## NEW YORK YANKEES ARE WINNERS OF BASEBALL WORLD SERIES TODAY

**Stormy Weather and Lack of Bait  
Tied up Large Part of the Halibut  
Fleet Causing Prices to go High**

Owing to the stormy weather the halibut arrivals are likely to be restricted for some time to come. There is at present a big fleet of fishing vessels on the halibut grounds idle owing to bad weather or lack of bait.

The Canadian Fish & Cold Storage Company has received a telegram from Seward saying that the James Carruthers has had to land a broken cargo of fish there owing to the bad weather. She will outfit again and go once more to the fishing grounds before returning to this port.

Word received from S.E. Alaska is that there had been a small run of fresh herring but nothing like enough to provide bait for the fishermen. Locally at the Cold Storage plant some herring put up for other purposes is being sold to the fishermen for bait, and that is about all that can be secured. This scarcity of bait and the bad weather of the past few weeks has been responsible for the high prices prevailing.

The word that the Halibut Fishing Treaty is not to be enforced this year has been received with satisfaction by local people.

While everyone recognizes that the treaty will be a good thing, it was best to delay

it for one year owing to the uncertainty of enforcement.

Three American schooners marketed 17,500 pounds and four Canadian schooners marketed 19,000 pounds of halibut on the Fish Exchange this morning.

Prices took an upward trend for both American and Canadian catches.

The arrivals and sales were:

American  
Valorous, 11,000 pounds, at 19.8c and 12c, to the Canadian Fish & Cold Storage Co.

Vesta, 4,000 pounds; and Pelican, 2,500 pounds, at 19.3c and 11c, to the Royal Fish Co.

Fisher, 11,000 pounds, at 17.6c and 10c, to the Royal Fish Co.

Minnie V., 3,000 pounds; and Ethel June, 4,700 pounds, at 17.1c and 10c, to the Canadian Fish & Cold Storage Co.

Tramp, 1,000 pounds, at 17.4c and 10c, to the Atlin Fisheries Ltd.

YANKEES WIN  
FIFTH GAME

YANKEE STADIUM, New York, Oct. 14.—The Yankees submerged the Giants today under a shower of hits and won their third victory over the National Leaguers by a score of 8 to 1. The Giants were putty in the hands of Bush who gave them only three hits. The final scores for the game were:

	Run	Hits	Errors
Giants	1	3	2
Yankees	8	14	0

### YANKEES ARE CHAMPIONS

Score of Six to Four in Final Game at New York Today

R.	H.	E.
Yankees	6	5
Giants	4	10

NEW YORK, Oct. 15.—The New York Yankees are kings of the baseball universe for 1923. Coming from behind in the eighth inning this afternoon, when defeat seemed certain, the American League champions crushed McGraw's last pitching ace, Art Mehl, and scored five runs.

### LOCAL LABOR REFUSES WORK SHIP'S CARGO

Officials and Staff of Company Got Busy Last Night and Removed Goods

ARE NOT ON STRIKE

Taking the stand that it was against the constitution of their union to handle freight loaded by unfair labor which means other than members of the union, local longshoremen quit work on Saturday evening just after the steamer Prince Rupert arrived from the south.

F. W. Reich, secretary of the local branch of the I.L.A., making the above explanation to the Daily News this morning, stated that the union members here would continue to handle any freight not touched by unfair labor. This would include lumber and salmon arriving here for transshipment East. The action the local union had taken, he said, was not in the nature of a strike or sympathetic movement. Under union rules it was simply compulsory.

The local men quit Saturday evening shortly after the steamer Prince Rupert arrived and when about half of the mail had been taken off. Express and baggage was handled by company officials and others and the steamer pulled out for Stewart at midnight without discharging freight. She returned last night at 9 o'clock and her cargo was removed by officials and staff of the company who were assisted by certain local business houses. The vessel sailed for the south at four o'clock this morning.

### For U.S. President?

When Henry Ford was asked by Montreal reporters if he would run for President of the United States, he said, "I am not running for or against anything", but when asked if he would accept nomination if proffered, the motor car king replied:

"No one knows what they will do from one day to another."

Mr. Ford is here seen in conversation with Mr. Grant Hall, vice-president of the Canadian Pacific Railway, at Windsor Station, Montreal.

### Going to Relief of the Wrecked Kennecott S.S. Algerine Went Ashore

VICTORIA, Oct. 13.—As a climax to the week's remarkable series of marine mishaps the salvage steamer Algerine ran ashore tonight at Brodie Rock, Principi Channel when bound from Victoria to the wrecked motorship Kennecott at Graham Island. She is taking no water and apparently is in no danger. She carries a crew of 36 men.

VICTORIA, Oct. 14.—The Pacific Salvage Company's steamer Algerine, which went ashore in Principi Channel last night, was refloated today and proceeded slowly to Port Stephens under her own steam. Her port engine is disabled and her forefoot stove in. She will be towed to Esquimalt for repairs as soon as the Hercules of the same company can be sent to Port Stephens to take her south.

Port Stephens where the Algerine is anchored is not far from Prince Rupert, an inlet on Pitt Island. The vessel went ashore on Banks Island. She is making temporary repairs before going south.

The Wigwam, in charge of Capt. Swanson, and with Jimmie Thomas as mate, and the P.R.T., Capt. Reg. Green, went to the aid of the vessel on Saturday night towing two scows. They lightened the Algerine and it is probably partly due to their efforts that the vessel was able to get off.

### TRAGIC DEATH OF HAL PECK

Opening Day of Pheasant Shoot-ing—Died Before Mrs. Peck Could Reach Him

ABRORTSFORD, Oct. 15.—The death of Haliburton Peck here on Saturday morning was tragic indeed. It was the opening day of the pheasant season and he was going out shooting. He had

said goodbye to Mrs. Peck on leaving the house. The gun he was carrying was loaded and it is presumed that it exploded as he was entering his auto. Mrs. Peck heard him call but when she reached him he was dead.

J. A. Clout, representative for

also drowned.

### Largest Immigration which Canada has Experienced in 1924 Says Mary Ellen Smith

QUEBEC, Oct. 15.—"I look forward to the largest immigration movement in the year 1924 which Canada has ever experienced," stated Mrs. Mary Ellen Smith, member of the British Columbia legislature, who returned today from an extended tour on the British Isles in the interests of Canadian immigration. "While in England, Scotland and Wales I was struck with the general enthusiasm and the great desire on the part of people to migrate to Canada," Mrs. Smith said.

Everywhere I went I was told the same story, to the effect that they preferred Canada to any of the British Dominions as their land of adoption. One of their reasons in this respect is on account of the close proximity of this country to the home land and the chance if they make good to take frequent trips to England."

### CAPTAIN HILLS DIES SUDDENLY

One of Best Known Figures in Halibut Industry Passed Away in his Sleep

Death came with tragic suddenness at Naden Harbor between midnight Friday and 7 o'clock Saturday morning to Capt. Charles Hills one of the best known figures in the local halibut industry. He passed away in his sleep from heart failure on the halibut schooner Tramp on which he had been fishing with his son-in-law, Samuel Hougan. The Tramp arrived in port late Saturday night with the remains.

Apparently in good health, Capt. Hills had gone to bed on the boat after having partaken of a good supper. The Tramp had been out fishing for a week and was sheltered in Naden Harbor from the storms.

Being called on Saturday morning for breakfast about 7 o'clock, Capt. Hills did not respond and Mr. Hougan went to his bunk and found him dead. The boat set out for Prince Rupert immediately and reached here Saturday midnight. On arrival, Dr. H. E. Tremayne declared death had been due to heart failure.

**NATIVE OF ESSEX**  
Deceased was 53 years of age and was a native of Essex, England. He came here ten years ago to join the marine staff of the Canadian Fish & Cold Storage Co. For eight years he was skipper at various times of the halibut trawlers Andrew Kelly, G. E. Foster and James Carruthers. Two years ago he left the employ of the company and became associated with his son-in-law, S. Hougan, in independent fishing.

Besides his widow, residing on Tenth Avenue East, Capt. Hills is survived by three daughters, Mrs. F. W. Grimble, Ambrose Avenue, Mrs. Sam Hougan, Ninth Avenue and Bacon Street and Mrs. Amy Smith, who will arrive from Vancouver on Wednesday, and one son, George Hills, residing in Prince Rupert.

Funeral arrangements, in the hands of the B.C. Undertakers, will be announced later. Deceased was a member of the Halibut Fishermen's Union and in religion was an Anglican.

### ARMENIANS AND ONE CANADIAN DROWNED

### CLOSED SEASON IS POSTPONED

Owing to Danger of Disorganizing Business Operation of Treaty is Set Forward

OTTAWA, Oct. 15.—The Northern Pacific Halibut Convention entered into last March between United States and Canada providing for a close season on halibut will not come into effect during the winter season of 1923-24.

It is announced by the department of marine and fisheries that as the time when the closed season provided for should commence is now quite near, the question of whether or not such season should be made effective this year formed the subject of a series of notes between the government at Ottawa and Washington. As a result and in order to avoid embarrassment to the industry by continued uncertainty as to how its business would be affected this year by the convention it was decided to intimate to those engaged in the industry in both countries that there would be no closed time during the forthcoming season.

**Strike Trouble  
At This Port.**

There is a strike on in transportation circles. The longshoremen at Vancouver are demanding what the employers declare are unreasonable terms and there is war to the hilt between employers and employed. The situation is tense and men who have taken the positions of the strikers have been badly used.

These industrial disputes are to be regretted. They stir up all kinds of bitterness not only between classes but also between individuals. It sets neighbor against neighbor and hate reigns supreme for the time being.

The local longshoremen have decided to join the strike and already volunteer help has had to be employed to discharge the freight which has arrived here. That brings the strike close home, which is unfortunate. The bad feeling which has pervaded Vancouver is bound to spread to this port. Not only will business be interfered with badly but the ill-feeling generated in a small place is always more acute than in a large one. Local people will have to make up their minds that if the strike continues they will have to suffer a good many inconveniences. Boats will be delayed, freight deliveries will be slow, and the public, which is not interested directly in the dispute, will have to suffer.

**Proposal To Close  
Fraser To Fishing.**

To close the Fraser River to fishing for a long time would scarcely be worth while. If the American government could be depended on to co-operate in protecting the fish after the river has been rehabilitated, it might be different. No one can tell 25 years hence, however, what the government of that country will do. To close it for five years, even, seemed an extreme proposal made desirable only by the extreme conditions which exist.

It should be easy to protect the fish in the Skeena River as it is purely a Canadian stream and its mouth is protected from foreign fishing. Both the Fraser and the Naas are in a different class. The fish have to pass through American waters before reaching the stream and co-operation is necessary to protect them. In the past this co-operation has not been forthcoming and there is no guarantee for the future.

**Democracy  
Of Canada.**

Canada is a democratic country. She is a land in which there are few very rich people and many who have comparatively small incomes, yet who are well enough off to enjoy life. The income tax returns show that last year there were over a quarter of a million people who had incomes ranging from one to six thousand dollars a year; that of those earning from six to ten thousand there were less than twelve thousand; that only five thousand people had incomes ranging from ten to twenty thousand; a little over one thousand received annually between twenty and thirty thousand. Above that sum and under fifty thousand a year there were 667; and above fifty thousand a year there were only 496.

**ALASKAN MURDERER  
TAKEN IN CUSTODY**

Native Pleads Guilty to Crime  
Committed at "Boozie" Party  
at King Cove

Deputy Marshal W. G. Snook of Unga arrived at the Starr having in custody John Galishoff, a native, charged with the murder of "Happy" Kinezeroff, another native, at the card and booze party, held at the home of Kinezeroff, at King Cove, says the Seward Gateway. The men were said to have been drinking and the murdered man ordered Galishoff out of his house. The latter went to his cabin and securing a 30-30 rifle, filled the magazine, and returning to the home of Kinezeroff, shot him down. Kinezeroff lived 21 hours after being shot.

The murderer was taken in custody by Deputy Snook and on examination before U.S. Commissioner F. C. Driftfield, acknowledged the killing, and agreed to plead guilty of the crime. Galishoff and Nick Talanoff, a detained witness will be taken to Valdez on the Admiral Evans.

A. A. Cox, architect for the permanent provincial buildings here, arrived in the city this morning accompanied by W. H. Smith of Vancouver to whom has been given the contract for the construction of the lanes and tunnels leading into the basement of the main building. Mr. Cox states that the excavation work will commence at once, and that he hopes to have the plans of the building with him when he next visits the city.

David Copperfield is one of the latest of the Dickens stories to be put into picture. The characters are wonderful representations of Mr. Micawber and the other famous fiction people.

Tess of the storm country is going strong everywhere, according to reports and Mary Pickford is shown to be just as popular as ever in the leading role.

American citizens will be particularly interested in a new picture "The Chronicles of America" in which prominent historical scenes are shown. Among them is of course the landing of the pilgrims at Plymouth.

This is far easier said than done, as Muriel discovers.

The girl stages a fake runaway, and she is to faint just as Dennis comes to her rescue. She does the fainting act all right, only to discover upon recovering that John has vanished without paying her the slightest heed.

But Muriel is not to be so easily discouraged. The picture shows in a novel and interesting manner how Muriel raids the heart of this indifferent chap, and ultimately brings him to his knees before her.

Big Bill Hart is working on a new picture "Wild Bill Hickok."

**FANTASTIC AND WEIRD  
ISLE OF LOST SHIPS****Tale of Love in the Raw in the Famous Saragossa Sea Shown Tonight**

Fantastic, weird, unusual and fraught with the mystery of the sea, "The Isle of Lost Ships" is the strangest story that has yet been presented on the screen, in the opinion of this reviewer. It tells the tale of a mysterious region where the derelict ships of the ocean drift together, and where, upheld by the tendrils of floating kelp and seaweed, they float down through the centuries to a doom infinitely remote.

In this welter of hulls there are to be found the lost caravans of Columbus and modern liners; Spanish ships of the times of Cortez and the lost boats of Raleigh's ill-fated cruises. And whether the author, Griffiths, is justified.

The total quantity of sea fish landed on both the Atlantic and Pacific coasts during the month of July was 822,043 cwts., valued at \$2,771,440 to the fishermen, compared with a catch of 873,382 cwts., valued at \$2,696,730 in July, 1922.

Cattle in north Alberta's livestock herds now number more than 2,000,000. This industry and also the swine industry have increased amazingly in the northern part of the Province in the last few years.

Carrying large consignments from the Dominion Government and the British Columbia branch of the Canadian Red Cross, the Canadian Pacific S.S. Empress of Russia was the first ship from the American continent to arrive with relief for the earthquake and famine stricken people of Japan.

Nearly \$10,000 in fur royalties was collected in The Pas, Man., by the chief game warden last winter. This does not include the royalties collected from the Hudson Bay Company and Revillon Freres, which will more than double this amount. This does not include moneys secured through taxes, licenses and other sources of revenue.

Creamery butter made in Alberta took a total of 149 prizes out of 236 prizes offered, or 63 per cent, at exhibitions at Edmonton, Calgary, Regina, Brandon, Saskatoon and Vancouver this year. Out of 11 open championships offered, Alberta butter took 8. In the Calgary exhibition six provinces competed, in three others four provinces competed, and in two others three provinces competed.

British Columbia has reached the peak of the biggest tourist season in her history, and it is estimated that as a result of the enormous travel and the expenditure of transients while in the province this summer, will be worth at least \$30,000,000. The opening of the Banff-Windermere motor highway through Canada's rock garden was largely responsible for this increase in tourist traffic through the Pacific province.

Gold producers in the Province of Ontario during the first six months of 1923 report production of 384,446 ounces gold and 65,444 ounces silver, of a total value of \$7,244,081 shipped by the Porcupine producers, and from the Kirkland Lake producers 69,691 ounces gold and 6,515 ounces silver, of a total value of \$1,402,873, or from the two camps a total value of \$8,646,954.

The Canadian Pacific Railway will contribute \$25,000 for the relief of the sufferers in Japan and have also decided that supplies of Canadian food-stuffs and clothing donated, or purchased with money donated for relief work, will be transported free over the Company's rail and steamship lines. President E. W. Beatty made this announcement while making a tour over the Company's lines in the West with a party of directors. He added that this action had been taken because of the reports of the intense hardships due to the disaster, and notwithstanding the fact that the Company had lost heavily by the catastrophe.

The following editorial recently appeared in the Windsor "Border Cities Star": A recent cargo of silk, en route from China to New York, was shipped via Vancouver and the Canadian Pacific Railroad and crossed the St. Lawrence to Ogdensburg, New York, instead of being sent across the United States from San Francisco. The incident offers something for Canadians to think about. It proves what a splendid service the Canadian Pacific offers in its rail and steamship lines. In a country like Canada, transportation is all essential, and the way the Canadian Pacific has carried on, in spite of the business difficulties which began with the war and are not yet smoothed out, is a credit to the nation which conceived it.

Again, the incident calls attention to Canada's splendid gateway to the East. Although China is in a chaotic political condition just now, the huge Oriental nation offers wonderful trade chances in the future. No nation is better placed for getting its share of this business than Canada.

## BADMINTON ORGANIZED

Club Formed Here Saturday Night  
and Officers Elected Pro Tem

### HALL TO BE RENTED

Preliminary steps were taken on Saturday evening to organize a Badminton Club here. The whole situation was discussed by a number of enthusiasts at a meeting held in the old G.T.P. office building and it was decided to elect officers pro tem. to handle the affairs during the present week, and that on Saturday next a meeting of all those who have joined the club or who contemplate doing so will be held in the rooms over the Daily News at half past seven o'clock for the purpose of electing permanent officers and deciding on the general policy of the club. A name will also be chosen for the club at that meeting.

Saturday evening officers pro tem chosen were:

President—H. F. Pullen.

Secretary—Alex. Bix.

Treasurer—Norman Bartlett.

The necessary paraphernalia will be ordered just as soon as the money from admission fees is on hand and it is hoped to get the order away tomorrow. The admission fee is \$1, if to cover the regular fees for the first month and the monthly dues to be \$2 unless otherwise decided. Where a husband and wife both join, the wife is to get in at half price, both admission fees and dues.

Preliminary steps have been taken toward renting a hall where two courts will be marked out and to which members will have access at all times. This will enable games to be played whenever members have leisure.

It was pointed out at the meeting that the game is a fast one and provides excellent exercise for those requiring to be kept fit. Applications for membership may be made to any of the officers and should it be pointed out at the meeting, in every case be accompanied by the necessary admission fee.

### RETURNS ARE GOOD ON PRAIRIE CROPS

**Fifty Million Bushels in Excess of Last Year is Estimate of Bureau**

Despite lateness of season, yields that must be considered as satisfactory have been harvested in nearly all districts throughout the Dominion, says the Bank of Montreal Crop Review. The Prairie provinces as a whole show increases of all kinds of grains as compared with last year. Estimated yields, based upon Dominion Bureau of Statistics, give yields, wheat 445,000,000 bushels as compared with 375,000,000 bushels last year and 360,187,000 in banner year 1915. Yield of wheat, oats and barley placed at 950,930,000 bushels, an increase compared with last year of no less than 232,464,000 bushels; low grades in Manitoba are balanced by high grade in Alberta and so far 90.4% of wheat inspected is in contract grade. Ontario's crops generally are lower than record breaking crops of 1922 but returns are good. In Quebec, farmers have had a good year. In Maritime provinces returns on the whole average up well. In British Columbia returns generally are better than last year.

The Ketchikan motorboat Prince of Wales was in port yesterday morning unloading one carload of fresh halibut and salmon for transhipment East over of the motorship Kennebott on the Canadian National Railways. Hippo Island have reached the city by way of Ketchikan where Royal Fish Co.'s dock.

In St. Andrew's Anglican Church, beautifully decorated for the occasion under the supervision of Mrs. H. E. Tremayne, there were four special Thanksgiving services yesterday, Archdeacon G. A. Rix officiating at each. At the 8 o'clock service in the morning the administration of the sacrament took place.

At the 11 o'clock service Archdeacon Rix spoke on the topic of Thanksgiving with special reference to Canada. He showed how the Dominion had been built up from a God fearing and patriotic British ancestry and made special mention of the early British settlers and the United Empire Loyalists. The land today was extensive and great, a monument to its ancestry and a reason for the greatest of Thanksgiving among all its peoples.

There was special music by the choir under the leadership of W. H. Melliar and accompanied by Miss L. M. Elliott. There was an anthem, the solo parts of which were taken by Mr. Melliar and Mrs. W. S. Ackroyd.

In the afternoon there was a special Children's Service.

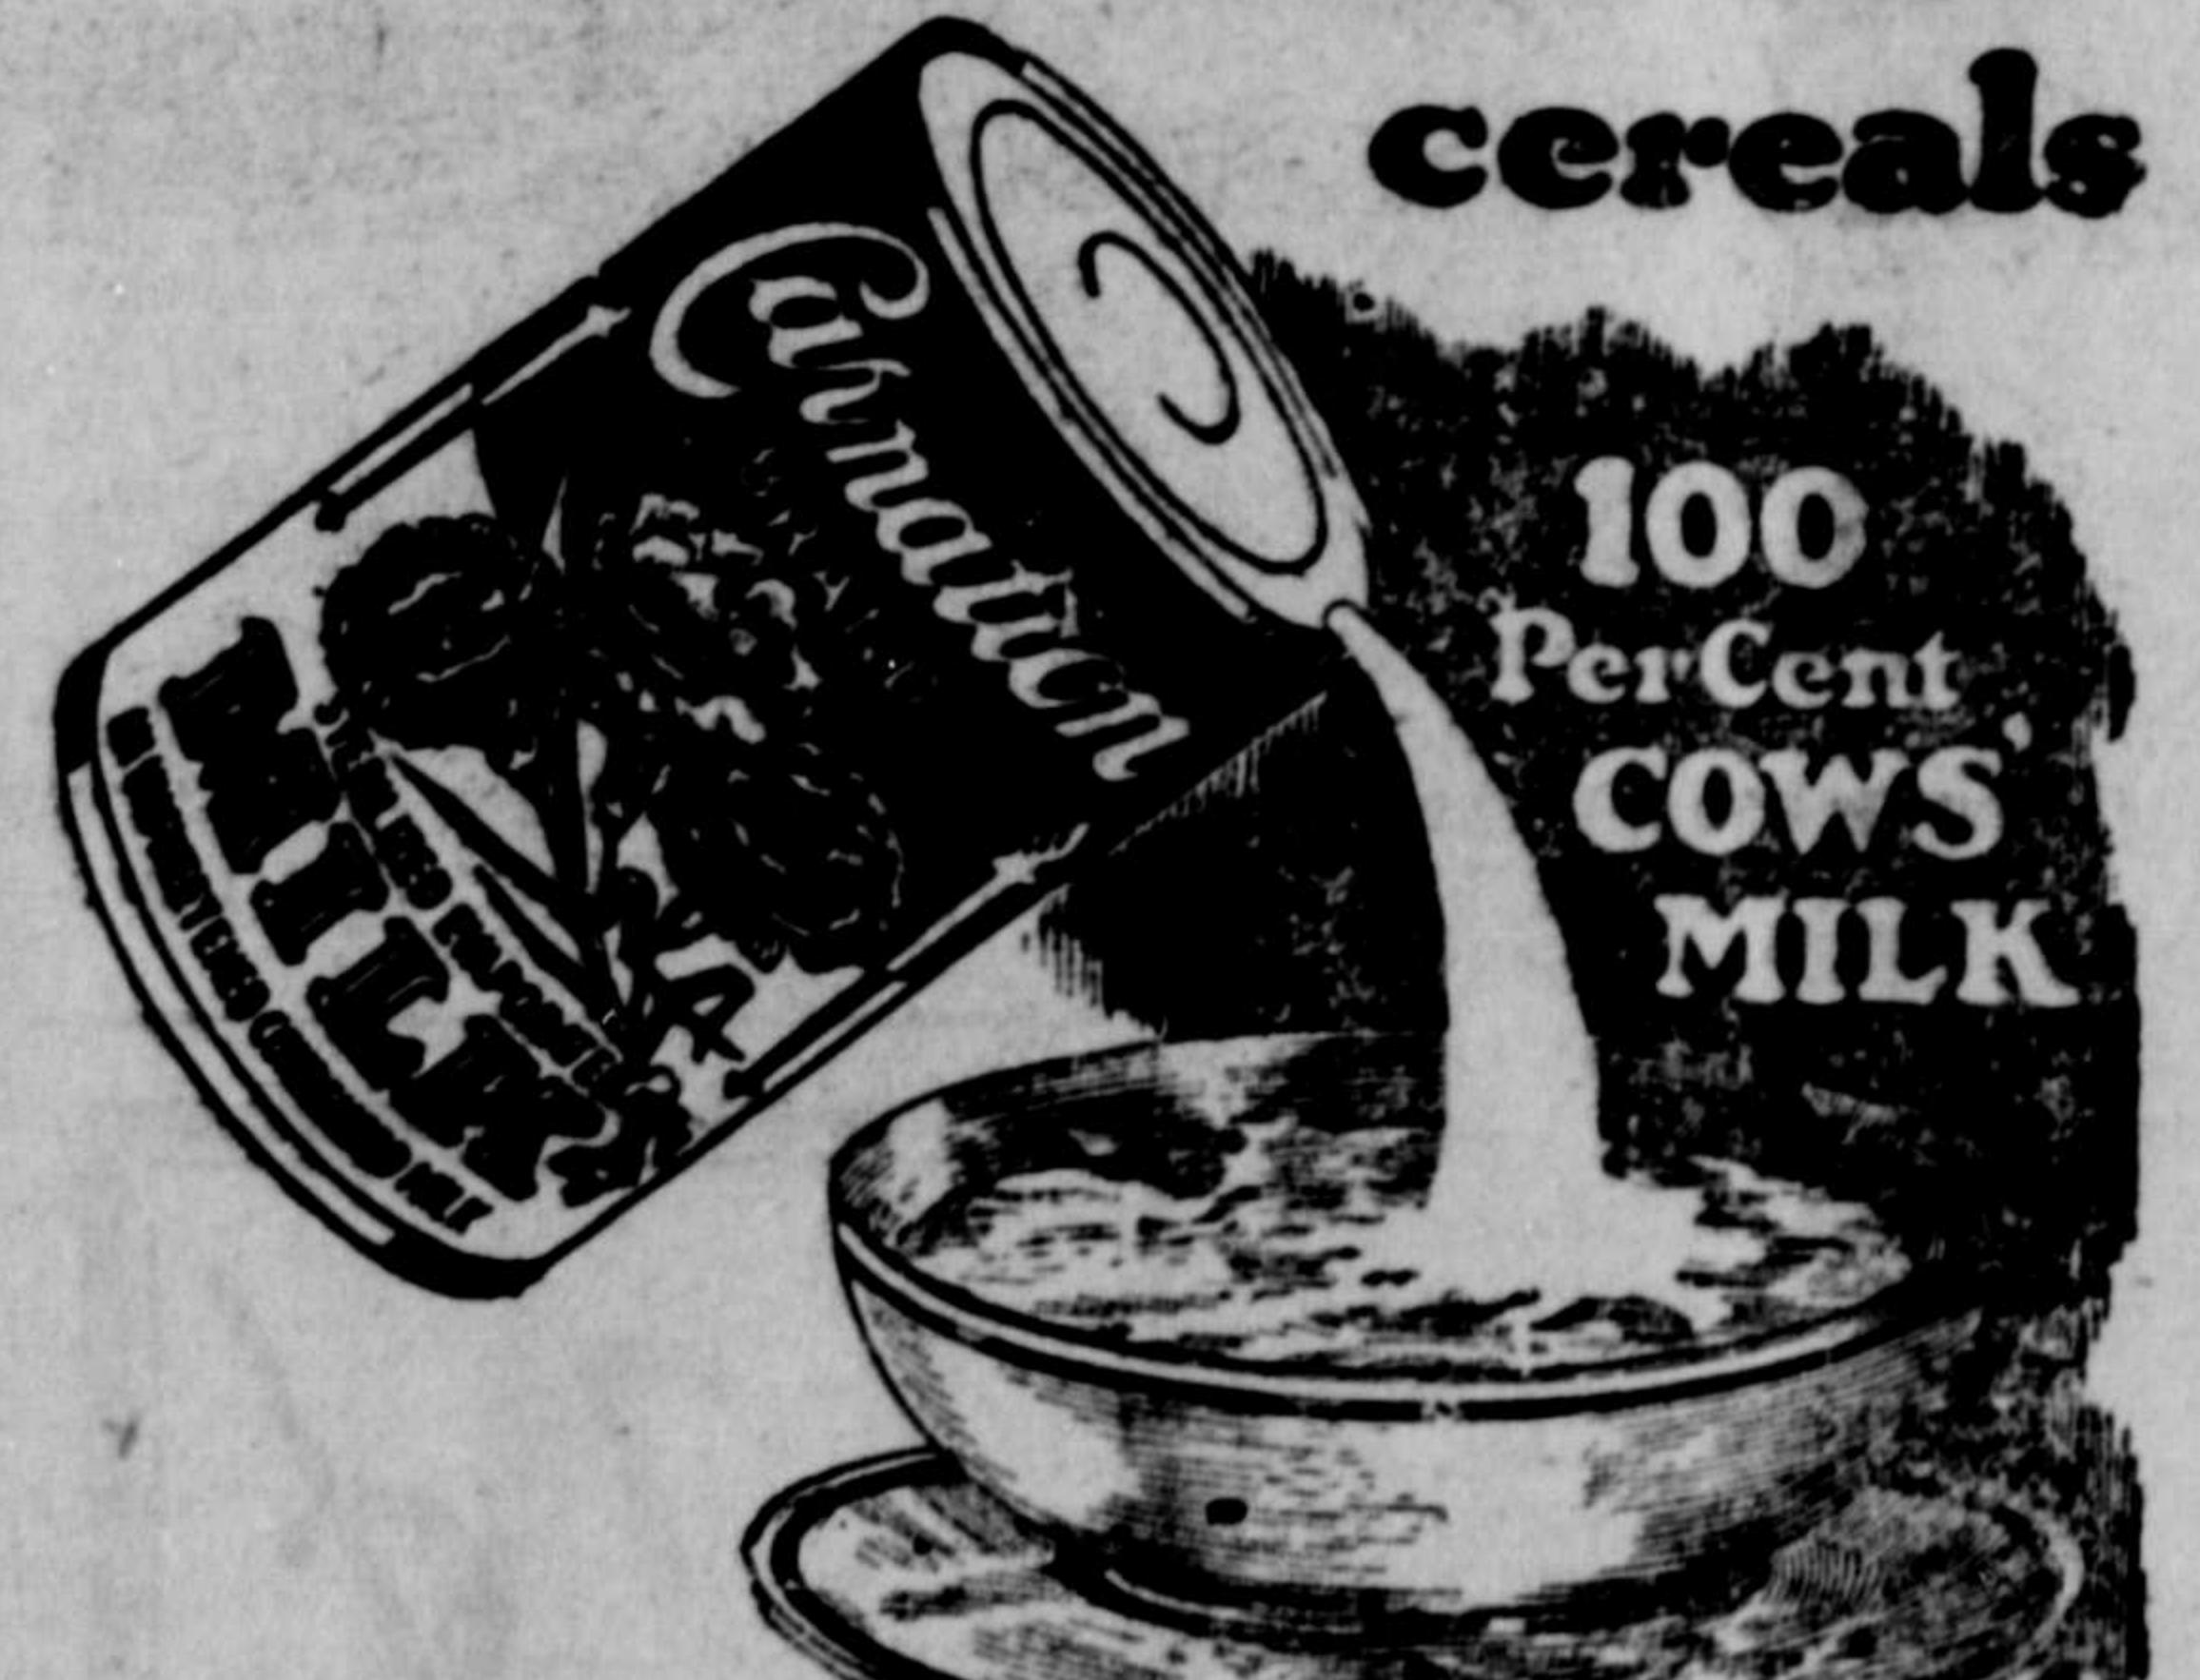

In the evening, Archdeacon Rix stressed the point that Thanksgiving could best be shown by giving service to the world. The music was largely a repetition of that in the morning.

All the services were largely attended.

## Two Tommies who Spent Two Hours with Kipling and yet did not Know it

A Story About the Great Author, by George S. Fitzmaurice, Editor, Daily News.

I hardly feel that it is necessary for me to thank you in advance for granting me the space, etc., in your valuable paper, to tell you a good story about Rudyard Kipling.

Gauging full well, from my long experience in Northern British Columbia, what a host of readers and admirers of Kipling there are here, I am not afraid of lacking an audience. To have received from Mr. Kipling a most charming and courteous personal letter, signed by himself, was my good fortune a day or two ago, and I am so overwhelmed with pardonable pride at my stroke of good fortune, that I must even endeavor to rush into print and tell you the story which occasioned the great event. But first I must give you the letter from Kipling.

### Kipling's Letter

Private, Bateman's Burwash

Sussex, 19th September, 1923.

Dear Sir—I have read with much interest your letter of August 25th, and I recall the meeting you mention with the two Canadian soldiers in London. I am afraid, however, that I cannot take credit for having spent so long a time with them as they reported, but it was often the case in those days that one found men from the Dominion at loose ends in London and wanting to find somewhere to go, and it was always quite easy to set them on their way.

With many thanks for your kind letter, believe me,

Yours truly,

RUDYARD KIPLING,  
George S. Fitzmaurice, Esq.  
Prince Rupert,  
British Columbia, Canada.

### How It Happened

It happened this wise. In the latter part of October or beginning of November '18, just before the Armistice, I, Private Fitzmaurice, of the C.E.F., was "carrying on," a bit below par as regards fitness, at a big Canadian convalescent hospital at a place named "Pearwood" near Reading, well known doubtless to a host of Canadians who served overseas. I had only been over from France about a month, and was booked for Canada, invalided out they termed it. Well, I was in a ward on the ground floor, which used to be the billiard room during the days when the house was occupied by a big family. There were eight or nine of us in the ward, mostly wounded cases, getting ready to go back to the trenches should the war go on a bit longer. It was a rule of the hospital that after a man had been there three weeks he was entitled to four days leave in London. You left on the Wednesday noon and returned Sunday midnight. Two of the boys, one a middle aged Englishman, an ex-Tommy I believe, the "other" a sickly sort of a chap from some obscure part of one of the Maritime provinces, got their leave together and journeyed up to the big city. They returned on the dot at midnight on the following Sunday.

### A Writer Chap

The next morning after breakfast, of course I had to get busy and start to interview them on their adventures whilst on leave. You see I was figuring on getting leave myself pretty soon. They did not enthuse very much about their outing. I think it was the New Brunswicker, a little more loquacious than his comrade, who vouchsafed a little information. He said that they stayed at a Canadian Maple Leaf Club or hut,

### The Magic Card

After an hour or so the kind gentleman stood them some tea and a "ration" of cake, and said goodbye to them, giving them his card, saying that if ever they were in his part of the country to be sure and call and see him. At this point the silent and solemn ex-Tommy fumbled in the pocket of his tunic where he kept his paybook and produced, for my edification a piece of paste board, a gentleman's visiting card. I glanced at it more or less indifferently and read—

Bateman's  
Burwash  
Sussex  
Rudyard Kipling,  
Athenaeum Club."

I gasped! I staggered! I went straight up! It was no use. They did not understand. I fancy the ex-Tommy had a glimmering idea that he had once heard of such a man. The New Brunswicker's face was a blank. I said "What! Do you mean to say that you fellows spent nearly two hours with Rudyard Kipling and did not know it, or realize what it meant, after he had given you his card? Why! Do you know that there are thousands of Canadians who would have given all they were worth in this world or the next to have such a chance?"

### Monumental Ignorance

And that was the end of that. For the time being I was completely overwhelmed and abased at the spectacle of such monumental ignorance. I passed on sadly and sorrowfully, pondering upon the futility and contrariness of things in general. If only I could have had such an experience. You must remember this happened a few days before the Armistice, and in the stress and strain of those critical days the matter passed out of my mind. I intended at the time to write to Kipling and tell him the story as I got it, but never did so, until quite recently.

### Without Peer

To my mind Rudyard Kipling is today without a peer in the English speaking world as a writer of prose and verse. For the last forty years since he first came before the public, with his story "The Light That Failed," followed with "The Barrack Room Ballads," his works have been a household word almost, wherever the English language was spoken.

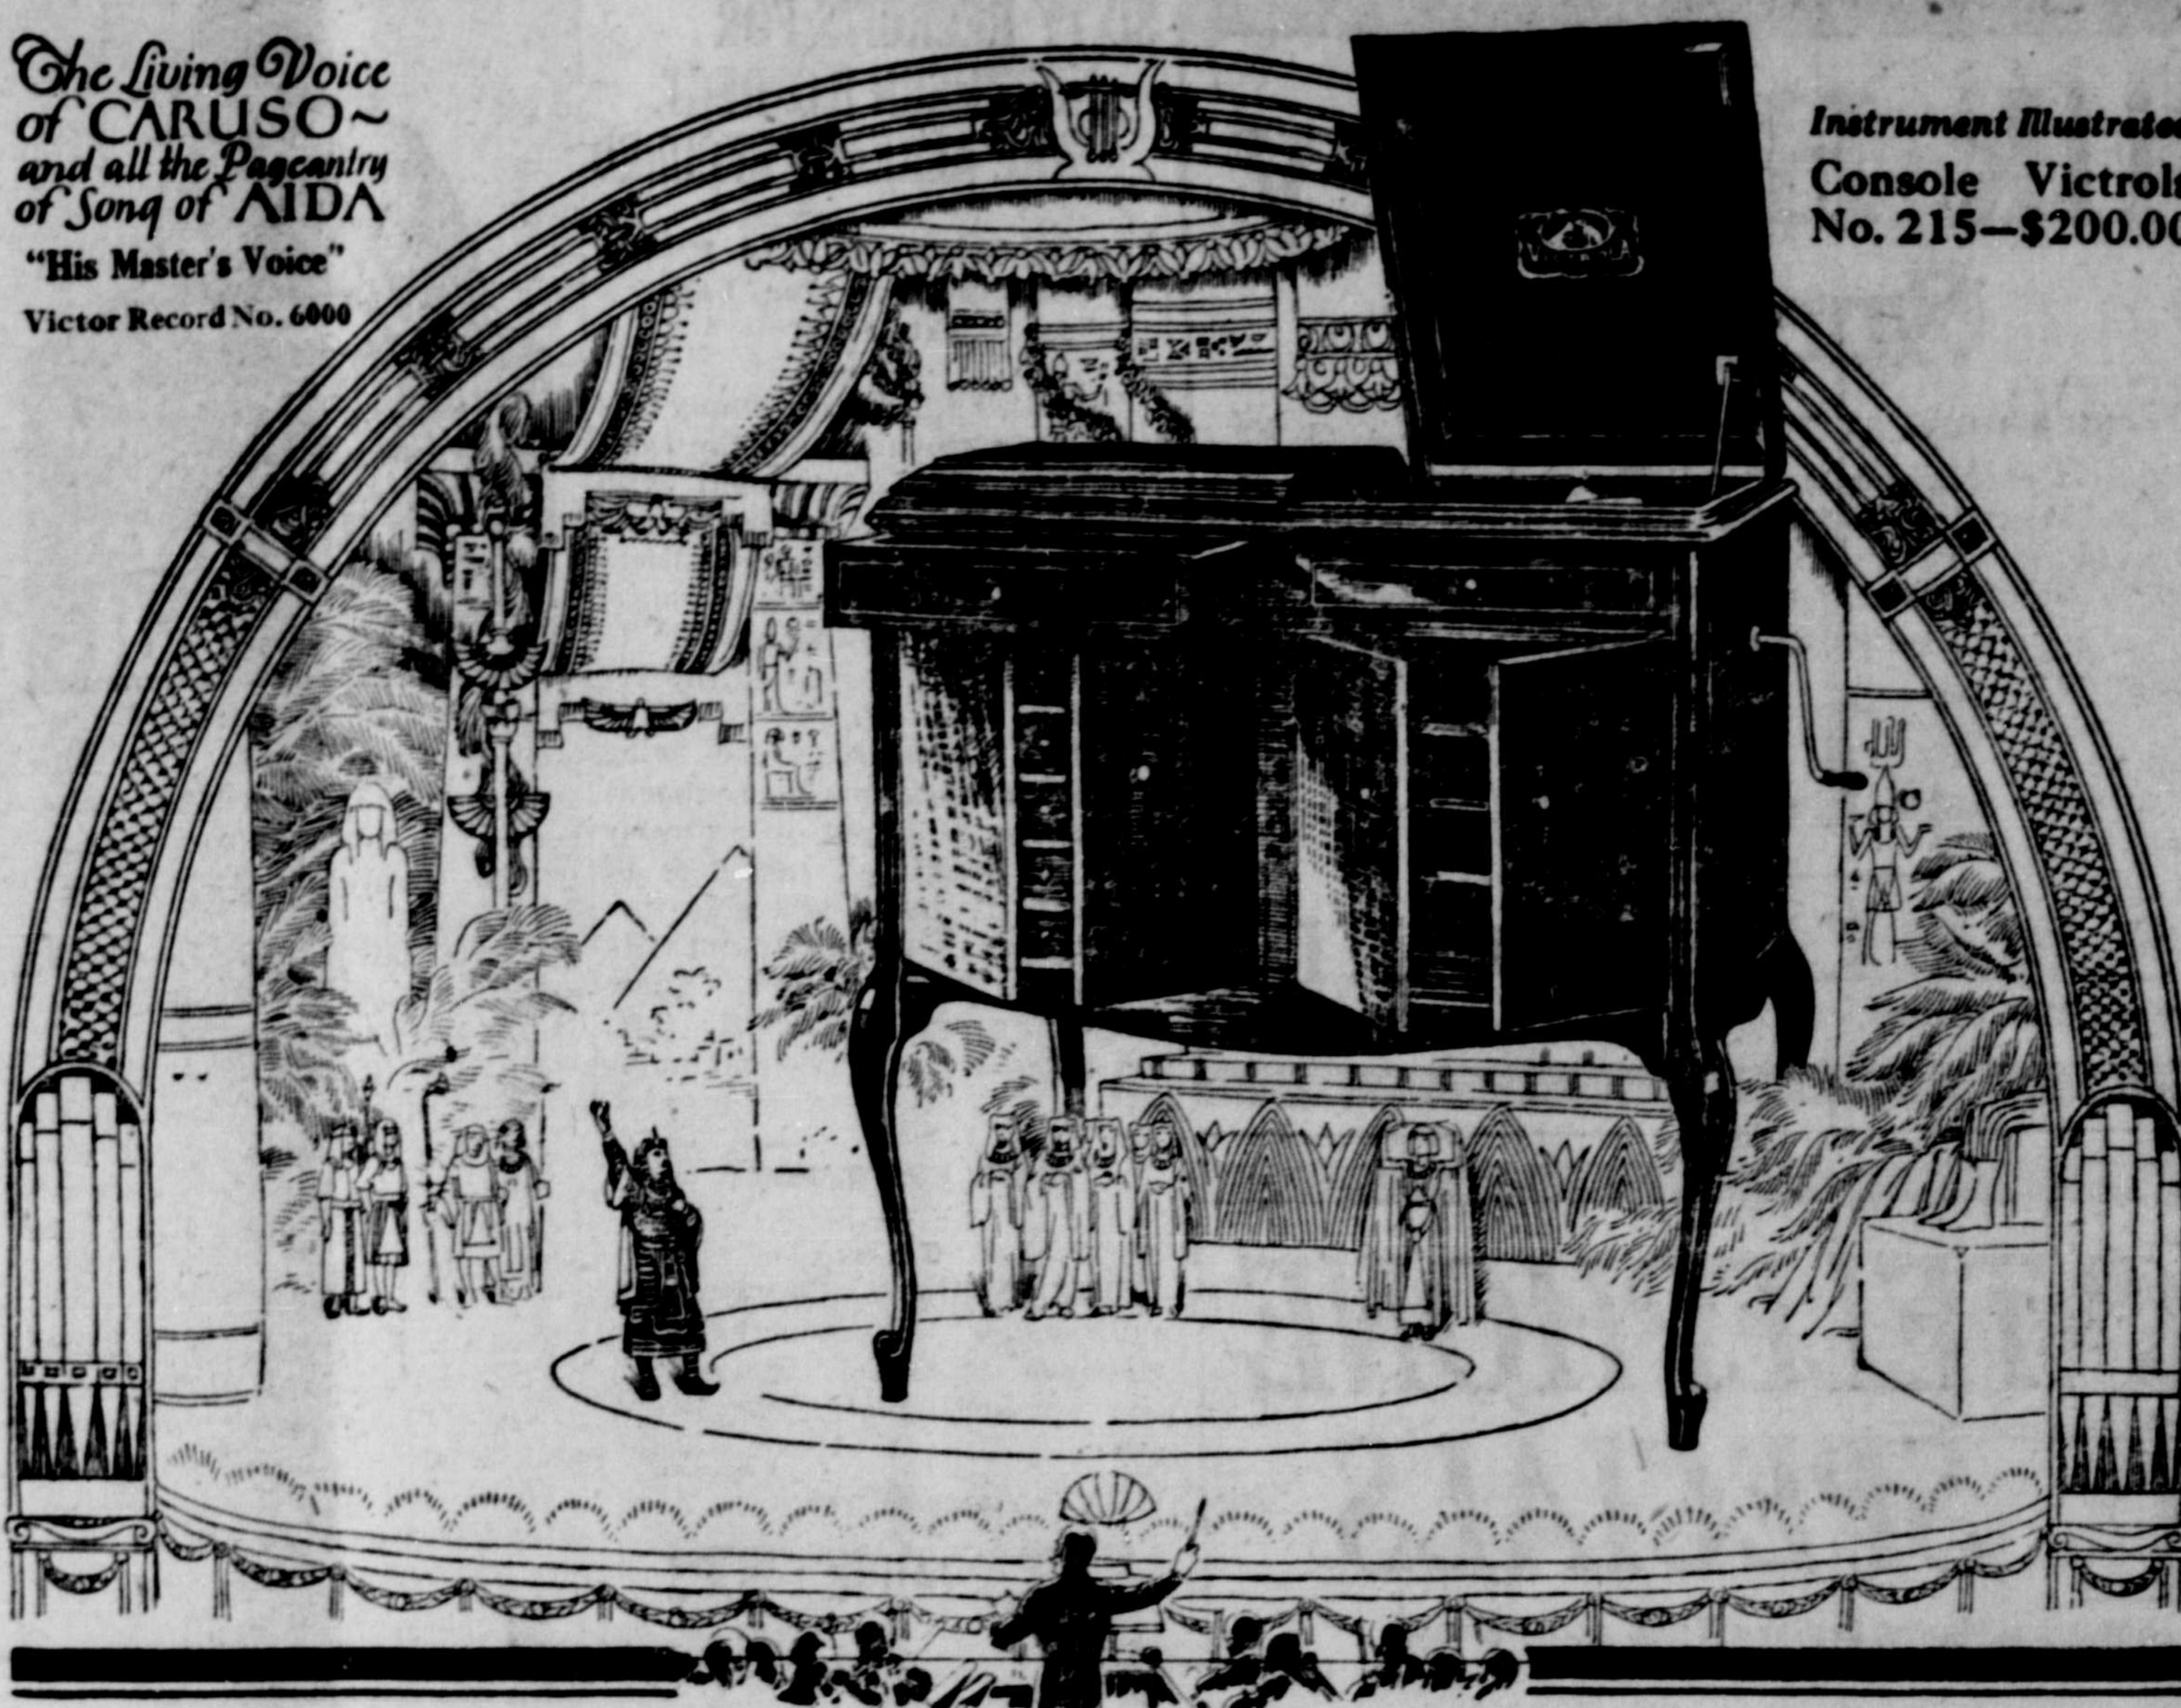

To no man living does the word "Empire" used in its best and worthiest sense convey more. The far flung outposts of Britain, emanating from those little islands in the North Sea, whose flag has braved a thousand years the battle and the breeze, are what he loves and sings of best. On land or sea, in the woods or the mines, in the factories and the shops he seems with an almost uncanny knowledge to live the lives of those he writes about.

An Englishman of the English, pure bred on both his father and his mother's side, a brother in law of that typical John Bull, Stanley Baldwin, the present British Premier, yet he is more than that, he is the greatest Imperialist and Britisher in the Entente today. He did not need to be dubbed poet laureate, or given a title to cause his name to live as long as the English language lasts. The last two lines

## The Theatre of the Home

The stage is set, the performers ready. Your mood this evening calls for the inspiring strains of Verdi. Suddenly you hear Caruso singing "Celeste Aida"—(Heavenly Aida)—clear, sweet, vibrant, real as life itself. For the moment you sit in an orchestra seat at the opera—with all its pomp and pageantry.

Then perhaps you long for the sweet strains of "The Last Rose of Summer"—and as the soft clear notes of Elman's violin sound in your ears, you can all but see him draw his bow across the magic strings.

But whether it be Caruso, or Elman, or the boom of Sousa's band, or the latest happy-go-lucky dance hit,—*"HIS MASTER'S VOICE"* Victrola and *"HIS MASTER'S VOICE"* VICTOR Records prove their superiority by making you forget the man-made reproduction and remember only the sensation of having living artists and real musical instruments—a few feet beyond the chair in which you sit.

And by virtue of such masterly performance *"HIS MASTER'S VOICE"* Victrola is the standard by which all instruments are judged. Often this causes many to refer to all instruments as Victrolas but for your own best interests as well as ours, remember there is only one real genuine Victrola—and that bears our famous trade-mark *"HIS MASTER'S VOICE"* under the lid. Be very careful to see that it is on the instrument you buy.

William H. Logan. The Algerine just after leaving Swanson Bay went ashore herself in Prince Rupert Channel.

# TELEPHONE SPECIALS

Shop by Phone to Save Time and Money.

Convinced that by telephone we can sell for less than otherwise, we have decided to put our theory into practice by means of "The Telephone Special."

The special prices quoted in this ad, apply only on orders phoned in, as we have proven beyond doubt that the overhead cost of selling which is the largest item in the expense column of the retail grocery business today is reduced by more than one-half when orders are taken on the phone as compared to those taken on the floor of the store. In other words our records for the past six months prove that the average clerk on the phone can accomplish more than three clerks of average ability in the store, consequently we feel that it is only fair that we pass this saving along to those who shop by telephone.

Shop by Phone to Save Time and Money.

This method along the lines we have explained above, completely explodes many of the time worn and accepted trade principles of the past, and we venture to predict that just as modern inventions have supplanted the methods of olden days, effecting big reductions in cost of manufacture, so also will our policy of lower prices to those who shop by phone supplant the time-wasting method of personal shopping.

Every home should have a phone. No longer is the telephone considered a luxury. It is an absolute necessity, and no household can afford to not have a phone. Make the phone pay its way. It will save shoe leather, and possibly a big medical bill from exposure on a shopping trip when the weather is bad. It brings every merchant in this town right to your door, no matter how far away you live.

## SIXTY RECRUITS FOR NORTHERN B.C. REGT. ARE ALREADY SECURED

Efforts Being Made to Provide Healthy Sport for Lads Who Join

Something like sixty young lads have been recruited for the First Northern B.C. Regiment with headquarters in this city and Major Nicholls and his officers have been working hard to make the headquarters attractive to them and to provide healthy recreation facilities.

Great preparations are being made this week for the regimental smoker to be put on Saturday night to which all members of the local regiment and also former members of the 102nd Battalion are being invited. There will be boxing, bayonet fighting, ball punching and musical numbers.
