Unconventional Prince Leaves for Canada on Thursday of this Week

Sidelights on His Career Told in an Intimate Way by a Canadian Press Staff Reporter who is with Him

SYOSSET, N.Y., Sept. 16.—The Prince of Wales will leave here on Thursday night of this week, his departure having been delayed in order that he may attend the international polo matches. He was to have left for his Alberta ranch on Sunday last. He will go out quietly and will be met at some Canadian point by his old friend, the one time head of Canada's army, now Governor General, who will board the train and extend the official welcome. Beyond that there will be no official events in connection with the visit. He will travel as a private Canadian citizen, and should reach his ranch at High River on Sunday.

In Canada, the Prince is regarded with less of the wondering curiosity which met him in the United States this year. But to those who were privileged to meet him five years ago on that now famous tour which marked the beginning of his career as an "Ambassador of Empire," it will be very interesting to note what changes the last five years have wrought in him. For instance, does he still reach instinctively when he sits down to the table for that piece of bread which was reduced as the meal progressed into the smallest crumbs and surrounded his plate on all sides? Does he retain that uncanny faculty for talking bridges to the engineer at his right, the while he keeps up the conversation on stamp-collecting with another member of the party?

As Canadians Remember

The Prince is probably better remembered by Canadians for such traits and for his conversational gift than for the many foundation stones he laid in that first memorable tour of the Dominion. The foundation stones will be for posterity, milestones of his journeys in Canada, but his contemporaries will remember better the thousand little acts of kindness, which under the circumstances he might have been readily forgiven for overlooking. In fact, he is probably remembered best by those who have witnessed the 1919 tour for some unconventional act or word which disconcerted officialdom and delighted the spectators. The present writer remembers an occasion when he added to the silk-hatted group on the official platform an old lady who was struggling to keep her place near the front of the crowd outside the magic circle. He was not too preoccupied with his silver trowel and the carefully worded greetings of

RUTH CLOSE AS HOME HITTER

FORT WORTH, Sept. 16.—Clarence Kraft will finish the season the minor league champion homer hitter, having forty to his credit for the season just closed. This is only four short of Babe Ruth's record. He made a homer in the final game of the Beaumont Club at Dayton, Ohio, yesterday.

JAIL PRISONERS TO HAVE RUNWAY

Sixteen Foot Fence to be Erected Will also Serve as Barricade Against Escapes

A runway is to be provided for prisoners in the city jail by erecting a fence from the rear of the jail to the face of the rock bluff alongside the city hall. The fence is to be sixteen feet high and will also serve to make it more difficult for prisoners to escape from jail. The fence was asked for by the chief of police and a recommendation from the Board of Works that it be erected was adopted at last night's council meeting.

SAD DEATH OF HARRY LIPSETT IN VANCOUVER

Well Known Prince Rupert Citizen Passes Away; Was Ill For Few Weeks

Creating a distinct shock in local business circles which will be felt even more keenly along the waterfront where the deceased might have laid claim, more than any other individual in the city to the title of "the fishermen's friend," news was received yesterday afternoon of the death at 3:30 in Vancouver of Harry Prescott Lipsett, manager of the local branch of the firm of Lipsett & Cunningham. Advice of Mr. Lipsett's demise was conveyed in a brief telegram giving no details that was received by H. T. Willett, accountant of the firm.

Having been laid up in his home for several weeks suffering from inflammatory rheumatism which seemed centred in his knee, Mr. Lipsett sailed last Thursday night for Vancouver accompanied by Mrs. Lipsett and family. Friends saw him off but little did they think that his end was so near. While his condition was serious there was no reason to believe that he would succumb.

Here Ten Years

The late Mr. Lipsett came to this city some ten years ago and has since been manager of the fishermen's supply house, the large trade of which was largely built up and held by his close touch and efforts on behalf of his clientele. He was ever a champion of the fishermen's cause and might always be found working for their welfare and benefit. Outside of business, Harry found time for work in fraternal circles and he was one of the most active and enthusiastic members of the local Elks' Lodge. His "good fellow well met" and happy disposition won friends for him among all whom he met. During several years he was an active worker on the Fair Board and was vice-president of the Prince Rupert Lacrosse Association and a keen player.

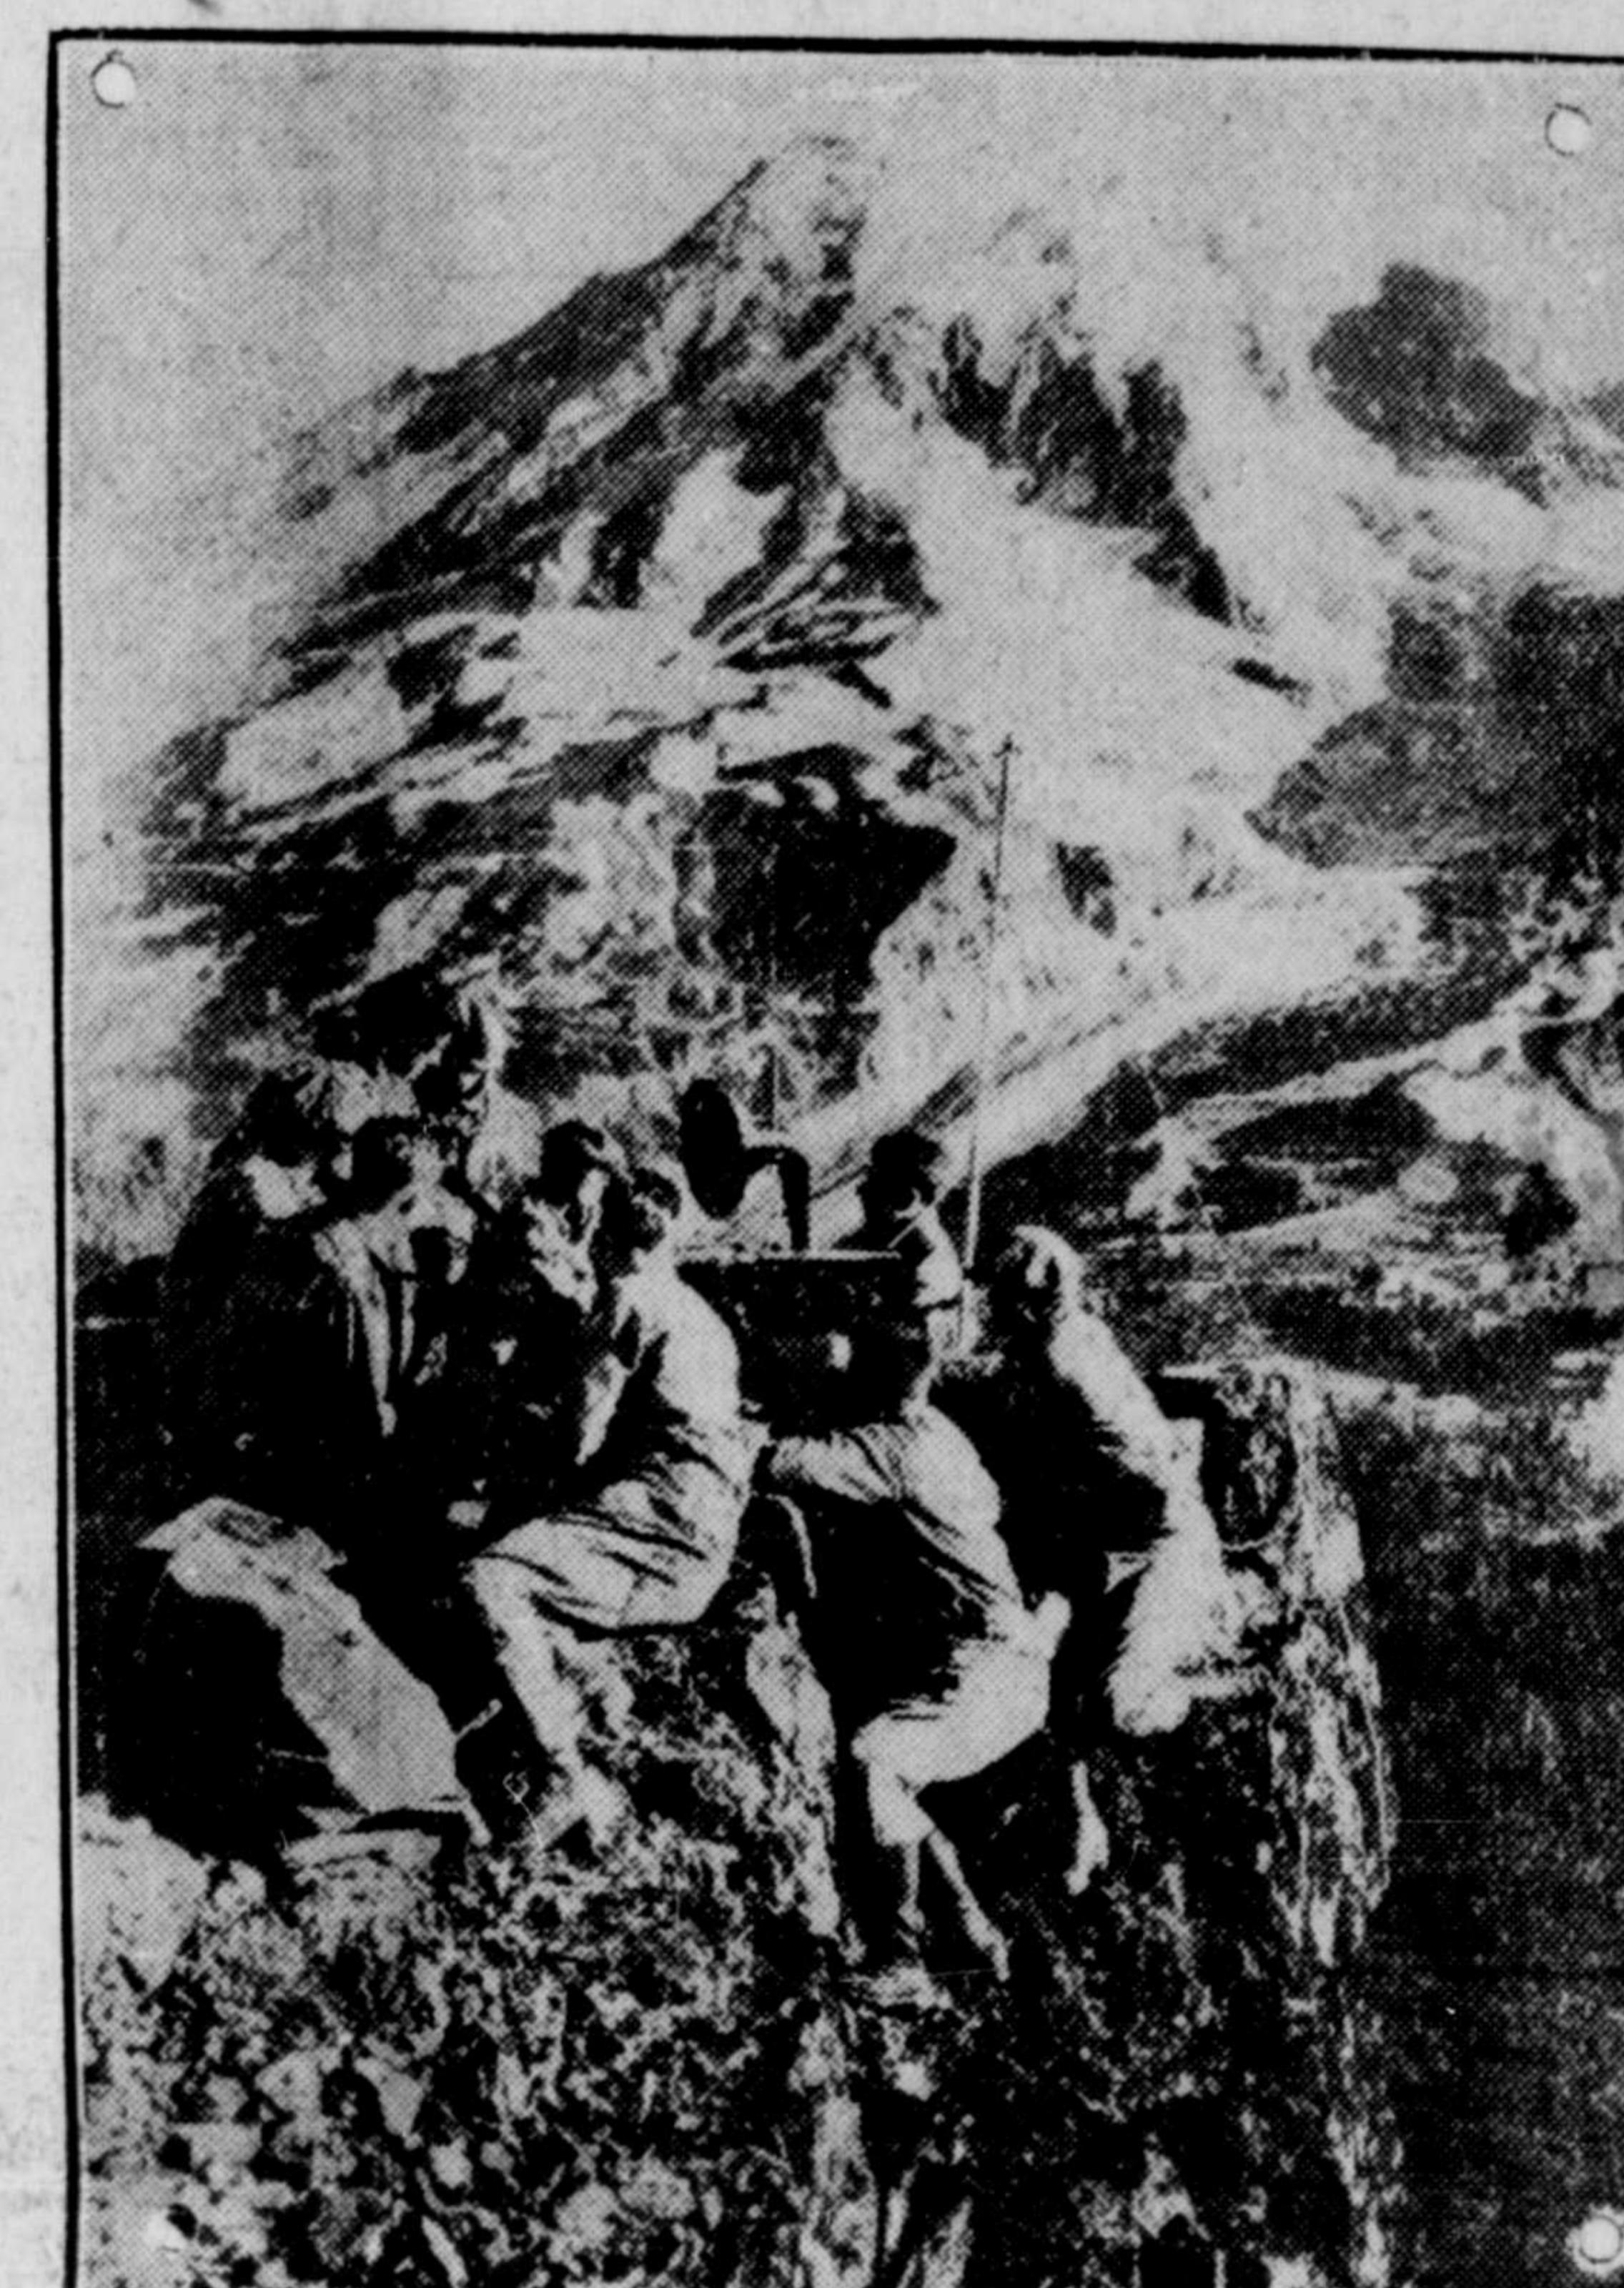

Harry Lipsett was born in Vancouver the son of Mr. and Mrs. Lipsett July 11, 1893. He grew up and received his education in that city and came here when he was hardly out of his "teens" to take charge of the business which he so successfully managed. The deepest sympathy will be extended his family in their deep bereavement. Besides his parents, the late Mr. Lipsett is survived by a widow, a young son, Edward, an infant daughter, a brother, Roy, and sister, Evelyn.

The funeral will take place tomorrow at Vancouver, interment to be in the Masonic plot at Mountview Cemetery.

GLOBE FLYERS LEFT CHICAGO FOR OMAHA VETERANS PAY TRIBUTE

The gymnasium classes at the Methodist Church opened this week and seem likely to be very successful. Classes are being held in the gym every evening and meetings are held in the club room in the church. Boys' classes are held Monday, Tuesday and Wednesday and girls Thursday and Friday.

Perched on the top of this lofty pinnacle of Rainier National Park, 6,665 feet above sea level, this little portable radio set brought in the signals with unprecedented clearness. Mount Rainier, 14,408 feet high, is in the background.

Successful Work of American Legion Outlined by Officers Red Cross Spent Four Million

ST. PAUL, Sept. 16.—At the American Legion convention which opened here yesterday Commander Quinn, in his address of retirement, said that two triumphs of the league during the past year were the enactment of the adjusted compensation bill and the passage of legislation to aid disabled veterans. The membership had doubled, thus making the organization more cohesive for service to the nation.

John Barton Payne said the American Red Cross had spent over \$4,000,000 during the past year for the benefit of disabled veterans.

Director Hines of the Veteran's Bureau said the bureau had been cleaned up but could not step forward unless the public confidence in their work was preserved.

PREPARE TO ENTERTAIN PREMIER OF CANADA

Canadian Clubs Will Probably Take Prominent Part in Function

Plans are being laid for the entertainment of Right Hon. W. L. Mackenzie King, premier of Canada, who is expected to spend a couple of days here in October. It is probable that the Canadian Clubs will take a prominent part in the festivities and a joint meeting of the executives of the men's and ladies' organizations is being held this afternoon to discuss the matter.

The Canadian Club functions only in connection with the entertainments of prominent persons and this is thought to be a time when they will become active.

GRAIN SHIPMENTS DELAYED BY RAIN

So Far Close to Four Million Bushels Sent Out Over C.N.R. Lines

WINNIPEG, Sept. 16.—Delay in threshing operations due to the recent rains have somewhat delayed the movement of grain from the western harvest fields, according to the grain loading figures issued today by the Canadian National Ryws. Loadings are now being made daily. Since the opening of the present year a total of 2,381 cars containing 3,838,000 bushels of grain have loaded at C.N.R. points. Of this number 141 cars have been delivered to Vancouver.

Vancouver And Prince Rupert.

In an address in Vancouver Friday night Hon. J. H. King said he believed that in the not far distant future the ports of Vancouver and Prince Rupert would dominate the trade with the Orient. While we have believed that Prince Rupert would be a factor in this trade it is good to have a minister of the crown state it in Vancouver. It is an indication that Hon. Dr. King is a party to the encouragement of trade out of this port and that he is not backward in publicly stating the fact. It is advertising for Prince Rupert of the best kind.

Smuggling Cigarettes Into This Country.

Apparently in the East they are smuggling cigarettes into Canada. We are all used to tales of liquor running from one country to another, but outside of a few purchased along the waterfront by those who prefer American brands to Canadian, little is ever heard of illicit importation of cigarettes.

In Ottawa the other day ten million coffin nails were received through the customs department from Brockville, none of which had paid duty and it is estimated that over half a billion are annually imported without the formality of paying the small charges to the government required by law. This means that Canadian manufacturers did that much less business and the government is out the duty. The loss to the government is placed at something like three and a half millions. That is a big sum and is in addition to the loss to the Canadian manufacturer.

Wildcat Speculation Responsible For Loss.

Wild cat speculations are responsible for losses in Canada aggregating \$35,000,000 a year, according to an estimate made by a trade paper. If this amount had been spent wisely it would have brought a large income in interest and the principal would still have been in the hands of the owners. As it is, the interest and principal is gone never to return.

There are plenty of natural resources awaiting development by those who have money to invest, but the fake stock salesman is more persuasive than the legitimate salesman and the people like to be swindled anyway. The most difficult thing on earth is to protect people against get rich quick proposals. There are always men of the Ponzi type to fatten on the unwise and there are always fools to buy stock which has nothing behind it but the weird tales of the salesman.

Grain Goes Out By American Routes.

Grain is still going out of Canada by Eastern American routes when at the same time there are open ports on the Pacific ready to receive it and it can be transported just as cheaply if the railways give equal rates to the west and east. Last year, according to an Edmonton paper sixty million bushels of grain went out through Vancouver, seventy-five million bushels through Montreal and the remainder amounting to over two hundred million bushels through New England ports. This is largely because the New England route has a preference in rates over the Pacific route, a condition which should not be allowed to continue.

Robert Baird, inspector of Mike Sheady of Edmonton and municipalities, was an arrival formerly of this city was a passenger last night on the steamer arriving from the south, Prince Rupert. He will proceed last night on the steamer Prince to the interior on this evening's Rupert. He is registered at the Prince Rupert Hotel.

HOLIDAY WORKING AGAIN DISCUSSED

Men Were Not Compelled to Work on Labor Day, Board of Works Reports—Questions Asked

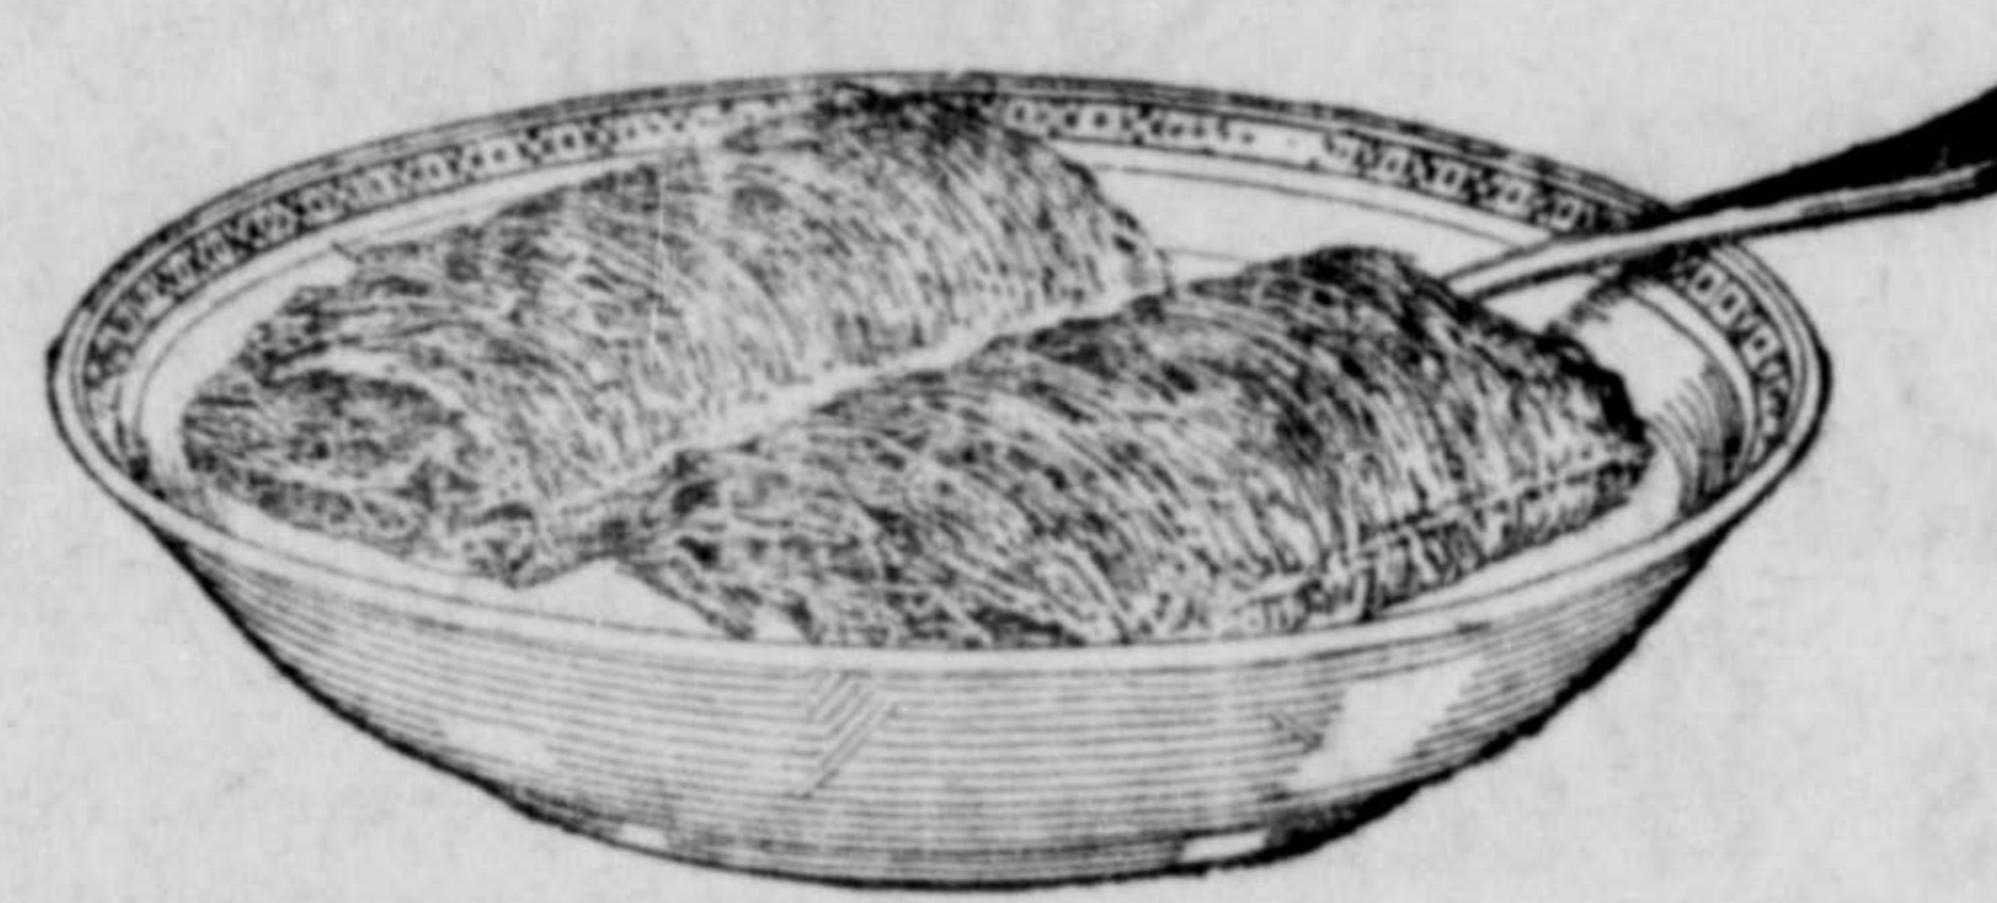

The Board of Works brought in a report to the city council at last night's meeting stating that no men had been forced to work on Labor Day and that the foreman and three men who had been working at the rear of Union Bank building when that building was damaged by a blast had volunteered their services.

Ald. Casey said that the report as far as he had been able to ascertain, represented the facts of the case. Later in the evening, he inquired of Ald. Macdonald why the utilities force had been working last Thursday when a half holiday had been declared by the mayor. Ald. Macdonald said he was not aware whether or not they had been working at the time in question and came back with a question as to why Board of Works employees had been working a week ago Sunday. Mayor Newton answered both questions by stating that in each case it had been found necessary to work in order to advance certain essential work. Ald. Casey felt that, when a holiday was declared by the city, the city employees should at least observe it. Ald. Collart was not in favor of preventing men on day labor from working if they so desired and the work was necessary.

LOCAL FROSTS ON PRAIRIES

Threshing Well Under Way in Manitoba But Not Started in Alberta

RAIN DELAYS HARVEST

In Some Districts Crop Being Cut Green; Good Yield in Manitoba

week has held back threshing, which will not be general until middle of present week. Tonkin sub-division suffered damage of about half of the total crop from frost and large tracts of green grain are now being cut. High winds have caused some grain to shell, but this with frost damage is local. Elrose reports four ears of this year's wheat which graded No. 4 Northern has been marketed.

Alberta

Alberta reports cutting general with wheat turning out better than expected. Oats are late but it is expected they will be ready for the binder when wheat is finished. Cool, wet weather delayed the harvest and slight damage from frost to low lying grain is reported. Crops are about fifty per cent cut but threshing will hardly be started for fifteen days. Operations are somewhat more advanced in the southern part of the province.

James Wallace was fined \$25 in the city police court this morning for intoxication.

Threshing is well under way in Manitoba but operations were held up during week on account of wet weather. The quality of the grain is good and yield is up to expectations, in spite of finding some damage by frost and rust. Up to 75 per cent grain is cut and wheat is yielding 20 to 30 bushels. The heavy frost during the week affected standing grain to a considerable extent.

Manitoba

In the Lake Head and Port Arthur divisions cutting is practically finished and threshing, although delayed a couple of days by rain, is now in full swing with wheat turning out well, and running from 30 to 40 bushels to the acre and barley around 50 bushels.

DANCE HALL LOAD LIMIT

City Council Proposes Reducing 150 Pound Requirement to 125 Pounds

A recommendation from the Board of Works that the building bylaw be so amended as to reduce the load requirement for dance halls in the city from 150 pounds per square foot to 125 pounds was adopted at last night's council meeting.

Mayor Newton stated that the change would meet the situation that had arisen last week when it had been desired to use certain halls for dances that were deemed safe by the city engineer but did not come up to the requirements. There had been a certain agent who had threatened to bring action against the city officials if one hall was used when his was not allowed to be. So as to be on the safe side, the use of all halls coming under the present requirements had been forbidden.

Ald. Casey was of the opinion that the use of the De Luxe Hall should not have been forbidden. It was safe whereas the McIntyre Hall was not. The latter hall he declared, should be locked up and the owner notified to repair it or tear it down. The agent's threat should have been ignored. Ald. McDermid felt that neither the city engineer nor anybody else had the power to break a bylaw. The city of Vancouver required 125 pounds per square foot as the safety limit. It did not seem reasonable that 150 pounds should be required in Prince Rupert. The reduction of the limit would permit of the use of most of the safe halls in the city. This ended the discussion, the report being adopted.

BULL WON RACE ON SATURDAY

Sport Chat

The bull won the big race in the Fair Hall on Saturday night against two horses amid the wild acclaim of several hundred spectators as one of the final scenes in the exhibition sports. Before the race Ben Self, master of ceremonies, stated that it had been announced that horse races would be among the attractions here. Carrying out their pledge the race would now take place.

Lined up at the starting point was Prince Rupert's pet bull and it proved to be the winner of the event. Great excitement prevailed and the bull won by only a neck. The jockeys taking part were H. Astoria and J. Ratchford for the bull, and R. Frizzell and D. Frizzell for the horses.

The third horse which was to have been ridden by Jack Cobb was kicked by the bull shortly before the race and got its leg broken and therefore could not take part.

CARNIVAL QUEEN TO CONTINUE STUDIES

Miss Grace Crate Will Take \$500 Cash Prize Instead of Trip to Empire Exhibition

Miss Grace Crate, winner of the Fair Board's carnival queen contest, has decided to take the \$500 cash prize instead of the round trip to the British Empire Exhibition at Wembley. She resumed her commercial studies at St. Joseph's Academy this morning after having discontinued them for a year.

T. Wallace, manager of Claxton Cannery, and Mrs. Wallace were passengers for Vancouver sailing last night on the steamer Prince Rupert.

Keen competition is the thing that is needed to keep sport aggregations in practice so they may hold their end in meeting outside talent. It is hardly to be expected that players will turn out when the results of games are practically forgone conclusions and there is not even anything to play for. Such has been the situation this year in local baseball circles. The football players at least had plenty of trophies to play for and, while the teams might not have been evenly matched as they could have been, the 1924 season was marked with many games that were interesting to players and fans alike. Thus it was that the footballers were in better trim at the close of the season than were the baseball players.

It is hoped that the 1925 season will be marked by better and more interesting baseball competition than has prevailed during past two years. In the first place, it is expected that, with an increased population due to industrial development, there will be more talent. It will be important, however, that the available players be distributed to the best advantage and that there will be something tangible in the way of a trophy to play for. The Baseball Association this year decided to take a hand in the distribution of the players but the main difficulty was that there was not sufficient talent to divide up effectively.

In baseball games with outside teams, the main points of weakness and the places where the most errors were made were the third base and short stop positions. Many games were lost just because these positions were not filled effectively. It will be necessary next year to concentrate on these points and, if

more effective players to fill them are not found, to keep men available there without juggling them around the field. Third base is one of the hardest places to play and it requires more cool-headedness than perhaps any other position on the field. A man can only play it well by playing it all the time.

VETERANS WON OVER CALLIES

Pick-up Teams Played to Score of Two to Nil Last Evening

Neither the Great War Veterans or the Callies were able to put a full team in the field last night for the scheduled Stuart shield football fixture so pick-up players were entered and, in a match which was not devoid of several flashes of good play, the Vets won by a score of 2 to nil. Two twenty-five minute halves were played and at that the game finished in the dark.

No scoring was made in the first half, the Veterans getting both theirs in the second. Ernie Warren netted a pretty shot from a hard drive which started a good distance out. From a scrimmage at the goal mouth, J. Russell scored the second. It was getting dark and the goalkeeper for the Callies was unable to save.

On the whole, the Vets had the best of the play.

Tom Jones refereed, Hugh Kitten and George Abbott were linesmen and the teams took the field as follows:

Great War Veterans—J. Kelly; S. Erskine and W. Murray; Fred Roberts, W. Mitchell and A. Hunter; A. Mitchell, J. Russell, E. Warren, J. Johnson and George Waugh.

Callies—R. Smith; M. Andrews and J. Harris; G. Kelsey, J. Sims and H. Hamilton; W. Hamilton, W. Mack, J. Andrews and J. Mc-
