Interesting Rite When Miss Jacqueline O'Connell Becomes Bride of Edward Peck

A marriage of interest to many friends in the north took place recently at Mary's Church. Oak Bay, Victoria, when Miss Jacqueline O'Connell, niece of Mrs. Carl D. Pfender of Uplands, became the bride of Edward R. Urguhart Peck, son of Col.C. W. Peck V.C. and Mrs. Peck of Sidney. Archdeacon A. E. DeL. Nunns conducted the rites. An old Scottish dirk loaned by Col. Urquhart D.S.O., godfather of the groom, was used by the bride when she cut the wedding cake at the reception in the Empress

Records of More Than Million Service People at Ottawa

OTTAWA-More than a million sets of finger prints of service men and ex-service men reprsenting about half the male population of Canada between the ages of 18 and 50 are presently on file in Ottawa with the Canadian Armed Forces Identification Bureau. They are slated to remain on file.

The prints were taken during the war years with a view to establishing 100 per cent identification of men killed in action. They are still being retained for identity purposes only.

The Experts Say - -

HE'S GLAD TO BE BACK-Happiest arrival in America was the Thuransky family, shown as their ship docked at New York. Mr. Thuransky, U. S. citizen who was in business in Budapest, Hungary, dropped a word of criticism about the Hungarian regime. He was arrested by the secret police. His wife went to the U.S. embassy and told the story, but embassy demands for Thuransky's release had no effect. The captive was finally "kidnapped" by a U. S. embassy car while he was being transferred from one police station to another. Here Mr. and Mrs. Thuransky are shown with their daughter Mary.

United States must take tion not because she loves Europe or European ople but for her own protection. She has reached position where she controls the world's wealth t is finding that wealth in itself is of little value

Power Saws from Vancouver to Montreal for Shipment to Norway

VANCOUVER-Canadian aviation took another step forward side by side with Canadian industry here when a cargo version DC-3 aircraft of Trans-Canada Air Lines left Vancouver with an all-cargo load of Canadian manufactured products bound for Montreal. It was the first transcontinental cargo shipment to be flown by T.C.A. in Canada. At Montreal, it was to be transferred to the ss. Svanesgall for delivery to Oslow, Norway.

Weighing 62,000 pounds, it consisted of 18 crates of P.M. oneman power chain saws, manufactured in Vancouver by the Power Machinery Company, to be used in the Norwegian forest by the pulp and paper industry of that country. One hundred saws each weighing 36 pounds. with their spare parts, were in

The T.C.A. aircraft, scheduled to reach Montreal Tuesday morning, was chartered for the movement due to the urgency of the Norwegian requirements. The manufacturers obtained the contract in competition with a large number of United States and United Kingdom firms Other shipments will follow.

### Interest Centre

Neither Sunday or Labor Day could have been recommended from the standpoint of weather, yet motor traffic to Port Edward and along the Skeena Highway was far from being light. There were scores out to Port Edward. People evidently wished to take their time examining the stage of progress being made there on the celanese mill excavation.

### EFFECTIVE WORK WITHIN PRISONS

Long and Useful Career of Col. Habkirk of Salvation Army

Lieut. Colonel John Habkirk of Chicago, who came to Prince Rupert to be present at the summer congress of the Salvation Army in Northern British Columbia, is of somewhat slight stature with white hair and clear, penetrating voice. He sings and plays a banjo accompaniment with all the skill of the professional.

Col. Habkirk has devoted much of his life in the Army to inmates of American penitentiaries and prisons. In some, he held regular service for weeks at a time. His labors have taken him to all the states and practically all the prisons. It has been the privilege of many of the most dangerous convicts serving their terms to receive the benefits of his counsel. How effectively his efforts have re-sulted can be seen in the fact of at least ten thousand reformations being a matter of re-

NOT WHAT THE PHOTOGRAPHER EXPECTED-As King Arthur sought the Holy Grail, news photographers devote their lives and energies to seeking "something different." The author of this picture took a toy panda to the Bronx zoo and tossed it into the cage with one of the zoo's giant pandas. He expected to see it torn to pieces.
