PANCHO VILLA GETS KNOCKOUT

Glenn Jimmy Wilde Terrible
Punishment Before Close of
Fight in Seventh

NEW YORK, June 19.—Pancho Villa of the Philippines knocked out Jimmy Wilde, veteran English weight boxing champion of the world in the seventh round of a seven round bout. Wilde fought bravely but Villa landed most of the blows, inflicting such terrible punishment that Wilde was exhausted before the end of the sixth and stood up streaming with blood, one eye closed tottering when the knockout blow was administered.

A crowd of 40,000 people waited five minutes until Wilde reeled, cheering the announcement that Wilde was the greatest loser in pugilism.

SURE CURE RHEUMATISM

New York College Produces
Serum Which Has Been
Proven Successful

NEW YORK, June 19.—Medicine today claimed another victory in the struggle against disease. Announcement is made by the New York University Medical College of a cure for rheumatism which it is claimed, has been tested positively in eighty per cent of 5,000 cases experimentally treated. BANKING BILL IS DISCUSSED

House of Commons Puts Entire
Day in on Part of It—Char-
ters Extended for 10
Years

OTTAWA, June 19.—The debate in the House of Commons on the banking bill got off to a vigorous start yesterday. Almost the whole day was spent in the discussion of one section and it was marked by some warm passages in and after the sitting which lasted until 2 o'clock this morning. The provision of the bill extending bank charters for ten years was carried. The progressive amendment for extension for one year only being voted down by 65 to 27.

UPWARD TURN COPPER MARKET

Mine Outputs Increased as Soon
as Prices Began to Soar; 16c
Expected

NEW YORK, June 18.—The copper market has every appearance of having struck bottom, and the price trend again seems upward. Large producers seem to have seen the foolishness of offering down upon a weak market, and most of them are either holding at 15 cents delivered or are out of the market. Saturday it was impossible to buy copper under 14 7/8 cents delivered, and this week it is difficult to buy under 15 cents.

Bottom Reached

Consumers are again about to enter the market with large orders for third quarter shipment and some with orders for last quarter. Again they believe that bottom has been struck in price. They think that large producers have about learned their lesson and will not offer the market down further, but they intend to wait a few days longer to see for certain. With renewed buying, price should recover to 15 1/2 to 16 cents rather quickly, and then slowly rise to 16 cents.

Many consumers and several producers feel that a price of 16 cents is all that the industry can bear without overproduction until European consumption is much higher than it has been during the last few months.

The trouble with copper is that producers cannot stand prosperity. They all talked about labor shortage this spring, and each one increased mine output 50% to 100%.

The danger in copper is, and has been since the war was ended, that there will be too great production of copper and not that there will be too little. The only way that output can be controlled in an industry so disoriented, as is copper at the present time, is for the price to stay at such level that profit will not induce overproduction.

TOLEDO BOND HOUSE READY TO DEAL WITH CITY RE DEBENTURES

A letter was received at last night's council meeting from Spitzer-Rorick Co., Toledo bond dealers, offering to do business with the city in connection with the sale of recently issued municipal debentures provided provision is made for the payment of principal and interest in New York. The letter pointed out that the debentures as they now stand provide only for payment of principal and interest in Prince Rupert, Toronto and Montreal whereas, if they "Spitzer-Rorick" were to handle them, it would be necessary to have payments made in New York.

Accordingly the council decided to amend the debentures providing for payment in New York. It was also decided to extend the time for bidding on the debentures to July 21. It was pointed out that the inspector of municipalities had not yet finally approved the debentures pending the expiry of time in which application may be made for their quashing.

SALT LAKE IS IN READINESS FOR SWIMMING

Repairs Have Been Made to
Floats and Water Is Fine:
Improvements Made

The Salt Lake is now all ready for swimming. The floats are back in place temporarily, improvements have been made to the walks, new seats have been put up for spectators and picnickers and the water is fine. From now on there should be swimming every day and especially on holidays.

The improvements to the walk and adjacent work has been done by the public works department of the provincial government and the department has loaned its men to the Swimming Club for getting the floats back in place after the winter deprecations. The place is now better than it has ever been before but some more work is needed to repair the dam and make other improvements. It is likely this will be done this year.

SURVEY OF ISLAND ROAD

Engineer Taking Soundings of
Galloway Rapids Today
With P. W. Anderson

This morning, Major Taylor, district engineer and P. W. Anderson, road superintendent, commenced the survey of the route from Prince Rupert to Galloway Rapids. They went to the rapids by boat and are spending the day taking soundings and measurements, returning overland on the route it is expected the new road will take. This will give the officials an idea of the road and the difficulties to be overcome in construction from which they will be able to make a rough estimate of the cost of construction.

The matter of paying for the construction of the road is to be placed before Sir Henry Thornton as the company owns most of the good land on the other side of the mountain. The company will be asked to pay its share of the cost of opening up the property.

Steam Trawler Being Outfitted
and Leaves End of Week on
Company Lay

Preparations are being made by the Canadian Fish & Gold Storage Co. to send the steam trawler Andrew Kelly to the halibut banks to fish on the company lay. The Foster is already out, having gone away two weeks ago under the similar plan.

Under what is known as the company lay as distinguished from the independent lay, the men get a straight price per pound for the fish they catch and the company pays the whole cost of outfitting as well as the salaries of the Captain and cook and also finds the grub. The Kelly will get away toward the week end under Capt. Candow.

The Carruthers is still tied at the dock and it has not yet been decided what to do with her.

Husband Didn't Dare Leave Her Alone Heart Was So Bad

Those feelings of faintness, those dizzy spells, the all-gone sinking sensations which come on from time to time indicate a weakened condition of the heart and a disordered state of the nerves.

Milburn's Heart and Nerve Pills

have no equal as a remedy to strengthen the heart, invigorate the nerves and build up the run-down system.

Mrs. C. Vanhorn, Eckville, Alta., writes: "About a year ago I had heart trouble. My husband didn't dare leave me alone, and often had to stay up at night with me. I would just feel kind of faint and my heart would seem to stop beating. I would just faint away, and it would sometimes be an hour before they could bring me back to life. Someone told me about Milburn's Heart and Nerve Pills. I got three boxes; I took them and felt much better, so continued all Winter, and now I never feel any such faintness. I surely do appreciate the good they have done for me."

Emigrants numbering 15,000 left Scotland for Canada during the first four months of the year, according to consular estimates in Glasgow.

Canadian flour has at last been placed on the Panama market. One boat has just loaded the first consignment of any size, 1,000 barrels being taken.

Seventy-five per cent. of the copper produced in Canada in 1922 was the output of British Columbia mines. The Canadian production for the year was 43,321,402 pounds, of which British Columbia accounted for 32,432,521 pounds.

The famous Chateau Frontenac husky dog team, remembered by visitors during last winter's sports season, is being perpetuated. One of the dogs has just given birth to three pups, and if the youngsters turn out to be like their parents the Chateau Frontenac team is likely to continue winning dog derbies.

Fishing licenses in the Maritime Provinces have been reduced. The special fishery regulations for Nova Scotia, New Brunswick and Prince Edward Island have been amended to provide that in many instances where the license has been more than a dollar it will now be one dollar.

No limit will be set to the help to be offered to new settlers in the agricultural sections of the province of Quebec, according to Premier Taschereau. The latest government provision is to pay colonists at the rate of \$4.00 per acre for land cleared on their colonization lots since 1920. \$7,000,000 have been voted for provincial colonization.

The decision of the Canadian Pacific Railway Company to scrap agreements of sale with 30,000 Canadian farmers in the west and enter into new contracts with them, extending over 34 years on an amortization basis, will affect agreements of a value of approximately \$100,000,000, and relieve many farmers of heavy, pressing debts.

The new motor ferry operated between Victoria, B.C., and Bellingham, Wash., develops a speed of 14 knots in adverse weather. A most enjoyable time was spent last evening in the Elks Home under the auspices of the Elks and the Ladies of the Royal Purple following the regular meeting of the ladies lodge. Cards and dancing passed the time pleasantly and refreshments were served shortly before midnight.

Winners at cards were: Ladies first, Mrs. Bert Hampton; consolation, Mrs. L. M. Fuller; Gents first, Chris. Elkins; consolation, H. D. Johnson.

For the dancing Bert Glassey was master of ceremonies and music was provided by the city band. The committee in charge was Mrs. Frank Dobb, Mrs. Bert Glassey, Mrs. William Reid and Mrs. R. J. D. Smith.

During the lodge meeting Mrs. LePine, Past Honored Royal Lady, made a presentation to the lodge on behalf of Mrs. Morte Craig of a very beautiful picture of a forest scene hand painted by herself. This was much admired and Mrs. Craig will be thanked for the gift.

CONSTRUCTION OF
BRIDGE IS TO BE
GIVEN SUPERVISION

On motion of Ald. Perry, seconded by Ald. Mackenzie, the city council last night decided to appoint a competent man to supervise the construction of the Hays Creek bridge, his pay to be \$5 a day.

Speaking to the resolution, Ald. Perry said the engineer could not be on the job all the time and it was important that there should be proper supervision constantly. The work had to be watched on behalf of the city. Ald. Currie and Ald. Stephens agreed and the motion was carried without dissension.

G. G. Dittmer, of Burns Lake, who has been on a business trip south, returned from Vancouver yesterday afternoon on the Prince George and left on the evening train for the interior.

On the Mountain Top

Climb the mountain—stand on the peak—and before you there unfolds a panorama extending as far as your eye can reach. Stay in the valley, and your view is restricted by the surrounding hills.

This newspaper, properly used, will guide you to the mountain top. Read it and your vision is enlarged. You get a bird's-eye view of world events. You glimpse the doings of the day.

Fail to use it, and your view is limited— you remain in ignorance not only of events at home and abroad, but of much that concerns you even more vitally—news of the very things that have to do with your personal, everyday life.

Some one might be selling a new, better and more economical food; or a utensil that would add immeasurably to your comfort and well-being; or some better material for shoes or clothing—but you would never know, because of your restricted view.

You may read every line of the news columns, but if you overlook the advertising, you are still living in the valley. You remain uninformed about many things you ought to know in order to live a happy, useful, profitable life in this age of progress.

GEORGE WALLEY
LANDS IN JAILCharged With Driving While
Under Influence of Liquor—
Also Breaking and Enter-
ing

Facing charges of driving an automobile while under the influence of liquor and also with breaking and entering the house of Charles Youngman, Graham Avenue, George Walley, taxi driver, landed in the cells of the city police station this morning, having been arrested by Chief Vickers.

Complaint was entered at the police station at 10 o'clock this morning by Charles Youngman. According to Mr. Youngman's story, Walley drove up Graham Avenue in company with Walter Seringeour and stopped in front of the Youngman home. He went to the house and attempted to get in a window but was pluckily stopped by Mrs. Youngman. He then went around to the back door and made his entry there and proceeded to pursue Mrs. Youngman who went to the telephone and called for her husband. Walley dashed Mrs. Youngman away from the phone and then made his retreat. In the meantime, Mr. Youngman had taken a car from town and, on his arrival at the entrance of his home, he saw the car containing Walley driving towards Atlin Avenue. Mr. Youngman saw the car pass him but decided to notify the police.

On being notified, Chief Vickers proceeded down Second Avenue and arrested Walley as he was about to leave the car between Seventh and Eighth Streets. Seringeour in the meantime had left the automobile.

Walley's case will be heard tomorrow and he will probably be faced with both charges. This will be his second charge for

SYNOPSIS OF
LAND ACT AMENDMENTS

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-urban land.

Partnership pre-emption abolished, but parties of not more than four may arrange for pre-emption with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least one acre, before receiving Crown Grant.

Where pre-emptor in occupation not less than 5 years, and has made improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to value of \$50 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown Grant may record another pre-emption. The pre-emption land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads. Title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 500 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under the Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the great war. This privilege is also made retroactive.

No fees relating to pre-emption are due or payable by soldiers on pre-emption records after June 28, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers pre-emption.

Interest on acreage in Crown town or city lots held by members of Allied Forces, or descendants, acquired direct or indirect, repaid from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS.

Provision made for issuance of Crown grants to sub-purchasers of Crown lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1923.

GRAZING.

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stockowners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

TEN COMMANDMENTS
FOR MOTHERS OF
YOUNG DAUGHTERSPrincipal of Technical High
School Has Peculiar
Ideas

CHICAGO, June 16.—(By Canadian Press)—Ten commandments for women who are mothers of daughters were recently given to members of the Chicago Woman's Club by Miss Dora Wells, principal of the Lucy Flower Technical High School, who said:

"I think my first duty to her is to give her a father fit to have a daughter.

"Gurgling aunts and roaring uncles should not exploit her for affection's sake.

"Multiplicity of playthings tends to scatter a child's attraction.

"As my daughter grows older I should give her as many objective interests as possible. I should want her to be an out-of-doors girl, able to skate, swim and take part in all games suited to her age and strength.

"I should consider moving pictures a rare treat. A teacher can detect the habitual attendant upon the movies almost as quickly as she can a smoker of cigarettes.

"She should have plenty of good books, with lots of fairy tales. I should not want my daughter's faith in story and myth to be such that the truth would come to her as a shock.

"Sex instruction in the home, not the school.

"I should not delegate this duty to a teacher, nor a friend, nor a book. I should tell her myself, knowing full well that if I do not somebody else will.

"When my daughter reaches the age when she begins to do up her hair and to long for earrings and a powder puff, I should see to it that she has several boy friends. I should expect her to fall in love more than once during this period. But if, unfortunately, she thinks she is in love with one real person to the exclusion of others, I should want her to see a great deal of him.

"Propriety begets repulsion as well as attraction.

"I should try to remember at all times that my daughter belongs to herself and not to me. Value of money and home making should be emphasized.
