AWFUL CATASTROPHE OVERWHELMS JAPAN

HALF MILLION LIVES LOST RESULT EARTHQUAKE, FIRE AND TIDAL WAVE

Half Million Casualties Result of Earthquake, Tidal Wave and Fire in Japan; Cities Destroyed

SAN FRANCISCO, Sept. 4.—While the whole of the story of the earthquake, tidal wave and fire which overwhelmed Japan and destroyed a number of her cities will not be told for weeks to come, enough is known to say that the total estimated deaths number over half a million, and that 300,000 houses have been burned. This is the estimate of the metropolitan police of Tokio. The chief cities to suffer seem to have been Tokio, Yokohama, Kobe and Nagoya.

PEKIN, Sept. 4.—In Tokio alone the dead from the quake and fire number 150,000, according to the estimate of the Japanese legation.

OSAKA, Sept. 4.—A great explosion has occurred in Hakone, one of the hot springs of Japan, located about 50 miles from Tokio.

LONDON, Sept. 4.—A despatch from Peking says the oil tanks in Yokohama exploded yesterday morning with heavy loss of life.

Tokio Still Burning

SHANGHAI, Sept. 4.—Tokio is still in flames, the loss of life in that city alone being at least 150,000. The damage will amount to perhaps half a billion yen or about \$250,000,000. This estimate was received here this afternoon in a special despatch by the Eastern News Agency.

OSAKA, Sept. 4.—Reports from eye witnesses at Kaone say the earthquake left no houses standing at Miyanoshta, a fashionable mountain resort 45 miles south of Tokio. The famous Fujia Hotel was destroyed.

Empress Steamers Busy

WASHINGTON, Sept. 4.—Canadian vessels are already aiding in the work of caring for victims of the Japanese earthquake, a message from U.S. Consul Davis of Shanghai indicates. He says the Empress of Australia and Empress of Canada are being used for rescue work. The Empress of Australia was at Yokohama when the quake occurred and was struck by the tidal wave. Her propeller was damaged, but the message from Davis indicates she is expected to be in commission soon to aid in carrying survivors. Davis says the casualties among foreigners are very numerous. The Empress of Canada arrived Monday with freight and is also landing supplies and taking on sick and wounded.

Empress of Australia

SAN FRANCISCO, Sept. 3.—(Monday).—A message from Tanioka says the liner Empress of Australia was caught in the fury of the tidal wave and earthquake while docked at Yokohama but sustained only a broken propeller. She will be unable to depart for Vancouver until repaired.

SHANGHAI, Sept. 3.—The fire continues in Tokio. It is impossible to estimate the loss of life. Nearly all the concrete and brick buildings have collapsed. Air-men find it difficult to fly over the Japanese capital because of the intense heat.

So acute has the food shortage become in Tokio that hungry people have been trying to catch the carp in the pond at Hibiya Park. So great is the disaster that it is possible the capital may be moved to Kyoto or Osaka temporarily.

SAN FRANCISCO, Sept. 3.—Radio services this morning estimate that there are at least 100,000 persons dead in Japan. One report even gave this figure

Hurn, supervising principal, A. R. Lane, Miss M. Lindsay, Miss M. Sim, Miss Irene Stewart and Donald Ross, manual training instructor.

A total of 108 pupils, a slight increase over last year, is reported in the High School. Miss A. A. Pierce, commercial teacher, is a new member of the staff.

Raising operations on the Provincial took up the past two days and were in charge of Capt. Gammon who did some diving in connection with the job. Assistance was also rendered by the gasboat Hope.

The Provincial will go into the local dry dock for repairs. The damage is said to be not very great.

RAIN CAUSES BIG SLIDE AT KWINTSA

Passengers Eastbound and Westbound had to be Transferred at Mile 17.03 Last Night

On account of the heavy rains a big landslide came down over the C.N.R. track at Mile 17.03 for about 200 feet near Kwintsa yesterday at noon interfering with both westbound and eastbound trains last evening. The regular 6.45 eastbound went out on time and transferred her passengers at the slide to the westbound which went back. The outgoing trains returned with the passengers coming to the coast and arrived at 3.30 this morning. The steamer Prince Rupert for the south being held until after her arrival as there were a number of through passengers. It is expected the track will be cleared in time for tonight's eastbound to get through.

SEATTLE, Sept. 4.—Distress signals from the Japanese steamer Tai Yo Maru, believed to be in the vicinity of the Japanese coast, were picked up by the naval radio station at Bremerton, near here, early today. The vessel finally got in touch with the steamer Korea Maru.

The Tai Yo sailed from San Francisco in August for Hong-Kong. She left Honolulu on August 27.

JAPAN LOOKING TO THIS PORT

Makes Investigations With View to Establishing Canada-Japan Trade

LITTLE ERRORS NOTED

Authorities in That Country Think Communication Will be Established Soon

Says the Japan Advertiser: "The recent shipment of 500,000 feet of lumber from Prince Rupert for Japan as the first cargo ever so shipped from that port has attracted the attention of the Japanese government authorities, who see in Prince Rupert a promising trade port in connection with transpacific shipping. The shipment was made on June 25 from the Canadian port for Japan by a steamer of the Canadian government. The inauguration of this direct steamship service has caused the department of communication to start investigation as to the value of the port as an international trade port facing the Pacific. Nearer Than Vancouver. "The communication authorities will shortly distribute documents concerning results of the investigation on Prince Rupert harbor to the steamship companies concerned, calling their attention to the fact that the port has an important position geographically to Japan's trade with North American and Canadian ports. Prince Rupert is 500 miles nearer to Japan than Vancouver on the Pacific service, and two days can be saved even for freight steamers, and has a future not at all to be despised in consideration of industry and communications."

"Keen attention is being paid also by the Canadian government to Prince Rupert as a base of shipping operations along the Canadian Pacific coast and as a starting point on the Canada-Japan shipping trade. According to a report announced by the department of communications concerning the Canadian port, Prince Rupert is situated in British Columbia, Canada, 705 miles north of Seattle. The port has deep water and is ice free. It is a terminal point of the Canadian National Railway with Montreal as the starting point and is connected with the American and Canadian Pacific ports by rail and steamer. The coasting traffic among these ports is becoming heavier each year.

Big Coal Deposits

In Prince Rupert, fishing, lumber and silk reeling industries have been rapidly growing in recent years and the coal output is reported to be boundless in its neighborhood. Prince Rupert has a population of only 10,000 but has a floating dock and other necessary harbor facilities. The communications authorities consider that the opening of direct or indirect steamship service between Prince Rupert and Japan will be realized at no distant future, and in that event the communications between the Far East and Europe will be quickened more with considerable contribution to the world's maritime trade."

British and United States Consuls at Yokohama Killed Rioting Following Disaster

LONDON, Sept. 4.—The British Consul at Yokohama and about one hundred foreign residents are believed dead, according to despatches to the Central News. Shipping is still unable to enter Yokohama harbor owing to considerable submarine upheavals.

SHANGHAI, Sept. 4.—The United States Consul General at Yokohama and his wife were killed in the disaster, according to a radio message from the steamer President Jefferson at Yokohama.

Reports received here today say rioting menaced the destroyed Japanese cities. Two hundred Koreans driven from Tokio by soldiers enforcing martial law, procured arms near the capital and started the disturbances.

LONDON, Sept. 4.—There was heavy loss of life among the foreign residents of Yokohama as a result of the quake, says Lloyd's despatch from Kobe. The city was entirely destroyed.

COMMERCIAL TRAVELLER WAS IN PORT SUNDAY

American Freighter Similar to C. G. M. M. Boats—Taking Salmon and Lumber to New York

The American freighter Commercial Traveller, Capt. Ing, was in port from 3.15 to 6.10 Sunday afternoon southbound from Alaska to Swanson Bay. The steamer called here to clear customs and immigration and take on a crew of longshoremen. She had aboard 100,000 cases of salmon from Hidden Inlet and Sunny Point canneries and proceeded here to Swanson Bay where she will take on a deckload of 1,000,000 feet of lumber, here destination being New York. The boat also took a customs officer from here.

The Commercial Traveller, which is owned by the U.S. Shipping Board and is under charter to the Canadian-American Shipping Co., is a deep sea freighter and is very similar in build and appearance to the 8,800 ton C.G.M.M. freighters which frequently call here.

Will Accept No Mediation Where Prestige of Country at Stake

PARIS, Sept. 4.—News was received here this afternoon that the Italian representative had informed the council of the League of Nations that Italy had refused to accept the League's jurisdiction in the dispute between Italy and Greece.

LONDON, Sept. 4.—Rome says Mussolini specifically instructed the Italian delegates to the League of Nations that he was absolutely determined to maintain his position that the league was incompetent to deal with cases in which the prestige of Italy is concerned.

Mussolini told the cabinet that if the League asserts its right to deal with the case, Italy will withdraw from the League.

The Dominion Fisheries patrol flying boat G-CYDX, Flying Officer Earl Macleod, returned yesterday morning from the Queen Charlotte Islands where it has been for the past week on patrol duties. The G-CYDX was the first flying machine ever to visit the Queen Charlotte Islands and its arrival last Thursday at Queen Charlotte City caused considerable excitement among the residents and natives as it was quite unexpected.

The G-CYDX has about finished its work in District No. 2 and will soon return to the Jericho Beach Station, Vancouver, from which it was loaned. Its departure will depend on weather conditions and Pilot Macleod will not venture forth with such unsettled weather as now prevails.

Capt. Macleod reported rough weather on the Queen Charlottes but, in spite of this, the ground was well covered. Among the places the G-CYDX visited were Queen Charlotte City, Lagoon Bay, Thurston Harbor and Lockport.

Hands Across Sea In Time Of Disaster.

Nothing but the deepest sympathy with Japan in her sore distress is heard here. Industrially and ethnologically we may object to certain phases of Japanese contact on this coast, but at a time like this there is but one thought, what can we do to help? Doubtless within a few days we shall know the full extent of the awful catastrophe and steps will then be taken to show our sympathy in some appreciable manner.

Japan is our nearest neighbor across the Pacific. She is the nation that has made the greatest progress politically, socially, educationally, and in every other way. We have a number of Japanese citizens living with us and they are in most respects estimable people. We as a port are looking for much closer trade relations with Japan. There have been treaty ties binding us and now there is the bond of sympathy for a suffering nation caused by no fault of hers but by the freakish forces of nature. In the time of her calamity we extend the hand of friendship and when we can learn the need of the hour, doubtless more will be done than sending mere words.

Negotiations For Road Construction.

Negotiations in regard to the road construction out of this port seem to be progressing well and there does not seem much reason now for holding back the commencement of the work. Of course there must be documents signed and various details worked out. In the meantime Prince Rupert people are restive under the delays.

United States Wins Tennis Trophy.

The tennis trophy has once more been successfully defended by the United States after a long elimination series culminating in the defeat of Australia by the representative players of the republic. This series of games rouses a good deal of interest in sport circles and shows that in this line of sport the States stands well to the fore. The feature we can all appreciate about it is that that sport is purely amateur.

Getting Ready For

Big Exhibition.

Owing to the inclement weather the labor celebrations were not what might be called a complete success. Considering the conditions, they were excellent, but the handicap of rain and wind was too great to make for what might be properly called a success. To make up for this local people will unite their efforts on the exhibition and the sport phases of it as well as the various exhibit and amusement features are now being pushed forward and it is expected the event will eclipse former similar efforts. A great deal of interest has been aroused at outside points. Many visitors will be here and it is up to Prince Rupert to do her best to entertain them and make it worth while for them to return another year.

What Is Use Of League Of Nations?

If the jurisdiction of the League of Nations is to be questioned what is the use of the organization? According to press despatches Italy and Greece have been disregarding the court of nations and Italy refuses to accept its jurisdiction. The appointment of a court has no value unless that court has some power of enforcement of its decisions.

PRIEST WINNER OF COLLART CUP

Westview Garden Adjudged Best in City—J. L. Lee's is Close Second

Thomas Priest Graham Ave. has been awarded the cup presented by Ald. Theo. Collart to the Fair Board for the best vegetable and flower garden in the city. The judges, Ald. M. M. Stephens, R. M. Winslow and E. Van Gastel, made the rounds of the competing gardens yesterday and selected the winner. The garden of James L. Lee, Eleventh Avenue, ran a close second and was but 1-2 a point behind, winning the special commendation of the judges.

The following report by the judges has been submitted to the Fair Office by Mr. Winslow, who was formerly a government horticulturalist:

"On behalf of the judges of the garden competition for the Collart special I report as follows:

The judges considered that flowers and vegetables should rank equally in value and between the close competitors used score cards as follows:—

Flowers—Variety, 10; quality, 10; quantity, 10; cleanliness and neatness, 7½; arrangement and display, 12½.

Vegetables—Variety, 10; quality, 10; quantity, 12½; cleanliness and neatness, 12½; arrangement and display 5.

"On this basis some excellent vegetable gardens where flowers were few did not score highly and a very good collection of flowers was in a similar position.

"The judges understood that the purpose of the competition was to stimulate all round gardens with vegetables for utility and flowers for the appearance of the home and city.

"The entry of Thomas Priest is awarded first place and the entry of James L. Lee second place, only one-half point less. The judges desire to record highly their commendation of the latter entry."

LABOR DAY DANCE ENJOYABLE EVENT

Good Attendance at Elks Hall in Spite of Extreme Weather Conditions

While the bad weather made the outdoor sports unpleasant yesterday it did not to any appreciable extent mar the enjoyment of the dance given under the joint auspices of the Hospital Auxiliary and the Labor Day Committee in the Elks' Hall last night. There were a large number of young people present, the music of Balagno's orchestra was excellent and all the arrangements were good. Dancing was kept up until one o'clock with intervals for the serving of ice cream and other refreshments between.

Those in charge were Mrs. Parsons, convener, Mrs. James Lee, Mrs. Sandison, Mrs. Hemmings, Mrs. Jarvis McLeod, Mrs. McLeod and J. H. Meagher took the money at the door and W. M. Brown was master of ceremonies.

During the evening a cake presented by the LaCasse Bakery was raffled and won by Mrs. Ben Self. Several of the books not having been returned the other raffles could not be held but were postponed until a later date.

The local Lutheran congregation had its second service on Sunday in the Metropole Hall and there was a good turnout. Mr. Giere preached and Mrs. L. O. Larsen and Mr. Giere sang solos. W. Vaughan Davies was accompanist.

Change of Water Change of Diet Change of Climate Cause Diarrhoea

Mr. Fred Palmer, 217 Dalhousie St., Brantford, Ont., writes:—"When I first went out to the North West the water played havoc with my bowels, and being in a remote spot I could not get anything to give me relief for any length of time.

I wrote and told my wife about the time I was having and she sent me a bottle of Dr. Fowler's Extract of Wild Strawberry, and I cannot speak too highly of it for what it did for me.

Whenever the children have any bowel trouble from eating fruit or drinking strange water, which they have done for the past five years, living in the country, the only remedy we use is "Dr. Fowler's", and nobody should be without it as it cannot be beat for instant relief."

Dr. Fowler's Extract of Wild Strawberry has been on the market for the past 78 years, you don't experiment with new and untried remedies when you buy it, but be sure and get "Dr. Fowler's" when you ask for it as a substitute may be dangerous to your health.

Sport Chat

Willie Meehan, the pudgy heavyweight of San Francisco, occupies a unique place in the ring record of Jack Dempsey, the world's heavyweight champion. He is one of the two men—Jack Downey is the other—who have won referee's decisions over Dempsey since the latter took up boxing. He is the only man Dempsey has met more than once in the ring, who was not eventually knocked out by the Manassa Mauler.

Billy Miske faced Dempsey twice and was knocked out. But the third time Dempsey stopped him in three rounds. Carl Morris lost a four-round decision to Dempsey the first time he met the champion-to-be. The next time they met Dempsey knocked him out in a round. Gunboat Smith's adventures with Dempsey were similar to those of Morris. The first time he lost a four-round decision, the next time he was stopped in a few punches.

Meehan boxed Dempsey four times, losing once, drawing twice, and taking a decision from him in 1918 after Dempsey had punched his way through a host of opponents in the East. Meehan is no longer active in the boxing game. Downey, who won a decision from Dempsey, at the outset of the latter's career, is now a trainer for one of the Pacific Coast League baseball clubs. Contrasted with Meehan's ability to evade Dempsey's knock-out punch, is the fate of Bill Brennan, who faced Dempsey twice and was stopped each time, once in six rounds, and the next time in twelve. Brennan, too, was stopped in twelve rounds by Luis Firpo. He and Willard are the only men whom both Dempsey and his challenger from South America have met in the ring.

UNTIMELY STORM FOR CELEBRATION

Gate Receipts Yesterday Less Than One-Quarter of Last Years

Yesterday's storm proved unfortunate for the Trades & Labor Council's annual Labor Day celebration. The Nurses' Home fund was to have received half of the profits but the sports were poorly attended, gate receipts being less than one-quarter of what they were last year. The Junior football game between the Golts and Public Schools and the most of the track events were pulled off but the baseball game between the Married and Single Men, the tug-of-war and speed boat race failed to materialize. The dance in the evening in the Elks' Home paid expenses and may show a profit.

The organization of the celebration had been well arranged, the following having comprised the general committee in charge: Ald. S. D. Macdonald, chairman, T. Ross Mackay, secretary; J. J. Gillis, H. F. Fraser, James Black, James M. Campbell, B. Love, George Scott, W. E. Thompson, J. H. Meagher, W. M. Brown, George Waddell, George Casey, Mrs. R. C. Parsons and Mrs. Jarvis McLeod.

A handsome fishing rod donated by Storks' Hardware was profitably raffled, the winning number being 76. A cake presented by La Casse Bakery was won by Mrs. Ben Self. Drawings for the gold wrist watch presented by Harry Rochester and the cheval mirror donated by T. Ross Mackay will take place later.

REEVE OF SAANICH PRAISES THIS CITY

Speaks of Difficulties Encountered Here in Connection With Construction

Reeve Watson, of Saanich municipality, who, with Mrs. Watson, has returned from the North, where the Reeve attended the 1923 convention of the British Columbia Union of Municipalities at Prince Rupert, is high in his praise for the hospitality extended to visiting delegates by the people of the northern city, says a Victoria paper. They were taken on tours through the industrial and residential districts of the northern metropolis, and everything possible was done for their entertainment and comfort during the time of the convention.

The Reeve was struck with the tremendous difficulties the people of Prince Rupert were overcoming in the creation of their city. Many of the streets were made level only by cutting through solid rock hills and ridges, he said, and hollows containing muskegs were filled in and made habitable. Three-quarters of a million feet of planking was used this year for the extension and repair of the sidewalk system, and the site of the magnificent city hall cost in the neighborhood of \$50,000 for blasting and clearing before a stone of the superstructure was laid. Reeve Watson expressed his admiration for the courage, optimism and resource of the Prince Rupert people.

LOCAL REPRESENTATIVE POLYTECHNIC INSTITUTE

The following comprise the council of the Northern Polytechnic Institute and will act as local representatives in their respective towns:

R. Armour, Anyox; James Stewart, Surf Inlet; Thomas McGuigan, Swanson Bay; J. H. Young, Terrace; C. E. Hutchinson, Alton Arm; Wm. Grant, Hazelton, Fredk. Oekleshaw, Smithers; M. H. Harper, Prince George; C. P. Bussinger, Telkwa; G. C. Andrew, Stewart.

The Prince Rupert representative has not yet been appointed.

Miss Anna Lundquist of the Royal Bank staff sailed by the Prince George Saturday evening for Vancouver on a holiday trip.

E. H. Shockley sailed by the Prince George Saturday night for Victoria on a business trip.

Wednesday and Thursday. Betty Compson in "The Bonded Woman." The new Leather Pushers. Round No. 2. Topics of the Day.

WITHIN THE LAW TO BE SHOWN AGAIN TONIGHT

The well known play, "Within the Law" which was shown last night to a large audience will be repeated tonight at the Westholme Theatre. In it Norma Talmadge, the heroine, is a shop girl who is sent to prison for a theft she did not commit. In demanding that she get the limit, Edward Gilder, department store owner, explains that he wants to make an example of Mary. On her release, vowing vengeance, she joins a gang of blackmailers on condition that she operate only "within the law." Her specialty is breach of promise suits. How she takes advantage of an opportunity that presents itself when she meets Dick Gilder, son of her arch enemy, becomes involved in an extraordinary romance and a police frame-up, squares herself with the world and finally finds true happiness, is unfolded vividly on the screen.

BETTY COMPSON IN THE BONDED WOMAN

Shipwrecks and Dancing Girls and Loss of Side Attractions in Picture

Beautiful Betty Compson in a beautiful story of regeneration, beautifully produced.

That is the attraction which will prove a lodestone at the Westholme Theatre Wednesday, where "The Bonded Woman" opens. This strong dramatic presentation has its basis in a story by the late John Fleming Wilson.

Miss Compson appears as Angela Gaskell, daughter of a sea captain. Angela is loved by Lee Marvin, a member of the ship-owning firm. Her father's life is saved by John Somers, his first mate. Angela learns that Somers has a craving for liquor. Her gratitude impels her to take an interest in him. Angela discovers that she does not love Marvin and that her sole desire is to save Somers from his weakness. She follows him to the South Seas, where they are wrecked on a desert island, and he finds strength to save himself, while both find love—for each other.

Popular elements are a thrilling storm at sea, and several realistic shipwrecks. The interior of a Honolulu sailors' resort, with its dancing girls and other diversions, furnishes a colorful background.

CAN A MAN FOOL HIS WIFE? IS QUESTION ARISING IN PICTURE

"Can a man fool his wife?" The title of the picture to be shown here at the week end says he can't. The plot indicates also

LEATRICE JOY IN THE BRIMMONT PICTURE YOU CAN'T FOOL YOUR WIFE. A GEORGE MELFORD PRODUCTION

that the woman is usually wise to the man and his ways. In this

A worth-while Reputation

The head of one of this country's great manufacturing institutions says:

"The Man who builds and the man who buys are both beneficiaries of reputation. To the one it is a continuous spur and incentive--to the other, the strongest of all guarantees that what he buys is worthy."

Patronize the manufacturer or merchant who has a reputation for honesty and fair dealing. Such motives must actuate the consistent advertiser. The man who invests real money in building a reputation for himself and his merchandise cannot afford to risk any of it by taking unfair advantage of his customers. He must retain the good-will of the buying public. Without this, his business cannot succeed

Every time he advertises he puts his reputation in your hands. His products or the wares he has for sale must make good. His service must be as advertised.

That is why it pays to read advertisements, to deal with advertisers and to buy advertised goods.

And Babies Like It

While we have never particularly recommended Pacific Milk as a baby's food, we have close to fifty letters from mothers who say it has been the only milk they could find to agree with little ones. Some turned to it in desperation and one can imagine their joyous surprise to find a tiny baby growing stronger on it.
