SEND REPRESENTATIVE TO INVESTIGATE GRAIN SHIPMENTS TO COAST

Prince Rupert is sitting idly and allowing Vancouver to get all the grain shipments. We are talking a lot but doing nothing to get our share of the business.

Sir Henry Thornton has said he does not favor the erection of elevators by the railway. They have enough to do carrying the grain and building spurs and railway facilities without going into a business which should be carried on by private enterprise.

The difficulty in connection with making a move is that it costs money. A man should be sent to Vancouver to thoroughly investigate the system of grain shipments through that port, get in touch with the shippers and, if necessary, visit Edmonton and Winnipeg.

Another thing to be done is to approach the railway heads and get them to arrange for regular calls of the Canadian Government Merchant Marine vessels at this port both going and coming.

It is useless to ask someone to make the investigation as a side issue when visiting in Vancouver. It is a serious business and would take two or three weeks at the least.

In carrying on a campaign for big business, a great deal of time and effort is needed. It is no sideshow that can be attended to in the spare minutes when other business is not pressing.

Oriental Immigration Discussed at Ottawa by Ministers and Members

OTTAWA, Feb. 22.—Chinese immigrants are to be registered and finger prints taken in order to secure identification, is announced by Hon. Charles Stewart, minister of the interior, during a discussion of the bill for the restriction of immigration brought in by A. W. Neill, member for Gomo-Alberni.

Mr. Stewart declined to discuss further the bill which he said he hoped to bring down next week but which he said dealt at some length with Asiatic immigration.

Mr. Neill's bill demands that Asiatics be not admitted into Canada without the direct consent of the ministry of immigration. In explaining it, the Vancouver Island member said a similar bill had been passed in New Zealand without conflicting with the Empire treaties.

OLDEST KING PASSED AWAY

Khama, Monarch of Bechuanaland, Near 100 Years of Age
LONDON, Feb. 22.—King Khama, the oldest sovereign in the world and one of its pioneer prohibitionists as well, is dead at Errow, Bechuanaland. His exact age is unknown but he is nearer one hundred than ninety. Deceased was a great friend of the British and visited Queen Victoria in London in 1895. As soon as he came to the throne he suppressed the liquor traffic in his own kingdom.

PRINCE GEORGE WAS ON SANDBAR

Delays at Powell River and Ocean Falls Caused Lateness of G.T.P. Boat Yesterday

The G.T.P. steamer Prince George was seven hours late in arriving from the south yesterday and did not make port until 5.30 in the evening. The first delay was at Powell River where the steamer went on a sandbar. Fortunately, it was a rising tide and the vessel floated off in an hour and a half. At Ocean Falls, the George's dock was congested with paper boats tied up there and some delay was occasioned in landing.

The vessel was eight hours late in leaving Ocean Falls and there was also a good sized cargo for Swanson Bay which prevented her making up much time the rest of the way north. The steamer sailed at 9.30 last evening for Stewart and Anyox, an hour and a half late. It is expected the Prince George will make up time on the northern end of her run and she should leave here on time at 8 o'clock tomorrow morning for the south.

FAMOUS DOG RACE STARTS

Eight Teams Left Starting Post For 200 Mile Dash to The Pas

SASKATOON, Feb. 22.—Sharp at 11 o'clock this morning, eight teams competing in The Pas Dog Derby left the starting point on the Saskatchewan River for their two hundred mile drive into the wilderness. Weather conditions are fine but it was predicted by the drivers before starting that it would take 26 hours to complete the course as the recent blizzard which interfered with the trail has made the going fairly hard.

DELHI, Feb. 22.—After a two days of animated discussion in the legislature of India, a bill was unanimously passed embodying an agreement between representatives of European and Indian communities for the removal of major distinctions between committees regarding criminal law, which resulted in a discrimination against Hindus. Throughout the debate harmony and good feeling prevailed.

NEW AUTO ENGINE REDUCES COST BY FIFTH OF PRESENT

Swedish Engineer Uses Crude Oil in Latest Invention: Light and Compact

STOCKHOLM, Feb. 22.—Automobile owners in Sweden are interested in the statement that a motor has been invented and tried out here which brings down the cost of power to one-fifth of the present figure.

The new motor is light, compact, has very few parts, can be operated by any one, and is the invention of Arthur Wenerly, a Swedish engineer. It burns crude oil and develops speeds ranging all the way from 70 to 1,800 revolutions per minute. This is a remarkable accomplishment, in view of the fact that ordinary crude oil motors develop only 500-600 revolutions. The new motor is fire proof, and, since it uses no carburetor, back fires are impossible.

The experiments are being made with a 40 horse power, two cylinder, two cycle engine, which is no larger than an ordinary seven horse power crude oil engine. The cylinders are water cooled outside, and air cooled inside and, in spite of the high speed, no overheating takes place. A feature of the machine is the simplicity of construction, the complicated devices one usually sees on motors having been eliminated. The engine is primed with gasoline.

Two Appellants Were Successful in Having Valuations of Property Reduced

According to two appeals for reduced assessment and dismissing all other complaints, the provincial court of revision, John Dyblavn, judge, practically completed its deliberations yesterday afternoon. Among the unsuccessful complainants was the Whalen Pulp & Paper Mills Ltd. which company had the \$1,251,212 assessment on its land and improvements at Swanson Bay sustained.

A daily mail service on the railway in and out of Prince Rupert and also a service for the distribution of mail from Prince Rupert as headquarters to all points tributary to the city north of Queen Charlotte Islands is to be requested of the Dominion government by the Prince Rupert Liberal Association. A resolution embodying this was drafted at the meeting of the executive held last night in Ald. Theo. Gollari's office, W. F. Roberge presiding.

The Association also went on record as favoring the export of the better grades of spruce and cedar logs. This will be brought to the attention of the provincial government with the request that the present embargo on the export of logs be lifted.

OTTAWA, Feb. 22.—A very delightful reception was given last week by Mrs. W. R. Motherwell, wife of the minister of agriculture, and Mrs. Charles Stewart, wife of the minister of the interior at the apartments of the former in Ashley Hall. GERMAN DANCE CRAZE CURTAILED BY POLICE

More Places of Amusement Than Ever Before in Berlin; Jazz Eliminated

BERLIN, Feb. 22.—Berlin has too many dance halls and too few apartments, it was decided recently by the municipal authorities, and drastic measures were taken to bring about a change.

Certain fox trot places of amusement have been ordered closed, and the rooms are to be made over into quarters where people may live. Since the dancing craze struck the German capital there has been a great demand for rooms of most any kind, particularly in the downtown districts. These were quickly furnished and advertised as dance halls with most pretentious names. In one instance a "dance hall" was brought into being in less than two days. The furnishing consisted chiefly of putting down some linoleum, hanging a few fancy trimmings from the ceiling, crowding tables and chairs into every available place, sticking the jazz band off into one corner, and then permitting the waiters to take charge. The crowd did the rest.

The craze reached such a stage recently that officials estimated the city had more places of entertainment and amusement than ever before in history. But the new order has put many of the smaller establishments out of business, and now where jazz music once had full sway after dark there are entire families slumbering peacefully.

Are Farmers Becoming Tired of Politics?

Discussing the political situation on the prairies, the Financial Post editorially says:

Western farmers seem to be losing faith in the "union" movement to solve their economic ills. The employment of political, co-operative or other methods which were advertised as being able to bring into the lap of the man on the farm all the magnificent benefits now accruing to the manufacturers, the wholesalers, the retailers, the banks, the loan companies and business institutions in general, have failed.

Recent statements have shown how the grain growers' organizations have lost business in the implement trade, in the lumber industry and in other specialized business fields.

Writing of the U.E.A. convention at Calgary, a farmer describes it as "about the lamest thing that ever happened in these parts." He says that there seemed to be very little accomplished except the election of officials and the discussion of a lot of "tommy-rot."

The Western Grain Growers' organizations have proven a success from the marketing standpoint—perhaps the farmers are willing to do more for and expect less from their own company than from a private concern.

And now there is the realization that the way out is by hard work—all the "Concism" in the world will not make things a bit better if the patient does not help himself.

"I Was a Fright!" "Nothing I Could Take Made Me Any Fatter."

"Up to the time I was seventeen years old, I believe that I was the most miserable and unhappy girl that ever lived. Honestly, I was a sight. I was the most ungainly looking creature you ever saw. I was thin and scrawny—straight up and down. My height was five feet nine inches and I weighed exactly ninety-one and three quarter pounds. No matter what kind of clothes I put on I looked like a fright. I was clumsy and awkward. I used to stand before the glass and study my features. I found I had a good nose, good eyes and a good mouth, but my cheeks were sunken and my face looked like a skull with a piece of parchment stretched over it. But nothing I could do or take made me any fatter. Men rarely even glanced at me. When they did, they merely gave me a casual, amused or pitying look,—an expression which I saw sure meant, 'why is a being like that allowed at large?' I used to lie awake at night for hours at a time wondering why there were so many beautiful girls in the world and I was so hideous. I met a friend of mine one day, Elsie W. and I hardly knew her. While she had never been as thin as I was, a year or more ago she ran me a close second, but when I met her she had taken on flesh and had developed into a fine handsome girl with one of the prettiest figures I had ever seen. I asked her what had caused the big change. She said I had earned it. She told me she had been taking it regularly for the last three months and that from the first week of taking it she had begun to put on flesh. I was so encouraged by what she said that I couldn't get to the druggist fast enough. I bought a bottle and since then I have been taking it regularly. It has made the greatest change in me you ever saw. I now weigh 165 pounds and all my friends tell me what a wonderful figure I have and I know that I am admired."

THE PAS DOG DERBY RACE ON

Every Precaution Made Yesterday
For the Big Annual Event
Today

CARNIVAL AT THE TOWN

Pari-Mutuel Betting on the Re-
sult and Shorter Races While
End Awaited

THE PAS, Man., Feb. 21.—(By
Canadian Press).—After an ex-
citing period of training and pre-
paration everything is in readi-
ness for the start of the sixth an-
nual 200-mile non-stop dog
derby classic of The Pas Derby
Association, carrying with it a
purse of \$2,500 and the Burns
Cup. This race, billed "as the
greatest event of its kind in the
world," brings together "mush-
ers" of international fame who
will drive teams of from seven to
eleven dogs, mostly huskies,
tested for their speed, staying
power, and strength to withstand
hard driving.

Test of Endurance

The entry list closes this even-
ing and it is expected that ten
teams, numbering about 100
dogs, will line-up at the starting
point at the Hudson Bay railway
bridge on the broad Saskatche-
wan river at 11 o'clock tomorrow
morning for the flash of the
starter's gun which will send
them on their long, lonely run
into the wilderness. The race is
a test of endurance for man and
dog, and local drivers have
spared no expense in getting the
best dogs obtainable in the north-
land. For many weeks the vari-
ous drivers have been busy try-
ing out their dogs and the derby
has been the principal topic of
conversation in this town and
surrounding district. Several of
the "mushers" are said to have
made record runs, and the dogs
have been doing from 50 to 75
miles daily.

With the best racing dogs in
the land lined up, the course is
expected to be covered in record
time and it is thought that pre-
vious records may be lowered by
two to three hours. The winning
team is expected to average ten
miles an hour over the whole
course.

Favorites Again

C. H. Morgan's team, winners
of the 1921 and 1922 races, are
favorites again this year, but
"dark horse" entries have to be
conferred with. Billy Grayson,
veteran "musher" will handle
Morgan's entry. Tom Creighton,
prospector and one of the origin-
al owners of the Flin Flon copper
mine, is backing teams and has
spent \$5,000 in his endeavor to
secure a winner. He will place
two teams in the race and has
two expert drivers and three
trainer-attendants in his employ.
His dogs are constantly groomed
and hourly watched, dieted care-
fully on the choicest beef steak
and eggs and their feet dipped
daily in salt water baths in order
to harden them for the 200 mile
grind. A team from St. Paul,
Minn., is expected to be in the
tomorrow morning while the en-

try list will probably include such
well known drivers as Sam
Pranteau, Billy Winterton, A.
Russick, H. McDonald, Larry Mc-
Kay, Solomon Cook, A. Ballan-
tine, W. Constant, C. Sherman
and Baptiste Campbell, winner of
the second derby.

The finishing point is at the
mouth of The Pas River. When
the first team is within about
eight miles of the winning post a
smoke signal will be shown, the
town fire bell will then be rung
and everyone will have ample time
to make the short walk from the
town to the finishing line.

No Cruelty to Dogs

The officials of the big race
have announced that the rules
will be strictly observed. Cruelty
to the dogs is not tolerated, and
no favoritism or scheming on the
part of drivers or owners will be
allowed.

The racing followers will have
a chance to back their favorites
to the limit. Pari-mutuel machi-
nes will be in operation for those
who have a "hunch" to
back.

Miss Marie Emery, queen of the
carnival, and her ten attractively
"rownd" "count" will give the
"mushers" a royal send-off at
the starting line.

Today the town assumed a
holiday attire, and visitors from
the outside were welcomed by
triumphal arches, and huge
streamers across the streets,
while at night the arches will be
illuminated.

While the public are awaiting
the return of the racers they will
be able to participate in an inter-
esting program of sports and so-
cial activities. A bonspiel will be
in progress, with several outside
rinks playing, exhibition hockey
matches will be played, boys and
girls dog races for short dis-
tances will be run and a twelve
mile open dog race is also an at-
tractive feature.

Indian Village Erected

A real Indian village has been
erected, where all may witness
the making of moosehans, tan-
ning, making and baking of han-
ock, cooking meals, and incidents
happening in the every day life of
the Indian. During the carnival
there will be a parade led by In-
dian Chief Constant and his coun-
cillors, in full regalia, the carni-
val queen and her court occupy-
ing a prominent place in the pro-
cession.

Various other interesting
events will be staged including
Indian pony races, snowshoe race,
man and bear contest, boiling
kettle contest, packing flour con-
test and wrestling matches, all of
which carry liberal cash prizes.

Another special attraction for
the visitors from the outside will
be a dog livery, which will give
them the opportunity of enjoying
the delights of a real sleigh ride,
drawn by some of the finest
huskies in the country.

Football is the king of sport
at present according to
the Herald. There are
leagues running in the
town but there is no
body and the want of
being felt rather badly.
Leagues are Senior, Inter-
mediate and School, both girls
participating in the lat-
est. The Elks, Smelter, C.M.G.
and Mine have teams in the
League.

Two more basketball
teams are being organized
under the Prince Rupert
Association's program
this winter. But one cham-
pionship still remains to be set-
tled by the Ladies' League,
and will be decided tomorrow
and it may not be. If the
girls win it will be but if
they don't win a post-season
will likely be necessary.

HUGE ROLL OF BILLS PRICE OF A CIGAR

NEW YORK, Feb. 22.—A billion in currency—rubles, not dollars—lies under a Brooklyn pier, and no one seems to care enough to fish the huge roll out. There it fell when F. A. McNally, Irish representative of a trans-Atlantic line, tried to toss it to L. G. Gerardi, Italian representative of the line, as Gerardi departed on the Cunarder Tyrhenia for Moscow. McNally's aim was poor, but he merely sighed and shouted: "There goes the price of a Soviet cigar."

CHINESE WINE IS FED FISHES AT NEW YORK

NEW YORK, Feb. 22.—Chinese wine valued at \$287,000, comprising a total of 50,000 bottles, was "fed" to the fishes thirty miles out to sea recently by agents of the United States customs department. Sent to this country ostensibly for medicinal purposes, the wine later was adjudged a beverage, and was ordered dumped into the ocean by the federal court.

IDLE RICH IN CHINA TODAY

Many University Men Congregated in Tientsin: 60,000 People Without Work

PEKIN, Feb. 22.—Idle rich and idle poor are congregated in such vast numbers in Tientsin that the city now claims the largest unemployed population in the world. There are about 800,000 inhabitants in Tientsin, and about 60,000 of them are without work of any kind. These unemployed have been classified as follows: Retired army officers of high rank, idle sons of wealthy families, graduates of various colleges, aliens seeking jobs, workmen and trades people temporarily without employment, disbanded officers and soldiers, and coolies. Then there is another class not so often publicly mentioned, composed of government officials who have managed to retire with comfortable fortunes as a result of the "squeeze" or petty graft system.

The unemployment of so many university men is one of the mysteries of the situation. In a country like China where leading is so greatly revered, while the transition toward western industrialism now taking place in the Far East would be expected to create a demand for college-trained men with technical knowledge, but Tientsin proves just the reverse. The idle rich constitute the worst menace to Chinese society in the opinion of the Chinese press, and attacks have been launched by many papers against the retired officers and sons of wealthy parents, who have been described as "vampires of mankind" and parasites of society.

BLUE SKY LAW SEEMS LIKELY IN ONTARIO

Lack of Interest in Political Life in That Province is Deplored

TORONTO, Feb. 22.—If legislation can make it so, this province is to be a model for the wide world. Anti-rumbling and "blue-sky law" bills have been introduced; and the government is considering the advisability of a social welfare department, and may even make it a full-fledged portfolio, with a minister at the lead. The mere fact that an election is automatically due this year has nothing to do with this sudden blossoming of a desire to tell the world what it is missing because it doesn't live within the confines of Ontario. Perish the thought, Premier Drury himself repudiates the idea. But the Conservatives in and out of the House are a callous lot; so are the Liberals. They simply refuse to accept the suggestion that Ontario has blossomed so radiantly under the influences of the United Farmers and the Labor combination that the whole hemisphere ought to be packing its grips and taking the easiest available methods of transportation in order to get here.

Shun Politics
J. J. Morrison, secretary of the U.F.O. is convinced that the people no longer take any interest in the state. To them politics is a dead issue. They are too content to drift along. One or two other prominent members of the organization agree with him and his further surmise that political parties are gone forever. He doesn't seem to see a glimmer of hope that those who are breaking away from the traditional political groups may join in the farmers' movement.

AGENCY FOR LONELY MEN IS ESTABLISHED

NEW YORK, Feb. 22.—Lonely men in New York who dislike to attend the theatre and dinner alone, may now obtain desirable women companions from a new agency just opened. The fee is \$10.00. Advertisements state: "If you are a stranger, if you enjoy good company, if you wish to spend a pleasurable evening, we will introduce you to a young lady of intelligence, good to look upon, with a pleasing personality who will be a jolly dinner and theatre companion." In calling us state preference as to types and desired accomplishments. This is an invitation to only the well-bred man seeking a clean evening's entertainment. The agency, which reports a good business, says it requires the strictest social reference from its young ladies. They must sign a contract agreeing, among other things, not to drink liquor and to refuse to allow their clients to escort them home. One newspaper sent a reporter to the agency posing as an out-of-town merchant. The reporter found that the agency's representations were correct. When you buy advertising you get CIRCULATION, and see this on page 11.

System Run Down Blood Out of Order
Many people become run down, but don't know just exactly what their trouble is, when, as a rule, it is improper circulation of the blood. All they need is a good tonic to build up the system and put the blood into proper shape. For this purpose there is nothing on the market today to equal **BURDOCK BLOOD BITTERS**. It regulates the stomach, liver and bowels, purifies the blood and tones up the entire system. Mrs. H. Prode, Fort Dover, Ont., writes: "My system was run down and my blood out of order, and I suffered a great deal from pains in my head which made me feel very miserable. A friend told me to try Burdock Blood Bitters, so I got a bottle and before it was used I found it was doing me good. I kept on until I had taken three, and now I feel like a different woman. My husband also took it and it has built him up." For the past 44 years B. B. B. has been manufactured only by The T. Millburn Co. Limited, Toronto, Ont.
