EFFORTS BEING MADE SETTLE REPARATIONS

WAR VETERAN WOULD HAVE CONVENTION COME TO DEFENCE OF FRANCE

Attempt Being Made to Find a Way out of Difficulties in Reparations: Divergencies Exist

LONDON, July 4.—The British cabinet today attempted to find some ray of light in the ever thickening fog of the reparations situation. Lord Curzon presented his colleagues with the substance of yesterday's verbal replies of France and Belgium, explaining the points on which those two countries showed any tendency to meet the British views.

The deliberations of the cabinet were shrouded with more than the usual secrecy as the whole reparations problem is of such extraordinary delicacy and the present conversations have such a direct bearing on the Anglo-French relations that only harm would result from undue stressing in the public press of the obvious divergencies which exist among the allies.

PREMIER BALDWIN IS WILLING TO LAY ON TABLE TERMS OF U.S.

LONDON, July 4.—Prime Minister Baldwin told a questioner in the House of Commons today that he was perfectly willing to lay on the table the terms of the United States proposal asking for power to seize outside the three-mile limit ships allegedly engaged in the smuggling of intoxicating liquors providing the consent of the United States government was obtained. Steps will be taken to obtain this consent, Premier Baldwin said.

ALBERT RUMSBY TOOK OWN LIFE AT VICTORIA

Was Found Dying on His Wife's Grave With Safety Razor by His Side

VICTORIA, July 4.—Albert Rumsby, a prominent citizen, was yesterday found dying on his wife's grave with a safety razor by his side. He died last night. Mr. Rumsby was 30 years old. He was married about a year ago and his wife died a month ago. He came here to be near her grave and evidently he ended his life in a fit of melancholy.

MINSTREL TROUPE AND BALL TEAMS TO ANYOX

Arrangements Being Made For Big Excursion North at Beginning of Next Week

Arrangements are being made by Ben Self for the sending of the Elks' minstrel troupe and picked baseball and football teams from this city to Anyox early next week. The present plan, which has not been finally confirmed, provides for the party to leave here on the Cardena for Anyox next Sunday night arriving early Monday morning at the smelter town and spending the day there. Returning from Stewart, the Cardena will make a special call at Anyox to pick the party up and bring them home. One baseball game, one football game, the putting on of the minstrel show and a dance afterwards will comprise the day's program at Anyox.

If 50 persons, including the members of the show and the teams, can be obtained to make the trip, it is expected a special excursion fare may be obtained.

Interesting Account of Trip to Outpost of Cassiar District is Given by Kergin, Atlin Member

After attaining the distinction of being the first member of the legislative assembly to visit the furthestmost point in his constituency, Porter's Landing at the head of Dease Lake, H. F. Kergin, M.L.A. for Atlin district, returned to the city at the end of last week from the north. He was away for three weeks and covered every point of settlement between the mouth of the Stikine River and Porter's Landing, going into their wants at first hand with the prospectors and miners, J. A. Stephen, assistant public works district engineer, accompanied him.

B.C. BRANCH LINES WILL BE BUILT IN SPITE SENATE ACTION

OTTAWA, July 4.—Branch lines in British Columbia of the Canadian National Railway were contracted for before the recent Branch Lines Bill was brought up in parliament. In this case they will not be affected by the Senate's action in giving six months' hoist and the branches will be proceeded with. One short branch on Vancouver Island and the Kamloops-Vernon extension are affected.

Ten Thousand Veterans Meeting in Vancouver Today: Resolutions up

VANCOUVER, July 4.—Delegates to the sixth annual convention of the Great War Veterans' Association at the first day's session heard the address of acting president W. D. Sharpe reviewing the achievements of the association.

There was referred to the resolution committee to be brought up later a resolution introduced by Canon Scott that a wire be sent the Prime Minister of England imploring that there be no breach with France over the Ruhr crisis. "Any man," he said, "who has seen how poor old France has suffered, knows the ruin wrought in towns and villages will feel tremendous sympathy for her in her efforts to get re-established."

MANY PARTIES COMING HERE

Excursionists Visiting This Part of Country During Next Two Weeks

BANKERS AND TEACHERS

All Accommodation on Monday's G.T.P. Boat is Already Sold Out

Two important excursion parties from the East will arrive in Prince Rupert next week. One will be the second personally conducted C.N.R. excursion tour of prairie and northern United States school teachers and friends and will arrive on Monday; the other the Wisconsin Bankers' Association annual excursion, which will arrive on Thursday, July 12.

The big teachers' excursion party, which contains 200 persons, will come in by special train at 8 o'clock on Monday evening and will leave for the south on the Prince Rupert at 11. As a result of the excursion, all accommodation on the steamer southbound is already sold out and none will be available locally. E. G. Wickerson, C.N.R. travelling passenger agent at Regina, is accompanying the party west and R. F. McNaughton, local district passenger agent, will go to Jasper tomorrow night to meet the excursionists and accompany them to Prince Rupert.

The Wisconsin Bankers' Association party, consisting of 50 members, will arrive by the regular train on Thursday, July 12, at 4:30 and will spend the night here sailing north on the Princess Louise the next morning. Accommodation has been reserved at the Prince Rupert Hotel for the night's stay of the excursionists. The local Board of Trade will take the visitors for a cruise on the harbor on Thursday evening and on Friday morning the railway company will run a couple of coaches up to Seal Cove to enable them to inspect the Canadian Fish & Cold Storage Co.'s plant. Leaving here on the Princess Louise, the party will go to Skegway returning south to Vancouver on the same steamer.

POLICE MAGISTRATE SALARY IS REDUCED

City Council Notified of Order-in-Council Dropping Stipend from \$150 to \$125

The city council last night received notification from Victoria of the passing of an order-in-council reducing the salary of the police magistrate from \$150 to \$125 per month. This follows a request from the council some weeks ago asking for a reduction. The communication was referred to the finance committee.

NO RAILWAYS TO BE BUILT IN PROVINCE

OTTAWA, July 4.—Officials of the department of railways today positively stated that there had been no qualifications in the bill which provided for branch lines construction on the Canadian National Railway and the Senate in killing the bill precluded all construction of new lines in B.C. as in other provinces.

INTERESTING ACCOUNT OF TRIP TO OUTPOST OF CASAIK DISTRICT IS GIVEN BY KERGIN, ATLIN MEMBER.
(continued from page one)

expected that, by 1924, motors would be able to make the journey from Telegraph Creek to the head of Dease Lake, a distance of 75 miles, in one day, whereas it now occupied 10 days by the old pack train method.

Tells of Trip
Mr. Kergin left Prince Rupert on June 11, arriving at Wrangell the following day, this place being the starting point for the Stikine. Here the Barrington Transport Co., which operates a line of gas boats on the river, had just arrived down after an absence of eight days in which they tried to reach Telegraph Creek, but without success for, at this season of the year, the river was in flood, and they could only get as far as the Canyon.

"We left, however, the following day," said Mr. Kergin, "and proceeded as far as the Boundary, about 30 miles from Wrangell. Here the customs have an officer stationed and, after the usual customs preliminaries, we started on our way."

"The Stikine in size and character somewhat resembles the Skeena and is navigable for steamers of light draught and good power as far as Telegraph Creek, 150 miles from the mouth. The current of the Stikine is swift, but there are no so called rapids, the Little Canyon 75 miles up offering the worst impediment during the months of June and July when the river is at its highest stage. This canyon is about three quarters of a mile long with sheer rock walls from two to three hundred feet high and in places not over seventy-five feet wide. Here, at the mouth of the canyon, ten horses were taken on that had been left there the previous trip when the boat could go no further. The water, however, had receded and the passage of the canyon was navigated without much difficulty although the horses which we had taken on added considerable weight to our craft."

Magnificent Scenery
"The scenery on the Stikine will compare with any on the continent and no doubt will be highly patronized in time when it becomes more widely known. There are several important tributaries which flow into the Stikine, chief amongst them being the Iskof and Scud coming in from the east and the Clearwater from the west 14 miles above the canyon. The glaciers, however, are the most important features. The First or Little Glacier is situated about 10 miles from the mouth. The next is the Great Glacier with a width on the river front of about four miles. Next comes the Dirt Glacier, so called from the quantity of rocky material with which its surface is covered, giving it a muddy appearance. Last comes the Flood Glacier, so named from the great flood of water which it gives off during the end of each summer."

"We arrived at Telegraph Creek, without any mishap on June 15, after putting out a few cables to help the boat over several difficult riffles. This is the only town in the district and the outfitting center for the entire interior. It is situated on the north side of the river occupying the Delta of the small stream, which bears its name, and the lower terraces bordering on it. It is a clean and well kept town, consisting of a double row of houses and stores which border on the river front. Here we waited for two days procuring pack-horses for the journey to Dease. The Telegraph-Dease wagon road has its start at this point although there is a fairly good wagon road from Telegraph to Glenora, the old boom town of '98 and Cassiar Central Railway days, which is situated about 12 miles below Telegraph. With the exception of a single row of log buildings, it is now deserted."

To Dease Lake
"The trail to Dease Lake was opened up by the government in 1874 and has since been kept in a fairly good state of repair. A few years ago it was opened up as a wagon road to the Tooya some 25 miles along the route. Leaving Telegraph Creek, the road out of the town follows along the base of a lava cliff with a fair grade to a height of 300 feet above the river when it opens out upon a broad terrace which it follows, keeping the course of the river for a distance of about 12 miles, when it descends into the Tahltan with a good grade built along the hill-side of rock and earth with rock walls built up in several places to strengthen the road."

Tahltan Valley follows a clay bank to an elevation of about 300 feet to the lava bed above which it follows in a north-east direction over a level stretch to Wards Hill five miles distant. At Wards the road climbs to a plateau about 900 feet high, along which it runs for about four miles over even ground then drops 1000 feet into the valley of the Tuva over which we crossed on a substantial bridge 224 feet long and 14 feet wide and constructed with 12 x 12 stringers and a double Queen truss. Here the road descends out of the valley 1000 feet to the top of another plateau, along which it runs to the north-east over a trail which at present is almost good enough for a wagon road, until Caribou Camp is reached. This place is considered the half way camp to the lake. From here on to the Tazilla, 20 miles from the lake and on to the lake itself, the trail is fairly even."

Not Difficult Road
"The construction of a wagon road with good grades from Telegraph Creek to Dease Lake would not be very difficult or expensive. In fact the hardest part of the road—that between Telegraph and Tooya—has been overcome and from there on, some small side hill grading and fills is all that is necessary. With the government grader now at work, it would be possible to take a motor right through this fall. This is assured for next summer in any case."

Mr. Kergin went on to Victoria after arriving here. He is expected back this week accompanied by Mrs. Kergin and family who have been in the capital for several months. They will return to their home in Alice Arm.

CONVICTIONS UNDER FORESTRY LAWS

Several Interior Men Are Fined For Setting Out Fires

At Smithers, on June 25, Geo. Oulton Louis Devoin and Frank Gilbert were convicted before Magistrate Hoskins of setting out fires without permits contrary to the Forest Act and were fined \$25 and costs each. At Forestdale, on June 27, John David was convicted before Magistrate Hoskins of setting out fire without a permit and was fined \$25 and costs.

At Sanctuary Lake, on June 27, before Magistrate Mulyena, J. Vanzanton was fined \$25 and costs for failing to report a forest fire.

SMITHERS TO HAVE ANOTHER SCHOOL

Tenders Being Called For One-Room Building to Accommodate Increased Attendance

SMITHERS, July 4.—As an evidence of the ever increasing population, tenders are being called for the construction of an additional school building. The large addition of two years ago is proving inadequate and it has been decided to erect another one-room structure. The new school is expected to be ready for use at the beginning of the fall term.

POWER OF SUGGESTION

Travelling is becoming more and more of a fine art. Formerly it was regarded simply as a process of getting from one place to another—most tiresome but unavoidable. Now it is looked upon as a joyful undertaking, a delightful interlude in the regular routine of life, especially when the journey is over the lines of the Canadian National Railways. The keynote of the Canadian National Railways is Service. That service aims to make the passenger as comfortable as possible, and to save him every bit of unnecessary effort. Thinking is a mental effort. Patrons of the Dining Car Service will now find themselves saved that trouble, by a casual glance at the little dodger that is distributed throughout the coaches on all trains to which Dining or Cafe Cars are attached. Upon the dodger, which is printed in both English and French are several suggestions for a suitable combination of dishes for the coming meal. Prices for a complete menu for Breakfast, Dinner and Supper range from 35 cents to \$1.25. The traveller merely needs to decide what he wishes to pay, and upon entering the Dining Car he will find himself served as quietly and satisfactorily as he would in any well-appointed home.

Mrs. Kenny, wife of Dr. Kenny, of Toronto, will arrive in the city this week to take up permanent residence.

Word received from one of two of the canneries on the Skeena is to the effect that the catch this year is better than last so far.

J. H. Pillsbury, manager of the Canadian National dry dock, is expected home on the Prince Rupert this afternoon from Vancouver. He went south last week in company with Sir Henry Thornton and party.

The city council last night granted the Trades & Labor Council exclusive use of the Aeropolis Hill grounds on Labor Day, September 3, for the staging of the annual celebration provided that usual conditions are observed.

The Ketchikan motorship Belingham was in port from 12.30 midnight to 5 o'clock this morning unloading one carload of fresh halibut and salmon and 120 barrels of herring oil from Alaska for delivery east over the Canadian National Railways. The fresh fish was unloaded at the Royal Fish Co.'s plant and the oil at the lumber dock.

William Goldbloom, the local fur dealer who was the first passenger to step off the new steamer Cardena on her maiden trip from the south last Sunday night, speaks very highly of the new vessel and the service given on board. Mr. Goldbloom, who has travelled on almost every ship on the coast, made the passage from Vancouver. The steadiness of the boat is a feature, he says, and though it was rough in Queen Charlotte Sound she hardly made a tremor.

ASPHALT AT BURNS LAKE

Gerow Brothers, Who Have Been Seeking For Oil, are Rewarded

BURNS LAKE, July 4. — Considerable excitement is exhibited locally over a recent discovery of an oil seepage south of Burns Lake, west of Tehesinkut and north of Francois Lakes. Strong oil indications have been discovered during the past few years and oil-bearing shales are known by a number of local geologists to exist locally.

Don and Robert Gerow, two men with an extensive experience in oil fields, have been quietly working in this vicinity for years in an endeavor to confirm their hunch that considerable oil awaited the oil-driller in this field. They are now rewarded by several finds of asphalt deposits which are undoubtedly the effects of an oil seepage, being the residue left after the evaporation of the more volatile elements and chemical alteration of the remainder. The asphalt has been submitted for chemical analysis and the report is eagerly awaited.

CLOSING EXERCISES OONA RIVER SCHOOL

Porcher Island Residents Appreciate Work of Teacher, Miss Mary Fawcett

OONA RIVER, July 4. — The term at the Oona River School closed on Friday with the whole district turning out to witness the closing exercises.

Thanks to the teacher, Miss Mary Fawcett, the children here have advanced greatly this term and also, thanks to her, the school here is classed as one of the best rural schools in the province.

The program included a violin duet, well played, by two of the girls, also a beautiful song (duet) and a few sketches and dialogues.

B. Anderson, at the close, made a speech and, on behalf of the district, congratulated the teacher upon her success and thanked her for her good work here at the same time making her a presentation. The district also took the opportunity to bid her adieu as she has resigned her position here. She will be missed greatly by all, both as teacher and socially.

NAAS RIVER BRIDGE WILL BE AN ASSET

Cranberry Creek Crossing Opens Trail to Kitwanga For Stock Purposes

MIYANSH, July 4. — The construction of the new bridge at Cranberry by the provincial government will be a great asset to the valley as it will enable the Kitwanga trail to be made use of in order to bring in stock. The work is being proceeded with under the supervision of S. C. Gordon and will be completed about the end of August. The erection of this bridge is the result of strong representations made to the Minister of Public Works at Victoria during the past winter by P. Calnin and E. G. Newham, Dominion constable. With the completion of this and also the paddle steamer, which is being built by Mr. John Derby, the development of this part of the country will be rapid.

BURNS LAKE AND LAKES DISTRICT

A birthday party was held last week at the home of Mr. and Mrs. H. Piche, Decker Lake, in honor of G. Saul. In addition to the guest of honor and his immediate relatives, a large number of local residents and guests from Burns Lake helped to make up the party. The birthday cake, decorated with its nineteen candles, was a worthy tribute to the skill and artistry of the hostess, Mrs. Piche. Many new, and a few of the old fashioned social games, helped to contribute to an ideal evening. Bob Saul largely contributed to the life of the party with his unflinching wit, vim and pep.

S. Marsh of Topley managed to get away from the exigent duties of attending to his store and made a trip to Burns Lake to visit some of his numerous friends on Friday.

C. Bannister made an auto trip from Smithers to Burns Lake on Friday and returned on Saturday morning to the new mining metropolis accompanied by Miss Irma Lewis and Wilmer and Harland Lewis.

E. R. Woodcock, who is making ties at Sheraton, was renewing old acquaintances in Burns Lake on Friday.

Many beautiful female forms may be seen bathing in Burns Lake now the warm wather is here. Several commercial travelers from Prince Rupert were observed using field glasses. No need for this, boys the girls are not shy. Close-ups are quite in order.

George Snell of Vanderhoof was in this territory acting as advance agent for the Provincial Party last Saturday. While here he made arrangements for a meeting to be addressed by General A. D. McRae and B. G. Stewart.

Mrs. J. Clyde Hunt arrived in Burns Lake from Fort Fraser on Saturday.

T. T. Dunlop of Smithers is spending the week-end in the district.

Wesley Williams of Palling arrived in Burns Lake on Sunday intending to go south to the Wistaria sports on July 2 but he changed his mind after hearing of the Decker Lake program for the same day.

Lawyer Fred Fraser left on Friday for the G.W.V.A. convention in Vancouver. His father, Fred Fraser, of the Government land office also accompanied him to the convention.

W. J. Carroll of Decker Lake spent Sunday at Burns Lake.

SMITHERS

R. McCulloch and P. Williams of Decker Lake were visitors in town over the week end. They state crop conditions in their district are excellent and they are enthusiastic over the showing of timothy hay of which they expect a bumper crop.

Many Smithereens are still on holiday bent and among those leaving town over the week end were Mr. and Mrs. W. Goheen and family bound for Toronto and Eastern points. Mr. Goheen will return within a month but Mrs. Goheen and family will remain away for the summer.

Mr. and Mrs. E. Harding and family are enroute to Vancouver, where they will spend their annual vacation.

Those returning from holidaying are Miss Florence Gray of the Union Bank staff, who visited with relatives in Edmonton and district; W. Duff, who enjoyed the sea breezes around Vancouver and Seattle, and Mr. and Mrs. S. Jones and child who spent their vacation on the Pacific Coast.

Small pox of a mild form has developed in town. A recent arrival, a boy from Edmonton, is the victim. As his condition was diagnosed in the early stages and prompt medical measures instituted, it is not expected that any further cases will appear.

NAAS RIVER

The village of Gillkadamix is almost deserted as the majority of the Indians are away at the canneries at the mouth of the river.

A great deal of mystery surrounds the arrest of James Smythe, the Miyansh mail carrier, and considerable inconvenience has been caused to the settlers here who are thus deprived of a regular mail service. The Dominion Constable has been approached on the matter but declines to make any statement.

The weather still remains fine and mosquitos are very active in the Valley this year. Mrs. Spencer encountered a grizzly bear on Thursday last while out walking but managed to get away before any harm befel her.

WATCH OUT

There is a rather cruel deception being practiced on women who desire Palmolive Soap. Common soaps are shaped and colored like it. Some are given names which sound like Palmolive. But they offer you nothing of what you seek, which is benefit to your complexion.

Palmolive has won millions of users by its remarkable aid to beauty. The demand has spread almost the world over—wherever beauty lovers exist. Its unique results have made Palmolive the world's leading toilet soap.

What you prize in Palmolive is the skin effects which ordinary soaps never brought you. Then don't be cheated of them. Don't let somebody make you think that a like-looking soap is Palmolive.

Another value you get in Palmolive is a 25-cent quality for 10 cents. That is due to enormous volume.

A beauty soap—a scientific toilet soap for 10 cents is unique. You are cheated of that extra value when you get an imitation. Nothing in all ages has compared with a blend of palm and olive oil for skin beauty.

Never in a soap has that blend been perfected as it is in Palmolive Soap. That is why it won supreme place with beauty-loving people.

Be sure you get it. Look carefully at the name and the wrapper. Otherwise an ordinary soap may be substituted, and you will think that Palmolive has deteriorated.

CITY PAYS FOR ENTERTAINMENT

G.W.V.A. Gets Vote of \$100 to Assist in Defraying Cost of Reception to Navy Men

The city council last night, on motion of Ald. Perry seconded by Ald. Macdonald, granted the Great War Veterans' Association \$100 towards the covering of expenses incurred in the reception given to the officers and crew of the light cruiser Curlew and destroyer Patricia which visited here last week.

The matter was brought up by Ald. Macdonald who felt that something should be done for the G.W.V.A. in view of the fact that it had stepped into the breach and given a fine entertainment. The ships had come in before they were expected, otherwise the city might have done something. He felt that a private organization should not be called upon to pay for such a reception when the city would get the credit.

MATT OLEDO FOR OLD MEN'S HOME

City Council Takes Steps Towards Sending Old and Almost Blind Man to Kamloops

A committee consisting of Ald. Collart, Ald. Munro and the mayor was delegated at last night's council meeting on motion of Ald. Stephens, seconded by Ald. Macdonald, to take steps to have Matt Oledo, aged 69 and almost blind, sent to the Old Men's Home at Kamloops as a provincial government charge.

The matter was brought up by Mayor Newton who stated that Oledo had been sent at the city's expense to Vancouver for eye treatment but he had become totally blind in one eye and could now hardly see with the other. He had no means of subsistence and something had to be done. He had been a resident of the province for 23 years and latterly had resided on the waterfront off Section 2. If he was given food he could get along himself.

Ald. Macdonald felt that the Old Men's Home would be the best place for Oledo and the provincial government should take care of him. Action with this end in view was accordingly taken.

Recently the council rejected an account from the Vancouver General Hospital for medical treatment for Oledo claiming that he was not a resident of the city.

FISH ARRIVALS

The Union steamer Cardena returned from Anyox and Stewart at 6:30 last night, and, after

loading fresh halibut at the Atlin Fisheries plant for Vancouver, sailed for the south at 7:30. The vessel was delayed this voyage by the fog in the harbor on Sunday night and, after leaving the wharf at 12:30, had to put in again until 1 in the morning. Several local people who made the round trip north on the vessel report a delightful voyage with splendid service.
