### LABOR COUNCIL WOULD AMEND LEGISLATION

Prince Rupert Trades and Labor Council will support the Trades and Labor Council of Vancouver in a course of action to have Bill 39, the recently passed labor legislation of the provincial government, amended to include clauses more acceptable to labor.

A meeting of the council in the Carpenters' Hall agreed to work in co-operation with other bodies in this matter after being approached by the Vancouver council by letter.

Failure of the provincial government to institute a health insurance act was deplored by the delegates, and steps will be taken to bring the matter before the various unions in the city.

All union delegates reported increased interest in organization and requests have been received from unorganized workers to assist in their unionization. Arrangements already have been made in this regard, the organization committee reported.

Chairman of the meeting was August Wallin, Trades and Labor Council president.

### Bulletins

**DIEPPE JUSTIFIED**  
LONDON — The heroic but costly raid made on the French coast at Dieppe by Canadian troops five years ago was "well worth while because of the lessons it taught the Allied high command, a special report issued today by the Admiralty said. The Dieppe raid showed the high command that powerful forces would be needed to crack the German defences in Europe.

**FISHING VESSEL BURNS**  
SHELBURNE, N. S. — The sword fishing vessel *Maten*, out of Lunenburg, burned to the water's edge and then exploded 40 miles off the south shore Thursday. Her crew of nine managed to get safely away, later being picked up by another vessel.

**RAIN CHECKS FIRES**  
SAULT STE. MARIE—Cooler weather and a promise of rain today led firefighters to hope that within 24 hours or so they would have checked all the forest fires which threatened a million dollars worth of timber in the west Algonia territory north of here.

**C.C.F. FEEDING JAPS**  
MOOSE JAW—As the Department of Labor officials went ahead Wednesday with plans to stop supplying food to 59 inmates of the Japanese relocation camps here. The Saskatchewan government promised to aid Canadian-born Japanese and Japanese nationals sent here in 1942 from west coast points. The Japs have refused to leave the camp to take jobs elsewhere.

### ADDITION FOR ARMY HOSPITAL

VANCOUVER — Five firms have tendered bids for alteration work at Shaughnessy Hospital which is estimated will cost \$200,000.

### BIG MARINE SUIT LIKELY

Owners of Sunken Diamond Knot Considering Admiralty Action of \$5,000,000

VICTORIA, B.C.—Owners of the United States (Alaska Steamship Co.) motorship *Diamond Knot*, which sank with its rich cargo of canned salmon and fish oil following collision in fog-bound Strait of Juan de Fuca early Wednesday morning, are contemplating the instituting of a \$5,000,000 suit against the owners of the freighter *Penn Victory*, the ramming vessel. The sum of \$1,000,000 is claimed for the vessel and \$4,000,000 for the cargo. Excessive speed at sea under the weather conditions which prevailed is being claimed.

An attorney in Seattle for the Alaska Steamship Co. intimated yesterday that the Admiralty suit would be filed.

Yesterday Alaska Steamship Co. officials conferred with salvage representatives in Seattle over the possibility of saving the cargo but there appeared to be little chance of this being successfully carried out.

The haggard sailors of the *Diamond Knot*, on arriving in Seattle, had the unanimous refrain: "We're lucky to be alive."

Seaman Paul Costello, on watch when the collision occurred, said: "If that *Victory Ship* had hit us just a few feet farther aft, it's doubtful if any of us would have been here now."

The *Penn Victory*, which almost sliced the *Diamond Knot* in two, was brought to Seattle for hull repairs which officials estimate will run around \$13,000.

### Charge Russian Aids Being "Molested" by Greek Gov't.

#### YUGOSLAVIA LIKELY TO FOLLOW RUSSIAN LEAD

ATHENS (CP)—Some diplomatic and political observers said today that it appeared likely that both the Soviet Union and Yugoslavia wished to break off diplomatic relations with Greece.

The Soviet Union awaited a reply from the Greek government to a sharp protest that Russian aides were being molested by Greek authorities.

### SOUTHEASTERN TO GET FOOD FOR JUNEAU

JUNEAU — Announcement that the Briggs Steamship Co. freighter will make a special trip to Seattle for a food cargo brought some hope of relief to strike-bound Juneau today. The *Southeastern* is due to reach Seattle on August 22 after completing a scheduled run from Prince Rupert.

### CONGRESS PARTY TO VISIT CITY

The United States Congressional sub-committee on Territorial and Insular Possessions, which is on a tour of Alaska, will stop briefly in Prince Rupert southbound, on September 11, according to word received from Juneau at the City Hall. The party of five, which includes three congressmen, Delegate E. L. Bartlett, of Alaska, and Joseph T. Flakne, director of the Alaskan branch of the Division of Territories, will arrive on the *Prince Rupert* from Ketchikan, sailing south on the same vessel.

Congressmen in the party will be Fred Crawford, (R-Michigan), chairman of the sub-committee; Edward Jenison (R-Illinois) and William Dawson, (R-Utah).

Governor Ernest Gruening of Alaska, who is travelling with the group in the territory, will leave it at Ketchikan.

### POLIO IS SPREADING

Forty-eight More Cases of Dread Malady in 24 Hours

VANCOUVER — Forty-eight persons were stricken with polio as the epidemic continues to make headway across the Dominion within the past 24 hours. There are four new cases in Vancouver, bringing the total in that city to 96. There is a new patient in Chilliwack. This brings the total in all British Columbia to 131.

The hardest hit province in Canada is Manitoba where steps have been taken to fight the disease by establishing a special government committee to advise on precautions against it. The total in Manitoba is 158 with 97 in the greater Winnipeg district.

### ELIZABETH GETS GIFT OF ESTATE

LONDON, B.C. — Buckingham Palace announced yesterday that the King had given the 300-acre Sunninghill Park estate in Berkshire to Princess Elizabeth. It will be the country home of the heiress - presumptive - and her consort, Lieut. Philip Mountbatten. No decision has yet been reached about a home for the royal couple in London.

### Financier of White Pass Paying Visit

A visitor of some interest to western Canada and the coast is A. H. Martens, chairman of the board of directors of Close Brothers Ltd., a London banking firm, the financiers and builders of the White Pass & Yukon Route. The company also operates Yukon River steamers and a fleet of buses on the Alaska Highway between Dawson Creek and Whitehorse.

### CLEANING UP ON ANCHORAGE

ANCHORAGE — The acting police chief, Patrick Quigley, has ordered an all out drive on vice conditions in Anchorage. He took charge of the force after Chief E. Johansen had been dismissed. Quigley makes the claim that within the past year, disorderly houses increased from 25 to 75, if not one hundred.

### ELEVEN KILLED IN REPRISALS

JERUSALEM — Eleven Arabs were killed today in a bomb and gun attack on their shanty six miles from Tel Aviv, Hagana, the Jewish underground defence organization announced. Seven of them were "executed" in reprisal for "brigandism." The Hagana communique said that the dynamited house was headquarters for "brigandism which has been responsible for recent attacks on Jewish settlements."

### REJECT U.S. COAL OFFER

DUSSELDORF — Britain has turned down a United States offer to supply 600,000 tons of steel to help in facilitating full production in the Ruhr coal mines, it was learned here today on the best authority.

### FAMILY LIFE IN ARMY CAMPS

OTTAWA — Apartment space in army camps is being allotted on a size of family basis. Families taking up more room than is actually needed will be moved to smaller quarters. In no case will anyone be allowed to sublet or rent.

### MEATLESS DAYS ARE OVER NOW

Restrictions on Serving in Restaurants is Lifted as From Today

OTTAWA — Meatless days on Tuesday and Friday in Canada are over. Restrictions on the serving of meat on these days in public eating places are lifted as from today, the Prices Board announces. (In Vancouver restaurants say the lifting of meatless days will make little difference as meat is still hard to get and high in price).

**MINERAL SURVEY PLANNED BY EIRE**

DUBLIN, (C)—The de Valera government plans a seven-year, £500,000 mineral exploration program, the most extensive survey ever carried out in this country. Legislation to provide Mianral Teo, the state-owned mineral company, with powers to carry out the plan will be introduced in the Dail later this year. Government mineral experts said a particular search will be made for uranium. One prominent industrialist said that extensive lead and copper deposits could be worked economically at present world prices.

**PICTURE IS IMPRESSIVE**

"God of Creation" Found to Be Remarkable Production—Large Audience

Deeply impressed was an audience which filled First Baptist Church last night to see the really remarkable sound picture, "The God of Creation," which visually presents by skillful photography many unique natural and biological scenes of a wide variety and, by an unusually fine sound narration, applies a spiritual theme. Great enthusiasm was displayed by all present and many resolved to see the repeat presentations which will take place with slight variations tonight at First United Church and tomorrow evening at the Salvation Army Citadel.

Some of the sequences in the picture include the showing of heart action in surgery, germination and progress of plant growth, metamorphosis of caterpillar to butterfly and wonderful astronomical scenes.

Rev. F. Antrobus presided over the meeting. In charge of the presentation was Rev. D. Fraser McRae, Moody film representative, while Cecil Carter operated the projector. Brigadier J. T. Gillingham, Salvation Army, led in prayer. J. E. Davey presided at the organ to accompany the hymns.

"I AM NOT A COMMUNIST"—The board of directors of the Dale Community Centre in Hamilton, Ont., have asked for the resignation of Mary Jennison, executive director, shown above after ready a story. Miss Jennison declared: "I am not a Communist, and so far as I know neither is any member of my staff." She also stated that work of the Dale Centre is "not understood."

**EXPLAINS CITY ROAD PROBLEMS**

An engineer's view of the problems of building roads in Prince Rupert was given to the Prince Rupert Junior Chamber of Commerce last night by City Engineer Charles B. Howe who emphasized proper drainage and substantial base construction as requirements for lasting streets.

"The creation of a successful asphaltic highway is contingent on many factors," he said, "but first among basic requirements is adequate drainage. It is doomed to failure in direct proportion to the effectiveness of the road itself to get rid of moisture."

Basic support was the second main factor. In the past, the importance of this support has been underestimated in much road construction and later transportation changes, bringing heavier traffic, have caused much damage.

"It is a wise policy to build from the bottom up, instead of from the top down. When a road is surfaced and failure appears, only rebuilding can be resorted to."

Gravel and sand were described by Mr. Howe as the best support for a road, topped with

crushed gravel, watered and rolled. The "alligator" effect in roads is due to failure of the base and continual flexing of the mat by passing vehicles until the fatigue point is reached. "When we go to hard-top Prince Rupert's streets?" Not until next year," said Mr. Howe. "We plan to allow them to settle during the winter, then go to work on them when they are really packed solid."

**MANY BRITONS HARVEST CROPS**

LONDON, (C)—Britain is breaking all records this year to "lend a hand on the land." Last year's figure of 100,000 volunteer farm workers has already been reached and nearly all of the 12 harvest camps will be full until September. Nearly 45,000 school children have volunteered to work during their holidays and the first of the 300 school camps was opened early in August.

Said an official of the ministry of agriculture: "Up to June 28, 90,000 applications were received compared with 54,000 last year. I think we shall reach our target of 150,000." Between 20,000 and 30,000 more volunteers are needed between mid-September and late November to help with the potato harvest.

**FILMS VALUABLE FOR PROVINCE**

Junior Chamber of Commerce Hears from Government Photographer

As an official publicity agency for British Columbia, the photographic branch of the Department of Trade and Industry is playing an increasing part in making this province known throughout the world. Clarence Ferris, government photographer, told the monthly meeting of the Junior Chamber of Commerce last night.

"Our project, which began in 1941," he said, "is eventually to photograph the entire province of B.C. in 16 millimeter color film. We have done much of the southern part of the province and now I am working on the area from Prince Rupert to Prince George."

The central coast and interior film will complete a "triangle tour" picture which will be of interest to prospective tourists, he declared.

The department is increasing the number of outlets for showing the films to the public and, while they are not numerous at present, the number is growing. The National Film Board, the National Film Society, Bell Telephone Co., get copies of all Travel Bureau films while the office of the Canadian Trade Commissioner at Los Angeles shows many of them.

In addition to the moving picture coverage, the photographic branch is building an extensive library of "still" photographs which are made available to writers, and for which there is a big demand.

"Since the war, we have had requests for 520 pictures a month. The bulk of them go to writers on this continent but about 20 per cent go to writers in England and Australia, so this province is really becoming well known."

Mr. Ferris admitted that he is getting a bit impatient with the dull weather that has been prevalent since he has been in Prince Rupert but plans to stay until he gets the pictures he wants.

Next summer's project is to photograph the natural color of the Peace River country.

**Budworm Plague Feared In B.C.**

Budworm Now Feared Following Hemlock Looper

VICTORIA (C)—After causing heavy loss, the hemlock looper is definitely on the wane in British Columbia, but Dominion government scientists expect a new plague—the blackheaded budworm—to wreak havoc within the next five years.

H. A. Richmond, West Coast forest insect inspector, made this announcement following a survey. He said the budworm may be as bad as or worse than the looper, and that another looper invasion could be looked for in 10 years.

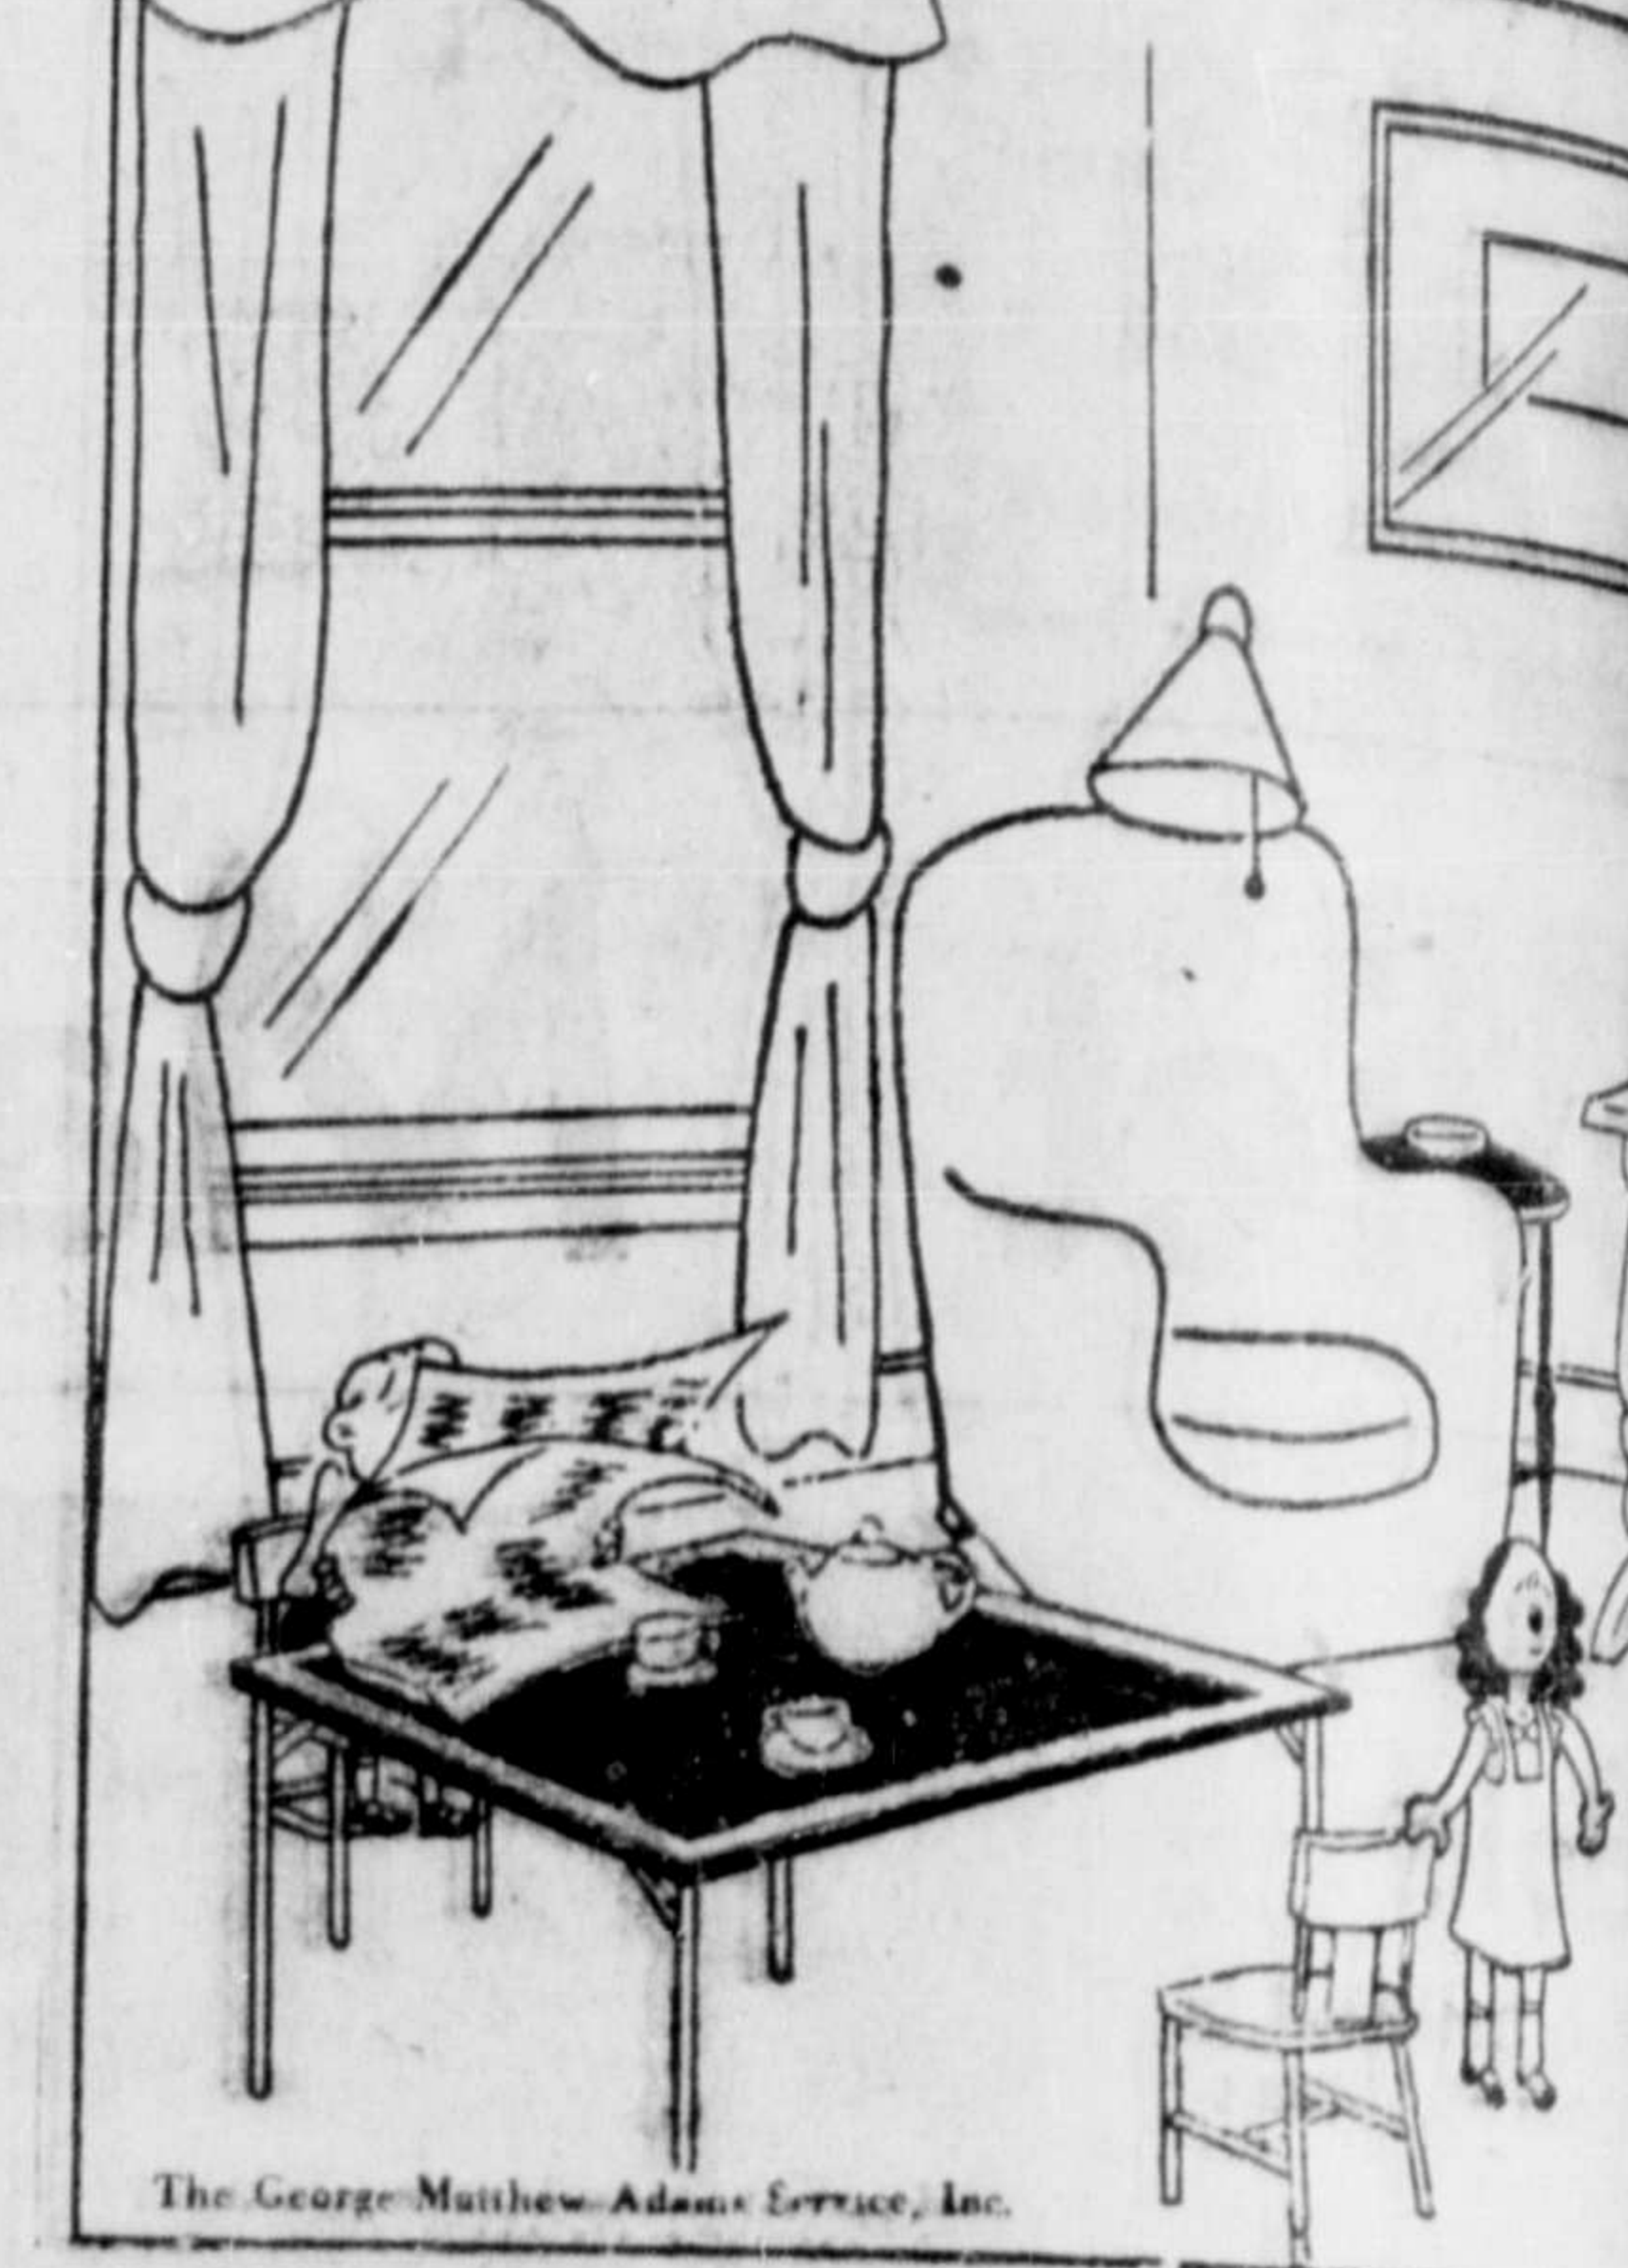

"Loss caused by loopers has been beyond comprehension," he said. "Damage on Vancouver Island alone runs into hundreds of millions of feet."

A major problem now is how much damaged timber can be salvaged. Field crews are trying to determine measures to help the industry meet this problem. Some companies will have to re-vamp their entire logging programs for the next 70 years.

It will be necessary to go into some of the most inaccessible areas first if the vast tracts of dead timber is to be salvaged.

**NOW IS LABORATORY DAR-ES-SALAAM** — Dr Livingstone's house, "Son Bag," or the Golden Garden, from which he fitted out his last expeditions, is being converted into living quarters and laboratories for the Clove Research Home.

**NOTICE—Stewart Public Utilities Ltd.** The Annual General Meeting of the above will be held in the Registered Office of the Company, 5th Street, Stewart, at 3 p.m., Wednesday, Sept. 3rd. A. Russwurm, secretary.

Terry Parson, identified for the past year with the staff of the Daily News, left on Wednesday evening's train for Vancouver where he will take a veterans' course in accountancy.

**FOOTBALL**—Practice game Roosevelt Park, noon, Sunday, Aug. 17. Names of players to be in hands of Legion Secretary by Saturday. All uniforms on loan to be returned to Legion forthwith for cleaning. Canadian Legion B.E.S.L., P. M. Ray, sec'y-mgr. (11)

Mrs. A. Dufour will leave by train tonight for Winnipeg to spend a month's holiday. It is 52 years since Mrs. Dufour left the prairie city and she is looking forward to visiting a number of former school friends still residing there.

Olof Hanson arrived in the city by car yesterday from Smithers for a brief business visit and is returning to the interior today. Mrs. Hanson and her daughter, Mrs. Don Sutherland, and the latter's son recently arrived at Lake Kathlyn from Vancouver.

Plan to be in town for Carnival Week, August 16-23. Civic Centre Carnival, Prince Rupert's Event of the Year (tf)

S. J. Hunter returned to the city on the Catala today from a business trip to Vancouver.

Miss Loverna Linney sailed on the Prince Rupert last night on a holiday trip to Vancouver.

J. H. Comer sailed last night on the Prince Rupert on a business trip to Vancouver.

Copies of the recent special Industrial Development issue of the Prince Rupert Daily News are still available at the office but the supply is limited and those who desire to send them out are advised to obtain same at once. (tf)

**MRS. HARRIET PULLEN DIES**

**Death Recorded of Colorful Pioneer Figure of Skagway**

Word from up north tells of the death of Mrs. Harriet Pullen, for many years proprietor of the Pullen House and Museum in Skagway, and one of the outstanding figures all along the coast and beyond. Her age was 87 and she passed away from the effects of a fall which caused hip injuries.

Known as "Ma" Pullen, her friends were legion for she had lived in Skagway since the days of '97. She was employed first as a cook and specialized for a while as a maker of pies which went like the proverbial hot-cakes. Later, she drove a four-horse team between Skagway and the summit of White Pass carrying supplies, and finally established her hotel. It was here that the late president Harding spoke to the people of Skagway and here a memorial may be seen.

Mrs. Pullen had friends and acquaintances all over the world for her guests were widely travelled.

**TELLS OF DAY IN LIFE OF INDIAN AGENT**

Wisdom, patience, justice, humor and a great deal of energy are the daily working "tools" in the life of an Indian Agent, charged with guiding the lives of a concentration of Canada's native population. It was indicated by F. E. Anfield at the Prince Rupert Rotary Club luncheon Thursday afternoon when he told of "A Day in the Life of an Indian Agent."

Basing his talk on his diary of one recent day, Mr. Anfield, whose agency is responsible for 3,600 natives, Canada's largest single concentration of Indians, figuratively aroused his fellow Rotarians by a telephone call at 1:30 a.m. and kept them with him for almost 12 hours.

The telephone call told of the drowning of two Indians at Metlakatla and was followed immediately by a trip to Metlakatla where dragging operations and other duties were organized. Later, but still before the ordinary worker gets to his job, he was informed by telephone of a native child being burned at a nearby cannery.

At 9 a.m., a conference with a Naas River band concerning establishment of an electric lighting plant in their village really started the day.

From then on it was a succession of personal meetings, with natives, some with strange and complicated angles. A man wanted to divorce his wife after 28 years of marriage. A young couple wanted to get married. Two missionaries were stranded at Hartley Bay without food and the agency boat must be dispatched immediately.

At 10:30, the "almost daily" visit to police court to look after the interests of the natives was made and here, Mr. Anfield paid high tribute to the local law enforcement officers and magistrate.

"The work of the local police and magistrate in dealing with the natives is as fair and just as any court in the country," he said. "No one could get finer co-operation than I have had from the police and magistrate of this city."

Later, an Indian from Terrace district called to make arrangements for the sale of 25,000,000 board feet of timber on Indian lands, which would net \$75,000 for the tribal funds.

In the afternoon, a young couple were married by the Agent. An anthropologist wanted to obtain a release on several totem poles on the Naas River. The thing kept up until the normal working day closed and then in the evening, the telephone continued imperious summonses to make decisions.

Mr. Anfield was thanked warmly by club president, Lee Gordon for his address. Guests at the meeting were Clarence Ferris, Victoria, Sam Joy, Vancouver.

Mayer, Wright Field, Ohio; Ada Mayer, Wright Field, Ohio; Mr. and Mrs. J. D. Lillie, Warner, Alta.

**BISHOP JORDAN BACK IN CANADA**

Most Rev. Anthony Jordan, O.M.I., Vicar Apostolic of Prince Rupert, is back in Canada after a trip to Europe in the course of which he visited the Holy Father at Rome, his native home in Scotland, and also in Ireland. Now in Ottawa, Bishop Jordan will return west via Vancouver and Prince George and is expected back at his ecclesiastical seat here about the end of September.

**NOTICE**

A reward of \$75 is offered for information given me leading to the identity of person or persons taking lumber from the Miller Bay chicken ranch. The reward has been deposited in the Royal Bank of Canada.

### BASEBALL GAME IS WASHED OUT

The baseball game scheduled for last night at Roosevelt Park between Watts and Nickerson and Savoy was washed out by rain. The two teams probably will meet Sunday, weather permitting. Only two more games remain to be played in the current schedule—the Watts and Nickerson-Savoy game and one between Savoy and Moose. Plans for the play-offs are being made.

### Fastball Battle Assured Tonight

The Senior Fastball League schedule calls for a game between General Motors and Gordon and Anderson this evening. General Motors are league leaders at present with eight wins and two losses as their record. Gordon and Anderson are in third place with seven wins and five losses. The game is sure to be a real battle.

### FOOTBALLERS ARE ACTIVE

Practice Game Called for Team to Meet H.M.S. Kenya

In preparation for the game with H.M.S. Kenya a practice has been called for footballers at Roosevelt Park Sunday forenoon. The committee will select the team to represent the city from the players available. In the meantime players are being registered and turning in their strips for laundering.

It is many years since there has been a British warship visiting the port. In former days it was an annual event and one of the highlights was always the soccer game. These lads from the Old Country, the home of football, always put up a first-class display but the city team was always able to give them a good game. One of the greatest ambitions of the Prince Rupert players was to be chosen to represent the city against a visiting British warship. This visit of H.M.S. Kenya should do much toward reviving the old football spirit and no doubt the present generation of footballers will be just as anxious to try out against the visiting tars as were the former players.

### Fog Washes Out Ladies' Fastball

Owing to persistent fog last evening's scheduled game in the City Ladies' Fastball League between High School and Gordon and Anderson was postponed. The next game is between Moose and High School and will take place on Tuesday evening.

### UMBRELLAS OUT UNDER 1882 LAW

CAPETOWN, © — During a recent rainy week here pedestrians were surprised when stopped by traffic policemen who asked them to shut their umbrellas. But the policemen were only doing so along covered sidewalks and were not prompted by superstition. They were enforcing a law of 1882 which forbids anyone to obstruct free passage along a sidewalk. Originally the law applied also to cumbersome dresses. Women with bustles had to be careful.

GADGET CREATED BY CANADIAN PROFESSOR?—A reporter "handicaps" at New York's felony court the "Ponometer," alleged to calculate to 1-20th of a second the speed of horses based on past performances, the theory being that the fastest horse should win. The gadget, said to be the creation of a Canadian economics professor, consists of a dial with two needles, which rates jockeys, notes weights toted as well as track and race conditions. Its alleged promoter, William F. Wreiden, has been arrested on an eight-count larceny indictment.

### RAIN COMES WRONG TIME

Precipitation Now of Little Benefit to Crops

WINNIPEG—Cooler weather with varying amounts of rain have been received over most of the prairies during the past week. The rain will be of little benefit except to the late sown crops and in southern Manitoba it will delay harvesting and possibly reduce the grade of an otherwise good crop, according to the weekly crop report of the Department of Agriculture of the Canadian National Railways. Harvesting in the southern parts of all the three provinces have been delayed but, with dry weather, will be well under way

by the beginning of the week.

Prospects remain good in Manitoba, in Eastern Saskatchewan and in the area north and west of Edmonton, but elsewhere have shown no improvement during the past week. Scattered local hail damage is reported but the areas concerned are small and of little consequence to the overall picture.

The Okanagan Valley reports a hot week with one light shower and as a result all fruits and vegetables are maturing fast. Peaches and Bartlett pears are now moving.

### FIRST CHANNEL TROP

J. P. Blanchard, a Frenchman, guided his balloon across the English Channel on January 7, 1785, in the first cross-channel flight.

### Wartime Diversion Now Good Business

LONDON, ©—During the Second World War when her son was battling in the skies against the Luftwaffe, Mrs. A. Ritcher, as a diversion, started to make herself a hat from an old felt hood and a few pieces of ribbon. A friend admired it and asked Mrs. Ritcher to make one just like it.

Soon she was making and selling hats professionally and now her business is expanding and she is making hats for many notables. She employs two assistants as copyists, but she herself designs every hat and personally makes every model that leaves her salon. And in spite of what is an assured success Mrs. Ritcher, now nearing 60, will still sit up into the small hours designing hats.

### SHORT SPORT

Five experts asked by the Daily Herald "what's wrong with British sport?" blamed wartime interruption of training and sports organization for recent losses in international competition. Boxer Len Harvey, cricketer A. B. Sellers, G. P. Hughes, former Davis Cup tennis star; Capt. Cecil Boyd - Rochford, trainer of the King's horses, and Arsenal Football Club's trainer Tom Whittaker, agreed that many promising youngsters were either in the forces or likely to be and urged more talent-scouting and provision of better training facilities.

### ROTARY HEAD IS HERE SATURDAY

Frank I. Doherty of Victoria, governor of District 101 of Rotary International, will arrive in Prince Rupert on Saturday night from Alaska on the Camosun in the course of the annual governor's tour of Rotary Clubs of the district. He will remain until Monday night when he will proceed by train to Prince George.

On Sunday afternoon, Mr. Doherty will meet the executive of the Rotary Club of Prince Rupert at the home of club president Lee Gordon, and on Monday afternoon he will be guest of honor at a club luncheon meeting at the Commodore.

Club members decided Thursday afternoon to advance next week's meeting from Thursday to Monday because of the governor's visit and because next Thursday is Port Day.

Mr. Doherty has been in Fairbanks, Juneau, and is now in Ketchikan on his tour of the Alaska clubs in District 101. He will visit the Prince George club after leaving Prince Rupert.

### Find Ancient Bones In Winnipeg Suburbs

WINNIPEG, ©—While a sewer in suburban Winnipeg, Fred Krentz, an underground engineer, found what he believes to be the skull of a historic animal. One eye socket and part of the head is still intact.

At another excavation, is eight feet deep, a leg four feet long was dug. Bones were scattered about. Krentz plans to turn the collection to the Winnipeg museum.

WHAT IS HAPPENING to Prince Rupert five months after the Celanese Corporation of America announced it would build a pulp mill here, a plant approximately the size of the Puget Sound Pulp & Timber company plant near Ketchikan?"

W. L. Baker, roving editor of the Ketchikan Chronicle, asked of several citizens attending the convention of B.C.-Alaska Boards of Trade and Chambers of Commerce. And here is the answer:

Emergency wartime housing for shipyard workers and civil employees of the army were to be torn down for shipyard workers and other emergency housing. What is left will be retained for celanese workers, and what is left will be retained for celanese workers. They are bigger and better than the new owner's plan. (Incidentally, this Juneau company is building a pulp mill and plywood plant for the Juneau area.)

There is much talk about a new hotel. The town has no hotel, the nearest approach being the Prince Rupert Hotel and brick concrete affair that was built years ago. It has an elevator but few baths or showers, no dining room, and the personnel are, however, all one could ask. But with thousands of American tourists coming over the highway, the hotels are all jammed and more hotels are being built. The new commercial business to be built at the mill is operating. Some local people are investing in the new hotel and two men are figuring out the details.

New business houses are under construction or are a few weeks. They are tending to locate on the Second Avenue running south from the new Civic Centre and the Courthouse, a wide avenue with lots of room. The block west of the main business district but already built, the Moose Lodge, the Rupert Club, and many other buildings located on it.

The city is talking of a new grade school building to replace the aged looking one. It is busy tearing up streets and paving, but this work is rather the result of damage done to the city by the U.S. army and the Canadian government during the war. The damage done to the city by the U.S. army and the Canadian government during the war. The damage done to the city by the U.S. army and the Canadian government during the war.

At the plant itself we saw at Port Edward, eight miles west of Prince Rupert. Here the U.S. army had chiseled a road of a cliff to build ammunition loading facilities, a wharf, two lesser docks, a small warehouse and a garage. The latter won't go with the mill site but the larger warehouse and the chiseled-in site do. However, the road is beginning on more blasting into the rock. The road at Port Edward also is being regraded.

At a meeting we heard a meeting had been held between officials and operators of small lumber mills. The mill owners wanted to buy lumber for the new mill but Terrace mill owners, flushed by high profits of the war and post-war boom, wouldn't meet the price the company offered so the mill will be purchased at New Westminster, near Vancouver. The citizens felt this gave their town a bad name. Since much of the timber to be converted into celanese lumber in the Terrace area, 95 miles east of Prince Rupert, several hundred men will be employed in the woods, and the town will stabilize its employment.

The mill, in fact, will spread money well along the rail line. It will buy coal from Telkwa, some 250 miles east of Terrace, at the rate of 100 to 200 tons per day, doubling Terrace's population in a hurry when it begins to operate. The mill will have to hire more men shortly to begin expansion. It will have to buy pit props, which will be produced in Terrace. Likewise, the railroad will have to modernize its line, which means it will buy ties in this region.

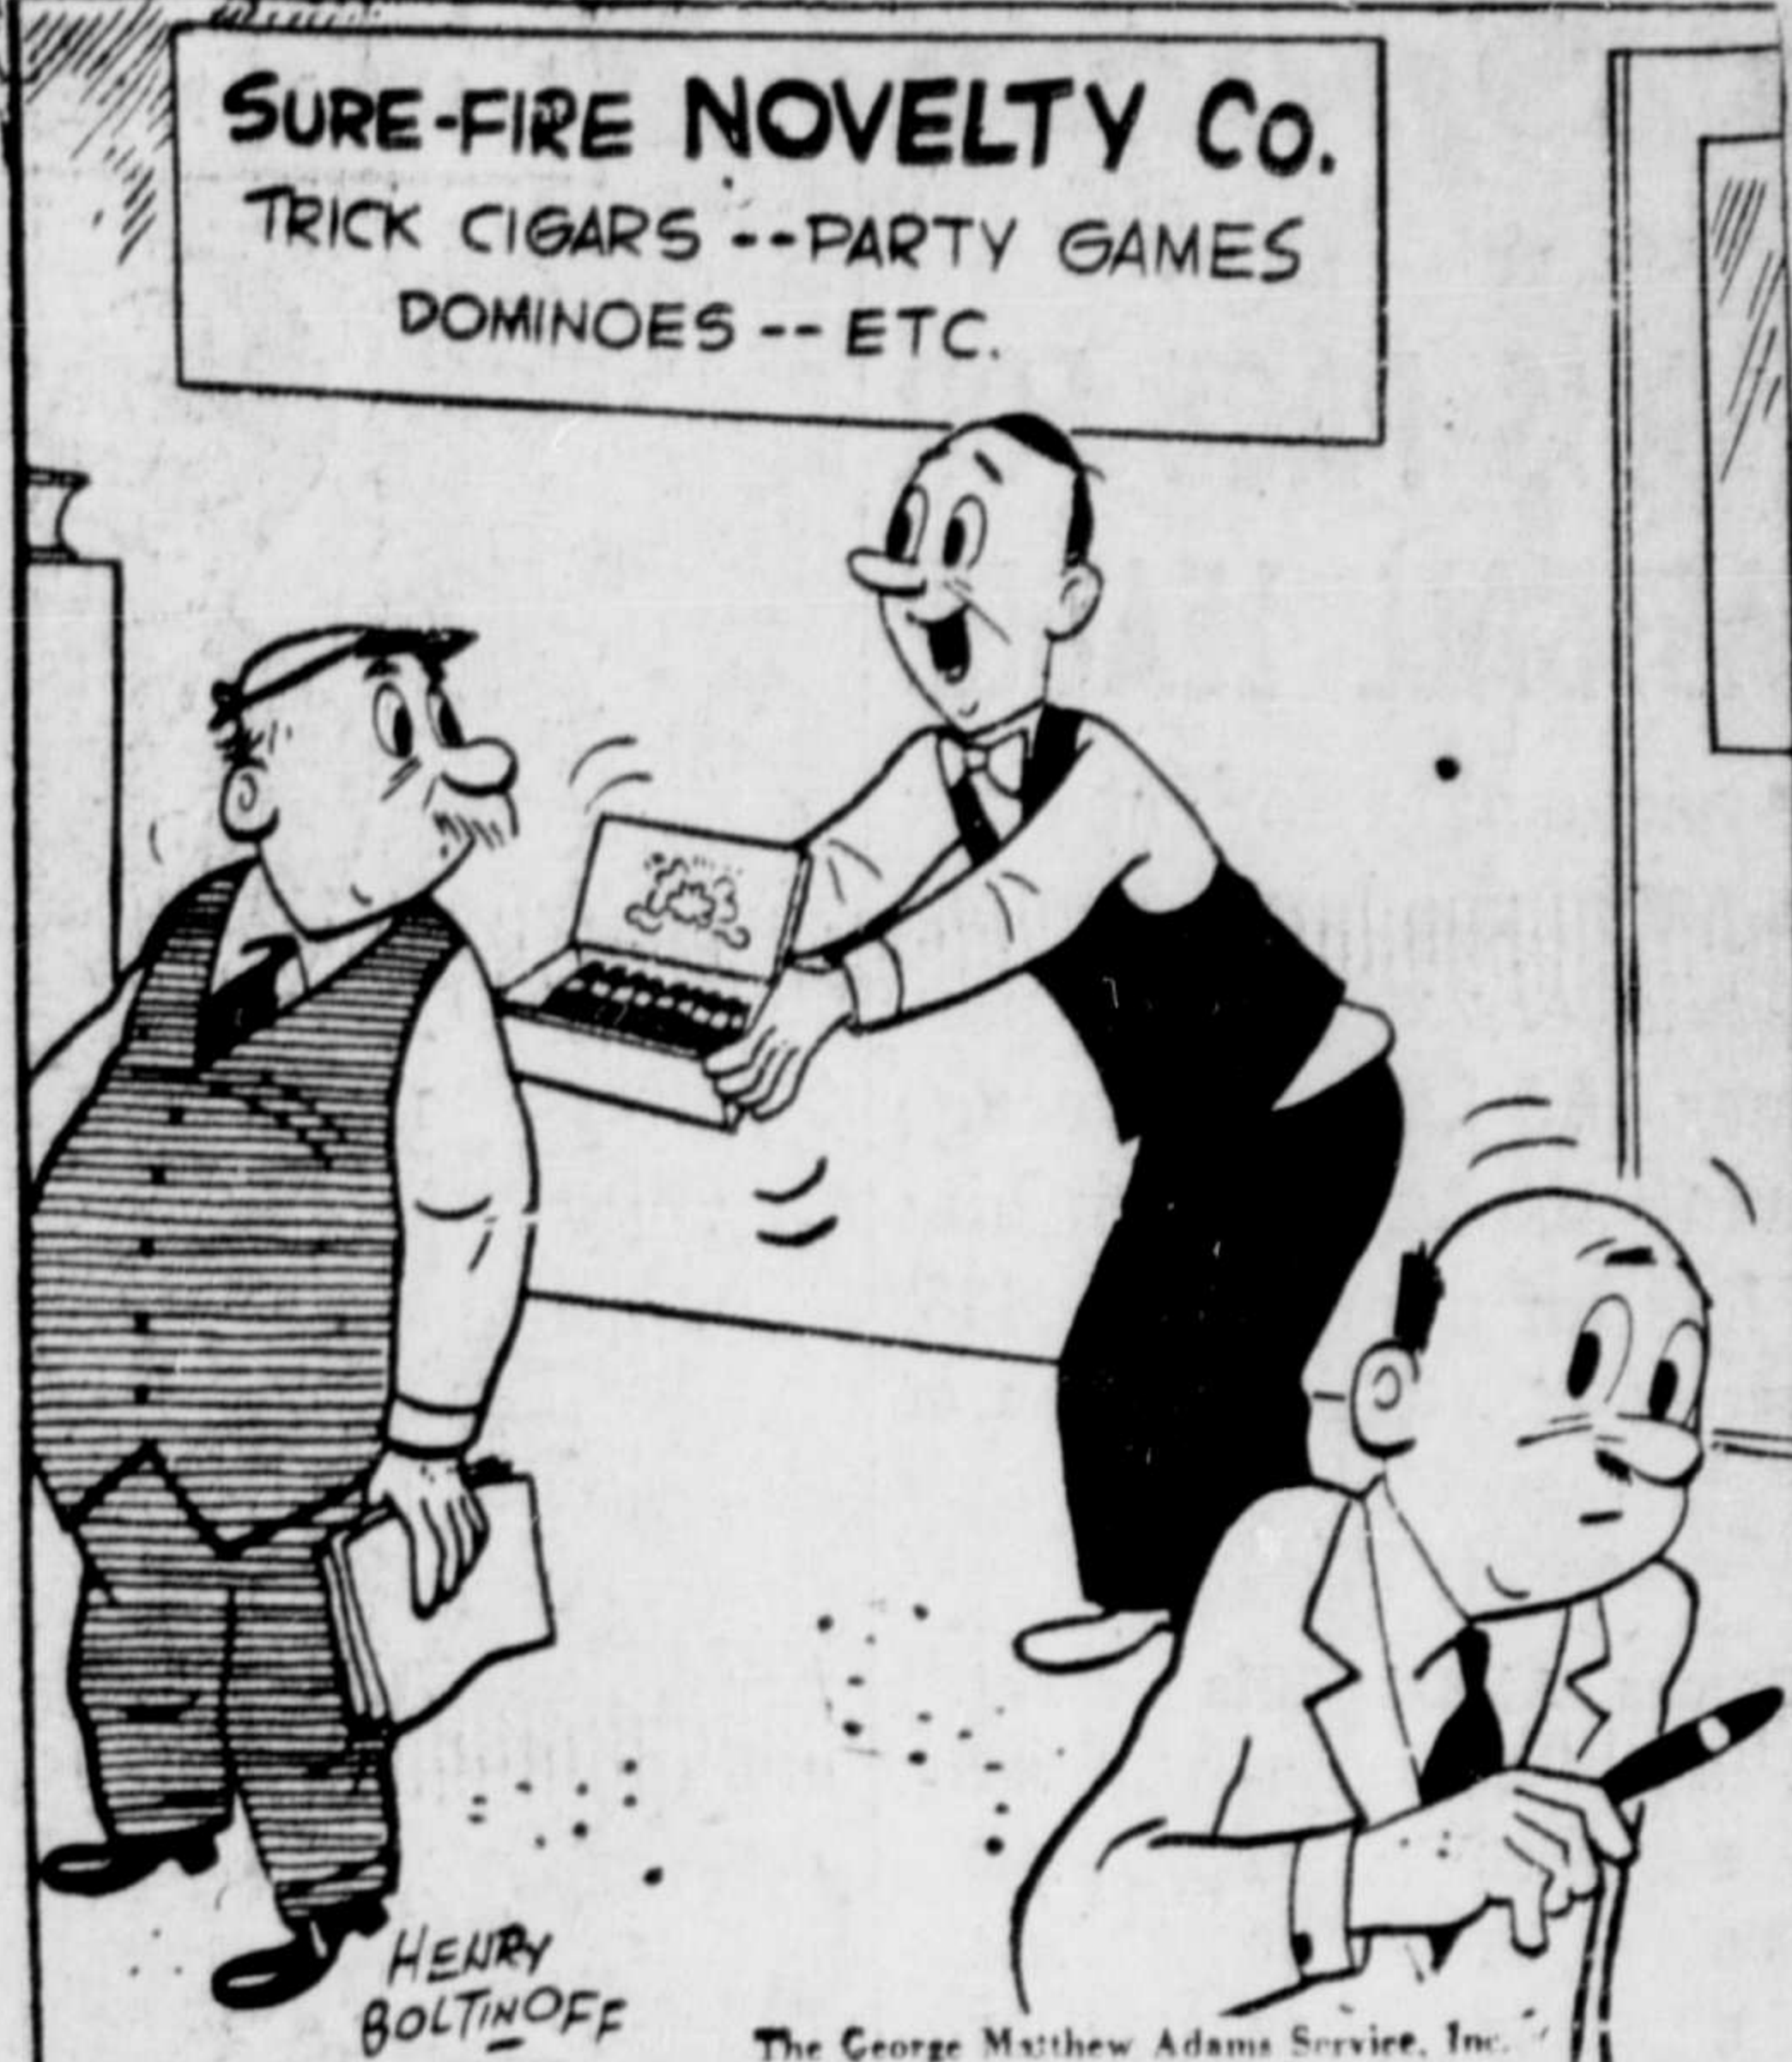

When asked the merchants how the coming of the mill had affected business. They said it already is noticeable, although the work has been done as yet. However, engineers keep coming and going, the forest department has men out with chainsaws checking timber, and other companies that want to compete in the region are rushing in before Celanese gets all. This has brought the big Powell River company to Terrace, about 60 miles north of Vancouver into the Terrace district to purchase large lots of spruce and hemlock.

Local residents are crowding about the population growth in Terrace. In the last few years, a growth that forced addition of seats in the national parliament for the province. This is trying to get a seat in the national senate.

Others See It Through

TIME of unprecedented peacetime economic growth in Britain on the tight little isle are seen coming together even as they did in the grim days of threatening and bloody warfare. Now, they have expressed their grouches and grievances and done with. Political crisis may have been averted but, in their good judgment and their mutual equanimity, it was not allowed to get beyond control. They might not have liked it, but the Minister's austerity program was approved by the House and Lords alike. They sank political opposition and gave the government the Green Light to proceed. Of course, there was nothing else to do. The government has been told what they must do to pull themselves through. Now they will get on and do it. They will sweat and possibly some tears of tribulation ahead but Britons will weather it through. The days at home are that way.

PRINCE RUPERT REALTY CO. WILL INSURE YOUR HOME AND YOUR HOUSEHOLD GOODS AGAINST LOSS BY FIRE. Phone GREEN 917

"I just became a father—have a cigar!"

LETTERBOX

VERNON INTERESTED Editor, Daily News: Many thanks for your copies of the Daily News. We are very much interested in the development of Prince Rupert and compliment you on your paper and supplements as turned out. DAVID HOWRIE, Mayor.

Sergeant Nordling Is Doing Travelling

Sergeant Otto Nordling, who spent considerable time here during the latter stages of the war and who, since leaving, saw a good deal of the world, including the Orient, was in Ottawa recently, having completed a course at Camp Borden. Sgt. Nordling, who hails from Dawson, called on Capt. and Mrs. Geo. Black while in Ottawa, and later was in New York where he took part in television demonstrations. Subsequently he left for Seattle.

GREAT BRITAIN IS NOT SO GRIM

Mrs. D. McKenzie of Hazelton, who returned recently from six months spent in the north of England and in Scotland, says there appears to be a lot of exaggeration spread concerning economic affairs overseas. Everything essential to maintaining a standard of living is available although there may be scarcity in certain lines of luxury. The best way to aid Britain, just now she said, is to purchase more British made goods.

MORE SOLDIERS IN HOSPITALS

OTTAWA— Authorities have disclosed that, although the number of patients being treated in army hospitals has increased about 7 percent in the past few weeks, there has been a marked reduction in the number of soldiers being treated in other than army hospitals. As a result of the transfers, the average daily bed occupancy in army hospitals has jumped from 250 to 300.

Reminiscences By W.I. and Reflections

Gerry McGeer spent a few diverting hours on the Capitol Theatre stage years ago, addressing an audience that crowded the house and overflowed into the street. He was talking politics and campaign support, just then, was needed. Down front sat a couple of hecklers obviously there for that purpose exclusively. But, they couldn't have known their pugnacious Irish-Canadian. Back he came, time and again, like the snap of a whip, and sharp enough to sting. The hecklers were effectively squashed by the quick grinning senator-mayor.

Bringing the outside public to realize you can motor to or from Prince Rupert over a first rate highway demands unlimited patience and persistence. It's always been like that. To really put over anything favorable to this city, although a thousand times true, has always been difficult enough. Getting it through the head of a somebody living elsewhere in Canada would almost seem to require a surgical operation. Once, not so many years ago, an interview appeared in an eastern paper wherein the dear lady vowed she had to walk from the ship over the ice, to reach the city. And even that whopper lingered.

It's getting around to the season when the hardy frontiersmen of the region of Kaien used to take counsel together and ponder details concerning the annual fair. For the yearly exhibition helped a lot in stimulating city and district development. In some ways, the results were astonishing. It was shown that Skeena could, indeed, produce more than fish and rain. The fruits of abundant sunshine and fertile soil proved plenty. These, along with many other attractive displays, all skillfully staged, helped in giving the city the publicity it needed.

## DOMINATO AND PALLISTER ARE UNBEATEN FASTBALL HURLERS

Latest compilation of pitching records in the City Fastball League gives first place to Sev Dominato of General Motors with six games won and none lost. He has pitched fifty innings and has yielded sixty-two hits and issued seventeen walks, fanning twenty-seven batters. Pallister of Co-ops is the only other so far undefeated hurler in the league, pitching records for which have been figured to date as follows:

Player	Team	Innings Hits Walks Strike					
		Won	Lost	Pitched	Off	Issued	
S. Dominato	G.M.	6	0	50	62	17	27
Pallister	Co-op	3	0	25	25	4	9
Dunbar	CNRA	8	2	100	93	13	116
Moxley	G. & A.	5	2	56	72	32	36
Olson	Hi-Sch.	2	2	36	32	18	30
Antone	G.M.	2	1	14 2/3	16	20	4
B. Simundson	G. & A.	1	2	43	47	24	21
Beback	Navy	1	2	23	27	15	13
Kellett	Co-op	1	2	17	22	2	17
Wesch	Hi-Sch.	2	6	64	88	29	26
Parlett	Navy	1	3	41	65	16	19
Slater	Co-op	1	4	45	55	12	19
T. Arney	G.M.	0	1	21 1/2	26	3	11

### Ladies' Fastball

August 19—Moose vs. Higg School.  
August 21—Port Day, no game.  
August 26—Gordon and Anderson vs. Moose.  
August 28—Play-offs start.

### ARTIFICIAL ICE AT KIMBERLEY

KIMBERLEY—Steady progress continues to be made with installing equipment for artificial ice at Kimberley curling rink and skating arena. Concrete for the extension of the latter has been poured.

### Fastball Schedule

Aug. 15—Gen. Motors vs. Gordon & Anderson  
Aug. 16—Co-op vs. High School  
Aug. 18—CNRA vs. Gen. Motors  
Aug. 20—Gordon & Anderson vs. Navy

## SHORT SPORT

An invitation to send a girls' fastball team to Telkwa on the occasion of Labor Day and the Telkwa famous barbecue feature has been received by Alex Bill. He has passed on the request to the fastball association and it is likely that a meeting of the coaches concerned will be held to consider the matter.

Manager Archie Anderson of Arbroath football club in the Scottish league, stole a march—or a sail—on other club managers when he went out to sign Fisherman John Patience as a professional. Manager stood on the dock at Peterhead, Scotland, awaiting the return of the drifter Acquire with Patience aboard. The boat tied up and Patience jumped ashore, with Manager Anderson behind him and clutching the contract, signed. He had boarded the Acquire at sea to get the signature.

Fred Daly of Belfast, who won the British Open golf championship at Hoylake with a 72-hole score of 292, may be high in comparison with scores in United States and Canadian tournaments, but it stands pretty well besides previous winning totals for the open on the same course. In 1936, the last open at Hoylake, only four players broke 290. Alf Padgham of Britain won with 287. In 1924 American Walter Hagen, then in his prime, negotiated the course in 301.

Canada is among 14 countries invited to compete in London for the Britannia Shield during Battle of Britain Week, September 15-21, in a five-sport tournament which may throw considerable light on next year's Olympic prospects. The shield, won last year by Czechoslovakia, commemorates friendship among countries whose young men took part in the 1940 air defence of Britain. Competitors have been asked to send teams to represent them in boxing, running, fencing, shooting and swimming. Countries expected to take part are Great Britain, represented by R.A.F. teams—Australia, Belgium, Canada, Czechoslovakia, Denmark, France, Greece, Holland, India, New Zealand, Norway, South Africa and the United States.

### SLATER OF CO-OPS SETS PACE FOR BATSMEN IN CITY FASTBALL LEAGUE

Slater of Co-ops continues pacemaker for the batsmen in the City Fastball League in the latest compilation of averages for those players who have participated in five or more games and have an average of .200 or better. Slater, having made fourteen hits in thirty trips to the plate, has an average of .446. Dumas of Navy is second with average of .440 and Morgan of General Motors third with .434.

Here are the batting averages:

Team	Games	At Bat	Hits	Pct.
Slater	Co-op	30	14	.466
Dumas	Navy	25	11	.440
Morgan	G.M.	23	10	.434
Lindsay	G.M.	40	17	.425

## SHIPS AND WATERFRONT

Making a charter cruise off Northern British Columbia and southeastern Alaska, the steam yacht Aquila, owned by Edward White of Seattle, and with a party of nine, is putting in a week or so. The Aquila may possibly go as far as Skagway and touch at Sitka. Her skipper is Capt. Olaf Hanson. The yacht has quite a respectable age for she was built in Boston in 1901, has been around Cape Horn twice, through the Panama many a time, and been rebuilt with new bottom and boilers.

opinion the red colored water came from the explosion of submarine volcanoes, the substance of which has a toxic effect on fish.

The halibut fishing vessel Prosperity A., Capt. A. C. Christensen, while enroute to the westward some time ago, struck a reef sustaining considerable keel damage. The captain was unable to find repair facilities at Petersburg and had the job done at the nearest available port.

The body of James Green, a fisherman of Wrangell, missing since July 25, was recently found in the small boat harbor in Wrangell. Identification was made possible by his watch, a wallet and certain surgical operation scars.

Shrimp fishing in Alaskan waters is permitted between August 1 and 15 but this does not include Duncan Canal. Normally in the north, shrimp fishing is barred between July 15 and the end of September.

The halibut craft Cygnet II is about to leave Alaska to turn to tuna fishing off the coasts of southern B. C., Washington and Oregon.

Six British Columbia trollers last week sold tuna in Vancouver, the whole of it having a valuation of \$16,000, the best figure for that fish seen in years. There was a total of 71,500 pounds and it went at \$4.25 a ton to the United Fishermen's Co-operative.

The purse seiner Sunde is reported to have recently become stranded at Mole Harbor, in Seymour Canal. The Alaskan coast-guard vessel Wachusett went to her rescue.

For the first time in history, so it is said, cutthroat trout eggs are being introduced in the Yukon. A shipment of 50,000 left Euphrata, Wash., for White Horse not long ago.

What is known as a "red tide" has been killing fish by the million off the coast of Florida and scientists are trying to discover the cause. Some think millions of red-hued bacteria adhere to the fish gills and cause death in time, while others are of the

## Timely Recipe

### STUFFED TOMATOES

Because we like to pick up our food and retreat to somewhere in the shade to enjoy it during these hot sweltering days, meal-on-a-plate menus are great favorites. Plan a luncheon around stuffed garden-ripe tomatoes. Add a bit of tasty homemade potato salad and a few slices of cold meat and you're set for a delicious meal. Tomatoes lend themselves to so many varieties of stuffings. A combination of fresh vegetables and chewy ripe olives makes a

good tasting filling. Try diced cucumber, thin strips of green pepper, sliced celery and bite-size pieces of cauliflower with chopped ripe olives. The ripe olives add a delightful mellow note. Toss the chilled ingredients gently with the very best French dressing, adding extra salt and pepper if necessary. Fill hollowed-out tomatoes with olive-vegetable mixture. Serve the salad with or without extra dressing.

**WAS REALLY AMBERGRIS**  
Discovery Made on Islands Found to be Real Article  
From fishing authorities come word that a substance recently found off the shores of the Queen Charlotte Islands proved to be genuine ambergris. Before this, many a find thought to be ambergris was, on examination, found to be something else, but this is said to be the real article.  
The Vancouver experimental station will continue to test, free of charge, samples submitted. Commercial firms in the United States quote the best grade of ambergris (air dried) from \$5 to \$13 per ounce.

## BEAR WOULD BOARD FERRY

A black bear trying to board the ferry at Copper River on the Skeena was an interesting sight not long ago. The bear swimming down the Skeena, came to within handy reach of the ferry and undertook to crawl aboard. Several times the ferryman had to use his paddle to push Bruin's paws away. More than once an attempt was made to get into the rowboat which was being towed.

## THIS LAND OF OURS...

Europe today is crowded with people whose hope it is to get passage somewhere—many of them have Canada in mind, others, the United States, Australia, South Africa.

For the most part, they are frightened, bewildered and, in many cases, mistreated.

In all cases they are seeking an opportunity to make something better of their lives.

They know that opportunity exists in America to a greater degree than in any other part of the world.

Why?

The answer is simple. Here on this continent the opportunities are limited only by our own courage, ability to plan, and determination to work.

The fruits of our labours are ours to enjoy when we have won them, and in winning them, we Canadians are building a finer nation in which to work and live happily.

Regardless of what anyone says, we enjoy a happier state of life, and a higher living standard on this continent than in any other part of the world. We can keep it that way by keeping the Opportunity System.

\*\*\*  
"This Land of Ours" is sponsored in this newspaper by the British Columbia Federation of Trade and Industry.

**TWO WOMEN ARE HITCH-HIKING**

Interesting Mother and Daughter From Texas Are Recent Visitors in City

Recent visitors in Prince Rupert, the guests while here of Mr. and Mrs. G. R. Breit, were a charming and enterprising hitch-hiking mother and daughter from Dallas, Texas—Mrs. Florence Saterlee and 14-year old Dian.

Having covered a distance of 3,000 miles by the time they reached here by way of Vancouver and the Cariboo Highway, they had hoped to go from here to Alaska by fishboat but certain regulations made it impossible for them to do so and accordingly, they started back over the highway from here, their next objective being San Francisco.

Their equipment included a pack of blankets and the barest necessities for roadside camping.

Both mother and daughter will write of their experiences. They remarked on the richness of the country through which they had passed to reach here and were surprised at its sparse settlement.

**MAY MEET AMERICANS**

Congressional Committees Expected Here on Way to Alaska

Congressional delegations from the United States, going to Alaska to investigate the territory's statehood claims at first hand, are expected to be in Prince Rupert before the present summer is over. Consideration is being given in Chamber of Commerce quarters to meeting and making representations to the solons on such subjects as the proposed new coastal highway to Alaska idea and the lifting of border restrictions between Alaska and British Columbia. Both Senate and House committees are expected to be coming.

**Dr. Barbeau Is Heard At Juneau**

Dr. Marius Barbeau of Ottawa, well known anthropologist, who is spending the summer in this district, was a recent visitor at Juneau where he was guest speaker at the Rotary luncheon. Dr. Barbeau spoke generally on Indian culture and mythology and drew parallels of much interest. He made extended reference to the thesis that the natives crossed over from Asia by way of two routes: one over the Behring Straits and the other by way of the Aleutian Islands. He suggested that there be a larger museum, and funds for this purpose be allotted.

**HELD IN INDIA**

Indian investors now hold more than 95 per cent of the Indian Government securities formerly held by investors in Britain.

**Prince Rupert At Fair In Vancouver**

Harry Bowman of Prince George and W. J. Scott of Prince Rupert have been appointed a committee by the Associated Boards of Trade of Central British Columbia to consider representation of this district at the Pacific National Exhibition in Vancouver. A committee of Prince Rupert Chamber of Commerce, of which W. L. Armstrong was chairman, has already dispatched to Vancouver a panel of photographs depicting this port.

**Pacific Northwest Trade Ass'n Meets**

The executive of the Associated Boards of Trade of Central British Columbia has been considering the possibility of sending a delegate to a session of the Pacific Northwest Trade Association to be held next Monday and Tuesday in the Hotel Winthrop at Tacoma. However, since it appears no delegate will be available at that particular time, the area may not be represented. At the last quarterly meeting of the Pacific Northwest Trade Association, F. M. Dockrill of Telkwa represented this area.

**D.P.'S WANT TO COME THIS WAY**

The Associated Boards of Trade of Central British Columbia, local boards and chambers as well as newspapers and others are receiving inquiries these days from displaced persons in Europe seeking opportunities to immigrate to this country. Considerable numbers of such inquiries are coming and the procedure is to turn them over to the federal Department of State at Ottawa. One inquiry received by the Associated Boards seeks a new home for a colony of 220 persons from Mannheim, Germany.

**ROYAL FAMILY RETURNS TO LONDON**—Returning to London after their annual visit to Scotland, King George and Queen Elizabeth are shown with Princess Margaret Rose as they arrived at Euston station. The young princess is wearing a rather unusual, but pretty, off-the-face hat.

**FIRE FIGHTING TEAM ON VISIT**

Lectures Being Delivered to Firemen, Oil Dock Attendants and Policemen

Lectures and pictures on the chemistry of fire and the use of fire fighting equipment were delivered to groups of 20, including city firemen, oil dock attendants and policemen in the Fire Hall Wednesday last by Jack Newell, Ron Mathers and Ernest Rickey, instructional team from the provincial Fire Marshall's office, Victoria. Instruction was given in the use of ladders, applications of ropes and knots to fire fighting, ventilation, forcible entry into burning buildings, and salvage.

The three instructors, all of whom have had years of experience on the fire department of Vancouver, Victoria and New Westminster, drove directly to Prince Rupert from Vancouver. They will deliver lectures at Terrace, Hazelton, Smithers, Burns Lake, Vanderhoof, Prince George and Quesnel on their way back. They plan to leave for the interior on Sunday.

Lectures in the interior towns will stress the organization structure of small fire departments.

**DR GREENE IS NOMINATED**

Dr. L. M. Greene, president-elect of the Associated Boards of Trade of Central British Columbia, has been nominated by the Prince Rupert Chamber of Commerce as a member of the British Columbia provincial executive of the Canadian Chamber of Commerce. The nomination will go before the annual convention of the Canadian Chamber to be held at Quebec October 7, 8 and 9. It is not known yet whether the district or city will be represented at this year's convention. G. A. Hunter was delegate at the last national convention in Winnipeg a year ago.

**Yukon Cartoonist Revisiting North**

A cartoonist who became widely known during the Klondike rush is now making a leisurely journey along the north coast—his first return visit in 45 years. Sourdoughs will probably remember him. He is A. V. (Art) Buell, who lived in Dawson. He will ride over the Alaska Highway from Whitehorse to Fairbanks, fly to Anchorage and be back in California by September. In his prime, Buell had an uncanny skill, his sketches of personalities and places being of a high order indeed. He is recovering from a long illness.

**NEW CHIEF OF RUPERT**

R. P. Williams is Appointed Successor to Alec Munro

Promotion of Second Engineer R. P. Williams, of the steamer Prince Rupert, to be chief engineer, succeeding Alec S. Munro, retired, has been announced by Canadian National Steamships.

Born in Leeds, Yorkshire, England, Mr. Williams went to Chefoo, Northern China, about 500 miles north of Shanghai, as an infant and received his early education there. He completed his schooling in Bath, England. After serving his marine engineering apprenticeship at Greenock, Scotland, Mr. Williams worked on deepsea vessels between 1908-14. During the first great war he served with the Imperial Army and Royal Navy. Upon discharge he re-entered merchant service.

He moved to Vancouver in October, 1926, and immediately started in with the Canadian National Steamships as junior engineer on ss. Prince George, subsequently working on most of the company's ships. He became 2nd engineer in June, 1941. During 1944-45 he was chief engineer on Prince Rupert, but with loss of Prince George in September, 1945, he reverted to second engineer on the "Rupert," the position he held until his recent promotion.
