BRITAIN HOLDS BACK FROM UNITED STATES

MEMBERS OF GRAIN COMMISSION ARE ARRIVING HERE THIS AFTERNOON

British Government is not Very Sympathetic to Co-operation in Regard to Rum Running to U.S.

WASHINGTON, Sept. 19.—The British reply to proposals for a reciprocal agreement on ship liquor and liquor smuggling received today was described by officials as "in general not sympathetic to the proposals."

The British Government plans, however, to present the question to the Imperial Conference which sits in London in October.

State department officials view the British communication as leaving open the possibility of negotiating a double barrelled treaty to curb rum running and also to facilitate liquor shipments in foreign bottoms. There is no attempt, however, to disguise the fact that the British Government note indicates general disapproval of the plan and raises objections against it.

BEER QUESTION IS DISCUSSED

Premier Oliver Says Talk About Plebiscite is Premature; All Speculation

UTTERLY MISINTERPRETED

No Plebiscite Could be Held Without Action of Legislature

VICTORIA, Sept. 19.—Premier Oliver denied today statements attributed to him in the morning papers to the effect that the Provincial Government was planning changes in the laws giving the right to sell beer in British Columbia.

"I have been misinterpreted," the premier declared. "There is absolutely nothing to be said about the beer situation at the present time. That question is in process of development. Talk about a plebiscite on beer is absolutely premature now. Nothing along this line could be done in any case until legislation allowing the holding of a plebiscite was passed."

"At the present time the talk about changes in the beer regulations is just speculation. Interviews attributed to me today put me in a false position. They utterly misinterpreted what I said."

PREMIER KING IS BUSY MAN

Only Two Days Left Before He Leaves for London—Cabinet Meeting This Afternoon

OTTAWA, Sept. 19.—With but two days left before the departure of Premier King for England where he will attend the Imperial Conference, work in the office of the prime minister is being speeded up as much as possible. At a meeting of the cabinet this afternoon it is expected that a number of matters which have been awaiting decision for some time will be disposed of. Several appointments are to be made but some of these will remain over until the Premier and his ministers return from London.

JAPANESE FUND FOR RELIEF IN NIPPON

VANCOUVER, Sept. 19.—Japanese in Canada have contributed \$102,000 for the Japanese disaster victims. The drive closes Thursday but before that time an additional \$12,000 is expected.

Legislative Library,
Parliament Buildings,

TRADE OF CANADA MUCH IMPROVED

\$160,000,000 Greater Than Last Year—Improvement Principally in Imports

OTTAWA, Sept. 19.—There was nearly \$160,000,000 increase in the total trade of Canada for the first five months of the current finance year. The improvement was largely in imports. The total trade for the period was \$785,000,000 as against \$626,000,000 in the same period a year ago.

PREMIERS OF FRANCE AND ENGLAND CONFER

PARIS, Sept. 19.—Premiers Poincare and Baldwin conferred here today and an official statement issued after the meeting read: "A meeting of the premiers of France and Great Britain took place this afternoon at which they took advantage of the opportunity to exchange views on the general political situation."

COUGHLANS TO BUILD BRIDGE

Steelwork to Cost \$125,000; Substructure to Cost \$40,000

(Special to Daily News)
VANCOUVER, Sept. 19.—John Couplan & Sons of this city have been awarded a \$125,000 contract for the construction of the large Provincial Government Highway bridge to span the Skeena River at Terrace. Couglans will build the fabrication and steel work for the spans. The contract for the substructure was awarded to E. M. Shockey and Olof Hanson of Prince Rupert, whose figure of \$40,000 was the lowest tender. Work will start immediately.

G.N.R. steamer Prince George, Capt. W. S. Morehouse, is due from Vancouver and way ports at 1 o'clock this afternoon, one hour late.

WHAT EASTERNER THINKS OF CITY FINANCIAL VIEW

A. H. Hale, president of the First National Bank, Manchester, New Hampshire, in a letter to Ald. M. M. Stephens of this city, states that he considers loans as safe here as anywhere in the world. His letter, which has to do with a matter of business, concludes: "I am pleased to note that everything looks so well in Prince Rupert. I do believe that it will some day be a rival of Seattle."

THE MAN YOU KNOW.

Frank Dibb, manager of the Rose, Gowan & Lathe Print Shop, although a very busy man, was able to act as secretary to the Fair Board and took an active interest in the work.

Grain Commission Will Meet to Hear Evidence Tomorrow Morning in Council Chamber

Members of the Royal Grain Inquiry Commission and their staff will arrive in the city from Vancouver on the Prince George this afternoon and the first session will open tomorrow in the city council chamber at 10.30. The Prince Rupert Board of Trade, under the auspices of which the sittings are being held here, requests that a large number of citizens turn out at the sessions so that the interest of the general public may be more fully expressed.

The special grain committee which has been preparing for the commission's visit here had a final meeting yesterday afternoon at which a memorandum for the commissioners was endorsed and a speech committee of 19 members appointed.

The memorandum sets out the natural advantages of Prince Rupert harbor as a grain shipping port, proof that grain can be shipped to advantage via Pacific ports, potentialities of grain growing possibilities in the hinterland and flour in the Orient, the fact that Prince Rupert was declared by Sir Henry Thornton, president of the Canadian National Railways, to be the logical place for a grain elevator, and the advantage to the Canadian National Railways of shipping grain through this port both through the fact that it may be delivered direct from rail to steamer and that it will have a tendency to enhance in value the extensive property holdings of the company at this port.

The following are the members of the committee which has been delegated to address the commission and otherwise uphold the case for Prince Rupert at the sessions: Mayor S. M. Newton, Fred Stork, M.P., Ald. Theo Collart, E. C. Gibbons, Ald. J. A. Smith, W. E. Williams, N. B. Walton, Capt. E. McCoskie, Reginald Beaumont, W. H. Tobey, S. E. Parker, J. H. Pillsbury, J. W. Nicholls, E. F. Doby, H. F. Pullen, M. P. McCaffery, S. J. McLeod, S. K. Campbell, and H. St. G. Lee.

The members of the commission arriving here today are Mr. Justice W. F. A. Targoon, Dr. D. A. McGibbon, Dr. W. J. Rutherford and James Guthrie Scott. They are accompanied by a party of some 15 persons including advisers, stenographers and reporters. They will stay at the Prince Rupert Hotel.

SWISS ARE ANXIOUS OPEN ALPINE RESORTS ALONG LINE OF G.T.P.

VICTORIA, Sept. 19.—Swiss interests are anxious to open a string of Alpine resorts in northern British Columbia along the line of the Grand Trunk Pacific Railway, the Government has been told by Dr. Hans Bernhard of Zurich, director of the Swiss Association of interior colonization and industrial agriculture and Fritz Beck, his associate.

Cleanup Campaign is to be Initiated by the City Police Money Needed for Purpose

The police commission has decided that the time has now arrived when a clean-up is necessary in the downtown section of the city. A campaign is to be directed against bawdy houses, disorderly and vagrant persons, liquor sellers and lawbreakers generally. At the regular monthly meeting of the commission yesterday afternoon it was decided to ask the civic finance committee for special funds with which to pursue this object. The two bodies will confer in special session on the question on Friday evening.

In bringing up the matter, Commissioner Shockey told of interviews he had had with the attorney general in Victoria recently. Mr. Manson had taken him to task for conditions reported to be prevailing in the city and had shown him two reports which were anything but pleasant reading but with which he had been compelled to at least partly agree. These reports had made mention of disorderly people living up town and drunkenness on the street, the latter item being one which he did not agree with altogether, however. The situation had reached such a point that, if the city failed to do anything, Mr. Manson would himself send special men up here and take the cost of sending them out of the city's share of liquor profits. Mr. Shockey had told Mr. Manson that one of his reports was probably by a man who was unfriendly to the city.

The second one, however, practically corroborated the other and it was by a man who was certainly not unfriendly to the city. "It is no use for anyone to run away with the idea that Mr. Manson is not informed down there," stated Commissioner Shockey. He surprised me with the things he knew about the town. Doubtless he had been receiving many complaints."

Mayor Newton felt that the attorney general had probably received complaints similar to those that had been submitted to the police commission and with which they had been trying to deal. The desire of the commission had not, however, been brought about. "Though I do feel disappointed that things should be as they are," said His Worship, "we must be fair to the police. The people had clamored for reductions and now there were less men than before. I pleaded with the police to tighten up generally but I am now satisfied that the situation is not being gripped. I have asked Mr. Jones to submit a report as to what we may legally do to remedy uptown conditions and he now has that report ready to submit."

FOREST FIRES BAD IN SOUTH

Berkeley, Calif., Sept. 19.—Underwriters estimate the damage from Monday's fire at \$3,000,000 exclusive of the personal damage which is worth probably another \$2,000,000. About 12,000 people are homeless in Berkeley. Reports from every part of California and Oregon indicate that forest fires are damaging property. Three villages have been completely destroyed and many people are homeless as a result.

Three people were killed when an automobile caught fire and two were killed in a timber fire in Oregon.

Valuable deer and quail and other game in the preserves in the Siskiyou National Parks were cremated and the park permanently damaged.

DECADE SHOWS B.C. PROGRESS

Population Both in Cities and in Country Increases—Land and Crops More Valuable

OTTAWA, Sept. 19.—The average size of farms in British Columbia in 1921 was between five and fifty acres. Seven per cent were under five acres.

The rural population of the province increased from 88,178 in 1911 to 277,020 in the year 1921. The town population increased from 90,179 to 247,562 in the same period.

The value of all farm property in the province increased from \$188,635,724 in 1911 to \$201,379,643 but in this connection the difference in price levels of the two periods has to be remembered.

The value of all field crops increased from \$7,246,018 in 1910 to \$12,424,544 in 1921.

'QUAKE IN BERMUDA

HAMILTON, Bermuda, Sept. 19.—An earthquake shock of sufficient force to make houses tremble was felt here last night. No damage is reported.

DAILY EDITION Wednesday, Sept. 19, 1923.

Where Will C.P.R. Reach The Pacific?

It does not seem to be at all certain by what route the C.P.R. will reach the Pacific Ocean. A few days ago F. H. Matheison, one of the men in charge of surveys from Peace River westward, was in the city and he gave it his opinion, based on the later surveys, that no route had yet been found equal to that by way of the Peace River, and the Findlay crossing the divide near the headwaters of the Skeena through the Groundhog and out on the Skeena River in the neighborhood of Skeena Crossing this side of Hazelton, with an alternative of continuing along to the Naas from the Groundhog and out by the Kitsumkalum River. In any case it looks as if the C.P.R. would want running rights over the Canadian National to this port if they came out by either of those routes.

According to Mr. Matheison the route he suggests is far superior to that coming out at any other point. The main arguments in favor of these routes is that they would tap the Groundhog coal fields, which will appeal to any railroad man. Coal and grain are the two commodities on which the railroads depend very largely for their income. The prairie can take a great deal of coal and much might be shipped away by water. The Pacific route for grain is becoming recognized as permanent. There is also the rapid transit route to the Orient to be considered. Even if the C.P.R. should take over the P.G.E., which is exceedingly problematic at present, it may wish to continue to the Groundhog coalfields and come out on the Pacific at some other point than Vancouver.

What Is Meaning Of Beatty's Visit?

Many people are inquiring what is the meaning of the visit of President Beatty of the C.P.R. just before the face of it, he is making a trip to Alaska to look into the possibilities of the development of business there and at the same time to take a holiday. It is also said, with some show of truth, that he is much more interested in seeing Prince Rupert Harbor and investigating conditions here than he is in anything he may see in Alaska.

The C.P.R. has on several occasions had investigations made in regard to the possibilities of the Port of Prince Rupert and it is only natural that President Beatty should wish to see the place for himself.

Welcome Extended To Big Railway Head.

While this so far is a Canadian National City and port, the people here are not in any way prejudiced against the C.P.R. and they welcomed President Beatty yesterday most heartily. We all recognize the good work the C.P.R. has done in developing Canada and we look for a continuance of that good work. There is nothing to be gained by hampering any railway. We want to co-operate with the C.P.R. The stock of that railway is held by thousands of citizens of the country and they are entitled to a fair return on their investment. The railway gives good service to its patrons and the more encouragement it gets the better service it can give. The fact that we do not agree over the western rates is a very minor matter.

We are glad to know that even the chief meteorologist was with us yesterday morning and that the railway head had good weather for his visit. He probably knows more about Prince Rupert and its prospects than we could tell him.

Realizes Trend Of Settlement Northward.

The C.P.R. is showing by its action that it realizes the trend of settlement is northward. To take part in that settlement work is its aim, judging by the active steps it is taking to push westward from the Peace River. The north holds great things in store, for it is a fertile country and very rich in mineral. The action of the C.P.R. in pushing into the northern country is full justification for the founders of the G.T.P. who stretched the hand of steel across the country with a terminus at Prince Rupert.

CENTRAL B.C. GETTING KNOWN

Exhibit at New Westminster Brings Advertising to Interior Sections of Country

Central British Columbia is getting some good advertising from the exhibit at New Westminster arranged by the local director, Fred Roberge. The Westminster Columbian speaks of the value of that advertising in an editorial article in which it mentions some individual case in which attention was drawn to the Central B.C. district. The article says: "This exhibit covers in a sense the country from Prince Rupert to Prince George, along the line of the Grand Trunk Pacific Railway. It is at the fair, not through the enterprise or assistance of either government but at the private expense of the people of the localities contributing the exhibits. They in turn were moved to this timely action by a suggestion from a director of our provincial exhibition, who on a recent visit to this so called northern country realized what a pleasant surprise it would be to the public of this part of the province to be shown just what this new hinterland can produce."

LIBRARY GETS 777 DOLLARS

Books Will be Purchased at Once for Use of Patrons; Workers are Thanked

At a meeting of the library board last night President Hacker in the chair, the librarian reported that the sum of \$777 had been collected as a result of the book drive and a number of volumes had been donated. As it was felt that the full thousand dollars was badly needed it was decided to keep the fund open for subscriptions until the regular meeting of the board two weeks hence. In the meantime the librarian was instructed to go ahead with the ordering of books.

A formal vote of thanks was passed to those who had aided in the work of collecting and also to the public who had donated. It was felt that good work had been done. It has been suggested that some people will wish to give teas or entertainments with a view to raising money now required. One such offer has been received and accepted.

POLICE WERE BUSY IN MONTH AUGUST

Fifty Arrests Were Made Resulting in 47 Convictions—Collections Totalled \$1,009.50

August was a busy month for the police force and magistrate according to the report of Chief Vickers submitted to the commission at the regular monthly meeting yesterday afternoon. Fifty arrests had been made resulting in 47 convictions. Intoxication charges constituted the heaviest item, there having been six cases under the government liquor act and 22 under the Indian Act. There were six cases of liquor in possession and six out of eight alleged suppliers had been convicted. Opium in possession cases had numbered two, both resulting in convictions. Collections totalled \$1,009.50 including \$66 for keep of provincial prisoners, the balance being fines. The payroll totalled \$802.50 and a list of accounts were passed for payment.

Exception was taken to accounts submitted by W. Cameron, Stewart Justice of the peace, and G. Dorcy, taxi man there. The former was for hotel expenses while in the city on a perjury case and the latter was for bringing a witness from the Premier mine to Stewart. The commission felt that it was not justified in paying the former and that the latter was excessive at \$20. In connection with the same case, in which the alleged perjury took place in the local county court while a provincial appeal was being tried, the commission decided to seek some recovery of the heavy expenses from the provincial government.

HUSBAND ARRESTED FORTY TIMES BY LONG TONGUED WIFE

Even Magistrate Unable to Restrain Woman Who Appears to Prosecute For Non-Support

MONTREAL, Sept. 19. — "How many times has your wife had you arrested during 25 years of wedded bliss?" Tom Coleman, 65 years of age, charged with non-support, was asked in court.

"I have a record that will beat that of any other man in Montreal," answered Coleman. "She had me arrested about 40 times—starting soon after we were married, and even when I was hurt and had to go around on crutches."

"It's a lie," shouted Mrs. Coleman, aged 60, from the well of the court. "Order, order," shout ed the court. But Mrs. Coleman was not to be stopped. In the witness box and out of it she kept up a running fire of questions, denunciation and comment of her husband, who had a denial ready for each accusation. She maintained in picturesque language that her husband was not telling the truth.

"Mrs. Coleman," interposed the judge, "you talk so much that I am astonished your husband was ever able to live with you at all. You won't let him give his evidence; you interrupt his lawyer, and I can hardly get in a word myself."

"Well, your honor," began the woman. "I will take the case under advisement and give judgment next week. He looks like a peaceful man."

"But you don't have to live with him," came back Mrs. Coleman, while the court rocked with laughter. A faint ripple of applause was heard.

The Man in the Moon SAYS:

THE age of discretion is a very brief one.

DAY by day in every way we feel that autumn is getting nearer and nearer.

OUR Mary in the churchyard lies Beneath green trees and sunny skies, Her car refused to climb a pole That's why she's now in such a hole.

PEOPLE will soon be coming to this city to learn about the Jack-Barnsley-McMillan Arctic expedition.

JACK should learn to talk Eskimo, then he could sit up nights and converse with the igloo dwellers on dull winter evenings.

THERE is a store in town that sometimes advertises a cut in shirts. They really will become too short if this continues.

Ten Years Ago in Prince Rupert

September 19, 1913.

E. Alexander Powell, well known writer for the Sunset Magazine and Harper's Monthly; A. E. Kuhn, wealthy resident of San Jose, Cal., and W. Creffield, chauffeur, sailed for the south on the Prince George this morning. They motored all the way from the Mexican border to the end of steel this side of Fort George and their machine was shipped south with them today.

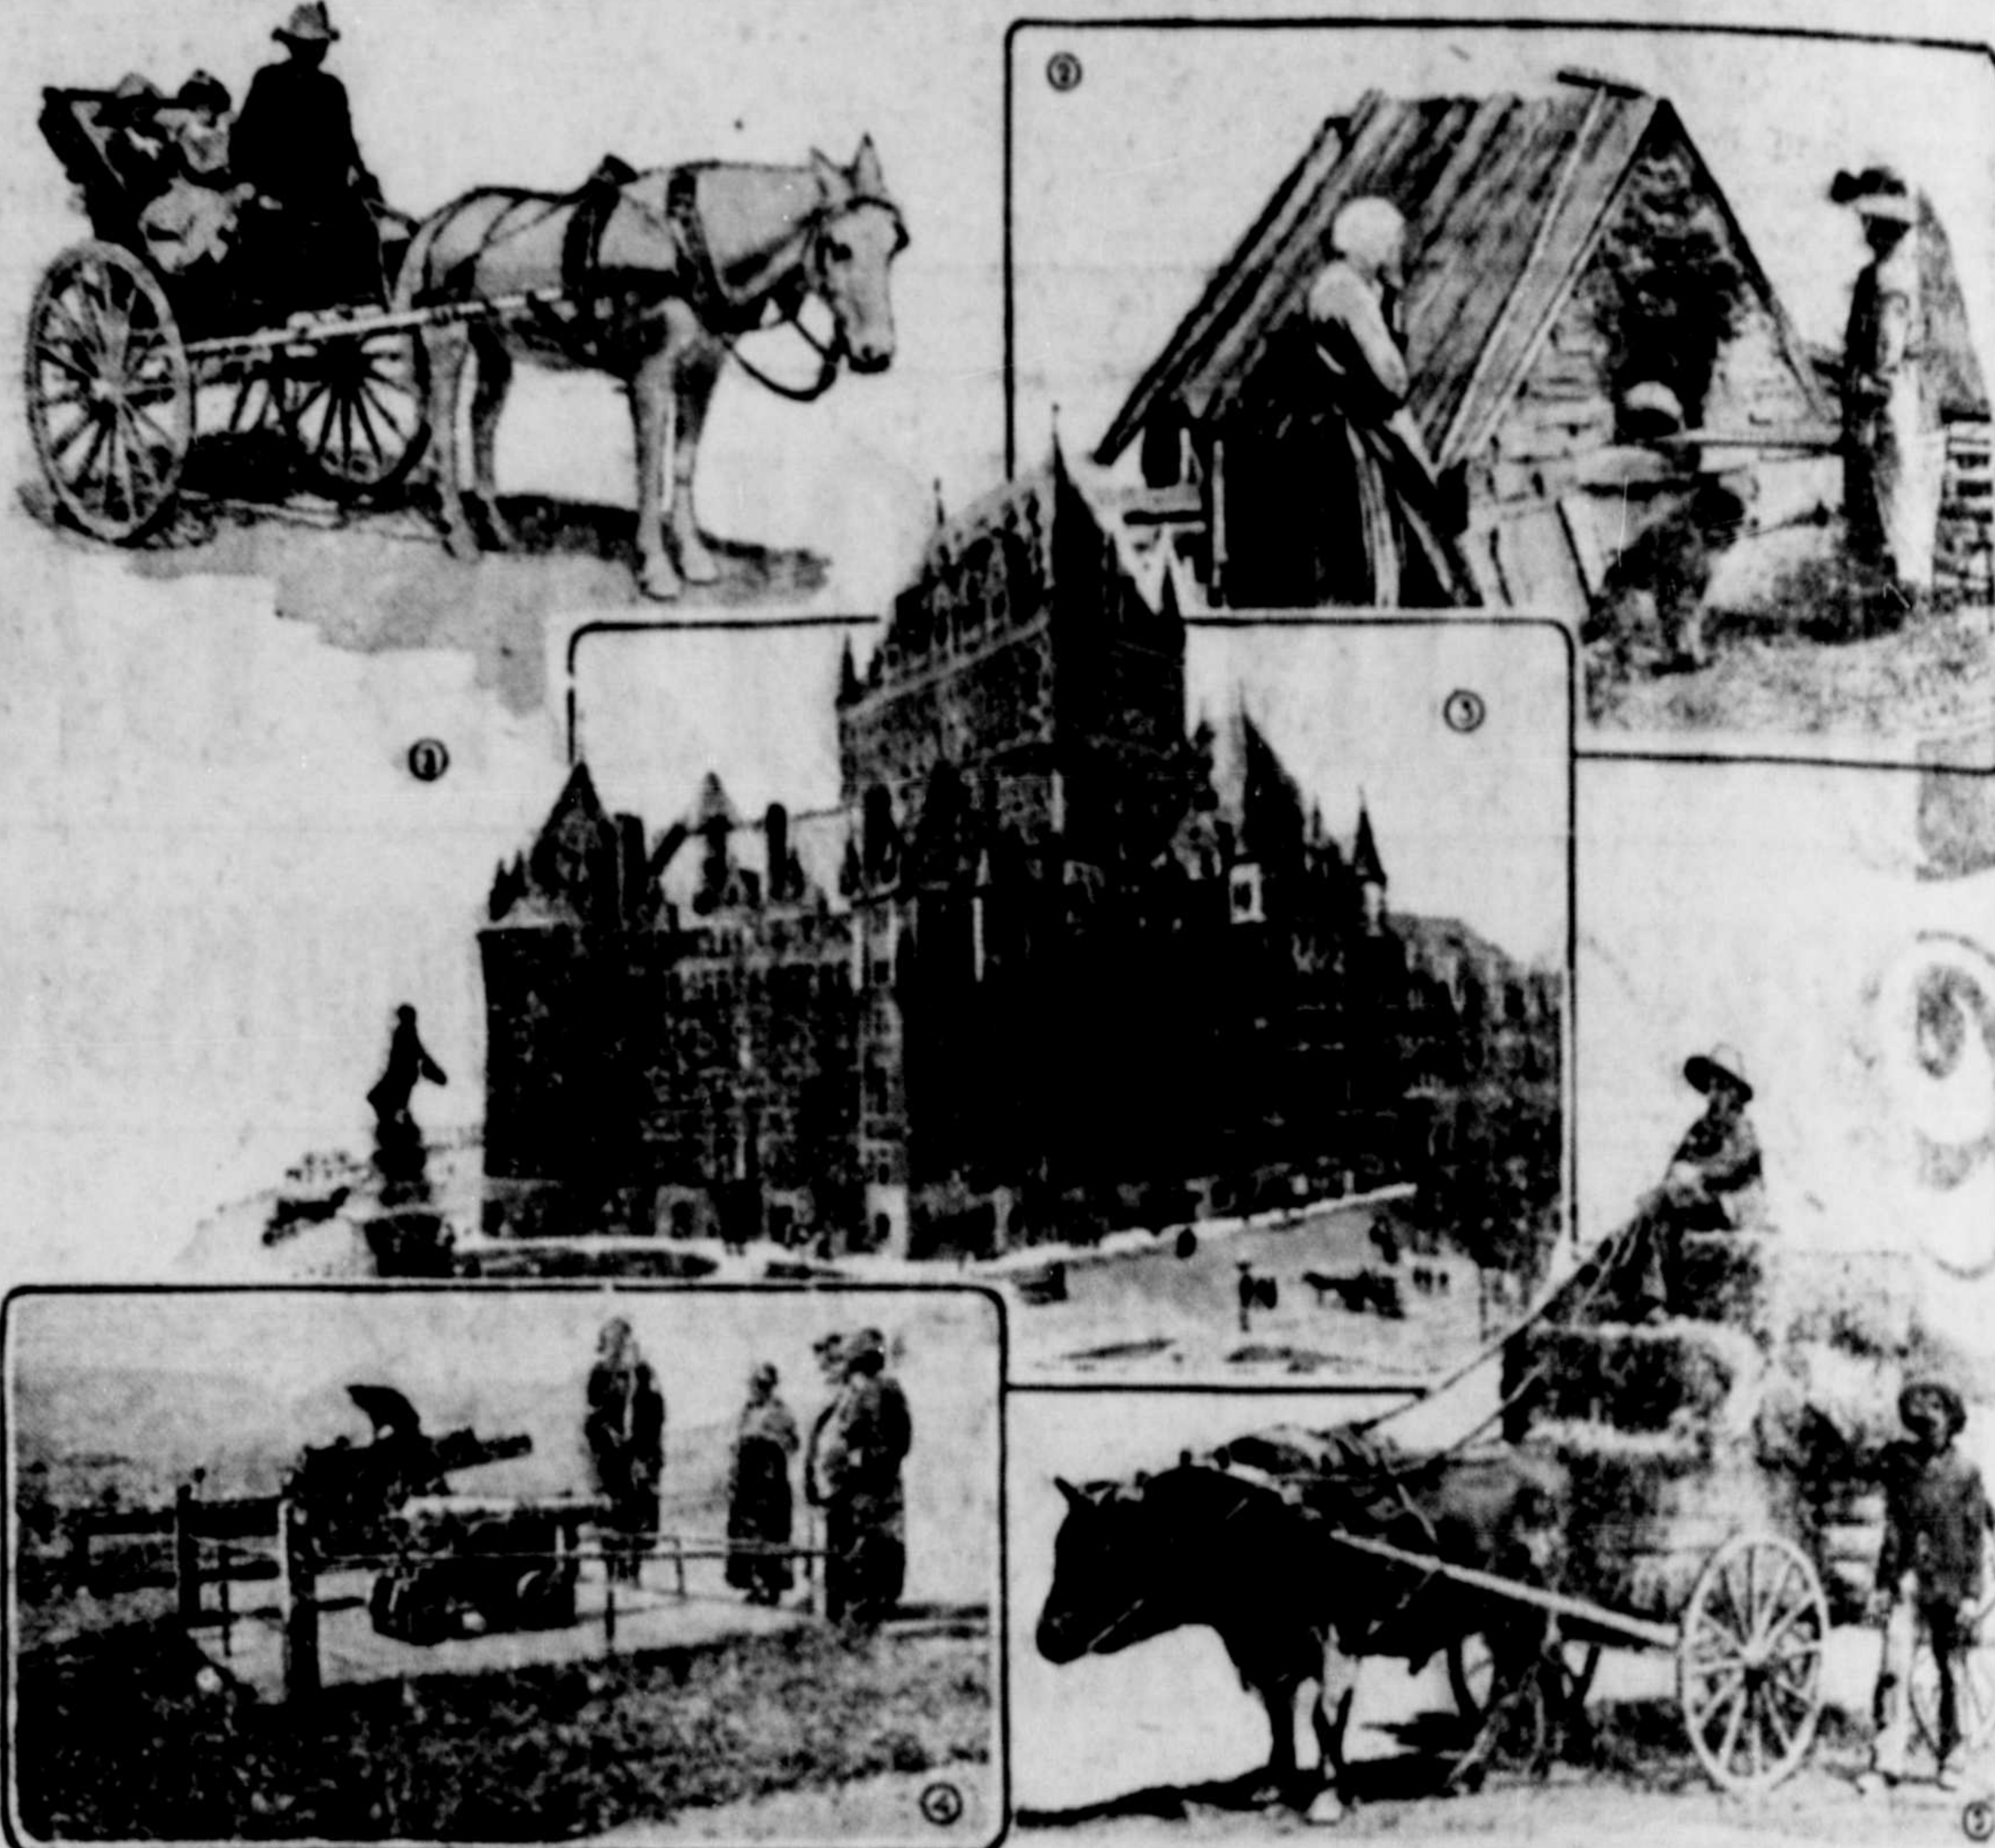

Colin Munro and Ira McLean, returning to Telkwa from the Sibola placer country, say that gold is to be found in every pan washed. Many people are going in, the best route being by way of Francois Lake.

W. T. Boyce, who left here a few weeks ago for the Chisana gold field, writes back stating that the stampede is going more or less than a transportation and road house game. He warns people to stay away from the district.

Quebec, the Old World Province

1. The Calèche, a means of conveyance much favoured by visitors to Quebec.
 2. An old brick oven, the like of which was used in France four centuries ago.
 3. Chateau Frontenac, Quebec, the most modern hotel on the continent, from a glorious height looks down on old Quebec and on the early battle fields.
 4. Ancient and modern. The little cannon captured by the British at Bunker Hill, rests near the Quebec Citadel by the side of a howitzer which fell to the Canadians in the Great War.
 5. Though their farms are modern, some farmers still use the ox as beast of burden in the back country.

THESE are just a few pictures taken in Quebec. It is not without reason that this province is becoming the tourist resort of the continent, for here is a country of utmost fascination and intrigue. Quebec has an atmosphere all its own and, if it can be said, more of an old-world atmosphere than has the old-world of today. Quebec is the eighteenth century keeping pace with the twentieth, yet retaining its identity.

One stops at little wayside shrines. The wooden cross, the patron saint in edify, the nurtured flowers, the woman at her distaff, the white-walled houses close at hand transport you to the distant land from whence the original settlers came. Yet, over there, beyond that little hedge or cedar fence the farmer gathers in his crop with up-to-date machinery, and stores it in a modern barn. Behind, the hum of the telegraph wire reminds you that you are not living in a by-gone day and, if that is not enough, through the not too distant fields, a huge train thunders.

Near the white walls the lady of the house draws water from the old-fashioned well, and bakes her bread in an old brick oven, the like of which was used by her ancestors in France four centuries ago. She spins her own wool and shares with her husband a faith which though not old-fashioned, is almost as old as the Christian era. A kindly hospitable soul is she, nor is she always backward in learning, for she probably attended the convent of the Ursulines at Quebec, or the petite école at Louiseville. And her husband—He may be content to wear the homespun, to sit around the fire, or on the threshold at night, to smoke his "Rouge Quesnel" and to drive five miles to church early on all holidays in his buggy or in the straw lined cart that is used about the farm, but he "knows his letters" and, better still, he knows how to farm.

The Quebec farm is usually up-to-date. Your "habitant" gets all that can be got from the soil and it "sit with him and talk you will see that he gets the new.

fulness of life too. Give him the simple pleasures. He is happy if he can re-tell the story of the big moose he shot by "Lac Saint Pierre" and the bear. He is some trapper too, "for sure I catch him lots of skin, me!"

The "old man," the "old woman" and that large, very large family, are content as seldom people are, and rightly so, for theirs is a rich heritage, and beautiful. The mighty St. Lawrence and its thousand tributaries, the glorious Laurentians, with their wooded slopes, the forests, lakes and myriad streams give them a country almost unexcelled for beauty. Game and fish abound as has been discovered by sportsmen from outside. Moose, trout, maskinonge, the big black bass, bear, deer and caribou.

From a historians point of view Quebec is the hunting ground of the continent. Quebec city is one huge souvenir of the early days of Canadian settlement. Lost and re-captured several times her old walls still bear the marks of storm, and the old cannons still guard the city and the approaches to the citadel.

The history of Quebec is the history of Canada, priest, soldier and pioneer settler each having played a generous part in the making of it. With the fair Dominion as a lasting memorial to their valor and courage, Quebec links them with the present day; their faith, piety, and the work they commenced are being preserved and carried on by the present generation. The relics of their day scattered here and there, and on almost every crest, look down or out upon the most modern improvements of the age, the railways, and the huge Canadian Pacific and other steamships at the docks, but lose not their identity, and in the case of buildings and public places, their charm and interest.

All through Quebec province, and in the most unexpected places one comes across historic links with the past. Like her people Quebec is quiet, peaceful, and does not crave the limelight, but Quebec is not and cannot be overlooked. It is an old world, full of charm, and the new.

lor, several times mayor of Vancouver. He made a close run last election, but was defeated by the present incumbent, Mayor Charles Tisdall. Ex-Mayor Taylor vows the pecker will place him back on the mayor's chair. It happened this way: Taylor was running well in the race, but depended upon the working man's vote to win. When the evening cars came in, however, with their passengers returning from work, there was a breakdown and, it was said, thousands of working men could not go to the polls to vote after their supper. The Street Car Company declared that a woodpecker got on the line, was electrocuted and tied up the whole system for several hours. When the cars were running again the polls were closed. Mr. Taylor vows it was a "put up" job to lose him the deciding votes from the workers. He will make it an issue at the election.

HALIBUT PRICE IS STILL ON UPGRADE

Arrivals Were Light This Morning at 39,500 Pounds—Highest Price Was 17.7c and 11c

Fish arrivals were still light at the Exchange this morning and the price for American halibut went even higher than yesterday. The Wave was the only American boat in and sold her catch of 8,000 pounds to the Booth Fisheries Canadian Co. at 17.7c and 11c.

Six Canadian boats sold 31,500 pounds as follows, the total for the day being 39,500 pounds:

Ringleader, 8,000 pounds, at 14.8c and 11c, to the Atlin Fisheries.

Iris, 2,500 pounds, at 15c and 11c, and Cape Spencer, 8,000 pounds, at 15.2c and 11c, to the Booth Fisheries Canadian Co.

GEISHA GIRLS ARE THREATENED IN JAPAN

Picturesque Institution Dealt Severe Blow by Missionaries Who Object to System

TOKIO, Sept. 19.—The geisha system, one of Japan's picturesque and time-honored institutions, has been dealt another severe blow as a result of the announcement of a vigorous campaign against it, headed by the Federation of Christian Missions in Japan.

The Federation holds that the geisha system is a survival of the barbaric past, when virtually all Japanese women were held in a form of bondage. While no complaint of a general nature has so far been made by the geisha girls, who have for years been one of the most interesting features of Japan in the eyes of foreigners, the missionaries hold that their operation should be regarded as a vice and therefore discouraged.

The Federation has issued an order stating that as far as financial donations and co-operation are concerned, Christians will not be recognized by the missions unless they are unfavorable to the geisha system. This action is expected to bring about general opposition to the geisha by the whole of the foreign element in Japan.

Another party of delegates to the Canadian Club convention held this week in Victoria is arriving from the south on the Prince George this afternoon to entrain here for the East. The main body of delegates coming this way will arrive on Friday on the Prince Rupert. Those coming this afternoon are from Montreal.

LOCAL BALL TEAM GOING TO SMITHERS

Will Play Two Game Series at Bulkley Valley Fall Fair on Thursday and Friday

Prince Rupert is sending a baseball team by tonight's train to Smithers to play a two game return series with the Smithers team at the Bulkley Valley Fall Fair opening tomorrow.

The aggregation selected to go to the interior includes: Dan Lidstone, Harry Astori, Jack Kelly, George Hill, Vic Menzies, Roy Gil-mour, Douglas Frizzell, Alex. Mitchell and Ernie Warren. P. Laporte is also going along as manager.

The first game will be played tomorrow and the second on Friday, the team returning home by Saturday evening's train.

Magistrate and Mrs. T. McClymont left on last night's train for Smithers where they will attend the Bulkley Valley Fair. Mrs. McClymont having been appointed judge of the fancywork department. They will return to the city Saturday evening.

Discover Better Shaves —at our expense, men

We are extending to you an invitation millions of men have accepted.

These millions now know the way to faster, easier shaving. We ask you to accept the same invitation they did—to make the same discovery they made:

The shaving cream with five distinct ways to speed up shaving, and to do away with skin irritation.

We made 130 laboratory experiments, spent 18 months perfecting Palmolive Shaving Cream. Now try it at our expense and find these 5 advantages:

It multiplies itself 250 times in rich lather.

Lather lasts for 10 minutes, on your face.

Without rubbing, this lather softens the most perverse beard in one minute.

Strong-walled bubbles hold hairs erect—for easier, cleaner cutting.

Skin is soothed, as the result of the blended, lotion-like palm and olive oils.

The free 10-shave tube will either prove that this is the shaving cream you have wanted—or that we, and the millions of men who use it, are mistaken. Just mail the coupon. Get it off today.

PRESENT TROPHIES FOOTBALL SMOKER WEEK AFTER NEXT

The executive of the football association at a meeting last night decided to put on a big smoker on October 4, at which presentation of all the trophies of the season will be made to their respective winners. The affair will be complimentary to all signed players in the city including Juniors.

The trophies to be thus distributed are as follows: Mobley Cup for league championship and individual medals—Grotto. Dominion Day Cup—Sons of Canada. Gilhuly Cup—Sons of England. Stuart Shield—Sons of England. Rochester Shield—C. G. S. Juniors. The Fair Board will also be invited to make presentation of the trophy won by Prince Rupert in the recent Exhibition series on this occasion.

DOUBLE HEADER IN POST BALL SERIES

Anyox Wins Team in Line For Winning Trophy if They Beat Elks

ANYOX, Sept. 19.—By winning both games in a double-header, the Mine team now has the edge in the post season series and if this team wins the next game, it will have played the old silverware will depart from the cabinet in the Elks' Hall and occupy a treasured niche on the Mine hill for a twelve month at least. The first game was won handily by the "Muckers" in their favor, the total scoring being seven to five. The Mine got one of these in the second, five in the third, one each in the fourth and fifth frames and three in the sixth. The Elks got one in the second, and two in each of the fifth and seventh innings. Battering was the order of the game and averages soared, the Mine getting ten hits and the Elks eleven. For the Mine, Halverson, Mealey and C. Ferguson got two-baggers, while Halverson and Greenwell each got a pair of singles and Anderson, J. Ferguson and C. Ferguson each got one. For the Elks, one two-bagger was got by Greenwell, Brentzen, Campbell and Sloan each connected with a pair of singles, and Downs, Cody, Draudson and Fitzpatrick found the Mine pitcher for one each. In this game C. Ferguson got eight strike-outs and Draudson, for the Elks, four. These games gave C. Ferguson an opportunity to show what he could do in the pitching line. He went through both games pitching the fifteen innings necessary to complete them and won both. This is probably a record for Anyox ball.

Second Game
The second game was an entirely different affair from the first exhibition, the Elks tightening up, holding the "Muckers" scoreless until the seventh, when they allowed the boys from the hill to equalize with the two runs which they had managed to count up. It looked like a real win for the antlered bunch until this inning. The game was then tied, and in the extra frame the Elks failed to score at bat, the Mine finishing on the long end of the score when Mealey managed to reach home on a wild throw from first to third. The Elks led in the hitting in this game, getting eight safeties while the Mine were getting five. Ferguson again led with strike-outs, totalling seven, while Fitzpatrick had two. For the Mine, Mealey

got two singles, and Stewart, C. Ferguson and J. Ferguson one each. The Elks batters connecting all got singles, Greenwell getting two, Cody two, and Downs, Aulterson, Draudson, Sloan one each. For the both games, the same players lined up. Mine—Mealey, Greenwell, J. Ferguson, C. Ferguson, Stewart, Anderson, Halverson, Pynne, Allan, Polyart, Deane. Elks—Downs, Campbell, Cody, Greenwell, Fitzpatrick, Draudson, Reentzen, Sloan, Thorley. Umpire—Olsen; base umpire, Sinclair.

TENNIS FINALS ARE WON AT ANYOX

ANYOX, Sept. 19.—The tennis finals for the L. F. Champion Cup, Men's Open Singles, was won by D. Cole, who defeated H. T. Ballion in three out of five games. It was hard fought tennis all the way through, and attracted a large crowd to the courts while the play was on.

Sport Chat

With the immediate object in view of keeping local athletes in good condition and an ultimate idea of possibly staging a track meet on Christmas or New Year's Day such as is customary in Vancouver, Bert Morgan, manager of the Grotto Cigar store, invites all and sundry young men of the city to take part in the cross-country runs that he is organizing at his store. The first of these runs was staged last night and they will be continued regularly as their popularity warrants.

The fourth annual tournament under the auspices of the National Horseshoe Pitchers' Association opens in Cleveland today with representatives from 24 states, including all the games celebrities, participating. At least 200 will compete in the men's tournament alone and in addition there will be tournaments for women and boys under fifteen. Probably the most conspicuous player who will take part in the tourney is Harold Falor, a 15-year old Akron boy, who won the national championship in Florida last winter.

Commander J. K. L. Ross, director of the Canadian Pacific Railway, who was here yesterday with the presidential party of the big railway company, is Canada's most wealthy and successful horse breeder and race track man. His activities on the turf of Canada and the United States have brought him probably more prominence than any of his other interests. His fine racing stable has brought him in many valuable trophies. He was the largest

winner in the United States in 1918 and 1919 and this year he was the second largest winner. Formerly active as a yachtsman, Mr. Ross is now an enthusiastic deep sea fisherman. In the summer of 1911 he landed with rod and line in St. Anne's Bay, Cape Breton, a tuna weighing 680 pounds which was then a world's record. For this feat he was admitted to honorary membership in the Tuna Club, California. During the war he was in command of a British destroyer.

"I'd still rather watch a football game than eat," remarked Col. S. P. McMorde of this city yesterday while he chatted with E. W. Beatty, president of the Canadian Pacific Railway, renewing old remembrances of college days at Toronto University. No doubt in former days, Col. McMorde would rather play than eat. Perhaps the same could be said of Mr. Beatty, Col. McMorde, Mr. Beatty and "Jack" Hobbs, another member of the party yesterday, all went to Toronto University together and they were each stars on the same University Senior rugby team. Mr. Hobbs was captain of the team.

SKIDEGATE INLET

Work has been started at Skidegate on the provincial government road. It is understood the government intends joining the Queen Charlotte City road to the present road from Skidegate to T-I-I.

A son was born to Mr. and Mrs. G. Frost on Saturday, September 15, at the Skidegate Inlet Hospital.

Everybody is looking forward to a good hunting season this year. Large flocks of geese pass over very day. Black bear are very plentiful on all the creeks. One man reports having seen six during one afternoon.

The basket social, which should have taken place on Sept. 15, has been postponed until the middle of October, when the C.G. H.S. ship Lillooet makes her last call for this season.

Miss Greenwood of Victoria arrived on the last steamer from Vancouver, to take charge of the Skidegate Public School.

J. L. Barge returned last Saturday from an inspection trip of the east coast provincial government road.

Dr. Newcombe of Victoria arrived here today for a short visit on the government launch Seal Cove.

Mr. Carlisle was also a passenger on the Seal Cove. Having

NEW TOWNSITE BEING LOGGED

Massett Timber Company Preparing Ground For Extension of Housing

NIGHT SHIFT STARTS

BUCKLEY BAY, Sept. 19.—The logging of the new townsite for Buckley Bay, Q.C.I., where the Massett Timber Company Limited is developing its extensive logging and lumber industry, has again been started after the shut down caused by the fire. A. B. Pleas, who has the work in hand, is confident of pushing the work ahead so that an early start can be made on the actual building of the new town.

The situation of the new townsite is directly south of the old one, and almost adjoining it, is on much better ground and has a much more commanding aspect. Facing the water front and being very much sheltered by high ground from southeast winds, and the number of small islands about provide all the shelter necessary to make the town and the mill site the safest and most desirable situation on the Massett Inlet for either a town or a sawmill.

The new site will afford ample space for expansion, which will be necessary to cope with the increasing prosperity of the lumber industry at this point. At present the house shortage is very acute although about seven houses have recently been built to replace those lost in the fire. Everything possible is being done to facilitate the immediate building of residences as soon as the opportunity presents itself.

Up to this time the mill has been cutting from 150,000 to 200,000 feet of lumber a day and the best cut of 191,000 feet in 10 1/2 hours with one single 10' band and one edger, constitutes a record for this mill.

With the automatic trim saw and the horizontal re-saw which have been lately installed the cut will be increased considerably.

A double nine hour shift is now being run to cope with the ever increasing demand for the world famous Sitka spruce from the Q.C.I.

Two steam schooners El Cedro and El Ceuta cleared last week with about three million feet of lumber and cants for San Pedro.

BEDDING WAS STOLEN FROM CHINESE HOUSE

Alex. Brown and H. Beswick Are Apprehended by Constable Macdonald and Charged With Theft

Following a complaint being laid on Monday evening by the proprietor of the West End Cafe, Police Constable Alex. Macdonald yesterday placed under arrest

Alex. Brown and H. Beswick. They were later charged with theft of bedding to the value of \$25 and were remanded until Monday.

The proprietor of the cafe reported to the police that four white bedspreads, one comforter one pillow, one blanket and one pillow case had been stolen from the premises. Constable Macdonald was detailed to investigate. Suspecting two men whom he noticed on the street, he followed them to the Dyer Apartments. There the goods were located and identified by the informant, Brown and Beswick thereupon being placed under arrest.

GOODLY SUM FOR JAPANESE

Canvassers Busy Meet With Success in Canvass for Relief Subscriptions

Good success attended the efforts of Mayor Newton and the aldermen in their personal canvass for Japanese relief money yesterday afternoon with the result that the order of canned salmon to be shipped by the steamer Canadian Skirmisher this week has been increased to 450 cases. Something over \$2,000 has been raised to date in addition to the Japanese contributions. There was a special meeting of the civic canvassers in the council chamber last night to report on the day's work. Here it was also decided to increase the quota of fish to be shipped from here. The order was immediately transmitted to the Canadian Fish & Cold Storage Co. and the staff at the cannery worked all night getting the product out so that it might be loaded on the steamer this morning. Even after the meeting the canvass was continued, Mayor Newton, Ald. Stephens and Ald. Gollart going out on a special mission.

The four following committees were out yesterday afternoon: Ald. Munro and Ald. Smith, Ald. Stephens, Fred Stork, M.P. and Ald. Mackenzie, Ald. Gollart, Mayor Newton, S. J. McLeod and E. C. Gibbons, Ald. Perry.

The following list of acknowledgements to date other than those already published, does not include many smaller contributions under the sum of \$5.

Ald. Smith	\$25.00
Ald. Munro	25.00
Ald. Perry	25.00
Ald. Currie	25.00
J. Fred Ritchie	5.00
T. McClymont	5.00
Dr. W. T. Kerwin	5.00
Brackman & Ker	5.00
Stewart & Mobley	10.00
F. G. Dawson, Ltd.	10.00
R. E. Harrop	5.00
Phos. Trotter	5.00

A worth-while Reputation

The head of one of this country's great manufacturing institutions says:

"The Man who builds and the man who buys are both beneficiaries of reputation. To the one it is a continuous spur and incentive--to the other, the strongest of all guarantees that what he buys is worthy."

Patronize the manufacturer or merchant who has a reputation for honesty and fair dealing. Such motives must actuate the consistent advertiser. The man who invests real money in building a reputation for himself and his merchandise cannot afford to risk any of it by taking unfair advantage of his customers. He must retain the good-will of the buying public. Without this, his business cannot succeed

Every time he advertises he puts his reputation in your hands. His products or the wares he has for sale must make good. His service must be as advertised.

That is why it pays to read advertisements, to deal with advertisers and to buy advertised goods.

Yes, it is worth your while to Read The Advertisements

Well Mother! The children are settled down in school again but the old problem still faces you. It is up to you to provide everything for autumn and winter from boots to a bottle of cough mixture.

It's a busy time for you. New clothes are needed for growing boys and girls; more substantial food for cool days must be thought about; books and games for the approaching long hours of darkness are needed to keep home happy.

Let your newspaper help you. A few minutes spent every day in reading the daily store news in the advertisements which the merchants have inserted for your information will save you many fatiguing hours of shopping.

Which stores can supply you, and most economically?

Learn all this by reading the daily store news comfortably in your home newspaper in your own easy chair.

Dissolve in boiling water

Use enough to get a big lasting suds

Big lasting suds—one secret of Rinso's amazing power to dissolve dirt. If you don't get lasting suds, you have not used enough Rinso.

After soaking, only the most soiled clothes need a light rubbing with dry Rinso.

Your clothes don't need boiling if you use Rinso. But if you like to boil your white cottons, use enough Rinso solution to get the suds you like.

NOTE: In hard water it takes from 3/4 to 1 package of Rinso to a tub to make good suds. In very hard water you will need from 1 1/2 to 2 packages to a tub to get the big lasting suds that loosen all the dirt.

HORNETS ARE CAUSE OF TROUBLE FORT WILLIAM

Various City Departments Pass Buck When it Comes to Removing Nest

FORT WILLIAM, Ont., Sept. 18.—A complaint was turned in to the city hall recently which has kept City Clerk McNaughton guessing. The complainant set forth that a certain hornet had built itself a house under one of the wooden sidewalks and proceeded to raise its rather large family, and the family was now annoying the subjects of the King by prodding them with their sting.

As a rule the city clerk has little difficulty in allocating complaints to their proper department, but here was a host of peculiarities. Should the case be referred to the poundkeeper, as being one of unruly animals running at large, or to the sanitary inspector, as a nuisance and a menace to health? Or would it be better to notify the chief of police, since the realm was being disturbed. Another thought was that it came under the department of the street commissioner, because they were obstructing the sidewalks but this was negated by the fact that they had built a house without a permit, so that the building inspector was clearly the man to interfere. Ald. Darrell's industrial and entertainment committee was well

ARTHUR MEIGHEN AND HIS TOUR OF PRAIRIES

Pertinent Suggestion Made to Opposition Leader by Edmonton Paper

Mr. Meighen is to make a speaking tour of Western Canada, says the Edmonton Bulletin in an editorial article. Under normal conditions it would be supposed that his intention was to tell the people on the prairies what he thinks about the King government. Under the existing conditions that might be interesting but would hardly be relevant. Neither the government nor the opposition got enough supporters elected in the prairie provinces at last election to make a corporal's guard. If either is to make large gains, and thus help to restore political normalcy, it will have to be at the expense of the Progressives. It may be expected, therefore, that the opposition leader will devote a good deal of his time and attention to reviewing the record of the Progressive group in parliament with special reference to the numerous occasions upon which it played truant to the principles and pledges upon which it was elected and the interests of the people it was supposed to represent. It may take some courage to thus candidly present the uncomplimentary facts in quarters where they may not be relished, but that is a quality Mr. Meighen has not been accused of lacking. His tour should do something to dispel the already shaken delusion that general prosperity is to be attained through group political movements.

but we have Cauliflower, Cucumbers, Head Lettuce, Green Onions, Parsley, Corn Cucumbers, Green Tomatoes, Pickling Onions, Pickling Cucumbers, Green Tomatoes, Griton, Hubbard Squash, Turnips, Carrots, Beets, Parsnips, Cabbage, and Onions, and like the merchant in the latest popular song, we pride ourselves upon the high quality of our goods and the fact that we sell at the lowest market prices.

WEEK END SPECIALS
 Maid of Clover Creamery Butter, in bulk, 3 lbs. for \$1.25.

We absolutely guarantee the quality of this butter to be superior to any line on this market, and we take this opportunity of advising you that this price on butter will be a thing of the past within ten days.

B.C. Fresh Pullet Eggs — Week-end Special, 3 doz. for \$1.25.

We consider this line the best value in town today. They are fresh stock.

Special This Week End — Wealthy Apples, crated, Jumble Pack, box \$1.95.

"An apple a Day Keeps the Doctor Away." There is more truth than poetry in this saying. Buy your apples by the box and let the kiddies eat plenty of them. An apple at night before retiring will preserve their teeth from decay.

British Columbia McIntosh Reds, the finest apple that grows. First shipment B.C. stock arriving for Saturday trade. See us for case price before you buy.

"Salt Spring Island Jam." Gone are the days when mother worked till late at night putting up jam for the winter. Nowadays you can buy better jam in the store. Salt Spring Island Jam is better jam than mother used to make because it is made under perfect conditions, nothing but the pure sugar and the very choicest berries are used. The berries are not culled or over-ripe from shipping. The Salt Spring Island berry growers must make the best jam obtainable otherwise they will have no market for their produce. This is your guarantee.

Packed only in Strawberry, Raspberry and Loganberry.
 4 lb. tins 95c.
