Sensational Career of Leo Rogers, Desperado, Closes with His Death

NORTH BAY, Ont., May 31.—Leo Rogers, who had been at liberty for a fortnight since his escape from the courtroom here and who had since murdered two policemen and wounded a third, was shot dead last night near Nipissing.

The capture and death of Rogers brings to a close one of the most sensational and tragic affairs in Ontario police history. Yesterday he was finally surrounded in the bush by posses of police, aided by large reinforcements from the provincial department. On account of his desperate actions of the past fortnight, the resolve was to get him dead or alive without risking the possibility of further killings at his hands.

The Final Scene

Rogers was seen traversing Lake Nipissing in a stolen motor boat. A woodsman travelled miles to notify the police who, going twelve strong to the shore, found the fugitive sitting in the beached boat, washing blood from his scratched face. Inspector Storey fired and the eleven other policemen pumped bullets into the desperado who, slowly standing up and reaching for his rifle, fell dead.

**Church Union  
Again To Fore.**

What will the Presbyterians do with church union? This is a question which will again be voted upon at the annual Presbyterian General Assembly which opens in Port Arthur next Wednesday. The members of the church have already voted twice in favor of the proposal, presbyteries of the church have voted favorably three times, the general assembly itself has consistently approved the movement since 1904, fifty presbyteries of the church and four synods have sent overtures to the coming assembly favorable to the movement, the union committee is advising the assembly to approve the draft bills which counsel has prepared for parliament, and still there are some who say that the coming assembly will turn the movement down. The opposition to the movement is strong, but in view of the developments of the last 20 years it would seem improbable that an adverse vote will be recorded this year.

**Issue May Come  
To An End.**

The coming meeting of the assembly is regarded as very important by Presbyterian people so far as the union question is concerned. It is true that previous assemblies, notably the assembly in Winnipeg in 1916, and the assembly in Toronto in 1921, by very large majorities, committed the church definitely to the union cause. These votes, however, did not lead anywhere directly. This year it is very different. If the assembly of 1923 approves of the draft bills which have been prepared, these will go direct to parliament before the assembly of 1924 convenes, and if parliament passes the bill the issue will be at an end. Definite union will still be several years distant, but the actual fight will be over and those congregations which are irreconcilable will have to prepare to withdraw and make what arrangements may seem desirable for the future.

**History Of  
Union Movement.**

The movement for the union of the Congregational, Methodist and Presbyterian churches in Canada had its inception in 1899, when it was suggested by the Presbyterian church. In 1902 the general conference of the Methodist church in its quadrennial meeting in Winnipeg approved it.

As a result of this deliberation of the Methodist church, a joint committee representing Presbyterian, Methodist and Congregational churches met in 1904, and after conference, issued a statement in which it was declared that organic union was desirable and practicable. This was reported to the general assembly of the same year and a committee was named to consider a basis of union. This new committee met with representatives of the two other churches and such meetings continued for several years. In 1910 the general assembly approved of the basis of union and in 1911 sixty-seven presbyteries voted on the proposal, three reporting a favorable vote. In the same year a general vote of the members of the church was taken on the issue, which resulted 113,000 for union and 50,000 against. In 1915 a second vote of the people was taken and 113,000 voted for the proposal and 74,000 against.

As a result of the votes of the communicants and presbyteries, the general assembly at a meeting held in Winnipeg in 1916 fully committed the church to union, the terms of the motion being as follows: "This general assembly of the Presbyterian Church of Canada do now resolve to unite with the Methodist Church of Canada and the Congregational Church of Canada, to constitute the United Church of Canada, on the basis of union approved by the general assembly of 1915 and by the majority of presbyteries consulted under the Barrier Act." The vote on this motion was carried by a majority of 406 to 90. In spite of the large affirmative vote it was agreed that no action looking toward union should be taken until one year after the conclusion of the war.

**Definite Action  
Towards Consummation.**

The war being over, the assembly of 1921 in Toronto took up the question in earnest, and decided to consummate union as speedily as possible and a committee was named to carry out this policy. This committee selected prominent lawyers of Toronto as counsel, W. N. Tilley, K.C., and R. S. Cassels, K.C. Under the direction of this committee aided by counsel, the draft bills have now been prepared for submission to parliament.

The motion which the union committee advises the coming assembly to adopt is in part as follows:

"That the general assembly hereby approves and adopts the draft bills herewith presented as necessary to give effect to the union with the Congregational and Methodist churches."

The various churches which do not enter the union will have the option of voting themselves either out of the parent church or out of the united church. They will first have two months to vote themselves out of the parent church and six months to vote themselves out of the united church.

**ROSES THAT THRIVE  
IN THIS COUNTRY**

Dominion Horticulturist Names  
Varieties That Will Grow  
Successfully

Although most persons who love flowers decide to grow roses, many who have planted a few bushes have been unsuccessful and have become discouraged says a Dominion horticultural bulletin.

Certain species of roses are very easy to grow and that those who are not prepared to give the finer types the attention their beauty merits, will find in the Rugosa hybrids, the Austrian briars, the Provence or Cabbage, and the Damask roses a very good assortment of roses that are hardy and of easy culture, requiring but little pruning, and not being troubled by insect and fungous enemies.

The experimental farms have succeeded in producing a very beautiful rose of unusual hardiness. It is a cross between Rugosa and Persian Yellow and has been named Agnes.

The following varieties of Hybrid Perpetuals and Hybrid Teas have been selected as a dependable collection of reasonably hardy roses: Frau Karl Druschki, white; General Jacqueminot, scarlet crimson; Her Majesty, pink; Hugh Dickson, crimson; Mrs. John Laing, pink; Mrs. R. G. Sharman Crawford, pink; Ulrich Brunner, cherry red; Caroline Testout, pink; General McArthur, bright crimson; Gruss an Teplitz, bright crimson; Lady Ashton, pink; Lady Pirrie, copery pink; Madame Edouard Herriot, coral red; Madam Ravary, yellow.

Recommended climbers are American Pillar, Dorothy Perkins, Hiawatha, Tausendschon.

**Her Heart Skipped  
Every Third Beat**

Mrs. James Burleigh, 248 King St. E., Chatham, Ont., writes:—"I think it my duty to let you know what Milburn's Heart and Nerve Pills have done for me.

I suffered for years with palpitation of the heart, my nerves were very bad, and I could not be left alone at any time. I doctored for over a year, and the doctor said my heart was very bad as it skipped every third beat.

I gave up, just at this time, and then my mother advised me to try Milburn's Heart and Nerve Pills, saying my oldest brother had been relieved by using them when he was very bad with his heart and nerves. I got a box and started to take them, and when I had used it I felt a lot better; could sleep a little and felt stronger. I continued taking them for about three months, and felt better than I had for years.

When I think of the misery and suffering I went through before I started Milburn's Heart and Nerve Pills, I feel like letting everyone know what they did for me."

### Stomach Trouble

#### "Indigestion" Relieved by Burdock Blood Bitters

The sufferer from dyspepsia, indigestion  
or other stomach troubles who has to  
pick and choose his food is the most mis-  
erable of all mankind.

Even the little that is eaten causes much  
torture, and is digested so imperfectly it  
does but little good.

Before you can eat heartily and en-  
joy your food, you must put your stom-  
ach right so that it will manufacture its  
own digestive ferments.

Mr. Wm. Krusche, Morden, Man., writes:  
"Some time ago I had quite a serious  
case of stomach trouble, indigestion. I  
could scarcely eat anything, outside of  
some light food, and even then I generally  
had pains after each meal. I tried many  
different medicines, but without any im-  
provement, and had almost given up hope  
of ever being well. A neighbor recom-  
mended Burdock Blood Bitters, and after  
using it a short time I felt much better,  
so I continued to use it until I was com-  
pletely relieved. I can honestly say that  
B. B. B. has done wonders for me after  
all other medicines failed."

### Make the Rinso liquid first

Do not put Rinso direct  
from the package into the  
tub. Mix half a package of  
Rinso in a little cool  
water until it is like  
cream. Then add two  
quarts of boiling water,  
and when the froth sub-  
sides, you will have a clean  
amber-coloured liquid.  
Add this liquid to the wash  
tub, until you get the big  
lasting Rinso suds. Then  
soak the clothes clean.

NOTE: In hard water it takes from  
1 to 1 1/2 packages of Rinso to a tub to  
make good suds. In very hard water  
you will need from 1 1/2 to 2 packages  
to a tub to get the big lasting suds  
that loosen all the dirt.

**MAY HALIBUT 2,541,700 LBS.**

**Inclement Weather and Not so Many Big Schooners Out**

The total of halibut landed at this port during the month of May was 2,541,700 pounds, which is 468,300 pounds less than was landed here in the month of April, 3,010,000 pounds. Out of the total amount landed for the month of May 742,700 pounds was caught by Canadian boats and 1,799,000 pounds by American boats.

The fishing this month has been considerably interfered with by the inclement weather and the continued cold spell which has been detrimental to the run of fish. The arrivals from the deep sea banks have been light during the latter part of the month, this being due to the fact that a number of the large American schooners have gone south to home ports for the purpose of overhauling.

The sales of month have been marked by the good prices prevailing for Canadian fish due to the good demand on the home market for the catches of the boats. In many cases the Canadian schooners have received from one to two cents more for their second class catches while for first class fish they have equalled the Americans.

**Today's Fish**

This morning the American schooner Valores was the only arrival. She had 10,000 pounds of halibut which was sold to the Booth Fisheries Canadian Co. at 17.6c and 11c.

**MANITOBA TO VOTE ON LIQUOR QUESTION**

**Electors Will Have Chance to Have Government Control Next Month—Also Beer and Wines**

WINNIPEG, May 31. — (By Canadian Press)—With its record of four votes for prohibition and one adverse majority, Manitoba on June 22 will be asked once more to decide whether or not liquor shall be available in this province for beverage purposes. Since the first vote was taken 31 years ago prohibition at intervals has been a subject of controversy in the province, and in the last few years particularly there has been nothing resembling a truce between the champions and opponents of the existing temperance act. The warfare has been strenuous with both sides apparently grimly confident of the ultimate outcome.

On June 22 the Manitoba electorate will vote upon the bill prepared by the Moderation League which provides for the sale of liquor for beverage purposes, the distribution to be handled by government depots. A second referendum will be held on July 11 on the petition of the Beer and Wine League which provides for an amendment to the Manitoba Temperance Act to permit the sale of beer and wine with meals at hotels. Should either or both proposals be favored by a majority of the voters the legislature will reconvene at an early date to enact the necessary legislation for putting into effect the people's will.

NEW OFFICERS - SWIMMING CLUB

Enthusiastic Meeting Last Night - Plans Formulated for Season

An enthusiastic meeting of the Prince Rupert Swimming Club was held in the city police court last night with Principal J. C. Brady in the chair, pro tem, and C. Westaway, acting secretary, pro tem.

The following officers were elected: Honorary President - Hon. T. D. Pattullo. Honorary Vice-President - Hon. A. M. Manson. President - Jack Boddie. Vice-President - J. Lorne MacLaren.

Secretary - Treasurer - Cyril Westaway. Executive - President and Vice-President, A. T. Parkin, E. H. Shockley, Geo. Frizzell, H. J. Kelly and M. Lemon.

The meeting decided to ask the city council to make the same appropriation of money to the club as in 1921 \$300. Such amount will go towards the repairing of the floats at the Salt Lakes and filling the edge of the lake with sand or some suitable material in order to make a shallow bathing and paddling pool for children.

It was also decided that the club should seek co-operation of all lodges and organizations in the city in selling membership tickets instead of donating sums of money as in previous years. A drive is to be made throughout the city with the idea of inducing every man, woman and child, to become a member of the club.

Those present at the meeting were E. C. Gibbons, Joe Scott, J. Lorne MacLaren, J. C. Brady, H. J. Kelly, M. Lemon, C. Westaway, J. Boddie, A. Palmer, John Carr, H. White, Sid Thompson and Malcolm Lamb.

King George's 30-year old racing yacht, Britannia, has just come off the ways for another season of racing. She has been re-coppered, overhauled and equipped with new running gear.

The King has decided to race the old craft this year chiefly for the purpose of reviving the sport and for the benefit of spectators at regattas. English yachtsmen say the days of racing big expensive vessels have passed forever. It has become such a costly sport that few can afford to undertake it.

Hunting clubs, game protective associations and nature lovers, alarmed by the rapid disappearance of feathered game in United States, are conducting an agitation to limit the use of the automatic shotgun if not abolish its use entirely. Sportmen who already have automatic shotguns are being urged to arrange the magazines of their weapons so as to limit their use to two shells. The fact that an automatic contains five shells which can be fired with great rapidity, they say, is resulting in countless crippled birds being unrecovered by the hunters.

A rigid training rule laid down by Tris Speaker, player-manager of the Cleveland Indians, prohibits players from smoking cigarettes or drinking anything stronger than one-half of one per cent. The veteran star-manager believes that physical fitness offsets minor playing defects and he expects his men to be the stumbling block of all 1923 pennant aspirants. Speaker, who says he will never be a bench manager, still has the habit of drawing two lines in the dirt before the plate and knocking the dirt from the cleats of his shoes before taking his position at the plate.

Ty Cobb last week acquired another notable baseball record, having scored more runs in his big league career than any other player in the history of baseball. His home run in Thursday's game established his total scored in eighteen years and five weeks of play at 1,741. Hans Wagner, in twenty years on the diamond, had scored 1,740. This makes at least seven major, or American league baseball records in the possession of the "Georgia Peach," besides ties for three other jointly held with diamond stars of earlier days.

The tennis team that will represent France in Davis cup play this year will be the youngest combination in the famous international matches. Two of the players certain to be selected are Henri Cochet and Jean Borotra. The other member of the trio is still in doubt, but he will be one of the younger players, Borotra, who will be the veteran of the trio, is only 23 years old. However, he is a seasoned veteran and one of the most brilliant players in France. Cochet, who made such an impressive showing in the States last year, has just passed the 20-year old mark. The French look for Cochet to be one of the stars of the coming matches.

The third game of the Junior League football should draw a large crowd of fans to the Acropolis grounds tonight. The Golts and Public Schools are battling
