# JAPANESE BEFORE LEAGUE OF NATIONS

## FIERCE FIGHTING BETWEEN THE RIVAL CHINESE FORCES NEAR SHANGHAI

### Japan Makes Demands of League of Nations and Threatens to Hold up the Disarmament Conference

GENEVA, Sept. 29.—Grave international problems are believed to have been raised through the Japanese demands at the League of Nations discussions. The opinion is held that the whole question of racial equality has been thrown definitely before the world by the Japanese amendment which touched upon state sovereign rights. Japan, continuing to insist through the league for revision of international laws, it is felt has brought matters now deemed to belong exclusively to internal jurisdiction of a state into a subject of world concern demanding treatment on a broad basis of equity.

Two members of the Japanese delegation declared today that unless Japan obtained satisfaction in her demand for an amendment to the protocol she would be obliged to vote against the protocol. "If we do, this protocol will fail of adoption and consequently the international disarmament conference planned for next summer will not be held," they say.

### FISH PACKERS ARE ON STRIKE

Meetings Held With View to Settlement but so Far Without Result

A strike of fish packers at the Cold Storage plant took place Saturday.

On Friday night at about 7.30 the secretary of the Fish Packers' Union O.B.U. handed a letter to the management of the Cold Storage to the effect that they refused to work with certain of their fellows after 12 o'clock noon on Saturday.

A committee was received by the management on Saturday morning when it was learned that certain members of the Union had refused to pay their dues and had made derogatory remarks regarding the Union. There was no complaints regarding wages and conditions of labor between the Union and the Company.

The management contended that the notice given to cease work was altogether inadequate and contrary to the existing agreement, which called for thirty days notice and which was formed by an arbitration board composed of J. H. McMullin, Geo. Casey and S. P. McMorris in 1921.

The men took the stand that the existing agreement referred only to wages.

**Some Returned**

About forty-five of the fish workers did not return to work on Saturday afternoon but the remainder did so.

Another meeting was held this morning, Monday, when the management suggested that the dispute appeared to be an internal Union dispute only, and it was not fair to bring the company into the question at all. They then suggested that the men return to work and give thirty days notice in writing for the investigation into the dispute and that the matter be submitted to arbitration.

In view of the existing agreement between the company and the fish packers and considering the excellent goodwill which has always existed between the parties it is hoped that this matter will be adjusted along the lines suggested.

### SIX MONTHS FOR KELLY

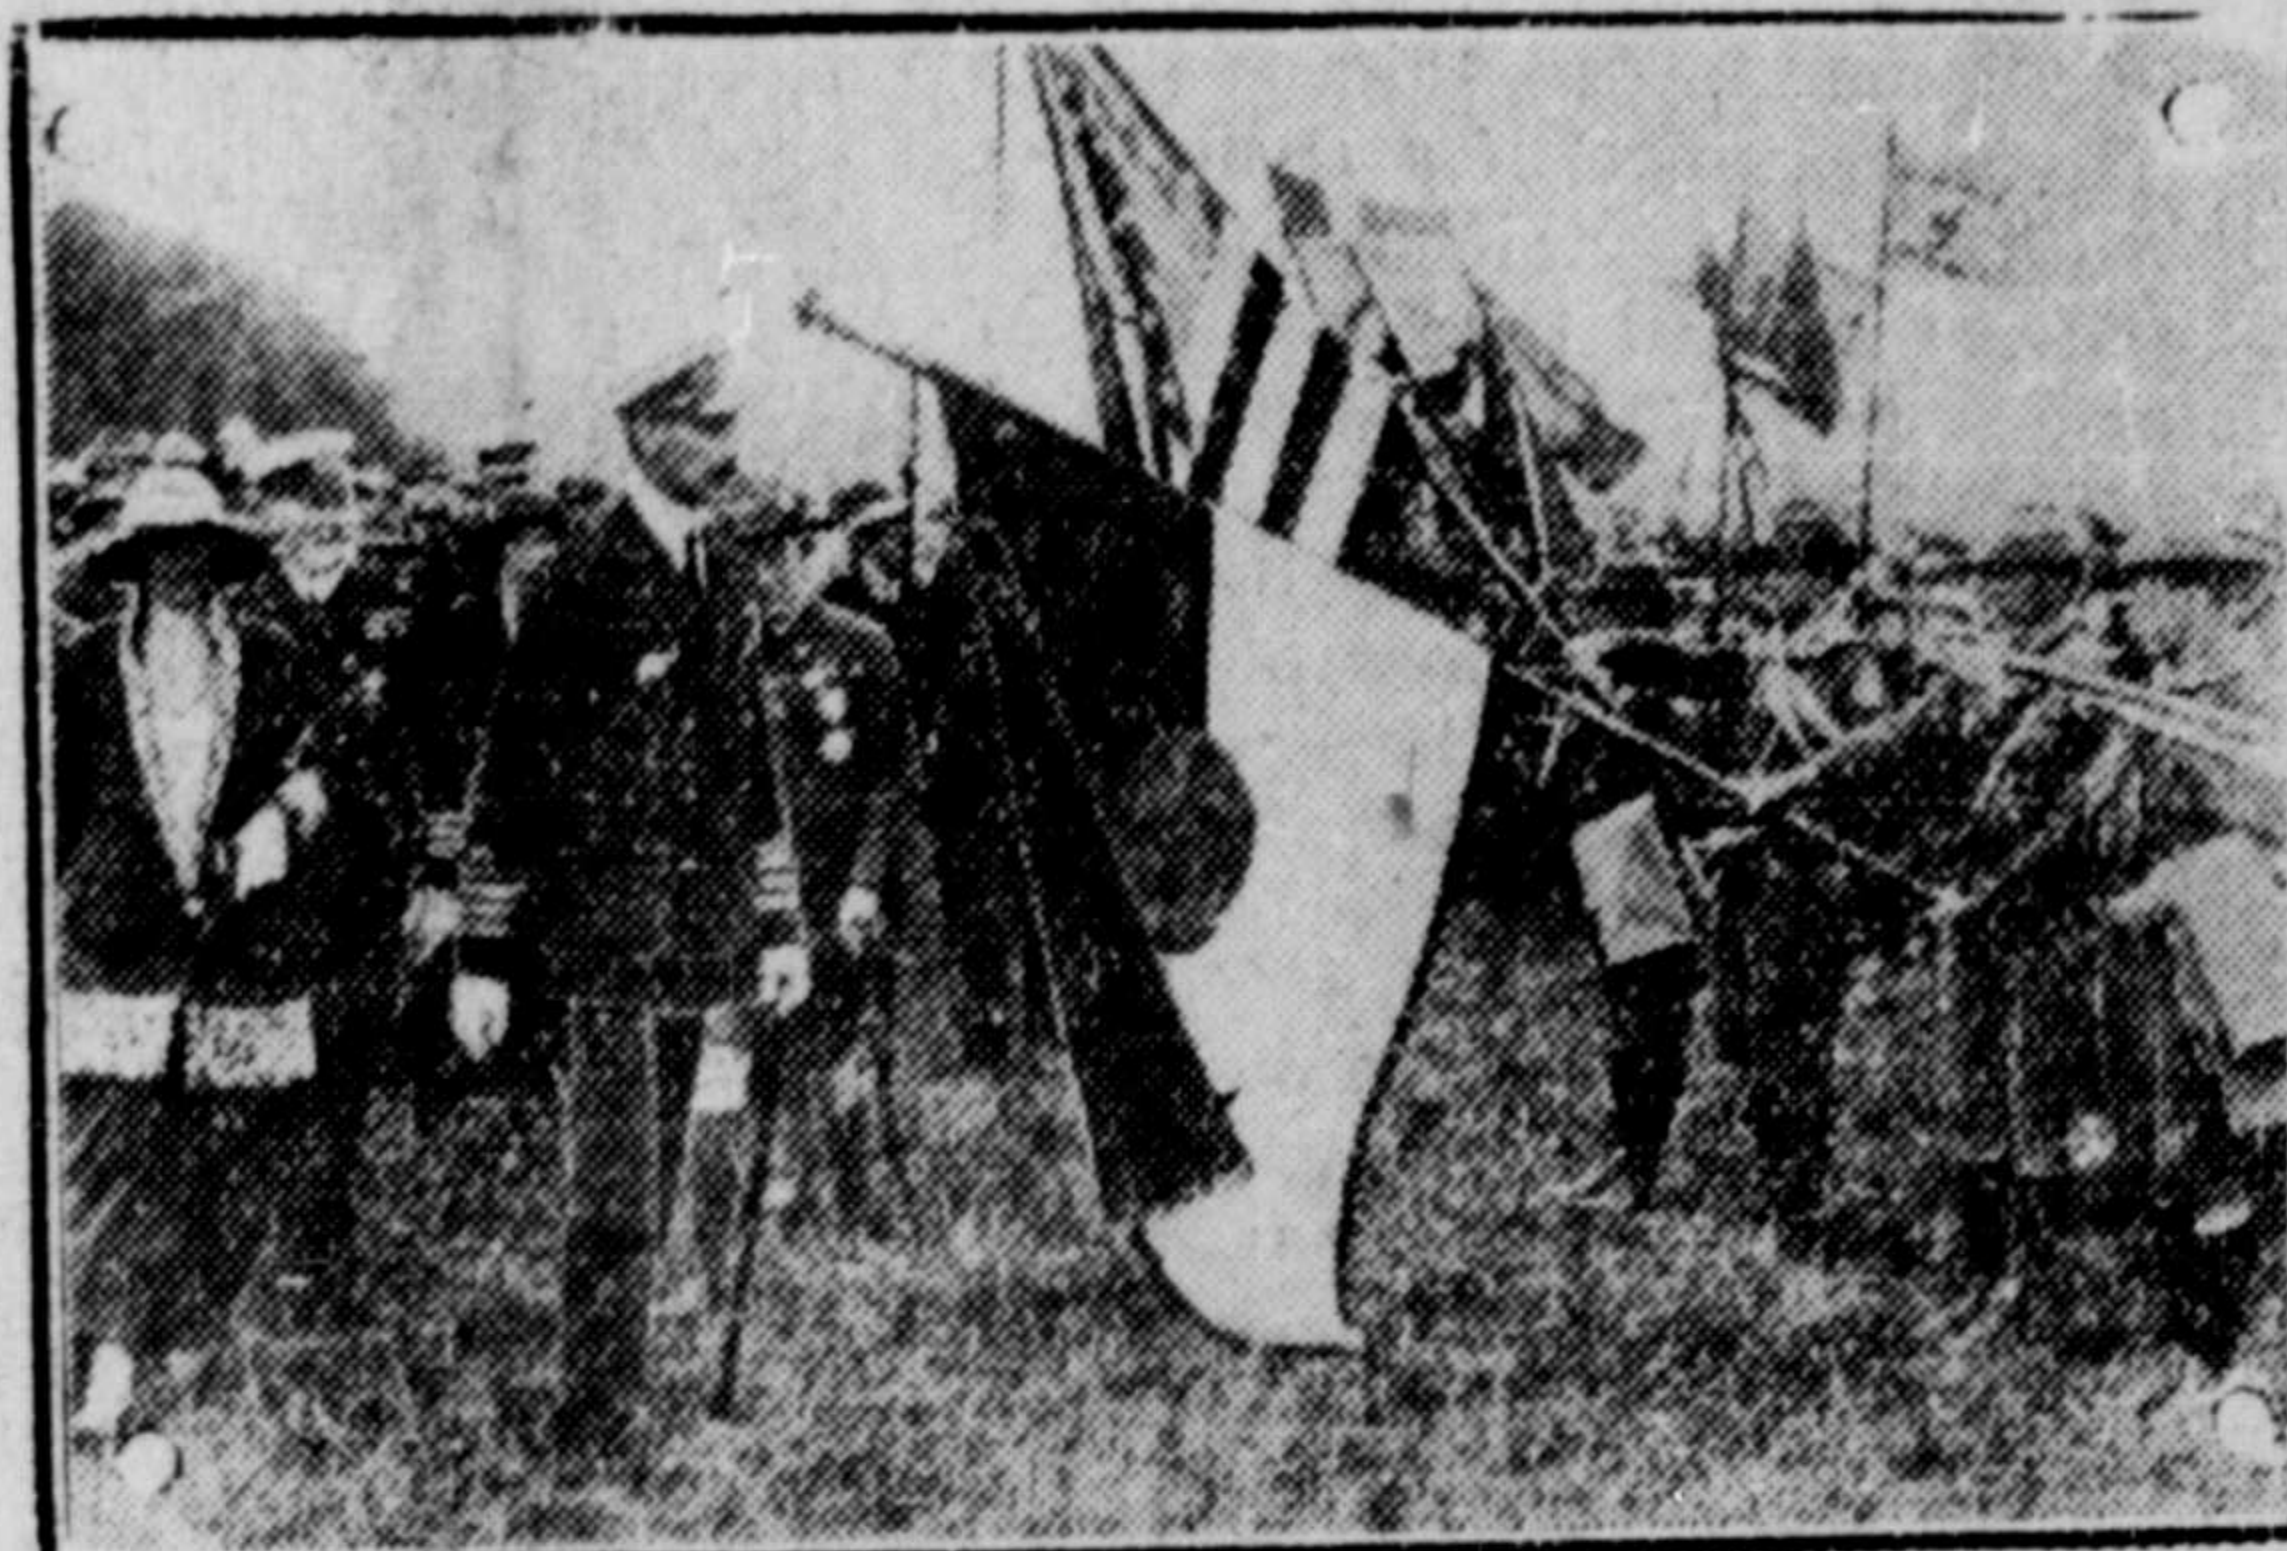

Smithers Apartment Keeper is Out on Bail Following Notice of Appeal

SMITHERS, Sept. 29.—Joseph Kelly, proprietor of the Seymour Apartments, who was charged by the provincial police with keeping liquor for sale, and remanded on first appearance before Magistrate Hoskins, again appeared in court on Sept. 26, and after a long legal battle was sentenced to six months' imprisonment.

L. S. McGill, for the defence, immediately lodged notice of appeal, and applied for the accused's freedom on bail which was granted in his own recognizance of \$1,500 and two sureties of \$750 each.

W. S. Henry and F. Conway are his bondsmen.

The Canadian halibut schooner Marguerite, Capt. J. P. Reid, is being taken up on the dry dock this afternoon for renewal of planks and a general overhaul.

A fine spectacle was presented when the Boy Scouts, representing nearly every nation in the world at the great jamboree at Copenhagen, Denmark, saluted the king and queen of that country during a review.

### Horrors Attend Battle Near Shanghai Renewed With Intensity Today

SHANGHAI, Sept. 29.—Hundreds of Chinese soldiers were killed and many others were wounded this morning on a six-mile front when armies of the rival military governors fighting for possession of Shanghai continued hostilities with impetuous intensity. The lines on both sides were being drenched with shrapnel. Relief stations were filled with wounded and the dead were left where they fell. This practice has resulted in odors extending over the whole battle area.

Troops defending Shanghai are reported to have forced the attackers back six miles.

### FOREST SEED FROM GRAHAM ISLAND TO BE SENT OVERSEAS

As a result of an offer made by James Martin of Massett to supply 5,000 sacks of seed cones, it is likely that the seed extraction plant at New Westminster operated by the forestry department may be put in commission again. The Imperial forestry department has been insistently asking this year for a quantity of seed but it had been feared that it would be impossible to fill the order on account of no cones being available. It is now expected that Sitka spruce seed at least may be obtained to fill the order. The difficulty with getting seeds from the Islands in the past has been the expense involved in collecting them.

R. Dolman, an officer of the Dominion forestry service, is now on his way from Ottawa to Prince Rupert and will proceed to Massett to interview Mr. Martin.

### CAPT. JOHN BUTLER DIES AT VICTORIA

VICTORIA, Sept. 29.—Captain John W. Butler, 55 years of age, a widely known resident of the coast for the past 35 years, died Saturday after an illness of a year and a half. He was a native of Conception Bay, Newfoundland.

### FREIGHTER SANK

SAVANNAH, Sept. 29.—The British freighter Santa Theresa with a cargo of sugar sank near here and her crew were rescued.

### Four World's Records Broken by United States Army Airmen Who Completed World Flight Sunday

SEATTLE, Sept. 29.—Four world's records were shattered yesterday when three United States Army planes, piloted by Lieut. Smith, Nelson and Wade completed a 27,000 mile globe-encircling flight here at Sand Point Aviation Field after igniting their way through Canadian blizzards, treacherous Alaskan gales, the torrid heat of India, heavy English fogs, and the ice-beg chilled climate of Iceland and Greenland.

### IS BACK FROM OLD COUNTRY

J. G. Scott Returned Home Last Night After an Absence of Four Months

J. G. Scott returned to the city on yesterday afternoon's train after having spent the past four months on a trip to the Old Country. His tour, of course, included a visit to the Empire Exhibition at Wembley. W. F. Leak, who accompanied Mr. Scott on his trip, stopped off at Edson.

Paying a visit to his birthplace in Ulster, Ireland, not far from the Free State boundary line, Mr. Scott found conditions apparently quiet and peaceful. "There seems to be more noise outside Ireland about troubles there, than right on the spot," says Mr. Scott. "Perhaps, of course, they have become so used to it that they don't talk about it." It was Mr. Scott's first visit to the Old Country since he left there as a boy of seven years of age.

Being particularly interested in matters of antiquity, Mr. Scott visited the ruins of old Abbeys and other historic places in the Old Country. At the British Museum he spent many interesting hours and also found the art galleries of England and France places of much attraction.

Mr. Scott visited England, Ireland, Scotland and France and was also at the battlefields of the Great War.

### PASTOR OF BAPTIST CHURCH IS LEAVING

Rev. J. J. Smithson is Going to Manitoba—Will be Succeeded by Rev. D. G. McDonald

Before a crowded congregation, Rev. J. J. Smithson last night preached his farewell sermon in the local Baptist Church. Mr. Smithson leaves this week to take over a church in Manitoba between Winnipeg and Brandon and at the same time take a theological course at Brandon College. Mrs. Smithson and family will follow later. Mr. Smithson came here 22 months ago from Vancouver and his departure will be regretted greatly by his congregation.

Mr. Smithson will be succeeded here by Rev. D. G. McDonald of Vancouver, president of the Baptist convention of British Columbia. Mr. McDonald will arrive in the city next Saturday night.

### FREIGHTER CLIFTON WRECK IS CONFIRMED

CLEVELAND, Sept. 29.—The loss of the whaleback freighter Clifton with a crew of 28 is confirmed by the finding in Lake Huron of a hatch cover and the forward end pilot house.

The first world's record was shattered when the Americans crossed the Pacific Ocean from Adak Island, the most westerly island of the Aleutian group, to Paramashiru Island in the Kuriles, Japan. This 900-mile stretch was the longest jump of the entire trip. It was made in 12 hours and five minutes of flying time, the aviators resting a night in the lee of the Komandorski Islands during a blizzard en route.

America's second title came when the flyers crossed a 500-mile stretch over the China Sea from Kagoshima, Japan, to Shanghai, China. This was the first time the China Sea had been crossed by air.

The third honor was the completion of the around-the-world flight, a feat never before achieved by man in heavier-than-air machines.

Hastily, the intrepid Magellans of the air theoretically set a speed work for travelling around the globe. The entire 27,000 mile trip was made in approximately 366.71 hours of actual flying, although the expedition was on the trip 175 days after leaving Seattle. When the birdmen reached Constantinople, Turkey, they had covered 16,180 miles in 225 hours of flying, or an average of 76.36 miles an hour.

**The Actual Time**

If the aviators were equipped with machines that could stand 24 hours a day flying for the world trip at the average of 76.36 miles an hour they would have finished the journey in approximately 45 days and six hours.

By encircling the globe in the flying time of a little over 15 days the United States Army flyers shattered the notable feat of John H. Mears, who, in 1913, went around the world by ship, train and other modes of travel in 35 days, 21 hours, 36 minutes.

Fast trips around the globe include one made by Nellie Bly, a reporter, in 1889, shortly after Jules Verne published his famous book, "Around the World in Eighty Days."

(Continued on page five)

### NINETEEN YEAR OLD LAD WAS DROWNED AT VANCOUVER YESTERDAY

VANCOUVER, Sept. 29.—Edward Forbes, 19 years of age, was drowned last evening when he fell overboard from a gasolene launch in which he was returning with six companions from a pleasure trip to Bowen Island. The body has not been recovered.

### FORMER POLICEMAN AT VICTORIA PASSES AWAY

VICTORIA, Sept. 29.—Harry H. Macdonald, 44 years of age, for sixteen years prior to 1921 a member of the Victoria police detective department, died Saturday after a two months illness.

Legislative Library, Parliament Buildings, Mar. 31/24

### SILVERADO MINES LTD. IS NEW CORPORATION

The Silverado Mines Ltd. has been incorporated with a capital of half a million dollars and with head office at Victoria. The new company is formed to take over the Silverado Mine at Stewart operated recently by Major Anderson and discovered by John Hayti, usually known as John the Finn, and which has been shut down for some time. It is quite near the Stewart townsite. A quantity of high grade ore was shipped from it by Major Anderson.

Importance Of Radio In Scattered District.

In the scattered districts of this north country radio may be made to play a most important part. The list of licenses taken out locally gives some idea of the number of places represented, but it is said that a good many have Dominion licenses obtained at Ottawa and they are not obtainable locally. Every day sees sets being installed and many are getting splendid results.

Clam Cannery Is Latest Industry.

We are always glad to tell about the establishment of a new industry in Prince Rupert. The Miller cannery is the latest. It has just commenced operations and it is announced that it will pack clams throughout the winter.

There is a wide scope for a cannery here that will put up clams and crabs as well as handling salmon and other kinds of fish. The time is coming when salmon and halibut will not hold the predominant position it does today. Then people will devote themselves more to the other varieties.

Accidental Shooting Is Common Occurrence.

Prince Rupert has so far been free this year from fatal accidents as a result of the careless handling of firearms, but the season is not over and the large number of accidents at other places draws attention to the danger. The warning cannot be too often given. Firearms are not meant to be played with and when handling them it is well to always have in mind the danger of their going off at the wrong time or when pointed in the wrong direction.

Fight Going On Among Conservatives.

Among Conservatives in the East there is a fight going on over the leadership of the federal party. Hon. Arthur Meighen is the present leader and as such has the whip hand for the present. There is, however, a strong movement afoot to unseat him and put someone in his place that would be more popular and who would be more likely to win the next election. It is argued that the present leader is not sufficiently human in his instincts or in other words is not a good mixer. He also does not appeal to the Quebec Conservatives, which is a fatal defect as it is from Quebec that the party should look for support in future.

Those who are trying to analyze the situation say that Premier Mackenzie King will find it increasingly difficult to keep Quebec lined up and at the same time cater to the Progressive element on the western prairies. He is a clever statesman and handles the situation well, but there is doubt always when opposing elements are united under one flag. The break in the Conservative ranks makes his work easier.

Whether Mr. Meighen will be able to sit tight and still lead the party is not known, but the general opinion is that he has the position on ice and cannot be moved by the element at present working against him.

Railway Rates Are Much Discussed.

It may be laid down as one of the first axioms that the railway rates must be sufficiently high to make the business pay if well managed. The next point of view is that the railway is a public service and must be administered so as to cater to the needs of the community.

When rates have been laid down it is difficult to make changes that seem to be needed. When a large section of the country such as the province of Alberta is trying to get a cheap rate for coal to Ontario to enable it to supply that province with fuel and is demanding that the rate be set at lower than cost, it is seen how difficult is the business. Here we are asking that rates on grain from prairie points to the Pacific coast be made equal for similar distances as from the prairies eastward. At present the rate east is lower than west. This seems to us to be unfair and we shall keep on urging a change until such time as it is obtained. We are asking for no favors but only for equitable treatment.

L. F. Champion of the Granby store passed through on the Cardena yesterday afternoon bound from Vancouver to Anyox.

THE GIRL I LOVED IS SEEN AT MOVIES

Famous Play Shown in Picture Tonight at Westholme Theatre

In "The Girl I Loved" at the Westholme tonight, Mr. Ray portrays a lover impelled by an ardor that amounts to fierceness. The appearance of a rival in his path creates situations that compose one of the most powerful dramas ever filmed, with highly exciting incidents when the two suitors for the hand of a beautiful girl confront one another. To many the acting of Mr. Ray in this triangular conflict will unfold unsuspected powers.

The picture takes on added zest from the fact that it is the personal experience in love of the beloved poet James Whitcomb Riley. The production is based on his poem of the same title which is omitted from many of his compiled works. Tradition has it that when it became known that Riley had written of his own romance, the sensitive poet withdrew it from circulation as far as he could do so.

Events to which Riley only referred have been given graphic and vivid reality for the eye in the Ray version, demonstrating anew the superior power of the screen over the printed page. But while "The Girl I Loved" is a "triangle" play it is clean, as all Ray pictures are, and it is gay and bright as well as powerfully dramatic.

The events take place in rural Indiana of 1840-60, and the life of the happy, care-free Americans of that period, now highly picturesque because time has so swiftly changed the complexion of our national habits, forms one of the most engaging features of the picture.

MARION DAVIES TOOK LASHES IN THE PLAY TO BE SHOWN AT WEEK END

Little Old New York has Spectacular Scenes One of Which is Whipping Post

One of the most spectacular scenes ever filmed in motion pictures is the big mob scene in "Little Old New York" starring Marion Davies, which opens here Friday.

Miss Davies, swung on the shoulder of big Louis Wolheim, is rushed through a mob of a thousand howling men to the whipping post to receive the punishment which the crowd demands because she rang the fire-bell and stopped the prizefight.

The scene occurs in the streets surrounding Bowling Green and the Battery of New York as they appeared a century ago. Over sixty thousand feet of floor space was covered by the pounding feet of the mob and forty-five immense spotlights are lights shined down a brilliance which rivaled the sun and made it appear as though it were really out doors. Director Sidney Oleott and his assistant, Saul Harrison, shouted themselves hoarse directing the great mob which followed Wolheim down the streets. The slender little figure of Miss Davies, perched on the shoulder of Wolheim as she is hurried to her doom is silhouetted against the sky above the heads of the crowds.

Cranked Madly Cameramen cranked madly as the mob swirled around the platform upon which the whipping post was stationed. The cruel, avenging faces of the mob; the huge, brutal appearance of Wolheim is contrasted with the fair, fragile delicacy of Miss Davies as she is lashed to the whipping post—all combine to make the scene a most thrilling one. Refusing to employ a "double," Miss Davies insisted on taking the lashes inflicted by the cruel

whip herself. The star insisted it would make the picture much better if she took the lashing herself. As a result her beautiful shoulders which have been painted by some of the most famous artists in the land, still bear the marks of the cruel blacksnake whip. Although Wolheim tried to lay on the lashes as lightly as he could and still register the proper effect it was impossible to spare the dainty little star entirely.

The Man in the Moon SAYS--

"WANDERING Daughters" ought to have a wide appeal here. There are so many of them.

IF Noah were to step out of the ark into this country about all he would recognize would be the jokes.

THERE are said to be still a few people who play mah jongh but not in Prince Rupert. People here would not be so old fashioned.

THE difference between a cultured and an uncultured person is that while one perspires the other sweats.

WHEN money talks there is a long deep expectant silence.

IT ought to be just as easy to carry on a government with a small majority as with a large one. If the members of the controlling group want more there are not as many of them.

IF you get tired of the movie show try the city council.

ONE way to get a head is to drink a lot of bootleg over night.

NOW that they find what kind of a class they have to teach, some of them are wondering whether it would not have been better to have accepted the poor boot.

I TOOK the advice of some of my friends one day and set out to make hay while the sun shines. Then I got hay fever.

CLAMS are getting canned here. Well, they ought to be.

IF seems a long, long wait to November tenth before I can give thanks. I suppose I shall have to wait, though.

TALKING about radio reminds me that a lot of people broadcast from station B.U.N.K.

Advertise in the Daily News.

Ten Years Ago in Prince Rupert

September 29, 1914.

For two weeks a tremendous artillery duel has been in progress on the western front between the Germans and the Allies. Neither side has gained any ground.

There was a hot discussion in the city council last night on the point of whether or not the city market should pay a license. It was finally decided that none would be imposed.

Two British Columbia lacrosse teams have been invited to play at the Panama-Pacific Exposition at San Francisco next year.

SMITHERS

E. Davis, chief engineer of the Water Rights Branch of the Department of Lands, Victoria, is on an official visit in connection with disputed application for water rights, chief of which is the application of the Corporation of the Village of Smithers for water rights for town purposes, but which is objected to by farmers in the district through whose land the water flows.

An interesting visitor to Smithers during the present week, and one who was impressed by the scenery of the Bulkley Valley, was Rev. J. Bate, secretary of the Colonial and Continental Church Missionary Society, of London, England, who is touring Canada in the interests of his society, inspecting Missionary Dioceses which have been established in Canada. While here he was the guest of the Rev. R. E. W. and Mrs. Biddell, at the St. James Anglican Parsonage.

During the current week the W. S. Henry Realty Exchange reported the sale to C. Wilson, of Lake Kathleen, of 498 acres on the west side of the lake, and comprising the foreshore back of the railway station at that point.

Chas. Kelly has purchased a lot in Block 57, on Alfred Street, immediately west of Main Street and will move his butcher store from its present location at the corner of Main and Broadway to his new holding.

Mr. and Mrs. D. McDougall, and Mr. and Mrs. J. P. Dowling, have returned from Winnipeg to again make their homes here. Both gentlemen are trainmen on the Canadian National Railways.

Mrs. Maxwell, of Houston, B.C.

THOMAS PRIEST HAS BEST GARDEN AGAIN Becomes Permanent Possessor of Collart Cup—Judging Was Done at End of Week The Collart Cup, presented last year by Ald. Theo. Collart to the Fair Board to be awarded to the owner of the best all-round garden in Prince Rupert, has been won outright by Thomas Priest, Graham Avenue. Mr. Priest won the cup for the first time last year and now becomes permanent possessor of it, his garden having this year been adjudged the best in the city. The judging was done at the end of last week by R. M. Winslow and E. Van Gastel. There were seven entries in the competition and the garden of W. J. Kirkpatrick, 455 Fifth Avenue West, was adjudged second best.

A. J. T. Taylor, well known in the north as the former president of the Taylor Engineering Co., is on a visit to Sweden as a member of an Anglo-Japanese commission appointed in London to investigate new electrical, heating and power developments in the Scandinavian peninsula. Other members of the commission are a Swedish inventor and a Japanese college professor.

Union steamer Gardena, Capt. A. E. Dickson, arrived from Vancouver at 4 o'clock yesterday afternoon and sailed at 8 for Anyox, Stewart and Alice Arm. Included in the vessel's passenger list were the following: for Prince Rupert—H. F. Dunning, N. Murchie and J. F. Davidson; for Stewart—B. Gross, F. Duclou, M. T. Sabovich, A. St. Claire Brindle, W. Dann and A. B. Trites; for Maple Bay—P. J. Cook; for Alice Arm, Frank Clark; for Anyox—L. E. Champion and Mrs. Jones; round trip—Dr. and Mrs. May and Mrs. McIntosh.

**IRISH TROUBLE MAY BE SETTLED**

LONDON, Sept. 29. — As the time approaches for parliament to reassemble to deal with the Irish boundary dispute, powerful influences appear to be at work in northern and southern Ireland and in England to bring about a settlement of the controversy by mutual consent of the two Irish communities.

**UNIQUE HONEYMOON SMITHERS COUPLE**

Miss Emma Catherine Loveless Becomes Bride of Stuart Fleming Campbell. Leave for Mountains.

(Special to Daily News) SMITHERS, Sept. 29. — The Manse of the Union Church, Smithers, was the scene of a quiet wedding, on Thursday, Sept. 25 when at the hour of 6:00 a.m., with the Rev. M. W. Lees officiating, Emma Catherine Loveless, daughter of Mr. and Mrs. G. Loveless of Smithers, became the bride of Stuart Fleming Campbell, also of Smithers. Mrs. M. W. Lees and A. Dickson witnessed the ceremony.

Mr. and Mrs. Campbell dispensed with the conventional mode of honeymooning—that of travelling to distant fields by train or steamer, but immediately after the ceremony mounted their ponies and started off for a secret rendezvous in the Hudson Bay Mountain, a rendezvous known only to the happy bridegroom who had previously made full provision for the venture. They will return to town in a week, taking up residence on Main Street.

Both Mr. and Mrs. Campbell are well known. Mr. Campbell has carried on the business of general storekeeper here for the past two years.

Ex-Ald. John Currie sailed on the Prince Rupert Saturday night for Vancouver on a business trip.

**HARVEST FESTIVAL SERVICES SUNDAY**

Salvation Army Citadel Tastefully Decorated—Goods to be Auctioned This Evening

There were special Harvest Festival services at the Salvation Army barracks yesterday in the morning, afternoon and evening. All were well attended. Capt. Rea presided and among those contributing to the programs were Lieut. Gardner with a vocal solo and Sister Mumford with pianoforte solos. Members of the congregation gave addresses.

The hall was tastefully decorated for the occasion. A miniature church and cottage recalled pioneer memories and on tables under the large evergreen arch were displayed the many gifts of fruit, vegetables and donations of goods from the various storekeepers of the city. There was a special table for decorated baskets of fruit or candies given by the Juniors of the local corps. These were judged this morning and prizes will be awarded tonight when the auction of goods will take place. The prize winners were: First, Edith Leek, \$3 cash. Murray Rea, \$1.50 cash. Third, Adelaide Piper, box of chocolates. An additional prize will be given to the basket getting the highest price at the auction tonight.

**DETECT REEFS BY WATER TELEPHONY**

Dr. Boyle of Alberta University Has Been Successful With Experiments

EDMONTON, Sept. 29. — (Canadian Press)—Successful experiments off the Atlantic coast during the summer months for the detection of icebergs, hidden reef and nearby ships, as well as in the development of deep water telegraphy and telephony have been conducted by Dr. Robert W. Boyle, professor of Physics at the University of Alberta who has returned to the city from the east. Dr. Boyle was accompanied by Charles Reid, a former student at the university, who will continue his work at Harvard. The experiments have been in progress since the middle of April last and were conducted on the ice breaker Montcalm. The scene of the operations was off the coasts of Labrador, Newfoundland, Cape Breton and the Straits of Belle Isle.

A measure of secrecy attached to the nautical research work of Dr. Boyle which has been carried on for several years and which is a continuation of that done by him during the Great War, but the Alberta physicist just the other day indicated in a general way what had been accomplished.

**5 DAY SALE OF**  
**MISSES and Ladies' Coats**  
at  
**BENT'S**

### THAT DREADFUL CHILD

The little son of the house was very quiet during the first part of the dinner, and every one forgot that he was there.  
As dessert was being served the host told a story. When he had finished, and laughter had ceased, his little son explained gleefully:  
"Now, father, tell the other one."—Yorkshire Post.

### NEW YORK WINS THE NATIONAL

Pennant Goes to Same Team for Four Consecutive Years, Making Record

New York is the winner of the National League pennant and thus has the honor for the fourth consecutive time of playing in the final world series, Saturday that team won against Philadelphia, thus making its position sure. The winning four consecutive times constitutes a record. The week end results were as follows:

#### Saturday Games

Philadelphia 1, New York 5.  
Boston 3, Brooklyn 2.  
Chicago 2, Pittsburgh 3.  
St. Louis 1, Cincinnati 10.

#### American League

New York 3, Philadelphia 4.  
St. Louis 1, Cleveland 12.  
Washington 7, Boston 5.  
Detroit 10, Chicago 8.

#### Sunday Games

Pittsburgh 2, Chicago 7.  
Boston 1, Brooklyn 5.  
Philadelphia 11, New York 6.  
Cincinnati 3-8, St. Louis 9-2.

#### American League

Detroit 10, Chicago 10, ten innings, game replayed.  
St. Louis-Cleveland, rain.  
Monday two games scheduled.

### PARISIAN BASKETBALL TEAM COULDN'T SHOOT

EDMONTON, Sept. 29.—When the Edmonton Commercial Grads came back from their victories in basketball abroad, they slipped back at once into the local business life. One of the champions took time however, to give some of her views on the trip: "In Strassburg, when they won the European title they came up against the best team of any. The general feeling among the Grads was that the Parisian teams didn't know how to shoot, and while, as Eleanor Mountfield, explained, the girls were all wonderful athletes, they had no organization and had not specialized in anything. "You should have seen the French referee in the game. He couldn't speak English and every time he had fouled one of us he explained by acting what had happened. He went to call a foul on me for pushing and went over and nearly knocked the girl over trying to explain to me."

Pete Nornan, charged with intoxication, failed to put in an appearance at the city police court this morning and his bail of \$25 was estreated.

### Sport Chat

About the only thing that seems to worry Doug Frizzell, as he goes around with his arm in a sling following the accidental explosion of his gun up the line last week, is that the losing of half his thumb may interfere with future baseball and basketball playing. During the past two or three seasons, Doug has been an active athlete and his friends hope with him that his present fears will come to naught.

Whist players are now looking forward to the resumption of activities of the Fraternal Whist League. It is expected that the competitions for the Dybhavn and Newton cups will be just as keen this winter as ever before and that there will be as many teams—men's and women's—in the running as in past seasons. A meeting is called to take place in the Mayor's office on Saturday to reorganize the league and make plans for the season.

Billiard balls will be set rolling at the general meeting of the Prince Rupert Billiard League which is called for this evening. Officers will be elected

and general plans made for what promises to be a very active season. The organization of an intermediate league is to be proposed at the meeting in addition to the Senior League. There are a large number of players and fans awaiting the opening of the competition for the Bulger & Cameron Cup emblematic of city billiard team championship.

### BASKETBALL GIRLS HAD SUNDAY HIKE

Miss Mills and Party Made Round Trip on Ties from Port Edward to North Pacific and Back

Miss S. A. Mills, principal of Borden Street school, and the members of the Maple Leaf basketball team, had a ten mile hike yesterday from Port Edward to North Pacific Cannery and back. The party left early in the morning on M. M. Stephens' gas boat "Vera S. Frye" and disembarked at Port Edward. Then they took to the hills for the hike. Returning to Port Edward, they boarded the train and rode home. An interesting feature of the trip was a visit to Inverness cannery where the girls saw the operation of coho canning, being conducted through the plant by manager

R. G. Johnstone. Besides Miss Mills, the party consisted of Miss Louie Fisher, Miss Margaret Graham, Miss Myra Harvey, Miss Laura Stephens, Miss Aileen Stephens and Miss Dorothy Macdonald. Mr. Stephens and Elgood went hunting from Port Edward.

### BOB CAMERON WON SPOON YESTERDAY

Big Shoot of Season of North B.C. Regiment Rifle Association Takes Place Next Sunday

R. W. Cameron was the winner of the spoon for the day at the shoot of the North B.C. Regiment Rifle Association at the McNicholl Creek range yesterday afternoon.

The scores were as follows:  
200 500 600 Ttl.  
H. Floyd ..... 27 32 30 89  
R. W. Cameron 30 25 24 79  
W. Harrobin ..... 30 30 17 77  
M. M. Lamb ..... 27 30 17 74  
C. McKeown ..... 25 27 20 72  
R. Wilson ..... 26 25 20 71  
W. Brass ..... 23 16 28 67  
W. M. Brown ..... 22 15 28 67  
A. Squire ..... 15 18 15 48  
S. B. Jones ..... 17 17 13 47

The big prize shoot of the season will take place next Sunday when gold, silver and bronze medals as well as a turkey will be up for competition.

### MOUNTAIN CLIMBING SEASON IS NOW ON

Two Parties Scaled Mount Morse During the Past Few Days: Ladies at Top Yesterday

The hiking season seems to be on. At the week end a local party went to the top of Mount Morse and yesterday a party consisting of four ladies and three men scrambled to the topmost point.  
For the average climber it is an all day jaunt to the top of the mountain. The party yesterday left the Prince Rupert cannery at half past nine and reached the summit at half past one, keeping to the right of the stream all the way up. Each one carried lunch and a kettle was taken along to make coffee, a supply of good water being found right at the summit. After an hour and a half spent boiling the kettle, eating lunch and enjoying the wonderful outlook the return was accomplished in a leisurely manner, the cannery being reached about half past five.

### DID HIS BEST

"No, Reginald," averred the girl, "your blossoms made no great hit with me."  
"I was merely trying to say it with flowers, as we are constantly advised to do by astute commercial men."  
"You sent only daisies."  
"Well, daisies mean 'I love you.'"  
"That's all right, but Tom sent orchids. Orchids mean 'I went broke for you.'"  
Team Work.

### THAT WAS THE PLAN

Judge—I'm surprised at your going to law over a pig. Why don't you settle it out of court?"  
"We was going to settle it out of court, yer honor, only a cop come and pulled us apart." — Team Work.

GOOD NEWS FOR BUYERS OF COAL

Some fifty years ago a remarkable coal was discovered on Vancouver Island. This coal caused a sensation at the time and quickly established a reputation for greatest heat, very little ash, no clinker or rock. It was called Wellington coal. Many other mines have since been opened on the island and the name "Wellington" has been given to them. But the public should not be confused. "Nanaimo-Wellington" coal has the reputation of being the best domestic or steam coal mined on Vancouver Island. The mine has an output of 3,000 tons per day which is surely satisfactory evidence as to its quality. The public is cautioned against substitution and in order to make sure that they get the real "Nanaimo-Wellington" coal they should order direct from Albert & McCaffery, Ltd. who are sole agents for this coal in Prince Rupert. Their phone numbers are 116 and 504.

NEW UNION PASTOR GOES TO TELKWA

Rev. William Doney Succeeds Rev. W. C. Mawhinney: Drives Across Continent Before Coming to Bulkley Valley

SMITHERS, Sept. 29.—After a somewhat lengthy motor scamper across the United States to Portland, Ore., and thence to Niagara-on-the-Lake, Ont., thence to B.C. the Rev. Wm. Doney, of Trail, B.C., has arrived at Telkwa, to take the pastorage of the Union Church there, in succession to the Rev. W. C. Mawhinney, transferred to Nakusp.

A. B. Trites, prominent mining man and member of the firm of Trites & Wood, passed through on the Cardena yesterday afternoon bound for Vancouver to Stewart.

FOUR WORLD'S RECORDS BROKEN BY UNITED STATES ARMY AIRMEN WHO COMPLETED WORLD FLIGHT SUNDAY.

(continued from page one)

Eighty days." She did it in 72 days, 6 hours, 41 minutes. In 1903, Henry F. Frederick cut this time to 54 days, 7 hours, 2 minutes. Frederick's record was broken in 1914 by Andre Jaeger-Schmidt who encircled the earth in 39 days, 19 hours, 42 minutes, 38 seconds.

The making of the plans for the air trail-blazers occupied more time on the part of army authorities than the men spent on the journey. Everything was arranged to minimize the chance of failure. The 27,000 mile trail was divided into seven divisions. An advance officer was sent out over each division months in advance of the scheduled starting date to prepare maps, obtain weather data, and to lay supply depots and stations at important points en route. Supplies were then sent to places chosen by the advance officers.

Special Planes

Special Douglas air cruisers were built in a California factory, each driven by a 400 horse power Liberty motor and having a cruising radius, with auxiliary gasoline tanks of 1,500 to 2,000 miles. They were the only planes of their type in the world. Spare engines and parts were scattered along the route and everything was in readiness when the aviators left Santa Monica, Calif., March 17, for Seattle, where the planes were outfitted with pontoons and the start of the flight made April 6.

During the flight the Americans either skirted or flew over 20 countries and provinces. Every contingency had to be expected. Of necessity the aviators had to be almost super-men, being possessed of nerves of steel, dauntless courage and exceptional physique. The climate ranged from the frigid Arctic weather along the Aleutian Islands of the North Pacific late in March, to near tropical conditions in June while transverse India. Every ounce of weight had to be conserved to make carrying capacity for fuel. When the airmen reached cold districts they purchased heavy clothes. These were thrown away when warmer weather was encountered.

Few Holidays

Despite the number of days the men were not flying, they declared they had only three days recreation, one day each in Tokio, London and Paris. The rest of their time was spent on their machines, 14 to 16 hours of hard work daily.

The flyers received an invitation to witness a double beheading at Bangkok, Siam, for first degree murder. Beheadings are rare and are usually carried out in private with only distinguished persons present. The flyers declined the invitations owing to the flight being continued a couple of hours before the executions.

In a letter written by Lieutenant John Harding Jr., Lieutenant Nelson's companion, he said both of them "got a kick out of seeing pieces of metal and piston rings fly out of the exhaust pipe" when an exhaust valve guide broke while they were over the Sind desert 55 miles from Karachi, India. Lieutenant Harding declared, however, that they were "a little uneasy, due to the fact that the country, 6,000 feet below, was nothing but rough, sandy desert in all directions and a forced landing on the rolling, hilly and cactus-infested sands would probably wreck the plane." Although the connecting rod of the engine was broken the plane arrived in Karachi.

In Single File

Lieutenant Wade said that the most interesting part of the world trip was the crossing of the Taurus Mountains in Asia Minor, the machines having to fly single file through a narrow gorge and the wings nearly touching the sides. Heavy clouds were overhead and a rushing torrent below.

In French Indo-China, the planes were passing the edge of a monsoon when Lieutenant Smith noticed smoke pouring from his engine. He signalled the others to go on. Noticing a land-locked lagoon under them he shut off the motor and glided down. On the way to the lagoon, Lieutenant Arnold, Smith's companion, grabbed a fire extinguisher, climbed out of his cockpit, scrambled over the struts of the plane despite a heavy gale,

and got down to the bottom of the engine. When the plane alighted the fire was out before Lieutenant Smith climbed out of his seat. A connecting rod had broken the engine. A new part was brought on the back of a donkey 50 miles from Tourans.

Aerial Development

Lieutenant Smith said in England: "The time is near when anybody will be able to make a 9,000 or 10,000 mile air trip without changing planes. As commercial aviation develops it will be merely a case, when one stage of the trip is completed, of taking out the engines and slipping in new ones. Pilots will be changed and the journey continued."

Four attempts to fly around the earth were made this summer.

Major Sarmiento De Beires and two other Portuguese officers flew from Lisbon to Macao, wrecking one plane and replacing it and landing the other in a cemetery whence they could not take off and where the machine was dismantled.

Major A. Stuart MacLaren and two other British soldiers left Calshot, England, March 25, in one plane, put a new machine into service at Akyab, India, and wrecked the latter by hitting a heavy sea when trying to avoid a small island in alighting near Nikolski Bay, August 3.

Major Pedro Zanni, of Argentina, started at Amsterdam, July 26, and is now at Hong Kong awaiting the cessation of hostilities in China before continuing his flight eastward.

FASHIONS & FOIBLES

by Shirley Sharon

BUTTERICK 5412

The youngest member of the Summer colony wears frocks on lines similar to grown-up fashions, combining two fabrics with finesse.

When what one wears bears weight with her girl friends, a new dress is an event equal in importance to the arrival of a new baby brother. A dress which combines a gray cotton ratine with a cotton crepe checked with red on a gray ground is pretty enough for the morning errands or a trip into town. This style is a boon to mother who wants to use that bargain remnant of gingham with some chambray she has carefully saved. Brown with tan or beige, flaming scarlet with navy, tan and white are some of the color combinations used a great deal for junior girls.

MISS DELLAPHENE WEDS W. K. DEMQUE OF FORT FRASER

Marriage Took Place at Smithers Last Week in Union Church

SMITHERS, Sept. 29.—Wesley Kenneth Demque, of Fort Fraser, B.C., and Margaret Dellaphene Munger, of Barrett Lake, B.C., were united in marriage by the Rev. M. W. Lees, in the Union Church, Smithers, on Sept. 25 at 5 p.m.

The bridesmaid was Miss Frances D. Munger, of Kamloops, sister of the bride, while the groom was supported by J. Christian of Telkwa. Following the ceremony Mr. and Mrs. Demque left for a motor tour of the lakes country of Northern B.C. prior to taking up residence at Fort Fraser.

William Dann, the Stewart hotel man, passed through on the Cardena yesterday afternoon on his return to Stewart after a trip south.

ROUND LAKE LADIES GIVE SUCCESSFUL DANCE

A. A. Easson and Corporal Brice Play in Orchestra; Unique Decorations

TELKWA, Sept. 29.—On Wednesday the ladies of the Round Lake Community Club gave a very successful dance. To carry out the idea of the time of the year the hall was a mass of grain and autumn leaves, which were very tastefully arranged. In spite of the fact that the roads were in a very bad condition, the hall was crowded, visitors coming from Telkwa, Quick, Smithers, Barrett and Houston.

The Telkwa Orchestra, assisted during the evening by A. A. Easson and Corp. T. Brice, rendered music of the very best, and were most generous in giving encores. President Carl Wakefield made a very jovial master of ceremonies, keeping things going until early hours.

By way of a novelty, a French minuet was put on as a prize dance. After much thought on the part of the three judges, the prizes were awarded to Mrs. Roy Wakefield and J. Gillespie. As always the ladies of the club proved themselves the best of caterers when they served supper at about 12.30.

WANDERING DAUGHTERS QUESTIONABLE HABITS EDUCATION OF PARENTS

Photoplay to be Shown Here on Wednesday Has Interesting Theme

Free from the phases that have made so many timely photoplays more of a preachment than an entertainment, "Wandering Daughters" reveals with compelling directness the education which comes to parents and daughters alike when the former find their beloved children influenced by questionable habits so common to present-day social life among the younger set.

Unwilling to permit his motherless daughter to mingle with those with whom he is intimate, Charles Horton is perplexed at her rebellion against his automatic supervision of her social life. Will Bowden, a friend who believes that if given sufficient liberty his daughter can best shape her own destiny, questions the advisability of Horton's doctrine. One father believes every girl to be possessed with an evil nature while the other, though admitting that every ruff has its exceptions, appears willing to stake his last dollar on the faith he has in his daughter and good womanhood when a real test presents itself.

Both daughters become infatuated with a notorious Austin Trull. One daughter studies the man in the open and obtains her opinion of him by maintaining her independence and holding her companionship and love at a premium, while the other girl, eager to feel the freedom so much denied her, carries on a secret romance and glories in her ability to escape from the mansion in which her well-meaning father seeks to keep her out of temptation's way.

"Nerves in Bad State Could Not Sleep"

Mrs. H. N. Tardell, Harrowsmith, Ont., writes:

"My nerves were in a very bad state, and for nearly six months I did not know what it was to have a good night's rest. I could not eat, and never felt well. I heard about Dr. Chase's Nerve Food, and thought I would try it. After taking it for a few days I began to feel better, and soon was able to sleep well at night. My appetite also returned, and I felt stronger and better, and after taking three boxes of Dr. Chase's Nerve Food I was quite well. I have also given the Nerve Food to my little girl, with good results."

Dr. Chase's Nerve Food

60 cts. a box of 60 pills, Edmanson, Bates & Co., Ltd., Toronto

CHARLES RAY in

# "The Girl I Loved"

The heart story of a great poet visualized on the screen by a great actor. James, Whitcomb Riley's youthful romance pictured by Charles Ray at his very best. A soul-grIPPING story of real life and real people who loved much, suffered, forgave. A picture replete with tremendous emotion, quaint comedy, rare beauty and exceptional acting. The most impetuous love scenes ever filmed with Charles Ray as the supreme lover. Delightful settings. Charming natural surroundings. Great cast. Patsy Ruth Miller, Ramsey Wallace, William Courtwright, Gus Leonard, Edyth Chapman and many others.

## HALIBUT FISHERMAN DIED AT HOSPITAL

Alexander McKay Was 43 Years of Age a Native of Scotland

Alexander McKay, a well known local halibut fisherman, died in the General Hospital at 8 o'clock last night after a prolonged illness. Deceased, who was 43 years of age and a native of Scotland, had fished out of this port for the past five years. He was a single man and as far as is known has no relatives in this country.

The funeral arrangements are in the hands of the B.C. Undertakers.

Mr. McKay has been ill for about a year.

## PRINCE COMING WEST

The Prince Rupert is due to arrive from the south on time at 3 o'clock this afternoon. There will be no sailing for the south tonight.

C.N.R. steamer Prince Rupert will be taken up on the dry dock tomorrow morning for annual overhaul. She will remain there for a week when she will resume coast service in place of the Prince George which will go into dock.

## PRICE OF HALIBUT WAS LOWER TODAY

Cold Storage Company Not Buying Owing to Strike of Fish Packers There

The price of halibut was down a little at the exchange this morning, prices being about fourteen for Canadian and sixteen for American. The Cold Storage Company was not buying owing to their fish packers being on strike. Following were the sales:

**American**  
Seattle, 42,000, at 15c and 8c to the Pacific Fisheries.  
Daley, 15,000, at 16c and 8c to Atlin Fisheries.  
Reliance, 10,000, and Wabash, 4,000, at 16c and 8c to Royal Fish Co.

**Canadian**  
Kaien, 8,000, Tramp, 5,000, and Fannie F., 3,500, at 14c and 6c to Booth Fisheries.  
Volunteer, 7,000, Mab, 700, Minne V., 3,000 at 14c and 6c to Atlin Fisheries.  
Annie May, 3,000, at 14c and 6c to Royal Fish Co.

The New England came in with 35,000 pounds which was taken care of by the Atlin Fisheries.

## IMMIGRATION TO THIS COUNTRY

W. D. Robb, Vice-president of C.N.R. Says Scotland and Holland Offer Best Field For Canada

### MUCH UNEMPLOYMENT

MONTREAL, Sept. 29. — "I am more than ever convinced that Canada offers finer prospects than any other country in the world for industrious and thrifty people who are looking for a place to establish homes and make a living."

These were the words of W. D. Robb, vice-president of the Canadian National Railways, when he arrived from England by the Megantic of the White Star Dominion Line, which docked here Saturday night. Mr. Robb, in addition to his other departments in Canada has charge of the de-

wife did not assume the nationality of her husband until after a period of 12 months. So back to Winnipeg, where every possible means was taken to overcome the difficulty. Efforts were even made to obtain admittance for Mrs. Negranti as a visitor, but under the circumstances, this was also refused.

Mr. Negranti, under pressure of business, was forced to return to the United States, where every possible action is being taken to allow his bride to join him. Mrs. Negranti is in the meantime a victim of cruel circumstance, forced to enjoy the hospitality of friends in Winnipeg.

## MISSION WEEK AT CATHOLIC CHURCH

Father Moriarity of Vancouver Is Here Conducting Services — Two Lectures Daily

A mission week is in progress at the local Catholic Church with Father Moriarity of Vancouver in charge. The special services started yesterday and will be in progress until next Sunday. Daily there will be lectures in the church at 8 in the morning and 7.30 in the evening.

The annual meeting of the priests of the diocese has also been going on and will close tomorrow. Most of the priests of the district have been here attending it.

James Palmer arrived on last night's train from Prince George to join the local staff of the Bank of Montreal in place of J. P. Davies who is transferred to Prince George.

## DIFFICULTY WITH IMMIGRATION LAWS TO UNITED STATES

Man's Wife Not Allowed to go Home With Him From Winnipeg

WINNIPEG, Sept. 29. — Miss Nance J. Lord, of Manchester, England, a former Red Cross nurse, met during the war, in Edinburgh, an American rancher, Virgil Negranti, on leave, and became engaged to him. Miss Lord sailed for Canada this summer and reaching this city was married July 8. Knowing that owing to the quota law of the United States an English girl could not arrive in an American port other than a visitor for a period of six months, it was thought by the arrangements carried out all difficulties would be overcome, and so they travelled to Pembina, all unconscious of the cloud darkening the horizon of their happy venture into the world of matrimony. At Pembina they were turned back on July 10, under a new clause of the United States immigration laws, namely that a

partment of colonization and development and he has just returned from a tour of England, Scotland, Belgium, Holland and parts of France, where he has been reviewing the possibilities of obtaining settlers.

### British Unemployed

Mr. Robb is firmly of the opinion that the North of England and Scotland, especially Scotland, having a large number of potential emigrants of the right type for Canada, there has been no real diminution in the number of unemployed in Britain, and it is in the northern cities especially that unemployment is most rife. Estimates show that the number of unemployed is still uncomfortably near the 1 1-2 million mark and only two or three days before Mr. Robb sailed, Earl Haig made an appeal on behalf of 80,000 unemployed ex-soldiers. There were men, the Earl said, who wanted work, not doles, and it is the men who want work that Canada is looking for.

Canada offers the natural solution therefore, the problems facing literally thousands of men having the energy and intelligence to succeed as settlers on our broad agricultural lands.

### Visited Holland

Holland, Mr. Robb believes, offers another good field. While there he visited the immigration office of the dutch government. He inspected the farmers' markets, went into the country and was invited into Dutch farm homes. Farm lands in Holland are subdivided to the limit and the surplus farm population has no alternative but to drift into the cities, where there is great unemployment. So impressed was Mr. Robb with the possibilities of gaining settlers of the most desirable type, that the Canadian National Railway is opening a branch office of colonization and development in Rotterdam.

The position of Belgium, Mr. Robb declares, is altogether different. There is little unemployment, and industrial conditions are generally satisfactory.

### France Needs Immigration

France actually needs immigration, not emigration. She is short of man power, and on this

account will not permit immigration propaganda.

Mr. Robb, although having only a few weeks at his disposal, has thoroughly covered the territory in which the department of colonization and development is most interested and is satisfied that in the countries named, with the exception of France and Belgium, there is a large number of people eminently suitable and available for settlement on the land in Canada.

14,000 Pounds Kept Going  
Last year each citizen of our province paid \$110 of his living expenses for goods made outside British Columbia—and the same things of equal or better quality are made here. B.C. will always have an unemployment problem as long as we fail to help industries within our own borders. 14,000 people were kept busy making the goods mentioned—only they were not B.C. people.
