crowd of spectators that was present.

The Sons of Canada played down hill in the first half and both teams were one-man short to start with. About five minutes after the opening, D. Corker netted the first score for the Sons of Canada. Just before the end of the half, George Shaw scored for the Englishmen. Though good soccer was played in the second half and the teams set each other a stiff pace, there was no scoring in that period.

W. E. Williscroft was referee and A. Clapperton and George Waugh officiated on the lines.

The teams took the field as follows:

Sons of Canada—D. Frizzell; H. Menzies and J. Marks; G. Mitchell, V. Menzies, H. Astoria; W. Mitchell, Bert Long, Eddie Smith, D. Corker and Alex. McMillan.

Sons of England—H. Frizzell; J. Farquhar and Eddie Cragg; G. O. Shaw, George Kelsey and Hodkinson; W. Hamilton, P. Cameron, O. R. Lord, J. Johnson and G. P. Tinker.

The outcome of the Gilluly Cup competition now depends on next Monday's postponed game between the Sons of England and Grotto. If the Englishmen win or tie in that game, they will capture the trophy. A victory for the Grotto, however, will tie the whole league up necessitating at least two play-off games.

**BATTERS' GAME WAS PLAYED AT ANYOX**

ANYOX, Aug. 18.—In a somewhat hectic game of baseball the Mine added another victory to its long list of wins when it took the Smelter into camp with a score of nine-to-six. Eight of J. Johnson, 6; Tinker, McGowan, Roy and Lord, 2 each; B. Long, H. Menzies, J. M. Campbell, W. Hamilton, J. Vincent, E. Mackintosh, E. Cragg, G. Kelsey, 1 each.

The goal getters in the Stuart Shield series were: J. Marks, 6; score of nine-to-six. Eight of J. Johnson, 6; Tinker, McGowan, Roy and Lord, 2 each; B. Long, H. Menzies, J. M. Campbell, W. Hamilton, J. Vincent, E. Mackintosh, E. Cragg, G. Kelsey, 1 each.

Members of the Grotto team, champions for 1923 of the Senior League and winners of the McBride Cup, lined up last night to have their pictures taken. This will be added to the swelling list of interesting photos that the popular cigar store now possesses.

After the postponed football batting averages soared. For the game between the Sons of Eng-

mine, Greenwell got a pair of land and Grotto scheduled for

singles, likewise Mealey and C. the first of next week there will

Ferguson, while Pynne, Stewart be a blank month as far as foot-

ball fans are concerned it appears. Nothing has yet been lined to take place between now and Fair time when local select teams will kick the leather with outside aggregations. The Fair football visitors will either come from Anyox or Telkwa — which has not yet been decided.

**THIS DISTRICT TO SEND BIG EXHIBIT NEW WESTMINSTER**

A large agricultural exhibit representative of the entire Central British Columbia district will be assembled here and sent to the provincial fair at New Westminster next month, it was announced at the Fair Office this morning.

The management of the New Westminster Fair has appropriated \$250 towards sending the exhibit and the Northern B.C. Agricultural & Industrial Association has authorized the expenditure of \$200 for the purpose.

Forty-eight letters were sent out by the local Fair Board yesterday to agriculturalists in the interior in connection with the matter. Telkwa, Smithers, Round Lake, Barrett Lake, Houston, North Bulkley, Topley, Forestdale, Palling, Decker Lake, Burns Lake, Francois Lake, Grassi Plains, Southbank, Danskin, Streatham, Ootsa Lake, Wistaria, Vanderhoof, Terrace, Hazelton and other localities will contribute.

After it arrives at New Westminster, officials of the Department of Agriculture will look after the exhibit. The New Westminster Fair takes place the same week as the Prince Rupert Fair.

Doings of the Mosquito Fleet which is the chief source of Prince Rupert's prosperity

business along the waterfront Carnival at the forthcoming exhibition looked healthier than it did yesterday. The arrivals have been keeping well up to the average and the places for both first and second class landings have gained fairly steady. The Admiral of the Mosquito fleet is flying two flags from the masthead of the flagship of the fleet which signifies his appreciation of the good work being done generally around the base, like Johnny Walker, still going strong. With the arrival of several of the large American schooners on Wednesday the price for American fish took somewhat of a jump while the home boats had in two cents more for first class catches and over a dollar more for second class.

The weather on the deep sea banks has been all that could be desired and has permitted hours for fishing. Canadian schooners have been given the once-over on ways during the week and the season of summer overhaul is practically at an end.

**Doc Maguire Salvages Skiff**

If took Doc Maguire to put the Yacht Club members in a state of excitement. It chanced that skippered Doc Maguire, on the bridge of the good ship Bruce, took a little run around the harbor just as the dusk began to fall sideways. Sighting a derelict craft through the periscope the engine telegraph rang for full speed ahead and the Bruce was soon alongside the wreck. The derelict was found to be a perfectly good skiff, as skiffs go nowadays, with ropes and oars complete. It occurred to the salvager that the wreck may have been the tragic sequel to a salt chuck tragedy and with this in mind, and the skiff in tow, the

Bruce headed back for the Hazelton, to be received with great rejoicings by a large crowd who had breathlessly watched the nervy manoeuvre.

The Dixie Rupert, Capt. Geo. Newcombe, is on the Lear ways undergoing a few midsummer touches at the hands of her skipper.

The Canadian schooner Eastern Point is on the Ward ways undergoing copper painting and a general overhaul.

**Sunbeam II on Ways**

The coastal cruiser Sunbeam II, owned by Douglas Stork, is on the N. M. McLean ways undergoing a general overhaul as the result of her recent trip to Vancouver and return. The hull is to be thoroughly gone over and her cabin is being improved while she is laid up.

**Vaquero off Dry Dock**

The launch Vaquero, owned by Colonel Stuart, and recently overhauled on the Canadian National dry dock, is once again in the water at Cow Bay. A complete overhaul of the craft has been made and the Vaquero is now in tip top shape for anything that comes along. Colonel and Mrs. Stuart have gone to Alaska and the Yukon, where they will explore and hunt in the interior, and will not return to the city until next spring.

**Eileen Breaks Away**

The power boat Eileen owned by W. Shaw had quite an experience while in commission at the Shallowans Passage during the week. It appears that her skipper was working on the pipeline in that vicinity and had anchored the boat as he thought securely. After a few hours absence he returned to the scene of the anchorage and much to his amazement, found the boat conspicuous by its absence. Sensing that Eileen had become tired of waiting, and had wandered away, Cap requisitioned the services of the Dixie Rupert and the Oh Baby to lend a hand in the search. The missing craft was eventually located inside the rapids, none the worse for her lonely voyage. According to the secret service some piscatorial artist must have swiped the anchor for a sinker.

**Repairs to Hazelton**

Considerable repair work is to be done to the Prince Rupert Yacht and Rowing Club headquarters, the old river steamer Hazelton, situated on the shores of the club wharfage site. The foundation is to be entirely renewed. New piles and cross pieces will be installed underneath the present building, while the entire upstairs portion is to be re-boarded. The activities of the club have progressed rapidly and it has become necessary to install additional accommodation for new members. Already six additional boat stalls have been put in and others are being contemplated.

**Jim after Garden Cup**

No sooner had the announcement been made that acting Mayor Collart would donate a silver cup for the best garden in the city than Jim began to shift the furniture around, of course during the absence of the good lady, in an endeavor to find the most suitable place for the cup. And now it is all fixed up and agreed upon by both parties.

Just in the way of a little garden advertising Jim has been promiscuously distributing bunches of dahlias and sweetpeas around the waterfront in order to create a little interest in his well-meant manual efforts. Well sir, we have seen dahlias and dahlias but Jim's dahlias take the biscuit, or we should say the cup, for beauty and fragrance. If the stories about the garden peas come up to scratch the judges will have no alternative but to award the cup to Jim. The peas have grown to such proportions that a small fire escape is necessary to pick the luscious pods of the topmost stalks.

Another thing about the peas, Jim will swap a good mess of green peas for a decent sized leg of spring lamb or a nice domestic duck.

Pete Solem, the figure wizard of the Booth Fisheries, has been admitted to hospital suffering with his face and it will probably be necessary for him to go under an operation. Pete has been ailing for some time. It is the hope of the waterfront fraternity

that he will soon be back on his perch figuring out the heads and tails.

**Summer Is Back**

The American halibut schooner Summer, Capt. Soriano alias "Mingo," hove into port on Thursday morning from Seattle, after an absence of some two months, looking like a million dollars. While in the south the good ship has been treated to a sumptuous overhaul and new Diesel engine installation. The hull is decked with gold and white and the whole works from top to bottom is in a perfect state of fitness.

After taking on ice and bait the Summer left for the high spots to prove that she is just as good a fishing boat as she looks.

**Walrondo In Port**

The Dominion public works launch Walrondo, Capt. Brown, returned to port on Thursday morning. J. P. Ford, district engineer for the federal public works department has been on a visit of inspection to Skeena River and Naas River points aboard the official launch. While on the present trip Mr. Ford has instituted an idea for testing the action of teredoes on every description of timber growing in British Columbia. Samples of the various timber are nailed on to a piece of oak and sunk at various points down the coast. These samples will be left in the water for a certain period and will then be raised and examined to determine the action of the sea worms on the different kinds of wood.

**Radio Hit Iceberg**

The new American schooner Radio, Capt. Angelsen, a six dory boat, carrying a crew of some twelve men, had quite an exciting experience while out on the high spots in the vicinity of Icy Straits. While travelling at a good gait the boat struck a submerged iceberg of large proportions with the result that the compass was put out of commission although no particular damage was done to the hull. The Radio returned to port on Wednesday morning with 50,000 pounds of halibut and will have her compass adjusted while here. She will proceed to Ketchikan for any necessary repairs.

**Flute Saved Army**

While the secret service cannot vouch for the veracity of the following yarn there is undoubtedly an element of truth in it. The hero is none other than George Woodland of oil fame. It was during the South African war when George was a member of the Imperial forces besieged in Ladysmith under General Sir George White. The Boers had been hammering at the gates of the city for months and it was a question of touch and go as to whether the Britishers would ever get their natural freedom again. An idea struck George, who was a great performer on the flute. He obtained some Dutch popular music and one evening, while the other guys were on sentry go, started in to render heartthumping selections.

on the flute. The Boers were so hypnotized with the musical strains that they wandered with mouths and ears wide open to the edge of the city forgetting to bring their implements of war with them. It was then that the dirty work started. While the Dutchmen were drinking in the flute music oblivious of all their surroundings the colonel and a couple of hefty lieutenants sneaked behind them and struck them down to a man thus depleting the opposing forces to such an extent that the rest of the Boer gang beat it. And that is how the flute saved the army.

**Fish Business**

During the week 684,000 lbs. of halibut had been marketed on the Fish Exchange. The highest price for American first class fish was 13.6c and for second class 11c. *If You Are of Average Figure*

VERY few of us are ideal average. There is always a bit of coaxing to be done—a little moulding, a subtly straightened line, a comforting support. With remarkably few bones and no undue constraint, Gossard Corsets designed for the average figure bring it gently but surely to its ideal perfection and eternally guard you from the injustice of looking older than you are.

Understanding your type is one of the most important aids to beauty you will ever find. Remember that whatever your figure may be there are Gossard Corsets with just the support you need at your age and weight to give

Gossard trade marked Corsets as low in price as \$2.50

**TRAINING CENTRES FOR LONDON BOYS**

Only Thirteen Per Cent Enter Skilled Trades of Boys Reared in London

LONDON, Aug. 18.—Two-thirds of the boys reared in London enter casual trades, as unskilled labor and shopmen, and only 13 per cent of them enter the skilled trades.

These figures, which have been prepared in the interests of a campaign to furnish greater technical education for London's youth, are said to be higher in unskilled and lower in skilled trades than any other large city in western Europe or America.

This is the result of insufficient technical training centers, and the poverty among the lower classes, which forces the boys to work at very early ages.

The campaign which is being backed by many welfare organizations will attempt to arouse interest in the establishing of training centers throughout England.

**ROAD PROGRAM FOR STATES SHOWS GREAT INCREASED MILEAGE**

WASHINGTON, Aug. 18.—The 1923 road construction season is expected to add many hundreds of miles to the country's system of improved highways. Figures compiled by the Bureau of Good Roads of the Department of Agriculture from 21 scattered states show they will have available \$288,000,000 for this purpose, compared to \$273,000,000 spent by them last year. On federal-aid work, which constitutes something like one-half the total mileage, there was under construction March 31 work estimated to cost \$258,000,000, as compared with \$233,000,000 on the same date a year ago.

The general outlook is regarded as considerably better than a year ago, when the railroad and coal strikes were disturbing factors. The designation of federal highways is now completed in 33 states, and is almost complete in the others. Thirty states now tax gasoline, as compared with only four at the beginning of 1921, and most of this revenue goes for road purposes.
