FIELDING IS PREPARING FOR RECIPROCIITY

LOWER LIGHT RATES PROPOSED BY CITY COUNCIL AND BYLAW IS READY

Fielding Proposes Reciprocity in Budget Speech and Mentions Fish as Negotiation Commodity

OTTAWA, May 12.—Hon. W. S. Fielding in his budget speech yesterday announced steps which he said he hoped would lead to reciprocity with the United States. He proposed to include a clause in the Canadian tariff authorizing any Canadian minister to enter into negotiations with a representative of the United States with a view to making a commercial agreement.

Mr. Fielding further proposed that if the president of the United States under authority of the U.S. Act determined to reduce by 50 per cent the duties on cattle, flour, wheat, oats, barley, potatoes, onions, turnips, hay, and fish, the Canadian Government should be authorized to make compensatory reductions.

The minister spoke optimistically, refusing to add to the deficit of the country despite the fact that he had a deficit of nearly fifty millions to announce. He looked to increasing customs and post office revenue and better conditions under which the Canadian National Railway was being operated to keep reducing the deficits year by year.

Specific Changes Made in Revision

Mr. Fielding's main announcements were:

- An increase in the British preference on goods shipped through Canadian rivers and sea ports.
- Sales tax to be collected at the source at the rate of six per cent.
- A reduction in the sugar duties and the excise duties on sugar to be dropped.
- The cigarette tax to be reduced to the former rate.
- The tax on soft drinks to be replaced by a tax on carbonic acid gas.
- Bounties to be granted on hemp and copper with the cessation of bounties on manila, linen thread and petroleum.
- New items are created to give protection to the artificial silk industry.
- Duties to be increased on raisins to allow a substantial preference to be made to Australia.
- Reduced excise on Canadian wines, raw furs and drain tile farm purposes.
- Manuscripts and newspaper to be exempt from sales tax.
- In speaking generally of the changes made, Mr. Fielding stressed the need of tariff stability in order not to disorganize the business of the country.

HOSPITAL WILL ACCEPT OFFER MADE BY CITY

After Defeating Several Resolutions Board Accepts 60c. Conditionally

After defeating several resolutions including one to accept the sixty cents per capita offered by the city, the Hospital Board last night decided to accept the offer conditionally in somewhat the following words:

"That this board is of opinion that it cannot operate without going in to debt on sixty cents per capita, but, in the belief that the city council is trying to put into effect measures of economy, we agree to accept the sixty cents a day and hold out the hope that if it shall become necessary the board will later come to our aid."

This was carried with only D. C. Melroe voting against it. It was moved by S. K. Campbell, seconded by W. E. Williams and supported by W. E. Collison, J. Ross Mackay, E. H. Mortimer and Alderman Theo. Collart.

First Motion

The first motion was by Ald. Collart, seconded by Mr. Mortimer that the sixty cent offer be accepted. It was discussed at some length, Mr. Melroe advocating as an alternative charging \$2.50 a day and was defeated.

President D. G. Stewart favored accepting the offer as he feared the collection of \$2.50 a day would lead to confusion and friction. The city had always been behind the board and would be again.

Mr. Mackay did not see how it could be said the city was behind them. Ordinarily when special new work was going on in a city such as was at present being initiated by the board, the city made a special grant toward it, but instead of that the city was cutting them down. He knew that the council was elected on an economy platform and every department had been criticized. The hospital had come in for its share but he had not found any alderman that could put his finger on any extravagant spot.

Mr. Williams said he had looked into the financial statement for the year and found that in spite of the various grants they had been running behind \$2,500. The income was less than the expenditure. He was in favor of accepting the sixty cent offer but was strongly of opinion that they could not finance on it and would have to come back for a bonus.

Mr. Campbell was satisfied the institution could not be run on less than 70c. but he did not favor collecting the \$2.50.

Friendly to Board

Ald. Collart did not think they had a right to assume that the council was not friendly to the board. The feeling of the council was that more attention should be paid to matters of collection and finance this year. If they knew the financial condition of the city they would not ask for more money. He urged that the

SIXTY WOMEN ARE SUMMONED TO ACT AS ASSIZE JURORS

Sheriff Shirley Stated This Morning That Notices do not Apply for Session of Next Month

Sixty women of the city received summons by registered mail yesterday to serve on the Supreme Court assizes next fall. Sheriff Shirley stated today that several had already refused to act. Under the new regulations providing for women jurors, they are given the privilege to refuse to sit within ten days after receipt of notice.

The sheriff also stated that these notices do not apply to the spring assizes opening here next month and that women are not being called upon to act as jurors for that session.

PLASKETT HONORED

Made Member of Royal Society For Discovering Twin Suns

LONDON, May 12.—Among the new fellows of the Royal Society here are Dr. J. J. McCleod, professor of psychology of Toronto and Dr. J. S. Plaskett of Victoria, B.C., formerly Dominion astronomer. Plaskett's discovery of twin suns fifty-two quadrillion miles from the earth by means of the huge telescope at Sarnich Mountain is regarded by scientists as the outstanding astronomical achievement of recent times.

Light and Power Rate Reduction Proposed in By-Law Laid Before City Council at Meeting Today

A new bylaw providing for considerable reductions of light and power rates now charged by the city was presented to the city council for its information at a special meeting at noon today. On Monday evening it will be dealt with by the council when the superintendent of utilities will be called into conference.

The following proposed rates are embodied in the new bylaw:

- Residential lighting including irons, toasters, washing machines, etc. not of more than 660 watts each, connected to one meter, 8c. per kilowatt hour, graduated down to 5c. according to consumption.
- Commercial lighting rates for all business purposes, 8c. per kilowatt hour, maximum to 6c. minimum.
- Small power rates on connected load less than one horsepower on the same basis as business lighting rates.
- Power rates, 1 to 20 h.p., 6c. to 3c.
- Power rates, 21 to 100 h.p., 5c. to 1c.
- Industrial plant lighting where power is also supplied by the city, to be measured by separate meter, 5.5c. to 3c.
- For all cooking and heating devices used for intermittent service with a rating of 3.5 kilowatts or over, 3.5c. to 2.5c.
- Water heaters at flat rate of \$3.50 for 1,000 watt heaters, larger and smaller heaters on same ratio.
- Street Signs**
- Approved signs or individual lamps over 200 candle power adding to illumination of streets, 50c. flat per 150 candlepower for day and 60c. for night.
- Street lighting, at actual cost of production plus cost of maintenance and renewals.
- Discounts, 10 per cent before 15th of month, ranges and flat rates no discount, commercial lighting 10 per cent under \$25 and 15 per cent over, power 10 per cent.
- Connection charges are also provided for. Meter rents are abolished and minimum rates are also fixed.
- The proposed changes shall be made for all light and power supplied by the city except where different rates were set by special contract.

PROTEST AT THE BRITISH

Demonstration in Moscow at Ultimatum Note: Factories Closed

MOSCOW, May 12.—All Moscow's factories and government institutions closed today to permit employees to take part in a great demonstration against the British note. Surging crowds early began to fill the streets. The intent of the demonstrators seemed peaceful but it appeared evident they meant to make the demonstration impressive.

SOVIET WOULD LIKE TO CONFER FURTHER

Cannot Accept British Ultimatum But Has no Wish to Break With Britain

MOSCOW, May 12.—The Soviet Government does not desire to break with Great Britain and is willing to confer with that country but cannot accept such an ultimatum as that contained in Lord Curzon's recent note, said Gamsky, deputy minister of foreign affairs.

Caribou Rode to Death Down Yukon River on Ice Floes and Others Passed Through City

DAWSON, May 12.—A dramatic spectacle was witnessed here yesterday when with a mighty crash millions of tons of ice swept past the city following the breakup yesterday.

On an ice floe amidst the moving mass were three young caribou, which were swept to death in a jam a short distance from here. They were probably survivors of a herd of several hundred, which attempted to cross the river just as the ice broke.

Tens of thousands of caribou have been ranging in the vicinity lately and several hundred swam the river yesterday, passing through the outskirts of the city unmolested.

Ice floes grounded on the Dawson front, a distance of half a mile, the heaviest in years. Thousands of tons piled high on the beach.

FISH ARRIVALS

Nine Boats Sold a Total of 137,000 Pounds at the Fish Exchange This Morning

Fairly even prices for American and Canadian halibut, with the advantage going to the latter, were paid at the Fish Exchange this morning. Five American boats disposed of 93,000 pounds, and four Canadians, 44,000 pounds, a total of 137,000 pounds.

OBSERVING OF HOSPITAL DAY

Institution is Being Thrown Open This Afternoon for Public Inspection—Refreshments

In order to fittingly observe National Hospital Day and at the same time give the public an opportunity to familiarize themselves with the workings of the hospital and learn of the importance of the institution to the community at large, the Prince Rupert General Hospital from 2.30 this afternoon is being thrown open for inspection. Members of the nursing staff will escort the visitors to the various departments such as the operating theatre, case room, x-ray room and kitchen and demonstrations will be given where possible.

Tea and refreshments will be served under the supervision and management of the Ladies' Auxiliary, Mrs. R. C. Parsons, president, and the Graduate Nurses' Club, Miss Dorothy Gillingham, president. High School girls and other ladies will also give assistance.

General arrangement for the reception and entertainment of the visitors have been made by the Ladies' Auxiliary.

WILLARD KNOCKED OUT FLOYD JOHNSON

Fight at New York in Eleventh Round With Right Uppercut.

ON THE SIDELINE, NEW YORK, May 11.—Boss Willard came back to his fighting fame defeating Floyd Johnson of Des Moines, a man half his age, here this afternoon. Willard sent Johnson flying to the canvas in the eighth round with a right uppercut. Johnson was unable to get up for the twelfth round.

A record throng crowded the arena to see the heavyweight fight. In the first bout Harry Greb of England, received the nod of the referee over John McNeil of Newark, N.J., in a four round bout.

Johnny Herman of Omaha, beat Al Reich of New York in the eighth and last round of their bout, knocking him down to the canvas for the count.

J. Renault of Chesham, Que. was awarded the contest with Fred Fulton of Minnesota in the fourth round. The referee claimed Fulton fouled Renault with a left swing. Renault had the better of the fighting until the foul was committed.

Luis Angel Firpo, pride of the Argentine, knocked out Jack McAuliffe, Detroit, in the third round.

A writ of attachment on any money Floyd Johnson may earn from the bout with Willard was served on Johnson in behalf of the Boston Athletic Club which claimed it suffered \$5,000 damages through Johnson's failure to appear for the bout with Fred Fulton in Boston recently.

DORIS CHAMBERS IS GOLF CHAMPION AT BURNHAM, ENGLAND

BURNHAM, England, May 11.—Miss Doris Chambers of Wirral, Cheshire, won the British open golf championship today defeating Mrs. Allan McBeth in 36 holes by one up.

Mrs. McBeth, when Miss Muriel Dodd won the championship in 1913 and created a surprise, yesterday was eliminated as title holder by Miss Joyce Wethered.

QUIMET WAS BEATEN BY ENGLAND'S BEST

DEAL, England, May 11.—Francis Quimet, the last hope of visiting Americans in the British amateur golf championship, went down to defeat yesterday afternoon before Roger Wethered, the Oxford expert, after Quimet had overwhelmed Cyril Tolley, who is considered England's best player, by four and three.

RATES BYLAW FOR YEAR INTRODUCED

City Council Had Special Meeting at Noon Today For Purpose—Figures Not Out

The city council had a special meeting at noon today to give the rate levy bylaw for the year 1923 its first reading and put it into the committee stage. It will be further considered at Monday night's meeting. So far no figures have been placed in the bylaw as estimates are not quite completed. It has been taken up at this time in order to comply with the legal requirements which necessitate the bylaw being completed by May 15.

HAVE BEEN FEW FIRES IN INTERIOR DISTRICT

P. S. Bonney, district forester, reports that there have been about seven rather serious fires in the interior but at present there is nothing that is causing any worry. Small crews have been employed in extinguishing those which have so far broken out and no material damage has been done so far.

Owing to the rather continued dry spell in the interior they have had to be watchful but the advent of rain would make the situation reasonably safe.

SICKENING HEADACHES ENDED BY "FRUIT-A-TIVES"

Effect was splendid when she tried this Fruit Medicine

East Ship Harbour, N.S.

"For years, I was a dreadful sufferer from Constipation and Headaches, and I was miserable in every way. Nothing in the way of medicines seemed to help me and I was almost discouraged.

Then I tried "Fruit-a-tives" and the effect was splendid; and after taking one box, I can safely say I am well. I feel like a new person in every way and I am deeply thankful to have relief from those sickening headaches."

Mrs. MARTHA DE WOLFE.

"Fruit-a-tives" will always relieve Headaches due to Constipation because they act directly on the liver and cause the bowels to move regularly and naturally. This rids the system of impurities and keeps the blood pure and rich. "Fruit-a-tives" are made of fruit juices combined with tonics, are pleasant to take and mild and gentle in action.

See a box, 6 for \$2.50, trial size 25c. At all dealers or sent by

"It was pointed out in last year's report that the mineral production of District No. 1 was the greatest in the history of the Cassiar district and an optimistic forecast was made for the year 1922. Totals of output for the year 1922 show the very remarkable increase of 50 per cent in value over last year's production, reaching a mark hardly dreamed of a few years ago. The tonnage is greater than 1921 by 4,415 tons and is over the 1,000,000 ton mark."

This reads the report of George A. Clothier, resident mining engineer for the provincial government, published in the annual report of the Minister of Mines which has just been issued from Victoria.

The report continues: The gold output has practically doubled that of last year and is three times the amount produced in 1920. It is the greatest production ever made in one year by any one district in the province. This remarkable increase is due to the Premier Gold Mining Company at Stewart and the Granby Company, the Belmont-Surf Inlet falling slightly short of last year.

Silver Output
The phenomenal output of silver, 4,684,944 oz., or three times the output of last year, is also due to the sensational production of the Premier Gold Mining Company. The Granby Consolidated contributed an increase of 72,000 oz., while the Belmont-Surf Inlet fell a little below its 1921 output.

This is also the greatest production of silver ever made in one year by any one district in the province, the nearest approach to it being that of West Kootenay District in 1913, of 2,527,000 oz. In fact, it is over 1,000,000 oz. greater than the silver output of the entire province in any one year since 1902.

The production of copper has decreased by about 1,000,000 lb., due to the decreased output of the Granby Consolidated. Belmont-Surf Inlet shows a slight falling off from last year.

Ten Million Dollars
The grand totals give a value output of \$10,867,144, an increase of \$3,672,980 over 1921, or about 34 per cent. It is outstanding as the highest yearly value production ever made by one district.

It will be noted that the value of the three metals produced in the district each amounted to over \$3,000,000, a remarkably even division. Altogether, the district produced 67 per cent of the total tonnage mined, yielding 81.7 per cent of the total gold, 65.9 per cent of the total silver, and 95 per cent of the total copper produced in the province in 1922.

The above figures represent a wonderful expansion of the mining industry in the north-western portion of the province in the past eight or ten years, and, as a matter of fact, in the last two or three years.

Prospects For Future
The question naturally comes up as to whether this output may be expected to be maintained, or possibly increased. The three great producers, Belmont-Surf Inlet, the Granby Consolidated, and the Premier Gold Mining Company, give every reason to believe that their present outputs can be maintained for some years to come, but are probably up to capacity production under present conditions.

Any material increase in output must therefore be looked for from new shippers. The one that appears to give the most promise for the near future, from all reports, is the Engineer mine at Atlin. This property is now free of litigation and in all probability will be put under active operation.

The Maid of Erin in the Rainy Hollow section, while under a heavy handicap of long transportation by motor truck, or tractor and trailers, is developing at considerable depth a fine showing of hornite and chalcocite and gives one good reason to believe that it will become an important

shipper of high-grade copper ores. The Indian mines in the Salmon River section is looking very promising for the amount of work done and is developing large bodies of milling-grade ore. Indications are that this property will justify its being equipped with a concentrating plant within a year.

B.C. Silver
The B.C. Silver Mines' recent strike in cutting the extension of one of the important ore-producing fissures of the Premier mine, and the satisfactory values obtained across a width of 25 feet, practically indicates its developing into a very important producer.

The acquisition of the Dolly Varden by the George Wingfield interests, by the foreclosure of a mortgage, clears the air somewhat, and this property may be expected to resume operations, with a good chance of opening up a tonnage of milling ore and of finding more shoots of high-grade silver ores.

Fielding Optimistic Over Finances.

In spite of the fact that the estimated result of the present year's operations in the Dominion will result in a deficit of close to fifty million dollars, Hon. W. S. Fielding, minister of finance, is very optimistic. The deficit is being rapidly reduced each year and if the railways are able to show anything approaching an even break, the income and expenditure will meet. Outside of the railways the estimated income is fourteen millions more than the estimated expenditure so that on the whole the finances of the country may be said to be in a healthy condition. The national railway is the only present drawback and is rapidly being placed on a paying basis.

Mr. Fielding is a master of finance and he has the confidence not only of Parliament but of the people of the country. He is to be congratulated on the manner in which he is rapidly bringing financial order out of chaos.

Still Preparing For Reciprocity.

The Canadian Government is still preparing for reciprocity with the United States and Prince Rupert will be one of the strong backers in the carrying out of such a policy. Being right on the U.S. border we shall welcome anything which will lead to closer trade relations. There must, however, be a policy of give and take and not all take, as has been the policy recently. Any just arrangement will meet with our approval but it must be clearly understood that the arrangement must not be made by the stronger power only with a view to injuring the business of the weaker.

Judge Young And Boys Of City.

Judge Young spoke very clearly and earnestly to the Rotary Club on the failure of the criminal machinery to meet the case of the boy. He urged that instead of devoting all our energies to dealing with the criminal we devote the greater part of it to preventing crime. He urged that more attention be paid the boy in the home, in the church and through such organizations as the boy scouts. In that way lads who otherwise might tend to become criminally inclined were likely to lead useful lives. "Root out the breeding places of crime" was his advice.

Breeding Places Of Crime Here.

Judge Young did not go into the matter of what were breeding places of crime. That is where vested interests are touched and where opposition shows itself. Where in this city are the breeding places of crime? There must be some such places or the Judge would not have troubled to refer to them. It is perhaps worth thinking about. If there are any such pest holes as the Judge mentions, it might be well for the sanitary department to close them up, to cover them with chloride of lime and bury them and let them appear no more.

"My Hands Trembled and I Could Not Sleep"

Mr. Thomas Honey, Brantford, Ont., writes:—

"When I began taking Dr. Chase's Nerve Food, I was so nervous that when I picked up a cup of tea my hand would tremble like a leaf. I could not sleep well, could not remember things, and there were neuralgic pains through my body. After taking seven boxes of Dr. Chase's Nerve Food, however, I am in perfect health."

SUFFERED SO from Heart and Nerves LIFE WAS A BURDEN

Mr. A. H. Lee, Beamsville, Ont., writes: "I am delighted to let you know what I have to say regarding the good Milburn's Heart and Nerve Pills did me. A short time ago I suffered with heart and nerve trouble, and was so bad I could not sleep, only about two hours each night. My heart was so bad I had spells when driving on the road and would faint away, and neighbors would carry me in from my wagon. I also took these pills in the night and during my daily work on the farm. My nerves were so bad I would jump out of bed, and was then compelled to walk the floor before I could settle down again, but after taking a few boxes of

Milburn's Heart and Nerve Pills

I can honestly say I am a relieved man. I now feel in the best of health, in fact, the best I've been in for three years, and can do any class of work with pleasure where before life was a burden to me." Price, 50c a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Constable Gillies, of Swanson Bay, returned South on the Venture this afternoon.

Leagues Getting Ready for Season; Social News of Granby Camps

ANYOX, May 12.—In the first round of the billiard matches played between representatives of the Elks and Community League, the Community League players had a lead of 233 points. In the second round, however, this lead was wiped out by the Elks getting a tally of 1000 to the League representatives 588. The total scores at the finish were Elks, 1720, Community League, 1544, a difference of 179 in favor of the "Brother Bills." The individual scores of the second series, which was played at the Elks' Hall, were as follows: Elks, W. Robertson, 250; J. Ellis 250; W. Jones 250; D. McKenzie 250, Community League, F. E. Townshend 136; E. Croucher 52; E. Morning 157; G. Willisroff 243.

On account of the non-arrival of equipment for the Elks' football team in time for the opening game of the Anyox Association Football League, which was to have been contested by the Elks and Mine teams, Tuesday, May 8, this game was postponed until such time later in the season as the Executive of the League shall decide.

The first baseball blood of the season will be drawn on Sunday evening when the two nines from the Mine will assemble on the local ball lot and attempt liberties with one another's ball playing abilities. The meeting has been talked of for a long time, even before the snow began to disappear, and the very first opportunity to cross bats has been taken advantage of. A team representing the surface workers will do battle with a team from the underground gangs.

The Anyox Baseball League is all ready for the opening of the season on Monday, May 15. The three teams constituting this League are eager to go, and on their practice form any one of them may win the opening games. Some new blood will appear in local uniforms, but at present is an unknown quality. The batteries will be practically the same as last year, the Mine using the Ferguson brothers Cecil and Jim in the box, with Geo. Corkle and Geo. Greenwell as change catchers. Greenwell was change catcher for the smelter team last year, which will have Ben Fitzpatrick of last year's staff and a new man, McKeown, whose brother will do the catching for the "Gas Eaters." Pete Braudson, old standby of the Elks for several seasons, will be on the mound as the leading twirler for the antlered herd. The teams differ but slightly from last year's line-up, with the exception of the smelter aggregation, which has a number of players trying out who are strangers to Anyox fans.

Apropos of Anyox and ball-players. Being a good ball town, a fact which is naturally noised about, a number of boys representing themselves to be ball players have drifted in here this spring, expecting to find their services as ball tossers at a premium, or worth a well-paid position. There are no well-paid, soft seats for ball players in Anyox, and it would be just as well if it were noised abroad that they are not essential if they are not capable of delivering the goods on the job. In other

words, the only ball players wanted here are the kind that can hit the ball on the job as eagerly as they do it on the playground. Sport is necessary here, and we have it good, but it is not the first consideration.

Negotiations are under way for baseball and football games with Stewart at that town on Empire Day. If satisfactory arrangements can be made, this will be done, the teams leaving here on May 23, returning May 25.

The Anyox Parent Teachers' Association at the regular monthly meeting held in the High School assembly room, unanimously endorsed the proposal to amalgamate with the British Columbia Federation of Parent Teachers, and steps to this end will immediately be taken. The meeting was a short one, and was convened late owing to other attractions, while the usual program supplied by volunteer entertainers was dispensed with.

By invitation only, a gathering assembled in the Catholic Church Hall on an evening early in the week and said good-bye to Geo. Cooper, who is leaving Anyox shortly. From all reports a bonny time was spent, the best to local talent supplying the entertainment, while a supper with all the fixin's necessary for an affair of this order was a feature.

The various committees of Anyox Lodge, B.P.O.E. are working up what promises to be a big affair for the evening of May 23, when an Oriental dance will be staged in Recreation Hall with all the costumes and colorings known to eastern peoples. This should provide plenty of scope for the local dance enthusiasts

Doings of the Mosquito Fleet which is the chief source of Prince Rupert's prosperity

The Admiral of the Fleet is in high spirits this week, having celebrated a birthday, and is much satisfied with the amount of fish business put through. He reports that the coming of summer weather has materially improved conditions for the high boat squad operating on the high spots and that the halibut have responded gallantly to the baited hooks. The quantity of fish landed this week has increased over the previous week, although the prices have had a tendency to slightly decline. The Canadian schooners received higher prices than the Americans on Thursday. A cent higher for first and second class fish was paid to the boats of the home fleet on account of the small amount of Canadian fish offering for the Canadian market.

The Plop landed 4,000 pounds of red salmon and 100 pounds of white on Thursday, the only salmon arrival of the week. A number of trollers have gone further afield to garner in their harvest of the deep. Several of the little fellows have already gone out as far as the Hippo Islands and will continue trolling in adjacent waters for the season.

Travel between the Queen Charlotte Islands by the bigger local boats is steadily increasing, the development of the islands demanding better communication between this port, Massett, Buckley Bay, and Port Clements. The Pachena, Capt. Swanson, and the Wigwam, Capt. Ketchum, have both paid visits to the busy island ports as the result of the increased activities of the Massett Lumber Company.

The N. M. McLean shipyards are busily engaged in repair work on the Eleanor Mae, White Lilly, and a new power boat is under construction. The Suga yards are also fully employed.

New Engine Sunbeam II.
 The coastal cruiser Sunbeam II, skippered by Douz. Stork, has recently been fitted with a 13-15

h.p. Buffalo heavy duty in place of the Winton Six which originally did the propelling honors. A trial trip was made on Tuesday night and everything proved satisfactory, mechanically. With this installation the Sunbeam II will not travel quite so fast but will travel more often.

Capt. A. Swanson, of the Prince Rupert Boat House, left on the steamer Prince Rupert on Wednesday evening on a business trip to Anxox.

The power boat Lewis Island II, Captain Lois Locker, arrived in port on Thursday morning from Lewis Island for logging supplies.

Fire, Fire, Fire!
 The cry of fire rang along the waterfront on Sunday evening last when the roof of Doc Clapperton's residence, situated over the Provincial government dock, was seen emitting clouds of smoke, and a pretty array of sparks. The first alarm was blown on the mouth organ by Pete Solem, who afterwards sat down to write a postcard to the fire brigade. However, Bill Strubbs showed his presence of mind by detailing a man to phone up the fire brigade and to inform the chief that something unusual was happening down that way which might interest them. A crowd soon gathered to watch the fun and their ravings awoke Doc who was sleeping quietly under the kitchen stove, the couch having been newly covered. Upon Doc's appearance at the window to see what all the fuss was about the crowd informed him that his abode was on fire. That being the case Doc discussed the matter over the phone with the fire department, which fortunately had left for the scene of action the previous day, and the whole fire fighting and heated spread provided by the old man and as a token of goodwill on behalf of those assembled presented the guest of honor with a subscription card on behalf of the Nurses' Home Campaign Fund. The Admiral, with tears of thanks in his eyes, to say nothing of those in his handkerchief, tried to respond but emotion overcame him and he was forced to sit down amid many empty bottles. However, not to be outdone, the old boy volunteered to give a clog dance on the table to the accompaniment of the violin in the incapable hands of Sam McVey, the welterweight champion of the fleet. The breaking down of the table, and the breaking of three strings on the violin, brought the turn to a sudden termination. The floor was then cleared for dancing to the miserable strains of the fleet orchestra. The jumping around continued until the miles present were so overcome by their spirits that no partners offered for the ladies. By special request the names of those present are not published.

Building Speed Boat
 N. M. McLean is building a sleek-looking speed boat at his own yards. The hull measures 22 ft. x 7 ft. and will be fitted with 60 h.p. Kermath engine, if a pending deal goes through satisfactorily. If such an engine is installed it would give the boat a speed of from 25 to 30 miles per hour and would bring the Sall Lakes right to Mac's door, so to speak. The boat is for Mac's personal use.

Rosie H. in Port
 The power launch Rosie H., Capt. Matthew Yeoman's, arrived from Massett on Tuesday with A. Brown, A. Edwards, and Alex. Yeoman's aboard. The Rosie H. is a useful looking deep sea boat and measures 45 feet long by 10 ft. 4 in. beam. She derives her power from a 15 h.p. Yale engine which gives her a speed of 8 miles per hour. The boat was built at Old Massett and will be used for seining purposes. While in port the Rosie H. will go on the dry dock for mechanical finishing touches, and when completed will leave for the Naas river district.

The Cub, Capt. Vic Markland, is on the Ward ways for general overhauling purposes.

A scow loaded with lumber arrived from Swanson Bay via the tug Earl on Thursday for the Albert-McCaffery interests.

Eleanor Mae's New Engine
 The halibut schooner Eleanor Mae, owned by skipper Jarvis McLeod, is on the N. M. McLean ways for the installation of a 20 h.p. Standard heavy duty engine. It is said by the fleet secret service that with this power aboard it is the intention of her owner to run cheap excursions to England and Mediterranean health resorts. Don't crowd for tickets, please.

Vesta in Tow
 The American schooner Vesta, Capt. Swanson arrived in port on Thursday morning in tow of the Azores, Capt. Edwards, having run amuck on the rocks between Cape George and Seal Rocks. While fishing off Cape George the Vesta climbed on to the rocks which made it expedient

What is the Price of Good Clothes?

THE buying public today demands fair prices—the lowest prices possible for quality merchandise. People will not buy an article if they believe it is "high-priced." Unfortunately many manufacturers and merchants have taken this to mean that people want only goods "made down to a price."

That is not the belief of William H. Leishman and Company, of Toronto. They believe there is nothing the public buys in which quality is so important as it is in clothing. That is why they have steadfastly refused to lower the high quality of Leishman Clothes.

The four essentials of "good" clothes—good material, good design, good fit, and (best of all) good tailoring—are embodied in every Leishman garment.

Skimping the quality of the workmanship, the material or the trimmings will lower the price—but it also lowers the quality and the character of the garment.

A Leishman garment is not built to look at on a form. It is built to "stand up" to every test, and it always gives "that well dressed" appearance.

The difference in price is not great—but the difference in satisfaction to the wearer is immeasurable.

Leishman Clothes appeal to the man who knows the value of quality tailoring. They make satisfied customers, because the wearer gets full value for the price he pays. There is the same guaranteed value in Leishman "Ready-for-Service" and "Made-to-Your-Measure" clothes.

This store will sell you a Leishman suit or overcoat with confidence—you will wear it with satisfaction. And the price of good clothes is in the satisfaction you get.

for three of her crew to make for Butler's Cove in a dory to try and obtain aid. The skipper and another member of the crew stuck to the boat. The Azores from the shore and on taking them aboard learned of the mishap and made at once for the stricken boat. After a little difficulty the Vesta was towed off the rocks and is now on the dry-dock undergoing necessary repairs.

Fish Business
 During the week 705,700 lbs. of halibut has been marketed through the Fish Exchange. The highest price paid was 14.5c. and 10.5c. and the lowest 12.1c. and 6c. The arrivals were: Helge-land, Eastern Point, Teddy J., Imperial, Fram, Reliance, Livingstone, Joe Baker, Nuba, Agnes B., Fisher, Kingoome, Anna J., Yellowstone, Brothers, Clara N., Kayousu, Republic, Royal, Reliance No. 1, Reform, Hi Gill, Sentinel, Pioneer, Constitution, Valorous, Tahoma, Lincoln, Adeline, Tom and Al. Whitie Changes Hands
 The combined sailing and power yacht Whitie, owned by Corporal Thornthwaite, of the R.C.M.P., changed hands on Thursday when it was sold to Mr. Conklin, manager of the shoe store for the Pacific Mills, Ltd., Ocean Falls. Mr. Conklin shipped his newly acquired craft to the pulp town on the steamer Prince Rupert on Thursday night.

Bob Takes Plunge
 Bob Thomas, the general manager at the Prince Rupert Boat House is tired of the hard boards on land and occasionally takes a plunge in the drink just to show how clever he is at walking on the water in his new ten boots. The latest plunge happened on Wednesday when, with the assistance of Harry Gilbert and the good ship Provincial, Bob was endeavoring to pry loose some logs in the vicinity of the dry dock. All went well until one of the logs became jammed and Bob started to fix it. Forgetting that his number tens were not spiked his foot slipped and before he could gain his balance to do the water walking stunt he was precipitated into the salt chuck. But for the gallant efforts at rescue by Harry it is on the cards that Bob would be walking the bottom of the bay yet.

Maevie Looking Swell
 The speed eater Maevie, skippered by Alex. McDonald of fire fighting fame, is reclining gracefully in Cow Bay. This little craft is gradually assuming a healthy outlook on life by the application of paint, etc., at the hands of her owner, Alex. has been spending a lot of spare time to say nothing of spare change, in fixing the boat up for the sunny days although to the un-

experienced eye it is difficult to see what has been done. The interior is a masterpiece of his artistic art and the windows of the cabin are to be fitted with flower boxes in which are planted spring onions and garlic. This is a new innovation in the decorating of boats and will undoubtedly cause a flurry of excitement when she appears at local holiday resorts.

DOMESTIC SCIENCE SALE AND EXHIBIT

Affair Yesterday Afternoon Was Most Successful—Display of Work Caused Much Complimentary Comment

The bazaar and exhibit of work of the domestic science classes of the public and high schools which took place yesterday afternoon at the Booth Memorial School was a most successful affair in every respect. About 150 ladies patronized the affair and the proceeds amounting to \$133 were considered most satisfactory by all concerned.

The exhibit of work caused many most complimentary remarks and many of the ladies present were indeed surprised at the results obtained as reflected in the work on display. The public school exhibit consisted of plain sewing, handwork and the high school work consisted chiefly of garment and dress-making machine work. Many of the garments had been designed by the girls themselves.

Miss Millicent Osborne poured tea, Miss Dorothy Thompson was cashier, and Miss Evelyn Barrett was in charge of advertising.

BOILS Made Him Sick and Miserable

Mr. Richard Zelenoski, McLean, Sask., writes: "I had been suffering continuously, with boils, for three years, and during that time I tried many different remedies without any success whatever. In spite of all my efforts I was compelled to go to the hospital. This was in the fall of the year, and right in the busiest time of the season. Upon my return home I just took about two weeks until my neck and arms were again occupied by the boils which made me feel very sick and miserable."

One day one of my friends advised me to try **Burdock Blood Bitters**, and after I had used less than two bottles I was very much surprised at the result.

It is now over two years since I got in touch with B. B. B., and I have had no bother with boils since. I will recommend it to all persons suffering from any defect in the blood."

B. B. B. is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

NEW ENGINE IN EDWARD LIPSETT

Is the First Canadian Halibut Boat of This Port to Have Semi-Diesel Engine Installed

The halibut schooner Edward Lipssett, Capt. John Peterson, reached port yesterday with 12,000 pounds of fish, after her first voyage to the banks following a recent change of importance in her motive power. The Lipssett now has the distinction of being the first Canadian halibut boat fishing out of Prince Rupert to have a semi-diesel engine. Early in April in the south she had a 35 horse-power Frisco Standard semi-diesel engine installed, replacing the former 20 horse power Frisco Standard gasoline engine.

She left Vancouver for the fishing banks on April 28, arriving here after being twelve days out. Her catch incidentally, pulled down the highest price paid at the Exchange yesterday, 13.7c and 8c.

The Edward Lipssett is named after the pioneer fishing boat supply man of Vancouver who sold the first halibut gear on the Pacific Coast. His customer was Greer Starrett then manager for the New England Fish Co. at Vancouver. Mr. Starrett, who is at present in Seattle, is now engaged in the sturgeon fishing business on Stuart River near Vanderhoof.

REGULAR MEETING EXHIBITION BOARD

Native Football Team Asks For Game—Drydock Commissary For Housing Natives During Fair Week

Little other than routine business was transacted at the regular meeting of the Fair Board last night. R. V. G. LePine, vice-president, was in the chair and the directors present included Joe Greer, R. E. Benson, Ben Self, Thos. McMeekin, F. Dibb, E. A. Mann and Managing Secretary F. W. Markinfosh.

A communication from the Killakia Football Club asking for a match in the city on May 24 was passed on to the sports committee. A game, it is expected, will be arranged with a Naas River native team.

It was reported at the meeting that arrangements had been practically completed for the use of the former commissary building at the drydock for housing visiting natives during fair week.

FOOTBALL LINE UP.

The following line-up has been selected by the Grotto Football Club for the opening game on Monday night:

bills be collected when due instead of allowing them to run on.

Mr. McRae said they had already made arrangements for collections and had given the secretary instructions to allow no one in the private wards without payment in advance and also to collect where possible from those in the public wards.

Mr. Williams moved in amendment that in accepting the 60c. the board feared it would be impossible to finance on it but would do their best. They feared they would have to come back to the council for a bonus.

This was defeated.

Mr. McRae moved that they stand out for \$2.50 a day for city indigent patients. This was not seconded.

After a good deal of discussion Mr. Campbell's motion was put and carried and the board adjourned.
