FRANCE CONSENTS DISCUSS REPARATIONS

VISITING JOURNALISTS TO BE WELCOMED HERE TODAY EN ROUTE SOUTH

Franco-German Situation Once More is Discussed and Britain Urges Negotiations Begin Again

LONDON, June 11.—Lord Curzon had an important conference with the French ambassador here this morning, the British secretary of state for foreign affairs, urging the French government to accept the German government's latest reparation proposals as the basis for negotiations. If France will do this, it is stated Lord Curzon will inform Germany of the French government's willingness to discuss the problem collectively with the Allies.

PARIS, June 11.—No reply to the recent German note is considered necessary so far as France is concerned, it is stated at the Foreign Office, but if the Allies desire to improve the situation by a general discussion of the reparations question, France is ready.

SHIP SINKING IN RED SEA

Wireless Calls Received and Vessels Rushing to Rescue

LONDON, June 11.—The British steamer Maidan bound for Calcutta with a heavy cargo is sinking in the Red Sea, according to wireless calls which have been received by nearby ships. Rescue of those aboard the sinking vessel is probable as a number of steamers are rushing to the rescue.

Tranquility Prevails This Morning Following Troop Reinforcement

BERLIN, June 11.—Five civilians were shot and one was seriously wounded at Dortmund last night. It is not stated who was responsible for the firing although the reports add that troop reinforcements are the reason for more than 100 persons being placed under arrest. Complete tranquility prevails this morning.

KING PURCHASES CANADIAN CATTLE

Shipment Being Made From Experimental Farms in This Country to Sandringham

LONDON, June 11.—Some Canadian store cattle were bought for the King's farm at Sandringham at a sale at Norwich market Saturday. His Majesty also purchased through a Norfolk farmer a herd of cattle from the Canadian government's experimental farms for Sandringham.

OTTAWA, June 11.—A shipment of cattle on behalf of King George has been gathered from the Canadian experimental farms from as far west as Lethbridge and as far east as Kentville, N.S.

COPPER HOVERS AROUND FIFTEEN CENTS POUND

NEW YORK, June 11.—Inquiry is good in domestic market, but buying is small. Electrolytic copper has declined to equivalent of 15c cents c.i.f. on London Metal Exchange quotation, and with standard price down slightly the domestic price is weaker. Large producers are offering at 15c a pound delivered while some are willing to take 15c cents. In the outside market second-hands are willing to sell under 15 cents.

STEAMER BALTIC IS DELAYED BY STRIKING A SUBMERGED WRECK

LIVERPOOL, June 11.—Steamer Baltic struck an obstacle, apparently a submerged wreck, but was not badly damaged. She had to return from just outside Queens-town to Liverpool her voyage to New York being delayed until repairs are made.

NEW GOVERNMENT IN BULGARIA SET UP BY REVOLUTION

SOFIA, June 11.—The agrarian cabinet headed by Premier Stamboulsky was overthrown in a bloodless revolution in which the majority of the army support the new regime which has been set up under Premier Sankoff, who is recognized by the King.

MANY PEOPLE ON PRINCESS ALICE

C.P.R. Alaska Steamer Here This Morning on First Voyage of Season

The C.P.R. tourist steamer Princess Alice, Capt. Ormiston, which was in port this morning from 9 to 12 o'clock on her first northern voyage of the season, had 220 passengers out of Vancouver and 18 more were picked up here for northern points so the accommodation of the steamer was taxed to the stretching point. The most of the passengers from Vancouver were tourists who are making the round trip. There were also a few one way passengers for Alaska and Yukon points.

Those debarking here from the Alice were Mr. Justice Morrison, R. Matthews, J. Perli, K. Gine, J. Morrison and Miss M. Guthrie. Those sailing for the north from here were Dr. and Mrs. H. S. Ganby (round trip), for Skagway; Miss Fuller, Miss J. E. Monroe, Mrs. C. L. Monroe, Master Lloyd Monroe and Rev. Edwin Moss, for Altn; H. O. Harrison for Carcross; G. B. Ferguson, William G. Flett, H. F. Kergin and J. A. Stephen for Wrangell; Mr. and Mrs. E. Enos, Nellie Pillsbury, H. B. F. Pillsbury, M. Bonnell, R. M. Chaffin and Mrs. Thelmer Miller for Ketchikan; A. C. Randall and C. FRENCH NOTE TO BRITAIN

Asks Her to Join in Threat Against Germany and to Negotiate

PARIS, June 11.—France has sent a note to Great Britain expressing hope that Britain will co-operate with France and Belgium in telling Germany that passive resistance to the Ruhr occupation must cease. France offers to negotiate with Britain for a solution of the reparations question providing the discussion keeps within the limits of the French proposal of last January.

Four Killed Instantly Because Driver Looked Wrong Direction

SANTA ANA, Calif., June 11.—Four persons were killed when Roy Rumbold, 26 years of age, driving an automobile was looking back waving farewell at his mother instead of watching the train tracks ahead near El Toro 20 miles from here Sunday. A Santa Fe train struck the machine killing all the occupants.

COMMONWEALTH HAS BROKEN TAILSHAFT

Booth Fisheries Schooner Meets With Accident on Banks—Into Dock Here

The Booth Fisheries Co. gasoline halibut schooner Commonwealth arrived yesterday morning at 1 o'clock from the north in tow of the Ketchikan tug Inverness. The Commonwealth was disabled on account of breaking her tail shaft while on the halibut banks. The vessel made Seward under sail and was towed from there by the Booth Fisheries' Zapora to Sitka where her catch was sold. From Sitka to here she was towed by the tug Inverness. The boat has been taken up on the local dry dock for repairs. Capt. Bergman is in command of the Commonwealth.

CROWN WITNESS IS CHARGED PERJURY

John Mittenan Committed by Judge Robertson in Course of Stewart Liquor Appeal

John Mittenan, a crown witness in the appeal case of J. W. Tibbits, heard in the county court this morning, was committed for perjury by Judge Robertson, as a result of the evidence he gave in connection with the case. The appeal was sustained and Tibbits was relieved of a six month sentence given him by the Stewart justices of the peace for selling liquor.

Another appeal of a similar nature by R. Keith, also of Stewart, sentenced to six months, is being heard this afternoon. Judge Robertson, of Prince George, is hearing the cases in the absence of Judge Young, who is in Altn. Constable J. P. Scartlett, of Stewart, is here to give evidence.

Trail Up Mountain
Should Be Cut Soon.

Recently it was suggested that a trail should be cut to the top of the mountain on the island and a good deal of enthusiasm was shown in the committee meeting when the matter was suggested. Since that it has not been mentioned but it will probably be brought up at the Board of Trade meeting tomorrow evening. The matter is worthy of careful consideration. Possibly a careful survey of the route would be necessary as a starter and then the slashing of the route by a couple of expert axmen is the second step. If there were a good bridge path up the mountain there would soon be saddle horses here to take visitors and residents to the top.

Secure Aid Of
Development Company.

The Grand Trunk Development Company owns a large tract of land at the other side of Kaien Island and because of that the Provincial Government refuses to build a road to the mouth of the Skeena River. It is apparently a settled policy of the Provincial Government never to build a road into a large block of land unless the owners of that land are willing to co-operate in regard to paying the bill. The next step for Prince Rupert would therefore seem to be to get in touch with the development company and find out their attitude toward the project.

Fishery Problem In
Eastern Canada.

Canadian fishermen need to find new markets for their produce, says the Ottawa Citizen. Continuing, that paper says the United States tariff has operated to cut off one of the most important foreign markets. In addition to the new tariff barriers, the United States has denied to Canadian fishermen the privilege of carrying their catches direct from the fishing grounds to United States ports. Canadian ports, on the other hand, are still open to United States fishermen. They have enjoyed this privilege since 1888.

It is a great convenience for United States fishing vessels to make a short run in from the Banks to fishing ports on the Nova Scotia coast, where they can unload for quick overland shipment to Boston, New York and other big markets. But while fish from United States vessels comes through without paying duty, the effect of the tariff is to penalize the fish from Canadian vessels which may have been unloaded at the same wharf in a Canadian port.

It is believed that this handicap to the Canadian fishing industry can be offset to some extent by withdrawing the unloading privileges to United States vessels in Canadian ports. The United States fishermen would have to sail farther to the New England ports from the present fishing grounds which are off Nova Scotia and Newfoundland, Canadian fishermen having the advantage of ports near at hand should be able to reach the market in much less time. The Dominion authorities are reluctant to take this step but it is practically being forced upon them by the United States policy of erecting barriers to the fishing trade.

It is an unsatisfactory method of readjusting the handicap. The minister of marine and fisheries, Mr. Lapointe, might profitably institute a vigorous search for a more permanent solution. A greater development of the home market would be the most desirable first step. More fish should be sold to the consumers in the inland cities of Canada. The Canadian people eat less fish than the people of Great Britain or of the leading nations of Europe, although the Canadian fishing grounds are the finest in the world.

There is no insurmountable problem of production and distribution. Like the abundant coal resources at the eastern and western extremes of the Dominion, the fishery resources might be of much greater benefit to the people of Canada. They await development under a reconstructed system which would allow the sale of the finest Canadian produce to Canadian consumers at greatly reduced prices.

Nerves So Bad That
She Would Sit and Cry

Mrs. Mary Hocking, Madoc, Ont., writes:—

"Dr. Chase's Nerve Food has done me a wonderful lot of good. I suffered from general weakness and was so run down and my heart and nerves were in such bad shape that I would sit down and cry and not know what I was crying about. I also used to have weak spells. Thanks to Dr. Chase's Nerve Food, however, I am real well now. I shall always keep a box of the Nerve Food in the house, and recommend them to my friends; they are a wonderful medicine."

(Mr. J. W. Vince, Druggist, of Madoc, Ont., says: "I have sold Mrs. Hocking your Nerve Food, and the medicine has done her much good.")

Radio Mind is Tremendous
Power Unceasingly at Work
Says Archbishop Du Vernet

In thought transference it is important to remember that when acting as transmitters we can consciously control the thought, but when acting as receivers we cannot. In sending it is our conscious mind which directs the mental energy. In receiving it is our subconscious mind which absorbs this. Sometimes under favorable conditions when we are receiving there will be a bubbling up of the message from our subconscious to our conscious mind, but as this bubbling up is not under the direct control of our will the mechanical contrivance which I use to record the unconscious activities of the subconscious mind enables us to scientifically test the fact of thought transference at all times and under all circumstances, as we will. By means of a little pendulum and a fan-shaped alphabetic card during the last six months I have demonstrated the fact of thought transference to clergymen, doctors, lawyers, electricians, professors, and students getting the same person often to act first as transmitter and then as receiver.

Laws In General

The laws of the human mind hold good for all people. Whether conscious of it or not all people are day and night receiving thought telepathically sent them. These thoughts liberate auto-suggestions of health, happiness, and success or the opposite. No man is self-contained even in his thoughts. A few experiments according to my simple method will scientifically prove this. For good or for evil radio mind is a tremendous power unceasingly at work. Let it be for good. We can radiate sunshine and brightness to the world.

Not long ago a bishop transmitted through me the word "golf." I simply brought my mind into tune with his and the pendulum in my hand recorded the word as he mentally spelled it. Consciousness is synonymous with choice. It was he who had chosen the word, not I. Therefore it was his conscious mind which initiated the intelligent mental energy which I received in my subconscious mind, where it acted upon my nerve force causing muscular reaction directed by a creative thought. In receiving by my method I am often dimly conscious of my friend's mind energy within my soul but not of the message itself. If I were, it would be myself choosing the message, the very thing to avoid by the successful receiver of transferred thought.

Independent of Space

My co-operator and I have progressively lengthened the intervening space between our material bodies which contain our physical brains first by feet, then by yards, and then by miles, beginning with two feet and ending with five hundred and fifty miles, the distance between Prince Rupert and Vancouver. No perceptible difference caused by length of distance can be detected by the influence of mind energy over nerve force and muscular reaction. This was a thrilling sensation for me in Vancouver to feel the influence of mind energy exerted in Prince Rupert. There is a "start and stop" index on our alphabetic card. It is prearranged that we both concentrate our thought of movement on the "start" index. The transmitter then spells out the word and returns to the "stop" index. When receiving on one occasion a hundred miles away from my daughter I could tell the exact moment when her mind energy penetrated my subconscious mind by a slight swerving of the pendulum as it swung on the "start" index. After the word was spelled the pendulum returned to the "stop" and after two or three beats the energy died out and the pendulum came to rest. I wrote down the time the experiment had taken. My daughter a hundred miles away did the same. On comparing notes each had written: "a minute and a half." The sum of all these experiments made at varying distances furnishes a scientific proof of the fact that interaction is independent of space.

Independent of Time

With more reserve I would mention that I have recorded a few experiments which imply something more even than this. Usually I have emphasized the importance of coincidence in

time and have taken great pains to have our watches agree and I still think that this is desirable for scientific work, but on extraordinary occasions this is not necessary. Let me give one example of what I mean. While a hundred miles away from home at a prearranged moment, I sent by radio-mind a word message. It so happened that visitors had just called and my daughter absorbed with these forgot our appointment. An hour and a half later she suddenly remembered it, and rushing into my study picked up the pendulum and recorded the word. My explanation of this is simple. While her conscious mind forgot the appointment her subconscious mind did not, but accurately received the message. When she suddenly became conscious of her oversight this gave her a mental shock so that she was in a highly sensitive state when she held the pendulum in her hand. As the subconscious mind never forgets the slightest detail the memory of my message impinged upon her nervous system and directed aright the swinging pendulum.

I am of opinion that under an overwhelming emotion through the medium of anticipation a message might even be received by some person some hours before being definitely sent by another. And yet I have not scientific proof of this but all well authenticated premonitions are of this nature. If it were not for memory and anticipation our conscious life would be confined within the narrow limit of ten seconds which is the living present.

After a critical survey of all the experimental data which I have carefully gathered I feel justified in announcing that there is now scientific proof of the stupendous fact that interaction is independent of both space and time.

The bearing of this profound truth upon health and happiness, inspiration and fellowship, prayer and prophecy, peace and goodwill must be evident to all deep thinkers.

The past lives in us. The future overshadows us. We both influence others and are influenced by them regardless of distance. Millions of minds are inter-acting. We are in touch with the Infinite for the Mind of God is independent of both space and time.

NEWLYWEDS GIVEN GREAT RECEPTION

All Port Essington Turned Out
on Saturday Night to Wel-
come Home Mr. and Mrs.
Harold Cunningham

PORT ESSINGTON, June 11.—
All the residents of Port Essing-
ton and many people from sur-
rounding points were on hand
last Saturday evening to welcome
Mr. and Mrs. Harold Cunningham
who were married last week in
Prince Rupert. The town was
decorated and, despite the fact
that the newlyweds did not ar-
rive until midnight, there was a
most enthusiastic reception. The
band was to have been out but
the hour was too late. The streets
along which the bride and groom
proceeded were literally carpeted
with rice.

There was a wedding supper at
the home of Mr. Hardy, manager
of Cunningham's cannery, for
which Mrs. Hardy and Mrs. Alex.
Noble were responsible.

Pacific Does Improve Baking

Pacific Milk does make nicer
desserts, for it retains all the
milk solids, including the
cream. Which, said in an-
other way, is that the whole of
the food elements of rich milk
with an added quantity of but-
ter fat is retained, and these
are what make smooth, fine
grained cakes
And it keeps well in hot
weather.

ARMY SCHEME IMMIGRATION

Fine Lot of Boys Arrive at Montreal from Britain

REPAY PASSAGE MONEY

MONTREAL, Quebec, June 11.—With smiling faces and eyes eagerly taking in their new surroundings a large Salvation Army party of 150 boys under the care of Lieut. Col. Onslow Edwin, arrived in Montreal yesterday from Quebec where they arrived from England on board the liner Megantic. Travelling by special train over the Canadian National railways the party left almost immediately for Winnipeg where they will be distributed amongst various selected farms and kept under the observation of officers of the Army from time to time. Of an average age of sixteen years, the boys were all of a remarkable fine type typically British, with clear blue eyes and flaxen hair looking forward to their future life in the Dominion.

Talking for a few moments while their train was being switched Lt. Edwin stated that the boys had been recruited from good homes in Scotland and England and were the first party to come forward under the New Empire Settlement act recently passed by the British Parliament in conjunction with the governments of Canada and Australia. Before sending them to the colonies, stated the Colonel, the Army gives the boys from six to eight weeks training in the city work shops of the organization, teaching them how to drive nails, how to saw wood, to set chisels, how to approach and to harness a horse, how to mend their boots and wash their clothes. After this preliminary training the boys are sent to Hadley Farm, Essex, where they are kept for another six or eight weeks and shown how to milk a cow, hoeing, wood chopping, etc., so that when the boys come out of this training, while they are not in any sense farmers, they are more or less familiar with things that will be of some service to them later on.

Method of Handling

Lieut. Col. Edwin stated that the Salvation Army works fifty-fifty with the British government and it is calculated that with the training which the army gives to each boy, the outfit supplied, passage money and from two to three years after care and supervision the total cost for each boy is from £50 to £75 for the whole period. The boys each deposit an amount of £5 if they are able, some put down nothing at all, and they are then loaned jointly by the Army and the British government an amount not exceeding £25 and the balance of £25, or £30 is a gift from the British authorities and the Salvation Army combined.

"The Government of Canada" stated the Colonel, "is giving us some financial assistance but we calculate that the deficit on each boy amounts to about £8 on arrival in Canada. The boys are being placed on approved farms and here it is interesting to note that the Salvation Army headquarters in Winnipeg now have on file over one thousand applications from Western farmers for juvenile help. The boys receive from the farmers \$2 per week pocket money with their board and lodging while the cash balance of the boys wages are paid to the Salvation Army in

Liver Trouble Pains in Stomach

Most of the misery and ill-health that humanity is burdened with arise from disorders of the liver, stomach or bowels. If you are feeling out of sorts, have pains in the stomach, especially after eating, sour stomach, bilious spells, sick or bilious headaches, heartburn, water brash, etc., you should take a few doses of Milburn's Laxa-Liver Pills. They will loosen up the liver, regulate the bowels, and one up the stomach.

Mr. T. C. Hallman, Highgate, Ont., writes:—"I have had liver trouble and pains in the stomach for a long time. I started to use your Milburn's Laxa-Liver Pills, and in a short time I noticed they were helping me. Now I would not be without them and cannot recommend them too highly."

Milburn's Laxa-Liver Pills are 35c a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

repayment of the original loan and it is figured at the end of two years the boys will in this way have repaid the bulk of their obligations to the army.

Commissioner Lamb's Plan

Lieut. Col. Edwin stated that the new scheme was the result of a recent visit to Canada of Commissioner Lamb, the well-known Salvation Army leader in Great Britain and that he, Lieut. Col. Edwin, was personally conducting the present party to see that all arrangements worked smoothly. If all went well, Col. Edwin stated, that the army hoped to settle in either Canada or Australia within the next twelve or eighteen months fully ten thousand boys.

He pointed out that the boys were of exceptionally good families and that in later years would make just the kind of citizens that Canada is so badly in need of at the present time.

GOOD TOBACCO GROWN ONTARIO

British Buyer Arrives in Montreal to Look Over Situation for Season

MONTREAL, June 11.—Canadian tobacco is best grown in any of the British Colonies stated W. J. Keeley, head of the well known British tobacco importing firm of W. J. Keeley & Company, Derby, England, who arrived in Montreal yesterday on board the White Star dominion liner Megantic for a few weeks visit to this country. Mr. Keeley is particularly interested in the tobacco

growing area situated in and around Essex, Ontario, and after a short stay in Montreal, is proceeding to Toronto and on to Essex to look after this year's prospects for tobacco.

"Many Canadians" stated Mr. Keeley, "do not realize what a fine grade of tobacco is being grown in Ontario and it may be of interest to know that the Essex district alone exported to Great Britain last year, over one million pounds of tobacco for use in making up cigarettes, pipe tobacco and twists."

Tobacco from Canada, stated Mr. Keeley, is looked upon very favorably by the British importers and manufacturers on account of its superior flavor and in this respect is ahead of tobacco imported from other British colonies such as South Africa and Rhodesia while at the same time it compares very favorably with that imported from the United States. Great Britain imports annually, stated Mr. Keeley over 150,000,000 pounds of tobacco and of this amount by far the greatest quantity is obtained from the United States particularly Virginia.

Referring to supplies from the Province of Quebec, Mr. Keeley stated that all tobacco received from this source went into the making of cigars. The British importers were not particularly enthusiastic on Quebec tobacco on account of several bad shipments which were received in England last year, the tobacco being damp.

SCRIBES IN TOWN

Representatives of Southern B.C. Papers Spending Day in City

Several newspaper men are in the city today and a number more expect to arrive this afternoon, all leaving for the south tonight on the G.T.P. steamer. Those here are R. D. Cummings of the Ashcroft Journal, J. A. Bates of the Fraser Valley Record and R. Hindmarsh of the Nanaimo Herald. They have been attending the convention at Jasper, and are much pleased with the park and the accommodation there.

LOCAL SCRATCH BALL TEAM PLAYS SIMPSON

In the baseball game played at Port Simpson yesterday, between a scratch team from Prince Rupert and a team of native star players, the Rupert team went down to defeat to the tune of 4 runs to 10.

The teams lined-up as follows:

Port Simpson—J. McKay, D. Musgrave, C. Green, C. Brentzen, P. Brentzen, H. Brentzen, J. Simpson, J. Bryant and W. Kelly. Prince Rupert—F. Fitch, M. Stephens, J. Bulger, B. Skinner, T. Smith, C. Thompson, G. Tite, J. Weir and W. Gulick.

W. Beynon acted as umpire.

A party of some twenty Rupertites left port early yesterday morning, aboard the launch Narwhal, on a picnic expedition to the northern port and during the afternoon the baseball game was staged.

The game throughout was an exciting one and was thoroughly enjoyed by a large crowd of spectators. Runs for Rupert were made by T. Smith, J. Weir, B. Skinner and Geo. Tite. The Rupertites put up a good fight but were handicapped for the lack of an efficient battery while the native team was strong in all positions and undoubtedly the better. The party returned to the city last night after having spent a memorable day.

WILLIAM BRASS WON REGIMENTAL SPOON

William Brass, with a score of 86, was the high man at the North B.C. Regimental rifle shoot yesterday at McNicholl Creek and was also winner of the regimental spoon for the day.

Scoring was as follows:

	Total.
W. Brass	86
W. J. Greer	75
A. M. Davies	74
R. W. Cameron	73
R. E. Hudson	69
J. McGregor, V.C.	58
H. B. Eastman	55
N. Wilson	50

FISHING WAS GOOD AT WOODWORTH LAKE

Good catches of rainbow trout and also some Dolly Varden were made by a party consisting of Charles Balagano, W. S. Fisher, D. McD., Hunter, Angel Astoria, G. A. Hunter and S. J. Hunter which spent the week-end fishing at Woodworth Lake. About 80 good sized fish were taken by the party most of them off the log jam at the near end of the lake. Rainbows bit well in the early morning but there was little doing in the afternoon and evening.

Sport Chat

The victor in tonight's Senior Football game between the Sons of Canada and Grotto will win the Mobley Cup and the league championship. Therefore, the game is a distinctly interesting one and should attract the soccer fans in force. The Grotto are ahead by one point in the league standing over the Sons of Canada. While a win by either side will settle the league outcome, a draw will still leave the Canucks a chance for a meeting with the Sons of England next week. Tonight and winning over the Englishmen, the Sons would be tied for the championship necessitating a play-off with the Grotto. By losing either game or tying both the Sons would lose the league to the Grotto whose last league fixture is tonight. The Sons of England are out of the running.

Sport events scheduled for the week are as follows:

Monday (tonight)—Senior Football, Sons of Canada vs. Grotto at Acropolis.
Junior Baseball, White Sox vs. Boy Scouts, McBride Street.
Tuesday—Intermediate baseball, High School vs. White Sox, at Acropolis.
Wednesday—Guñ Club Trapshoot, Park Avenue.
Thursday—Junior baseball, Falcons vs. White Sox, McBride Street.
Junior football, High School vs. Colts, Acropolis Hill.
Friday—Senior baseball, Sons of Canada vs. Grotto.

Loyalty Basis of All Civilization

Every Citizen Owes Moral and Legal Obligation to His Government

SAME IN COMMUNITY LIFE

Loyalty is the foundation upon which the whole structure of civilization rests. Loyalty to one's country, loyalty to one's state, loyalty to one's city, loyalty to one's business associates, loyalty to one's friends! Loyalty is essential to the ordinary progress of the world. Without it the world must be chaos.

There would be no stable government in the world were it not for the loyalty of the people to their government. There would be no successful business enterprise on the face of the globe were it not for the loyalty of the men and women who are connected with it. No church could exist for a month were it not for the loyalty of its members. The sacredness of the home would be a myth were it not for the loyalty of the members of the family group.

The loyalty of a people to its government is based partly upon sentiment and partly upon the recognition of an obligation that a people owes to its government. A people that has the benefit of good government owes a duty to that government. Those who do not recognize this duty and perform it voluntarily are compelled by law to do so. The man or woman who is protected by the government in the pursuit of life and happiness, must contribute in money and service toward the support of the government. The man or woman who, under the protection of his government which preserves law and order, is able to accumulate property, must pay taxes on that property to help maintain the government which has protected him or her. In time of war the government has the right to call upon its citizens to take up arms in its defence.

Loyalty Moral Obligation

In governmental affairs these things are regulated by law, and the man who receives the benefit of orderly government is required to fulfill the obligation which that entails, but in the ordinary affairs of life, loyalty is a moral rather than a legal obligation. There are laws which prevent a man from stealing from his employer or his business associates, but there is no law that requires him to be loyal to them. The success of a business institution, however, depends more upon the loyalty of its employees than upon the laws which prevent them from stealing its money. Likewise the stability of a government depends more upon the loyalty of its people than upon the laws which compel them to fulfill their obligation to the government.

It is equally true that the prosperity and growth of every individual community is dependent upon the loyalty of the people who live in it. Every citizen owes an obligation to his community, and the obligation is a moral as well as a legal one. The good citizen pays his taxes cheerfully and willingly. He serves upon the juries which administer the laws of the community. He fulfills every legal obligation that is imposed upon him by his government, but there is a moral obligation which is of still greater importance to the community. This moral obligation consists in doing everything that is in his power to promote the prosperity and happiness of his community. The man who is enabled to make his living in any community is under a moral obligation to spend his money in such a way as to help his community.

Every time the citizen of a community sends money away from home to a mail order house instead of spending it in his home stores he is disloyal to his community. It is disloyalty to the merchants only indirectly. It is disloyalty to the community of which the merchants are only a small but a very important part.

This is the moral obligation that every citizen owes to his community, just as the payment of taxes and the loyal support of his government are his legal obligations. Disloyalty of a large body of the citizens spells disaster to any government and disloyalty of any large part of the people to their community is followed inevitably by the downfall of the community. Self-interest, if nothing else, should convince every citizen of the advisability of fulfilling his moral obligation to his community.

ENGLISH GIRL CHOSEN AS TYPICAL AMERICAN

When a girl born and bred in England, of English parentage, English education and experience on the English stage, goes to America and immediately upon her arrival is selected as the ideal American girl, it is something of a shock, both to her and to Americans. It reminds them of their kinship to that island across the sea and makes them feel that the chief difference between their English cousins is the number of miles to separate them.

This is what happened to Dorothy Mackaill, who plays the leading role in the Edwin Carewe production, "Mighty Lak a Rose," coming to the Westholme Theatre tonight. Having been told by Ned Wayburn, in whose show she was appearing in London, of the greater opportunity for actresses in America, she decided to come to the land of promise. Which she did, and which she would do again, if she had the matter to decide again, only she'd be just twice as quick.

about it the next time, she says. For not only was the little English actress welcomed to America, but even the critics who saw her on the screen and about the footlights spoke of her as the ideal American girl.

WESLEY BARRY IN ROLICKING STORY

"Rags to Riches" is Full of Humour and Rare Charm

Wesley Barry, the thirteen year old boy star of screendom is featured in "Rags to Riches," to be shown here Wednesday. The picture, with its wholesomeness and spirit of adventure went straight to everybody's heart. One wonders who enjoyed it most—the young or the old, the men or the women. Certainly, it is hard to say, for the children come out wanting to emulate their boy hero, the women wanted their lads or brothers to be as plucky and fine, and the older men grew reminiscent over their youthful days.

"Rags to Riches" is a Harry Rapf production, sponsored by Warner Brothers, and is adapted from the celebrated stage success by Charles A. Taylor.

The picture shows Wes as Marmaduke Clarke, son of wealthy parents, who palpered him too much. A burglar, bent upon ransacking the house, gives the lad a chance at action, and he follows the man through a series of exciting episodes, which ends unexpectedly with the rounding up of a gang of crooks. But not before Marmaduke has found his burglar to be a secret service agent and has witnessed the happy ending of a love episode which at one moment threatened to go wrong.

GRIM BATTLE IN "BURNING SANDS"

Milton Sills and Robert Cain Mix in Battle Royal

One of the best catch-as-catch-can fights to be seen on the screen in some time is a feature of George Melford's new Paramount production of "Burning Sands." There was no rehearsing of the scene in which Milton Sills and Robert Cain "go to the mat," but it had to be taken several times, as usual. Both men were in prime training and hardened habits of the Legion Stadium, after seeing the film battle, remarked that the fight was one of the most realistic ever seen on the screen.

Wanda Hawley and Mr. Sills are featured in "Burning Sands," which will be shown at the Westholme Theatre at the week end. In the story Miss Hawley is an English girl who falls in love with Daniel Lane, a hermit who lives alone on an oasis in the desert. This is the part portrayed by Mr. Sills. In the course of the action, Barthampton, a renegade Englishman, plans to abduct the girl and is prevented by Lane from executing his design after a terrible battle in which Barthampton is killed. The picture is filled with thrills and there is a capable supporting cast.

INSURES LIFE OF YOUTHFUL STAR FOR HUNDRED THOUSAND

The life of Jackie Coogan, the film star, is being insured for \$100,000. He is the world's smallest heavy wage earner and the youngest millionaire to acquire a fortune by his personal efforts. Jackie's juvenility is one of his greatest assets as a film star. Most men earn their largest salaries in middle age, but childhood is undoubtedly the salary peak of the Coogan career.

The careers of theatrical stars, both in movie-land and on the legitimate stage, often wane rapidly. Jackie Coogan has created an estate for himself which will be his no matter how fickle popular fame and fortune prove.

SUMMER EXCURSION FARES VIA CANADIAN NATIONAL RAILWAYS

The Canadian National Railways have now on sale Summer Excursion Tickets at exceptionally low fares to Winnipeg and Points in Eastern Canada and the United States. Another feature that will no doubt appeal to Prince Rupert people is the very low Special Excursion Fare to Edmonton and Calgary, with the privilege of travelling in both direction via direct rail lines or if you desire you may travel via direct rail in one direction and in the other via Vancouver and Coast Steamships at very little additional cost. Tickets are good for stopover at any point en route, and bear final return limit of October 31st. No one should miss the opportunity of stopping over and visiting Canada's New Playground, Jasper National Park. Full information at City Ticket Office, 528 Third Ave. Phone 260.
