## 'International Brigade' Probed by U.N.

### Expect Fish Price Drop

SCOTIA'S fishing industry is expected to experience a price drop in fish prices, according to a spokesman for the fishing companies. The spokesman said that the fishing companies talked of a depression, falling prices and a slumping market. Reduction in staffs and a temporary shutdown of plants was being considered by the firms.

An \$8,000,000 government order for Europe, said to be contemplated, would stabilize inshore fishing; but would have little effect on the deep sea fishery.

Fresh fish sales have decreased more than 50 per cent in the last six months, the spokesman said.

The position of west coast fish companies is somewhat different to that of the east coast operators, local fishery men say. West coast fish is more dependent on export sales, especially to the United States, than is the fish caught on the east coast.

The restrictions placed by the International Fisheries Commission on halibut tends to act as a safeguard against a market glut, and so far, there is no indication of supply exceeding demand.

Local fish company operators concede that there is likelihood of a lowering of fish prices, but say the chance of a "depression" in the market is slim.

Both west coast halibut and salmon have good markets in the United States and Canada, and in the case of salmon, the overseas trade has been established for many years and is a stable marketing factor.

### Dutch Favor Marshall Plan

PARIS.—Dutch sources at the Paris economic conference indicated today that the lowlands would advocate the prompt inclusion of western Germany in the Marshall plan for European recovery. A Dutch spokesman said Western Germany, inevitably must be added to the 16 country organization embracing all western Europe, except Spain, and excluding Russia and eight eastern states under her influence.

One of the first consequences of including western Germany, the spokesman suggested, would be the merger of the French with the combined American and British occupation zones.

### EXPECT LARGE BUTTER EXPORTS

WELLINGTON.—Lieut.-Gen. Sir Bernard Freyberg, Governor General of New Zealand, said in his speech from the throne at the opening of Parliament here that 20,000 more tons of butter would probably be shipped from New Zealand this year.

New Zealand, he said, was making substantial recovery from the economic dislocations of war. Last season's record export of meat was also likely to be exceeded.

### SOUTHERN YOUTH SHOOT HIMSELF

NEW WESTMINSTER.—A youth is in hospital fighting for his life following the accidental shooting of himself while out on a seal hunting expedition. He is fourteen year old Gilbert Richardson of Coquitlam. He is reported in a critical condition.

### THE WEATHER

**Synopsis**  
Clear, warm weather is expected throughout southern British Columbia today and tomorrow. Intermittent light rain is falling over northern Vancouver Island this morning and is expected to continue throughout today. Elsewhere throughout B.C. cloudy weather will persist.

**Forecast**  
Prince Rupert, North Coast and Queen Charlottes—Northern Vancouver Island, intermittent rain or drizzle today and tonight. Elsewhere cloudy, with widely scattered rain showers today and Tuesday. Winds light. Little change in temperature. Lows tonight—At Port Hardy 53, Massett 48, Prince Rupert 49, Hights tomorrow—At Port Hardy 60, Massett 60, Prince Rupert 65.

**Local Tides**  
Tuesday, July 15, 1947  
High 11:20 18.8 feet  
23:07 20.9 feet  
Low 5:05 3.6 feet  
16:54 7.9 feet

### M.P. Solves His Housing Problem

OTTAWA.—Harry Archibald, M.P. for Skeena, says that so far as he is concerned the housing problem is solved.

He has obtained from the parks branch at Ottawa blue prints of log cabins built for game wardens in the parks and intends to build a house of cedar logs, using pegs instead of nails which are scarce.

He says he sees no reason why a comfortable residence cannot be built at Prince Rupert, suitable for occupancy at any season, or all the year round.

### RUSS ATTEMPT TO OUTLAW ATOM NEARS DEFEAT

LAKE SUCCESS.—A veiled move by Russia to get the United Nations to endorse complete destruction of all atomic weapons appeared headed for defeat today at the sitting of the atomic energy commission.

American sources said the Soviet Deputy Foreign Minister, Gromyko was attempting to override the United States plan, already agreed to except by Russia and Poland and which calls for disposal only upon completion of a treaty for world-wide atomic control with air-tight safeguards.

### TWENTY-TWO DIE IN PLANE CRASH

MELBOURNE, Florida.—A DC-3 charter airplane bearing 31 Puerto Rican passengers and a crew of five crashed six miles west of here Sunday, killing 22 persons.

### BURMESE SEEK DOMINION STATUS

RANGOON, Burma.—A Burmese political mission will shortly go to London with the task of "obtaining Dominion status for the present interim government," an official statement issued by the Headquarters of the Anti-Fascist Peoples Freedom League, the interim government party, declared.

"Burma's ultimate objective is complete independence outside the British Commonwealth," the statement added.

### ALARMED AT DRUG CRAZE

CAPE TOWN.—Druggists are concerned about a growing habit, particularly among women who are buying sleep-inducing drugs. They agree with the Transvaal druggists that the government should tighten up the laws concerning the sale of drugs.

"Cape Town must be full of 'insomniacs,' judging from the number of people who come to me and tell me how they dread the nights because they cannot sleep," a druggist said recently.

With some people it apparently has become a habit, and the drug apart from having a physical effect, has a psychological result.

The present law permits the selling of drugs only if the customer produces a prescription from a doctor, but this does not limit the amount. The drugs are sought more by the wealthier people, and certainly not all by non-Europeans, who, if they feel the urge for drugs, obtain them illegally pretty easily.

### THIRTY-NINTH POLIO VICTIM

VANCOUVER.—Polio claimed another victim over the weekend raising the total in Vancouver and district to 39.

### BY-ELECTION AT HALIFAX TODAY

HALIFAX.—Polls opened in the by-election here this morning to fill the vacancy caused by the death of W. C. McDonald. Running are John Dickey, 32-year-old Liberal barrister; A. A. McDonald, Progressive-Conservative, and H. L. MacIntosh, C.C.F. All had help from their respective National party leaders in the fight to take the seat away from the Liberals.

The chief importance lay in the effect the result would have on the slim Liberal majority in the House of Commons.

### Triple Suicide Attempt Thwarted

VANCOUVER.—A joint suicide attempt by three women, prisoners was thwarted by the police matron and a police woman late Sunday night in the city jail. The women were identified by the police as Margaret Thomas, 32, Audrey Tartaglio and Jean Milton, 32. They had slashed their wrists with pieces of glass from three broken light bulbs.

### ALLEGED BANDITS FACING TRIAL

HAMILTON, Ont.—Two local men appeared before the Justice of the Peace in the nearby Halton county town of Milton, charged with robbing the Bank of Nova Scotia branch at Campbellville last Tuesday. The official charge against the pair brought the disclosure that the loot amounted, roughly, to \$105,000 compared with the previous unofficial estimate of \$212,000.

### GREEK POLICE ARREST 3,000

ATHENS.—The police have arrested another 3,000 people, many of them technicians in the telephone, electricity and water supply services in a new swoop of the Greek left wing supporters. They are charged with planning sabotage in the Greek capital.

### BEVIN ASSURES SOLIDARITY OF BRITAIN-FRANCE

PARIS.—Ernest Bevin, British Foreign Secretary, in a Bastille Day broadcast from Paris tonight said Great Britain and France were resolved that nothing should separate them. Much had divided the two countries in the past but there had always been an identity of policy aimed at resistance to tyranny, and maintenance of freedom.

Mr. Bevin said: "I welcome this opportunity to speak to the French people. The historic significance is not only to France but also to the world."

CANADIAN ARMY CHIEF GETS FRENCH AWARD—Gen. Howard Graham, chief of the Canadian Army, is pictured being decorated by French General Revers with the Legion D'Honneur and the Croix de Guerre. The ceremonies were held at the Invalides in Paris.

### TWO KILLED BY TRAFFIC

LANGLEY FRAIRIE.—A twenty one year old man and a four and a half year old girl died in separate traffic accidents during the week-end. The dead are Fred Timball and Marjorie Hower, of Aldergrove. B. C. Timball died from injuries received when he was thrown from a motor cycle. The Hower child was killed when she stepped in front of an automobile.

### WOULD BLOCK SHACK TOWNS

VICTORIA.—To prevent "shack towns" springing up on the fringes of some interior cities, British Columbia has ratified regulations to set up a control area in unorganized territory surrounding Vernon and Kelowna, B.C., in the Okanagan fruit-growing area.

The regulations will not take effect until after public hearings have been held in the two cities. Inspectors in these centres will enforce the regulation, with the right of appeal to boards consisting of a government agent, a city council member and three land-owners.

### LARGE OCTOPUS FOUND DURING BODY SEARCH

The largest octopus ever seen by Edward Leighton of Metlakatla in more than 60 years on the coast was encountered by him at the week-end on a small island near the entrance to Pillsbury Cove while searching for the body of his nephew, who was drowned there last week.

Attracted by a pair of eagles on the beach, Mr. Leighton found a dead octopus measuring more than six feet across the end of its tentacles just above the water mark. He said that he has never seen one so large before.

Dragging operations for the recovery of the body of Vincent Leighton, 22, who was drowned July 6 when he attempted to rescue his father who had fallen off the boat Mc W., so far has failed.

A reward of \$75 has been posted by Edward Leighton for anyone finding the body of his nephew. Mr. Leighton's brother, George, 66, the father of Vincent, was also drowned in the mishap. His body, however, was recovered shortly after he fell from the boat.

### Fish Sales

Annie Luck, 21,000, 23.80c and 19c. Storage.  
Scott Hill, 30,000, 23.80c and 19c. Pacific.

KETTLEWELL INQUEST DRAWS HUGE CROWDS—Jack Kettlewell, left and Ronald Barde, key witness in the investigation into cause and circumstances of the death of 22-year-old Christina Kettlewell, are shown here arriving together for the inquest at Bracebridge, Ont. The courtroom was crowded to capacity an hour before the inquiry opened.

### TO PROSECUTE ATOMIC THEFTS WITH SECRECY

WASHINGTON.—Government legal authorities have confidently predicted they will be able to try two former United States Army sergeants on charges involving atom bomb secrets without disclosing any hush hush data.

The men are accused of taking highly confidential notes and photographs with them when they left Los Alamos, N.M., where they were identified with bomb projects and the Army more than a year ago.

### PROBE FIFTH RING DEATH

LOS ANGELES.—An autopsy is scheduled on the body of 21-year old Benny Cleveland, bantam-weight boxer, who died Sunday, eighteen hours after a fight here. The Cleveland death makes the fifth ring fatality here this year.

### FEAR MURDER ABOARD SHIP

MONTREAL.—The steamship Maria G. in from Honolulu, via India, tied up in Montreal harbor Sunday, a ship with a mystery which police fear may turn out to be murder.

She sailed from St. John, N.B., last January, and in April came the mysterious finding of a body of an unidentified stowaway.

Bernard Mountain, 31, of St. John, is being held on charges of "aiding, helping and hiding" a stowaway.

### PLYE'S BODY IS RE-INTERRED

OKINAWA.—The body of Ernie Pyle, noted war correspondent, who was killed while witnessing fighting on the nearby island of Ie Shima in 1945, was recently re-interred with the bodies of other American correspondents in the Okinawa military command cemetery. Pyle was the most popular war writer among the troops.

### Rebels Invade West Greece

ATHENS.—Greek officials reported today that the 1,000 man force which attacked the village of Konitsa on Sunday had been pushed back to the Albanian border six miles away by reinforced Greek troops which used modern weapons to repel the well-organized force.

ATHENS.—The Green government said Sunday that a force of more than one thousand men, moving and fighting as an organized army rather than a guerrilla band crossed into Greece from Albania and attacked the town of Konitsa, six miles from the Albanian border. About 200 Greek soldiers were defending the town of 2,000.

ATHENS.—Australian, United States and Soviet representatives on the United Nations-Balkan commission left Salonika by air today for Konitsa to investigate Greek allegations that the "international" brigade had violated Greek territory.

### FIVE FISHERMEN MAROONED ON PACIFIC ISLE

SAN DIEGO, Calif.—Five shipwrecked fishermen, clothed in rags and blackened by the tropical sun, were reported in "fair condition" after nearly six weeks on a tiny Pacific island off the coast of Mexico.

First word of the five men, missing with the fishing boat Thistle since May 19, was received last night when a radio message from another boat asked the Coast Guard and Navy for aid.

The tuna clipper Normandie of San Diego sent the message, saying it was standing by off the five-square mile Clipperton Island, 1,700 miles south of here and 500 miles off Mexico.

Vice-Admiral J. B. Oldendorf, Commander of the Navy's Western Sea Frontier, announced he was requesting the Normandie to take the fishermen to the Galapagos Islands, about 1,300 miles further south.

The navy planned to send a craft there from Panama to aid them.

Fishermen here said the wrecked boat was from San Pedro, Calif., fishing for the California Marine Curing and Packing Company at Terminal Island.

They expressed belief the five rescued men, who the Navy message said were from San Diego, were also from San Pedro.

Names of the men were given in the radio message as Capt. William Noble, Charles E. Warren, Gilbert B. Stethe, Robert Marshall and Walter Richards.

The Normandie, one of the largest of San Diego's tuna clippers, radioed that the Thistle had broken up on the desolate island, but that none of the crew was hurt.

### DAILY FLIGHTS TO POLE PLANNED

WASHINGTON.—Daily weather observation flights to the North Pole, to replace the present weekly schedule, will be started soon by the Army Air Forces.

Brig. Gen. D. N. Yates, Chief of the AAF's Air Weather Service, told a news conference that he expects the new schedule—to provide continuing information from the biggest weather blind spot in the Northern Hemisphere—will commence some time in July.

Airplanes used for the flights from Ladd Field, near Fairbanks, Alaska, are converted B-29's, stripped of their guns and armor and equipped with gadgets used by the weather men.

RIVALRY NATURE—Dr. Robert Woodward, Harvard University researcher, working with Dr. C. S. Schramm, has made a discovery which may make possible the manufacture of artificial wool, silk or fur. He has synthesized, or produced in a laboratory, the huge protein-like molecules which are always found in wool, silk and fur made by nature.

### Expect Fish Price Drop

SCOTIA'S fishing industry is expected to experience a price drop in fish prices, according to a spokesman for the fishing companies. The spokesman said that the fishing companies talked of a depression, falling prices and a slumping market. Reduction in staffs and a temporary shutdown of plants was being considered by the firms.

An \$8,000,000 government order for Europe, said to be contemplated, would stabilize inshore fishing; but would have little effect on the deep sea fishery.

Fresh fish sales have decreased more than 50 per cent in the last six months, the spokesman said.

The position of west coast fish companies is somewhat different to that of the east coast operators, local fishery men say. West coast fish is more dependent on export sales, especially to the United States, than is the fish caught on the east coast.

The restrictions placed by the International Fisheries Commission on halibut tends to act as a safeguard against a market glut, and so far, there is no indication of supply exceeding demand.

Local fish company operators concede that there is likelihood of a lowering of fish prices, but say the chance of a "depression" in the market is slim.

Both west coast halibut and salmon have good markets in the United States and Canada, and in the case of salmon, the overseas trade has been established for many years and is a stable marketing factor.

### TELEVISION "BOX-OFFICE" DEVELOPED

CHICAGO.—The first pay-as-you-watch television—a system that would give radio-casters a "box office"—was announced by the Zenith Radio Corporation.

The principle is called phone vision. Most of the frequencies needed to transmit an image are broadcast by air. The key frequencies can be piped to you over your regular telephone wire—if you pay the wire-transmitted service.

E. F. McDonald, Jr., President of Zenith, predicted the development would "solve the economic problems" of television and "provide the sort of entertainment that the American people want."

He said the new system would make possible, without commercials, such entertainment as first-run motion pictures, current news news, and Broadway plays.

Arrangement will be worked out with major film producers, television radio-casters, and the telephone company and Zenith will go into production of phone vision sets, Mr. McDonald said. He estimated the new system would be in operation in six months to a year in such cities as Chicago, New York, Washington and Los Angeles.

Zenith executives gave a preview of phone vision in the Corporation's downtown distributors' headquarters.

A blurred, vibrating image appeared on the screen of a television receiving set. A telephone was put through to the Zenith transmitting station eight miles away, where a technician switched a switch connected with the phone line.

The image then appeared in sharp focus.

Mr. McDonald said the expansion of television had not measured up to early expectations. Because of the "enormous costs" of producing and radio-casting sets, he said, the sales of receiving sets have been low.

### EXPECT LARGE BUTTER EXPORTS

WELLINGTON.—Lieut.-Gen. Sir Bernard Freyberg, Governor General of New Zealand, said in his speech from the throne at the opening of Parliament here that 20,000 more tons of butter would probably be shipped from New Zealand this year.

New Zealand, he said, was making substantial recovery from the economic dislocations of war. Last season's record export of meat was also likely to be exceeded.

### THIRTY-NINTH POLIO VICTIM

VANCOUVER.—Polio claimed another victim over the weekend raising the total in Vancouver and district to 39.

## Looking Northward

A NATION of forty million people within the life span of the young people of today is seen as the proper destiny of Canada by the official publication of one of the major Canadian political parties. In the course of elaboration of this destiny, Hon. W. Earl Rowe, prominent federal Parliamentarian from Ontario, is quoted as having pointed out that "the destiny of this country is tied up with the development of its northlands, that hundreds of millions of dollars are ready in the United States for investment in this country as soon as American lenders can be sure that this country will not go Socialist and confiscate the wealth they have helped to develop." J. G. Diefenbaker is another national political figure who points northward to undeveloped resources as sharing potentially in the growth and development of Canada's wealth.

Says the article: "Eighty years ago this month Canada, as we know it, came into being through Confederation. In that period Canada came into nationhood. In that period we settled vast lands, subdued wildernesses, found riches in rocks and earth and builded mighty cities. We have grown to be a people 12,000,000 strong.

"Yes, we are strong. The history of two wars proves it. By why should we be strong only in wartime? Why should we not be strong and work with united effort in times of peace as well? Why should Canada turn into a sleeping giant between wars; a giant swathed and pinioned by cobwebs of lassitude? Why should we not use this giant strength of ours to develop further this land; to use its untouched wealth; to make life richer and happier for all of us; to build Canada until, within the life-span of our young people, it is a nation of 40 million people.

"Surely this is the proper destiny of Canada. Surely if we have faith in this destiny and if work accompanies that faith we shall achieve it."

\* \* \*

## ON OUR SHOULDERS

CURTAILMENT of arms, the attainment of international harmony, the achievement of peace, the efficacy of prayer, the provision of funds for social security programs all rest upon the willingness of men to possess these things. If man really desires peace he can have it, but he must pay the price. The price is unselfishness, the surrender of individual rights to community rights and of national privileges to international authority.

\* \* \*

## OLD SOLDIERS FADE

THE MEN OF 1914-18 did their duty and made good job of it. They were heroes then and "nothing was too good for them."

It is not suggested that the men of 1939-45 are getting too much... but the men of 1914-18 get so little! Just a modest gratuity for a few months; then left to their own resources.

These, surely, are the forgotten men of these times, these Canadians who belonged to just about the finest military formation in any theatre of war and on any front. Perhaps they were "born 30 years too soon."

Very few men have been able to learn a business from the top down.

## THIS AND THAT

"Hurry up! I can't hold my chest out all summer!"

GOVERNOR-GENERAL HONORED BY PRINCETON—President Harold Dods of Princeton, N.J., centre, shakes hands with Viscount Alexander, governor-general of Canada, after presenting him with a degree at the Princeton commencement exercises.

## REPORTORIAL EXPERIENCES

(W. J. R.)

### The Cub Takes First Lesson — Getting News From Sermon

Some papers send reporters to hear sermons on the off chance of a discourse containing live and unlooked for copy. And some carry the weekly service as a valuable and appreciated feature which is always there.

One calm evening, way down in the Maritimes, lanky Frank Rafferty sat restlessly at his desk. Staff members were dropping in. The week was commencing.

"Hey, Billy,"  
The editorial finger was pointing at me.

"Go down to - - - Church and see what Dr. - - will say tonight." It was my first assignment of any description. Everything was so new the varnish cracked. Going to a church was nothing unfamiliar, having been there since long before 'teen age. But this was different.

This was a new deal. Where and how to return with a "story". The shadow of sin, it was certain, had never been known to fall near the saintly old clergyman and his circumspect congregation. One could not but feel a vague discomfort and doubt as to the success of a duty. From the publishing angle—from the point of view of hot news, the outlook, generally speaking, seemed a shade arid. Still, an order was an order. Evenly a lowly cub must somehow make the field bear fruit.

Having thoughtfully laid in a stock of newsprint and freshly sharpened pencils, I labored diligently well into the night. I had taken what some folks call "copious notes," and at my twenty-fifth page would have written "30," had I known what it meant. Midnight was near when the result of hours of anxious toil was laid at Rafferty's elbow. The number of pages made the bundle too thick to stick on a hook. He gave a glance at me, hastened through the first few pages, and laid it aside to turn to more pressing work.

Makeup was approaching. Early morning editions would shortly be on the way. Mallets would pound and the "sheet be put to bed." Everyone was busy. My story did not appear. It failed to break into print then or any other time.

Said Rafferty, that afternoon! I'm not blaming you for not catching my idea, last night. Guess I didn't tell you what I really wanted. Now, had anyone said the mayor was no better than he should be, or a shakeup at police headquarters was needed that would have been different."

**BALK ATOMIC SMUGGLING**  
BRISBANE, Queensland, @ — Australia has placed restrictions on export of sands from Southern Queensland to prevent smuggling. These sands contain thorium which can be used for a substitute for uranium in atomic energy work.

**PLANT NEW FORESTS**  
LONDON, @ — Britain's reforestation is proceeding favorably. More than 45,000,000 new trees have already been planted and another 4,000,000 will be added to this by the end of July.

## JOHN HART AT JASPER

JASPER—Vigorous and smiling happily, Premier John Hart of British Columbia arrived here Saturday to start a fifteen-day vacation at Jasper Park Lodge with Mrs. Hart and dispelled any mystery as to what he would be doing for the next fortnight. After stepping off the train, his first enquiry was about the weather and then he wanted to know of the condition of the 18-hole Jasper golf course. He was relieved to find that the fairways and greens were in excellent shape.

Mr. Hart, one time amateur champion of the province, re-

gretted that he had not had much time for golf in the past few years and added, with a smile that when other things interfere with golf they should be dropped. During the vacation, the British Columbia premier also anticipates taking a few trout from one of the nearby well-stocked lakes.

No stranger to the ballroom, he questioned manager John Stark closely regarding the orchestra and type of music played. Mrs. Hart, however, will not be so venturesome as, in her own words, she now leaves all the dancing in the family to her husband.

**KIN OF MACKEREL**  
The swordfish is related to the mackerel family.

## GROUP WORK FOR LOCAL BOYS AT SKEENA CANNERY

An interesting experiment in group summer employment of boys from Booth Memorial High School of Prince Rupert is taking place at the Canadian Fishing Co.'s salmon cannery at Carlisle Cannery on the Skeena River. Organized by Aubrey Bate of the teaching staff, twenty-five of the boys are spending the season working in the plant. They have their own bunkhouse and, while doing a good job of work around the cannery, are also having much enjoyment out of the adventure. Next Sunday they will

journey by boat to Port where they will play football games with selected from other camps. It is expected some of the boys will go to Port Edward their boys.

Passengers on this C.P.A. flight for Vancouver were J. E. Tucker, G. Brown, Craig, L. G. Murray, J. and C. L. McDonald. Passengers were R. St. Doyle, Mr. and Mrs. W. P. and J. W. Stewart. In Saturday were P. Chalk, Murray, C. L. McDonald, and Mrs. M. W. Vancouver and H. Laird Sandspit.

## PRINCE RUPERT YEARS AGO

July 14, 1922

After travelling more than 5,000 miles afoot, on horseback, by canoe and by boat, four prospectors, Walter Murphy, David McRae, Charles McDonald and Howard Colley, passed through the city on the Princess Alice headed south to register oil claims that they had staked in the Fort Norman area.

The Hudson's Bay Co. auxiliary schooner Lady Kindersley left Prince Rupert for Herschel Island in the Arctic after spending several days in port.

Washington Irving, who fell over the sidewalk while listening to the music from a dance in the DeLuxe Hall, will not be awarded damages by the city council, the city solicitor holding that the corporation is not responsible.

July 14, 1912

J. Stuss, an employee of the Westholme Lumber Co., died from injuries received when he fell from a crane being used in the construction of a new government wharf.

Contractors on city work have been warned by Magistrate Cars and Superintendent of Works J. M. McNeill to differentiate between their own plants and city equipment when doing work on their contracts. S. H. Watson, a contractor, appeared in police court in this connection but was dismissed with a warning.

The Scandinavian Society at its semi-annual meeting elected A. Akerberg as president and John Dybhavn as secretary.

● Meeting Horticultural Society Tues., May 15, 8 p.m. Civic Centre. (164)

Mrs. Frank Dibb returned to the city on the Princess Adelaide this afternoon from a trip to Vancouver and Victoria.

John Post, after spending the past month here doing special work for the Daily News, sailed by the Camosun Saturday night on his return to Vancouver.

Alderman George Casey sailed last night on the Coquitlam for Alice Arm to spend a couple of weeks on his mining property there.

Rev. C. Lomas of the Anglican Mission boat Northern Cross sailed last night on the Coquitlam for Stewart where he will officiate at a wedding this week.

Maggie Angus, 20-year-old native girl, died at a district hospital this morning.

H. M. Daggett returned to his contracting work at Port Simpson last night on the Coquitlam following a week-end visit to the city.

Darrow Gomez, Percy Bond and Kenneth Johnston left at the end of the week for Victoria to take a two weeks' Reserve Army training course.

Special Meeting, Canadian Legion Executive and Picnic Committees, Legion Hall, tonight at 8 p.m.

Mrs. William Bent is sailing by the Princess Adelaide tonight after spending a six weeks' holiday visiting with her niece, Mrs. Hans Giske, 1201 Park Avenue.

The following also sent flowers to the funeral of the late George S. Leighton of Metlakatla: Mr. and Mrs. William Leask and family, Mr. and Mrs. G. D. Ryan and family, Miss Merrett, Mrs. Alice Leighton.

Mr. and Mrs. Don McEwen returned Sunday from a two week holiday trip during which they motored to Regina to visit relatives. On their way back they visited the Calgary Stampede and at Banff and Lake Louise. Returning with them was Mrs. McEwen's brother, Douglas, who plans to settle in Prince Rupert.

**HELD NATION TOGETHER**—Maria Romano De Gacperi, daughter of Italy's premier, will go down in history as a young lady who held a country together at a fateful time. It was Maria who dissuaded Italy's president, Enrico De Nicola, 69, from resigning as head of the provisional government. He agreed to postpone his resignation but did not say for how long.

Classified Advertising Pays!

City Council tonight will hold its first regular meeting of the month. A special meeting was held last Wednesday to give first reading to a new wartime housing agreement by-law and to consider tenders for garbage disposal contracts.

Mr. and Mrs. D. L. Coulter passed through the city Sunday evening on the Coquitlam, bound from Vancouver for Premier where Mr. Coulter has been manager of the Premier Mine. They were joined at Prince Rupert by Mrs. Coulter's mother, Mrs. M. P. McCaffery, and sister, Miss Margaret McCaffery, who will visit at the mining town.

**1867—DOMINION OF CANADA—1947**

**EATON'S and the Dominion have grown up together**

- The fledgling Dominion has become a sturdy young nation of the world
- The little sprout of a store is now a Canada-wide source of supply and service

A page for NEW CANADIANS and the NEW GENERATION of SHOPPERS — or any customers who may not know their EATON history

**JULY 1st, 1867** — Canada's first Dominion Day—to celebrate Confederation of her scattered, unrelated provinces. The hardy North American member of the British Empire enters a bright new era of development and progress. Sir John A. Macdonald is first Prime Minister.

**1869** Timothy Eaton, young, Irish and idealistic, opens Dry Goods business on ground floor of little 24 by 60-foot shop.

**1879** — Store has prospered. People like the new EATON way of shopping—plainly marked prices, no dickering, no one urged to buy, and the crowning, incredible advantage, **GOODS SATISFACTORY OR MONEY REFUNDED.** Original premises enlarged.

**1884** — First EATON Catalogue—and birth of the Mail Order.

**1891** — Daily working time for EATON Employees now reduced by many hours, with something unique in retail business. Saturday half-holiday in July and August. Timothy Eaton hailed as Father of the Early Closing Movement.

**1893** — Opening of EATON'S first Overseas Buying Office—in London.

**1905** — Winnipeg Store opened.

**1907** — John Craig Eaton becomes President—on death of his father, Timothy Eaton, on January 31st.

**1914-1918** — 3,327 EATON men enlist for military service in World War I. King George V confers knighthood on the President in recognition of his many-sided contribution to the war effort.

**1919** — Celebration of the Store's Golden Jubilee. Mail Order Branch opened at Moncton.

**1922** — Death of Sir John C. Eaton after a brief illness. Mr. R. Y. Eaton, Vice-President of the Company and nephew of the founder, becomes President.

**1925-1930** — Expansion. 1925—Eaton's of Montreal opens. 1927—Stores in Hamilton and Saskatoon. 1928—Canadian Department Stores. 1929—Stores in Edmonton and Calgary. 1930—EATON'S College Street, Toronto.

**1939-1945** — World War II. EATON men and women enlisted in Navy, Army and Air Force—5,615.

**1942** — On the retirement of Mr. R. Y. Eaton, Mr. John David Eaton is elected President of the Company—the third in direct line of the Eaton family.

**JULY 1st, 1947** — Eaton's rejoices with Canada in the large measure of peace and prosperity which has been restored to this favoured land.

**NOVELIST WILLS HOME TO YOUTH**—Mrs. Anna V. Miller, of Brooklyn, N.Y., is pictured with her son, 13, as they look over a letter from the late British novelist, Matthew Phipps Shiel, who died in England last Feb. The novelist willed his home and garden in England to Patrick. It all began 17 years ago. Mrs. Miller sent a letter to the author, complimenting him on an article he wrote. She fell in love with the writer and offered to marry her. He refused. Though he learned that Mrs. Miller was happily married, the novelist continued corresponding and gave, at some fatherly advice on how to raise young Patrick. Mrs. Miller and the author never met.

**MOOSE TAKE FIRST WIN OFF SAVOY**

Jubilant reign in the hearts of the Moose brethren Sunday afternoon when their persistent baseball squad achieved what had become their veritable season's ambition—to hand a substantial defeat to the high-flying Savoy team. The deed was done properly with a 9-5 score.

Occasionally in the troubled history of baseball, a team gets nipped by the sitting bug and while the epidemic is raging everything that leaves the hand of the opposing pitcher gets clouted across the field. Moose were in that mood Sunday.

The Lodge brothers marked up 15 hits in nine innings, two of which were doubles and one triple. Victor Dell improved the ninth inning with a triple that rolled almost to the fastball net at the extremity of centre field, and was brought in when Rose-dale got on base on an error by Savoy's Hartwig.

The Moose victory was their first over Savoy this season, and constituted Savoy's second defeat of the season. They fell before

Watts & Nickerson by a score of 2-0 on June 8.

Moose got 13 hits off Savoy pitcher Alex Bill in the first seven innings, copping two more off Jack Lindsay who went on the mound in the eighth. Savoy got 12 hits off Moose pitcher Jack Rosedale in nine innings.

Moose had their biggest inning in the sixth when they brought in three runs off four hits. Dahl, McNeice and Dell each stored off singles; while Rosedale was left on first when the side was retired.

Best hitting of the day was done by Moose centre fielder Vern Moore and Foster of Savoy who clouted four hits in five times at bat. Cliff Dahl marked up three hits in four times at bat.

Tidiest play of the game was a Lindsay to Arney double play in the fourth in which Lindsay caught up Dell, then hurled mightily to Arney at third base to tag Dahl running from second.

SERVING CANADIANS THROUGH CHEMISTRY

*Chemistry?* How does it help me?

**SOME MAY NOT realize it but there is hardly a job that doesn't depend in some degree on chemistry. It often provides the raw material or is a vital element in product treatment. In many cases the finished article is entirely chemical.**

Chemistry's contributions to the home and individual are countless. Chlorine purifies the water we drink. Textiles are chemically treated to give them wearing qualities. Chemical fertilizers mean bumper crops. Chemistry produces paint, tans leather. As "Cellophane" it protects things we buy; as nylon or plastics, it serves us endlessly.

This is a chemical age, with the C-I-L oval as symbol of an organization devoted to serving Canadians through chemistry:

**For instance: SULPHURIC ACID**  
Among the many commercial acids produced by chemistry, none has wider usefulness than sulphuric. Even the battery in your car depends upon it. Sulphuric Acid is a product of Canadian Industries Limited.  
Head Office, 1135 Beaver Hall Hill, Montreal.

# The Experts Say - -

**REASON OF GREENS**  
The season of "greens" in the garden, and most are equally good either cooked.  
Cabbage, chard, cabbage, and a little endive, kale, and greens or the wild "quarts," are favorites of most families, but the tenning tops of beets or turnips, even horse-radish, are appetizing.  
Of course there's spinach, a victim of its own goodness.  
Economists of the connection, Dominion department of agriculture, say there's nothing in getting spinach out of "good-for-you" class and an appetite-tickling group. Try a dish of Spring Puffs for family and see if it wins them over.  
Ingredients: 1½ pounds spinach; 1 cup milk; 1 cup butter; 1 cup flour; 1 egg; 1 cup water; 1 cup salt.

# AND IT RAINS OTHER PLACES

The people of London were all agog over the betrothal announcement of their beloved Princess Elizabeth and the popular sailor Prince Philip Mountbatten. The day following the announcement, the happy couple would make a journey through the city, and there would be millions who would turn out to show their affection. Well, it rained, and rained heavily.  
There were to be cricket games but Glamorgan were out of luck. They had batted and then came the rain. Play was stopped. Then the rain stopped. The umpires inspected the playing pitch after a time and had just decided that play might be resumed when... the rain resumed its activities, and "play was off for the day."  
Toss lightly with fork. Garnish with tiny carrot or turnip sticks. Serve very cold.  
And for salad dressing try: 1½ teaspoons mustard; two tablespoons flour; two tablespoons sugar; one teaspoon salt; one cup milk water or buttermilk; two tablespoons shortening; one-third cup cider vinegar.  
Mix dry ingredients in upper part of double-boiler and beaten egg, and milk or water; add vinegar, and cook over boiling water, stirring constantly until thick; remove from heat and add shortening; if too thick when cold, thin with milk just before using; if no egg is available increase flour four to three tablespoons.  
**Skim Milk**  
Pound for pound, skim milk contains as much protein, a little more carbohydrate and as much calcium, phosphorus, iron, the B vitamins and Vitamin C, as whole milk. The nutrition division of the health and welfare department recommends skim milk as an excellent and healthful substitute in part, when the budget won't stretch to whole milk for the entire family.

# New Floral Creation for the Summer Bride

For the 1947 summer bride who goes completely formal, here traditional bridal bouquet of lily of the valley and three white orchids with yellow throats. These can be removed and worn as a going-away corsage as shown in the photo inset. For such formal weddings, greatest demand is for this type of traditional ivory satin gown, with Elizabethan décolletage. For the bridesmaid (upper right), Vanity Fair roses in soft shell pink, with a few flesh-colored double stock flowers are suggested. It's the perfect floral note for this season's favorite bridesmaid dress, featuring portrait neckline and the new rounded shoulder.

## SHIPS AND WATERFRONT

Two more American cargo carriers are now running between Seattle and Alaska. This is announced by the U.S. Maritime Commission. These boats are the Ring Splice, which has already taken cannery supplies. The other is the Edmond Mallett. She is helping handle the salmon pack.

Interesting passengers aboard the SS Princess Louise at Prince Rupert recently were Mr. and Mrs. W. C. Hutchings and Mr. and Mrs. Charles H. Albers, all of Chicago. Twenty-three years ago both couples were married at the same time in Chicago, and their honeymoons were also spent together when they travelled to Skagway and Dawson. This year, both couples decided to make the northern journey again, travelling together—but with their respective families

along. Mr. Hutchings follows radio broadcasting and Mr. Albers is in the banking business.

**MONKEY REVENGE**  
DUREAN, South Africa, (P)—Durban monkeys, condemned to extermination by the city engineer, recently invaded his premises, ravaged his garden and attacked his dog so savagely that it may be crippled for life.

**ERAHMS' FIRST CONCERT**  
Brahms made his first concert appearance at the age of 14.

**Train Schedule**  
(Pacific Standard Time)  
For the East—  
Monday, Wednesday, Friday—8 p.m.  
From the East—  
Tuesday, Thursday, Saturday—10:45 p.m.

**U.N. IS ON THE JOB IN PALESTINE**—Dr. Emil Sandstrom, of Sweden, centre, chairman of the United Nations committee on Palestine, is pictured being swamped with questions by journalists upon his arrival at Lydda. In an obvious invitation to members of the underground to appear before the investigating group, Chairman Sandstrom promised that his group will grant the request of any witness that his name be kept a secret. Also that he wants to contact all elements involved in the Holy Land dissension. As the Arabs continued in their determination to boycott the sessions of the committee, the committee voted on a July 5 deadline for filing of requests for oral hearings.

Mr. and Mrs. I. S. Raymer of Pittsburgh, who have been visiting here for the past two weeks with Dr. and Mrs. L. W. Kergin, are leaving on tonight's train proceeding back to Pittsburgh.

## UPROARIOUS COMEDY HERE

Charles Boyer and Jennifer Jones in "Cluny Brown"  
Local movie-goers are provided with a gay, exciting comedy romance in "Cluny Brown," starring Charles Boyer and Jennifer Jones, which comes to the Capitol Theatre this Monday and Tuesday.  
The story, which was a best-selling novel, is that of two unpredictable people who become entangled in an uproarious serious situation. Miss Jones is a girl whose ambition is to become a lady plumber and is instead exiled by her uncle to a country estate to serve as a ladies' maid. Boyer is a carefree and restless refugee who harbors some startling theories on the subject of achieving happiness.  
Other important members of the cast are Peter Lawford, Helen Walker, Reginald Gardiner, Reginald Owen, Sir C. Aubrey Smith and Una O'Connor.

DEAL, Eng., (P)—Salvage work on S.S. Helena Modjeska, wrecked off the coast here 10 months ago, has been completed.

Mr. and Mrs. Peter Allen and children Denny and Brenda arrived in the city Saturday after motoring from Victoria to visit their parents, Mr. and Mrs. J. Denny Allen and Mr. and Mrs. W. Whiffin. They will be in the city for a week. Mr. Allen reported that the roads in the north compared favorably with highways in the Victoria region.

## HAY FEVER Relief

—has been won—quickly, safely—by thousands who once suffered from sore, streaming, irritated eyes, itchy ears, and who sneezed and wheezed, coughed, choked, agitated every year. Now they sleep, work, feel normal—thanks to Templeton's RAZ-MAH. You needn't suffer Hay Fever misery. Take RAZ-MAH and get the relief you long for. 50¢, \$1 at drugists. R-19

What's All This Talk of Higher Prices?

## Everything Is Under Control

• Though government controls have almost all been removed for some months, we are very proud to announce that our price average throughout our stores has not changed. Some prices have risen a little but, to offset these rises, other prices have gone down, AND BETTER NEWS STILL, ACTUAL QUALITY IS MUCH BETTER THAN BEFORE.

Yes! Things Are Definitely Under Control At
