NARROW ESCAPE OF CANADIANS FROM FIRE

CONCESSIONS ASKED FROM CITY FOR OPENING OF MILL AT SEAL COVE

Canadians had a Close Call When Fire Broke Out in Picadilly Club

LONDON, Nov. 25.—A party of Canadians, including H. H. Stevens of Vancouver; H. B. Thompson, former Canadian food controller, and a one time resident of Victoria and manager for Turner Beeton Co., and Herbert O. Friend of Vancouver, made a thrilling escape from being burned to death this morning in a fire in the annex to the British Empire Club, Piccadilly Street, which was used as residential quarters for overseas visitors.

The woman housekeeper lost her life but all the visitors escaped unharmed through the windows by the aid of the firemen.

Mr. Stevens was awakened by roaring flames and at once roused the rest of the inmates.

GIRLS LEAVE EMPLOYMENT

Refuse to Continue to Work in Homes Where Orientals Employed

VICTORIA, Nov. 25.—Girls working in better class homes of Vancouver where Orientals are employed are leaving their employment in large numbers, declares Mary Ellen Smith, who is endeavoring to get a bill through the Legislature to prevent the employment of Orientals in homes where white girls are working.

Mrs. Smith says she has the names of 28 girls who left their positions following the murder of Janet Smith.

STEWART MAN HAS INVENTION

New Differential Gear Proves Great Success and Will be Marketed

STEWART, Nov. 25.—An invention which may revolutionize automobile history has been perfected by Hugo Stratford who, with William Noble, is financing the invention, left last week for the East to put it on the market.

The invention consists of a differential gear capable of throwing the power on to any one wheel separately. With cars as equipped at present, if one wheel is off the ground or does not take the traction, the car will not turn. If equipped with the Stratford gear, the car will run on three wheels—in fact, Mr. Stratford drove through town with one wheel in the rear of the car and a pole holding up the axle.

The field is said to be unlimited for the invention as the new gear can be adapted to any car and there are millions in operation in addition to those being turned out daily.

GOOD REWARD FOR POLICEMAN

Who Tried to Catch Murderer of Sir Lee Stack Gets Thousand Pounds

CAIRO, Nov. 25.—Field Marshal Viscount Allenby visited the hospital yesterday to present a thousand pounds reward to the policeman who was wounded in attempting to catch the murderer of the late Sir Lee Stack, who was shot down here a few days ago. Lord Allenby told the policeman he had performed a distinguished action and the reward betokened the appreciation of both the British and Soudanese governments.

COUNCIL DISCUSSES WATER RATE REPORT

Tabulation of Results of Survey Not Yet Completed and Complaint Made

Ald. Perry inquired of Ald. Maedonald, chairman of the utilities committee, last night what had been done regarding the proposed revision of water rates in the city following the survey that had been taken by house canvass.

Ald. Maedonald replied that, owing to the large amount of clerical work involved, tabulation of the information received had not yet been completed. The utilities committee was awaiting this before making a report.

Ald. Perry stated that he would like to see the matter finally dealt with before the end of the year, even if it was necessary to obtain extra help.

Ald. Collart felt that the work should have been already completed. A man had been engaged three months taking the canvass. Ald. Maedonald replied that Mr. Hampton had been exactly two months on the job, just as the utilities committee had forecasted. He would take the matter up with a view to having a report before the council next Monday.

Ald. Collart also asked if the inspection of the Woodworth Lake dam by the city engineer and superintendent of utilities as ordered by the council on request of Ald. Maedonald had been completed. Ald. Maedonald replied that the superintendent had been unable to get at this, having been busy continuously for the past few weeks at the sub-station. The superintendent had given assurance that there was no danger with respect to the dam and it was of first importance to get the sub-station in operation. It was expected that the dam inspection would be made this week.

DIRECTOR OF HOME BANK IS FOUND GUILTY

Will be Sentenced on December 31 on Three Counts Under Bank Act

TORONTO, Nov. 25.—C. A. Barnard, K.C., of Montreal, one of the directors of the defunct Home Bank was this morning found guilty on three counts under the Canadian Bank Act arising out of the collapse of that institution. The three charges are:

That he did make wilfully false or deceptive statements.

Unlawfully using a false or deceptive statement.

Negligently did sign or approve or concur in an account containing a false and deceptive statement.

Barnard will come up for sentence on December 31.

ACQUITTED ON MURDER CHARGE

Mary Serafini Not Guilty of Death of Henri Cleroux

MONTREAL, Nov. 25.—Mary Serafini, whose husband was hanged recently with three others for the murder of Henri Cleroux, bank chauffeur, was acquitted today after the jury had deliberated a few minutes. She was charged with the same crime for which her husband was hanged.

INTERNATIONALE IS AGAINST BRITISH ACTION IN EGYPT

LONDON, Nov. 25.—A Reuter despatch from Riga says the Third Internationale in Moscow has written their "dear comrades in Egypt and the Soudan" urging them to continue their struggle against the Imperialists.

MRS. WADE SAILS FOR HOME ON DECEMBER 3

LONDON, Nov. 25.—Mrs. Wade widow of F. C. Wade, former agent general for Canada in London, accompanied by her daughter, will sail for Canada on Dec. 3. The ashes of the late Mr. Wade will remain here for the present.

MEMBERS AGREE TO PAY \$400 EACH TO CHILDREN'S SOCIETY

Unemployment Relief to be Given Consideration in Connection With Government's Loan Bill

VICTORIA, Nov. 25.—As a result of the cross fire in the Legislature yesterday, G. A. Walkem, member for Richmond and Chas. Woodward, member for Vancouver, each agreed to pay \$100 to the Children's Aid Society, that amount representing the amount of the increase two years ago of the sessional indemnity.

Minister of Finance McLean announced that unemployment relief would be given consideration under authority of this session's three and a half million dollar loan bill.

Just as she helped her father to run 10 Downing Street, Miss Ishbel Macdonald, daughter of Britain's Labor prime minister, aided him in his election campaign in a 100-speech tour. She is shown here at Sterling.

Buckley Asks City for Some Concessions for Mill Which it is Proposed to Again Open

In connection with his project of re-opening the Seal Cove mill here, Frank L. Buckley is seeking a 25-year agreement with the city on taxes, water and power. Mr. Buckley's proposition was received at last night's council meeting and was referred to the finance committee for report. There was no discussion. Mr. Buckley asks for an assessment not exceeding \$20,000 with a maximum tax rate of 40 mills. He is willing to pay \$40 a month water rate and asks for a power contract similar to the one formerly given the mill with a maximum charge of 3-4c per kilowatt.

In his letter, Mr. Buckley suggested that it was necessary that everyone should give support and co-operation with a view to getting the idle plant in operation again. He was not asking, he thought, for anything free or unreasonable. Negotiations, which gave promise of being satisfactory, were under way with the railway company for a 25-year lease renewable for 25 years. The only other negotiations were with the city and a concurrent agreement with respect to taxes, water and power was desired.

Pointing out that it was not altogether desirable to have a mill within the city limits and that a location at Port Edward would have been just as suitable, Mr. Buckley made it understood that it was not expected the plant would be taxed or levied with charges other than taxes, water and power as set out by reason of being located in the city or doing business here. It was expected that it would be allowed to operate as if it was outside the city.

Mr. Buckley asks that the agreement as he submits be ratified by the council and submitted to the electors at the January election.

Stating that the communication had already been before the utilities committee regarding the power clause and that there would likely be difference of opinion as far as it at least was concerned, Mayor Newton referred the letter to the finance committee for report.

BATTLE FLEET OF UNITED STATES TO VISIT AUSTRALIA

WASHINGTON, Nov. 25.—The battle fleet of the United States navy will visit New Zealand and Australia next summer it is announced here.

New Egyptian Cabinet Consider British Demands and all Further Action is Delayed by This Country

LONDON, Nov. 25.—The British Government is going to withhold further action in Egypt to allow the new cabinet time to reconsider the British demands, only part of which the Zagloul ministry agreed to, and to communicate officially with London regarding them.

It is hoped here that the new cabinet will be able to agree to the demands in which case the British Government will consider the incident of the assassination closed so far as diplomatic relations with Egypt are concerned.

SCOTTISH TO TAKE CATTLE

First Shipment to Orient of Interior Beef Will be Made in January it is Expected

The Prince Rupert built Canadian Government Merchant Marine steamer Canadian Scottish will come here between January 5 and 10 to load the first shipment of live cattle from the Bulkley Valley to the Orient it is now expected. It had been at first intended to make the shipment on the Canadian Miller in December but that vessel had a full cargo from the south. It is expected that a rate of \$37.50 or better per head will be obtained for this shipment which will include about 60 cattle.

EMPIRE FAIR WILL REOPEN

Wembley Exhibition Council Decides to Carry on for Another Year

LONDON, Nov. 25.—The British Empire exhibition at Wembley is to be carried on for another year. That was the decision arrived at yesterday by the council of the exhibition. Just now the exhibition is closed and it will remain closed all winter, opening at a date to be set in the spring or early summer. The decision was arrived at after practically all the Dominions and colonies had agreed to do their part toward making it successful.

Last year there was a considerable loss to the guarantors, the total running into several millions. That included the cost of erection of buildings and equipment, which next year will not have to be renewed. Last year there was a considerable loss to the guarantors, the total running into several millions. That included the cost of erection of buildings and equipment, which next year will not have to be renewed.

FOUR CANDIDATES MAYOR OF NANAIMO

NANAIMO, Nov. 25.—There is to be a lively civic contest this year with four aspirants for the position of Mayor. They are Aldermen Victor Harrison, Thos. Smith, Borsby and Randle. There are a number offering themselves as aldermen and for the positions of police commissioner and school trustee.

ATTENDED JAPANESE MILITARY MANOEUVRES

VICTORIA, Nov. 25.—Major General J. H. McBrien, chief of staff of the Canadian militia, arrived today on the steamer Empress of Canada from Japan, where he was sent to attend the Japanese military manoeuvres. He said he had gained valuable experience which he trusted to be able to pass on to the Canadian military forces.

DEAD TREE POINT.—Cloudy, calm; barometer, 30.18; temperature, 39; sea smooth.

BULL HARBOR.—Misty, light southeast wind; barometer, 30.19; temperature, 42; moderate swell.

GOOD PROGRESS ON ESQUIMALT DRYDOCK

VICTORIA, Nov. 25.—Good progress is being made with the huge graving dock at Esquimalt which is being constructed by the Canadian Government to be used in connection with the naval base at that harbor. It is expected that the concrete work will be so far advanced that it will be possible to commence installing machinery early next spring.

ONE SESSION ONLY OF BOARD OF ADJUSTMENT

Members Expect to Arrive Thursday Afternoon and Leave for South Following Morning

Word was received this morning by J. M. Campbell, of the Employment Bureau, that only one session of the adjustment board under the Eight Hour Day law would be held here and that no Thursday evening. The members of the board will arrive from the East on the train on Thursday, will hold the session that evening and will leave for the south the following morning on the Prince Rupert.

FURS SCARE AND PRICES ARE HIGH

William Goldbloom Finds Indians Well Healed With Cash and Many Not Trapping This Winter

Furs are going to be scarce this winter and prices will be high states William Goldbloom, the local dealer who is just back from a trip down the coast in the course of which he visited several of the fur producing points. There have been comparatively few marten taken so far. The Indians are pretty well healed with cash and many of them are not bothering with trapping this season.

MEETING TO PLAN FOR A MUSEUM IN PRINCE RUPERT

Tonight Father Kashevaroff will meet a few interested local people in the rooms over the Daily News for the purpose of discussing with them the possibility of forming an organization to get together the nucleus of a museum here.

Anyone interested in the matter and willing to help is invited to attend the meeting.

DAILY EDITION Tuesday, Nov. 25, 1924.

Value Of Hatcheries Being Discussed.

One of the questions being discussed at present is the value of fish hatcheries. There is one located at Lakelse Lake about one hundred miles from Prince Rupert, so people of this district are vitally interested in the matter.

While most of the men interested in fish culture declare that the work of the hatcheries is very important, many cannermen declare they are useless. It is understood, too, that W. A. Found, director of fisheries for Canada, is not at all satisfied of the utility of the work done by the hatcheries.

Norman Hapgood On Cost Of Education.

In United States as well as in Canada there is a lot of talk about the cost of education. Norman Hapgood, one of the great American editorial writers, takes the matter up and shows how futile is the discussion. He says:

"What we spent for candy in 1920, statistics tell us, equalled what we spent for what we call education. What we spent for tobacco equalled twice what we spent for education. What we spent for soft drinks at soda fountains was half what we spent for education.

"Better teachers, fuller school equipment, it matters not what they cost. We owe them to our children.

"And we owe them more. We owe them our own example. What we do and the lives they live with us will affect them most. Give them a chance to be useful in their childhood, to practice economy, to do for themselves. If the greatest man have usually been born in the country and later gone to the city, there is a reason. Huxley warns us not to let a child's schooling interfere with his education. It ought to have the best schooling our brains and our purses can procure. But its deepest education is in the hands of its parents."

Not Let Schooling Interfere With Education.

That was an apt saying of Huxley's when he advised not to let schooling interfere with education. Children are sent to school primarily in order that they may acquire the mechanics of education. There they acquire the means of securing an education. They learn to read and write, the primary mechanics necessary to those about to educate themselves. They learn the primary lesson in the art of reasoning through mathematical and literary studies. The aim of the schools is not to turn out a finished product, but a human machine ready to commence the arduous task of acquiring a real education.

Always Beware Of A Finishing School.

Beware of the finishing school. It is a delusion and a snare. The school that aims to complete a child's education is working contrary to the laws of the universe. If a girl's education ends at eighteen, she is not going to be worth much to the world. Education continues throughout life and the fuller the life, the more education is required.

There is an idea in some quarters that "getting an education" will make life easier. That is wrong. The idea of education is to increase the capacity for work and so that the work may be more effective. Education enables a person to get more out of life and we always get out of life what we put into it.

If there is to be a finishing school it should commence at the age of eighty, but to talk about finishing an education at the age of seventeen or eighteen is ridiculous. That is about where it really begins, for by that time the mechanics of education should be fairly well learned and the person is ready to proceed.

The Man in the Moon SAYS:-

HOME is a place where hash is above suspicion.

WHAT you do today is much more important than what you are are planning to do next week.

MANY people are sane simply because they have not enough money to be crazy like some of the geezers I know.

THE combination one likes to find in one person is beauty and brains, minus conceit.

MARRIAGES may be made in heaven but some of the honey-moons were manufactured down in Hell.

IT must be great to be a dog and not to have to wait until he gets in his kennel in order to scratch.

POLITICAL economy is one of the arts much talked about but never practiced by politicians.

A PLEASURE boat is one used in the summer.

WHEN a girl turns up the light, it is a sign that she is tired of waiting.

THEY say there has been a drop in the matrimonial market since two members of the family have had to have their hair cut.

THERE once was a high school girl who preferred preparing her lessons at home to going to the movies, but that was before the movies were invented.

MEN ARE MORE SHORT TEMPERED THAN WOMEN

Is it so, or is it not so? Some men naturally will dispute the statement, but these same men should recollect the times they have lost their tempers when they lit the fire in the morning and it went out, leaving them to do the whole thing over again.

Fortunately this trouble can easily be eliminated. Coal is being sold today which can be ignited from paper rolled into balls. A good fire is going in a few minutes and breakfast is ready in no time.

This coal is the famous Yainaimo-Wellington, sold only by Albert & McCaffery. Every pound of it double screened—no rock or shale, no slack and very little ash. It lasts longer, gives greater heat and better service. These are some of the reasons for so many repeat orders. Be one of the many wise people. Do as they do by ordering nothing but Yainaimo-Wellington coal. Prompt and civil service. Remember the phone numbers are 116 and 564.

Ten Years Ago in Prince Rupert

November 25, 1914.

Lieut. Frederick Mears of the Alaska Railroad Commission arrived this morning from Seattle to study the coal handling terminals at this port. He will also traverse a portion of the G.T.P. route in order to observe construction through the mountains before leaving for the east to present the report of the commission to President Wilson.

Esquimalt is said to be on the look-out for possible German raiding ships on the British Columbia coast. A Seattle report declares that the cruisers Scharnhorst and Gneissau may be expected off Cape Flattery.

G. N. Crowell, superintendent of the dry dock construction here, addressed the Board of Trade at its luncheon aboard the steamer Prince Rupert today.

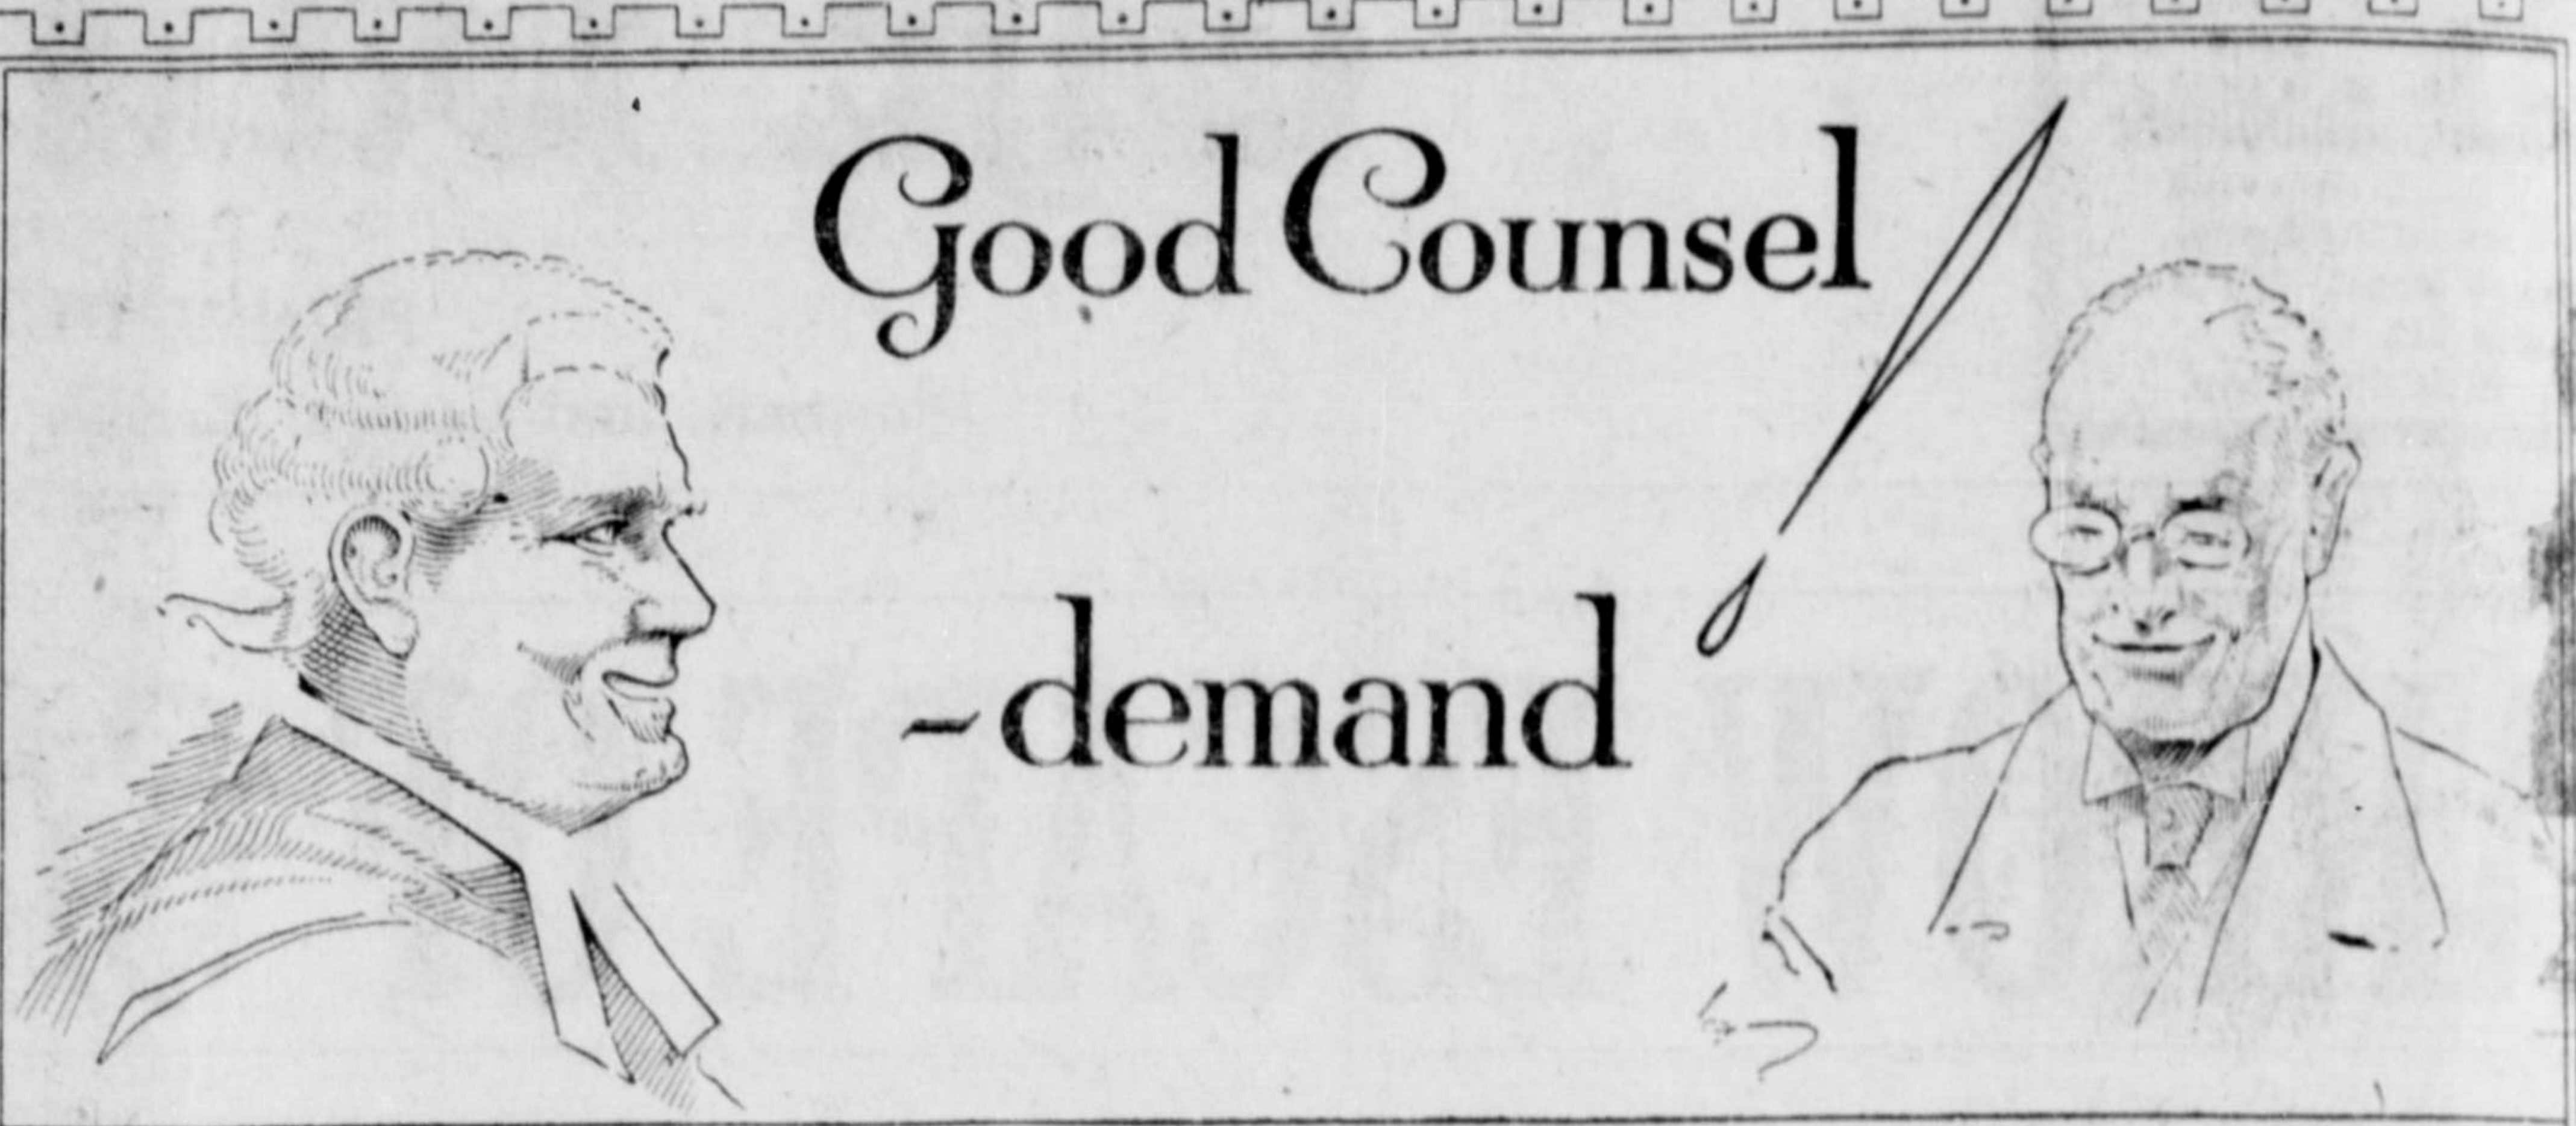

RESENTED IT

He was a somewhat poetic young fellow and she was "beautiful but dumb." They met at a party and he was prompt to express his admiration.

"Do you know," he told her, "you look like a bit of rare old tapestry?"

"Indeed! Well, you're not so snappy-looking yourself!" she angrily retorted.

In the Letter Box

SHIPWRECKED FISHERMEN

Editor Daily News, In your account of our shipwreck and the treatment we received at Massett, you neglected to say that we applied to Customs officer Martin, and were turned down cold. He would not even help us by taking our dory and compass for security. He is the same man that keeps the general store there. He told us plainly and bluntly that we could expect no help from him.

We then went to the Queen's Hotel and were told the same tale. We were tired and sore from our exertion and exposure and I tell you we felt pretty bad at the treatment we received, especially from the customs officer whose duty we thought it was to come to our aid in the circumstances. I do not think we should have got such hard treatment anywhere else in the world.

JOHN DAHL.

THANKSGIVING DAY

Editor Daily News, In a recent issue of the "News" the "Man in the Moon" was made to say: "Anyway it was a nice holiday, and that was what the day was intended for." That statement is what might fairly be called reasoning from a false premise to a false conclusion.

Now let us consider the real reason for which the day was and is instituted. Our first Thanksgiving Day was proclaimed on October 9, 1879, in these words:

The Proclamation "Whereas it hath pleased Almighty God, in His great goodness to vouchsafe to our Dominion of Canada the blessings of a bountiful and abundant harvest—We therefore, considering that these blessings enjoyed by our people throughout the said Dominion do call for a solemn and public acknowledgement, have thought fit, by and with the advice of our Privy Council for Canada to appoint Thursday, the sixth day of November next as a day of General Thanksgiving to Almighty God for the bountiful harvest with which Canada has been blessed this year—and we do invite all our loving subjects throughout Canada to observe the said day of General Thanksgiving."

As the proclamation this year was issued in the identical terms of the above we can safely conclude that the reason for the institution of the day was, and is, to give an opportunity to the people of Canada to publicly acknowledge God's goodness in a bountiful harvest. This being so your premise was wrong and your conclusion equally so.

JETTY NEEDED

Editor News, All the governments of Canada for years have made every effort to aid our basic industries—the farm, mine, forest and fishing; by opening up railways and roads, forest conservation, experimental farms and also improving the natural harbors.

We are all proud of the expansion of the fishing industry here since 1914; to our present position of the largest fishing port on the Pacific—but as far as it has gone the business has received little encouragement.

After eight years (in 1922) the city put in water at the Gow Bay anchorage and in 1923 the safe lighting of the locality was added.

The council deserves credit for these improvements, even after

Discovery for Eczema

One of the striking things about this healer is the way it penetrates the skin. Instantly applied it vanishes into the sick tissues. The relief in most cases is therapeutic. The formula is being published in order that physicians may know just what healing agents it contains—may, above all, note the presence of the rare ino—T. D. D. H. C. Have you weeping sores or hard crusts and scales—on your face or body—disfiguring blemishes—have you many times followed hopeful advice only to be disappointed? The product, a cleansing, purifying liquid, to be used in color, odor and texture, is the ideal treatment for the most sensitive skin.

D.D.D.

Give Astonishing Results**

Anyone who has suffered with Weak or Irritated Kidneys—with the accompanying miseries of pain in the back, splitting headaches, swollen hands and feet, rheumatism and constipation—ought to try the Fruit Treatment for their trouble.

To those who use intensified fruit juices—"Fruit-a-lives"—for the first time, it seems almost impossible that the juices of apples, oranges, figs and prunes combined with tonics, could relieve Kidney Trouble. But a short treatment of "Fruit-a-lives" gives quick relief and the regular use of these intensified fruit juices or "Fruit Liver Tablets" prove their marvellous virtues.

Get "Fruit-a-lives" today and begin the Fruit Treatment. At all dealers; 25c. and 50c. a box; or sent postpaid by Fruit-a-lives Limited, Ottawa, Ont.

**TICKETS GOING FAST
FOR THE BEAUTY SHOP**

Seats for "The Beauty Shop" being put on by a local troupe of sixty persons are being taken rapidly. The theatre is very nearly sold out for tomorrow although a few side seats are still to be had. Thursday is not as nearly cleaned up but for that day more than three parts of the house is booked and it is expected that directly the first night closes there will not be a seat left for the morrow.

Excellent reports are heard of the training of the performers who are doing wonders.

**GENERAL MEETING
OF REGIMENT WAS
HELD LAST NIGHT**

Arrangements Being Made for Social and Athletic Affairs—Discussion of Cross to be Discussed

A general meeting of the members of the First North B.C. Regiment was held in the barracks last night following parade. Col. J. W. Nichols presided. Plans were advanced for a whistle drive and dance that is to be held on Friday week, a boxing tournament to take place about the middle of December and the regimental ball, the date of which is set for January 18.

It was also decided to call a meeting of committees representing the Great War Veterans' Association, city council, ex-members of the 102nd regiment and the existing regiment itself to discuss ways and means of properly erecting the cross that arrived from France. It is felt by the regiment the cross, commemorating as it does men from Northern B.C. who died in the war, is the property of the citizens as a whole and should be disposed of in a manner suitable to their wishes. Two crosses arrived here but one was sent to Vancouver.

There was a good attendance at the meeting last night, some 40 members of the regiment being in attendance.

Do You Know?

THAT if you neglect the minor signs of stomach distress such as gas pains, sour burning stomach, bloating, belching and after-dinner misery, you are condemning your body to years of chronic stomach trouble. Do not wait until you are miserable. Get quick relief. Get quick relief. Get quick relief.

SMITH BLOCK.

T. J. Shenton, inspector of mines, returned on the Cardena this morning from a trip to Stewart.

The Whaler Gray, recently turned back to her owners, the Consolidated Whaling Co. by the C.G.M.M., is in dry dock at Esquimalt undergoing repairs to her propeller and tailshaft. It is now considered unlikely that the Gray will go to the west coast of Graham Island to pick up the salvagers ore from the wrecked motorship Kennecott as had been originally planned.

**SEX TEACHING
IN SCHOOLS**

Editorial Article in Vancouver Paper Deals With Subject (Vancouver Star)

The average boy of from fourteen to sixteen knows all there is to know about a motor car. If need be he could to all intents and purposes, take it to pieces and put it together again.

If he knew one quarter as much about the why and wherefore of his body and its different functions he would be able to guard against far greater dangers than an automobile is every likely to meet with. But he does not, nor does the average girl, and the result is too often disastrous.

That is why, here and elsewhere, the question of the teaching of sex-hygiene in the school is every now and again cropping up and receiving serious consideration. That is why the Vancouver School Board is just about to consider the advisability, or inadvisability, of introducing the subject into the schools. And that is why a company of leading citizens and medical men of this city foregathered at luncheon on Wednesday to hear the matter put before them by an expert.

With few exceptions it is realized that the matter is one demanding solution in a greater degree today than ever before, because the moral code is looser in the reaction that has followed the war than it has been for many years.

Convey Knowledge

The point is, how is such a subject to be taught in a manner that, while minimizing sex-consciousness, will convey the necessary knowledge? It must be taught by doctors and nurses and it must be taught, as Dr. Burnett so ably pointed out in his address, by a course commencing with the simplest forms of plant and flower life and working up through fish and bird life until, in the High School, the facts of life in relation to the sex functioning of mammals, including human beings, are reached.

This can only be taught if the sexes are segregated during the High School period.

The subject should never be known in the curriculum as sex-hygiene. Its teaching at the finish would be such a natural and logical result of what had gone before that it would, by that time, have ceased to excite the curiosity of the student. It would be looked upon as a matter of course—which is the correct angle from which to view it.

TAKE UP MOTORCYCLES

BERLIN, Nov. 21.—While the automobiles in Germany falls very far short of the per capita of population number registered in the United States, the motorcycle is popular and increasing numerically rapidly. The total doubled between 1921 and 1923. There are now more than 50,000 such machines of 2½ horse power, and 100,000 equipped with lower powered engines.

JAP ORANGES DUE FRIDAY

Will Open at 90c Per Box—Potato Price Will Soon be Going up and Now is Time to Buy

The first shipment of Jap oranges for the local retail market is due to arrive in Prince Rupert on the Union steamer Venture Thursday evening and this popular Christmas fruit will be offered for sale in the stores on Friday morning.

The potato market is going to be higher in the very near future and it would be well to lay in a supply against winter requirements right now.

Tea is Cheap... Tea is still cheap. As a matter of fact, the cost of a cup of tea or a whole year's tea for the average family is a long way below the point where it could be classified as being a luxury even now.

"I just stepped in to tell you," began the man at the complaint desk of the gas company, "that my gas stove blew up yesterday."

NO KICK COMING

"Oh, I'm not kicking," replied the customer, cheerfully, as he opened the door. "Only I thought, 'I'd tell you that your blamed old 'ol meter backfired at the same time, and I haven't been doing anything but pick up silver quarters all over the cellar ever since Good-day!'"

AN ALTERNATIVE

A negro named Sam had worked for his master for five years. His friend, Ben, said to him one day:

"Now, Sam, you have worked up there and make your employer rich. You ought to ask for more money. You just tell him: 'Look here, guv'nor, you pay me more money or else—'"

Sam tried his friend's advice next morning. He began: "Say, boss, you hab to gib me mo' money fo' dis job."

"Well, Sam, I'll see about it," was the reply.

"See about nothin'. You pay mo' or else—"

"Pay more or else, else what?" The employer's eyes flashed and his tone was sharp.

Sam's eyes blinked as he detected his master's anger, and in a soft voice he replied: "Else I wuck for de same money."

PROPOSAL TO LIGHT CITIES FROM MILL

Duncan and Ladysmith Talking of Buying Power from Chemainus

CHEMAINUS, Nov. 25.—There is a scheme afoot for the new mill now in course of erection here to supply electric current to the two cities of Ladysmith and Duncan, one seven miles distant and the other twelve. Under the suggested plan the cities would each build its own transmission line and buy the power in bulk metred at Chemainus. They would then have the option of selling power and light to farmers or others along the route of the power line.

The current would be generated by steam turbines, the fuel being the waste from the saw-mill. The scheme will have to be approved by the councils and rate-payers of each city before being adopted.

STEWART

The Hyder Chamber of Commerce has passed a resolution endorsing the movement to secure the construction of a transcontinental railway having its terminus at the head of Portland Canal. The resolution will be forwarded to railway officials and chambers of commerce at Edmonton, Minneapolis, St. Paul and Duluth.

James Nesbitt, pioneer mining man and locator of the Prince John group, has gone south to spend the winter.

School Inspector H. C. Fraser of Prince Rupert was a visitor here last week on departmental business.

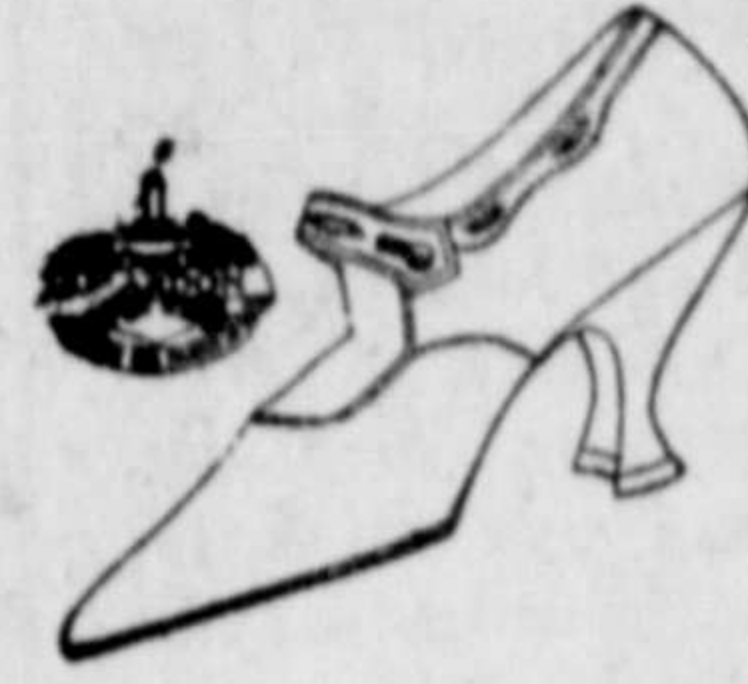

The new power house of the Public Utilities Ltd. to replace the one that was destroyed by fire recently is practically completed.

William Noble, liquor vendor, has gone on a three months' leave of absence and Will Janowski, assistant, has been appointed relieving vendor.

CONRAD STREET AND ELEVENTH AVENUE E. IS NOW TO BE PAVED

An initiative local improvement bylaw to authorize the construction of a 15 foot mattress pavement on Conrad street from Hays Cove Avenue to Eleventh Avenue

and thence along Eleventh Ave. to a point 481 feet east of the west boundary of Frederick Street was introduced and put through its first readings at last night's council meeting.

The construction bylaw for the paving of Ninth Avenue East from McBride Street to the intersection with Eighth Avenue was finally reconsidered and adopted.
