Do We Take Elections Seriously?

and by party bias.

Do we take elections seriously? Are we honestly at any of iginally planned. It would have gale Sutherland, "is very simple our elections swayed by the highest motives and anxious to give been unexpected good fortune and very direct. Does the Hearst the country the best possible government? Possibly we are, had the units of the new plant press or do these gentlemen favor but probably we are not. Judging by the kind of arguments city immediately the power sent reported unanimously by the that are used at election times, it would seem as if we are the wheels of the crusher and house committee on merchant swayed more by prejudice, by petty issues, by likes and dislikes grinders turning.

Now that there is an election on us in the near future, it would be well for us all to try to grasp the bigger issues and to when the crusher didn't handle dissociate ourselves from that which is petty. Many men vote its contemplated tonnage, the by the members of that commitfor the candidate who shakes hands with them and makes him- grinders didn't deliver the goods lee? self pleasant. This is not the way they would choose the director at the fineness wanted, and the of a company or appoint a manager for a business. While peo- flotation cells failed to live up ple are of open mind, unswayed by campaign criticism or influences, we ask them to look coldly and calmly on the question were only a question of time. and then as the issues are presented to pick them off for and These adjustments are now be- on a measure for the saving of against and to try to elect that kind of candidate who will best ing made, and the results are serve the province as a whole and this district in particular.

Coolidge Will Get

The Nomination.

It is generally accepted that President Coolidge will get the nomination for president of the United States and probably he run now averages well up will be elected. He has held his position but a short time and eighty five per cent of mineral has been very discreet and the sentiment of American people is values. This, with the splendid rather to give a man an opportunity. Coolidge has not yet had much opportunity to show his ability.

Possibly the oil scandals will injure the Republican party looks now as though these conbut whether that will be considered in voting for the president entrates will be wholly treated at seems to be doubtful. There is nothing to indicate that Mr. Anyox and not shipped south as Coolidge was in any way a party to the scandals and he quickly was originally intended. IThe cleared his cabinet of any who seemed to be in a doubtful position. As a good bet it would seem as if he would be elected and sand tons, and this ratio of the business of the country go on as usual.

Position Of France Seems Reasonable,

The position of France in connection with the Ruhr occu- finished, will undoubtedly govern pation seems reasonable. She says she will withdraw from the Ruhr in proportion as the reparations are paid. In view of past history that is about all that can be expected of her. A number completed, it is believed that an of years have passed since peace was declared and the repara-joutput of fifteen to sixteen huntions payments have scarcely commenced.

India Is Victim Of An Epidemic

India is again a victim of an epidemic. Cholera is carrying off thousands and when the dread disease gets going it is management states the situation difficult to stop it. The British authorities have instituted very comprehensively, saying strict health regulations in most of the cities and have done that the crusher units was ready much to prevent the possibility of the spread of infection, but to do its capacity, that among people of the type of those who live in India under trying weather conditions it is difficult to stop the spread of the scourge.

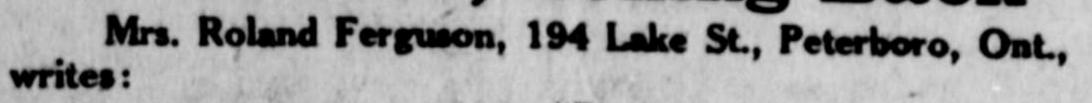

Curious Position

Of Japanese.

Because of their industry and frugality and for other reasons the Japanese are not wanted in white communities. As a people they are good citizens, progressive and law abiding. There is nothing against them except that ethnologically they are different and industrially the people who have to compete find it! difficult, owing largely to the different standards of living.

We all admire the Japanese people and we realize that they are destined for great things in the future but it is probably better that they should develop as a nation rather than mixed with offices are Fred Stork, Joe Scott, people of European extraction.

"I Suffered Terribly With Sore, Aching Back"

"For over two years I suffered terribly with sore back. I was almost mad with the pain, and had doctored with it until I was discouraged. Then my father, who is a firm believer in Dr. Chase's Medicines, advised me to try Dr. Chase's Kidney-Liver Pills. I followed his advice, and am glad to say I was completely relieved of that torturing pain in my back. It is over a year since I used these pills, and I have had no return of the trouble, but always keep them in the

WESTERN CATTLE IN **EUROPE**

Demand From United Kingdom Constant Since Lifting of Embargo, Says Col. Mullins.

Montreal.-Sounding a note of the strongest possible faith in, and optimism for, the future of the agriculturalist in Western Canada, Colonel H. A. Mullins, prominent rancher of Poplar Point, Manitoba, who arrived in Montreal on Sunday, submitted to an interview yesterday.

"The situation on the prairies is rapidly improving," the Colonel declared, "and the Westerner is taking courage. Moreover, many of those who in recent years left the farm are returning. I consider the tide in Western Canada is beginning to turn strongly from the city to the farm once more. The three prairie provinces especially have a tremendous future, and, if due consideration is given to their particular needs, the realization of that future cannot be long deferred.'

Asked to mention some of the influences which, in his opinion, would tend to hasten the Golden Age for Western Canada the Colonel unhesitatingly pleaded first for a better understanding between East and West.

"The Western farmer can also do a great deal to help himself," the Colonel added. "I consistently advocate that all farmers out there should go in for raising livestock as well as other stuff, especially for raising high-grade stock, and that those now in that game should stick to it. They should also stop crowding their shipments—and this applies not only to livestock but to other products, such as grain-into three months or so of the year. Then they won't find themselves forced to take low prices because of the rush, and things will be better for the country generally as

Despite many recent setbacks, there is, the Colonel is convinced. a world market for good Western cattle. The demand from the United Kingdom, he says, has been constant and heavy since the lifting of the embargo, though it has been affected adversely by the recent closing of Liverpool, Glasgow and some other ports on account of the outbreak of foot and mouth disease. Colonel Mullins is in an excellent

position to speak with authority on the cattle situation, for he has been shipping cattle overseas steadily and intends to continue. Recently he shipped 148 head from Winnipeg to Montreal. The train, supplemented by cars containing 100 additional head from Toronto, left the Western city at 10 p.m. on Wednesday via Canadian Pacific and arrived at the stock-yards here on Sunday morning, the Colonel following them up by a passenger train which left Winnipeg on Thursday night. The shipment is bound for Dundee via St. John. N.B. The Colonel paid a warm tribute to the Company for the manner in which it had handled his consign-"The shrinkage in weight was unusually light," he stated, "and not only did they make up this loss of weight in a few hours in the Canadian Pacific yards here, but they are already heavier than they were in Winnipeg. This experience, and my inspection of these yards, has convinced me that ranchers may ship their cattle via Canadian Pacific with confidence that they will be splendidly and rapidly handled."

ANNOUNCEMENTS

Women of Mooseheart Legion

5th to 10th

features these new garments of special interest to stout women.

The Diaphragm Controlling CORSET

(Style No. 530)

A new Nemo model in perfect accord with the latest tendency in corset design, but so constructed that the 'excess flesh above the waist line does not crowd over the top of the corset, but drops down inside, insuring a smooth, unbroken line at the waist

The woman who is inclined to be stout will appreciate the notable improvement in the lines of her figure, made possible by the adoption of this new Nemo Corset.

Made of durable pink coutil, in a N9530 ill range of sizes, and priced at

The New Style CIRCLET

(Style No. 1924) A perfect-fitting companion garment to the Nemo Corset. Gives the necessary comfortable figure control to create the same smooth, unbroken lines above the waist that the Nemo Corset does below. The patented "Hook Rite" attachment prevents "riding up". Made of pink batiste (combined with coutil for greater strength) in all the popular sizes. Price \$1.25.

Be sure to visit our corset department this week and see the special display of Nemo Corsets and Corset Accessories.

Sold in Prince Rupert exclusively by JABOUR BROS.

E. B. Cogswell's con-VERY ENTHUSIASTIC tention, as crown prosecutor, was that Mrs. Dodge was also a parent and that if she had the

means of providing medical aid or "the necessifies of life" as the code says, then she would also be responsible under the meaning of the section. After considerable argument on

the point, the court was adjourned so that the law on the point might be looked up by counsel for both sides. The judge also reserved his judgment on the question of a non-suit.

Medical Evidence

During the morning session the crown called as witnesses. Drs. Chatham, Whitelaw, Renfrew, and Hall, all of whom had something to do with the investigation with Jean Dodge's death. Their evidence showed that the child died! of diphtheria.

In dealing with the question of the toxin anti-toxin treatment for the cure of the disease. Dr. ATTRACTING VISITORS Whitelaw, the city health offihave had only the remotest Spring Flowers Resemble Those chance of recovery if the treatment had been administered on lieved. EDMONTON, May 8 .- Park-pecently been visiting Metlakatla previous Sunday, however, it was that they were always advised to cenic spots of this city, early in are now at their best there. Poly- symptoms of the disease, ex- ous illness. the spring set out an irregular anthus, jonquils, daffodils, for- plained the doctor, was simply a avenue of aerial bungalows. The getmenot and other old favorites some throat, a headache and a MANY IMMIGRANTS AT hongatows are equipped with all are making a great show. and to quality, as a tenant, it's and is several weeks earlier. The Christian Science practia case of "first come first ser- The gardens have been pretty for tioner, when called, stated that ved." Today, however, the only the past month and will be the only information he had was

Lew youngsters today ever saw a horse-hair sofa. They wouldn't know what to do with a fire taper, carpet stretcher, or coal oil lamp. They couldn't braid rags into a rug, or wind yarn without tangling. But they know the how and why of typewriters, phonographs, telephones, automobiles; what happens when a push of the button gives light, or a kodak's flash fixes their image on paper.

Their education is as modern as the advertisements they see. They have no more use for the lamp and chimney of yesterday than you for the wick and tallow of the day before.

Advertisements induce such progress. They urge wide use that means improvement. They help you lift the out-of-date into the attic---rid you of the water buckets and soap kettles of slavedom. They bring late improvements within your reach.

Read the advertisements regularly. Keep alert to the new.

Without advertising, you would never know a product's worth until you had bought it.

the morning of the day she died. Questioned on the attitude which was on a Thursday. If it which Christian Scientists adopt A number of local people have had been administered on the towards the health laws, he said keeper Joe Smith, whose domain to view the Indian gardens at almost certain that she would call in medical aid in the case of south of the river is one of the that place. The spring flowers have recovered. The earlier infectious disease or any seri-

EDMONTON IN APRIL

Half the Number Were Scottish While Polish Came Second

EDMONTON, May 8. - During tenant applying for summer worth a visit for the next few that the child had a sore throat the month of April 351 immihabitation in the new homes is a weeks. The lilacs are showing and that, working on that basis, grants registered at the Impromise of a good bloom there, he prayed that she fright be re- migration Hall, Edmonton, and were placed on farms almost immediately after their arrival. Out of the total number, the Scotchmen take the lead by a large majority, there being 165 out of which 150 were from the Hebrides Islands. Ranking second were the Polish totalling thirty immigrants. A close third were fwenty-nine from England.

> In order as to the number of immigrants, the following countries were: United States 25; Czecho-slovakia, 15; Denmark, 15; Sweden, 11; Belgium, 11; Austria, 7; Ireland, 7; Germany 6; Jugo-Slovakia, 6; France, 5; Holland, 5; Norway, 3; France, 3; Italy, 2; Switzerland, 1.

Llamas to Trim Lawns

LONDON, May 8 .- For reasons of economy, and to make use of some of the inmates, the London Zoo authorities are starting geese and Hamas to trim the lawns. The geese are kept from straying by wire fencing, and the llamas are tethered by a long rope which gives them a 20 foot grazing circle.
