## 500,000 PEOPLE ATTEND LENINE FUNERAL

### ARRANGEMENTS MADE FOR LANDING OF FOUR ROUND WORLD PLANES HERE

#### Lenine Acclaimed at his Funeral as one of Saviours of Mankind Half Million Attend Obsequies

MOSCOW, Jan. 28.—Nicholai Lenine was entombed yesterday afternoon and followers of the rulers of Soviet Russia hailed him an hour before his burial as greater in death than in life and paid him honors that a king might envy. They withstood for hours the bitterest cold the Bolsheviki capital has known in a year. Half a million persons marched or waited eight hours in a temperature of 30 below zero for the privilege of passing the temporary mausoleum hastily built under the walls of the Kremlin fortress.

#### GOLD AGAIN AT LEECH RIVER

Miner Thinks He Has Discovered Motherlode from Which Dust Came

VICTORIA, Jan. 28.—Arthur Phillips of Victoria, an old time prospector, confidently believes he has found the mother lode in the Malahat district at the junction of the Leech and Sooke rivers, the scene of a gold rush forty years ago, when the gold commissioners' office was established in the midst of three thousand miners.

From 1862, when the first rush started in 1870, \$1,000,000 was taken out in placer mining, which proved highly profitable, but nobody was able to find where the gold came from. Phillips believes he has solved the mystery by finding small nuggets embedded in the feldspar which gives a gold appearance to the white rock.

#### BUILD CANALS GREAT LAKES

Company Incorporation sought View to Carrying Big Ships to Head of Lakes

OTTAWA, Jan. 28.—Notice has been given that application will be made to Parliament for incorporation of a company to be capitalized at \$500,000,000 with power to connect the lower St. Lawrence River by ship canal with the head of the great lakes, states the Journal this afternoon. If these were constructed ocean vessels would go right through to Port Arthur.

#### POINCARÉ GETS GOOD SUPPORT

Taxation Designed to Strengthen Franc Will be Considered at Once

PARIS, Jan. 28.—The chamber of Deputies by a show of hands supported Premier Poincaré in his demand for immediate consideration of the new drastic taxation program calculated to strengthen the franc. The motion to postpone action until after the parliamentary elections was defeated.

#### VENEER MILL TO BE ESTABLISHED ON RIVER

Money Said to Have Been Raised For Project to Use Skeena Cottonwood

Last year a company was formed for the purpose of manufacturing veneer products from the cottonwood in the Skeena River and since that time efforts have been made, it is understood, to raise money with which to start a mill and factory on the Skeena River. Salvus has been mentioned as a possible location but nothing definite has been done in connection with a site.

A representative of the company is expected here soon to take up the matter of location and to arrange for the establishment of the mill.

There is a similar mill in operation at New Westminster and it is said to be very successful.

#### THROUGH PASSENGERS NOT ALLOWED ASHORE

Capt. Davies of United States Steamer Victoria Sees That No Liquor Comes Aboard Ship

Alaska Steamship Co.'s Steamer Victoria, Capt. Davies, was in port this morning from 10.30 to 12 o'clock southbound from Seattle and intermediate Alaska ports to Seattle. Eleven passengers debarked here and one went aboard. On the captain's orders, no through passengers were allowed ashore here. This was in order to insure compliance with the Volstead Act, which prohibits liquor being aboard a vessel flying the American flag. The action of the captain caused apparent disappointment among many of the 150 passengers.

#### STEAMING CLAUSE ANGLLO-AMERICAN TREATY INNOCUOUS

NEW YORK, Jan. 28.—Sir Auckland Geddes, prior to sailing on the Aquitania on Saturday said the hour's steaming clause in the Liquor Treaty between Great Britain and United States should cause no difficulty. Officials could determine the distance and speed of a vessel by examination of the engine.

#### POWER BY RADIO WOULD SIMPLIFY FLYING PROBLEMS

One of the most likely and hopeful developments in flying is through the development of radio, according to Lieutenant Clayton Bissell, who was here at the week end making arrangements for the landing of the planes in the round the world flight: If airmen could get their power from the air by means of radio it would simplify matters immensely and would make long distance flights much more popular than they are today, he says.

#### USE HERRING LOCAL PLANT

Efforts Being Made to Have Permission Rescinded by Authorities

(Special to Daily News) VICTORIA, Jan. 28.—On December 26, the deputy minister of Marine and Fisheries gave notice that herring and pilchards caught on the Pacific coast could be converted into fish meal, fertilizer, oil and such products. Now word has been received here that efforts are being made to have the order rescinded on the ground that the use of herring in reduction works would deplete the fish.

It is understood this has a direct bearing on the situation in Prince Rupert where there is a reduction plant which could operate almost all the year round if the permission to use herring is allowed to stand.

#### CANADA MAKES FIRST POINTS

Beats Czecho-Slovakia by Enormous Score of 30 to 0 at Hockey in Olympic Games

CHAMONIX, Jan. 28.—Canada made her first win today when the Canadian hockey team defeated Czecho-Slovakia by the enormous score of thirty goals to nothing. The conditions were new to the Canadian players as there was no border fence against which to manoeuvre as is their habit in the big games in Canadian and United States rinks. Their splendid control on the ice, however, gave them a distinct advantage over their opponents who, apparently, had not ever played in the scientific manner peculiar to the game as seen in Canada.

United States also had an easy victory over Belgium, making 19 goals to nothing.

Here is a genuine Albino and one of his brothers, born of the same parents, natives of the south sea islands. The Albino has one pink eye and one blue—a strange sight with his pure white hair and skin.

#### STUDENTS ARE UNDER ARREST

Employee of Post Office Let Them in and They Made off With Cash

BUTTE, Mont., Jan. 28.—Robert Eckler, E. Hellen and Bernard Quesnell, youthful students at the Montana University, Missoula, are arrested here charged with robbing the Missoula Post Office last night of \$35,000 currency. The money was consigned to a trust company.

Hellen had been acting as substitute mail clerk and it is alleged he admitted Eckler and Quesnell, who were wearing masks and presented their guns, bound Hellen and another clerk and escaped with the money.

#### INSPECTOR LONG VANCOUVER CHIEF OF POLICE FORCE

VANCOUVER, Jan. 28.—Inspector Walter H. Long, for many years on the local force, has been appointed chief of police in Vancouver. There were many applicants for the position. Inspector Long succeeds chief J. H. Anderson who recently resigned as a result of pressure of public opinion and the insistence of the Attorney General that the law be enforced in Vancouver.

#### HOPE GIVEN UP FOR RESCUE OF MINERS

SHANKTOWN, Jan. 28.—Hope has been given up for forty miners entombed Saturday by an explosion in the Lancashire mine here. Rescuers reported the mine dense with black damp. Water is rapidly rising.

SHANKTOWN, Jan. 28.—(later)—The bodies of 34 men who lost their lives in an explosion in the Lancashire mine have been recovered and five others have been located.

#### FOURTEEN MEMBERS OF TWO FAMILIES KILLED IN BLAZE

PAWTUCKET, Jan. 28.—Fourteen persons were killed in an explosion at Manville today. Escaping gas was ignited when the lamp was lit and as a result nearly all the members of the Gonway and Hammill families were killed.

Earl Barrie took the services at the Baptist Church last night speaking on "The Friend of Man."

#### Four Seaplanes Planned to Arrive here April 1 En Route Round World

When the four round-the-world aviators drop into the water in the neighborhood of the cold storage plant and anchor their sea planes at Seal Cove, completing the first section of their big flight on or about April 1, their chief business will be to get away for Sitka, if the weather is good. They are expected to leave Seattle at eight or nine o'clock in the morning and reach here probably about four in the afternoon. On tying up, they will at once proceed to go over their machines, to fill their tanks with fuel, and clean up in readiness for leaving in the morning.

#### FOOTBALL TEAM FOR ANTIPODES

Sixteen Players, a Trainer And an Official of Association to go

WINNIPEG, Jan. 28.—Sixteen players, a trainer and an official of the Dominion Football Association leave Vancouver on April 14 for a tour of Australia and New Zealand, S. Davidson, the secretary of the association, announced last night. The first game will be played at Sydney on May 10 and after eight weeks in Australia the team will go to New Zealand and tour four weeks.

The provincial associations will nominate 34 players from which sixteen will be chosen. British Columbia is entitled to select 8, Quebec 6, Ontario 6, Manitoba 4, Saskatchewan 4, and Alberta 6.

#### FISH DELAYED IN SHIPMENT

Will Not be Fresh When It Reaches Seattle by Steamship

Included in the cargo of the Alaska Steamship Co.'s steamer Victoria, which was in port this morning southbound from Alaska, were 245 cases of fresh American halibut being shipped from Ketchikan to Seattle. This fish, it is said, had been waiting five days at Ketchikan for the steamer to arrive. Naturally its condition has been impaired and it may not be described as strictly fresh when it reaches the ultimate consumers. Had it been shipped through this port and over the Canadian National Railways it would have been delivered and consumed in the East before it reaches Seattle.

#### WHEAT GOES BY WESTERN ROUTE

Preference for Western Shipments Shown on Winnipeg Grain Exchange

WINNIPEG, Jan. 28.—During the past month there has been excellent demand for wheat cargoes to go via Vancouver to the United Kingdom and immediate shipments have been commanding a small premium over Fort William values, it was stated on the grain exchange here. Cheap tonnage at Vancouver was responsible for the premium, while differences in freight favor Vancouver from a number of western points. Because of the abundance of tramp vessels offering, tonnage has been easily secured.

#### MANY GREEKS DEAD RESULT OF EXTREME COLD WAVE EUROPE

ATHENS, Jan. 28.—Scores of people are frozen to death as a result of an exceptional cold wave which is prevailing in Greece. A message received from Salonika says three soldiers and 156 civilians who were living under canvas are dead from exposure.

#### FINLAND WINS SPEED SKATING

Early Events in Olympic Winter Games at Chamonix

#### SWEDEN HOCKEY WINNER

CHAMONIX, Jan. 28.—Finland with only three men entered, won the first honors in the speed skating events of the 1924 Olympic winter games which concluded yesterday. That country won 48½ points. Norway came second with 39½, United States third with 11.

Charles Gorman of St. John, N.B., the sole Canadian representative, had been considered a dangerous contender but was unable to get a place in any of the events.

#### EARLY END TO STRIKE

Official of Union Expresses Confidence Objection Will be Removed

LONDON, Jan. 28.—The public is hoping for an early end to the railway strike as a result of negotiations which are going on. J. Bromley, secretary of the striking union, expresses confidence that something to which the men objected will soon cease to exist. Meantime the dockers and transport workers seem to be moving near a strike owing to a refusal to increase their wages.

#### BURNED AT DOCK

WASHINGTON, Jan. 28.—Fire on the wharf burned the steamer Midland Waters and damaged the wharf and smaller craft, the estimated loss being \$500,000.

**Hero Worship Today Inherent in People.**

The scenes enacted at Moscow at the funeral of the former premier of that country indicates that hero worship is not dead but is just as prevalent among devotees of democracy as in countries devoted to king worship. It is inherent in the race that we look to leaders. We desire big men, outstanding above their fellows and sometimes we mistake small men for big ones and worship them.

Doubtless Lenin was a big man. Had he not been outstanding he could not have continued to lead the people of Russia for so many years and to impress them at his death, as has been done. What view future generations will take of him cannot yet be stated. We have no perspective with which to view his life. We are clouded by prejudice. Undoubtedly conditions in Russia are wonderfully changed since the abolition of the monarchy, but whether the change will be permanently for the good of the country remains to be seen. In any event we must admit, whether reluctantly or not, that when Nicholas Lenin was buried yesterday an outstanding personage disappeared from the earthly scene.

**Visit Of Planes Will Be Welcomed.**

The visit of the four seaplanes to this port in April will be welcomed by the people here. We are always glad to welcome American people and especially men engaged in so interesting an experiment as flying around the world. The arrival of four planes here at one time will be an interesting event and will put the name of Prince Rupert in the mouths of millions of people who will be kept informed through the press of the world of the movements of the fliers. Possibly something might be done locally to make the visit impressive and to carry to the outside something more than the mere fact that this is a stopping place for the flying men. It is worth planning for.

**Westbound Rates On Wheat Shipments.**

Premier Oliver is naturally gratified that the movement to secure equitable freight rates between Alberta and British Columbia points is meeting with strong support in this province says the Edmonton Bulletin. In the circumstances it might be nearer the mark to say that British Columbia is backing a demand in which the people of Alberta are primarily interested. However anxious British Columbia wholesalers may be to invade Alberta, the larger interest in the freight rates question is the influence reduction would have upon the grain-growing business in this province. Albertans are interested in the question both as sellers and as buyers, but in the first instance as sellers. Unless the Alberta farmer can sell at a profit he cannot buy. With operating costs as high as they are at present, a difference of a few cents per bushel means the difference between heading for bankruptcy and making progress toward better times. British Columbia is not concerned in the profits of the Alberta farmer, save as they affect his buying power. Alberta is concerned because of the difference good profits make in the circumstances of the farmer and his family and of the business community which he supports. Whatever reduced rates might mean to British Columbia in the way of larger trade, they would mean more to the farmers and the public of this province because of the larger prices obtained for farm products. The freight question is one in which Alberta should lead rather than follow. And the first objective should be lower rates on what we have to export. Reduced commodity charges on westbound grain would go a long way to meet the immediate requirements from the Alberta standpoint.

**HOW COMPANIES PACKED SALMON**

B. C. Packers Headed District and Province in 1923

The B.C. Fishing & Packing Co., Ltd., with canneries at Balmoral, Dominion and Cunningham's (Port Essington), put up the largest salmon pack in the Skeena River district last year according to official reports recently issued. The total for this company was 81,029 cases. Next in order for the district were: Gosse-Miller Ltd., Sunnyside, 39,886 cases; J. H. Todd & Sons Ltd., Inverness Cannery, 37,818 cases; Anglo-B.C. Packing Co., Ltd., North Pacific and British American Canneries, 35,079 cases; Canadian Fish & Cold Storage Co. Ltd., Prince Rupert Cannery, 33,719 cases; Northern B.C. Fisheries Ltd., Port Edward and Skeena Commercial, 30,875 cases; Wallace Fisheries Ltd., Claxton, 30,678 cases; Cassiar Packing Co., Cassiar, 20,138 cases; Kildala Packing Co., Carlisle, 19,171 cases; Maritime Fisheries Ltd., Haysport, 10,170 cases. The total pack for the Skeena district was 338,863 cases according to the report.

The largest pack for a single cannery on the coast was made by the Gosse-Miller Co., at East Bella Bella, the cannery which was recently destroyed by fire. The total pack for that plant was 83,656 cases.

**Naas River**

M. DesBrisay & Co., at Wales Island, had the largest pack in 1923 in the Naas River district, the total for that plant being 27,854 cases. Other totals were: Somerville Cannery Co., Ltd., Somerville Island, 26,769 cases; Northern B.C. Fisheries Ltd., Mill Bay, 16,245 cases; Anglo-B.C. Packing Co., Arandale, 14,168 cases; B.C. Fishing & Packing Co. Ltd., Naas Harbor, 14,247 cases. The total pack for the Naas River was 99,580 cases.

**URGE ACTIVITY DURING SEASON**

President of Board of Trade Writes to Members Asking For Co-operation

Personally signed letters have been sent out by the president of the Board of Trade, S. J. McLeod, to members of the board urging active co-operation during the present year for the furtherance of the development of Prince Rupert. His letter says: "You have undoubtedly received with a great deal of satisfaction the excellent report of last year's work submitted by the past president and I feel sure wish to see the same spirit of activity carried on for the New Year. Mr. Gibbons points out in his report several matters of importance to be followed; there are new items of development being presented at all times and the success of the work of the board depends largely on your co-operation."

**Must Work Hard**

The year 1924 should be a good one for our city — the Canadian National Railways are realizing more and more every day the undeveloped value of this port but we must all work hard and show the rest of the country the advantages we possess. There is still a large amount of work to be done to make sure of a grain elevator being built but I hope before the next annual report is submitted we will see grain from the prairies passing through here and the unquestionable value of the position of the port for this business firmly established.

Attendance at the regular meetings last year was not all that could be desired and I would urge upon you the importance of attending as many meetings as possible and taking a keen interest in the work. Matters come up at different times in which you may be vitally interested and the other members of the board are anxious for your opinion.

**HER CHILDREN HAD WHOOPING COUGH**

This is one of the most dangerous diseases of children. It starts with fever and cough. The cough is at first short and sharp, but gradually increases in severity and occurs in sudden spasms, vomiting follows, and sometimes there is nose bleed; the child turns livid in the face, the eyes appear as if they would burst from their sockets, and suffocation seems imminent till relief is brought on by the "whoop."

Dr. Wood's Norway Pine Syrup will clear the bronchial tubes of the collected mucus and phlegm and in this way ease the racking cough, and in a short time make it disappear.

Mrs. L. Ambrose, Sarnia, Ont., writes: "My little ones were both sick with whooping cough. I read where Dr. Wood's Norway Pine Syrup was good, and I only used two bottles and they were better. I had chronic bronchitis for three years and tried everything until, finally, I got 'Dr. Wood's.' I would not be without this remedy."

**DIRECT SERVICE TO NEW YORK BY CHICAGO**

WINNIPEG, Jan. 28.—The opening of a through daily service over the Canadian National Railways, by arrangement with the Lehigh Valley road between Chicago and New York was announced by J. E. Dalrymple, vice-president in charge of traffic of the former system, while in Winnipeg Saturday. This train, which will be fitted with new equipment of the Canadian National standard, will reinstate the service given in the territory covered between Chicago and New York prior to the war, there having been a curtailment of service due to war necessity.

The new service, which becomes effective April 28 is of considerable importance to western Canadians travelling to New York via Chicago and wishing to make direct connections.

**OTTAWA TAXES ARE OVER 90 PER CENT PAID TO YEAR END**

OTTAWA, Jan. 28.—What is thought to be a record showing for any city in Canada is reported by William Robertson, city collector, regarding the collection of taxes for 1923. The amount unpaid is only 8.3 per cent as compared with 10.32 per cent for the previous year.

The 1923 taxes were made up as follows: General taxes, \$3,930,477; street sprinkling, \$98,282; local improvements, \$383,898; whiteway lighting, \$15,192; private sewer connections, \$4,023; coal chutes, \$945; sidewalk areas, \$1,953; electric signs, \$793; special patriotic grants, \$4,594; privy vaults, \$440; cleaning yards, \$14; total, \$5,437,571.

**Beats Electric or Gas**

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U.S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94% air and 6% common kerosene (coal oil).

The inventor, G. A. Johnson, 595 McDermot Ave., Winnipeg, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

Assemblage Attending Service For Late Harry Fletcher One of the Largest on Record

One of the largest assemblages of mourners that ever gathered in the city paid tribute to the memory of the late Harry Fletcher on Saturday afternoon. There was an attendance of more than 300 persons at the Elks' Home at the service which was held preparatory to sending the remains East by train for interment at Portland, Maine, the home city of deceased. The obsequies were under the joint auspices of the Elks, Moose and St. Andrew's Societies of which organizations the late Mr. Fletcher had been an active member.

Rev. Dr. H. R. Grant, who officiated, delivered a feeling address in the course of which he referred to the valuable part deceased had played in the life of the city. He would be sadly missed and his place would be difficult to fill. A. Clapperton and J. E. Davey sang as a duet, "One Sweetly Solemn Thought," and the congregation sang three hymns. Charles Balagno was accompanist.

**Pall Bearers**

After the service, the remains were borne to the Canadian National Railway station and sent out on the evening train. Pall bearers were Ben Self and E. J. Cobb, representing Prince Rupert Lodge, Benevolent and Protective Order of Elks; D. C. Stuart and M. M. MacLachlan, St. Andrew's Society; Roi Barnes and Gillis Royer, Loyal Order of Moose; M. L. Stepp and C. W. Kirkendale, American Elks.

Floral tributes included a pillow from the Benevolent & Protective Order of Elks, and wreaths from Ladies of the Royal Purple, A. C. Little, Mr. and Mrs. Phil McDonald, Mr. and Mrs. R. L. Parry, Mr. and Mrs. W. Rance, Mr. and Mrs. H. Howard, James McAlenan, Mr. and Mrs. Ben Self.

they weigh about four tons and carry a load of a ton of fuel besides oil.

Major Martin of the U.S. Army air service will be in charge of the expedition and he will fly one of the planes. The other machines will be piloted by Lieutenants Wade, Nelson and Smith respectively. The four men are now taking a special course in navigation and meteorology at Langley Field, Virginia, where they have been since the first of the year. They are in strict training and go to bed every evening at 9. Each plane will carry a mechanic as well as a pilot. The mechanics are being carefully chosen. They will do all their own work throughout the trip and no one but the men in charge will touch the machines from the time they leave Seattle until their arrival back there. No help of any kind will be sought.

The primary object of the fliers will be to reach their objective and for that reason they will be unable to take part in any social events or do anything which will cause delay, if the weather is good. Should the weather prove impossible for flying they will then be able to relax and will be glad to meet the people and enjoy themselves.

Florida, who falls in love with Roger Wainwright, a wealthy New York man. Brenon is shot and killed during a raid on an inn, and circumstances point to Wainwright as the guilty one, although he is innocent. He seeks to escape, but is wounded in the pursuit. Gale Brenon finds him and cares for him until the posse reaches her home. She sends him away in safety, and he finds an asylum in his own home, adjoining Gale's property. When Gale learns that Wainwright killed her father, she is torn by conflicting emotions. She never loses faith, however, and when a woman clears Wainwright and fastens the crime upon a corrupt Sheriff's Deputy, the story comes to a happy finish.

HER REPUTATION IS BEING SHOWN TONIGHT

Picture is Adapted From Well Known Novel is Action Classic

"Her Reputation" is Ince's latest offering on the altar of public entertainment and the wise ones say it is an action classic that is going to win a lot of indifferent picture goers to the ranks of the "fans." Adapted from the novel of the same name by Talbot Mundy and Bradley King, Ince has told a powerful story, in this drama, of a lovely little Southern beauty whose name is linked with an ugly scandal on her wedding day. Scandal—and a newspaper re-

MASTERS OF MEN IS WONDERFUL SEA STORY

Tells of Life in American Navy and Aboard Sailing Vessels with Love Theme

At the week end there will be shown here a thrilling sea story depicting life aboard both naval and merchant vessels. The drama begins in the boyhood of Dick Halpin in the village of Allville, where he is falsely accused of theft by the brother of the girl he loves. Rather than humiliate the girl he accepts the blame, runs away and joins the United States Navy. Life on board a Yankee man of war is splendidly portrayed and there Dick learns how to become a man. His immediate superior officer, Lieutenant Breen and Dick are shanghaied and sold by crimps to the brutal master of the "Mary Earl," a sailing ship. There they are driven into the fore-castle and endure the cruelty of big fisted mates and the filth of bad quarters and worse food. It may be remarked in passing that the publication of this novel by Morgan Robertson did much to improve conditions of sailormen.

The two youths manage to escape and "join" their ships at the time Admiral Sampson's fleet is lying outside of Santiago Harbor waiting for the Spanish fleet to come out. Dick's heroism gives warning that Admiral Cervera had given orders to sail. The misunderstandings between the two youths and the two old fashioned girls "they left behind" are straightened out and the story ends happily.

TERRACE NOTES

Mrs. A. Barker left on Thursday for the south. Mrs. R. Holcomb of Prince Rupert is the guest this week of Miss Inez Ross. The Women's Auxiliary of the Anglican Church met at the home of Mrs. Burnett on Wednesday. Rev. and Mrs. W. J. The Ladies' Guild of the Presbyterian Church met at the home of Mrs. Louie on Wednesday.

DOROTHY DALTON IS DUE HERE WEDNESDAY

To Be Seen in "Fog Bound" a Picture Replete with Thrill

Scoring a decided hit, Dorothy Dalton's new Paramount picture, "Fog Bound," will be presented at the Westholme Theatre Wednesday. The various situations are packed with drama and thrill, and the popular verdict has been that Miss Dalton seldom has been seen in a more attractive stellar vehicle. The story deals with the daughter of a United States Revenue officer, Gale Brenon, living on an island off the coast of

MILLIONS and Movies

THROUGH the medium of slender strips of celluloid an actor appears simultaneously on thousands of screens in as many different towns. On the same evening, he entertains great armies of film fans who eagerly pay their money to see his performance.

So the movie star commands a king's ransom for a salary, and a fortune is spent profitably, to provide a proper background for his art. The movie multiplies personality—and earning power.

Advertising does the same thing for a merchant or manufacturer. In a single day it takes his message into thousands of homes—to tell folks why they should have his goods and how to get them. Advertising endows him with a thousand voices with which to tell his story.

But the value of advertising is by no means confined to the advertiser. It has a very definite value to you.

A glance through this paper enables you to sift out the things that interest you. Sitting in your easy chair you can compare values and prices. In a moment you can tell exactly where to go for what you want and how much to pay.

Figure how much useless walking and talking and how much actual money you can save by spending a few moments daily with the advertisements.

Sport Chat. The International League game between the Golts and High School promises to be the outstanding feature of this evening's basketball program at the Elks' Hall. While the Golts, who have yet to lose a game this season, have been successful in putting it over the boys from Seventh Avenue East, thus far, their best competition has come from that direction and the chances are the champions will have to extend themselves again on this occasion. The Teachers are going to attempt a better showing against the Maple Leafs in the Ladies' League and the Teachers will go up against the Golts once more in the Senior League. High School and Golts meet in the Junior League and should put up a snappy exhibition at 6.30.

The Prince Rupert City Billiard League tournament tonight between the Great War Veterans' Association and Sons of England is of outstanding importance for the contenders are at present the leading teams in the standing. While the Vets have a very comfortable margin of safety to retain their position, a serious defeat might even displace them. For the Sons of England every point won or lost will be of double value and, needless to say they will be out to get all they can. The opinion of the fans, however, is against them in view of the way they fared at the hands of the Grotto on Friday evening last.

FLOATING SPECKS BEFORE THE EYES MEANS LIVER TROUBLE. When specks start to float before the eyes, when everything seems to turn black for a few seconds and you feel as if you were going to faint, you can rest assured that your liver is not working properly. The essential thing to do in all cases where the liver is slow, lazy or torpid, is to stir it up by the use of Milburn's Laxa-Liver Pills and clear away the accumulated mass of waste and poisonous matter from the system. Mr. Chas. Ayland, Frankville, Ont., writes: "I used to be awfully bothered with floating specks before my eyes, headaches and sickness to my stomach. I took just half a vial of your Milburn's Laxa-Liver Pills and ever since I have felt as well as I ever did. Now I always keep them on hand."

TERRACE SCOTSMEN CELEBRATE BURNS' DAY. Banquet Followed by Dance is Well Attended at Fruit Centre. TERRACE, Jan. 28.—The first banquet of the Terrace Branch of the St. Andrew's Society was held on the anniversary of Burns' birthday. Seventy-five guests were present, while others came later for the dance. Mr. Barker, president of the society, presided at the banquet and in the absence of any of the clergymen read Burns' Grace before meal and later proposed very briefly the toasts to the King and Robbie Burns. A real Scotch haggis was the main feature of the meal. Each table was liberally supplied with oat cake and shortbread. Tom Young addressed the haggis very eloquently and feelingly in Burns' poem. Mr. Swan closed the first part of the poem singing "He's a Rantin, Roving Lad."

## LIGHT CATCHES HALIBUT BOATS

### Unfavorable Weather Has Interfered With Fishing Lately —11 Boats In Today

Several of the larger American schooners were in port this morning but their catches were light and there was only 150,000 pounds sold in spite of the fact that eleven boats had arrived. Poor weather of late has been responsible for the lack of success. Several of the boats had been at the Cape Addington and Cape Omaney banks for a fortnight or longer. All boats in today were American as follows:

Oonah, 11,000 pounds, at 17.4c and 9.5c, and Yakata, 46,000 pounds, at 16.6c and 9c, to the Booth Fisheries Canadian Co.

Gretchen, 12,000 pounds, at 17.5c and 9.5c, and Sentinel, 14,000 pounds, at 17.1c and 9.5c, to the Atlin Fisheries.

Brothers, 10,000 pounds, at 17.2c and 9.5c; Kodiak, 14,000 pounds, at 16.7c and 9c; Roald Amundsen, 8,500 pounds, at 17c and 9.5c, and Thelma II, 12,000 pounds, at 17.3c and 9.5c, to the Canadian Fish & Cold Storage Co.

Wireless, 8,000 pounds, at 17.3c and 9.5c; Washington, 7,500 pounds, at 17.3c and 9.5c, and Lebanon, 7,000 pounds, at 17.3c and 9c, to the Royal Fish Co.

## ST. PAUL'S IS CHURCH NAME

### English Lutherans Organize Congregation Under Rev. P. E. Baister

Yesterday at the evening service of the English Lutheran Church in the Metropole Hall, Rev. P. E. Baister, the organizer of the congregation in charge, and with John Dybhavn acting as secretary, it was decided to organize St. Paul's English Lutheran Church.

After a brief outline of the situation Mr. Baister read a copy of a constitution recommended to congregations by the United Lutheran Church of America, which was adopted. Twenty-five signatures were affixed to the charter and more are to follow.

The first church board was appointed consisting of John Dybhavn, A. Ackerberg, K. Hallberg, L. O. Larsen, C. G. R. Anderson and T. Johnson.

The first visit of Mr. Baister to Prince Rupert was in November last when he spent a week here looking over the ground with a view to establishing a congregation. He returned a few weeks ago and services have been held at the Metropole Hall and a Sunday School has been organized at which 34 attended yesterday. Last evening there were fifty present at the organization gathering.

## BUNGALOW BUILDING IN CITY OF VICTORIA

### Bible Students to Engage In Construction Work to Provide Residences

### COMMUNITY APARTMENT

VICTORIA, Jan. 28.—With the laying of the foundations of two modern bungalows in the 2500 block on Quadra Street, the Star Bungalow Construction Company, a commercial offshoot of the International Bible Students' Association, will embark upon an extensive program of construction in Victoria.

Many Antiquated

"We expect to put up quite a few houses, some for ourselves and some on contract for others," I. G. Richards, one of the leading officers of the construction company, said "Bungalows in Victoria at the present time are, in the main, antiquated, without proper heating apparatus and the breakfast nooks and other features that are now incorporated into the best residences of this type. There are plenty of empty houses in Victoria, but it is difficult to find a vacant structure that is up-to-date and habitable, according to present day ideas. Accordingly, we have formed our company and plan to build just as many fully modern comfortable bungalows as we can. We hope to have six or seven going on all the time."

Mr. Richards said that, contrary to the idea that gained credence when forty or fifty of the Bible Students came to Victoria a few months ago, they were not a community organization. Some of the houses would be built for members of his association, and they would be in all parts of the city.

### Central Dining Room

The Association two or three months ago secured the Scott Building, at the corner of Douglas Street and Hillside Avenue, and most of the members of the Association in Victoria are domiciled there. The building has been converted into an apartment house of a kind, save that it now contains a central dining-room or restaurant. About 200 members of the Association are now in Victoria, hailing from various parts of the United States and Canada, mostly from the Canadian prairies. Between 150 and 200 more are expected to come to the city in the near future to settle here. The sect is, however, a small one, Mr. Richards says, and the rumors of thousands coming here which have been circulating about the city are impossible of realization.

### U.S. GOLF CHAMP DEFEATS BRITISH

## SYNOPSIS OF LAND ACT AMENDMENTS

### PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e. carrying over 4,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commission, and which is not timberland, i.e. carrying over 4,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Pre-emptions must be occupied for five years and improvements made to value of \$100 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

### PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

### HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtained after residence and improvement conditions are fulfilled and land has been surveyed.

### LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

### GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given established owners. Stock owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.
