# TEN LIVES LOST WHEN SCHOONER WRECKED

## ANOTHER COAL CRISIS IN BRITAIN IS EXPECTED EARLY IN THE NEW YEAR

### Ten Lost When Steam Schooner Goes Ashore at Coos Bay off Coast of Oregon: 14 are Saved

MARSHFIELD, Ore., Dec. 17.—Steam schooner G. A. Smith, lumber laden, struck a submerged rock north of the jetty at the entrance to Coos Bay Harbor yesterday and is a total loss.

Nine members of the crew lost their lives when the life-boat capsized as it was being lowered into the water. Efforts to rescue eight men who are still believed to be aboard the vessel had not been successful at an early hour this morning. Big seas were breaking over the schooner from both sides and it had been impossible to reach her. The rescue of the men is problematic.

The vessel was driven from the channel on to the rocks by heavy seas which continued to pound her heavily throughout the night. Capt. T. Blomberg commanded the ship.

#### Later Report

MARSHFIELD, Oregon, Dec. 17.—Seven men who clung last night to the wreck of the steam schooner G. A. Smith which piled up on the north jetty of Coos Bay on Sunday, put off in one of the ship's boats early today and were picked up by the tug Oregon.

The men got away from the wreck while the life saving crew in the steam schooner Gleone was preparing to shoot lines aboard the G. A. Smith.

Seven men were rescued yesterday by the life saving crew and ten men are believed to have been lost when they attempted to leave the wreck in a lifeboat.

The schooner carried a crew of 24.

### SECRETARY TO HOME BANK PRESIDENT ON BAIL DIED YESTERDAY

TORONTO, Dec. 17.—Thomas O'Connor, secretary to H. J. Daly, president of the defunct Home Bank, who was held on \$30,000 bail as a material witness for the crown in the prosecution of the directors, and officials on the suspended institution, died this morning from uremic poisoning.

### MOTOR CAR BADLY DAMAGED: DRIVER ESCAPES INJURIES

Miggins Taxi Co.'s big red McLaughlin car, driven by Tommy Ryan, went over the plant roadway on Fourth Avenue at a bad turn just east of Archbishop Du Vernet's residence at 9 o'clock this morning. The car landed in the mud and stumps with its four wheels up and the driver underneath.

The Archbishop, whose attention was drawn, immediately proceeded to the scene to render any help that might be necessary. He called to the driver who failed to respond at first but who eventually crawled out from under. Though he was dazed for a while, Ryan apparently sustained no serious injuries.

#### ENGLISH LORD DIES

LONDON, Dec. 17.—Lord Willoughby de Broke, died here yesterday aged 55.

### STANIER LOSES APPEAL

Effort to Upset Judgment of Judge Young is Dismissed by Appeal Court

Walter Gale, court registrar, has received word from Victoria that the appeal in the case of Rex versus Stanier has been dismissed by the court of appeal sitting in that city.

The appeal was one against the judgment of Judge Young in the County Court in which Stanier was convicted of shooting at Inspector Ackland of the Mounted Police. G. W. Craig, K.C., appeared for the Crown and Stuart Henderson for the appellant.

### CAMPAIGN FOR PROHIBITION

Rev. W. H. Pierce Addresses Meetings in City Telling of Liquor Effect on Indians

OTTAWA, Dec. 17.—The condition of Hon. W. S. Fielding, minister of finance, is reported today as a little better. Sunday his condition was reported as less favorable.

Mr. Pierce feels very keenly on the liquor situation at this time. Government control, he claims, has made great inroads on the Indian people and bootleggers have done much harm among them. The condition now is worse than it was when prohibition was in effect. To the fact that natives have been supplied with liquor and were drunk at the time, Mr. Pierce traces many deaths and drownings that have occurred among the natives recently. It was this discovery that actuated him in embarking on his present campaign.

Mr. Pierce has already visited Bella Bella, China Hat, Port Essington and Port Simpson in the course of his campaign. He is returning tonight to Port Essington for the Christmas season and after the New Year will continue his mission up the Skeena River.

### BRIDGE AND DANCE AT CANNERY CLOSING

TOW HILL, Dec. 17.—A most enjoyable evening was spent at the Tow Hill Clam Cannery at the close of the cannery season. The chief entertainment was bridge and dancing, music for which was provided by Herbert Bradley's gramophone. Delicious refreshments were provided by Mrs. Cyril Harrison and Mrs. Frank Ward, and served at eleven o'clock by Miss Bradley. The evening seemed all too short to the merrymakers, and it was with genuine regret that good-byes were said at two a.m. and the guests were driven to their respective homes in the company's car.

### Another Coal Crisis in Britain is Expected Early in Year when Vote on Agreement Termination

LONDON, Dec. 17.—The country expects another coal crisis early in the New Year.

The Miners' Federation has already announced that it has ordered a ballot to be taken among the miners as to the advisability of terminating the existing wage agreement.

The miners invariably vote according to the desire of the federation and the federation in this case advise them to vote for termination of the agreement with a view to revision of the scale.

If the vote favors termination, three months' notice will be given and the interim will be spent in preliminary negotiations.

### Railway Immigration Policy is Fully Outlined by Dr. Black Small Group System Proposed

WINNIPEG, Dec. 17.—An important and definite policy of immigration and colonization has been decided upon by the Canadian National Railways department of colonization and immigration following conferences held at general headquarters at Montreal, it was stated by Dr. W. J. Black, of the department, formerly deputy minister of immigration for Canada, who spent the week-end in Winnipeg. The meetings in Montreal, which were presided over by W. D. Robb, vice-president in charge of this department, were attended by officers from all parts of the system.

The policy is announced, which follows closely the general scheme as outlined by Mr. Robb some months ago, provides for bringing to Canada suitable settlers, and also for the selection of these settlers from the standpoint of adaptability and for the protection of their interests after their arrival in this country. In this latter particular the assistance of the soldier settlement field service of the federal government is to be requested. Attention has also been given to the need of development colonization with the youth of Great Britain and a clear organization is to be developed, it is stated, with a view to placing boys and girls of from 15 to 18 in comfortable homes in the Dominion where they will learn agricultural methods for themselves.

In the re-organization of the staff of the Canadian National Railways system by Sir Henry Thornton, among other things there was assigned to W. D. Robb, the work of reaching a definite policy on colonization and development of natural resources. From that time Mr. Robb has been devoting his energies to gathering together an organization to care for this feature of organization, it being completed a short time ago by the appointment as manager of colonization and immigration in London of Dr. W. J. Black. Mr. Black spent some weeks in great Britain making a preliminary survey and the conferences at Montreal were held on his return to Canada.

#### Policy Outline

At the Montreal conferences the following policy was decided upon for 1924:

1. To influence the immigration and satisfactory settlement in Canada of the largest possible number of people of productive capacity that the country can absorb and assimilate.

2. To contribute to the dissemination of information concerning the vast and extensive resources of the Dominion and the widespread opportunities for industrial development so that capital may be attracted from other countries and invested where enterprise will be legitimately rewarded.

3. To promote the land settlement of new Canadians under conditions that will ensure the maximum possibility of success in their farming operations, and enable them to enjoy such social and religious institutions as are necessary to individual happiness and contentment.

4. To encourage improvement in agriculture that more diversified methods may be used in farming, and that crop, live stock and dairy production may be increased in accordance with market demand and prospects.

5. To assist by organized effort in the immigration of Mackenzie young people of desirable type and character especially from Great Britain and in their placement in respectable rural homes.

### MASSETT CAMPS CLOSING DOWN

Log Supply is Ahead of Mill Consumption—Southern Camps Still Running

Because the log supply is now way ahead of the mill consumption, two of the Massett Timber Co.'s logging camps on Massett Inlet have been closed, it was reported by the steamer Prince John this morning. The camps will remain closed for a month or so and, in the meantime, the services of 100 or so men have been dispensed with. Some of these reached the city today and others will proceed to logging camps further south on the Islands.

Both of the T. A. Kelly logging camps at Cumshewa are still running and the Whalen Pulp & Paper Co. still keeps one going at Thurston Harbor.

### ROUND UP OF BANK ROBBERS

Six Men and Two Women Arrested Including Girl of Eighteen

REGINA, Dec. 17.—Six men and two women arrested in Montana and Utah conclude the roundup of bank robbers organized to terrorize towns along the Canadian-American border in the Saskatchewan and Montana district. One of their number, Arthur Davis, was leader of the boldest bank robberies in the western states.

A girl of eighteen was included in the arrests. Small towns were their specialty.

### COMMITTEE WOULD DIVIDE OMINECA

Make Two Constituencies Instead of One Large One is Latest Move

Judging from reports in the southern newspapers, the redistribution committee of the Legislature, which is revising the bill recently introduced by Premier Oliver, has decided to cut Omineca riding into two, calling the one adjoining Prince Rupert, Skeena and the eastern part, Omineca. This is not definitely settled but the reports say the committee think it would be better to split the proposed riding into two.

It has been decided to recommend that Princess Royal Island be included in Prince Rupert.

S. V. Ardagh, New Hazelton civil engineer, sailed for Vancouver on the Prince Rupert last night.

## Banking and Trade Conditions Exhaustively Reviewed at Bank of Montreal Meeting

**Hopeful Note on Canadian Business Situation—An Explanation of Why Banking Profits Have Decreased—Revision of Bank Act Discussed.**

The addresses presented at the its earning power so constant annual meeting of shareholders that "I have no misgivings as to the Bank of Montreal by the maintenance of substantial President, Sir Vincent Meredith profits." Bart, and the General Manager, Sir Frederick Williams-Taylor, were of the general comprehensive character which always features the remarks of those gentlemen in discussing the economic and financial conditions which prevail throughout Canada as having improved during the fiscal year of the Bank.

They were unanimous in the opinion that Canada has a great deal to be thankful for in having come through a year of perplexities in the banking field and unsettled conditions abroad, as well as she did. With regard to business conditions and the outlook for the future there was a hopeful note, but it was pointed out special features of the industrial that no broad forward movement situation, and added, "When could be expected until such time the European field is surveyed, as conditions in Europe became indeed a cause for congratulation more settled. The various events that Canada has held up so of the year affecting banking well."

He then referred to some of the conditions such as the revision of the Bank Act, the burdens of taxation, the uneven state of referred to the immigration problem and the losses sustained by him as it is now being handled some of the banks, necessitating by the Federal authorities, which readjustments of their balance, gives rise to the hope that the were reviewed at considerable length.

**Strong Position of Bank**

The strong position of the city of moderating public taxation of Montreal, indicated by him, owing to the fact that the recent statement for the fiscal year, was pointed to with considerable satisfaction by both cumulation of taxation which regards enterprise and discourages thrift.

Sir Vincent, in his remarks, referred to the many perplexities of the Dominion's foreign policy, which confronted the banks during the year, and to the fact that tendency towards expansion in the lessened profits were due to that connection, despite the three principal causes. One was organized state of European markets, the Bank's customers leaned kets.

**Question of Inflation**

Sir Vincent attributed the reason that in view of the late prosperity of business in possibility of untoward development in the United States and Canada in the banking world, its the last couple of years as both cash resources should be kept a cause and effect of the greater exceptionally strong to enable it stability of prices.

He went on to discuss business to lend aid, if and when called upon to do so. There was also the conditions in the United States incidence of heavier taxation, but and Europe, and closed his address. Sir Vincent remarked that the dress with reference to the business Bank's resources are so large and ness outlook in Canada. In that

### NAAS RIVER

Jack McCabe of Smithers was a recent visitor in the Naas valley coming in and returning by way of Terrace over the Kitsum- kum trail. He was surprised to see the corn, tobacco and tomatoes grown in the valley and said they could not be produced around Smithers. While coming over the trail, Mr. McCabe met a big silver tip bear but the finely furred animal made his getaway before Mac was able to shoot him.

Mrs. E. Langdon, Kingston, Ont., writes: "My baby boy had bronchitis when he was two weeks old, he recovered from the attack but took it again, several months later, and on account of the severity I was almost panic-stricken to know what to do for him. My mother advised me to try Dr. Wood's Norway Pine Syrup, as she had used it for several years with splendid results.

I got a bottle, and after I had used it could see a decided improvement in him; after several bottles he was completely relieved.

My boy is now two years old, and he has never had an attack of bronchitis since.

As a mother, raising a family, I am very grateful to know that I have found a real remedy for bad colds and bronchitis, as it lifts care and anxiety from an anxious mother's shoulders."

Dr. Wood's Norway Pine Syrup is 35c a bottle; the large family size one; put up only by the T. Milburn Co., Limited, Toronto, Ont.

Telephone poles, logs and driftwood passed out of the inlets, from the deposits along the shore, which had accumulated during recent years. Burden; treasurer, C. W. Perry; executive, W. P. Ogilvie, A. E. Sibley, H. A. Carney, R. W. Alward, F. P. Burden and Miss Mary Cunningham.

W. P. Ogilvie, P. J. Moran and R. W. Alward will be candidates at the forthcoming mayoralty election.

Provincial government offices were moved last week into their new headquarters, formerly the Alexandra Hotel.

The city council has decided to send Mayor Johnson to Victoria to press for an early completion of the road to Giscome.

F. P. Burden has left for Revelstoke and Nelson on a combined business and holiday trip.

W. Lockyer and Miss Eva Bennett were married last week by Rev. S. Pollinger.

A recent fall of snow is welcomed by tie-makers of the district as it will allow for transportation to commence at an early date.

**Sport Chat**

The Sons of Canada and Colts, meeting again tonight in the Senior Basketball League, should provide another interesting and well contested game for enthusiastic fans. So far the Canucks have not sustained defeat this season but the Colts have run them so close in the games where the two have so far met that tonight's result may be considered in no wise a matter of certainty. The Colts need this game on the victory side for them if the Sons are to be prevented from getting a rather early cinch on season's honors. The Adanacs and Teachers in the Ladies' League should put up an interesting match. High School and Grotto meet in the Intermediate League.

Scoring totals to date in the Senior League: W. Mitchell (Colts), 85; A. Lane (Teachers), 46; J. Mitchell (Teachers), 44; Harry Menzies (Sons of Canada), 43; E. Smith (Colts), 36; D. The baseball teams of the Keio and Waseda universities in Japan are to resume inter-varisty matches after an interval of ten years. The rivalry was keen between these two institutions of learning on the baseball field that free fights were too frequent to please the university authorities who ordered the games to be abandoned. This restriction, however, has now been removed.

Bermuda's annual amateur gold championship tournament will start January 14 at Hamilton, Bermuda. Bobby Jones, American open champion, Francis Ouimet of Boston, and Jess Sweetser of New York are among the expected American entrants. Several Canadian golfers will also participate. ## KENTUCKY DERBY TO BE SEEN HERE TODAY

The Kentucky Derby is a story of adventure on land and sea. It is filled with appealing romance, big moments, and breath-taking situations. The main plot of the story deals with a situation in which the son of one of the proudest southern families gamely battles against a crushing fate to save the honor of his family and regain the high position wrested from him by treachery.

There is a big horse race, scenes at sea and naturally there is the girl.

## TERRIFIC STORM FELT ON ISLANDS

Prince John Arrives This Morning — Southeaster Gave Islands Quite a Dusting up Last Wednesday

After being chased all the way up the coast by terrific south-east gales which made very dirty going of it and caused a delay of 19 hours at Allison Harbor, C.N.R. steamer Prince John, Capt. Neil McLean, made port this morning at 2.30 o'clock from Vancouver and the Queen Charlotte Islands. She had 103 passengers for this port, forty of them connecting for the south with the steamer Prince Rupert, which awaited the arrival of the John and sailed for the south shortly after 3 o'clock. The John will sail on her return south at 8 o'clock this evening.

According to officers of the Prince John, the Queen Charlotte Islands experienced high south-east gale last Wednesday and old time residents said the storm was the worst in the history of the Islands. The blow penetrated even into the longest inlets and 20 miles up Gunnshwa Arm a float was blown 300 feet up on shore. The damage, generally speaking, was not serious, however.

PRINCE RUPERT GIRL  
REPRESENTS COLLEGE  
AT WORLD CONFERENCE

Miss Ruth Rix Chosen by Macdonald Hall, Guelph, to go to Indianapolis This Month

Archdeacon and Mrs. Rix have received word from their daughter, Miss Ruth Rix, who is a student at Macdonald Hall, Guelph, Ontario, that she has been chosen to represent the college at the World Conference of the Student's Christian Movement at Indianapolis from Dec. 28 to Jan. 2. As there are 150 students in residence besides those living outside, the honor done Miss Rix in choosing her is a marked one. Last year she was chosen as representative on the governing council of the institution.

Local people will be pleased to hear that once more a Prince Rupert girl is taking a prominent part in the life of an institution such as that at Guelph. She is taking the normal course in household economics.

where they may become qualified to participate in constructive activities and acquire citizenship of distinct value to Canada.

6. To aid in the development of new opportunities for service and to facilitate every effective means of selecting immigrants physically fit and anxious to work.

7. To co-operate with the Federal and Provincial governments and business organizations throughout the Dominion in promoting all measures calculated to contribute toward an increase in adaptable people and in their settlement under the most favorable conditions possible.

### General Policy

The statement of policy issued following the Montreal conference continues: "In preparing to supply these principles in practice, the national system has decided to provide a system of guidance known as the Canadian National Railways Colonization Service. This service will commence to function in the country of origin. It will not cease to function until the settler is properly located in Canada. It will arrange for proper reception in Canada and accord the necessary advice and guidance in locating the new citizen in a group of people live in contiguous and suitable and satisfactory manner, bearing in mind the welfare of the individual and the interest of Canada.

"With this service is linked a policy of group settlement on unimproved lands along its railway lines. As a result of careful investigations which have been conducted to determine the conditions under which desirable people, suitable for country life, may be induced to come to Canada. It is shown conclusively that there is no possibility of securing any number of families

if they are to be obliged to settle without assurance of such social and religious institutions as are possible only where a group of people live in contiguity.

### Small Colonies

Having in mind the well-known and established objections to settlement of people of the same race in large colonies it has been decided to limit the size of each group to twenty families on approximately 160 acres each, this will provide a community sufficiently large to overcome the disadvantage of serial isolation, and at the same time small enough to be influenced from without, insofar as the adoption of Canadian methods of living and working are concerned. When it becomes evident that the unit group is adaptable, others can be placed adjacent to it.

resources may be conserved and their energies so directed as to be most effective.

In securing settlers in Great Britain and other countries a system of selecting will be employed and only those physically fit and willing to work will be eligible.

### Boys and Girls

"It has been arranged also to open a boys and girls branch in connection with the overseas office in London. Investigations, which have been carried on, show that in Canada there are thousands of fine rural homes anxious to have a reliable and respectable boy fifteen to eighteen years of age. In Great Britain especially there are

more than 200,000 boys of these ages leaving secondary schools every year, who have no work in prospect and no future assured.

It will be the aim of the colonization and development department of the Canadian National Railways to place as many as possible of the best of these in Canada under a system of inspection now being carried on by the juvenile branch of the Federal Department of Immigration.

"Other plans, at present in the course of preparation, calculated to put fully into effect the principles of the policy as outlined, will be announced from time to time as they reach maturity."

## BUCKLEY MINSTRELS GIVE ENTERTAINMENT

Jim Goss, Derrick Engineer  
Breaks His Leg; Two Births  
at Mill Town

BUCKLEY BAY, Dec. 17.—On Saturday, December 8, the Buckley Bay Minstrels gave their first entertainment. It was indeed a great surprise to everyone to see such a fine show put on by local talent. The hall was packed to overflowing and the continued applause of the audience and the dazzling footlights on the stage presented a spectacle second to none in amateur theatricals.

The members of the troupe were J. McD. Grosart, A. V. Cottle, F. Timmis, A. W. Burnip, J. Hastie, C. B. Srigley, P. Horel, J. H. Thomas, S. J. Van Valkenburg, George Andry.

Jim Goss, the derrick engineer at Buckley Bay, had the misfortune to break his leg while at work in the mill yesterday. On arrival at the hospital it was found that the leg was broken in two places between the ankle and the knee.

A son was born to Mr. and Mrs. L. Howe and a son to Mr. and Mrs. W. G. Mitchell.

Mrs. R. A. Renwick and daughters of Prince George passed through the city last night bound for Victoria where they will spend the holiday season.

## MANSON URGES PUNISHMENT OF THOSE GUILTY

Lash Advocated by Attorney  
General as Fitting Crime if  
Possible

If the Mounted Police officers are guilty of trafficking in drugs and inducing young girls to use them they should be sent to jail for a term of fifteen to twenty years and, if possible, lashed. With this blunt warning, Hon. A. M. Manson, Attorney General, made public sensational evidence against the police which Commissioner J. P. Smith, K.C., investigating the drug case, refused to hear, according to the report given in the Victoria Times. Mr. Manson announced that so far as he was concerned the enquiry had come to an end and added that he hoped the Federal government would appoint a new commissioner to conduct a real drug enquiry, clear the police or bring out evidence which would send them to the penitentiary. The present commissioner, he declared, seemed to hold a brief for the police officers whose conduct he was investigating.

Mr. Manson read to the Legislature a sworn statement about the Mounted Police officers' conduct, made by J. J. Wing, a Chinaman sentenced to seven years in the penitentiary for drug trafficking. It was this statement, which Mr. Smith refused to hear.

### Refused to Call Witness

"When that evidence was tendered and a copy given to the commissioner he refused to hear it and refused to call Wing," carry on the investigation in a Mr. Manson declared. This, the thorough-going fashion that will either clear the reputation of the climax of the commissioner's those officers or bring out evidence to handle the investigation. Mr. Harrison, he announced, had suggested that it was very little use for him to go to fifteen to twenty-five years appear before the commissioner further under the circumstances. Mr. Harrison, he stated, had just

telephoned him that he had finally retired. Mr. Manson added that Mr. Harrison's action had been quite proper.

"I don't know what the outcome of this will be," Mr. Manson declared, "but I want to say here and now that it will be extremely regrettable if Ottawa doesn't see to it that some other commissioner is appointed to the duty of looking after a traffic far more pernicious than the liquor traffic, which ruins more lives particularly the lives of young women, than liquor ever did."

### Wants to be Fair

Mr. Manson declared that it was very difficult to get evidence in drug cases. He felt that Mr. Harrison had been very fair and had not endeavored to convict any innocent man.

"I instructed him to be fair to the force, which I said had an enviable reputation in Canada," he added, "but if there were culprits they must be found out. I was in Vancouver a few days before the Wing case was expected to come up and when in the ministerial room of the courthouse found Mr. Dugald Donaghay in an impatient argument with Sgt. Mundy regarding the witness Anderton.

"Mundy said he did not know Anderton would be required as a witness," continued Hon. Mr. Manson. "Mr. Donaghay called Mr. Cruickshank, of the provincial police, who said Mundy did know that Anderton would be needed. Then Mundy admitted this. Anderton had been sent out of the province. Donaghay said Mundy must produce Anderton or face a warrant for spiriting a witness away, or some words to that effect. Then the Mounted Police got busy on the wires, effectively."

Mr. Manson's statement was greeted with warm applause from all sides of the House.
