### BUILD TRAIL UP MOUNTAIN

**Proposal Made Yesterday and Will be Recommended to Council by Board of Trade**

#### SPLENDID ATTRACTION

A trail to the top of Mount Oldfield at the back of the townsite is the latest proposal. It was made yesterday at a meeting of the publicity committee of the Board of Trade when the question of providing means of keeping tourists in town was considered. W. E. Williams suggested that a determined effort should be made immediately to raise enough money to construct a trail to the top of the mountain, up which visitors and residents could reach the summit. He spoke of the wonderful view to be obtained there and thought it would be a splendid attraction if advertised.

Other members of the committee fell in with the idea and it decided to recommend to the council of the board at its next meeting that steps be taken to secure the construction of the trail. It was thought that the money might be raised by securing some aid from the city, the provincial Government and private subscriptions. Nothing elaborate would be needed but if it was possible to make it a bridle trail, someone might be induced to keep a few saddle horses here so that those who wished might ride to the top.

### VESTA WAS DERELICT

**Well Known Halibut Boat Rescued from Reef by Azores and Reaches Port**

The American schooner Vesta, Capt. Swanson, arrived in port this morning in tow of the Azores, Capt. Edwards, having been found derelict between Cape George and the Seal Rocks as the result of running on a reef.

According to Captain Edwards the Vesta, a five man boat, while fishing off Cape George, was driven on the rocks as the result of a heavy ground swell. Three of her crew put off in a dory to Buffer's Cove in an endeavor to obtain help, while the skipper and another member of her crew stood by the stricken boat. The rising of the tide washed over the decks and it became necessary to take off the batteries and other moveable parts of the engine.

At 10:30 yesterday morning the Azores chanced to notice men waving from the shore and, upon taking them aboard, learned of their distress.

Taking the men with him, Capt. Edwards, made for the Vesta and was successful in towing her off the rocks.

The Vesta is now at the dry dock and will be taken up for inspection this evening.

Do Things Instead Of  
Always Asking Others.

The teaching staff and pupils at King Edward School have set a good example in getting to work and making what they need instead of following the popular example and trying to get someone else to do it for them. They have built themselves a tennis court which will be a distinct asset to the school and the building of which is excellent training for those engaged in the work.

There is too much of a tendency here to try to get someone else to do everything. As a community we have looked to the governments for help largely because of the peculiar conditions surrounding the founding of the city. This has spread into almost every phase of civic life. Even at the athletic grounds the players will do little themselves to prepare it for play, but they want the city to do it all.

The King Edward School is setting a good example and of this they may be assured. They will enjoy the tennis games none the less but rather more from the knowledge that the court is theirs and that they made it.

Teaching Young  
Boys To Shoot.

Rifle shooting is good training and possibly the time to learn in order to become proficient is when the lads are young. There is, however, a danger of inculcating in the young a love for shooting things which will later prove disastrous to the wild life of the country. Here in the north there is little enough wild life. The wild ducks and gulls and guillemots and grebes are the most common birds and animals are even more scarce. To kill these indiscriminately is a grievous sin.

Boys who become fond of shooting take out their guns and pepper away at everything that moves. They become hardened to the claims of the wild creatures to the right to life in safety. Such boys are a danger. In order to eliminate this abuse, it is necessary that with the rifle practice shall go plenty of instruction as to the abuse of the gun and the folly of trying to kill everything.

Great Opportunities  
For Photography.

There are great opportunities here for photographic work. There never were such wonderful cloud effects combined with water and foliage as are seen here. There are splendid sunsets, marine scenes, and river and waterfall pictures. With all these possibilities there ought to be a fine photographic exhibit at the fair this year. The time to make the pictures is during the next few months. Of course it takes time and effort and the expenditure of energy to get the best results but photography is one of the most pleasant arts and provides all the thrills of the sportsman without causing loss of life to the splendid wild creatures.

There has never yet been a really good display of photographs here. The exhibitors have been too few. With the extension of the number of classes to include those who get their finishing done by a professional, the interest should be far greater than ever before.

Suggestion For  
Photographic Association.

The suggestion has been made that there should be a photographic association here for the purpose of encouraging and developing photography as an art. Such an association should prove beneficial if formed. By uniting amateurs could rent a room and put in a dark room and developing and printing apparatus. The suggestion is worth considering.

**REPAIRING OF  
BOOTH SCHOOL**

Recommendation Made That Fire Walls and Stucco be Painted;  
Estimate of Cost Asked  
For

Reporting to the school board on measures to prevent further leaking of the Booth Memorial School, George Scott and Mr. Bird, janitor of the school, recommended that the bricks of the fire walls be given two coats of paint, the work to be done by day labor, and that the stucco cement recently put on be also painted to preserve it. The report also gave the opinion that the cause of the leaking was not on account of inferior workmanship but because the brick would not keep out rain.

There was some discussion of the matter in which Trustee McLean gave his opinion that the work recommended could not be done for less than \$2,000 or \$3,000. Dr. Kergin felt that the money could not be spent without an appropriation. Finally, it was decided to obtain a further report from Mr. Scott and Mr. Bird setting out the estimated cost of the work.

**NORTHERN BRANCH  
TRUSTEES ASS'N**

Local School Board Will Invite all  
Boards of North to Join in its  
Establishment

With a view to establishing a northern branch of the B.C. School Trustees' Association including Atlin, Omineca and Prince Rupert districts with headquarters at Prince Rupert, the school board last night instructed the secretary to communicate with all school boards in the district asking them to join. This was decided upon following the receipt of a letter from the secretary of the B.C. Association advocating the establishment of a northern branch and stating that, if such were done, the president of the association would come here in August to attend a meeting. Members of the school board approved the idea. Trustee Casey stating that it would be a valuable measure in improving educational matters since it would bring together the education department, the trustees and the teachers.

Mr. Campbell reported on arithmetic and writing tests that had been made during the month and submitted samples of the latter. Good work by the teachers and satisfactory progress by the children was reported.

Mr. Campbell was requested by the board to submit copies of his reports in future to each of the trustees in advance of the meeting so that they might be studied.

The question of doing work on the Booth School grounds also came up and it was decided to leave both matters over until the estimates for the year had been finally approved by the council.

Superintendent Campbell reported that the repairs to the Borden Street School roof had been completed and so far there had been no further leaking although there had been no heavy storms.

The pre-eminent success which

Mrs. M. R. Willard, Dudswell, Jct., Que., writes:—"For about three years I had eczema, in a very bad form, on my hands. They were all raw and would crack and bleed so that I could not do my housework. I tried everything I could think of without any results. At last I got five bottles of Burdock Blood Bitters, and when I had it about all taken I could see it was helping me; by the time I had taken five bottles my hands were all well again and I have not been bothered since. ### Husband Didn't Dare Leave Her Alone Heart Was So ad

Those feelings of faintness, those dizzy spells, the all-gone sinking sensations which come on from time to time indicate a weakened condition of the heart and a disordered state of the nerves.

#### Milburn's Heart and Nerve Pills

have no equal as a remedy to strengthen the heart, invigorate the nerves and build up the run-down system. Mrs. C. Vanhorn, Eckville, Alta., writes: "About a year ago I had heart trouble. My husband didn't dare leave me alone, and often had to stay up at night with me. I would just feel kind of faint and my heart would seem to stop beating. I would just faint away, and it would sometimes be an hour before they could bring me back to life. Someone told me about Milburn's Heart and Nerve Pills. I got three boxes; I took them and felt much better, so continued all winter, and now I never feel any such faintness. I surely do appreciate the good they have done for me."

### QUESTIONS ARE ASKED REGARDING EXAMS. IN CITY HIGH SCHOOLS

Certain questions in regard to High School matriculation examinations were asked of Principal Brady at last night's school board meeting by Trustee Casey and answered to his satisfaction.

Mr. Casey asked if it were true that pupils failing on the teachers' Easter examinations were debarred from trying the government tests in June. Mr. Brady replied that this was not so. Pupils failing on the mid-term examinations and whom the teachers thought had no chances were not, however, recommended as candidates from the school and their names were not forwarded to the department. This did not prevent them from trying independently though. This practice was followed in all High Schools of the province but not so strictly here as in the south.

Speaking of High School Entrance examinations, Superintendent Campbell explained that a similar question might arise. The education department set examinations on five subjects and the teachers on the balance. Those who failed on the teachers' examinations were not sent up for the five departmental tests. They could, however, try the government tests on all subjects and, if successful, were given certificates. There had not been a case, however, where pupils failing on the teachers' examinations had been successful on the government tests.

Trustee Casey intimated that the questions had been answered to his satisfaction.

## TO TAKE OVER POLYTECHNIC

Pinder-Moss Proposes to Relieve School Board of all Responsibility for \$200 a Year

A proposal from John Pinder-Moss, director of the Northern Polytechnic, whereby the school board will pay him \$200 annually and he will undertake the responsibility of conducting the work without further expense to the school board after August, was tentatively adopted by the school board last night providing the arrangement passes the city solicitor and the school board will be guaranteed against responsibility for accounts providing the scheme should prove a failure.

In submitting his proposal, Mr. Pinder-Moss said that it would be necessary to turn the government grants over to him. He would suggest that more central quarters for the holding of the classes be obtained than those used at present and that the school board pay for janitor service, heat and light. It was his idea to develop continuation school work in the surrounding district with Prince Rupert as headquarters. Terrace was willing to come in and other points, he thought, would also enter.

Then I left off ordinary salves and used herbal Zam-Buk. This soothed, cleansed and healed the sore so well, that in a few days Hazel was able to wear her shoe and again attend school. This experience taught me the wisdom of keeping Zam-Buk always handy."

Six Classes Now in Operation With Nine Subjects Being Taught and 29 Pupils

John Pinder-Moss, director of the Northern Polytechnic Institute, reported to the school board last night that six classes were in operation at the present time with 29 pupils enrolled. Accounts chargeable against the school board for April totalled \$65.12 and salaries for director and instructors \$13. These were passed for payment.

"When Hazel cut her foot, poison got into the broken skin causing a bad sore," writes Mrs. D. S. Green, of Kingston, Ont. "For some time the limb remained terribly painful and swollen.

Then I left off ordinary salves and used herbal Zam-Buk. This soothed, cleansed and healed the sore so well, that in a few days Hazel was able to wear her shoe and again attend school. This experience taught me the wisdom of keeping Zam-Buk always handy."

## ALL-RUSSIAN CHURCH MEETS

Convention Supports Soviet Gov-  
ernment: Bishop Blake Made  
Honorary Member

SEATTLE, May 8.—The convention which Bishop Blake of the Methodist Church attended and where he delivered an address to which the other bishops took exception and which occasioned his recall, took place at Moscow. It was a convention of priests, a meeting of ecclesiastics of the Russian orthodox church met to prepare a basis for a new Russian Church. The delegates were members of the "Living Church" section of the Russian Church who are seeking a form of religion that will be acceptable to the rulers of today.

The reorganization is expected to take the form of abolition of bishops, the recognition of the authority of the soviet government, and acceptance of the order under which all church property was nationalized.

**Swayed Gathering**

According to a report of the gathering hardly was the session under way before Bishop Wedensky—an image of a splendid Mephisto, with his hooked nose and small, pointed beard bristling from the fitting halo of black hood—swayed the gathering in an impassioned speech.

"While the bolsheviks are unbelievers, their aim is the same as the church—namely, the welfare of the people," he told the convention, which sat enthralled by the powers of the orator.

"Our church, therefore, must be loyal to the government. We must abandon any counter revolutionary attitude which was formerly exercised under Patriarch Tikhon, whom the government is rightly prosecuting."

So greatly was the congress stirred by his lyrical speech and voice that it did not rebel at his denunciation of the metropolites who used to be the head of their church, the patriarch of all Russia, now facing trial for opposition to the soviet system.

Bishop Blake likewise was enthusiastically received.

"In the name of the bishops of the Methodist Episcopal church, I salute you as fellow-servants of God," he told them. "I bring you affectionate greetings from the members of the Methodist church in America.

"We seek nothing in Russia for ourselves. Our only desire is to help you in a critical hour. Tell us what to do. Our resources are limited, but our desires to assist are great."

"Eyes of World on Russia"

Bishop Blake, too, declared that the church could not stand aside in the struggle of the state, but must always be prepared to co-operate with and assist the government. The soviet rule, he said, is dedicated to social service and the welfare of the people.

"The eyes of the world are resting upon Russia this minute," he said.

The translation of Bishop Blake's speech was somewhat incorrect, but despite this the speech made the most favorable impression. To show in what high esteem the Russian prelates held him, the congress elected Bishop Blake an honorary member of the board after a lengthy prayer in his behalf.

There were 380 delegates present. Among the metropolites were Antonin, of Moscow; Pietre, of Siberia; Nicolai, from the Ukraine, and Tikhon, of Kiev.

The caucus worked perfectly during the election of the board; Antonin was chosen president; Pietre secretary, and Krasnitsky and Wedensky, members of the executive committee, together with a number of other bishops and priests.

Antonin welcomed the delegates with a speech, but undoubtedly the plea of Wedensky was the feature of the session. His oratorical power is expected to control the three weeks' meeting. Official action in regard to the prosecution of Tikhon is expected to be taken at the next session.
