History of Hallowe'en

By Mail, Per Month, 40c; Per Year, \$4.00.

THE night when black witches brew mysterious concoctions, full of strange enchantment in their orable service, clean dealing, plain that Whitehall's advice tween 10 and 12 inches in gripboiling cauldrons, brack cats prowl and howl and wild-shadows, is about to startle us once more.

Hallowe'en, the thirty-first of October, brings. out the mischief and gaiety which makes entertaining a simple matter. The prankish and frolicsome spirit comes out in some form with all of us, from the small boys and girls to the grown-up folk.

Spooks and wild fun are legendary with Hallowe'en but it seems that this festival originated in the Christian church. It was the name given to the evening of the thirty-first of October as the vigil of Hallow mass or All Saints Day. Before the Christian era, however, the eve of the thirty-first of October was the occasion of harvest and other ceremonies in various countries and the festivities which were gradually gathered around the Christian Hallowe'en at a later date originated for the most part in countries under the sway of the Druid religion, chiefly Britain, plus a few indoor and outdoor celebrations borrowed from the pagan Roman festival to the goddess of fruit.

The two chief characteristics of ancient Hallowe'en were the lighting of bonfires and the belief American sailors are not hearty was Adolf Hitler who balanced H.G. HELGERSON that Hallowe'en was the only night of the year on which ghosts, warlocks, witches and evil spirits were permitted to wander on earth.

One of the peculiar beliefs in bygone days associated with Hallowe'en ascribes to children born on that day the possession of certain peculiar faculties, such as the ability to see and to hold converse with supernatural beings. It is interesting to recall that in his romance "The Monastery," Sir Walter Scott makes use of this circumstance, and in conjunction with it, another, also linked with the supernatural, that of familiar spirits attaching themselves to notable families and making their presence known at the approach of crises with timely warnings of impending events in the lives of those to whom they so bound themselves.

It is true that late planting is not the best; and everything will do better if planted soon enough to make considerable root growth in the fall. But late planting is better than none and preferable to spring planting with many subjects.

HOW CAN I??? By ANNE ASHLEY

Q. How can I make a good pie crust?

A. Take 1 cup of shortening, butter or lard, 1/2 cup of boiling water and beat until creamy. Sift in a flour mixture composed of 3 cups of flour, 1/2 teaspoon baking powder and salt. Stir together and roll out. This makes two pie crusts.

Q. How can I eliminate a greasy shine from the skin?

AA. This can often be overcome by washing every morning and night with water in which a pinch of borax has been dis-Q. How can I clean wrought

A. Try dampening a woolen cloth in sweet oil, rubbing thoroughly, and then polishing with a dry woolen cloth.

Setting the Race

Even more than in other fields of industrial endeavour, the business of catching, processing and marketing fish is subject to constant

change in technique and marketing trends.

PROVIDING CANADIANS...AND THE WORLD...WITH PRIME QUALITY FISH

Our objective is to make use of the latest equipment in harvesting the catch, and to process it in such a manner that it will retain peak quality and command distribution in all markets.

To achieve this goal, we exercise constant vigilance and make large expenditures to originate or adapt any operating methods which improve the quality of our product and the efficiency of our operations.

The combination of skilled British Columbia fishermen, modern processing plants and sound marketing knowledge contributes to British Columbia's prosperity by transforming our valuable fisheries resources into substantial payrolls.

Alex Bill's Coaching of Basketball at Booth Memorial High School

Alex Bill started coaching basketball at Booth Memorial High in 1942. From 1942 to 1945 he coached girls' basketball only, but, during the 1945-1946 season he was given also the job of to file building up boys' basketball in fied on the school. At the finish of that season his High School regard only to boys' team came second in the City League after a close playat Prince Rupert, B.C., this off series with the Savoys they won the Northern British Columbia High School Championship and, for the first time, boys team in the Intermediate a Rupert High School won from Ketchikan High School. the Senior League. Maybe both

Last season his High School boys' team made a noteable record in the school's annals that will take a lot to break. They won the Senior Championship of the city and district. They won the Northern B. C. Hig School championship and they were rated one of the top four High School teams in B. C. during the High School tournament ne glass or by the bottle at New Westminster.

While the boys were making these records, Bill's High School girls' team was not idle. They lest only two games last season and won their third straight city championship under him The girls also travelled to Telkwa during the Easter holidays where they won three straight. Note: "Bill 39" is not perfect legislation. No one claims it is. Where necessary it can be improved by orderly and democratic action in the Legislature. The public approves its basic provisions.

The right to strike . . . after responsibility to the public has been discharged and after a secret ballot: That is what British Columbia's labor legislation (Bill 39) guarantees to labor.

But it guarantees more than the basic right to strike.

It provides that before a strike can legally be called, there must be in the interest of all concerned:

- (a) Negotiation in good faith between employer and employees' representatives: (An employer who does not bargain in good faith can be charged in court and fined).
- (b) A period of conciliation with representatives of the Department of Labor attempting to reconcile the difference:
- (c) A conciliation board acting as mediator; and, if no settlement is reached
- (d) A government-supervised secret ballot of employees affected to determine whether or not they want to take strike action.

THE ONLY THING NEW IN THIS PRO-CEDURE IS THE SUPERVISED SECRET BALLOT ON STRIKE ACTION.

It is a reform designed to free labor from the possibility of pressure and intimidation that can exist where there is open, show-ofhands balloting, often at small, unrepresentative meetings where a minority could impose its wishes on the rank and file.

It brings the democratic secret ballot to employees faced with a critical decision.

WHY SHOULD THE SECRET BALLOT BE OPPOSED!
