BALDWIN SAYS FREE TRADE WITHIN EMPIRE

PREMIER JOHN OLIVER APPOINTS INDEPENDENT AUDITOR FOR THE P.G.E.

Free Trade Within the Empire Plan Outlined by Premier of Britain

MANGHESTER, Nov. 3.—Premier Baldwin in a speech here last night declared that drastic measures were necessary to solve England's problem of widespread unemployment. He had never been a doctrinaire economist and regarded the economic system as one of expediency rather than principle, "but the period of observation is past," he said. "I find myself here with my mind made up that if we are to attack the problem of unemployment, we must have recourse to radical and drastic action."

BARNACLES ARE TO BE REMOVED AT LOCAL DOCK

United States Lighthouse Tender Cedar Arriving Shortly For Overhaul

The United States lighthouse tender Cedar, Capt. Leadbetter, is coming here in about two weeks to enter the local dry dock for annual overhaul.

The Cedar has an extra lot of barnacles on her bottom this year. In fact, it is claimed by officers of the Cedar and northern marine men generally that the rapid growth of barnacles this year has been phenomenal. The extra dry weather this summer, it is believed, may have had something to do with it.

The Cedar returned to Ketchikan this week from the longest and most stormy cruise she ever made. The boat was out thirty days and visited among other points the Cape Spencer light which is in a very exposed situation and one that is difficult to approach.

MAN IS LOST OFF DOLPHIN

Anton Myren, Norwegian Fisherman, Lost His Life Yesterday Morning

Anton Myren, fisherman, aged 34, was lost off the Canadian halibut schooner Dolphin, Capt. Peter Byrne, yesterday morning at 7 o'clock while the boat was on its way to port from the fishing banks.

The accident occurred in Estevan Sound off the island of that name just south of here. Preparations were being made to put up the sail when the boat took a sudden lurch and Myren went overboard backwards. He sank almost immediately and, though a dory was launched immediately, he was not seen again. The boat waited in the vicinity for a time but without avail.

Myren was a native of Norway and is survived by a widow and three children resident in the Old Country. He was a member of the Deep Sea Fishermen's Union. He had been on the coast for some years fishing at first out of Seattle. He then went mining and only last June resumed fishing out of this port.

George A. McNicholl, C.N.R. general passenger agent at Vancouver is confined to his home suffering from a severe cold he contracted while on a trip to Montreal recently attending a meeting of the company's general passenger agents.

The ideal of Premier Baldwin is of one great Empire with free trade within its borders, so he declared in his speech. "We can reach that ideal," he said, "by binding the Empire together economically. By establishing preference throughout the Empire you are doing nothing against the principles of free trade but making free trade freer over a great area. That is what might be achieved by the commonwealth of British nations with their superior resources."

Developing the protectionist policy further, the Premier said the proposed putting a tax on manufactured goods, especially those imports causing the greatest amount of unemployment and to give a substantial preference to the Dominions but not to tax meat. He said he would never be satisfied until the Empire was absolutely independent of America in regard to cotton growing.

OFFICIALS ARRIVING TODAY WILL BE MET BY LOCAL COMMITTEE

R. Beaumont, superintendent of the C.G.M.M. at this port, received word this morning that R. B. Teakle, general manager of the C.G.M.M., was unavoidably detained in Vancouver but that on the steamer from the south arriving this afternoon would be D. O. Wood, traffic manager of the foreign freight department of the Canadian National system, W. A. Cunningham, traffic manager of the Canadian Government Merchant Marine, and Lorne McCutcheon, foreign freight agent of the Canadian National at Vancouver.

At the meeting of the board of trade last night a committee was appointed to meet Mr. Wood and to discuss with him matters of mutual interest connected with the trade of this port.

OFFICIAL FRANCE IS IN AGREEMENT WITH PREMIER POINCARE

PARIS, Nov. 3.—The French foreign office regards the limitations Premier Poincare in his various utterances has put upon the scope of the reparations committee by the proposed international committee of experts as strictly conformable with the Versailles treaty. France is unable to consent to any decrease in her liabilities.

C.N.R. steamer Prince John, Capt. Harry Nodden, bound from Vancouver to Prince Rupert via the Queen Charlotte Islands, was at Queen Charlotte City at 1.30 this afternoon. The vessel will not arrive here before early Monday morning and her time of departure from here south-bound is now set for Monday night. She has been encountering very heavy weather on this passage north.

During the visit of Lloyd George and his party in Toronto, they were entertained at Government House. From the left are seen Lieut.-Governor Cocksbutt, David Lloyd George, Mrs. Cocksbutt and Miss Megan Lloyd George are standing in the rear.

Hon. John Oliver Hurls Defiance at His Accusers and Announces Independent Auditors for P.G.E.

GOVERNOR NICHOL SUFFERING FROM PTOMAINE POISON

VICTORIA, Nov. 3.—It is announced that Lieut. Governor Nichol has been suffering from an attack of ptomaine poisoning. His condition is improving and he is expected to have entirely recovered within a few days.

Lieut. Governor Nicholl too Ill to Attend to Business Delays Introducing of Bills in the Legislature

VICTORIA, Nov. 3.—Hurling defiance at his accusers and declaring the charges made against him would, if true, send him to the penitentiary, Premier Oliver yesterday afternoon announced that the government had secured the services of the Price Waterhouse Company to make an audit of every dollar paid by the Pacific Great Eastern Railway to the Northern Construction Company.

"I dare and defy any man living to put a finger on any wrong doing of myself in the conduct of public affairs," said the premier. "It is regrettable that the affairs of the country should be delayed by false and malicious reports."

The Premier devoted most of his time to answering statements held over until the next sitting at made in the speeches of W. J. Bowser and R. H. Pooley. The bill of Canon Hinchcliffe to amend the elections act was given its first reading.

LLOYD GEORGE CHEERED AS HE LEAVES FOR HOME

NEW YORK, Nov. 3.—Lloyd George sailed for home today on the steamer Majestic. As he drove to the pier from the hotel he was cheered by thousands and at the wharf hundreds gathered to cheer and bid adieu to the British statesman.

Proud Grey Fleet of Britain Steamed in Review before all Premiers of British Dominions

PORTSMOUTH, Nov. 3.—The proud grey fleet of Great Britain that kept the seas clear for the allies and closed to the Germans during the war, assembled today at Spithead and steamed in review past the premiers of all the British dominions. It was the first muster of Britain's naval strength at Spithead since the memorable day in July, 1914, when King George watched the going to sea of the ships which some days later were at war. Not one of the mighty men of war which passed out of the historic roadstead that day had a place in the armada today. Only a few of the pre-war ships rode the waves today.

Tremendous Ovation to Lloyd George is Marred by Activity of Irish Republican Rioters

NEW YORK, Nov. 3.—Eight persons were arrested near the Metropolitan Theatre where Lloyd George was speaking last night when Irish republican sympathizers attempted to hold a mass meeting on the street. The police fought a hand to hand battle with a large group. Many carried signs bearing pictures of De Valera and phrases attacking Lloyd George.

Mounted police charged the crowd, driving them back, placing one group, including some women, under arrest. The police later thwarted further attempts of republicans to disturb Lloyd George after he had retired for the night. They threw a cordon about his hotel and dispersed a band attempting to march through the street and another band which attempted a demonstration near the hotel.

Making his last speech before sailing for home, the ex-premier was accorded a tremendous ovation by a huge crowd. Many were turned away but thousands listened to the address over the radio in their homes.

Lloyd George declared he had advocated ruthless prosecution of the war and he now urged ruthless prosecution of peace. He reiterated the support of the Hughes proposal for determining Germany's capacity to pay.

WAS DROWNED AT ABERDEEN

Murdoch McLeod of this City Probably Victim of Foul Play in South

PIONEER OF RUPERT

Left Recently to go to California But Got No Further Than Washington

VANCOUVER, Nov. 3.—The Vancouver police have established the identity of a man drowned at Aberdeen, Washington, on Thursday, as Murdoch McLeod, miner and prospector of Prince Rupert and well known to all mining men in British Columbia. A brother Angus lives at Alice Arm. There is no clue as to how McLeod met his death but it is thought that he was a victim of foul play. He left Vancouver a week ago.

The late Murdoch McLeod was a well known pioneer of this city and in the early days engaged on G.T.P. Railway construction. Of latter year had been prospecting at and other mining districts north coast. He owned house in the city. The body of Murdoch McLeod, aged 17, a year's daughter, was found in the water with limbs horribly mutilated.

An Indian named Joe Blackhorse, alias "Two Stab" disappeared from the nearby reservation with his squaw and family about the same time and is being sought as the murderer. Mounted police, provincial police and Lethbridge city police are searching everywhere and the farmers of the neighborhood are carrying guns.

LABOR MEETS GOVERNMENT

Urges Eight Months to Apply Iron Exchange this Labor's Offer fairly high, the being made:

VICTORIA, American

ish Colored 2,000 pounds, to Al- Trades and at 19c and 11.5. Canada 180,000, and Augusta, provincial gov't and 11.5c, to the proposed 1c.

applicable to each at 18.9c and duty in the provinces.

In addition to the 1000, at 18.1c day, unemployment heres, was urged and a bi 18.1c and compulsory medical c of all persons engaged preparation of food for ad 10c, consumption was asked. Large

The executive further the abolition of the poll tax.

SEPARATISTS ARE ACTIVE

Move is Being Made to Control Bavarian Palatinate—Town is Entered

BERLIN, Nov. 5.—Separatists have begun a movement to control the Bavarian palatinate. A large band entered Kaiserletten last night and attacked the Town Hall. They were repulsed but later occupied one of the government buildings and a newspaper office at an early hour this morning. French soldiers are clearing the streets.

RENALTO KNOCKED OUT FLOYD JOHNSON

Was Winner of Fight at New York Last Night in Fifteenth Round

NEW YORK, Nov. 3.—Jack Renault, Canadian aspirant for heavyweight honors, knocked out Floyd Johnson of Iowa last night in the fifteenth and last round of a furious battle. Johnson's seconds tossed the towel into the ring as he arose from taking the count of nine and staggered about helpless after a terrific bombardment.

LIED INTOXICANT TO GIRL UNDER AGE

OTTAWA, Nov. 5.—Pleading guilty to supplying an intoxicant to a girl under 21 years of age, Ed. Lillevand of Seattle was fined \$75 in the city police court.

Seeing Things Which Are Not There.

Archbishop DuVernet says that by concentration we can visualize things which do not exist. In small places people are always trying to read into things spoken or written, meanings which are not there. It is a village state of mind. It smacks of instability and of littleness and is something to be avoided.

In conversation people often say things which must not be taken seriously. Often the tone of voice or inflection indicates the meaning which is to be taken from an expression.

In small places where people are shut in on themselves and have little contact with the outside world, there is a tendency to become morbid. That is why it is desirable to enjoy innocent amusements. The person who does not take exercise or who does not play games is very apt to get the wrong slant on things and to be looking for insults. A depressing atmosphere and lack of proper exhilarating movement is responsible for many of the ill humors which are prevalent throughout the country.

Neighbors Quarrel in Small Places.

Those who have travelled through this country will have noticed that in the small places the neighbors are often not on speaking terms with each other. If they speak they quarrel. What might otherwise be a perfectly happy community is broken by discord and no such thing as communal action is possible. It is largely a result of isolation and brooding on ills instead of rubbing shoulders with others, keeping the spirits up by taking enlivening exercise and trying to be cheerful at all times. All humor is the curse of the villages in British Columbia and especially on the coast where the atmosphere is apt to be rather depressing. People who give way to this depression eventually land up at the lunatic asylum unless they happen to save the province the trouble of caring for them and commit suicide.

Living Alone is Bad For Health.

Living alone is bad for the health. In the big sheep country of the United States the shepherds go crazy by hundreds. In the solitudes of the far north there is a similar tendency. The men who work on the fishing boats find it desirable on visiting port to enjoy with their fellows the short hours of their stay ashore. This is a tonic that keeps them sane and healthy. To live alone, especially a sedentary life, is most enervating and leads to morbidity and the tendency to see insults where they never were intended. Man is not a solitary animal, he is a social being and needs play as well as work.

NERVE FOOD

Dr. Chase's Nerve Food, Toronto.

Open Letter to Hon. W. J. Bowser and R. H. Pooley

Sirs—In the local press I see that Mr. Pooley made the statement in the House that I had fled to New Brunswick to evade exposure in regard to the sale of liquor in Prince Rupert.

When you two gentlemen were on the public platform in Prince Rupert, Mr. Bowser paid considerable attention to myself and endeavored to plant in the minds of people that I was some disreputable character with whom the Oliver government was in league.

I wish to take this opportunity of advising you that your repeated attempts to place me in a bad light with the public have at last reached a point where I feel justified in offering a protest to the continuous stream of falsehood.

I am carrying on a reputable exporting liquor business in conformity with the laws of the province of British Columbia and I have never asked or received any special consideration at the hands of the provincial government.

In your endeavor to cast discredit on the Oliver government you have access to all that is fair and legitimate but I most emphatically protest against the unfair and false statements you have made in connection with myself.

I did not flee to New Brunswick. I was never there in my life, neither did I flee to any other place. I never had to flee and never expect to have to run from any man.

My reputation is just as good as the reputation either one of you possess and my family ties are just as dear to me as they are to any citizen, and I will defend the good name of my personal business, my integrity and my citizenship whenever it is attacked in the despicable way in which you have done.

I ask you to seek some other game than myself as I consider my name and reputation to be equally as good as either or both of you.

STEEL COMPANY BEING OPPOSED

Victoria Sends on Report to Local Board of Trade Outlining Scheme

WONDERFUL FINANCING

Committee Dealing with Matter is Non-Political and Members Prominent

At the monthly meeting of the Board of Trade held in the council chamber last evening, a letter was read from George J. Warren, managing director of the Victoria chamber of commerce stating that the chamber was unanimously opposed to the proposal to commit the province to an expenditure of nearly five million dollars to assist in promoting an iron and steel industry in this province. Two reports dealing with the matter were submitted, prepared by a committee appointed for the purpose and quite non-political in its make-up. The members of the committee who signed the report were F. A. Pauline, speaker of the Legislature; J. Hinchcliffe, M.P.P.; M. B. Jackson, M.P.P.; Joseph B. Clearhue, M.P.P.; R. H. Pooley, M.P.P.; C. P. W. Schwengers, president of the chamber; R. P. Matheson, R. R. Neild, C. P. Hill, G. B. Mitchell, M. P. Blair, and Edwin Tom Lin.

The first report was submitted in August and at that time it was proposed that the bonds be guaranteed by the Dominion and provincial Governments as to one third each and the Imperial Government to guarantee one third making in all \$12,000,000, the Imperial guarantee to have precedence of the others.

Plans Change

This was supplemented by another report on October 19, showing that the original plans of the company had been changed as follows:

The proposed cost of the industry is to be \$12,000,000, the entire funds for which are to be provided by bond issue up to 100 per cent of its cost. \$4,000,000 of this is to be provided by the Provincial Government; \$4,000,000 by the British Ironmasters, whose status we understand is that of suppliers of the machinery and equipment for the plant conditional upon the machinery and equipment being purchased in Great Britain. In addition it is proposed to issue a further sum of \$3,000,000 worth of debentures over and above the twelve million dollars subscribed by the respective governments as above mentioned.

"The Coast Range Steel Co. is capitalized from fifteen million dollars of common stock which Mr. Landahl states he is prepared to put in the hands of the provincial government. Under ordinary conditions this stock would of course control the operation of the company but in view of the fact that the provincial and imperial authorities would be providing all the funds proposed to be expended, this common stock has no value and should in no way control the operation of the company. No Protection "In the case of failure, the property would pass into the hands of the bond holders and our provincial government would hold a minority interest only. There would be nothing to prevent the majority bond holders in Great Britain disposing of this plant in such a case under conditions disastrous to this province, unless our provincial government were prepared to purchase a large portion of the bonds held by the majority holders.

"We submit that however, faulty and ill-advised in the interests of this province the financial structure may be it is entirely subsidiary to the major factor of raw materials, cost of production and market available." The report then goes on to show that the estimate of cost of production and the market available are both faulty and the committee advises against the proposal. The report was submitted to the mining and trade and commerce committees of the local board for report.

REFUND SYSTEM OF TAXING GASOLINE NOT SUITABLE HERE

Board of Trade Passes a Resolution Objecting to It and Suggesting Another Method

At the monthly meeting of the Board of Trade last evening, E. C. Gibbons presiding, John Dybhavn introduced a resolution objecting to the refund in connection with the proposed gasoline tax. This resolution was passed pending final draughting by the committee.

In discussing it Mr. Dybhavn said the Dominion government in collecting the sales tax was willing to take the affidavit of the master of the vessel taken by a customs officer. A refund system, under which tax would have to be paid and then refunded later, would be cumbersome here, where crews of vessels were often leaving and where they had to make prompt settlements on the share basis. It would prove a hardship to the fishermen if this system were adopted. F. G. Dawson moved, seconded by Theo. Collart that the resolution covering this as presented should be adopted, subject to final revision by a committee.

ASSOCIATED BOARDS OF TRADE CONVENTION

Varied Subjects to be Discussed This Month in Vancouver

At the meeting of the Board of Trade last night a letter from W. L. Malkin, president of the Associated boards of trade of British Columbia, was read giving a list of subjects which among others would be discussed at the convention to be held in Vancouver, November 15, 16 and 17. They include enforcing of anti-dumping legislation, curtailing public expenditure, superannuation of school teachers, taxing revenue producing trucks and autos, technical education, direct taxation in support of hospitals, urging dealers to handle B.C. fruit, interprovincial highway, P.G.E. Railway, freight tariffs bureau and freight rates.

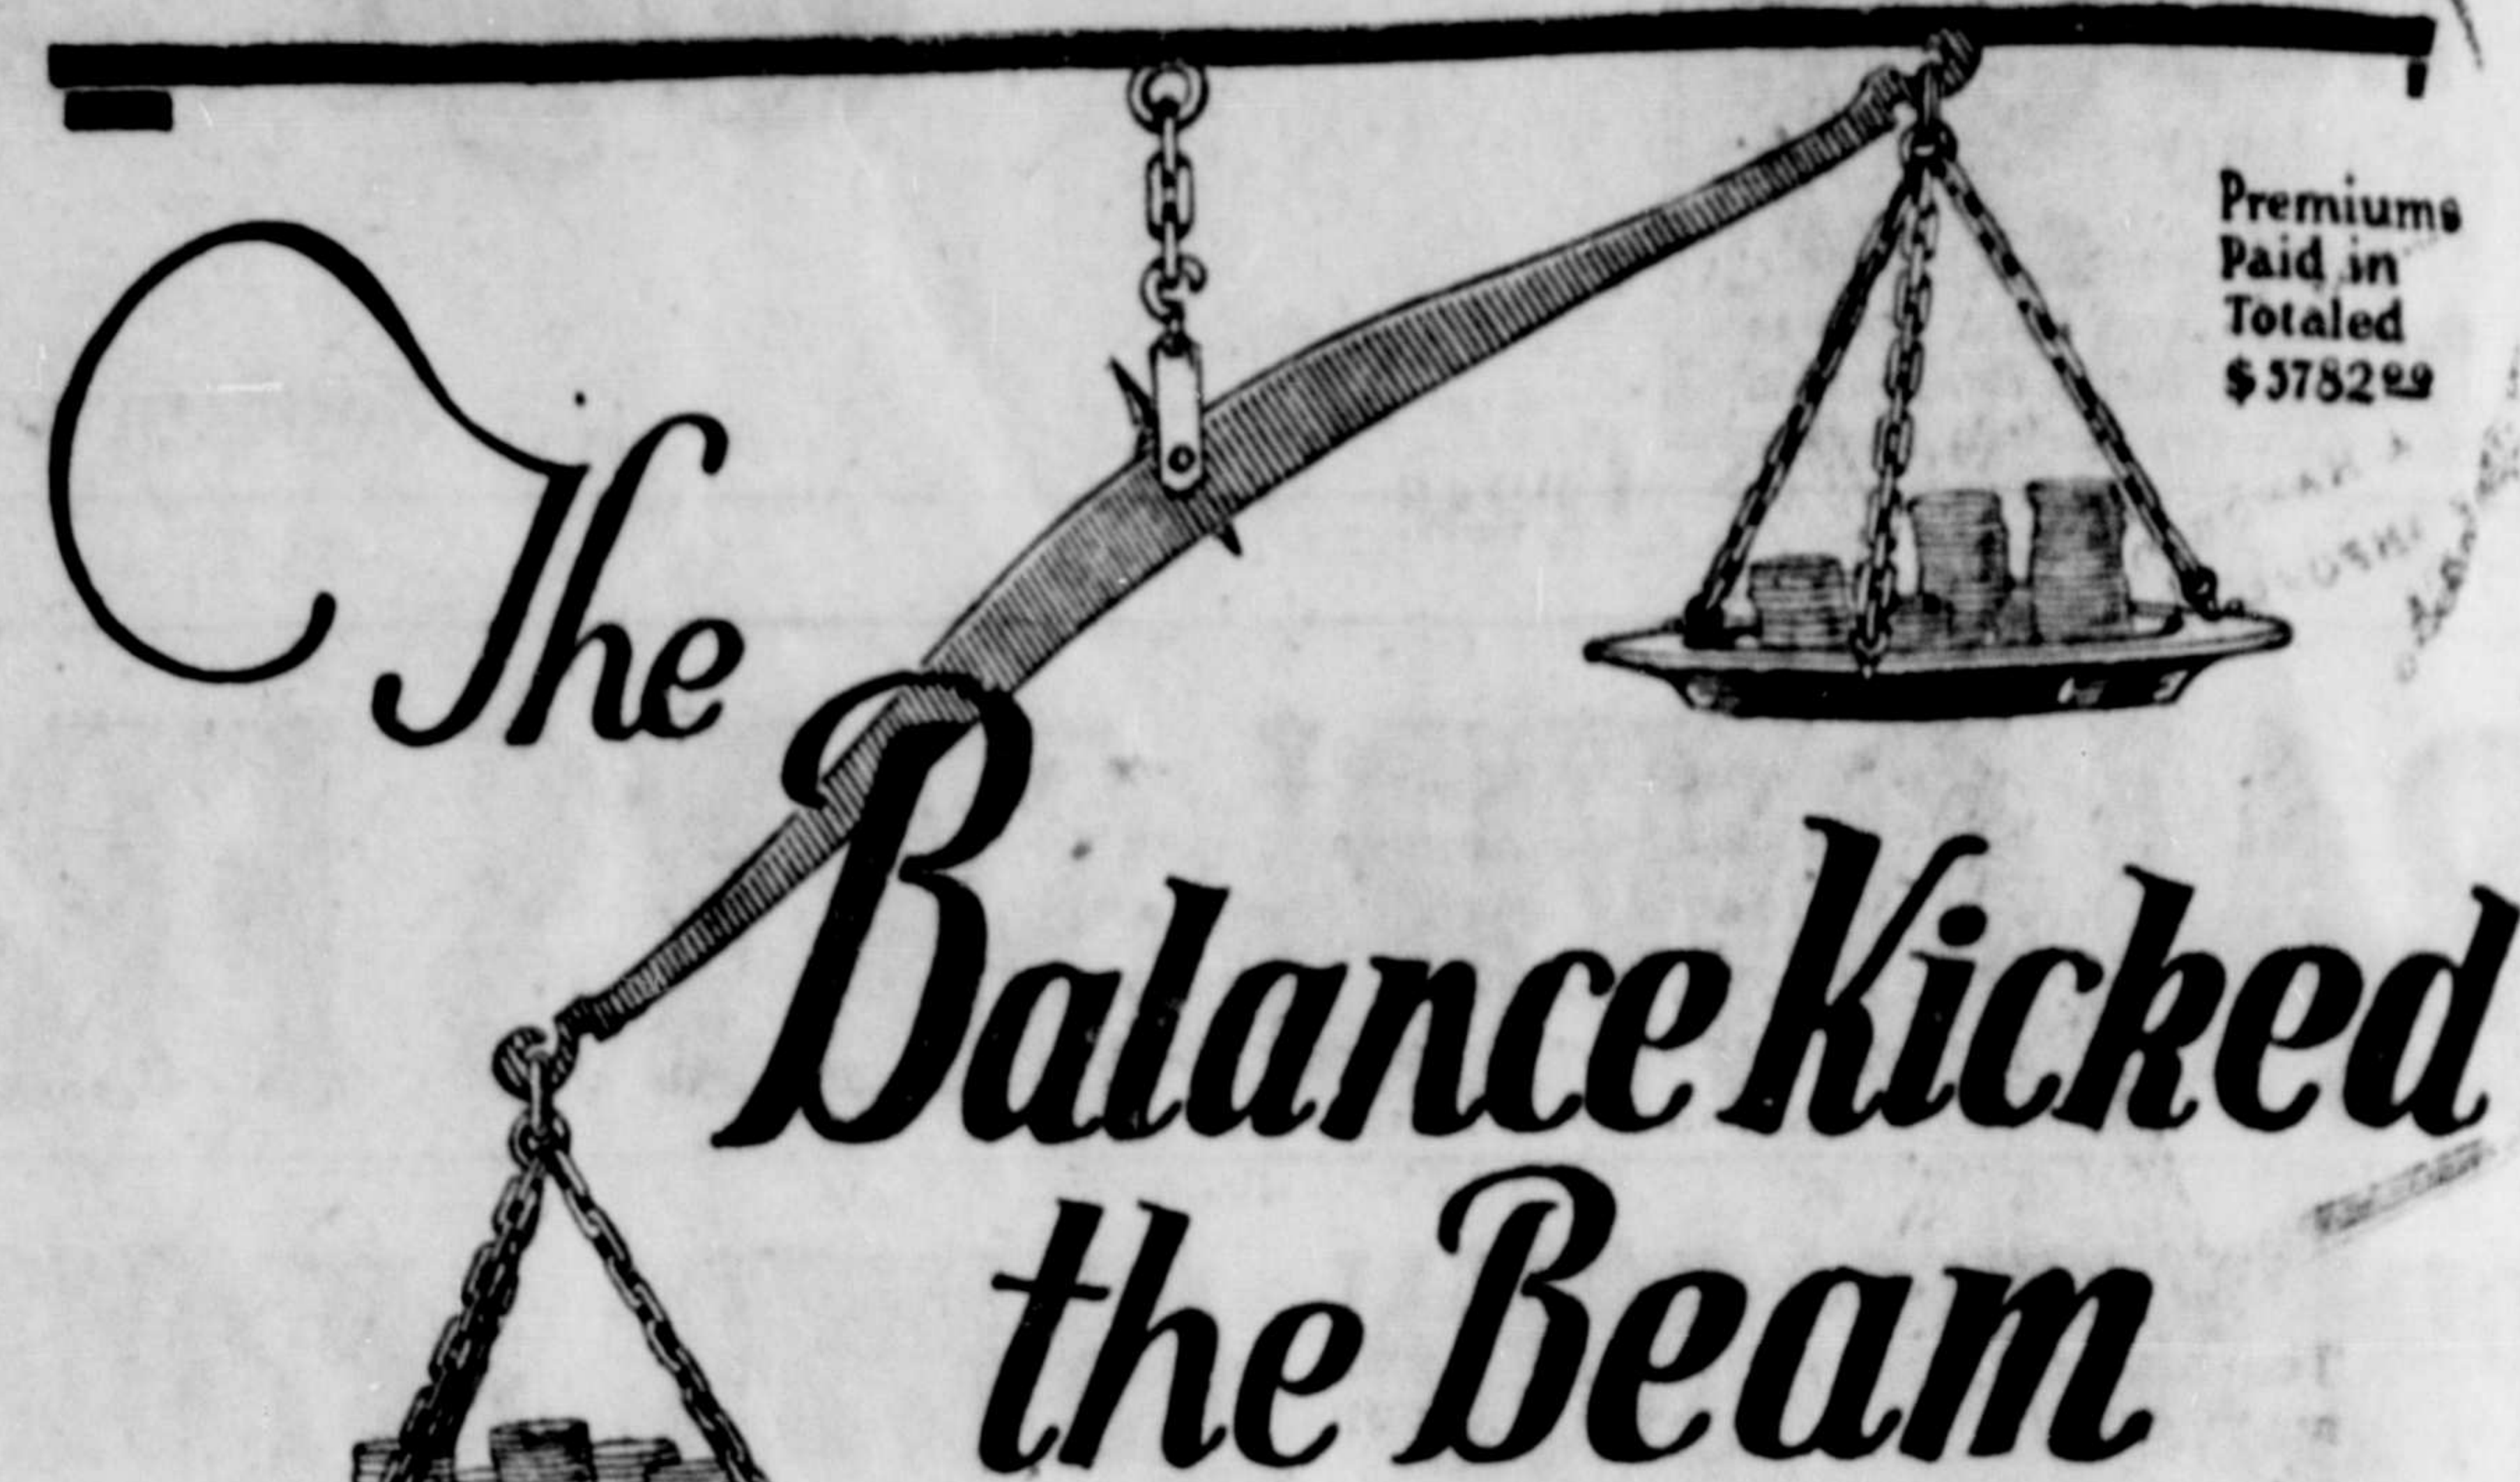

Union steamer Venture, Capt. A. Johnstone, southbound from Naas River ports to Vancouver, was in port from 9.30 to 10.30 this morning.

Stomach Sufferers

Mutual Life Assurance means insurance at net cost. To profit-participating policyholders, it means a very low cost because Mutual Life profits reduce the amount of money that must be paid in by the policyholders as premiums. Company Paid \$6923.22

Here is a case, based on a \$10,000, twenty-payment life policy, taken out in 1903 when the policyholder was 35 years of age. At the end of the twenty-year period, he decided to accept the cash value of his policy. He accordingly surrendered the policy and received a cheque from the Mutual Life of Canada for \$6,923-\$1,141 more than he paid in.

In the 20 years during which the policy had been in force he had paid in as premiums a total of \$5,782. That is to say, he received all the money back that he had paid in, and \$1,141 besides.

He had enjoyed \$10,000 of insurance protection during all these 20 years, the most active period of his business life, and in the final analysis, Mutual Insurance cost him nothing and paid him interest on his money.

If, instead of accepting the cash surrender value of his policy, this policyholder had decided to continue his insurance beyond twenty years, no further premiums would have been required and he would have received a dividend cheque for his profits annually. In addition to this, the cash value of the insurance would have continued to increase, so that the average annual cost of the insurance over the whole period would be counterbalanced more completely every year.

May we not furnish you with particulars of this splendid policy plan applicable to your present age? Simply fill out the coupon attached hereto, and mail to

THE MUTUAL LIFE of Canada: Waterloo Ontario

Please send me detailed information as to the Mutual Life System of Insurance at Cost, particularly concerning the plan of policy I have specified below. Name Address Policy Plan Post Office Age

"VICKS IS BEST FOR CROUP"

Convincing Testimony From Saskatchewan Mother

Mrs. W. W. Berkey, of Drinkwater, Sask., says: "Vicks VapoRub is the best medicine for croup that I have ever used. Our small boy, two years old, had a very sore throat with every indication of croup. I rubbed Vicks VapoRub on his throat, before he went to bed, and the next morning he was as well as ever. I would not be without this valuable remedy."

If the child seems croupy, apply Vicks over throat and chest at bedtime. It usually averts a night attack. In severe cases heat a tin cup, drop in a teaspoonful of Vicks and, as it melts, hold the cup so vapors can be inhaled.

Vicks comes as a salve—the external direct treatment for all cold troubles—absorbed like a liniment and inhaled as a vapor.

Vicks is the ideal treatment for children's cold troubles; it avoids so much internal dosing. Just as good, too, for grown-ups' colds and for cuts, burns, bruises, sores, stings and skin itchings.

At all drug stores, 50c a jar. For a free test-size package, write Vicks Chemical Co., 344 St. Paul St., W., Montreal, P.Q.

Though Vicks is new in Canada it has a remarkable sale in the States. Over 17 million jars used yearly.

CANADIAN VOLUNTEER ARRIVES IN PORT TO UNDERGO DRYDOCKING

C.G.M.M. steamer Canadian Volunteer, Capt. Edgecombe, of the Ocean Falls-California paper carrying service arrived in port this morning at 3 o'clock to enter the Canadian National dry dock for general overhaul and repairs following a recent stranding in the south. She anchored in the stream until 8 this morning when she tied up at the shipyard pier. She will go up on the pontoons on Monday and will be here for the best part of next week, it is expected.

EMPLOYMENT SITUATION DISTRICT SATISFACTORY

Twenty Loggers Wanted For Buckley Bay and Ten Tie Cutters For Telkwa

The employment situation in the district at the present time is satisfactory and, with a good deal of industry going on for the next few months, should continue so throughout the winter.

This morning 15 or 20 looking for jobs were registered at the Provincial Labor Bureau. Twenty loggers are wanted to go to Buckley Bay Monday night and ten tie cutters are wanted by Jack McNeill of Telkwa.

Joseph Howe of Howe & McNully is sailing by the Prince Rupert tomorrow night for Vancouver enroute to San Francisco on a combined business and pleasure trip.

At the meeting of the Board of Trade last night the committee on prices of distillate and gasoline reported that the charge to fishermen here now was 15 1/2 cents which was a reasonable price.

Give Him a Signet Ring

It is pretty hard to get any man's ring which will give better service or be more suitable at a moderate price than a signet.

We have solid gold signet rings in different patterns from \$5.00 to \$15.00. The lower priced rings are 10K gold and the better ones are 14K.

With the initials engraved on they look well and add a personal touch to a gift.

Bulger & Cameron Limited Jewellers.

BRINGING UP FATHER

ALDER TO BE P. R. DELEGATE

Will Represent This City Supporting Northern Highway Route at Convention

At the meeting of the board of trade last night it was decided on motion of H. F. Pullen, seconded by F. G. Dawson, to instruct the delegate at the board of trade convention to support the Fraser Canyon Highway for the southern trans-provincial road as against the Hope-Princeton route. The board of trade has voluminous correspondence in regard to the rival routes but it was felt that not only was the Fraser River route more likely to benefit northern British Columbia but that in every respect it was the better route to follow, being open longer each year, passing through a better country and serving the needs of the province as a whole much better than the route over the Hope Mountains.

The resolution was carried and a copy will be forwarded to W. J. Alder along with the necessary authority to represent the board at the convention, November 16 and 17. Mr. Alder will also present resolutions pressing for the construction of the Skeena River highway and other matters of interest to this district. In a letter to the board he signified his readiness to act on their behalf.

THIS is the way we choose a mayor: We look around for a genius rare. We find a man with a record lean—No beginning or end and nothing between. We set him up and a vote is taken; We elect him before the voters waken. And during the year we peddle hot air. That's democracy's method of choosing a mayor.

JAKE says he has just heard that it is a stigma to be a Conservative. I don't believe it.

agree. Stomach trouble always causes a grumpy disposition.

Sport Chat

Under the caption "International Rugby Prospects," the Ottawa Citizen continues to boost the English style of rugby for adoption in Canada. "There does not seem to be any immediate likelihood of Canada's hold on the world's hockey championship being seriously challenged. Canadian hockey players would be the first to welcome challengers from any other country," says the editorial, which continues: "In the other nations under the British flag, however, young players have no such opportunity for learning the wonderful winter game on the ice as they have in Canada. It is probable that Canada would still hold the championship for lacrosse, too, but for the element of roughness that so detracted from the pleasure of the game that it finally deprived this country of the lead in the truly Canadian outdoor game.

Rugby football, as played in Great Britain, is the game that is also played in every other British country excepting Canada. Because Canadian schools have been led to follow the American style of Rugby, Canada is unable to participate on an equal footing with Australia, New Zealand or South Africa in the great international tours that are made by the rugby football teams within the league of British nations. It is stated that the New Zealanders intend to tour Great Britain again next year. In the four they made in 1915 they were beaten only once, when Wales furnished an international team that won their game against the New Zealanders. The Springboks of South Africa similarly made a victorious tour of the British Isles. Canada has the men who could win similar renown for Canadian football, but until the Canadian Universities and colleges become inspired with the broader vision of playing the game as it is played elsewhere in the British Commonwealth, nobody outside of this country knows that Canada is a football players' country—as a young man's country should be.

The Rugby Union game would attract a great following in Canada. Perhaps as the public interest grows in such efforts as are being made in Ottawa, Montreal and other Canadian cities to promote the game, universities like Toronto, McGill and Queens, and the B.M.C. at Kingston, may be inspired to adopt the British game, so that visiting teams from the other nations in the Commonwealth, as well as from the Mother Country, would find men worthy of their steel, in

Canada. Before many years Canada promises to be in the first rank among the Association football countries. The youngsters are taking up Soccer with enthusiasm. They would go in for the Rugby Union game with just as much enthusiasm, given the opportunity.

British Columbia long ago adopted the Rugby Union rules and today in most of the cities of the province there are rugby teams. The game cannot well be played in Prince Rupert, as there is no ground here suitable. Turf is necessary where there are scrimmages and where tackling is the rule.

Doings of the Mosquito Fleet which is the chief source of Prince Rupert's prosperity

Had weather and a scarcity of fish in local waters has been responsible for light halibut landings this week, according to the Admiral of the Mosquito fleet. Halibut arrivals started off well on Monday when a total of 231,000 pounds was marketed on the Fish Exchange. Consequently upon the increased supply prices took a downward stride. However, the weather clerk interfered with the calculations of the nauticals on the deep sea fishing grounds somewhat early in the week with the result that halibut arrivals dropped, though prices jumped a few points on the exchange. As is usual in the fall a number of the Canadian schooners have been laid up for the winter while others are undergoing a winter overhaul. A number of skippers have taken advantage of the lull in fishing activities to avail themselves of a little hunting recreation in company with friends. During the week several parties have been out after the wild birds and the quadrants and have met with considerable success. Pöcher Island and the country around Gardner Canal and Douglas Channel seem to have been the favorite places for the purely personal artillery experiments. The Canadian schooners N.M.R., Capt. Peter Forvik and Bethune, Capt. J. Bradbury, returned to port during the week from prolonged hunting excursions down the coast. One or two of the smaller boats have left port recently for unknown destinations on trapping bent for the winter season. The N. M. McLean shipyard are well occupied. A new school schooner is in course of building for the Doreen brothers while Capt. Crowell's boat the William M. is to be taken up the bay immediately for overhaul.

Naval Architect Here

The waterfront now boasts a naval architect in the person of P. Tellefsen, of Christiania, Norway, who has already prepared several original boat plans for N. M. McLean. Mr. Tellefsen has faith in the possibilities of Prince Rupert as a boat building centre and comes here after a wide experience in his line, having studied naval architecture in Norway, Sweden, France, Germany, England and Scotland. Among a number of plans already prepared by Mr. Tellefsen is an original one for a small coastal cruiser. The plan is drawn for a boat 23 feet long with a 6 ft. 3 in. beam and a draught of 3 ft. 4 in. fitted with 18-horse power Karmath engine giving a speed of 8 knots. A very fraction of an inch of space is utilized in the construction and the accommodation provides a cabin containing two sleeping berths, kitchen, dining room and lavatory while a collapsible canopy in the rear provides good observation. Mr. Tellefsen is devoting much time to the planning of fishing and

work boats and has drawn up several useful looking plans in this class.

Narbethong Out

The launch Narbethong, skipper Hoopes K. Freeman, took Dr. J. P. Cade over to Metlakatla on Wednesday evening to attend a patient suffering from ptomaine poisoning. This well known craft is to be shortly re-painted and overhauled.

The freighter Gunner, of Victoria, arrived in port on Thursday morning with 175 tons of cement for the Albert McCaffery interest, over one hundred tons of this shipment has left for the Terrace bridge site. The steamer Prince John is also due to arrive with 150 barrels of lime for local use.

Eleanor Looks Slick

The good ship Eleanor Mac has been put into fine shape by Capt. Dass. The exterior has a lustre like a million dollar automobile while the spotless interior would put a modern fried fish shop to shame. The secret service is much exercised about the activities in question and doubtless Eleanor will be closely watched by the sleuths of the fleet.

Jud Thurber Away

Capt. Jud Thurber, of Muirneag fame, left on the C.P.R. boat yesterday afternoon for Vancouver en route to Freeport, N.S., where he will visit his mother for several weeks. It had been Cap's intention to get away in time for the International fishing schooner race but his secretary got the dates mixed and so quered the fun. It is rumored that Cap will bring back a new secretary, a gentleman with several year's experience as book-keeper to an organ grinder.

Fish Business

During the week 431,900 lbs. of halibut has been marketed on the Fish Exchange. Americans were high at 16.6c and 10c, and low at 14.1c and 9c. Canadians were high at 14.7c and 10.5c, and low at 13c and 9c. Arrivals were: Pioneer, Vahsee, Sitka, Grayling, Reliance, Livingstone, Hippo, Toodie, Torberg, W. and F., Tordenskjold, Venus, Norma, Wave, Johanna, Hamaco, Plop, Fannie F., Reliance No. 1, Sadie K., Thelma, Bingo, Alliance, Mermaid, Kaien, Fisher, Cape Spear, Imperieuse, Minnie V., Valorous, Daly, Yakatla, Verna.

Gay Life Too Much

Skipper H. E. Poole, mayor of Butedale and manager of the Butedale cold storage plant, who recently came to town to take in the big city stuff, has been indisposed for the past few days with a touch of flu. It was considered in nautical circles, upon the arrival of the skipper, that the gay city life would in all probability prove too much for

one so fragile, especially after a sojourn at Butedale where the only untoward noise is the messages coming in on the wireless set. However, after careful nursing the invalid is able to put his walking out gloves on again and it is expected he will return to the wheel at Butedale over the week end.

Deer Shot Itself

When Jim Bacon, managing director of the P. R. Fish Market, tells a story it is a foregone conclusion that it's a true one. Jim recently returned from a big game hunt—he had a big game at hunting—aboard the Bethune and from the smile the old face wore it was plain to be seen that something unusual had happened. It was either a rich uncle had died and left him the grandfather clock or the hunting trip had been a marked success. Upon enquiry it was found that the latter assumption was correct. Jim said the hunt was sure a marked success for it had left its marks all over his body. Upon going into details of the nine day wonders enacted in the wilds of the coast Jim told the following story and it is given in his own words so that there will be no come back. Said Jim: "Yes, sir, we sure had a great time and I wouldn't have missed it for a pound of second hand sausages. And say, I saw one of the strangest sights a man ever saw. I actually saw a deer shoot itself. It happened this way. I had got away from the main party as, being the best shot, they were all following me around and claiming the fruits of my wonderful shooting. Having hit everything I shot at in the way of feathered game I decided to give the birds a rest and a chance to go on laying some eggs for next season. Up to this time I had not shot a deer and was very anxious to get one so I sat down under a tree laying my big game rifle at a handy distance all primed for action. I suppose I had tired myself out on the hike and feeling drowsy, fell asleep. Suddenly I was awakened by something coming through the bush, and opening my eyes, as I could never see very well with them closed, I discerned a big buck coming toward me, in fact it was so close that I could feel its eyesight. I was afraid to grab the rifle as it may have scared the deer away so I sat as still as possible hoping that it would take me for a stump. However, it didn't pass by but started in to nibble the grass around my feet. At this stage I would have kicked its brains out but foolishly I had removed my boots when sitting down and did not feel capable of carrying this scheme out in my stocken feet. At this particular moment the deer took the muzzle of the rifle in its mouth. The barrel being painted green as a sort of camouflage it evidently mistook it for a blade of grass. A twig catching the trigger exploded the gun as the deer tugged at it with fatal results. That was the first animal I ever saw commit suicide and I consider it was entirely due to the fact that I had had the sense to paint the gun green." The story is told as a tip to other hunters, and there will undoubtedly be a big run on the green paint stocks in the city.

Fish Day Success

National Fish Day on Wednesday last was a great success. The fish banquet held in the St. Regis Cafe at 1 o'clock, under the

Run No Risks

when symptoms of indigestion occur. Act quickly before these become obstinate.

How much does it mean to you to keep your wife young?

Who hasn't met old women of 25, and young women of 40? It isn't years alone that age—any physician will tell you that undue expenditure of physical and mental energy will make the young old at 30.

More and more men are coming to appreciate that if for no other reason than that of health, it is inadvisable to permit this work by women.

And there's really no need for it—we can do the whole washing for the family, at a cost that's most moderate—less, in fact, than it costs to call in a laundress.

It is such things as washing that soonest wear women out—handing of heavy clothes; stooping and lifting; working in cold water, and then hot; wet feet; trotting in and out from a warm, steamy room, to a cold outdoors.

Call us and have us tell all about this more modern wash-way.

Canadian Steam Laundry Phone 8

"Send it to the Laundry"

Treasure Brought In

Capt. Chris Henriksen, of the Canadian halibut schooner Alliance No. 1, arrived in port early in the week with quite a few useful looking nautical appliances which he had salvaged from the wrecked motor ship Kennebecott. Among the salvaged articles were electric batteries, compasses, toilet fixtures, etc. These have been placed in storage.

Second Round—Crib

In the second round of the waterfront crib tournament for a Thanksgiving turkey the following were the results: Capt. Crowell beat G. A. Woodland; H. Menzies beat Harry Lipsett; W. G. Hughes, beat P. Lorenzen; Steve Carter beat Doc Clapperton. Several games to complete the round are yet to be played.

Canine Arrested

The waterfront was thrown into a state of great excitement on Thursday morning when the local pound keeper pounced upon an unsuspecting dog for being improperly dressed. The news soon spread that the waterfront was minus a dog and every dog owner began to whistle and call for his pet to make sure that the necessary check was firmly attached to its collar. The whistling became so intense that the bay took on a stormy swell and several of the fishing schooners alongside the dock were compelled to pull out into mid stream for safety.

Exciting Voyage

Colonel W. J. H. Holmes and two colleagues, made an exciting voyage from Lockport, Q.C.T., early in the week in a 23 ft. boat. While coming across Hecate Straits the engine broke down and the party was forced to rely upon a small squat sail. In this manner they sailed for two days. To make matters worse they ran out of fresh water and had to resort to catching rain water for drinking purposes. However, they made port in safety none the worse for these untoward happenings. The party had been spending some time on the islands on business and were bound for Rupert to make steamer connection and left on the Princess Mary last night for Victoria.

KETCHIKAN GRAND JURY ON POLICE

Urge That There be Co-operation Between Civic and Federal Authorities

The recent report of the Ketchikan grand jury just to hand says: The District Attorney has made it plain to this Grand Jury that his office is maintained here not to usurp the duties and powers delegated by law, to our City Government, but to co-operate and assist in law enforcement as he realizes the effectiveness of good team work. In this connection, we deem it the duty of this body, to call attention of the Ketchikan City Council to the fact that notwithstanding, there

is an ordinance prohibiting the maintenance of frosted windows, screens, partitions and other methods to obstruct the view in places where soft drinks are sold, no attention seems to be paid to its observance, which of itself constitutes quite a handicap to the enforcement of the anti-gambling laws of the officials.

Policing of City

The attention of this Grand Jury has been called to the inadequate policing of the city owing to the scope necessarily covered. It is impossible for three men covering a period of twenty-four hours to properly police the town. The chief of police should be provided with some means of conveyance for purposes of investigation and to make immediate response to calls and in the opinion of this Grand Jury two additional policemen should be added to the force.

We further recommend that the policemen be made truant officers, whose duties shall be to see that all children of school age be in school during school hours unless satisfactory reasons can be given.

We further recommend that the Curfew ordinance be enforced.

SWEDE PRINCE MARRIES RICH ENGLISH GIRL

Daughter of Prince Louis of Battenburg Became Bride in London Today

LONDON, Nov. 3.—Before the ancient altar of the little Chapel Royal in St. James' Palace, where many a king and queen has been wedded since the days of Henry VIII., Crown Prince Gustave Adolph of Sweden took as his second bride this afternoon Lady Louise Mountbatten, niece of the reigning British sovereign.
Lady Louise is a sister of Lord Louis Mountbatten who last year married Miss Edwina Ashley, said to be one of the richest women in England. Lord Louis and his bride spent part of their honeymoon in the United States.

It was an eventful wooing which led to the wedding in the Chapel Royal of St. James' Palace. Scarcely had the news of Gustaf Adolf's engagement been announced when it was reported that certain authorities in Sweden opposed the marriage on the ground that Lady Louise was not of sufficiently high rank to marry the crown prince. Then, while the genealogical experts were settling this question in favor of the bride-to-be, came the startling news that the press of foreign lands was broadcasting the tale that Lady Louise had changed her mind about becoming a crown princess anyway, and was going to marry an obscure English painter of modest income. But as the summer passed by these rumors were gradually discredited by the fact that Lady Louise and the Swedish Crown Prince were often seen together in England and France.

Bride's Father
Lady Louise's father was Prince Louis of Battenberg, later known as the Marquis of Milford-Haven. The Battenburg family has sprung from Germany by way of Austria, where

the title of prince was bestowed, and because of strained feeling in England during the war the name was anglicized to Mountbatten. Lady Louise, who is about 35 years old, is a typical aristocratic Englishwoman, gracious, generous, alert, fond of dancing and outdoor sport, and gifted with genuine charm. She will captivate Sweden as she did the officers and sailors of the Swedish squadron visiting British waters when she came aboard the flagship escorted by the crown prince.

The Swedish Crown Prince, whose full name is Oscar Fredrik Wilhelm Olaf Gustaf Adolf, has been married before, his first wife having died some three years ago. Crown Princess Margaret, daughter of the Duke of Connaught and princess of Great Britain and Ireland, had borne Gustaf Adolf five children, and her death was a great bereavement to the Swedish people.

41 Years Old
Gustaf Adolf is now 41 years of age, more than six feet tall, as are all the men of the Swedish royal family, and vigorous as an athlete. Indeed he is the possessor of the "athletic medal" awarded only for high proficiency in at least five different branches of sport in Sweden. This is perhaps not strange, nor is it strange that he is a military leader, and that he should have commanded one of his country's armies in the field manoeuvres which ended only two weeks before the wedding. But it may surprise many that the Swedish crown prince is also a serious archaeologist, with several expeditions to his credit. Last year he spent nearly two months personally directing the excavation of the buried Greek town of Assine, and unearthed many precious relics that shed light on the civilization of 3,000 years ago. He is, moreover, a collector of paintings, especially of the work of modern artists, such as Anders Zorn and Carl Larsson. Gustaf Adolf is very democratic and, consequently, popular with the masses in Sweden. His political aims and principles, like those of his father, are sound and constructive.

The wedding in London was attended by both King George of England and King Gustaf of Sweden. The couple will spend their honeymoon in Italy.

FISH ARRIVALS

Five Canadian halibut boats marketed catches totalling 22,000 pounds at the Fish Exchange this morning. There were no Canadian arrivals.
