CUSTOMS OFFICIALS TAKE STEPS HEAD OFF LIQUOR SMUGGLING TO STATES

EDITORIAL

BUSINESS PROPOSAL.

The Montreal Witness discussing the movement of grain and the efforts of different sections of the country to benefit thereby says Quebec is trying to secure a rebate in railway rates sufficient to offset the advantage of the New York route and thus encourage grain shipments from Canadian ports. Montreal is trying to prevent the opening of the Hudson Bay front. Winnipeg is trying to prevent the lowering of rates to the Pacific coast and particularly to Vancouver. Each centre is striving to gain an advantage for itself.

One thing that the Witness does not apparently realize is that the mountains are not an obstacle to grain shipments by the Pacific as the Canadian National route has a perfectly easy grade, just as easy as that going East.

The Witness pleads for a business basis for consideration of these problems and with that we fully agree. Let us get down to business and forget politics. Given a business basis for consideration of the grain shipping problem and we believe Prince Rupert will have to have an elevator at once and that grain shipments will be made by this route. The few extra miles to the seaboard are so small as to be negligible. We already have a very considerable eastbound traffic and what we want now in order to offset it is a steady westbound traffic. Grain shipments would bring that. Take fish and lumber east and bring grain west. Very soon also silk and other Oriental products might be taken east and this would help even up the business. Both way shipments are said to be very important in running a railway and that is what our fish business gives us.

If the grain can be brought to Canadian ports on the Pacific instead of to American ports on the Atlantic, there will be a great national gain.

Sweeping Victory of Free State Government in Irish Elections Is Indicated by Count so far

LONDON, Aug. 29.—First returns from the Irish elections indicate an even more sweeping victory for Free State candidates than their supporters had predicted. Nearly a score of government candidates, including almost all the cabinet ministers, won their seats by large majorities while up to early this morning the election of only three republicans is assured.

The government has 18 successful candidates so far declared elected to about half that number for other parties and if the present ratio is maintained it may have a clear majority in the Free State parliament instead of a plurality, which its supporters expected.

Puts First Crimp in Liquor Smuggling to United States Customs Order for Vancouver

VANCOUVER, Aug. 29.—As a result of negotiations between United States and Canada the first crimp is to be put in the local export liquor business. Instructions have been received by local customs officials that clearance papers must be refused to any vessels of less than 250 tons register which are clearing with a cargo of liquor to any foreign port.

As the largest part of the local liquor fleet comes within the 250 tons register, it will be eliminated by the recent order. The vessels it is believed which now clear for Mexico intend their cargoes for smuggling to the United States before reaching the alleged destination.

OTTAWA, Aug. 29.—The Customs Department this morning refused to state whether or not instructions had been issued to officials to refuse clearance papers to vessels of less than 250 tons carrying liquor to foreign ports. The Minister of Customs is out of the city.

Inquiry here elicited the information that the new order does not affect Prince Rupert as no vessels clear from here for any foreign port which would allow them to drop their cargo by the way.

MOSCOW, Aug. 29.—United States as well as Great Britain is attempting to establish its right to Wrangell Island, says the newspaper Izvestia, which points out that the British Government has not yet replied to Foreign Minister Tchitcherin's protest against the raising of the British flag on the island by Stefanoff. The paper asserts that British and United States governments, with whom the question was worked out in the Washington Treaty of 1867, did not oppose Russia's declaration of September 1916, which gave notice to the world that Russia considered Wrangell Island and other territory on the Siberian coast as integral parts of her domain.

IZVESTIA SAYS UNITED STATES AS WELL AS BRITAIN IS AFTER TERRITORY

DAILY EDITION

Wednesday, Aug. 29, 1923.

**Must Not Think World
Is Like Prince Rupert.**

People who live here or anywhere else in British Columbia must not get obsessed with the idea that this is the world or that the rest of the world is like it is here. We live under good conditions. We enjoy life as they do in few other places. Here there is everything to please and little to worry unless we manufacture the worries ourselves. The country is beautiful, the climate equable, there are few natural pests and money is comparatively easy to get. The result is that we as a people do not understand the difficulties and hardships under which people exist in some parts of the world.

Of course the people in each place enjoy life in their own way. We enjoy it in a manner exclusively our own. And even here what is enjoyment to one is misery to another. One likes art, music, literature, and the other likes beer, whiskey and more beer. One delights in a trip on the water and the other prefers to stay on land. Games appeal to one while the other would not walk five yards to see a game. One likes always to be among friends while another prefers to be a good deal alone. What is meat to one is poison to another. Each enjoys life in his own peculiar manner. Conditions for enjoyment are better here than in most places yet we do not always appreciate them. We long for the gay throngs of the big cities, the entertainments, or perhaps the educational privileges.

**Looking Forward
To The Winter.**

A good many people who have been enjoying the summer are now looking forward to the winter. They like the open air but they also take great pleasure from the winter evenings when they sit around the fire and read or study or perhaps enjoy the pleasures of social life. There are many things that can be done during the winter. Most people like to do things. The joy of creation, either of something new or of copying something provide a good deal of enjoyment. There is always pleasure to be derived from achievement.

**Getting Away From
Thoughts Of Business.**

It is usually a good thing after business hours to get away from everything which reminds one of business. Complete change is a great restorative and any activities of the coming winter might well be planned with a view to providing diversity of occupation. The person who works with the brain in the daytime should take up some form of manual or physical work during the evening for recreation purposes. Gymnasium exercises are excellent restoratives. They keep the body fit and make it possible to do more work and keep it up longer than would be the case without them. There are other forms of physical work, some of a useful character that can be carried on with pleasure and profit during the winter.

**Definite Plans Are
Very Desirable.**

Drifting is always dangerous. It is best to have some goal in view in our recreations as well as in business. We should map out for ourselves a course that is likely to bring results. If we have a hobby it is well to take it up systematically and carry on persistently. Often men's hobbies have been that for which they have become known in after years. The man without a hobby is a man whose usefulness is likely to end when his business or calling does not longer need his services. Many a man dies when he retires from business, just because he has nothing to do and cannot longer adapt himself to any interest that will serve to keep him alive. He has not learned to play.

**Grain Commission
Will Be Welcome.**

Prince Rupert's opportunity to show why grain should be shipped this way in order that this port may serve the country will come next month. The grain commission is to sit here and hear evidence. To show that grain shipping will benefit Prince Rupert will not be of any advantage. To show that we can be of service to the country in providing an advantageous outlet for grain is the only argument that will count. We must overlook no point that will be likely to forward the scheme.

Haida Black Jadite Totem Poles

**Source of Supply and Carving;
Coal Deposits Showing High Value**
(By Thomas Deasy)

Although many thousands of persons prize the miniature black jadite totem poles of the Haida Indians, few realize that no other country is in possession of the material from which they are made, and it is not generally known that the unique carving duplicates the totem poles of ancient days, when thousands of Indians placed their crests and legends on the large cedar trees to show their clanship, and the insignia of the chiefs of the various tribes of a then primitive race of human beings.

The totem poles are disappearing through lack of care and

and also through museums and other institutions desiring to have some momentos of a passing race. The tens of thousands of the former terrors of the north, are now represented by less than seven hundred Haidas on the Queen Charlotte Islands, an archipelago forming the northwestern boundaries of the Dominion of Canada. Strange to say, the Haidas were the most tractable, and met the incoming whites, less than two hundred years ago, with more of a propensity for trading than engaging in warfare. They were then the most powerful race and accepted without protest the behests of the government of the great and glorious Queen Victoria.

An assay of the slate was made by Dr. Harrington and shows:

Silica, 43.78; alumina, 36.78; per-

oxide of iron, 8.46; lime, trace; water, 7.15; carbonaceous matter, 3.15. In the neighborhood of the slate deposits coal has been found in large quantities, which it is proposed to use as fuel to be used in turning the surrounding forest into wood pulp. The cost of production and the shipment of coal has been a factor in delaying operations up to the present, but the use of the coal for home consumption where water power is not available will prove remunerative. The assays of coal in various localities on the Queen Charlotte Islands show as follows: At the Robertson camp, water, 9.80; volatile matter, 23.27; fixed carbon, 51.38; ash, 24.54. At the Wilson camp, water, 1.06; volatile matter, 43.48; fixed carbon, 46.01; ash, 9.45. At Anthracite camp, water, 1.51; volatile matter, 8.69; fixed carbon, 80.67; ash, 9.72.

Tarvia Deposit

In many portions of the islands petroleum shale is to be found on the surface, while deposits of tar are found along the sea shore. A most remarkable deposit of various minerals may be found on all of the various islands of the group. Gold, silver, copper, platinum and other minerals have been discovered. Talcum, graphite, lead, and other valuable areas may be seen in many directions. The opening up of the interior of the islands by roads and railways, which will follow the opening up of timber limits should afford an opportunity of developing properties now useless. Geologists report millions of tons of merchantable

logs of tons of merchantable

timber, coal, of the best quality, awaiting the handiwork of man to

hills, far from their villages, on which are plateaus, where they probe in the earth for blocks of

stone, which, when excavated, has a dark, greyish color. When they

excavate sufficient of the material it is carried on their backs down the mountain and placed in their boats for conveyance to their homes. It is then necessary

to saw the blocks into small

squares and an expert takes several days to evolve from this greyish slate a very dark, shining

duplicate of a totem pole. On a

table, with the crudest of implements, the carver figures out

his design, with plans, adopting

the crest and legends as the insignia of some departed chief

appeared in boyhood days. From

his brain the carver forms, in

proper order, the place of each of

the figures in such a manner that

each represents a story connected

with some legendary event, so dear to the Indian.

Getting Material

Strange to say, the Indians do not take the material from the large ledges above ground. It appears that the exposure to the elements hardens the slate. The probing with a spear is done on the plateaus, through the deposit of rotted leaves and the soft earth, beneath which are buried the pieces which fell in landslides. This slate is much softer and can be carved without splitting. After sawing into the desired length the carver holds the piece in one hand and works on it with the other. When it is fashioned to suit the fancy of the carver it is polished with eggs of the salmon which contain a large quantity of oil. One Indian in particular, discovered a means of polishing the totem poles which he will not disclose to others. His work is much sought after and commands a higher price. The older Indians, as a rule, manufacture the totem poles during the winter months, when they have nothing else to occupy their time. The work is not remunerative, and the young Indians find employment at other

VANCOUVER BREWERY LIMITED

Here and There

A discovery of excellent ochre (raw sienna) was recently made near Ellershouse Station on the Dominion Atlantic Railway. The color is uniform throughout, with very little gritty matter in the main body. The material can be burnt to produce a variety of colors from reddish brown to black. Prospecting is still going on.

Canadian Pacific S.S. "Metagama" westbound from Glasgow via Belfast, recently docked at Montreal and Quebec with the record number of 382 cabin and 1,078 third class passengers. This constituted a record only for ships of the size and type of the "Metagama," the Canadian Pacific Empress liners often having a far larger list.

Canadian Pacific Railway officials estimated that 61,000 men would be required to harvest the western crops this year. They expected to supply only 9,000 from the prairie provinces and British Columbia and made arrangements to carry over 50,000 from Ontario, Quebec and the east.

United States factories turn out chewing gum to the value of \$41,000,000 annually. The extent to which this product is used in this country can be appreciated when it is known that at the Canadian Pacific Windsor station, Montreal, a man is continually employed in removing gum stains from the marble floor.

Despite the fact that the new Basilica at Ste. Anne de Beaupre is still in course of construction, many thousands more have visited the shrine this year than in former years, and at frequent intervals the Canadian Pacific Railway has been called upon to add special equipment to its regular trains to accommodate the pilgrims. The Redemptorist Fathers are investigating a large number of cures claimed to be miraculous.

E. L. Richardson, manager of the Calgary Stampede of 1923, held under the patronage of the Prince of Wales and Governor-General Byng, announces that, owing to the enormous success of the great rodeo July 9-14 it will be staged annually instead of at intervals of several years, as heretofore. The recent Stampede was attended by 137,800 people.

Only once in the history of Canada was the gold production record set in 1922 exceeded, and that was in 1900, when the Yukon placers reached the peak of their yield. During 1922, 1,263,364 ounces of gold were mined in the Dominion. The value is set at \$26,116,050, an increase of 36% over the previous year's figures. In 1900, 1,350,057 ounces of gold were mined and the value was \$27,908,153.

Canada's trade is climbing ahead. Total trade in the three months ending June was \$462,544,438, an increase of \$110,841,056 over the corresponding three months of last year. For Jule alone total trade was \$179,720,516, an increase of \$44,944,732 over last year. Domestic exports in the three months increased approximately \$50,000,000 and imports approximately \$61,000,000.

C.P.R. steamer Princess Louise, Capt. Arthur Slater, southbound from Alaska to Vancouver, is due in port from the north at 3:30 this afternoon clearing for the south at 5:30.

Miss Vivian Coombs, who has been visiting in the city for some time with Miss Dorothy Treymaine, is returning to her home in Victoria by the Princess Louise this afternoon.

Use coupon

You, Too,
Can have better shaves

If millions of men have found the way to quicker shaves, easier on the skin, you'd want to share their knowledge.

Now you can. We extend to you the same invitation they accepted—by which they discovered

the shaving cream that is 5 ways better. Soap experts for 30 years, it took us 18 months making 130 experiments to perfect Palmolive Shaving Cream for you. We ask you to do no more than give it a trial—at our expense. Discover for yourself the 5 advantages that speed up shaving time, and do away with skin irritation.

First, it multiplies itself 250 times in luxurious lather.

This lather softens the toughest, wiriest beard in one minute, without any rubbing.

It lasts, creamy and rich, for 10 minutes on your face.

Each bubble is extra strong-walled—holding hairs erect for easier cutting.

Skin is left soothed, cool, by the blended palm and olive oils.

Millions of men today know how important these things are—how they help. We feel sure you will appreciate them, too, after a trial. So sure that we are staking our reputation with you, on the results.

Ten shaves free—just as soon as you mail this coupon.

BRINGING UP FATHER

MARRIAGE BY CAPTURE FINDS LITTLE FAVOR

**Circassian Beyond Jordan Finds
Widow Not Amenable to Old
Method**

JERUSALEM, Aug. 29—Beyond the Jordan is a Community of Circassians, recruited by the British for police duty, the male members of which are inclined, even today, to follow the old custom of a whirlwind campaign in their love affairs, sometimes called marriage by capture.

A few days ago one of these men, making use of the custom and the opportunity, attacked a house with some of his companions and captured a wealthy Circassian widow who had come from Damascus to the wilds of Transjordan to look after her late husband's sheep. The sergeant ran off with her to Kerak, where he proposed that they be married.

Unfortunately he had omitted one thing, which is curiously regarded as essential even in "marriage by capture," to secure the lady's consent. In this case she declined. Appeal was made to the authorities, and King Abdullah ordered the arrest of the would-be groom and decreed that the custom of marriage by capture should cease.

Ten Years Ago in Prince Rupert

August 29, 1913.

J. W. Stewart, head of the contracting firm of Foley, Welch & Stewart, said before he sailed for Vancouver this morning, that the steel on the G.T.P. Railway would be linked next April or May.

D. R. O'Neill, T. Brown, Capt. Cann and other survivors from the wreck of the steamer State of California reached here on the City of Seattle this morning from the north.

Rev. F. W. Kerr is leaving here tomorrow to officiate at the opening of the new Presbyterian Church at Terrace next Sunday.

ACRE OF FISH IN LAKE AT LAKELSE

J. D. McLeod of Kirkpatrick's store is home after spending a holiday at Lakelse. He was much pleased with the place as a holiday resort and was particularly interested in an immense school of trout at the northerly end of the lake which he said was practically an acre of almost solid fish.

LIBRARIES GAIN FAVOR FOR HOME TRAINING

CHICAGO, Aug. 29.—American people are using their libraries as home universities for self education instead of for amusement, according to Carl H. Milan, secretary of the American Library Association, who points to the employment of education advisers in the largest cities as proof of his assertion.

"People are intent these days on gathering useful information," said Mr. Milan. "At Detroit, Milwaukee and Cleveland the demand for instructive and informational books has become so great that superintendents of adult education have been appointed to care for the ambitious."

Mrs. Helen Nuchi arrived from Alice Arm on the Cardena last evening and is registered at the Hotel Prince Rupert.

WINNERS OF GILHULY CUP

**Sons of England Defeat Grotto
by 3 to Nil and Capture
Coveted Trophy**

The Sons of England won the replayed football game from the Grotto last night by a score of 3 to nil and thus captured the coveted Gilhuly Cup. Wind and rain mitigated against a good quality of soccer being played though it did not prevent a very fair crowd of fans turning out to witness the match which involved an interesting situation in the trophy race.

As far as share of play was concerned, the Grotto were even with the Englishmen but they fell down in goal shooting.

The Sons scored their first two in the first half through J. Johnson and G. P. Tinker, the third coming in the second half again through Johnson.

George Russell was referee and A. Clapperton and J. Marks officiated on the side lines. The teams took the field as follows: Sons of England—H. Frizzell; O. K. Lord and Eddie Craggs; Hodgkinson, George Kelsey and Findlay; W. Hamilton, P. Cameron, J. Johnson, Percy Tinker and Jimmie Farquhar.

Grotto—E. McLean; H. Hamilton and George Waugh; P. McGowan, J. M. Campbell and Alex Roy; Fred Hardy, J. Campbell, J. Jackson, F. Joyce and J. Andrews.

SPECIAL STEAMSHIP SERVICE TO ISLANDS FOR EXHIBITION WEEK

In order to accommodate the movement of passengers and exhibits between Queen Charlotte Islands and Prince Rupert for the annual exhibition opening on September 11, the following arrangements will be carried out by the Canadian National Railways Coast Steamships:

S. S. Prince Albert, on her regular trip north from Vancouver September 5 arriving at Prince Rupert September 9, will take care of passengers and exhibits going to the exhibition.

In order to take back the visitors and exhibits after the close of the exhibition, S. S. Prince John will make a special trip as follows: Leaving Vancouver Wednesday, September 12 she will proceed on her regular calls as far as Cumshewa, from which point she will proceed direct to Prince Rupert, arriving Saturday night September 15, pick up her island passengers and return immediately to Skidegate Inlet and take up her regular northbound schedule from there, doing Massett Inlet and arriving Prince Rupert on Monday, September 20.

Sport Chat

With the resumption of school next week, some of the boys' sporting leagues will again be staging fixtures to finish up their schedules which were interrupted in June with the opening of the long vacation. In the Intermediate League there will at least be one more game, the Colts needing another victory to capture the season's trophy. What the Junior leaguers are going to do remains to be seen. No announcement has yet been made as to whether or not the games will be resumed at the McBride Street park.

The major league baseball season comes to a close this year on October 7, a week later than last year, and the world's series between the National and American League champions will start October 9 or 10 according to present plans. The New York Yankees still have a healthy lead in the American League and it is pretty well conceded that they will win the pennant. Something phenomenal will have to happen to prevent them from doing so for they have a lead of something like 26 games over the runners-up, Cleveland, the percentage being .652 for New York and .538 for Cleveland. The National race is now nip and tuck between New York and Cincinnati for first place with Pittsburgh and Chicago still much in the running. Boston is occupying the cellar in both leagues.

Englishmen cannot look back with entire satisfaction on their national record in past Olympic Games declared Hon. Winston Churchill in a recent speech. Since their revival in 1896 they have been held six times, and out of the sixty-five principal events Great Britain has won only eight, as compared with forty-seven won by America. Mr. Churchill's speech was delivered at a meeting in support of the British Olympic Association's appeal for funds to provide proper training and equipment for the British representative athletes scheduled to compete in Paris next year. J. O'Grady, M.P., said he was certain that with their pence working men would subscribe to the fund no less readily than others with larger sums and Sir Charles Wakefield added that in his recent visit to America he had been immensely struck by America's enthusiasm for physical training and athletics. America's successes in athletics of late had been due not to any magical spell, but to sheer hard work and determination. Great Britain needed to be bolder and more generous in its preparatory selection and training.

District Notes and News

QUEEN CHARLOTTES

A bridge, some 800 feet in
length, will be constructed to re-
place the present structure over
Delkathia Bay, between Massett
townsite and the town of Delkathia.

Miss Mackay has been ap-
pointed teacher of Skidegate In-
dian day school.

Miss Annie M. Andrews, after
spending a vacation in Prince
Rupert, returned to Skidegate, on
the last trip of the steamer
Prince John.

Mrs. F. C. Nash, of Terrace, is
visiting her parents, at Massett,
after which a short vacation will
be spent at Buckley Bay.

Nels Larsen returned to his
mine, at Lockport, after a visit
to Vancouver. Development work
on an extensive scale is proposed
at this mine, which shows great
possibilities of becoming a pay-
ing gold proposition.

Messrs. Dubois, Williams, Mc-
Morris, and several other parties
interested in the development of
the coal measures at State Chuck
on Skidegate Inlet, are arranging
for the opening up of the prop-
erty at an early date.

The whaling station continues
operations on a large scale at
Naden Harbor. It is said that
the number of whales captured
will exceed the record of previous
years.

The steam tug Evergreen is
undergoing repairs at Buckley
Bay, in preparation for towing
the numerous rafts of timber
from the logging camps to the
large sawmill.

Several residents of Prince Bu-
pert are spending the summer
vacation on the islands. The
sandy shores outside of Massett
at the North end of Graham Is-
land and Sandspit on Moresby
Island will become the summer
camping and bathing grounds of
the country when better known.

Residents of the Queen Char-
lotte islands were very much
pleased with the descriptive ar-
ticles which appeared in the
Daily News, on the various places
visited by the editor. A visit to
the islands would be a revelation
to others.

BUCKLEY BAY

Mrs. Schroeder and children
and her sister Miss Linford of
Seattle, are spending a short
vacation at Buckley Bay with Mr.
and Mrs. C. B. Strigley. They ex-
pect to return to Seattle by the
boat leaving Saturday night.

A very enjoyable time was
spent Friday at the home of Mr.
and Mrs. C. B. Strigley where a
whist drive and social evening
was given. Among those present
were G. Meagher, Mr. and Mrs.
Richardson, Mr. and Mrs. B. T.
Lea, Miss D. Marlatt, Mr. and
Mrs. C. A. Hancock, D. E. Max-
well, F. Timmis, J. Hastie, Miss
E. Linford, Miss G. Linford, G.
Andre, Mr. and Mrs. C. W. Poole,
Mrs. Ward, Mrs. Schroeder, J. R.
McWilliams and Mr. and Mrs. W.
E. McLean.

PLAYING FOR TENNIS
CHAMPIONSHIP ANYOX

Third Round in Series About to
Start at Smelter Town

ANYOX, Aug. 29.—The present
has been the greatest tennis sea-
son in the history of Anyox, each
day and evening seeing the courts
well patronized, the ladder games
creating a lot of interest. The

donation of a cup for the men's
open singles championship of
Anyox by L. F. Champion has
brought out the best of Anyox
talent, and all players are deter-
mined to win the trophy. The

second round has already been
played, and the third round starts
immediately. This will probably
be the most interesting portion of
the tournaments. The following
players have been drawn to par-
ticipate in the third round for
the champion cup: H. Ballion vs.
F. Gordon; G. Lee vs. W. Miller;
D. Cole Jr., vs. O. G. McIntyre;
and F. Brown vs. F. C. Towns-
end.

NEW HAZELTON

Indians have been making satis-
factory progress in a financial
way during the past couple of
years and this fall finds them
with many head of fine cattle
and large quantities of feed al-
ready stored.

The New Hazelton Canadian
Girls in Training gave a tea last
week at the home of Mrs. Hugh
Harris. There were many ladies
present from both here and
Hazelton.

George D. Parent, C.N.R. agent
here, is spending a fortnight's
vacation visiting various points
in the district.

James Cronin, owner and oper-
ator of the Babine Bonanza mine,
visited here last week and made
a trip to the Erie property.

The first auto went over the
new ferry across the Skeena
River at Hazelton last week. It
had considerable difficulty in
getting up the first hill on the
other side.

Mrs. Norman Kilpatrick is
spending a couple of weeks at
Hazelton relieving at the Union
Bank while H. H. Little, the man-
ager, is away to Vancouver.

Dr. H. C. Wrinch and Miss
Watkins, superintendent of the
Hazelton Hospital, left at the
end of the week for Penitentiary
where they will attend the con-
vention of the B.C. Hospital Asso-
ciation. Dr. Wrinch is presi-
dent of the Association.

ALICE ARM

The Homestake Mining Co. has
brought a gasoline speeder from
Vancouver to be operated on the
Dolly Varden Railway for the
hauling of mine supplies and
equipment.

Tug Cape Scott was here last
week and took a boom of 1,500,-
000 feet of logs from the Abbotts-
ford Logging Co.'s camp to
Ocean Falls.

The provincial government is
building seven miles of trail
from the head of Hastings Arm
towards the Kitsault Valley.

J. C. MacCallum, who taught
last year at Hagensborg near
Bell Coola, has accepted the
position as teacher of the local
school.

Jim Calvin returned last week
from a prospecting trip to the
Naas Valley.

Miles Donald and William Mc-
Lean are back from a prospecting
trip to the Georgia River
country, Portland Canal.

Anyox visitors at Alice Arm
and Silver City include Mrs. J.
Smith and family, Mrs. G. Hague
and family, Mrs. Patrick and son,
Dr. and Mrs. Learoyd, Mrs. Wil-
liam Halloran.

PRINCE GEORGE

The Jamieson Construction Co.
of Edmonton has been given the
contract for placing of culvert
drains along the line of the
C.N.R. between McBride and
Smithers.

Dr. C. Ewart and George Mc-
Cullagh left last week for Van-
couver where both will be mar-
ried.

George G. Peters, local manager
for P. Burns & Co., and Mrs.
Peters are on a trip to the coast.

F. P. Burdon returned last
week from Edmonton and left for
the Peace River country where he
will spend a month.

C. A. Chapman of Smithers is
making arrangements for the
marketing of 4,000 tons of tim-
othy hay here before fall.

Bon. Dr. J. D. McLean, minister
of railways and of education,
was here last week after having
completed a trip over the Pacific
Great Eastern Railway.

A. H. Anderson, general manager
of the Union Finance Corpora-
tion, Spokane, was in the city
last week closing up deals
with local resident oil lands in
Montana.

A Sons of Canada encampment
will be officially inaugurated and
installed this week. There are
40 charter members.

T. Kilpatrick, manager of the
Pacific Great Eastern Railway,
was a visitor here last week.

M. P. McCaffery of Prince Ru-
pert was here last week. He ex-
pects to go into the tie business
in this district with his brother
Robert McCaffery of Prince
George.

VANDERHOOF

Charles T. Cabrera, mining en-
gineer who is visiting the dis-
trict, states that this locality
possesses a fine quality of silt
which may be made use of in-
dustry. Silt is used in the
manufacture of paper and nitro-
glycerine and also has value
in the making of medicines and

HOLD MUSICAL FESTIVAL HERE

Committee Appointed at Meeting Held Last Night to Organize Big Event

ALL WERE IN FAVOR

Archdeacon Rix Heads Executive That Will Meet Next Week to Formulate Plans

A meeting to consider the proposed inauguration of a Musical Festival for Northern and Central B.C. was held in the Northern Polytechnic Institute offices yesterday evening. Invitations had been previously sent out to various representative organizations in town, and the following delegates were present:

Miss M. A. Way, music teacher; Mrs. W. E. Williams, Ladies' Musical Club; Rev. Archdeacon G. A. Rix, Anglican Church; W. Vaughan Davies, Baptist Church choir; W. H. Derry, Elks; P. H. Linzey, Knights of Pythias; George Rorie, Rotary Club; D. C. Stuart, St. Andrews; F. Dibb, Musical Society; J. Pinder-Moss, Northern Polytechnic Institute.

Outlined Proposal

The Rev. Archdeacon Rix occupied the chair and Mr. Pinder-Moss who acted as secretary for the meeting was called upon to outline his proposals for the establishment of such a society. His suggestion was that a musical festival be arranged for some time at the end of April or May, consisting of competitions between choirs, orchestras, vocal groups and school children's choirs and instrumentalists. He believed there was a great deal of talent throughout the district which was worthy of encouraging and such an organization as was proposed would stimulate a love of music and the competitions would be an incentive towards study. He outlined splendid work done by the Alberta Musical Festival, which from small beginnings had developed into quite a power in that province. Mr. Pinder-Moss suggested that the organization

Value to Children

Mr. Dibb was also heartily in favor of the proposal, as was also Mrs. Williams, and Mr.

Stuart spoke of the value that such a society would be in encouraging music among the school children.

Archdeacon Rix said that he had every sympathy with the idea. He considered that we were much behind other centres in music, and he would certainly favor such a proposal.

It was moved by Mr. Rorie, seconded by Mr. Stuart, that this meeting put itself on record as favoring the organization of a committee which will make an effort to promote the musical interests of the district through encouraging competitions in a Musical Festival which will be arranged by this committee or its successor. This was carried unanimously.

The following officers were then elected as an executive committee:

J. F. MURRAY,
District Superintendent,
24th August, 1923.

SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until noon, on Friday, the 5th October, 1923, for the conveyance of His Majesty's Mails, on a proposed Contract for four years, thirteen times per week on the route between Prince Rupert and Street Letter Boxes, etc., from the Postmaster General's pleasure.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post office of Prince Rupert, B.C., and at the office of the Dist. Supt. of Postal Service District Superintendent's Office, Vancouver, B.C.
