### Chinese Bandits Hurlled Prisoners to Death from Top of Nearby Precipice

SHANGHAI, May 16.—Three Chinese captives taken by Suchow train bandits in a raid have been hurled to their deaths over a precipice near the bandits' stronghold where a number of foreign prisoners are being held as hostages for recognition of the Chinese government of the bandits' claim to citizenship and certain property.

The killing of the Chinese prisoners is looked upon as an effort of the bandits to compel quick recognition by China.

The white captives are in good health so far as is known, but have been carried ten miles farther back into the mountain fastnesses.

### Communist Member of British Parliament is Suspended by Vote of House of Commons

LONDON, May 16.—When the House of Commons was sitting as a committee of the whole yesterday, J. T. Newbold, communist member, clashed with Capt. E. A. Fitzroy, Conservative, who was acting as chairman of the committee.

Fitzroy ordered Newbold to withdraw and then ordered the sergeant at arms to remove Newbold. Neither moved.

Fitzroy then called the speaker into the House and that official upheld Fitzroy, though agreeing that the decision was a hasty one. He suggested that the House would be probably ready to give sympathetic consideration to Newbold's case Wednesday.

Newbold forced the matter to a vote and the House suspended him, the vote in favor being 300 to 88. The communist member then withdrew amid much excitement.

VICTORIA, May 16.—The tax rate for 1923 has been fixed by the city council at 39.72 mills on the dollar, an increase of 25 per cent over last year. A reduction in the assessments makes this year's taxes about the same as last year.

### Nurses' Home Campaign Drive Makes Good Start Yesterday and Full Amount is Expected

The teams in the Nurses' Home collection campaign got nicely started yesterday and at the close of the day reported having met with good success, the sum of \$1,211.50 having been secured to add to the amounts already on hand, making in all \$3,810.29 subscribed up to last night. The work is being continued today and there is every hope that the full amount will be secured. Very few refusals have been met with and hardly any have subscribed less than five dollars. Manager Campbell states that if a thousand people could be found to give five dollars each, there would be no doubt as to the final outcome of the drive. The amounts secured by the teams are as follows:

**Modus Vivendi To Be Terminated.**

According to newspapers received from the East definite notice has been given the United States of the termination of the present modus vivendi in regard to fishing boats under which United States craft are allowed all the privileges of Canadian ports on the payment of one dollar. Should no arrangement be made between the two countries, the U.S. boats will only be able to use Canadian ports for shelter in time of distress and that for a duration of 24 hours. They will not be allowed to ship or buy anything.

Apparently the pressure to bring about the abrogation of the modus vivendi has come from the Maritime Provinces where formerly they were strongly in favor of open ports but where of late the one-sided American method of trading has forced them to ask for a show down.

The new order is to go into effect on July 1, after which date the shipping of American fish through Prince Rupert will cease, unless there should be a further extension of time granted or some reciprocity arrangement arrived at.

**Provincial Government Grounds An Asset.**

The grounds around the Government buildings may become a great asset to the city. The city council has decided to co-operate with the Provincial Government in making them worthy of the place by giving them all road rights there. Already the laying out of the grounds has commenced and will be carried on steadily, it is understood, until eventually there will be fine grounds in front of the stately building, that will be one of the show places of the city.

The Government gardening has been carried on under a trained man who knows his business well and who up to the present has produced excellent results at the grounds around the old buildings. With the larger opportunity for better display doubtless even better results will be obtained. The Government grounds will be an object lesson to all residents of the city who will realize that anyone can have a nice lawn if they will only give it the necessary care.

**Burns Lake And Civic Work.**

Burns Lake is to be congratulated on the public spirited manner in which its citizens get together and work for the benefit of the community. To raise a thousand dollars in so small a place and in addition to have men who will go out and give their time and energy to building sidewalks so that the whole community may benefit is a fine record.

Burns Lake is not a large place but it is steadily growing and with such a spirit in evidence as is being shown, success is assured. No place can be held back where the people unite and put their effort as one man behind civic enterprise.

**Keep Happy No Matter What Happens.**

The people who get the most out of life are those who keep happy in spite of adversity. The people to whom life must be a burden are those who look on the worst side of life and never see anything good. Animals are usually serious. The God given sense of humor is reserved almost wholly for the human race. Yet animals enjoy themselves and sometimes they are suspected of having a vein of humor in their makeup. The only creature that does not enjoy himself is the man who takes life seriously all the time and who sees the worst side of everything.

Prince Rupert is one of the most delightful places in which to live and the people are far above the average in intelligence and in having the happy knack of making the most of their privileges. Yet even here there are people who seem to go through life on sufferance. They seldom can be said to really enjoy themselves. They never let themselves go and thrill over anything. A magnificent sunset does not appeal to them. The great outdoors has no call. Pleasant companions bring them no joy. If ever they get to heaven they will have to hide their heads in very shame. Why not paraphrase the Cone formula and say "Day by day in every way I am enjoying life better and better."

**MILL RATE IS FINALLY SET**

Third Reading of Bylaw Providing for 42.7 Levy is Completed

**COLLECTION DATES**

General Taxation is Due August 1, and Local Improvement Oct. 1.

Several suggestions were made last night at the adjourned meeting of the city council on the 1923 rates bylaw to cut the estimates and bring about further reduction in the mill rate for the year but it was decided that none were of such a nature as to be put into immediate effect so the rate for the year now stands at 42.7 mills made up as follows: general, health, hospital, 19.524; school, 10.686; money debts, 12.490.

It was pointed out at the meeting that the assessment had been reduced from \$6,072,341 in 1922 to \$4,942,010 this year. This would represent a difference in the rate of approximately eight mills proving that the mill rate of 42.7 mills this year as against 37.7 last year really means a reduction in taxation rather than an increase. The general rate last year was 19.5668 on the larger assessment as against 19.524 this year on the reduced assessment. Over other than general rate the council has no control.

**Collection Dates**

It was reported by the city solicitor at last night's meeting that the installment plan for the payment of general taxation as proposed the night before was impracticable and the council had no power to enact such. It was done in Vancouver but that city was under a special charter and was not governed under the municipal act as was the city of Prince Rupert. The council decided, however, on motion of Ald. Collart, seconded by Alderman Stephens, to delay the collection of local improvement taxes until October 1, with the first penalty of 10 per cent going into effect on that date and the second of 5 per cent on December 15.

General taxation will be due on August 1, with the first penalty of 10 per cent effective then and the second of 5 per cent on November 1. Since both general and local improvement taxation last year was due and collectable on July 1, the council felt that by the action taken in delaying the collection of local improvement some measure of relief would be afforded probably as effective as the installment plan if such had been possible.

The discussion last night was of a very informal nature and most of it took place before the meeting was called to order. The mayor brought the subject to a head by expressing the desire that estimates be further cut to bring the rate mill down to 40 mills. He thought that \$19,000 was a rather heavy figure for maintenance of plank roads and macadam streets and that a reduction there was possible. Ald. Munro felt that such a proposal would be impossible. From costs of this work to date, it was apparent that all the money appropriated in the estimates would be necessary to finish out the year.

**Taxation Really Lower**

The mayor then went on to explain that although the mill rate this year was higher than last, taxation was really lower on account of the decreased assessment. The average individual might lose sight of that fact. The reduction in the assessment had represented a millage of 8. Included in this year's taxation was provision for the payment of \$26,000 on down town street surfacing. This accounted for 5 mills.

Referring to the proposal to cut street maintenance estimates, Ald. Stephens felt that such could not well be done. By doing so, necessary work would have to be curtailed and many of the plank roads that perhaps had not needed repairs last year were in bad shape now.

Ald. Collart suggested that the \$5,000 estimate for garbage collection might be turned to a revenue by charging for the service. This would be a means of reducing the mill rate. Many residents were getting the service free at the expense of the taxpayers. After some informal discussion the subject was dropped.

**Criticizes Entertainment**

The Mayor criticized the \$3,000 estimate for entertainment purposes but Ald. Stephens felt it would be necessary. Sir Henry Thornton was to visit the city and possibly President Harding. Besides there was the Union of B.C. Municipalities convention to be held here and that would require some outlay on the part of the city. It was necessary that the city perform its duty as a host in the right manner. Much valuable advertising would be derived as a result of the convention and the many guests from all parts of the province should be suitably entertained while here.

Ald. Collart pointed out that the cutting out of meter rents and the reduction of light rates would cause a loss of revenue. The Mayor felt that this would be covered by the reduction of \$14,000 made this year in the cost of operation through the cutting down of last year's large staff.

**Water Service Charge**

Ald. Collart also suggested a charge for water service against every lot on the water system. This suggestion was not countenanced by Ald. Munro and Ald. Stephens who felt that the outside taxpayers already had a sufficiently heavy burden to bear without such an additional charge.

Ald. Perry said that a saving would be effected in the cutting out of the positions of road and waterworks foremen which the Board of Works was to recommend, the duties to be taken over by the city engineer. This would mean some \$2,010 for the balance of the year.

Ald. Stephens felt that the rate arrived at was satisfactory. Despite the large reduction in assessment, the general rate was almost as low as last year while the council had no power over the school and money debt rates.

**Rate is Accepted**

At this point, the meeting was called to order by the mayor and the bylaw embodying the rate of 42.7 mills was finally adopted on motion of Alderman Stephens seconded by Ald. Collart.

The matter of collection dates for general and local improvement taxation was then brought up by City Treasurer Matheson and the dates above mentioned were set.

Present at the meeting last night were Mayor Newton, Ald. Stephens, Ald. Collart, Ald. Smith, Ald. Munro and Ald. Perry.

**The Man in the Moon SAYS—**

THIRTY provincial police made a raid in Nova Scotia and got away with a red flag. First thing we know there will be sedition among the police.

WHEN Prince Rupert wants anything she howls to the government but when Burns Lake wants anything the town goes out and gets it. Burns Lake, with such a spirit, is bound to grow.

AT the present rate of increase it looks as if the city would very soon collect in taxes all the money the Dominion and provincial authorities leave.

IN Vancouver they run down people with autos and here they run them down in caustic conversation. Wonder how they do it at the North Pole.

VICTORIA has already put the hands of the clock ahead; Vancouver will do it later in the season and Prince Rupert next year.

IN view of the high rate people will have to pay on their real estate this year, what about taxing memories for a change.

THE holiday season is coming and everyone is planning what they would like to do and where they would like to go if they had the money and the time and their wives would let them.

### In the Letter Box

DID NOT MEAN IT.

*Editor Daily News:*  
My remarks at the City Council meeting on Monday night, were not directed toward Alderman S. D. Macdonald, who has always been consistent and active in supporting the cause of labor. What I said was intended to be mainly a criticism of the new President of the Civic Employees' Union.

PADDY SULLIVAN.

## Terrible Headaches and Dizziness

Miss S. Raphael, 237 Kenilworth Ave., N., Hamilton, Ont., writes:—"I used to suffer from terrible headaches and dizziness. Last summer, while I was walking up a side street, I got a dizzy spell and fell in the middle of the road. An old gentleman helped me to get to where I was going and told me to get a vial of Milburn's Laxa-Liver Pills. Well, I did, and they did wonders for me. I don't know how to thank you, as I don't get headaches or dizzy spells any more."

When your liver gets sluggish and inactive your whole health suffers, and the only way to keep well is to keep the liver active and performing its proper functions by using Milburn's Laxa-Liver Pills.

### OFFICES HAVE BEEN SWITCHED

General Move Takes Place in C.N.R. General Office Building Opposite Station

There has been a general switch-up in the office quarters of the C.N.R. departments in the general office building opposite the station.

The Pacific Stevedoring Co.'s office is moved to the drafting room formerly occupied by the divisional engineer's staff. A. S. Paul is acting as local manager during the absence of Capt. P. G. Groves who is in Vancouver for six months.

H. McEwen, district freight agent, is moving his office from the second floor to the corner office formerly occupied by W. S. Featherstonhaugh.

R. A. Harlow, roadmaster, is now located in the office formerly occupied by A. Auger, construction engineer, on the main floor having moved from upstairs.

The entire engineering department has moved from the corner to the office formerly occupied by the Pacific Stevedoring Co. and before that by the audit office.

The accounting officers of the general superintendent's department, who are about to transfer here from Smithers, will have their quarters on the second floor in the district freight agent's old office and in other rooms now vacant.

### NEW JAPANESE PHILOSOPHER

Nishida Believes in Levelling Down and Objects to an Exalted Individuality

TOKIO, May 16.—A recent Japanese religious book has quickly obtained a circulation of 200,000. It is called "The Life of Repentance," and is written by a new teacher named Nishida, one of the products of the religious and intellectual fermentation going on today in Japan.

Nishida may be described as a compound of Buddhism, Communism and Christianity as Tolstoy understood it. Dr. Albertus Pieters, the manager of "Shin-seik Kwan," the newspaper evangelisation movement in Japan, who is in close touch with the movements of religious thought in that country, describes him as being 75 per cent Buddhist, 40 per cent Communist, and 15 per cent Christian.

The great problem for Nishida was the economic tangle of modern society rather than sin in a religious sense. Why should men make money by buying goods and selling them at a higher price? Is it not robbery? Why also this eternal struggle between labour and capital? Is there no way out? Nishida turned specially to Tolstoy's writings in his search for a solution.

But he read Tolstoy's teachings through Buddhist spectacles and came to the conclusion that the way out for him was to die to his old life and begin a new one in which he would have nothing to seek and to gain nothing. Nishida says that so long as a man retains any notion of his own individuality being worth while he will seek to gain things for himself, which is the root of all evil.

Resembles Buddha  
Having come to this point, Nishida went out on to the streets as a mendicant, exactly like the Buddha of old, with the exception—that he added the modern Christian idea of social

service. Hence he is not content to beg and do nothing, but works whenever he finds something that needs doing, preferably some dirty manual job, like cleaning out cesspools. This, he says, calms his mind. He never asks for wages, and prefers even not to accept money when offered to him. If any, in the spirit of doing something for their fellow-men, choose to give him the kitchen scraps, he will eat them gladly, but will not look upon them as wages.

From the Christian teaching he has adopted the idea of faith in some higher power, and of prayer to it, yet his pantheistic conception of that power, although the words might fittingly be in the mouth of Christians, have a different idea behind them.

All Act Alike  
Nishida's ideal state of society is that we should all eat only such food as everyone can have, wear only such clothing that the poorest can obtain, and dwell in such houses as all may occupy. Then, he says, there would be no envy, no lust for possession, no quarrels or wars.

This Japanese Buddhist Tolstoy is having a profound effect on many of the younger generation today, for his own life is a very noble one. Young men are seeking to follow it, and are putting on old clothes and taking on manual work and forsaking their previous mode of existence.

Members of the British Columbia and Alberta press associations who are to hold their annual convention this year at Jasper Park, will return by way of Prince Rupert.

### CORRUPTING THE YOUTH OF BOLSHEVIST RUSSIA

LONDON, April 27.—A special correspondent of the London Times writing of the methods used by the Russian Bolsheviks to corrupt the youth of the country says:

"It is significant that in their first open onslaught against religion the Bolsheviks should use as their instruments the 'Komsomol,' or 'Union of Young People,' which consists of youths and girls depraved by the systematic efforts of the government in the course of the last five years. During this time the Bolsheviks have kept religious teaching out of the schools, have constantly assured the children that obedience to or respect for parents is a bourgeois prejudice, that marriage is an outworn institution, and have supplemented these negative principles with their own materialist and demoralizing doctrines. It is here, among the young, that their non-religious and anti-religious work shows the greatest results. They have developed a vast multitude of semi-illiterate, corrupt, immoral, godless young men and women, whose highest ideals are to satisfy the cravings of their licentious appetites. The extent to which the rising generation in Russia is impregnated with physical and moral disease and vices is truly appalling.

The Bolsheviks have succeeded in disorganizing, but not in destroying, religion. They have, however, worked incalculable havoc among the youth of the country.

### BELLINGHAM IN PORT FOR WIRE

Next Call at Port Will be With a Cargo of Fish from Southeastern Alaska

The Ketchikan motorship Bellingham Capt. Len. Williams, arrived in port from the north at 10 o'clock this morning to load wire for southeastern Alaska canneries. This will be the Bellingham's last trip here to load. When she next arrives it will be with a cargo from Alaska, probably fish for transhipment over the railway from here. The vessel expects to clear for the north at 3 or 4 this afternoon.

C. G. M. M. steamer Canadian Observer left Ocean Falls yesterday bound for Astoria, Oregon, with a cargo of pulp and paper from the Pacific Mills.

Mrs. E. H. Palmboom, who has been in the city for a few days, returned last night by the Chelousin to Surf Inlet.

**Big Dance to be Held and Kiddies to be Entertained by Elks**

ANYOX, May 16.—Preparations are being made for a big dance to be given on May 24 and the kiddies are to be entertained by the Elks on that day as usual. The community league council had this and other matters before it at the regular weekly meeting, there being present President Lewis, Vice-president Callanan, Secretary-treas. Townshend, and Counsellors Mrs. Dwyer, Mrs. Cloke, Dr. Harper, and Mr. Simpson.

The secretary's report stated that Mr. Moss, of Alice Arm, would print the pocket schedules for baseball and football for the advertising privileges. Jack Smith is making a report on fair installation for the picture show, and Mr. Geary had been interviewed in connection with this matter. An invitation had been received from Stewart, B.C., asking the community league to send baseball and football teams there for the celebration of May 24. This was being considered and depended upon arrangements for transportation. Football nets to replace the old ones have been ordered. The opening game of the football season had been postponed owing to non-arrival of equipment, and was played on Friday. The president of the Football Association, who will probably attend the meeting later, wishes the matter of fruit for the football players again considered.

**TIMBER SALE X 4313.**

Sealed Tenders will be received by the Minister of Lands, at Victoria, not later than noon on the 31st day of May, 1923, for the purchase of License X 4313, to cut 100,000 feet of Spruce, Cedar, Hemlock and Fir, on an area on North shore of Long Lake, Range 2, Coast Land District. Two (2) years will be allowed for removal of timber.

Further particulars of the Chief Forester, Victoria, B.C., or the District Forester, Prince Rupert, B.C.

**TIMBER SALE X 4939.**

Sealed Tenders will be received by the Minister of Lands, at Victoria, not later than noon on the 31st day of May, 1923, for the purchase of License X 4939, to cut 100,000 feet of Hemlock, Cedar, Balsam Spruce and Fir, on an area situated on North shore of Long Lake, Range 2, Coast Land District.

Two (2) years will be allowed for removal of timber.

Further particulars of the Chief Forester, Victoria, B.C., or the District Forester, Prince Rupert, B.C.

**TIMBER SALE X 4941.**

Sealed Tenders will be received by the Minister of Lands, at Victoria, not later than noon on the 31st day of May, 1923, for the purchase of License X 4941, to cut 100,000 feet of Cedar, Hemlock, Balsam Spruce and Fir, on an area situated on North shore of Long Lake, Range 2, Coast Land District.

Two (2) years will be allowed for removal of timber.

Further particulars of the Chief Forester, Victoria, B.C., or the District Forester, Prince Rupert, B.C.

The latter question was referred to the finance committee.

The secretary told of an interview with the company's engineer, Mr. Geary, and what had transpired. For the fan and its installation, Mr. Geary thought five hundred dollars would be necessary. Mr. Selfe, manager of Recreation Hall, had figures which contemplated a much smaller outlay. It was finally agreed to wireless the Canadian Westinghouse Company and get prices on two fans—one twenty-six and three-quarter inches, the other thirty-two inches.

Mr. Townshend asked that Recreation Hall be closed on Tuesday night, May 22, so that the B.P.O.E. could get ahead with the decorating which they proposed to do for the big Oriental dance of May 23. The show could be given on Monday night without hurt to anyone, while it would greatly aid the decorating committee to spread themselves if this were done. The majority of the council thought that this could be done on Monday night or after Tuesday's show and Mr. Townshend's motion was lost.

**Path to Ball Grounds**

Mr. Callanan brought up the matter of repairing the path across the creek between the Flats and the ball grounds. A great many people stayed away because they could not take this short cut, and now that the Granby Company had declared that there would be no objections to the fans going this way, the league should see that material and men make the passage safe for foot traffic. Mr. Callanan also stated that he had been approached by several family men who wanted the league to hold a picnic at the sawmill on May 24 for the boys and girls of Anyox. The repairs to the pipe line bridge was authorized and the picnic suggestion not adopted on account of the fact that it was customary for the Elks to entertain the kiddies on that day, and any other arrangements would interfere with them.

Mr. Simpson asked for first aid requisites at the ball park. The secretary replied that the groundsman had been instructed to have these things on hand.

The report of the auditor was then read and the recommendations taken up in detail. Mr. Bardwell's report stated that the books were O.K. and recommended that a physical inventory be taken and all equipment be treated under separate headings. The council agreed to make a revaluation of all league property and classify it under proper headings. In the matter of the Beach and Mine gymnasium costs, the council left this to the finance committee as well as the suggestion that petty cash should be handled in an impressed cash account and not from general revenue as at present. The chairman paid a compliment to Mr. Bardwell on the manner in which he had dis-

charged his duties as auditor, and the meeting tendered him a vote of thanks. Mr. Callanan mentioned the matter of the summer camp, and asked if any progress had been made in this connection. The secretary replied that there was nothing to report. It was thought that the meeting nights of the council during the summer season might be cut down to twice a month, and it was decided to hold the meetings on Wednesday nights as formerly.

## FIRST FOOTBALL GAME AT ANYOX

**Elks and Mine Played to a Scoreless Tie Before Record Crowd in Smelter Town**

If the crowd that turned out for the opening game of the Anyox Association Football League continues to show up as the season develops, Anyox will witness a series of games that will long be remembered in local sporting annals. A regular baseball throng took advantage of the opportunity to see the pigskin kickers in action, and they were treated to a mighty good exhibition for an opener. "Baker" Robertson, Scott and O'Connell were the pick of the Elk's pack, while Currie and Ingram starred for the Mine. It was indeed a good game, the Mine being a trifle weak on the left wing, which could be strengthened by placing players a little more advantageously. There were no goals kicked by either side. Evans, a new man with the whistle in these parts, recommended himself to the players and spectators by the manner in which he followed the play.

The teams lined up as follows:  
Elks—Goal, A. Roberts; backs, B. Ballion and W. Robertson; half backs, Fred Brown, Scott and Crawford; forwards, Baker Robertson, D. McKenzie, D. O'Connell, W. Sellers.  
Mine—Goal, R. Stewart; backs, Ingraham and Spears; half backs, Twaddle, Currie, Stille; forwards, Barnes, Cane, Pynn, Evans and Valpy.

## BASEBALL AT ANYOX MINE SUNDAY LAST

**Surface Team Defeated Underground Challengers by Score of Six to Five**

ANYOX, May 16.—When the underground workers at the Mine hurried their deft at all and sundry employed above ground who wanted to cross bats with them, a noise was started in the vicinity of the "glory hole" which didn't abate until after sundown Sunday evening last, when it died away in a wail of defeat that was heard for one portion of the community on the hill to listen to. But there was more at stake than just the honor of the odd run. The score was six to five, both teams being well-balanced, with T. Mahon and E. Manning bright particular stars of the winning surface aggregation, the first as a batter and the latter as a fielder. McMullin and Oleson umpired. The teams:  
Surface—A. L. Polyart, c.; E. Wail, p.; C. Lipsky, lb.; L. Anderson, 2b.; L. Wilson, s.s.; R. Spiers, 3b.; Kemp, r.f.; Lane, c.f.; Valkie, l.f.  
Underground—D. Deane, c.; E. Swanson, p.; W. Oleson, lb.; O. Lee, 2b.; T. Swanson, 3b.; D. Stubbs, s.s.; T. Mahon, l.f.; E. Manning, r.f.; Dr. Zeigler, c.f.

## ANYOX PRODUCTION

The output of the Hidden Creek Mine for the period May 4 to May 7 inclusive was 13,510 wet tons.

May 4 to May 7 inclusive, 1,461 short tons of coal were charged and 1,030 short tons of coke produced at the Coke Plant, with 3,876 imperial gallons of light oil recovered and 16,100 lbs of ammonium sulphate manufactured.

From May 4 to May 7 inclusive 12,592 wet tons of ore were treated at the Anyox smelter. This was made up as follows: Hidden Creek ore, 11,163 wet tons, outside ore, 1,426 wet tons.

## ALICE ARM

The approach to the new bridge site at the Kitsault River is being cleared, Joe Wells and a small crew being in charge of the work.

J. Fiva has left here for the Homestake property to get out timbers for the construction of a camp. Capt. Gerhardt is expected here soon and on his arrival it is thought active mining operations will commence.

Jack Murdoch and Lorne McLeod are drifting on the Lone Maid property. A four foot vein of white quartz has been struck which carries good silver values.

Bishop of Bunoz of Prince Rupert was here last week accompanied by Father Fleck of Anyox. They said Mass at the residence of S. Dumas and left for Anyox Saturday where the

Bishop conducted the services at the Catholic Church.

There was an enjoyable social in the Union Church Friday evening, the entertainment being provided by Mrs. Laurence, Mrs. Corbet, F. Archer, Max Morrow and Dr. Harper and Mr. Southam.

## RELICS UNEARTHED AT MOUNT COLIMA

MEICO CITY, May 16.—While searching for natural cement beds at the foot of Mount Colima James Philomon, a mining engineer, unearthed relics of a 4,000-year-old city, according to a statement made by him. Protruding from the layers of lava, beneath which is the city, Mr. Philomon declares is the top of an ancient pyramid. He also discovered strange ateneils, a few precious stones, stone idols and several beautifully carved wooden images. The Mexican government will send scientists to investigate.

**MORE IMMIGRATION  
URGED IN STATES**

**Agitation for Lowering Barriers  
is Going on in Different  
Parts of Country**

WASHINGTON, May 15.—(By Canadian Press.)—Restriction of immigration into the United States promises to become one of leading issues before Congress when it meets again. On the surface of things, it does not appear probable that the immigration laws will be made less strict than they are, although the present restrictions are having effects which will inevitably increase the agitation for more liberal policies.

One of the latest phases of the operation of the 3 per cent law on which movement is being made is that it has served to decrease unemployment and increase wages in such fashion that a large amount of Canadian artisans are said to be obtaining employment in large numbers this side of the border, with the result there is already some complaint in Canada.

Recently there have appeared reports that negroes in the southern states are moving north, out of the cotton and tobacco fields, in large numbers, drawn by promises of work at good pay. These reports have not, however, set forth the real reason for this movement. Persons familiar with conditions in the south say it is due to the immigration laws and the curtailment of the available labor supply in this country, especially in the northern industrial states.

Criticisms of the immigration laws by such men as Judge Gary, head of the Steel Corporation, and other great corporation heads will not move Congress to amend the laws and let in more immigrants. But the movement of negroes out of the cotton fields, if it continues, may result in a complete change of program. It is an interesting fact that southern men in Congress have been most pronounced in urging drastic restriction of immigration. But if the south's labor supply is cut into seriously as a result of it, one may expect an about face. It is by no means inconceivable that the vote in Congress from the south will before long be added to the vote of members from the great manufacturing and industrial states in such a way as to force a relaxation of the immigration restrictions.

The votes to relax the immigration laws cannot be counted now but a shortage of labor in the cotton and tobacco regions may speedily alter the outlook.

**Sport Chat**

The trout fishing season is now on in full swing and good catches have been reported from Khatada, Mile 21, Shawatlans and other favorite haunts of local anglers. The Bryant party last week-end is said to have been the first to go to Khatada this year. There have been several out to Mile 21 and Shawatlans draws a few each week-end. George Bryant was very wrathful over the discovery at Khatada that the camp there had been stripped of equipment and supplies by thieves. Any persons, native or white, who were responsible for the depredations, unknown or not, have earned the hearty condemnation of local patrons of the lake with their unsportsmanlike misdeeds.

The Telkwa Jockey Club has provided an excellent program for the annual celebration at the hub of the Bulkley Valley on May 23. The fun will start off at 1:30 in the afternoon with a baseball game and will wind up with a grand ball at night. Between these events the race meet will take place and the card is filled with several new numbers that will make an unusually interesting program. The event will be staged on the new grounds and tracks which are now in first class shape. There are six horse races set down, the climax being the Telkwa Club feature, a one-mile open. Cash prizes are being up for all the races.

New York clubs are away out in the lead in both the American and National Leagues. At the end of the week, the Giants had a margin of nine games over the Pittsburgh Pirates for a percentage of .789, and the Yanks had four games over the Detroit and Cleveland tied in second. Philadelphia is occupying the cellar in the National League and consolation prizes are now in order for Boston in the American League.
