EAST IN THROES OF TERRIFIC HEAT WAVE

SOCKEYE SEASON OPENED YESTERDAY AND CANNING INDUSTRY STARTS

Many Dead in Eastern States as Result of Weather---Boston New York, Chicago Badly Hit

COLUMBUS, Ohio, June 21.—The death toll from the heat wave throughout Ohio since Monday today stood at 22. Continuation of the scorching weather for the remainder of the week is predicted by weather bureau officials.

NEW YORK, June 21.—Fifteen thousand persons, mostly women and children, slept on the beach at Coney Island last night to escape the warmest temperature this year and thousands more awoke today on other beaches and in the parks. There were five deaths from the heat yesterday.

CHICAGO, June 21.—There is no break in the heat wave which has held the city in its grip since Monday and none is in sight. Seventeen persons have died in Chicago since the first of the week from heat prostrations.

BOSTON, June 21.—Two days and nights of intense heat have caused a number of deaths and many prostrations here. Thousands slept last night on beaches and on the Boston common.

MOUNT ETNA LAVA DIVERTED

Town of Lualaba Now Said
To Be Safe From Des-
truction

CATANIA, June 21.—Unless there are new and strong emissions of lava from Mount Etna the town of Lualaba, which has been threatened for the last three days, is almost certain to be safe from destruction. It is officially reported from the devastated region that the huge stream of lava, which has been steadily advancing toward the town, deviated into a side road and is flowing with accelerated velocity into the neighboring valley which is gradually becoming a veritable lake of fire.

FRANCO-GERMAN DEVELOPMENTS

Germany Taking Steps Towards
Settlement Without Prejudice
Regarding Great Britain

LONDON, June 21.—The London Telegraph says that developments of great importance in regard to Franco-German relations are pending. It is asserted that the German government has taken practical steps to determine a method which, without prejudicing the position of Great Britain, would lead to direct conversations between Paris and Berlin.

NURSES' HOME PLANS ADOPTED

Hospital Board Had Meeting Last
Night With Architect Cox of
Vancouver

A. A. Cox, F.R.I.B.A., Vancouver architect, was in conference with the hospital board at a special meeting last night in connection with the plans for the new Nurses' Home. A set of preliminary plans was accepted and it was decided to call for tenders locally. The plans accepted provide for a two-story 45-room building of frame construction. There will be 12 bedrooms and a sleeping porch on the second storey. The main floor will include a large sitting room with fireplace, lecture room, kitchenette and a suite of two rooms for the matron. Each bedroom will have hot and cold water and there will be bathrooms and toilet accommodation on each floor. The plans call for an alternate heating system—either hot air or hot water—which will be decided upon when the contract is let.

The site on Fourth Avenue, about 40 feet north of the hospital, has been definitely selected and work of clearing the lots has already commenced. The main entrance of the home will be on Fourth Avenue and there will be a rear entrance for nurses connecting with the hospital. There will probably be a covered passage way here.

In general style, the home will be in keeping with the hospital building with sundry improvements.

Mr. Cox returns south tonight and on his return in ten days he will have final plans and specifications ready for the calling of tenders and the letting of the contract. It is the intention to get construction started within the next two weeks so that weather conditions may not interfere with the speedy erection of the building.

Sockeye Fishing Season Opens with Good Catches on Skeena Thirteen Canneries Operating

With the opening of the sockeye season after midnight Tuesday night, yesterday was the first fishing day on the Skeena River and the canning industry is now about to start in full swing, although there are yet only a limited number of gill nets out. According to reports received at the Dominion Fisheries office last night the highest boat took 45 sockeyes which is a larger catch than that of the highest boat on the opening day last year.

Of the sixteen canneries on the Skeena River, thirteen are canning this year. The three canneries which are not operating are the B.A. at Port Essington, which was destroyed by fire a few weeks ago, Oceanic, which will be operated this year as a camp, and Alexander.

The weekly close season this year will be from 6 o'clock on Saturday mornings to 6 o'clock on Monday mornings, that is 48 hours.

DAILY PAPER AT MAYO CAMP

Publishers of Dawson Daily
News to Publish There:
Radio Stations

DAWSON, June 21.—The establishment of a daily newspaper in the Mayo silver camp district is announced by the publishers of the Dawson Daily and Weekly News, who have shipped a complete newspaper and printing plant to Mayo City. This, Mayo's first newspaper, is made possible by the fact that the Federal Government has decided to install a radio station at the silver camp and thus establish direct telegraphic communication with the outside world.

Advices from Ottawa state that Dawson also will get a radio station under the new scheme by which the government intends to span all northern Canada by wireless under direction of the militia department and bring the outside world into direct touch with all parts of Canada.

Senate Refuses to Interfere with Export of Liquor from Canada to States: was Debated

OTTAWA, June 21.—An amendment to the Canada Temperance Act seeking to prevent the export of liquor to any foreign country until the consular agent of that country has issued a certificate thereon was defeated in the Canadian Senate yesterday. The motion was tabled by Senator Sir George Foster, Conservative, who urged that no obstacle should be put in the way of United States officials in the enforcement of their liquor laws and that no facilities should be allowed which would make Canada a base for the practice of lawlessness in another country.

Senator Dandurand, government leader, said that it was not necessary to protect the United States against liquor exports from Canada because nobody in the United States could legally import liquor. He thought the Foster measure would be a self-imposed impediment to Canadian trade and would interfere with Canadian imports to 75 countries which had no consular representation in Canada.

With this Sir James Longheed, Conservative leader, agreed, and Senator Griesbach drew the day afternoon session to a close by bringing the Senate's attention to the fact that the United States law already provided that a consular certificate must accompany all imports worth more than \$100.

In introducing his motion, Sir George Foster questioned the right of the Lieutenant-Governor in council to take a plebiscite in British Columbia and some change in the wording of the Senate motion providing for a plebiscite at the coast on the question of the private importation of liquor is probable before the bill is disposed of.

Defeats Efforts

The Senate also defeated another amendment proposed by Sir George Foster which would have cancelled the license of any distillery twice convicted of any liquor law in Canada and also making it unlawful to export liquor in any vessel previously used for this purpose without certificate that its former cargo had reached its port of destination.

Sir George had special reference to the export of beverages from Ontario which reached the United States or were smuggled back into dry Ontario instead of going to Mexico or Cuba as billed.

GRANBY MANAGER TO VISIT ECSTALL SOON

H. S. Munro Will Take Trip to
Newly Acquired Property
Within a Few Weeks

H. S. Munro, general manager of the Granby Consolidated Mining, Smelting & Power Co., while in the city yesterday afternoon, said that he would be paying a visit to the newly acquired property on the Ecstall River in the near future, possibly within a fortnight. Mr. Munro had nothing more to say regarding the acquisition and operation of the property further than was announced in the Daily News a few weeks ago at the time of the transfer. The work to be instituted this year will consist of development to ascertain the best method of treating the ore.

GRANBY HEAD IS AT ANYOX

Col. J. T. Crabbe was in City Yesterday Bound North in Company With H. S. Munro

Col. J. T. Crabbe, president of the Granby Consolidated Mining, Smelting & Power Co., was in the city on the Prince Rupert yesterday afternoon bound for Anyox in company with H. S. Munro, general manager. He will spend a week or two in the north and will inspect operations at Anyox and also pay a visit to Stewart Island.

Although this is not Col. Crabbe's first visit to Anyox, it is the first time he has been there in his capacity as president which he assumed this year succeeding Dr. William H. Nicholls, of New York. Col. Crabbe is a retired United States army officer and he resides in New York City.

BROKE RIBS AT DUTHIE MINES

H. Henry of Smithers Met With
Serious Accident From Fall-
ing Rock

SMITHERS, June 21.—The Duthie Mine on the Hudson's Bay Mountain was the scene of a very painful accident on Monday when H. Henry suffered severe injuries from falling rock. With great difficulty the unfortunate man was brought to Smithers Hospital, where it was found that in addition to several broken bones and ribs he was suffering from other internal injuries. He is now progressing favorably.

A coincidence of the case is that his brother, Jack Henry, has just resumed work after recuperating from broken ribs and a general shaking up which he received when his team bolted a short time ago. Both men are brothers of William Henry, real estate agent, of this town.

C.P.R. To Electrify
The Mountain Line.

Possibly when the C.P.R. electrifies the mountain line we shall get freight rates to the Pacific coast made the same as those to the Atlantic. The C.P.R. seems to have been the chief stumbling block as that railway has not the grade to successfully compete at the lower rates. Given more economical facilities for handling the traffic and it is possible they will then be able to overcome the present handicap.

No one wishes the C.P.R. anything but the best success. It was the pioneer road and is looked on and is one of the great Canadian institutions of which we are proud. So big has it become and so powerful that it is sometimes difficult to control and it is said quite openly that the big corporation controls every government no matter of what shade of political opinion. Liberal, Conservative or Farmer, and that if at any time a labor government should be chosen the corporation will control it also. While that is talk, it emphasizes a truth, which is that the C.P.R. is not only a most powerful factor in the development of the country but a political factor that always has to be reckoned with and that looks at all matters from the business viewpoint rather than the ethical.

Equalizing Of
Freight Rates.

Prince Rupert stands to gain a great advantage from the equalization of freight rates. Anything which makes it easier to do business on the Pacific in competition with the Atlantic is favorable to the establishment of shipping business here. As long as we are under a handicap as against the East, we shall find it that much more difficult to induce shipping to come here. At present only three per cent of the grain raised on the prairies comes out by the Pacific. Let that be steadily increased and the pressure on Vancouver would become so great at once that we should get the overflow and become established as a second grain export route.

Value To Country
Of Motor Roads.

Motor roads are of great value to the country. British Columbia is the great scenic province of the west and people from the American and Canadian prairies as well as from the states directly to the south will come here to holiday. Because of that it is very desirable that motor roads should be built as soon as possible.

Take the case of Prince George. A good motor road is required between that town and Ouesnel to join up with the old Cariboo road from Ashcroft. That would be of much more benefit to Prince George than the P.G.E. Even if the P.G.E. were operating out of Vancouver to Prince George it would be nothing but a jerkwater road and would make no appeal to tourists.

The big railway companies would route their passengers over their own roads which they spend much money to advertise. On the other hand those who tour in their own autos are anxious to get north in the summer and many will go as far north as possible. Let there be a good road to the north and visitors will come by the thousands and will place the country permanently on the map. Motor traffic will be an aid to the railway and the whole province will benefit.

PROBLEMS ARE
DISCUSSED BY
ATTORNEY GEN.Hon. A. M. Manson Gives Inter-
esting Address to Women
in Victoria

VICTORIA, June 21.—"One of the hardest things governments have to fight is the crime of indifference to political responsibility which is too often shown by the average man and woman. Business men and women should awaken to the sense of their responsibility and by the intelligent exercise of the franchise acquaint governments with their wishes. Only in this way will you offset the hoipolloi of petty grafters who, because they shout the loudest, apparently express the will of the people."

This comment was but one of the many trenchant observations made to the members of the Liberal Women's Forum by Hon. A. M. Manson, Attorney-General, in the course of an address on "Government."

The speaker enunciated the principals of party government, with particular emphasis on those of the Liberal party. He urged women to take a stand on one side or the other in preference "to sitting on the fence of a third party," and further stated that he did not subscribe to the theory that wives voted with their husbands. Rather, his experience imbued him with the belief that many husbands voted, consciously or unconsciously, according to the opinions of their wives.

After dilating upon the multifarious duties coming within the purview of his department, the Attorney-General touched upon various matters of legislation. The liquor problem and the Government's fight to secure necessary legislation from the Federal authorities to prohibit the private importation of liquor gave rise to the Minister's abjuration that "women of every political shade of thought should back the Government in its fight to protect the homes of this province." It is a matter of the greatest moment not only to Liberal women but to every woman and to every decent man that this legislation should pass the Senate and it is up to the decent citizens to back the Provincial Government in its fight against the boot-legging interests. Mr. Manson suggested that women's organizations, whether political or non-partisan, should take the necessary steps to convey their wishes in this matter through the medium of resolutions which, to be effective, must reach the authorities at Ottawa before next Tuesday.

The problem of the movies was also touched upon by the speaker. Mr. Manson declared that much of the remedy for the present situation lay in the hands of the public. "As long as men and women will sit and see on the screen things that they should not countenance in their homes, as long as they will tolerate the showing of crime and sex problem films without protest, so long will these things endure, for the Government in this as in other matters can only take action according to the expressed will of the people."

Concerning the juvenile court problem, Mr. Manson stated that he was entirely in sympathy with the movement to ensure their fullest operation and, further, that he hoped to some day see the jail system on a different basis, aiming at the reclamation rather than merely the punishment of the offenders. Mothers' pensions, the Workmen's Compensation Act and other beneficiary measures were briefly reviewed by the speaker, who in closing reiterated his advice to the women to keep in touch with matters of political moment.

THERE have been all sorts of criticisms of saxophone music but in spite of everything they say, it was clear to everyone present at the Elks minstrel show that the sound came out of the big end of the horn, which was the proper place for it to come from.

NOBODY is just as mean as a telephone girl. I was talking to my best girl and was just working up to an interesting point when the connection broke and central quietly inquired "Did you get them?" I explained in terms unmistakable what had happened, and then the hello witch whispered "Here they are," and the girl's mother explained that Lottie had a young man waiting for her and was bound to go. Such is life.

She will answer to the charge before Magistrate McGlymont this afternoon, now being in jail.

Mr. and Mrs. F. Mansell, of Vancouver, arrived in the city on last night's train after spending three weeks in Manitoba on holiday. Mr. and Mrs. Mansell are the parents of George Mansell, one of the former standbys of the Sons of England football team. George is now working in Vancouver. Mr. and Mrs. Mansell return south on tonight's steamer.

Members of the crew of the steamer Prince Rupert are getting the habit of taking dips in Prince Rupert harbor while the steamer is in port. They say the water here compares favorably with that of Vancouver in temperature. The high record diver of the ship is Fred Gorum, assistant purser, who however has not yet summoned the courage to take the leap off the bridge.

The following passengers are booked to sail for the south on the Prince Rupert tonight: Mr. and Mrs. D. L. Anderson, Mr. and Mrs. H. L. Sisler, Miss H. Fotherby, Mr. and Mrs. P. M. Blanker, Mr. and Mrs. Feltrup, Mr. and Mrs. L. M. Castner, Miss K. Downing, Mr. and Mrs. Ames, Mrs. Strange and family and Mr. and Mrs. White for Vancouver; A. G. Knowland, for Ocean Falls.

The city solicitor's definitions of clubs were adopted by the city council at a special meeting held yesterday afternoon, the definition regarding Dominion clubs being struck out, however. No further action was taken by the council on the question of license regulations. The meeting was a short one. Mayor Newton was in the chair and Ald. Munro and Ald. Currie, who are out of town, were not present.

FISH ARRIVALS

Not Enough Cars to Handle all Halibut Offering This Morning

Six American schooners marketed 75,000 pounds, and thirteen Canadian schooners marketed 107,300 pounds, a total of 182,000 pounds of halibut at the Fish Exchange this morning. The eastern demand in the home market remaining firm, the Canadians obtained practically the same prices as did the Americans for first class catches while for second class fish the home boats received from 1c to 1½ more. Two boats marketed 3,300 pounds of salmon.

The refrigerator car shortage is still causing some anxiety to the fish buyers and only three cars were spotted today. It is expected that the car shortage will be solved within the next few days when additional refrigerator cars will arrive from Winnipeg.

The arrivals and sales were:

American

Carolyn, 15,000 pounds, and Mira, 12,000 pounds, at 14.1c and 10c; to the Pacific Fisheries Ltd.

Royal, 15,000 pounds, at 13.3c and 10c; Bravo, 8,500 pounds, and Harvester, 10,500 pounds, at 13c and 9c, to the Canadian Fish & Cold Storage Co.

Lansing, 11,000 pounds, at 13c and 9c, to the Alfin Fisheries Ltd. for Ketchikan delivery.

Canadian

Joe Baker, 10,000 pounds, at 13.3c and 10c, to the Canadian Fish & Cold Storage Co.

Toodie, 4,800 pounds; Dolphin, 9,000 pounds, and Noreen, 10,000 pounds, at 13.5c and 10.5c, to the Royal Fish Co.

Maud, 5,500 pounds; Cayceon, 8,000 pounds; Reveille, 14,000 pounds; Kobe, 1,500 pounds, at 13.1c and 10c, to the Canadian Fish & Cold Storage Co.

Soap that soaks clothes clean

different from anything you have ever used before

Rinso is an entirely new kind of soap, every granule made of pure materials perfectly combined.

Just by soaking, in its big lasting suds, the most ground-in dirt is gently loosened and dissolved. Only the very dirtiest places need to be rubbed at all.

NOTE: In hard water it takes from 2 to 1 package of Rinso to a tub to make good suds. In very hard water you will need from 1½ to 2 packages to a tub to get the big lasting suds that loosen all the dirt.

Dempsey-Gibbons Battle on July Fourth will be Good Exhibition but Latter will Lose by Eighth

(By Stephen Dumas, Alice Arm).

In the little town of Shelby, Montana, known only in the past as "Shelby Junction," Tommy Gibbons, of St. Paul, Minnesota, on the morning of July 1, in a 24-foot ring, will attempt to turn back the hands of time and reverse the old saying which has been handed down to us for generations that "Youth must be served." Tommy says, "No, age must predominate." He either believes what he says or must have been dreaming of Barnum who said that the public liked to be humbugged.

However, there is no doubt that it will be a great sporting event. Men and women from all over Canada and the United States will gather together on the burning sands of that little Montana town to see what I would term two of the most scientific exponents of modern boxing meeting for the world's heavyweight championship. Both are possessors of terrific punches and they are evenly matched in size, reach and ring generalship.

No doubt the great audience will be treated to one of the finest exhibitions of the manly art of self defence that has ever been witnessed in any ring since the memorable battle between James J. Corbett and Robert Fitzsimmons on March 17, 1897, at Carson City, Nevada, when the latter won in the fourteenth round. In some ways the forthcoming Fourth of July fight compares with the Carson City affair. The challenger in that case was 35 years of age and was the lighter man. The same can be said in Gibbons' case now. He is the older man and is thirteen pounds lighter than Dempsey. In the Carson City battle, the challenger was pitted against a very clever boxer, the father of modern boxing, but the latter lacked the punch to put his opponent away. In Dempsey's case, however, it is just the opposite. Dempsey's punch has made him the great boxer that he is today and that alone will cause Gibbons' downfall on July 4.

Gibbons Confident

Gibbons will be confident of victory, in keeping with the characteristic of his race, but the terrific pace that Dempsey will set, together with his punching ability and endurance will, in my opinion, wear Gibbons down inside of the eighth round. Dempsey, in ring generalship, has proven to the world that the ring has never had his equal. What I mean by that is that under fire he is cool and calculating, always figuring out his line of defence but never over-confident of winning until the fatal ten has been sounded. Over-confidence on the spur of the moment has defeated many a fighter. Losing their heads, playing to the galleries or burlesquing when they had their opponents going has proven the downfall of many fighters. Dempsey does not do this.

Not so With Dempsey

Jack Dempsey is very careful when under fire. He is also very careful when fighting a cunning boxer and is watchful of he who may be shamming in order to get in the fatal punch. Past fights of Dempsey's will prove this fact.

Dempsey's faculty of paying strict attention to his man has been always noticeable. It is easy for a man to be cool and smile when he is winning but it takes a brainy fighter to be so under fire.

Looking up records, we find

The Sons of Canada won the closing game of the Senior Football League series last night by a score of 1 to nil over the Sons of England. It was a loose and featureless exhibition and the fact that there was nothing much at stake seemed to be reflected in the quality of play. There was too much heavy kicking with little or no combination work on either side.

Playing downhill, the Sons of Canada scored the only point of the game through Eddie Smith in the first half.

There was a fairly good crowd on hand to witness the match.

George S. Russell was referee. Fred Hardy and Dick Howe officiated on the side lines and the teams took the field as follows:

Sons of Canada—J. Marks; H. Menzies and W. Murray; G. Mitchell, Y. Menzies and J. Hamilton; B. Astoria, W. Mitchell, J. Mitchell, E. Smith and A. Mitchell.

Sons of England—E. Craggs; D. Hodgson and Dick Lamb; Hodgkinson, Kelsey and Findlay; George Hill, W. Hamilton, L. D. Beasley and J. Farquhar.

DRAW FOR DOMINION DAY FOOTBALL CUP

Sons of England and Grotto Will Preliminary on June 25 and Sons of Canada Get Bye

The Sons of Canada got the bye in the draw for the Dominion Day Cup football series and will enter the final on July 2 with the winner of the preliminary game between the Sons of England and the Grotto.

The first game of the series between the Sons of England and Grotto will take place on June 25 with George Russell acting as referee. If a replay is necessary, it will take place on June 28.

SUFFERED SO from Heart and Nerves LIFE WAS A BURDEN

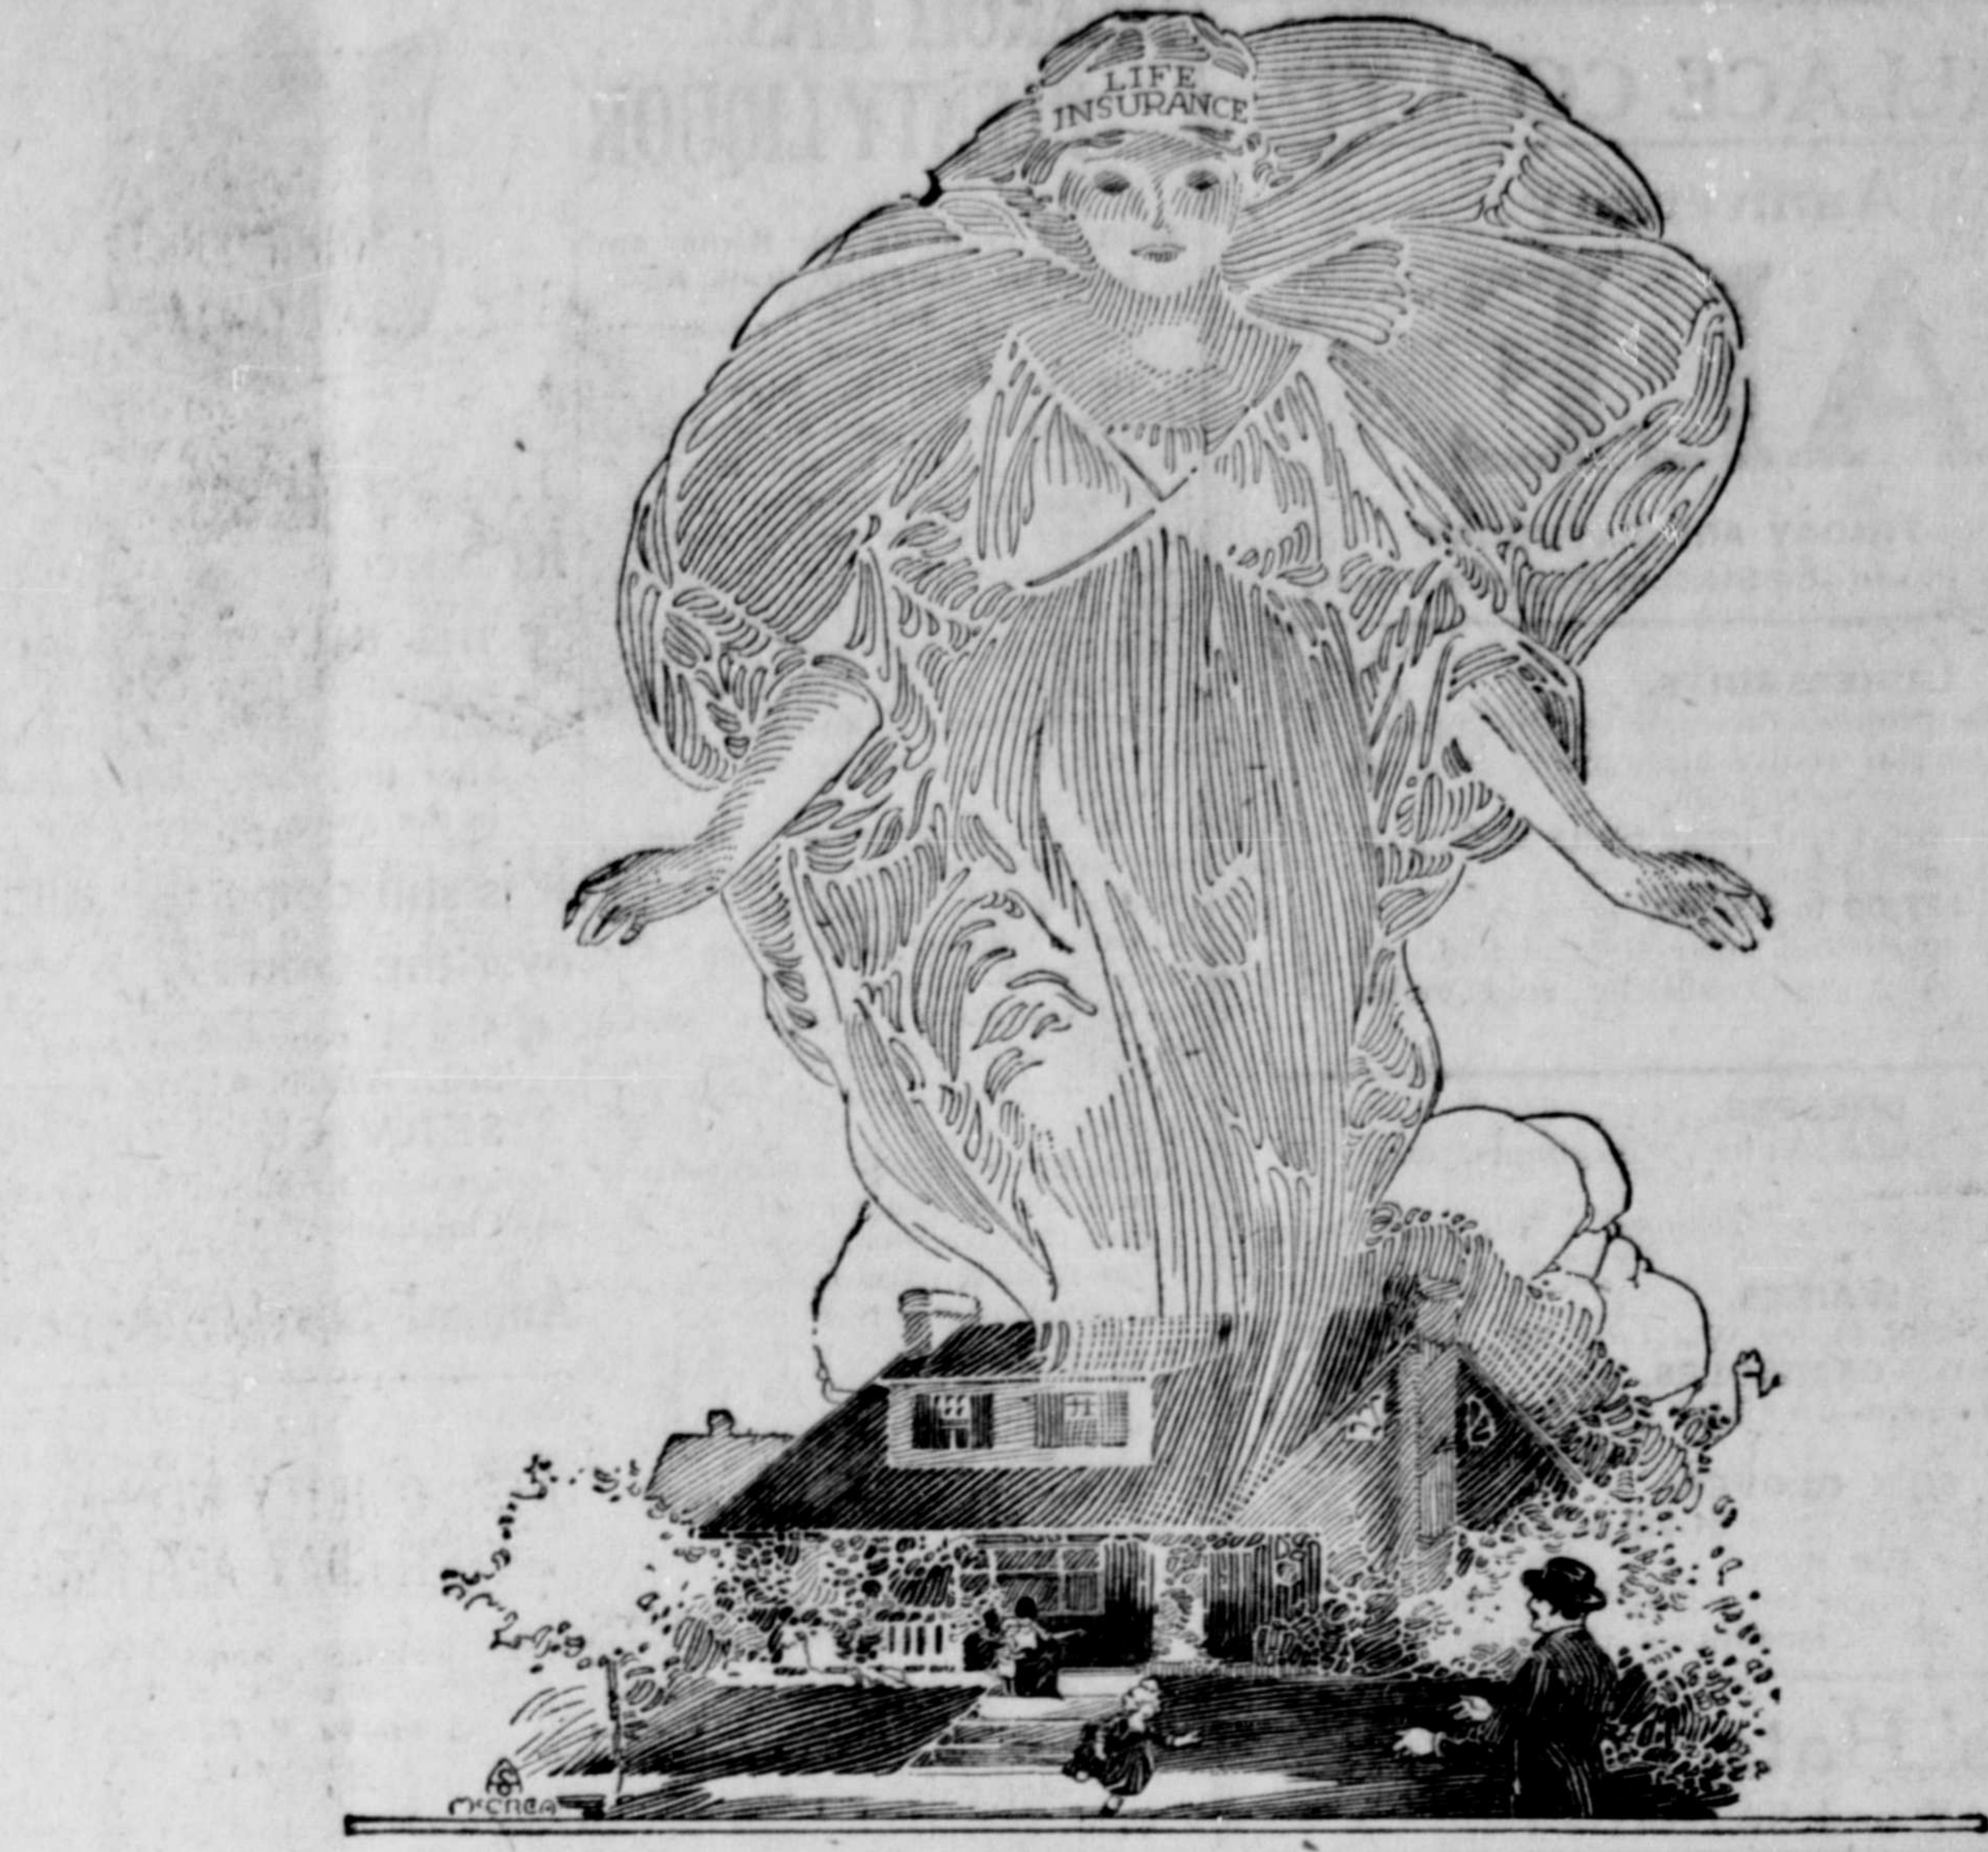

Mr. A. H. Lee, Beamsville, Ont., writes:—"I am delighted to let you know what I have to say regarding the good Milburn's Heart and Nerve Pills did me."

A short time ago I suffered with heart and nerve trouble, and was so bad I could not sleep, only about two hours each night. My heart was so bad I had spells when driving on the road and would faint away, and neighbors would carry me in from my wagon. I also took these pills in the night and during my daily work on the farm. My nerves were so bad I would jump out of bed, and was then compelled to walk the floor before I could settle down again, but after taking a few boxes of

Milburn's Heart and Nerve Pills

I can honestly say I am a relieved man. I now feel in the best of health, in fact, the best I've been in for three years, and can do any class of work with pleasure where before life was a burden to me."

Your Home

Have you placed the "guardian angel" of life insurance over your home?

A home protected by life insurance—covering the mortgage and the necessities of life—is one of the happiest places possible. There is no dread of the future; no fear of losing the home through forced sale should death occur to the bread-winner; nor is there any likelihood of the mother having to supplement a meagre income by working, nor of the children having to forego the advantages of an education.

The guardian angel of life insurance simply takes your place and "carries on." With a mighty three billions of dollars she is standing watch over thousands of Canadian homes, where the parents and children all live in the happiness that comes through the knowledge of adequate protection.

Life Insurance representatives are the great ambassadors to your home. They will be pleased to show you how simply and easily you can throw the "mantle of protection" around it.

NOTHING CAN EVER TAKE THE PLACE OF YOUR HOME. IT IS A WORLD IN ITSELF ABOUT WHICH EVERYTHING REVOLVES.

DETROIT HAS PLENTY LIQUOR

Most of it Made at Home and
Labelled Canadian It is Assorted

DETROIT, Mich., June 21.—Beer and liquor are obtainable at scores of places in the heart of Detroit, in road houses, in the cutting districts and in restaurants, soft drink establishments and similar places in the city and in Ecorse, Wyandotte and other down river towns. But more than fifty per cent of the illicit beverages sold is made in and around Detroit.

This is the consensus of opinion of rum runners, police, federal and local peace officers and Canadian customs officials. The bootleggers who are selling alleged Canadian whiskey claim that it is genuine Canadian—but they stand alone in their assertions.

The runners who are operating boats across the Canadian river—and they are openly and steadily at it—admit that they are not transporting much whiskey.

An operator sat in his boat at Petit Cote, the Canadian terminal for the beer running fleet, taking on a load.

"Whiskey running is falling off," he said. "In the first place there is little demand. The Americans are apparently getting all the whiskey they want, but it isn't coming from Canada. Our customers over there don't ask us for whiskey. They want beer."

400 Gallons a Day

This operator averages about 400 gallons of beer a day in his out board motor row boat. He makes, at fifty cents a case, about \$65 for four trips. He clears his boat from the Canadian port with regular clearance papers, labelled "Beer for export." When he leaves port he can't go back until his cargo has been discharged, and he has been coming

in and out for three years. Customs officials at Windsor, who are in close touch with the amount of liquor and beer taken out of the country, refuse to disclose figures. But one of them said, "anyone who thinks they are running large quantities of whiskey is crazy."

The cafe and road house owners, and proprietors of other establishments on this side where liquor is sold, do not get their "hard" liquor from Canada. It is the claim of the runners. Many of them buy it as Canadian liquor, but it is actually made in Detroit and fitted with counterfeit labels.

Import to Canada

Canadian distillery officials scoff at the stories of great quantities of whiskey going across the river. They claim that they have more business than they can handle, and that it would be exceedingly difficult for anyone to get the men to smuggle. In fact, there have been cases reported to the customs officials where attempts were made to smuggle alleged Canadian liquor from Detroit into Canada, to be disposed of in Windsor. One shipment was confiscated. It was tested and found to be alcohol, colored and flavored.

Detroit is wet. One can order beer by the case, and it will be delivered to his home. It is possible to obtain whiskey in many hotels. In the heart of the city, beer, wine and whiskey are sold openly. Synthetic gin is plentiful. But tracing down every possible source, and the conclusion invariably reached is that not more than 15,000 or 16,000 gallons of beer and whiskey—and virtually all of it is beer—are coming across or under the Detroit river. Home brew, sometimes disguised as brewery beer, "faked" whiskey, in Canadian labelled bottles, and synthetic gin, in bottles labelled as pre-prohibition gin, are dispensed freely.

But more than fifty per cent of Detroit wetness is manufactured in Detroit.

5,000 VISIT LINER DORIC

Official Welcome to Bin New
Steamer at Montreal Yesterday

MONTREAL, Que., June 21.—Greeted by siren-blasts from all the ships in port the new White Star Dominion liner Doric, the largest ship that ever entered the harbor of Montreal, docked here at 10 o'clock yesterday morning after an uneventful maiden voyage from Liverpool and Belfast. The passage of the Doric was retarded by two days of bad weather but her performance in view of the caution always displayed on a first voyage was considered highly satisfactory by officials of the line. The big ship, gaily decorated with bunting, was welcomed to Montreal by many well known shipping officials, including M. P. Pennell, general manager of the port, who extended the welcome of the harbor commissioners to Capt. John Davies, the Doric's veteran commander. Others at the pier included Major P. A. Curry, general manager of the White Star Dominion lines, Capt. J. E. Symmes, harbor master; Capt. R. C. Brown, port warden; L. S. Tobin, C. E. Mason and L. A. Collins, of the White Star Dominion lines.

In the afternoon the ship was thrown open to the public and a throng estimated at nearly five thousand persons visited the liner during the space of four hours. Today the company will entertain large gatherings at luncheon and dinner, when many prominent citizens will be the company's guests.

The Doric will sail for Liverpool on Saturday and thereafter be in regular service on the St. Lawrence route.
