## NEGOTIATIONS UNDER WAY FOR SIX PLANTS

### GET TOGETHER, STICK TOGETHER AND BUY AT HOME, SAYS F. G. DAWSON

#### Dawson Urges Local People to Get Together, Stick Together and Buy at Home: Prospects Good

Speaking of transportation and trans-Pacific trade, Fred Dawson told the members of the Rotary Club yesterday that there were matters under advisement that if carried through would work out to the material advantage of Prince Rupert. He thought the shipping business by water and rail would be one of the chief future assets of Prince Rupert.

Mr. Dawson also said that the town was just as big as the men in it. If they got together, stuck together and bought at home they would have a town second to none.

The speaker referred to the forthcoming visit of Sir Henry Thornton, accompanied by some of the members of the board of directors of the road. Sir Henry was coming at considerable sacrifice and was to spend eight days in the district. He expected to visit Prince George, Vanderhoof, Endako, Burns Lake, Houston, Telkwa, Smithers and Terrace, driving from Vanderhoof to Endako, from Houston to Smithers, from Burns Lake to Francois Lake and Grassy Plains, and from Terrace to Lakelse Lake where he hoped to do some fly fishing. He would be in Prince Rupert from 1:30 Sunday afternoon to 11 p.m. Monday night.

Dr. Dawson suggested that by the time Sir Henry had spent eight days in the neighborhood he was sure he would see his way clear to grant the few small things that were needed in the district in the way of development. He considered the interior a country of wonderful development possibilities and people did not always realize what it was worth to Prince Rupert.

**Is Making Good**

The local director spoke highly of the work of Sir Henry since he had been head of the railway system. The revenues had increased nearly thirteen million dollars in five months and while part of this was undoubtedly due to improved business conditions it was also partly due to the co-operation and co-ordination brought about through the new railway head. During that period the operating costs had not increased but decreases would show later.

The general condition of the country is good, Dr. Dawson said. The crop prospects are excellent and if harvested and marketed successfully would mean a great deal to the country. The lumber business was going ahead by leaps and bounds. A small experiment in the shipment of lumber was being made and the world was now beginning to realize the value of western hemlock, this was recommended for flooring. Once the value of this timber was recognized the future of the lumber industry was assured.

Mining, Mr. Dawson said was also going ahead very fast. The Premier mine had been a God-send to the district and the Duthie mines at Hudson Bay Mountain was said by the Government mining engineer to be a second Premier. With these mines shipping and paying dividends the district had no reason to fear for the future.

**Grain Shipping**

Speaking of grain shipments, the speaker discouraged the idea that there would be much demand for grain in the Orient. As a matter of fact China was a grain exporting nation and not an importing country. There had been twelve million bushels shipped through Vancouver last season

out of a total crop of four hundred millions or about three per cent of the whole, yet the yards and lines to Vancouver had been blocked. It was clear that another outlet would be required before long and that outlet would be Prince Rupert. While 200,000 had been shipped to Europe only 20,000 tons had gone to the Orient. He believed the grain trade to Europe by way of the Panama canal had only just started.

On the other hand the demand in the Orient for lumber was good and also for manufactured products. If a service to the Orient was established he did not see why it might not be handled better through this port than through any other. If matters they had under advisement went through it would work out to the material advantage of Prince Rupert. The shipping business by water and rail would be one of the main assets of the port.

**Going Ahead**

Some people were finding fault because the port was not going ahead fast enough. In discussing this with some people he pointed out that they should be glad the place did not go ahead faster for if it went ahead they would be lost in the shuffle. There was at the present time a good revenue in town, approximating two million dollars. Quoting from a verse published in the Daily News he said "It isn't the town it's you." The town was just as big as the men in it. If they got together, stuck together and bought at home the place would be second to none.

#### SEVEN AND HALF MILLION FEET OF LUMBER IS SCALED

Over Two Million Feet of That Was Hemlock According to Official Figures

The report of the district forester for the month of May stated that over seven and a half million feet of lumber was scaled by his department during the month of May. Of this over two million feet was hemlock. The figures are as follows:

Douglas Fir	215,220
Red Cedar	1,024,425
Spruce	3,639,297
Hemlock	2,185,812
Balsam	627,435
Cottonwood	2,364
Cypress	581
Total	7,694,834

In addition to the logs there were scaled 13,525 lineal feet of red cedar poles, 2,432 feet of fir piles, 10,097 feet of hemlock piling, 52 1/2 cords of cordwood, and 31,618 railway ties.

#### SCRIBES HERE NEXT MONDAY

Newspapermen to Visit City on Return From Convention Being Held at Jasper Park

Next Monday evening between 60 and 65 members of the British Columbia and Yukon Press Association will arrive by train from Jasper Park after having attended the annual convention of the association which is in progress this week at the popular Canadian National summer resort. They will take the steamer Prince Rupert south the same night bound for Vancouver from which city they will leave for their respective homes. G. A. McNicholl, G.N.R. general passenger agent, will accompany them on their tour.

Among the delegates who have been attending the convention and who will be in the city on Monday night are:

J. A. Bates, publisher of the Abbotsford Post; R. D. Cumming, editor of the Ashcroft Journal, and Mrs. Cumming; H. W. Walker, publisher of the Okanagan Commoner, Enderby; T. A. Love, manager of the Okanagan Forks Gazette; Thomas Collinge, publisher of the Ladysmith Chronicle; R. R. Hindmarch, publisher of the Nanaimo Herald; Mr. and Mrs. Jeffery, Mr. and Mrs. Ennis; Mr. and Mrs. Green, Mr. and Mrs. Gordon, Mr. and Mrs. Osborne, Mr. and Mrs. Parson, Mr. and Mrs. Quick, Mr. and Mrs. Spencer, Mr. and Mrs. Burnett, Mr. and Mrs. Woodell, Miss Powers, Miss Woodell, and Messrs. Carswell, Betts, McTae, Schooley, and Stone.

#### Six projects for Erecting Pulp and Paper plants Province says Pattullo

VANCOUVER, June 8.—Six separate groups of financiers are negotiating with the British Columbia Government for the establishment of pulp and paper mills in the province, Hon. T. D. Pattullo, minister of lands, announced at a meeting of Liberals here last night.

"It takes about ten million dollars to get one of these concerns going," stated the minister, "and the details take time to arrange but I am confident two or three of them will be under way in a short time now."

Negotiations for several of these plants have been under way for some time.

#### TWO REPORTS CHURCH UNION

Moderates Bring in Amendment to First Recommending Further Delay

**MINORITY OBJECTION**

PORT ARTHUR, June 8.—Presentation of the report of the majority of the church union committee of the Presbyterian Church recommending organic union with the Methodist and Congregational Churches in Canada was followed in the first session of the Presbyterian General Assembly yesterday by the tabling of a minority of the church union committee counselling delay and claiming that the majority was trying to force a large number of people to enter a church they did not want to go out into the wilderness.

When a group of moderates tabled an amendment to the majority report suggesting delay in consummating the union until a more nearly unanimous report could be obtained from the Presbyterian communion.

The debate will continue for several days.

#### MINE SWEEPER IS TOTAL LOSS

SEATTLE, June 8.—The mine sweeper Cardinal of the United States navy struck on rocks off Skoff Island one hundred miles south of the Alaskan peninsula and will be a total loss.

The navy oil tanker Guyama is lying by ready to take off the crew of nine men.

#### PREMIER OF PRINCE RUPERT IS MAKING TRIP AROUND WORLD

Mr. L. L. Wood, who left here about twelve years ago, is revisiting City

Mrs. L. L. Wood, who some twelve years ago lived in Prince Rupert but who is now a resident of Australia, has been in the city on business for the past week and leaves on tonight's train for Montreal where on June 16 she will sail by the Canard steamer Ansonia for England. She will stop off en route east for a day at Terrace. From England she will sail via the Suez Canal for Australia thus completing a trip around the world.

Mrs. Wood expressed herself as much pleased with the present appearance of Prince Rupert. When she was here before, it was but a small construction town consisting of squatters' shacks and tents huddled mainly around George Street.

#### VAGRANTS ARE TALKED ABOUT

Old Question Discussed at Police Commission Meeting Yesterday Afternoon

The business of the city police court during the month of May was heavier than in the preceding month according to the report submitted by the chief of police to the police commission at its regular monthly meeting yesterday afternoon. There were 21 cases dealt with resulting in 16 convictions, 4 dismissals and 1 pending. Fines totalled \$318.50. There had been several vagrancy charges which had resulted in clearing the city of some undesirable, raids had been made under the Liquor Act and five cases of supplying liquor to Indians had been heard.

The anomaly of liquor offences under the Indian Act receiving lighter punishments than where only white were affected was discussed and the monthly puzzle of dealing with vagrant women was referred to. The mayor read an anonymous letter referring particularly to one woman whom the police have been after but who, through a technicality, could not be punished or driven out of the city. The letter, besides saying that this woman was harboring girls for immoral purposes, declared that vice and bootlegging was rampant in the city and that the police were receiving protection money.

Mayor Newton thought that, as far as the woman in question was concerned, she should be rounded up even if the risk of getting the police into difficulties was involved. Commissioners Shockey and Cameron thought that the present police force should be able to cope with all undesirables in the city. The chief was instructed to keep up the campaign against such characters as had been referred to.

#### FIVE HOURS TO KETCHIKAN

The express cruiser Grayling of San Francisco, owned by H. O. Harrison, and piloted by Capt. A. Swanson, left port at 3 o'clock this morning for Skagway. A wireless received in the city from Ketchikan stated that the Grayling had reached that port in five hours. That means that her speed was about sixteen miles an hour.

#### MILL DESTROYED

Fire Consumes Lumber and Plant at Little Qualicum River, Vancouver Island

NANAIMO, June 8.—A sawmill plant with a million feet of dressed lumber belonging to the Lake Lumber Company and situated at Little Qualicum River, Vancouver Island, was destroyed by fire.

#### COMMISSION WANTS SILENT POLICEMAN

City Council Asked to Instal Them at Six Important Street Corners

Approving of the city council's resolution calling for a more strict enforcement of the Motor Vehicle Act as affecting the speed at which automobiles are driven on city streets, the police commission yesterday afternoon also recommended that the council instal silent policemen at the corners of Third Avenue and McBride Street, Second Avenue and McBride Street, Third Avenue and Fulton Street, Third Avenue and Sixth Street and Second Avenue and Sixth Street.

The matter of silent policemen was brought up by Chief Vickers who said it was a good idea and would prevent the dangerous practice of drivers in cutting corners too sharply. If such were installed it would be necessary for motorists to drive around the posts in the centre of the intersections and take the corners in a more safe manner. On suggestion of the mayor the council's resolution for enforcement of speed regulation was also approved and the entire matter was incorporated in one resolution moved by Commissioner Cameron and seconded by Commissioner Shockey.

Chief Vickers also reported that the motorcycle purchased for the force last year was now in operation and Constable Macdonald had learned to drive it. Patrol of the outside sections and hurried calls could now be answered by using it.

Mayor Newton said that he had seen the police motorcycle being driven at a furious speed along the street by a local young man. Commissioner Shockey explained that the young man in question had been teaching Constable Macdonald to drive it. The mayor said he had no objection to any one using the machine with the chief's permission but he did object to speeding it, especially at this time when an attempt was being made to apprehend other speeders. The chief said there would be no repetition of the offence complained of.

#### CITY HAS BIG PAYROLL NOW

F. G. Dawson Analyzes Local Situation and Shows That Much Money is Paid Here

In his address to the Rotary Club yesterday, F. G. Dawson stated that the local payroll outside of the stores amounted to a million, and a half dollars a year. He roughly summarized them as follows:

Railways	8325,000
Cold Storage plant	300,000
Drydock	150,000
City, including schools	150,000
Provincial Government	100,000
Federal Government	100,000
Fish Companies	100,000
Wholesale houses	75,000
Banks	50,000
Machine and boat building shops	50,000

Add to this the stores and hotels and the sum total would be at least two millions, and yet people talk of nothing doing here in addition to this the Cold Storage plant last year paid a million dollars to fishermen and the other buyers even a larger sum. Mr. Dawson said he considered this a splendid revenue.

#### W. F. ROBERGE IS NEW FAIR DIRECTOR

Appointed to Fill Vacancy Caused by Resignation of Harry P. Lipsett

W. F. Roberge has been appointed to fill the vacancy on the directorate of the Northern B.C. Agricultural and Industrial Association caused by the resignation of H. P. Lipsett.

The directors of the fair wish to announce that the report issued on Wednesday from their office following their meeting to the effect that there is a financial crisis in connection with their affairs is incorrect. They state, however, that the strictest economy will have to be practised this year on account of general conditions.

#### FISH ARRIVALS

Eight halibut boats sold 73,500 pounds at the Fish Exchange today. They were:

**American**  
Senator, 19,000 pounds, to the Pacific Fisheries at 13.2c and 10c.

**Canadian**  
Inez H., 3,500 pounds, at 13.6c and 10.2c; Lillian M., 12,000, at 13.6c and 10.5c; and Rose Point, 5,000, at 13.6c and 9.5c, to Cold Storage.

Toodie, 6,000 pounds, at 13.6c and 10c; and Annie May, 5,600, at 13.1c and 10c, to Booth.

Kingcome, 3,000 pounds, at 13.4c and 10c, to Pacific.

Tramp, 20,000 pounds, at 13.5c and 10.5c to Atha.

#### WIRELESS REPORT

**Dawson Epigram  
 Worth Remembering.**

The epigram given the Rotary Club yesterday and passed on today through the medium of the Daily News columns is well worth remembering and pondering over. "Get together, stick together and buy at home" is one of the secrets of success for any community even less favored than this. For several months we have been urging the buy at home plan and Mr. Dawson's endorsement of it indicates that it is a sound principle. There have been times in the past when the men who were living on salaries paid by the city sent out of the city for everything they could possibly get there. Nothing like civic loyalty was to be found even in the city hall and in other branches of the public service. It is time that those who found the money gave the preference to those who patronized home industries. While we dislike interference with personal liberty, yet, if we are to succeed, we must imbue the citizens with a spirit of loyalty to the home town and must discourage disloyalty to the city just as much as disloyalty to the state. "Get together, stick together and buy at home" is sound economic policy.

**Losing Benefit  
 Of Good Weather.**

Through not having the swimming platforms and apparatus in place, people here are losing the good weather opportunity to swim in the Salt Lake. Besides that the present condition is a distinct danger to those who like to bathe at the local resort. Also it has a neglected appearance and looks bad as a place to take tourists. The newly reorganized swimming club is working to raise the money and preparing to have the work done, but in the meantime the weather is good. If the hot spell continues there will be large crowds at the lake Sunday and great care must be exercised to prevent accident.

**Rupert Should Benefit  
 From Better Freight Rates.**

If John Oliver wins his fight for better freight rates for British Columbia, this port should benefit. It has been suggested that should the rates be equalized, grain shipments would commence from here almost immediately. Vancouver could not possibly handle all the business that would offer. With another good crop on the prairies there would be good return freights of lumber, making the business a profitable one for the railway. Return freights are one of the secrets of successful railroading.

If Mr. Oliver comes here, as he has promised to do this summer, he should get a great reception, for he is the one man above all others who has fought persistently for the rights of the province. Others have put up a little skirmish at times but one man only has stayed with the job and that is Farmer John Oliver. He has already met with a measure of success.

**Marketing Beef  
 Of Bulkley Valley.**

The minister of agriculture is inquiring into the beef marketing of the Bulkley Valley with a view to preventing a recurrence of the impasse which existed last year. The Board of Trade have laid the case frankly before him and asked that he take action. He is now to get the viewpoint of the ranchers before making recommendations to the cabinet. It is to be hoped that decisive action will be taken. We in the north must stick together if we are to succeed and we must demand that the farmers be given reasonable market facilities.

**"There Were Many Things  
 Which I Could Not Eat"**

Mrs. H. Robert Wells, English Harbour, Trinity Bay,  
 Nfld., writes:

"I was troubled with nervous dyspepsia—so much so that there were a great many things I could not eat at all on account of the distressed feeling afterwards. I used many different remedies, but they did me little good. Finally I tried Dr. Chase's Nerve Food and Kidney-Liver Pills, and was surprised at the relief this combined treatment gave me in such a short time."

**LOCAL MEMBERS  
 MAKE SPEECHES**

Text of What Neill and Stork  
 Said on Right to Organize  
 and Closed Towns

**TRADE UNION RIGHTS**

System Imported from Some of  
 American States Says  
 Skeena Representative

After getting special permission from the House of Commons to bring it up as a matter of urgent public importance, A. W. Neill, member for Comox-Alberni recently drew attention to conditions at Powell River, a summary of which was published in this paper. Later officers of the company denied that men had been discharged there for belonging to a union: The speech was followed by a shorter one on the same subject by Fred Stork. Mr. Neill as reported in Hansard said:

The Powell River Company is a large paper manufacturing company on the coast, about one hundred miles north of Vancouver. It is one of those places called a company townsite, that is, the company obtained a townsite, put up their works, and are exclusive owners of the townsite with the exception of one small block which is owned by a Chinaman. The effect of this is that the company practically controls everyone who lives and speaks or even thinks in that town. I wish to give full credit where credit is due. The town is very well run from the point of view of labor conditions, that is, the living conditions are satisfactory, the houses are quite properly built, the sanitary conditions excellent, and the light and water satisfactory. The houses are furnished to the company's workers at a very reasonable rental. There is nothing to complain of in that respect at all. I wish to give credit where credit is due, but unfortunately the company have the idea—it is an American company, under alien management and with alien capital—which is prevalent in some sections of the States that the workingman is practically a chattel and they not only have the people in that town working for them but they wish to think for them. I am not exaggerating because I know the circumstances. I know a case where a man went as a delegate to a political convention and was promptly discharged for that reason.

**Parson Had to Leave**

I know another case where a minister of the gospel was accused of being too democratic in the views of Christian democracy that he preached, and that man—he was not fired because they do not fire parsons, but he was notified that his house was required for some other purpose. The parson was willing to stay, and his congregation were willing to keep him, but that man had to sever his connections with that church because the views of Christian democracy that he preached there were not acceptable to the management of the town. I am only saying this by way of illustration to give the House an idea of the attitude of the management towards the people of that town. The company, of course, is largely employed in making paper, and there is a paper makers' union, a trades union, in that town, and the union has been languishing a great deal because labor conditions got hard, the union was frowned upon by the management and the only place they could hold their meetings was in this Chinese block that I mentioned before. The company was unable to get this Chinaman to move. He had bought the block before the company acquired their property. The officials of this organization were notified about a month ago that their services would be dispensed with. Every official of that union was discharged and their places were taken by somebody else. Now the members of this trade union have been notified that unless they surrender—that is the word used—before next Sunday their charter, that is—go out of business entirely—that is what it amounts to exactly—all the members of the union there will be discharged. I wish to state that my information further says

that there is no strike or threatened strike, and there is no labor trouble of any description. It is simply that the employers and the organization of employees take the stand that they will prevent, so far as they are able, labor from organizing in their particular way.

**Reactionary Sentiment**

Now, I thought the time had long gone past in this day and generation, when it would be necessary for me or any one else in this House to rise and defend the rights of ordinary labor to organize for their own protection and in a thoroughly legitimate way. But it appears that there is a reactionary sentiment which always crops up in this country and which is very much alert. Not only is it unjust but it is a very bad policy to treat trade unionism in this way because trade unionism is the bulwark of society against Bolshevism. Certain people may not think that, but it is the case. Wherever there is a genuine trade union you will always find it opposed to any suggestion of Bolshevism. There is some kind of an international union which is affiliated with the Bolsheviks of Moscow, but that is not supported or endorsed by the genuine trade union—in fact the most bitter conflicts take place between the genuine trade unions and the Bolshevik. Therefore, I am justified in saying that when these organizations of genuine working men get together for their own improvement or benefit they should be encouraged rather than frowned upon. They are the future bulwark, as I have said, against Bolshevism. And what do you suppose these

men will become if they are compelled to surrender their charter on this occasion, or if they are thrown out of their homes and employment in consequence of this action on the part of the employers? What will be the next step in the political affiliations of these men? They will become Bolsheviks and I would not blame them if they did.

I would like to point out that as far back as 1918 the late government passed an order in council, No. 7,143, on the 1st July, in which there is what is called a declaration of a war labor policy. Conditions were very unsettled then. Indeed, we did not know from day to day what steps or what attitude labor might take. It was very urgent that labor should, in plain language, be conciliated, and the Dominion government very properly stepped in and pronounced, so to speak, or declared what they considered was a proper war labor policy to be followed not only by the Dominion but by the employers on the one hand and the employees on the other. They formulated practically a policy for better mutual relations which they endeavored to induce the two parties to adopt voluntarily as between labor and their employers. The second condition reads as follows:

That all employees have the right to organize in trade unions, and this right shall not be denied or interfered with in any manner whatsoever, and through their chosen representatives shall be permitted and encouraged to negotiate with employers concerning working conditions, rates of pay, and other grievances.

**Prefer Unions**

I do not believe there is one per cent of the employers of Canada who do not subscribe to that declaration, and who do not prefer to see trade unions in their neighborhood so that they can deal with their representatives in all matters of dispute. If that was sound law or sound policy for the government to adopt in 1918 it cannot be very far off what is just and fair today, and there is the whole question in a nutshell. I simply ask protection for these men in their legitimate rights to organize—not for strikes, or anything of that kind, there is no strike, but simply the (continued on page five)

"Boss is out."

JUDGING from appearance an impartial witness would say that some of the nurses at the graduating exercises last night would not remain in the profession long.

AS Jake remarked: Some of them certainly are good lookers.

MOTHER uses cold cream  
Father uses latter  
My girl uses face powder  
At least that's what I gather

THIS is a good time of the year to reduce. Increase the outdoor exercise and let up on the knife and fork stunts.

ONE question agitating the public mind is whether the small town is just as bad as the modern novelists paint it. Take Prince Rupert as a prominent example. Let's see, am I for or against?

JAKE says that a Methodist conscience combined with a cabaret soul do not make a very good combination.

IT is surprising how many methods there are of prying a dollar from the unwary in a small town. In a big town, now, there are twice as many.

IF Goug had succeeded what a horrible condition it would have been for the doctors including the well known Dr. Price, to face. Also what would have been the use of graduating exercises for nurses.

NOW that we are all optimists together once more, what about a little steady work for a change.

GRADUATION OF THREE NURSES

Miss Hazel Ludgate, Miss Mary McLennan, and Miss Florence Byatt Formally Receive Their Qualifications

EXERCISES IN ELKS' HOME LAST EVENING

Miss Hazel C. Ludgate, Miss Mary A. McLennan and Miss Florence M. Byatt, the latest graduates of the Prince Rupert General Hospital nurses' training school, were the principals in the impressive 1923 commencement ceremonies which took place before an assembly of invited guests last night in the Elks' Home, D. G. Stewart chairman of the hospital board, presided.

Following the entrance of the nurses now in training, graduate members of the staff and former graduates of the school, the members of the present graduating class entered the hall to the strains of music by Prof. Pryce's orchestra. The former took their places in the front row of seats and the graduates occupied chairs at the side of the head table at which were seated Mr. Stewart, Dr. West, Mr. Williams, Mrs. Donaldson, and Rev. G. G. Haeker.

The proceedings were opened by President Stewart who referred briefly to the object of the occasion and called upon W. E. Williams to deliver the first address.

Compliments Graduates

Mr. Williams complimented the members of the graduation class on their original decision to enter the nursing profession and congratulated them on their success at graduating after three years of hard and conscientious training. This was their first great success and the hospital was proud of the graduates. The gathering present indicated that more people took an interest in their success than they might have thought. Life was but a continuation of education and work with trials and disappointments but the satisfaction of achievement was after all the inspiration of life.

Mr. Williams referred to the high calling in life that the graduates had chosen and for which they were now qualified. If they lived up to the principles that they had been taught in the course of their training, remained loyal to their school, country, God and King they would not go wrong and would continue to achieve further successes.

Mrs. Irving N. Linnell sang as a vocal solo, "The Valley of Laughter," giving Schubert's "Serenade" as an encore. Miss Georgina I. Hunter accompanied. Mrs. Donaldson then presented the school medals to the graduates and conferred the Florence Nightingale Pledge, President Stewart awarding the diplomas.

Milburn's Laxa-Liver Pills The Great Liver Regulators

The duty of the liver is to prepare and secrete bile and serve as a filter to the blood, cleansing it of all impurities and poisons.

Therefore when the liver is inactive and failing to secrete bile in sufficient quantity constipation and other liver troubles soon follow.

Mrs. H. D. Hutchinson, Peterborough, Ont., writes—"I have been using your Milburn's Laxa-Liver Pills and they have done me a lot of good.

My liver bothered me a great deal; I was drowsy and tired all the time and didn't feel like doing anything, let alone my housework. I tried everything, but your pills seemed to do the work far better than anything I had ever taken."

Price 25c a vial at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

The standard of the nursing profession was continually rising and more was required of nurses today than in the past. It was an honored profession the world over and it was up to all who wore the nurses' uniform to maintain that honor wherever they might go.

The formalities over the guests then proceeded to offer their congratulations to the graduates after which dancing commenced to the strains of music furnished by an orchestra consisting of Prof. H. Aubrey Pryce, Mrs. J. Gawthorne and George Rorie Jr. Refreshments were served and at 12.30 the gathering dispersed with the singing of the National Anthem.

James Mitchell was master of ceremonies, and the committee in charge comprised Mrs. R. Blaine, Mrs. J. L. Lee, and Mrs. J. G. Steen. Mrs. Carrall was in charge of the serving of refreshments.

TERRACE NOTES

Mrs. Wilson of Remo was up for the St. Andrew's dance Friday night.

E. J. Moore returned from the prairies Sunday.

Six carloads of picnickers spent the week end at Lake Lakelse. The weather was ideal and the

younger members of the party enjoyed the bathing.

J. H. Thompson and son Archie spent the week-end in town.

Mr. and Mrs. Geo. Kieth and Miss Kerr left on Tuesday for Edmonton.

The King's birthday was celebrated by a baseball match between local teams and a dance later in the evening.

John Clark, boiler inspector, is making an official visit to town.

Geo. Graham and C. Paine of Dawson, were in town this week.

Col. Winsby, head of the Liquor Board and J. C. Ferris, auditor, made an official visit to town this week.

Mr. and Mrs. R. Beaumont spent a few days in town.

Mr. and Mrs. Keeley of Vancouver, were in town early in the week.

The St. Andrew's Society held a most successful social evening in Progress Hall on Friday. There was an excellent program and dancing was the order of the evening. A large number of new members were enrolled.

Miss Dobb had a picnic for the girls of her class Saturday morning.

The W.A. met at the home of Mrs. Gilbert on Wednesday.

Mrs. Thomasson returned from Hazelton Hospital on Sunday.

C. H. Orme and E. C. Gibbons spent the week-end at Lakelse Lake.

A. Tyson of Prince Rupert spent several days in town last week.

Miss Mayne Dobb spent the holiday in Prince Rupert, going down Saturday and returning Monday night.

Mrs. McGregor is spending a few days in Rupert but will return to Terrace shortly.

Messrs. Gordon, Vanderlip and Richmond attended Jas. Richmond's sale in Hazelton, which was well attended and very successful.

Mr. Anderson of the Bank of Montreal spent the week-end in Terrace.

Mrs. Hughson went to Rupert on Sunday. The report that reached Terrace before she left

**Dr. Hanson says Alice Arm  
 has Bright Mining Future  
 and Gives Reasons for it**

In spite of the present condition of inactivity, Dr. George Hanson, Dominion geologist, who is spending the summer in the north, believes that there is a bright future in store for the mining industry in the Alice Arm district and that many good opportunities present themselves there which sooner or later will be realized and taken up resulting in the carrying on of operations on a permanent, healthy and profitable basis.

Speaking to the Daily News yesterday, Dr. Hanson declared that three distinct opportunities presented themselves for mining operation about Alice Arm. Each of them he believed would eventually be carried on there.

**Erect Concentrator**

First of these opportunities was a consolidation and operation on an intermediate grade scale of the larger low grade silver properties adjacent to and including the Dolly Varden mine which, Dr. Hanson said, was by no means a "done" mine. Such a proposition, Dr. Hanson felt, would be taken advantage of before long. It would involve the pulling of a transportation system of short tram lines from some five or six properties surrounding the Dolly Varden to a centrally located concentrator.

Dr. Hanson was of the opinion that the shipping of concentrates would be the only successful method of operating the Dolly Varden consolidation but that it would be a good business. It would mean a profitable and permanent proposition on a large scale which, after all, would be of more value to the district through providing an industry that would be permanent, would operate steadily and would employ a large number of men.

A consolidation of such a nature, Dr. Hanson predicted, would afford the operation of a transportation system into the Kitsault Valley which would be of great value to all other properties in the district allowing them to get their ores to the outside which, under present conditions, was impossible.

**Co-operation Necessary**

To effect such a consolidation, Dr. Hanson said there would have to be a very fair co-operation between the independent property holders and the outfit taking over the whole concern. A concern embarking on such a project could not pay through the nose in acquiring the properties which individually would hardly bear the costs of concentration and transportation themselves.

The second opportunity which presented itself in the Alice Arm district, Dr. Hanson said, was the mining of high grade silver veins on a small scale such as was being carried out at the Esperanza mine at the present time. Small concerns could make good at such work on properties which would not stand the overhead of company operation.

The third opportunity was the working of individual properties of copper, lead and zinc with ad-

ditional values in gold and silver such as existed in the Kitsault, Upper Kitsault and Alliance River valleys and in the area adjacent to Alice Arm. Such properties at the present time were little more than prospects, Dr. Hanson said, because no one had yet taken a chance on proving them.

**English Capital**

Speaking generally of the mining situation in the north, Dr. Hanson referred to the increased interest that English capital was taking in the Stewart district. He hoped that that interest would be guided in the right direction so that the confidence of the investors would be sustained and encouraged. It was very important that this be done.

**TERRACE FRUIT IS  
 LOOKING LIKELY TO  
 YIELD GOOD CROP**

**George Kerr is Appointed Selling Agent For Farmers' Institute**

TERRACE, July 8. — Since the warm weather has come, the small fruits of the Terrace district are giving every promise of being an abundant crop. Strawberries will be on the market early in July, to be followed by the raspberry crop and all colors of currants. The raspberry canes that have been given any sort of a chance are heavily laden, while at present the strawberry fields show up well in blossom and forming fruit.

What is true of the berry prospect applies equally well to the currants as all bushes are heavily laden. The Farmers' Institute are handling practically the whole fruit crop this season and have appointed Geo. W. Kerr of the Farmers' Market as selling agent. Having had valuable experience in the past in the fruit selling business, he is well fitted to handle the coast needs.

**NEW SUPERINTENDENT  
 OF ANYOX PLANT IS  
 APPOINTED BY MUNRO**

**J. B. Haffner Gets Position; General Manager Goes South to Meet President**

H. S. Munro, general manager of the Granby Consolidated Mining, Smelting and Power Company, went south last night on the Prince Rupert to meet Colonel Crabbe, president of the company, and with him to visit the newly acquired property of the company at Allenby and Copper Mountain. It is expected that the president will accompany Mr. Munro back to Anyox.

While here Mr. Munro announced that J. B. Haffner had been appointed general superintendent of the Anyox plant and would take over the duties of the new position on or about July 1.

**LOCAL MEMBERS  
 MAKE SPEECHES**

(continued from page two)

I may say that this industry is not without obligations to the Dominion government. They get very substantial protection—my hon. friends to the left of me will be glad to know—ranging from 15 per cent to 35 per cent; and I may say that my information is that during the war the production of their paper was costing them \$22.00 a ton and it was selling in the neighborhood of from \$90 to \$140 a ton. Today conditions are different. The price of paper now will probably run—under the present conditions of manufacture because they have got modern appliances—about \$25 a ton and the selling price of paper is somewhere from \$60 to \$65. So that the protection this industry is getting from the Dominion government affords these manufacturers at least a

**Ten Years Ago  
 in Prince Rupert**

June 8, 1923.

The Prince Rupert Board of Trade at a special meeting called yesterday afternoon by President E. G. Dawson endorsed a resolution of the Vancouver Board asking that a duty on American coal be removed.

A big shot was fired at the foot of Centre Street yesterday in the course of clearing the station site. Damage was done to property, principally No. 2 shed and its contents, amounting to \$12,000. One of the largest blasts ever fired in Prince Rupert, hundreds of people gathered to view the spectacle.

The funeral took place this afternoon of the late W. D. Black, Rev. W. H. McLeod officiating. Miss Black, sister of deceased, has arrived to take the remains to Fergus, Ont., for interment.

**TIMBER SALE X 5162.**

Sealed Tenders will be received by the Minister of Lands, Victoria, not later than noon on the 14th day of June, 1923, for the purchase of Licence X 5162, to cut 470,000 feet of Cedar, Spruce, Hemlock and Balsam, on an area situated on the West Arm of Drayney Inlet, Range 2, Coast Land District.

Two (2) years will be allowed for removal of timber.

Further particulars of the Chief Forester, Victoria, B.C., or District Forester, Prince Rupert, B.C.

very adequate measure of protection, being the difference between \$25, or say \$27, and \$65 a ton. Therefore they could well afford to lend some ear to the government if they interfere on behalf of these working men. In the present case I feel like adopting the remarks of the hon. member for South York (Mr. Maclean) the other day when he suggested that the way to solve the question of the enhanced price of sugar was to give the refiners twenty-four hours to come down in their rates or they would see the effect in the budget. Perhaps it is not too late to insert an amendment in the budget which would solve this situation also.

**Fred Stork's Speech**  
 Fred Stork: I wish to endorse what the hon. member for Comox-Alberni has said. This is the natural outcome, as I see it, of the "closed town" system as we know it in British Columbia. It is what might be expected from the system that has prevailed there of recent years. There are in my constituency several towns which are entirely manufacturing centres, but they are owned and controlled absolutely by the company which operates the industry. These companies have prevented anyone else from coming in; they have a complete airtight monopoly. The system has been imported from some of the American states. Some years ago it was in vogue in Montana and other states where they had industrial centres that were owned and controlled entirely by the mining corporation. To the people of the United States it proved to be a very irksome system and they wiped it out there. Apparently the American manufacturer coming over to Canada has brought

this system with him, and we find today in British Columbia quite a number of centres, as the hon. member for Comox-Alberni has mentioned, where the industrial corporation completely controls the whole situation. The men who are on their payroll are entirely under the jurisdiction of the company. In my estimation, Mr. Speaker, that does not make for good citizenship. A situation in which a man laboring for a corporation in which he has no voice of his own, in which to a very great extent he is precluded from taking part in public discussion, where he is prevented from exercising his own free will as a citizen, and prevented from joining anything he wants to join, cannot make for the wellbeing and prosperity of the Dominion.

**Curtail System**  
 I am of the opinion that we have the power to very much curtail this system. This is a matter which has received some attention from former provincial governments, but up to the present time no action has been taken. When a company policeman can meet the incoming boat, and tell any man who steps off the boat that his presence is not required here, that is a condition which should not obtain in any British free country. We find that these corporations enjoy the benefit of police, they enjoy the benefit of post office and custom houses. I agree that some attention should be given to this matter. In accordance with the suggestion of the hon. member for South York (Mr. Maclean) in regard to sugar, it might be well to serve notice that if people are going to endeavor to carry on the feudal system in Canada they should not expect to make use of governmental services and all our modern public utilities.

### GIL'S WON IN SLUGGING BEE

Senior League Game Last Night Resulted in Defeat of Grotto by 17 to 13.

The Senior Baseball League fixture last night at Acropolis Hill was somewhat of a slugfest and Gil's team won over the Grotto by a score of 17 to 13. Heavy hitting was largely responsible for the size of the score and there were not so many fielding errors as might have been expected. The pitching was also up to the average but the batters seemed to be in great form and contacted consistently. Alex. Roy pitched the whole game for the Grotto and had 9 strike-outs to his credit. W.

### JUST AS HE WENT OUT

Hamilton Took the Count for Five Minutes in Last Night's Ball Game.

Montgomery started for Gil's and was relieved in the fourth by Howard Frizzell who made ten strike-outs in six innings. The feature play of the evening was the home run by Roy Gilmour. Hamilton, while running to first in the fifth, was hit on the head by a pitched ball from Louis Astoria. Grotto second baseman, and took the count for about five minutes. On recovering, he carried on in play and knocked two-two baggers before the game ended. The attendance was fair.

P. Laporte and Jack Batchford were umpires and the teams lined up as follows:  
Gil's—G. Hill, 3b., W. Mitchell, lf., S. Bazett-Jones, lb., A. A. Easson, ss., Hamilton, c., G. Mitchell, 2b., W. Lambie, rf., D. Frizzell, cf., W. Montgomery and H. Frizzell, p.  
Grotto—L. Astoria, 2b., McDougal rf., Gilmour, ss., Walls, cf., Elmer Smith, c., Sam Haudenschild, lb., E. Glapp, lf., A. Roy, p., H. Valpey, 3b.  
Things were pretty even until

**NOTICE.**

### The Secret of Its Success

THE SALVATION ARMY not only believed that there was hope for the worst, it went after the worst—in the slum, in the gutter, in the prison—

It is still doing this all over the world

YOUR contribution to The SALVATION ARMY Annual SERVICE APPEAL is a wise investment in practical Christianity.

### Annual Service Appeal

Adjutant Kerr, financial representative, asks only that he be given the funds with which to serve the community for another year.

the fifth when Gil's touched Alex. Roy for a number of hits and seven runs. The lead then gained against them, the Grotto men were unable to overcome.

### SUMMER EXCURSION FARES VIA CANADIAN NATIONAL RAILWAYS

The Canadian National Railways have now on sale Summer Excursion Tickets at exceptionally low fares to Winnipeg and Points in Eastern Canada and the United States. Another feature that will no doubt appeal to Prince Rupert people is the very low Special Excursion Fare to Edmonton and Calgary, with the privilege of travelling in both direction via direct rail lines or if you desire you may travel via direct rail in one direction and in the other via Vancouver and Coast Steamships at very little additional cost. Tickets are good for stopover at any point en route, and bear final return limit of October 31st. No one should miss the opportunity of stopping over and visiting Canada's New Playground, Jasper National Park. Full information at City Ticket Office, 528 Third Ave, Phone 260. 11

### BOAT DEPARTURES

Purchaser to demolish building at his own expense and to remove same from present location and to leave the premises in clean condition after removal. Highest tender not necessarily accepted.  
Dated June 8th, 1923.  
TERMINAL INVESTMENT SYNDICATE, LTD.  
Box 1585, Prince Rupert. 135

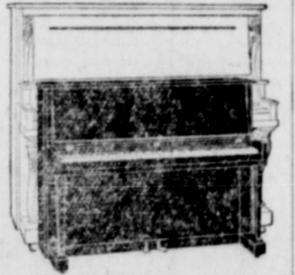

### Sport Chat

Boxing fans have been asking lately about measurements of Jack Dempsey and Tom Gibbons who will fight at Shelby on July 4 for the world's heavyweight crown. These have come to hand and show when the two men enter the ring they will look like twins in height and weight. Dempsey has more weight in his shoulders than Gibbons but the latter's poundage is more evenly distributed. In height the champion has a slight margin for he is 6 ft. 1 in. tall and Gibbons is 6 ft. 3/4 in. Dempsey weighs 188 pounds and Gibbons 185 pounds in fighting condition.

Other measurements are as follows:

- Neck—Dempsey, 16 1/2; Gibbons, 17.
- Chest—Dempsey, 42 and 45; Gibbons, 40 and 44.
- Waist—Dempsey, 33; Gibbons, 34.
- Biceps—Dempsey, 18 1/2; Gibbons, 14 1/2.
- Forearm—Dempsey, 14 1/2; Gibbons, 13.
- Wrist—Dempsey, 9; Gibbons, 9.
- Thigh—Dempsey, 23; Gibbons, 22.
- Calf—Dempsey, 15 1/2; Gibbons, 15 1/2.
- Ankle—Dempsey, 9; Gibbons, 9.
- Reach—Dempsey, 74; Gibbons, 74.

Dempsey is 28 years old and Gibbons 32. Dempsey started boxing in 1915 and Gibbons two years before that. Dempsey has had 60 battles and Gibbons, 88. Gibbons has never been knocked out or knocked down. Dempsey was knocked out once by Jim Flynn in one round and has been off his feet a dozen times. Gibbons has lost but one decision in his life—that to Harry Greb. His loss to Billy Miske on a foul does not count for he was given the popular decision. Gibbons has knocked out 37 opponents and Dempsey, 30. Gibbons was born in St. Paul, Minn., and Dempsey in Manassa, Colorado.

The Little Deberty Compared with ordinary sized piano  
For the small apartment or cramped living room, the **DOHERTY SMALL PIANO** will be a favorite. Quality and tone have not been sacrificed for compactness. For Sale and for Rent at **Walker's Music Store Ltd.**
