Alaska-Juneau will start work on the property as soon as the ice breaks up on the Taku and Tulsequah Rivers about May and compressors are now being prepared for the work. About thirty men will be employed, it is expected. This will remove the unemployment problem at Tulsequah.

It is expected there will be an airplane freight and passenger service between Tulsequah, Atlin and other Northern British Columbia points during the coming season. Freight contracts are now being sought by commercial airplane concerns.

About twenty men are spending the winter at Tulsequah. The river froze up on November 11, a little earlier than usual.

AMY LANDS AT LONDON

British Aviatrix Completed Capetown to England Flight at Croydon Yesterday

LONDON, Dec. 19: (Canadian Press)—Amy Johnson Mollison landed at Croydon yesterday from Capetown and was given a great welcome by ten thousand persons.

While suffering many reverses, Mrs. Mollison cut the record of Victor Smith, young South African, for the northward Cape to London flight by four days and eight hours although she was unable to break her own record for the flight in the opposite direction.

Amy's time for the flight was seven days and seven hours.

A crowd, many of whom had driven from as far as the north of England, shouted themselves hoarse as the aviatrix stepped from her tiny Puss Moth plane into the arms of her husband, Capt. James Mollison.

In a brief interview, Mrs. Mollison said she would like to fly to North America but added that she had no definite plans just now for such an adventure.

F. G. L. Burtram, deputy director of civil aviation, representing the air ministry, officially welcomed Mrs. Mollison and brought her a message of congratulation from King George.

Roads in Vicinity of Seattle in Very Dangerous Shape at End of Week

SEATTLE, Dec. 19:—The treacherous glaze with which all streets and roads in this vicinity were coated at the end of the week as a result of rain falling on the ice which formed during the recent cold spell resulted in a fatal traffic accident on a highway north of here Saturday afternoon. Betty Blackie, a four-year old girl, was killed when she was thrown out of a car driven by her father following a collision with another automobile. A baby boy was also thrown from the car but he was saved by a heavy blanket in which he was wrapped.

Gasboat J. and J. and Party of Twenty-One Turn Up Safe Today

White Persons and Indians Were Returning up Burke Channel From Bella Bella When They Became Lost—Were Behind Steamer Venture

BELLA COOLA, Dec. 19: (Canadian Press)—Twenty-one white men and Indians, missing since last Wednesday in Burke Channel while on their way home aboard the boat J. and J. after attending a basketball game at Bella Bella, and for whom considerable anxiety has been felt, were safe at home today. The party managed to reach Green Bay Saturday and walked six miles over a mountain to Bella Coola. As the weather has moderated, it is thought that the boat will soon be released and enabled to continue its voyage home to Bella Coola.

Assisted Another Boat

VANCOUVER, Dec. 19: (Canadian Press)—Fears for the safety of 21 Bella Coola Indians, who had been missing since last Wednesday night, increased here with the announcement by Capt. J. E. Boden of the steamer Venture that a gasboat which his officers assisted while coming south from Prince Rupert at the end of the week was not the gasboat J. and J. but the boat of Rev. Peter Kelly, United Church missionary at Bella Coola. Later today, however, word was received from Indian Agent Ivor Fougner of Bella Coola telling of the party's safety.

Capt. Boden expressed confidence that the Indians were safe, stating that they were aware of the ice conditions when they started out and were quite capable of taking care of themselves. It was possible, he thought, that the party was able to put to shore in a sheltered spot but they would not have sufficient food with them to last long. There is heavy ice in Dean and Burke Channels, Capt. Boden reported.

The Venture arrived here yesterday.

TOOK HIS OWN LIFE

SMITHERS, Dec. 19:—Apparently the victim of his own hand, George Mandreshora, well known resident of the Gleananna district, was found dead in his cabin there a few days ago. The body was lying in a huddle on the floor and nearby was a rifle and fragments of burned fuse. The entire front of the face was blown off and what was believed to be a bullet wound was found over the heart. With cool deliberation, the man had, apparently, placed detonating caps in his mouth and lit the fuse.

At various times Mandreshora had worked in the mines, on the railway and in other activities around Smithers.

SIDELIGHTS ON FINANCE

A London businessman who recently visited Canada and is now in England writes to a friend in Prince Rupert saying that, on his recent visit, he found business conditions in Canada much better than he expected and infinitely better than in New York where he predicts that they will have a disastrous time during the next two years. People in business there are showing tremendous losses.

In England matters were much more settled than in the States but he was surprised at the immense wealth in Montreal and Quebec as shown by local statistics and information secured in financial circles. He says:

"I think Canada will be the first country in the world to recover its position and I should then say that England will be next. The position of the payments to America are causing quite a lot of excitement just now and I shall be very pleased if America allows England to pay. The majority of opinion over here wants to pay because it will precipitate a settlement, the intention being to pay in bar gold which, of course, is useless to Americans who are already loaded up with it. We also make at the present moment on the rate of exchange by paying in gold, the cost of which has gone up to 126 shillings an ounce against 83 shillings normally."

Discussing local English affairs he says: "So many businesses that one is connected with, although keeping their heads above water, are having such a strenuous time by way of reorganization that one has to work very much harder today than ever before. We have undoubtedly all got a lot to be thankful for and the English speaking nations are certainly enjoying a higher standard of living than any other nation in the world, for which much gratitude. A few more years will see us through and, without being morbid, it will be very nice to look back without regret on the strenuous times we have had when our time comes to go to sleep."

The writer of the letter mentions that arrangements had to be made to manufacture the goods he handles in Canada and thus save the duty which would have to be paid if they were made in the United States.

Unemployed persons and members of their families to the number of seven hundred availed themselves of the invitation to attend a matinee at the Capito! Theatre yesterday afternoon as the guests of the Famous Players Canadian Corporation and the local manager, Col. S. P. McMordie, D.S.O.

The program consisted of the feature picture "Lady and Gent," which was much enjoyed by all the grown-ups, and two comedies which proved very popular with the children.

Members of the management and staff of the theatre gave their services free in connection with the matinee, a courtesy which was much appreciated by the guests.

BROADCAST LONG WAY

Premier Man is Believed to Have Set up Record For Long Distance Radio Reception

Clem Houldsworth of Premier is believed to have set a record for long distance radio reception in Northern British Columbia when he listened in recently on the ceremony of the unveiling of the Australian and New Zealand war memorial at Port Said, Egypt.

On returning home from work at 2:45 on the morning in question, he tuned in on 2YA, New Zealand, as is his usual custom, and, for over half an hour, listened in on the unusual broadcast which, to reach Premier, had to come a distance of 23,000 miles.

The broadcast was transmitted by land lines from Port Said to Cairo, thence by radiotelephone to London where it was rebroadcast by short wave to Sydney and then by land lines to various Australian stations and rebroadcast by the New Zealand stations.

EX-SERVICEMEN'S LEAGUE

Editor, Daily News:—

Last Saturday's edition of the Daily News contained a report of the unemployed demonstration which took place the day previous. A paragraph in the report was so worded as to convey an erroneous impression of the nature and composition of the workers' Ex-Servicemen's League. In correction I wish to state that the Prince Rupert branch of the Worker's Ex-Servicemen's League is composed entirely of ex-servicemen of the Canadian and Imperial Forces.

Thanking you, Mr. Editor,
J. M. DUNN,
Secretary
Worker's Ex-Servicemen's League

'FLU

The 'flu epidemic is slightly abating, and you can do much to reduce the risk of infection:

1. Avoid crowds as much as possible.
2. Be careful of your diet. Partake freely of fruit, vegetables and milk, which are alkaline in their re-action.
3. Avoid draughts, but see that fresh air is freely admitted to home or office.

Last and most important. Get a bottle of BUCKLEY'S MIXTURE and take a sip several times a day. BUCKLEY'S is a highly alkaline, germ-destroying mixture, that rids the system of cold-giving acids, invaluable as a preventive. If you should take 'flu, go to bed at once, and call your doctor. As likely as not he'll tell you to carry on with BUCKLEY'S. Many doctors do. But be sure it's BUCKLEY'S—the original, genuine, creamy WHITE MIXTURE.

The 'flu is too dangerous to experiment with unproven preparations and worthless imitations. BUCKLEY'S became famous during the 'flu epidemic of 1918 and has been famous ever since.

BASKETBALL PLAY-OFFS

First Half Honors to Be Decided Tomorrow Night

Considerable interest has been worked up among spectators and players over the forthcoming basketball play-offs on Tuesday night for first half honors.

In the Senior division the heavy checking Grotto quintette will be pitted against the nimble Canadian National Recreation Association.

The girls' games lately have been real good so a snappy brand of play can be expected when the Cardinals tackle the Amazons for league leadership.

The fast and clever Tuxis will be pitted against the speedy Merchants and, without a doubt, this intermediate game will have plenty of action.

With the incentive of league leadership probing them all, the teams will be in top form and a real treat is promised to all sport lovers.

SPORT NOTES

Miss Elsie Bennie, genial skipper of the champion Edmonton Grads girls' basketball team, has decided to "call it a day" and retire from active basketball competition. Joining the Grads in the fall of 1924 upon the break-up of the first Olympic team, Miss Bennie served with marked distinction under the captaincy of Connie Smith and Dot Johnson and, when the latter resigned in 1927, was unanimously chosen to pilot the Grads on their second expedition to Europe in 1928.

Under her brilliant leadership, the Grads have turned in what is believed to be the most remarkable record in athletic history, having lost but one game in more than 100 played. This particular game occurred in the memorable series against Chicago two years ago, the Grads winning the final contest before the greatest crowd that ever jammed its way into the arena for a basketball game.

Coach Percy Page says of Miss Bennie: "She has every essential quality of leadership. Time after time, under her direction and encouragement, I have seen the girls play inspired basketball, when anything short of that would have resulted in defeat." She will remain on the "board of strategy" governing Grads activities. Her place as captain will be occupied by Margaret MacBurney, herself one of the most brilliant players in the basketball world.

ROAD UNDER DISCUSSION

Visit of United States Official to Victoria Revives Talk of Alaska Highway

VICTORIA, Dec. 19.—Ernest W. Sawyer of Washington, D.C., executive assistant to the Secretary of the Interior of the United States, who was a recent visitor here, stated that the proposed motor road through British Columbia to the Yukon and Alaska would establish a highway 2225 miles long. The estimated cost of the work from Hazelton in British Columbia to Fairbanks in Alaska is \$14,365,000.

Mr. Sawyer was one member of an international committee of six which last year investigated engineering features of the route. "It has been suggested," he stated, "that Canadian and American members of the international committee hold another meeting in the near future to consider additional data on the project which has been assembled."

Guide to Correspondents

The Daily News welcomes correspondence on live topics of the day or any other subject of public interest, but letters must be brief and to the point. The long-winded correspondent has no place in modern journalism. Every letter must be signed by the writer, not necessarily for publication but as a matter of good faith and courtesy. All unsigned documents go to the waste paper basket. Letters of a caustic character must have the signature appended for publication. Letter should be written on one side of the paper only. Correspondents must avoid personalities and the language should be such as would be allowed in the ordinary rules of debate.

The cold snap is continuing with little moderation in this district. The lowest thermometer reading of the past week was on Tuesday last when 19 degrees below zero was recorded.

The Department of National Defence, in a letter to Mayor Patterson, has intimated that it will not be feasible to undertake any work on the Prince George landing field during the coming winter but, if this nature of relief work is continued into the summer, the advisability of carrying out work on the partially completed airport here will be considered.

STORY IS DRAMATIC

"The Night of June 13" is Feature Picture at Capitol Theatre

The drama that sometimes goes on back of the quiet facades of commonplace suburban homes provides the basis of the action for "The Night of June 13," the film which is being featured at the Capitol Theatre here the first of this week. The story deals with four families whose lives and fates have become rather intricately tangled and the tale is as exciting in its nearness to everyday existence as its melodrama.

The film culminates in an unusual courtroom scene with Clive Brook nearly convicted of murdering his wife, Adrienne Allen. In addition to Brook and Miss Allen, fine performances are turned in by Mary Boland, as a nosy neighbor, by Charlie Ruggles, as her husband, by Charlie Grapewin, as grandpapa, by Lila Lee, as the innocent cause of all the trouble, and by Gene Raymond and Frances Dee as two young lovers. It is a strange story of commonplace people but is told uncommonly well.

"The Night of June 13" is said to be as entertaining as any film that has come along in a long time.

JUDGMENT RESERVED

Trial of Action Against Four Dominion Fisheries Officials Nears Its Close

Judgment has been reserved by Chief Justice Aulay Morrison in Supreme Court at Vancouver on the claim of the Canadian Credit Men's Trust Association, trustees in bankruptcy for the Somerville Cannery Co., to recover damages from four Dominion Fisheries officers for alleged interference six years ago with the firm's floating salmon cannery, Laural Whalen, at Ferguson Bay, Massett Inlet.

At the close of the trial E. C. Mayers, K.C., counsel with Milton Gonzales for the plaintiff, obtained leave to increase the claim from \$70,915 to \$87,137 damages. If counsel are unable to agree on the loss suffered by the Somerville Cannery Co., further evidence will be heard by the chief justice on the issue if necessary.

Defendants in the action are Alex Johnston, former deputy minister of fisheries, W. A. Found, his successor and former director of fisheries, J. A. Motherwell, chief supervisor of fisheries for British Columbia, and Adam Mackie, supervisor at Vancouver and formerly at Prince Rupert. W. E. Burns, K.C., and O. F. Lundell are counsel for the defendants.
