G.W.V.A. AGAINST DIRECT POLITICAL ACTION

VISITOR SEES WONDERFUL PROGRESS HERE; DISTRICT SCHOOLS INCREASE

G.W.V.A. not in Favor Direct Political Action Amalgamation or Bonus

VANCOUVER, July 6. — The Great War Veterans do not favor amalgamation with other Canadian Veteran organizations if such amalgamation spells loss of the G.W.V.A. identity or the adoption of either the principle of a cash bonus or direct political action. After Secretary McLeod on Thursday addressed the veterans' convention here on amalgamation, supporting the principles mentioned, the G.W.V.A. tentatively submitted a motion for the purpose of testing the feeling of the convention. The motion practically supported amalgamation under a name such as the United Veterans of Canada.

Speaker after speaker condemned any amalgamation which would submerge the G.W.V.A. and wipe out its name and prestige. Several suggested that the other veterans' societies could very easily join the G.W.V.A. if they wanted amalgamation. The committee's motion was finally withdrawn, having served its purpose and the final motion for a vote of the assembly will be brought down before the convention ends on Saturday.

The convention adopted a resolution that the Soldier Settlement Act be amended to permit veterans to sell their holdings to civilians provided the interests of the settlement board were protected.

The appointment of a travelling commission of three practical agriculturists to investigate soldier problems was also suggested.

MISTREATMENT NOW CLAIMED

Nova Scotia Police Officials Investigating Allegation Made by Union Official

SYDNEY, N.S., June 6. — Police officials spent the morning investigating the authenticity of a letter purporting to be addressed to various island locals of the United Mine Workers of America by District Secretary McLachlan counselling them to throw down their tools in the face of alleged brutal assaults on innocent women and children by the provincial police. A copy was wired to the attorney general.

OTHER NATIONS MAY BACK UNITED STATES

Conversations Have Taken Place on Liquor Treaty With Other British Representatives

WASHINGTON, July 6. — The possibility that powers other than Great Britain might look favorably on the United States' plan for a treaty covering ship liquor stores and rum smuggling suggested itself today when it became known that there had been informal conversations with representatives of at least one of the powers which received the United States proposal.

REVISE DISTRIBUTION OF LIQUOR PROFITS

VICTORIA, July 6. — Revision of the Municipalities' share of the liquor profits may be offered during the next session of the provincial legislature. This was the impression left with the deputation representing Saanich.

While Mr. Johnson was unable to make a definite reply to the plea of the deputation, it was stated that an agitation for the general revision of the population figures on which distribution is based will be demanded and that there is a strong likelihood of such revision being ordered at the next session of the House.

PRESIDENT HARDING ON WAY TO ALASKA

TACOMA, July 6. — President Harding and party sailed for Alaska yesterday afternoon. He will visit a great many of the important points and will combine pleasure with official duties.

A daughter was born this morning at the General Hospital to Mr. and Mrs. William Adams of U.S.

PREFERENCE TO WAR VETERANS

Convention Asks that on National Railways Ex-service Men be Given Seniority

VANCOUVER, July 6. — The desirability of preference in the employment to ex-service men employed on Canadian railways was discussed at yesterday's session of the Great War Veterans Association here. A resolution was endorsed to the effect "That whereas an order for a working agreement between the Canadian National Railways and the men's representatives provided that in the event of a reduction of staff seniority of service govern; and this would affect a majority of ex-service men now employed; all members of His Majesty's forces should take their seniority before that of any un-naturalized alien; that their seniority should date as from the date on which they joined the forces; such seniority rights to be applied in all instances except for promotion in service; and also that all ex-members of His Majesty's forces be given preference for employment and promotion."

It was contended that under the conditions existing in railway employment, ex-service men were frequently laid off while enemy aliens and un-naturalized aliens were kept at work.

GROSS EARNINGS OF RAILWAY FOURTEEN MILLION INCREASE

MONTREAL, July 6. — The gross earnings of the Canadian National Railway for the week ending June 30 were \$6,491,463, being an increase of \$697,552 or twelve per cent as compared with the corresponding period of 1922.

The gross earnings of the railway from Jan. 1, 1923, to June 30, have been \$116,536,160, an increase of \$14,163,156 compared with the corresponding period in 1922.

CANADIAN AMENDMENT LEAGUE OF NATIONS IS NOT ENTERTAINED

PARIS, July 6. — According to advices received here from the council of the League of Nations at Geneva, the Canadian amendment to Article 10 "that members of the league shall undertake to respect and preserve against external aggression territorial integrity and existing independence of all members of the league and in any case any such aggression or threat of danger as the council shall advise it on means whereby their obligation shall be fulfilled" was rejected almost unanimously.

HARRY WILLS MAY MEET DEMPSEY ON LABOR DAY NEXT

GREAT FALLS, July 6. — Harry Wills, the negro heavyweight, will probably be Dempsey's next opponent, Jack Kearns, manager for Dempsey, said today. The bout will likely take place on Labor Day.

Thornton and Beatty Plead for Forest Protection

SIR HENRY THORNTON
President of the Canadian National Railways, says:
"If any man wants to add to the burdens of the Canadian National Railways, let him start a forest fire."
"The forest is a main pillar of our freight business and tourist travel. I appeal to every Canadian to protect the forests."

E. W. BEATTY
President of the C.P.R. says:
"A living forest means live jobs. Dead forests mean dead jobs. No man of us has any right to kill a forest by his careless acts. A minute's care may save a century of waiting."

Optimistic Message Brought by Principal Vance to Rotary Club Urges Participation in Politics

Bringing a breezy message of optimism and of urge toward better social, political and international conditions, Principal W. H. Vance of the Anglican Theological College at Vancouver, addressed a large meeting of Rotarians and others at the Rotary Club luncheon yesterday afternoon. J. W. Nicholls had charge of the program and presided at the gathering, the Rotary orchestra played several selections, S. K. Campbell gave two vocal solos and there were club songs. A number of visitors were present.

Dr. Vance said this was his 37th trip across the continent and he was on this occasion especially struck with the new spirit that pervaded the Canadian National Railway. There was a courtesy among the employees, enthusiasm and interest in the welfare of the passengers and a desire to make a name for the railway. He did not know what had given them this new spirit but it was everywhere apparent.

Skeena Scenery
The visitor also spoke of the wonderful scenery of the Skeena River. He travelled a great deal and there were many wonderful things to be seen but the scenery of the Skeena appealed to him on this occasion and impressed him more than ever before. He told a story of two children who were travelling, one of whom looking at the scenery said, "I did not know God was so wonderful", and the other inquired "Where are the elevators?"

Turning then to the subject matter of his address, Principal Vance spoke of society being a matter of friendship, association and mutual helpfulness. There was a common bond as in a family. Time and space were being eliminated by modern transportation. Two weeks ago he addressed the Rotary Club in Fernie.

Six New Schools are Opened in Prince Rupert District and Four Reopened: Two Closed

School Inspector H. C. Fraser reports that Prince Rupert district is moving along steadily in school matters. During the past year attendance has shown a marked increase and a satisfactory matter is the general advancement of the work.

Since last September six new schools have been opened in the district, four schools have been re-opened, new divisions have been started at three points and only two schools have been closed.

The following new schools were opened: Premier, Lakelse Valley, Strathmore (near Westport), Rose Lake, Woodmere (near Telkwa) and Kispiox. Schools which had been closed for some years were re-opened at Copper City, Refuge Bay, Georgetown and Skidegate. New divisions were started at Smithers, Ocean Falls and Prince Rupert High. Schools were closed at Surf Inlet Beach and Colleymount. Application has been made for a school at Aiyansh.

Burns Lake which at present has a two-room assisted school now wants a three or four room building and a Superior School. Terrace is also aiming at a Superior School and a new one-room addition for the High School is being built making four Public Schools and one High School divisions there. Esk is having a new two room school built.

In two years Anyox has advanced from a Superior School to a regularly established High School as Ocean Falls has also done. This year a second High School division is being opened at Ocean Falls.

High School Interest
A pleasing feature in the school work of the district during the past year has been the fact that there has been an increased interest in High School work, public school teachers at several points voluntarily taking on High School students in addition to their regular Public School duties.

There were High School examinations at 18 centres this summer, 36 teachers sending up 179 pupils. These figures show a healthy increase over last year when examinations were held in 19 centres, 32 teachers sending up 139 pupils. Prince Rupert sent up 62 Entrance pupils last month, Anyox 24, Smithers 12, Terrace 15, and Burns Lake, 9.

High School Candidates
There were 9 Senior matriculation candidates and 17 Junior matriculation candidates from Prince Rupert High School this year. Besides there were 10 outside candidates for Junior matriculation and 2 for Senior here. Anyox had three Junior matriculation candidates and 2 trying supplementaries and Ocean Falls 2 full and 2 supplementaries, Smithers had 3 candidates for the first year High School exams and Stewart and Atlin one each.

RAINFALL PUTS OUT FOREST FIRES SOUTH

Precipitation Pretty General Throughout the Province: Ideal So Far

VICTORIA, July 6. — The heavy rainfall of today, which was fairly general throughout the province, extinguished a few bush fires that had gained headway during the dry hot weather of the past few days and went a long way toward reducing the fire hazard. Weather conditions so far this year have been practically ideal from the forest rangers' standpoint. There have been 414, or less than half as many fires so far this year as there were last year during the corresponding period. Prince Rupert district had 99.

EXPEDITION LEAVES FOR WRANGELL ISLAND

Will Outfit Trading Vessel at Nome For Voyage Into Arctic

SEATTLE, July 6. — Harold Noice, who is to head the expedition to bring off the party of explorers under the leadership of Allen Crawford, Toronto, that have been on Wrangell Island in the Arctic since 1920, leaves here this evening for Nome. They expect to arrive there July 16 and will outfit the seventy ton trading vessel Greenings with a crew of eight men and provisions for a year. A number of Eskimos will accompany the party.

**Take Good Care Of
Widows And Orphans.**

People generally will back the Great War Veterans in their demand that the widows and orphans of soldiers be well taken care of. Also there will be a general demand that disabled men shall not be neglected. If there has been neglect and prejudice in connection with the administration of the pensions department of the government among the permanent officials, it is the manifest duty of the government to see that the officials either change their ways promptly or are dismissed. There should be no trifling with this matter. It is too vital a question. The honor of the country is at stake. The men who fell were promised that their dependents would be cared for by a grateful country. It is doubtful if Canada has made good that promise. Widows were never given more than a mere pittance and orphans were almost unprovided for. The present demands of the war veterans deserve every consideration and it is to be hoped quick action will follow.

**Interest Taken
In Prize Fight.**

People love a fight and adore a fighter. While it is matter of common knowledge that prize fighting is rather a degrading business and few prize fighters have ever amounted to much as citizens, yet there is something about the sport that attracts the average man and holds him. Hundreds of people in every community of the United States and Canada and even of Europe anxiously awaited the result of yesterday's glove fight, even though it was expected to be a one-sided game. There was a phase of human nature appealed to, perhaps not the highest, but one that is deep seated in almost every man in the big contest between two physical super-men.

Those who have watched prize fights have noticed the type of men who are most in evidence on such occasions. Any man who gets his living in an illicit manner is there. Any man with a remnant of the barbarian about him has a prominent seat. As the barbarian is still dominant in most people at some time in their lives, most people either would like to watch a prize fight or read about it.

Most of us glory in the idea that we are he-men and not sissies. We rather admire the man of former ages who fought for his mate and won out by superior strength or skill. We like to see a man who is strong physically, in whom the animal predominates. We are still savages at heart even though we profess and try to make ourselves believe that we are becoming more civilized and that the brute nature is being subordinated to the spiritual.

**Fourteen Millions
To The Good.**

The Canadian National Railway is fourteen million dollars to the good over last year's record, so far as reported, and the prospect is that the increase will go on throughout the year, closing with a balance in favor of the new management of at least thirty million dollars. It is a good record and one that will make the railway president solid with the people of the country.

Of course there were people who hoped that the railway would be a failure and that they would be given an opportunity to buy it for next to nothing. They have circulated reports about Sir Henry at various times and other interests have been none too friendly.

One great thing about the new management is that all reports indicate a great improvement in the quality of service to the public. If the national railways can be made to properly serve the people, that is what is wanted. Public service is needed from a public railway and the cost must not be too great. At the present rate of progress it looks as if the railway would in time become an asset instead of a liability.

**Steamship Service
Is On Trial.**

The Canadian Merchant Marine is at present on trial. It is difficult for a layman to discuss transportation problems intelligently, but this seems evident. Whereas in the past it was almost impossible for Canadian mills to find transportation for their output, today there are government steamers carrying British Columbia lumber to the ports of the world and the lumber industry is prosperous.

Saving and Investing

"Investing" your money is a serious matter—not to be done in a hurry.
Think twice and ask advice before investing. Be guided by experience—preferably your banker's.
Successful investors always keep in close touch with their bank.

**VISITOR TO USK IS
DELIGHTED WITH IT**

"Veritable Paradise" is Expression Used in Describing Place; Guests of Mr. and Mrs. Kelch

Mr. and Mrs. T. W. Rollings, of Malton, Ontario, arrived in the city on the train last night in company with their son-in-law and daughter, Mr. and Mrs. A. J. Kelch, of Usk, with whom they have been visiting for the past fortnight. Mr. Rollings, who is 70 years of age, describes Usk as a veritable paradise and says he has spent there the finest holiday in forty-five years. Mountain climbing has been his special recreation, and both the Burnite and Kleanza groups have been given the once over by him. Prior to leaving Usk Mr. Rollings wrote his far-well in a verse which reads:

Farewell to valley, and forest trees so high,
Goodbye to Burnite whose lofty peaks reach the sky,
I must leave this little cabin,
Having spent two weeks in peace,
Goodbye my son and daughter,
My duty calls me east.

Mr. and Mrs. Rollings leave on the train tonight on their homeward journey and will visit married daughters in Brandon and Fort Arthur en route to Malton.

**APPEAL WAS WRONGLY
TAKEN AGAINST CITY**

Question One of Facts and Not of Law, So Ruled Out by Court

VICTORIA, July 6. — Holding that the judgment appealed from was on facts and not on a point of law the court of appeals yesterday gave effect to a preliminary objection by respondents in the hearing of the G.T.P. Development Company versus the Corporation of the City of Prince Rupert where the assessment of plaintiffs' land by the court of revision was upheld.

H. B. Robertson, K.C., with Edward F. Jones, appeared for respondents, the City of Prince Rupert, and held that no right of appeal would lie.

Court sustained this objection and hearing ended.

**The Man in the Moon
SAYS—**

THE caption under a newspaper picture of the noted British lady M.P. says "Lady Astor Swings Mean Club." She must be a second Maggie having some fun with her Jiggs.

THERE was a time in B.C. when "Drink to Me Only with Thine Eyes" was a favorite song, but now there is kick enough in almost everything to make the eyes water.

NOW that everybody is safely away on his holiday or properly married, let us get down to business once more.

IF John Oliver reduces the number of constituencies in British Columbia, what about an agitation to reduce the size of the Canadian Senate. I suggest that about two senators of the kind we see there would be sufficient.

NOW that the world is safe for democracy, Britain is attempting to keep it safe by building another airplane fleet.

WAR is like a strike, it is easy enough to start one but neither side knows when to quit.

IT is difficult to recognize the signs of the times unless you wear rubber tired spectacles.

THE political wiseheads are saying from time to time that an election is imminent. John Oliver laughs.

JACK Dempsey came out of the big fight with a bag of money but very little glory. Gibbons got the glory and is looking for the money.

A PROFITABLE subject for debate is "How many people watched the Dempsey-Gibbons fight at Shelby?"

SINCE the Senate stepped on the Manson Liquor import bill, I should like to see the A.G. come out alongside the Daily News for abolition of the Ottawa Old Man's Home.

**OPTIMISTIC MESSAGE BY
PRINCIPAL VANCE TO
ROTARY CLUB URGES PARTICI-
PATION IN POLITICS.**

(continued from page one)

nie, last week he was in New York. People in Europe lunched in London and dined the same day in Paris.

Illustrating the spirit of interdependence, the speaker mentioned how all countries ministered to our needs. To provide an ordinary breakfast many countries and localities contributed. All were dependent on other nations for food, clothes, religion, thought, and literature. In spite of all these things the world had not yet caught the spirit of the family. All nations were bound together by mutual helpfulness but the spirit of the family had not developed so fast. There were dangers in friendship, dangers of friction, misunderstandings, crossing purposes. The spirit of the family must pervade the nations. He hoped the time would come when secret diplomacy would disappear. The time would come when the nations would lay all their cards on the table and international treaties would be posted where all might read them.

It helped a great deal if people got the spirit of putting themselves in the other person's place. To look down on other nations or sections of the country was unchristian. He did not like to hear such expressions as "Chinks," "Yanks," "Slow old East." This week two holidays were celebrated, one on Monday and the other on Wednesday. There was no fundamental difference between Canada and the United States. They were the same in origin, aspirations and hopes. He would not say one unkind word about the cousins to the south. We should learn to understand each other better if we put ourselves in the other person's place.

Emotion vs. Intellect

Turning then to internal relationships, Dr. Vance said people were ruled and dominated by the emotions more than the intellect. He urged that the relationships be dominated by love and sympathy. He was an incurable optimist and had learned that we got what we expected. If we looked for the best we got it. The best things in the world were yet to be.

Take the city of Prince Rupert. He did not know any place faced with such insuperable difficulties that had made such rapid progress as has this city. It was being built on permanent foundations. The whole of Canada owed a debt of gratitude to the city for its enterprise.

Elect Best Men

In connection with governmental matters, Principal Vance said one thing worried him about service clubs. They chose good men for their clubs but they often neglected to take an interest in electing proper representatives to governmental bodies such as city councils, legislatures and the federal parliament. There were people who served for selfish motives and others who refused to serve. Both were to be condemned. In the service clubs was often found the cream of the city, whereas in the city councils was milk three times skimmed. Government was not always in the hands of the best people. He pled with the people of the city to elect to office the best type of men. They should all take an interest in the election to the city council, the school boards and the hospital board. He noticed that the best people were often fooling around in the eddies when they should be in the middle of the stream. All should take part in the selection of candidates for office. The selections were too often made in somebody's rear office. He was not sure but it was his duty and also that of the archbishop to get into some political party and help get men into office.

The speaker said he understood someone was coming there soon to tell them that the hope for the future lay in the formation of a third party. He was not sure but this was the best method. He thought it best for the best man to be secured to serve and in that way they would get good government.

POPULAR COUPLE WERE MARRIED LAST NIGHT PRESBYTERIAN CHURCH

Miss Helen Nickerson Becomes Bride of Harry M. D. Lambe, Rev. Dr. H. R. Grant Officiating

A very pretty wedding of exceptional local interest took place last night in the Presbyterian Church Hall when Miss Helen Felicia Nickerson, daughter of Mr. and Mrs. Asa Nickerson, Musgrave Place, became the bride of Harry Montague Dixon Lambe, son of Mr. and Mrs. Harry Edward Lambe, Saskatoon, Sask. The ceremony was performed under a wedding veil of smilax, white daisies and clover, Rev. Dr. H. R. Grant officiating. There was a large attendance of friends of the contracting parties and the church was beautifully decorated with evergreens and fresh flowers.

The bride, who was lovely in a wedding dress of fawn Canton crepe with hat to match and bouquet of pink Ophelia roses, was attended by Miss Dorothy Gillingham in a charming dress of Nile green georgette with silver trimmings and hat to match, carrying a bouquet of pink carnations and native sweet peas. Mrs. Nickerson was becomingly attired in a gown of gray satin. The bride was given away by her father, James Farquhar was groomsmen, and Norris W. Pringle acted as usher. Miss Mariel Grant played Mendelssohn's Wedding March as the bridal party proceeded to the altar and during the singing of the register Mrs. H. L. Campbell rendered delightfully, "The Dawn."

Following the ceremony there was a reception at the home of the bride's parents which was attended by some 30 guests. The toast to the bride was proposed by Rev. Dr. Grant, the groom responding suitably. After the reception, Mr. and Mrs. Lambe embarked on the midnight steamer to spend a three weeks' honeymoon in the Puget Sound cities. On their return to the city they will take up their residence on Fifth Avenue West.

Both bride and groom are very popular in a wide circle of friends among the younger people of the city and will receive the best wishes for a happy and prosperous wedded life. Mr. Lambe is a member of the office staff of the Canadian Fish & Cold Storage Co. and Mrs. Lambe taught for several years in the local public schools.

Mr. and Mrs. C. Woodworth left this morning in their motor skiff on a cruise of the rivers and lakes nearby. They expect to go up the Skeena to Khatada Lake and up the Eestall to the head of navigation exploring Brown's River, Falls River, Muddy Creek, Clearwater and Johnson Creek and lake. They plan to be away two weeks. Mr. Woodworth explains that this is really his honeymoon tour as when he was married a year ago he came here direct from Chilliwack as his work in the High School could not be delayed.

MANY LOOK FORWARD HEAR DR. SUTHERLAND

Minister of Public Works Should Have Interesting Address for Saturday Evening

A great many people are looking forward to hearing Hon. Dr. Sutherland address the public meeting which has been called for tomorrow night in the Express Theatre.

While here recently he announced to the Daily News that survey work had already commenced on the road to the canyons and that active construction may commence this autumn.

Hon. T. D. Pattullo, member for the district, will have something to say in connection with the latest developments and Fred Stork, M.P., who has recently returned from the session at Ottawa, will give an address.

While here the minister of public works is to be waited on by a delegation from the city council in connection with the outlet to the proposed new road.

Promotion Lists of All Pupils in Public Schools Placed in Grades under the New System

Beginning in September next the Department of Education has decided to adopt the eight grade system in the public schools of the province. The present grading is based on the seven year system by readers. In future a child beginning school will enter Grade One and at the conclusion of the first year in school will pass into Grade Two, etc. The eighth year in school or eighth grade will commonly be called the entrance year or class. In this year's grading the extra class necessitated by the change from the seven year system to the eight year system, was placed between the present fourth reader and junior fifth. That is to say David Westaway, Enid Williams, that the pupils standing highest in the fourth reader were promoted to Grade 6; those not standing quite so high were placed in Grade 5; while those whose work was unsatisfactory were required to repeat Grade 4, or present fourth reader.

Following is the list of pupils placed in the new grades:

On the Mountain Top

Climb the mountain--stand on the peak--and before you there unfolds a panorama extending as far as your eye can reach. Stay in the valley, and your view is restricted by the surrounding hills.

This newspaper, properly used, will guide you to the mountain top. Read it and your vision is enlarged. You get a bird's-eye view of world events. You glimpse the doings of the day.

Fail to use it, and your view is limited--you remain in ignorance not only of events at home and abroad, but of much that concerns you even more vitally--news of the very things that have to do with your personal, everyday life.

Some one might be selling a new, better and more economical food; or a utensil that would add immeasurably to your comfort and well-being; or some better material for shoes or clothing--but you would never know, because of your restricted view.

You may read every line of the news columns, but if you overlook the advertising, you are still living in the valley. You remain uninformed about many things you ought to know in order to live a happy, useful, profitable life in this age of progress.

Climb out of the valley to the mountain top. Read the Advertisements.

Canada Confident of the Future

CANADA is endeavoring to regain her after-the-war stride in the midst of many difficulties, — debt, deflation and depression being some of them.

Quack remedies and academic theories beset her path on every side. Some suggest that our debt worries can best be eased by going further into debt. Others preach blue ruin, decry their own country and indulge in mischievous propaganda generally, while still others look for a new social order or some miraculous sign to indicate a better coming day—all this in apparent forgetfulness of the fact that just as there was no royal road to win the war, there is now no royal road to pay for it or regain our former buoyancy, vigor and confidence.

Some are leaving Canada hoping to escape taxation, only to find there is no escape anywhere. In seeking for easy remedies too many of us overlook the fact that the greatest remedy is honest, hard work faithfully and intelligently performed, accompanied by old-fashioned thrift.

It takes time, it takes patience, it takes grit. But every Canadian knows in his heart that Canada is coming through all right.

Our Experience Proves It
Look back over the path Canada has trod. The French Colonists, cut

off from civilization by 3,000 miles of sea, faced a continent—a wilderness—without the aid of even a blazed trail. They had to fight savages, frosts, scurvy, loneliness and starvation.

The United Empire Loyalists subdued an unbroken forest in one generation, growing their first wheat amid the stumps and snags of the new clearing.

The Selkirk settlers came to Manitoba when the prairie was a buffalo pasture, and grew wheat where none had grown before and where those who knew the country best at that time said wheat never would grow. To-day the Canadian prairies grow the finest wheat in the world.

In proportion to population Canada stands to-day among the wealthiest nations in the world, with average savings on deposit per family of \$800. Canada's foreign trade per head of population stands amongst the highest of the commercial nations, being \$192.00 or more in 1922-23, as compared with \$135 in 1913-14, the "peak" year before the war.

New Opportunities for Canada
In Canada, although prices in the world markets fell below war level, our farmers reaped last autumn the largest grain crop in Canadian history, and Canada became the world's largest exporter of wheat, thus in large measure making up for lower prices.

Last year, Great Britain, after an agitation extending over thirty years, removed the embargo on Canadian cattle, and a profitable and practically unlimited trade is opening up for Canadian stockers and feeders.

"The 20th Century belongs to Canada"—if Canadians keep faith.

The next article will suggest practical opportunities for profit making on our Canadian farms.

START MINING DURING WEEK AT MAROON MT.

Chiro Company Have Concentrating Tables up at Mine; Properties Being Worked. BELWAY CASTLE PARTY ROSSWOOD, via Terrace, July 6.—Work on the Chiro Mining Co.'s mine at Maroon Mt. is progressing rapidly. They have been working three pack horses steadily to get supplies up and have completed one new cabin and started another. The new concentrating tables are up and they expect to start mining operations this week. Their manager, "Happy" Owings, is happier than ever, owing to the progress they have made in the past few weeks. Dr. Hanson, Dominion geologist, and Mr. Gunning, one of his assistants, made a trip in from Cedar Creek on Sunday. The party has been camping at Lava Lake and are going back to Anyox. Dr. Hanson intends to come back in August by way of Terrace. Dr. Hanson is up to his usual form at the game of "horse-shoes," but the whole community is sympathizing with Oscar Gendron. He played for six hours straight without getting a ring, very unusual, very. Dave Shaw is preparing to do some real work on his placer claim on Douglas Creek. He is down practically to bed rock. Application to Lease Foreshore Lands. In Queen Charlotte Land District, Recording District of Prince Rupert, and situated at the mouth of Slatechuck Creek, Kagan Bay, Skidegate Inlet, Graham Island, B.C. Take Notice that W. G. McMorris, of Vancouver, B.C., occupation miner, intends to apply for permission to lease the following described foreshore lands: Commencing at a post planted at high tide mark on the west bank of Slatechuck Creek, about 1,500 feet west of of the southeast corner post of Lot 4; thence 40 chains southeasterly; thence 40 chains northeasterly; thence following high water mark to point of commencement, and containing 40 acres more or less. WILLIAM GEORGE McMORRIS, Dated May 26, 1923.

Annual Service Appeal Adjutant Kerr, financial representative, asks only that he be given the funds with which to serve the community for another year. Mrs. J. M. Hatt were entertained at a delightful little tea given by Mrs. Walter Warner on Monday afternoon. In the absence of Mr. Joseph Belway, Mr. and Mrs. Von Hees and Mr. and Mrs. J. M. Hatt from Terrace entertained on Monday night at Belway Castle. The party was more or less informal but was evidently thoroughly enjoyed. Jack Conture played excellently on the gramophone. Walter Warner delighted the guests with some old- Irish folk songs and many stories were told of hunting trips, dangerous and humorous. All of the leading citizens of Rosswood were present, in fact it was one of the largest social gatherings of the week. The large living room of Belway Castle was taxed to the limit to hold the company. Among those present were Mr. and Mrs. Walter Warner of Telegraph Hill, "Happy" Owings, Jack Conture, Oscar Gendron, Oscar Olander, Dave Shaw, Paul Brodin. It is worthy of mention that genuine imported beef sandwiches were among the refreshments served. Messrs. Olander, Brodin and Conture are leaving for the hills this week to look after their mining interests. Oscar Gendron is joining the staff of Chiro Mining Co. on Maroon Mt. for the time being. Oscar Gendron spent most of the early hours Monday morning trying to remove a bell from one of the pack horses so that the Terrace visitors could get some sleep. Unfortunately he made more noise than the horses but his intentions were good. It is to be regretted that a wave of crime has swept over Rosswood. Mrs. Warner had a lemon pie stolen and Joe Belway lost half a box of punk sticks—all in two days. Jack Conture still holds the lead in trout fishing although a visitor from Terrace nearly beat him this week. A claim against the Canadian Fish & Cold Storage Company for a commission of \$600 on the sale of the fishing boat Skugajid to Capt. Perry for \$12,000 was refused by Judge Cayley in Vancouver. Action was brought by M. P. Olsen, formerly of Alice Arm. T. H. Johnson who has been in Vancouver in connection with the case is expected to return home today. Mrs. W. G. Norrie-Lowenthal and son and daughter, formerly of New Hazelton, arrived from Vancouver on the Venture this morning and proceeded to Alaska, boarding the steamer Princess Alice here. Mrs. G. D. B. Turner, wife of the well known mining man, arrived from Montreal on last night's train and sailed by the Prince Rupert for Seattle.

The Secret of Its Success THE SALVATION ARMY not only believed that there was hope for the worst, it went after the worst—in the slum, in the gutter, in the prison— It is still doing this all over the world YOUR contribution to The SALVATION ARMY Annual SERVICE APPEAL is a wise investment in practical Christianity.
