#### BOARD OF TRADE AND CLUB HONORS MEMBER ABOUT TO LEAVE CITY

Last night some 50 members of the Prince Rupert Board of Trade and the Prince Rupert Club assembled at the club to do honor to Reginald Beaumont, a prominent member of both organizations, who is leaving the city to take over a higher position at Vancouver in the service of the Canadian Government Merchant Marine.

The affair took the form of an informal smoker over which S. J. McLeod, president of the Board of Trade and vice-president of the club, presided. There were speeches by M. P. McCaffery, D. G. Stewart and United States Consul A. E. Wakefield, all of whom expressed regret that Mr. Beaumont was leaving the city but pleasure that the move was a promotion.

On behalf of the Board of Trade and the club, S. J. McLeod presented Mr. Beaumont with a handsome walnut combination wall barometer and thermometer as a mark of esteem and remembrance. In acknowledging the honor that had been done him, Mr. Beaumont himself expressed regret that he was leaving many pleasant associations in Prince Rupert but said he hoped that the course of his future duties would often bring him back to the city to renew acquaintances.

#### President of Granby Says Hopes See Another Smelter Established on This Coast

(Special to Daily News)  
VANCOUVER, June 28.—President T. J. Crabbs of the Granby Smelting Company here from New York will stay in Vancouver ten days before going to Anyox. He will also visit Allenby and Cassidy.

Mr. Crabbs says he hopes to see a smelting plant established on the coast. Such could, he believes, successfully compete with the Tacoma smelter.

Copper Mountain will not be operated, he says, until the copper over-production situation rights itself. The copper consumption at present is increasing.

#### SCHOOLS CLOSED YESTERDAY MORNING

No Closing Exercises but in Primary Grades Some of Teachers Had Picnics

Local schools closed this morning without any special doings except in a few individual rooms where there were little entertainments or picnics. Some of the teachers of primary grades had class picnics within the past few days on Acropolis Hill and at other places but beyond that nothing was done to specially mark the occasion. Now the young folks are scattering, some going camping, others going away to visit friends and others just carrying on at home enjoying such things as local picnics and swimming at the Salt Lake.

The holidays extend until September 2 when schools reopen under a new system without a supervising principal, H. S. Hurn, the present supervising principal, having accepted a good post in Victoria.

### "Child's Eyelids Inflamed Stuck Together and Bled"

Mr. E. P. Kimball, Entwhistle, Alta., writes: "Our little girl from birth was troubled with inflamed eyelids and in spite of several remedies, grew worse until at the age of sixteen months her eyes could not be opened after sleep without bleeding, a waxy discharge sticking the lids together and adhering with great tenacity. The child's grandmothers were consulted by mail, and both responded with a little sample box of Dr. Chase's Ointment. These were used as directed, and lasted until we could obtain a further supply from Edmonton. Improvement was very marked from the first application. The waxy discharge was easier removed and did not reappear. Inflammation subsided and has not returned."

#### Business Is Looking Up.

It is quite impossible to speak for all the businesses in this city but in some directions at any rate business is looking up. The telegraph companies are a pretty good index of the general trend and they are apt to forecast coming business. They are the first to feel the increase.

One of the local telegraph companies reports that business just now is double what it was last year. They are busy all the time and the books are never clear. That is what we like to see. We are glad to know that what we have said about coming better times are already being borne out in facts. The building trades are already busy and every day sees improvement.

#### Selling Canada To Canadians.

There is an article in the Journal of Commerce, published at Montreal, in which the question of selling Canada to Canadians is discussed. The writer tells of a party of immigrants passing through the city on the way to the United States. Someone asked them why they did not stop off and locate in Canada instead of going to the States. They said they would do so if they could be shown. The person asked was unable to give them a good reason for so doing so they proceeded on their way and Canada lost a group of intelligent settlers.

The difficulty is that we are not sold on our own country. We are too ready to tell of the wonders of the south or the east or somewhere else than Canada. We do not know Canada sufficiently.

If we knew our own country we should be so overcome with the possibilities of greatness that we should urge the whole world to come here and make the country its home. There is however a growing feeling that this is the country of the future just as the United States has been the country of the past generation. Day by day the idea is growing and if we can make Canadians all see it, we shall very soon find that it will become an established fact.

#### Selling Prince Rupert To All The World.

Not only must we sell Canada to Canadians but we must sell Prince Rupert to the people of Prince Rupert and the rest of the world. The sale is being put over. Today there is more optimism here than there has been for many a day. Today we are more in the eyes of the world than has been the case for a long time past. Today we begin to see that we are "it" and that if we have faith in ourselves and sell the city to ourselves and to the rest of the world we shall get results.

#### Selling Yourself Is Difficult.

It is difficult for many people to sell themselves. They have no faith in themselves. The first person to whom to sell yourself is yourself. With perfect faith in your own ability and with a desire and determination to succeed, no one can stop your success. There may be temporary setbacks but they will not affect the general result. The thing is to so act that your actions will inspire confidence in others.

Selling yourself is not only necessary in business but in all walks of life. No undertaking, great or small, can be a great success unless the persons behind it have faith in the undertaking and in their own ability to carry it through. Then of course must come determined and sustained effort.

### CENOTAPH TO BE UNVEILED

Archbishop Du Vernet Sends Message to People of Stewart to be Read There

Archbishop Du Vernet, who while slowly recovering his strength, is still unable to travel, has sent the following message to the people of Stewart to be read Sunday by the Rev. Arthur Ashley:

"To the People of Stewart: While I cannot be with you in body next Sunday as desired I shall be with you in spirit as you participate in the ceremony of the unveiling of the cenotaph to commemorate the memory of the brave men who laid down their lives in the Great War for the cause of the freedom of the world. The sacrifice of self in the service of others is the highest thing known to us. 'Greater love hath no man than this, that a man lay down his life for his friends.' In erecting this cenotaph you are helping to make true the patriotic words, 'Their name liveth for evermore.'"

"I am glad that you have in your midst a clergyman who served as a private at the front during the Great War. He can speak to you more feelingly than I can as he can realize more vividly the greatness of the sacrifice made."

### CATHOLIC CLERGY TOURING CANADIAN FRENCH SETTLEMENTS

One Hundred Are Visiting the West to See Opportunities Which Await Settlers

MONTREAL, June 28. — One hundred members of the Roman Catholic clergy of the province of Quebec and the New England states left Montreal last night on a special train over the Canadian National Railways for Edmonton, Alberta, on a trip which has as its object the investigation of the French Canadian settlements in Northern Quebec, Northern Ontario and the western provinces.

Representatives of all the French daily newspapers are accompanying the party under the guidance of Claude Melancon, French publicity representative of the Canadian National Railways.

The party is in charge of Father J. A. Guellette, director of the Federal Bureau of Colonization on Craig Street, Montreal. The trip is the result of negotiations begun some time ago between Father Guellette and C. Price Green, commissioner of colonization and development of the Canadian National Railways.

It is a well recognized fact that in many of the well established parts of Quebec young men are deserting the farms to go to the eastern states. Various measures have been taken to try to stop this emigration and it was thought that if the leaders of the communities and these are usually the parish priests, could see for themselves the opportunities which await the French Canadian agriculturist in other parts of Canada their influence could be more strongly exerted in preventing the regrettable emigration of French Canadians across the border.

The trip is in no way a sight-seeing tour, in fact the only large centres being visited are Ottawa, Cobalt, Winnipeg, Regina, Moose-jaw and Edmonton. All other stops are being made at small towns, which are the centres of French Canadian farming communities, and these stops are of sufficient length to permit the travellers to secure a great deal of first hand information on the subject they are investigating.

### Ten Years Ago in Prince Rupert

June 28, 1914.  
H. H. Stevens, Conservative member for Vancouver, has aroused the ire of the legal fraternity with a statement that the judges of B.C. are not honest and that their findings are biased.

Having with him drilling machinery, equipment and a crew of men, Mr. Stewart, manager of the B.C. Oil Fields, is in the city on the steamer Prince John enroute to the Queen Charlotte Islands. The company already has one

well at Otard Bay down 425 feet and another 850 feet. Drilling on the latter will be resumed immediately and before many weeks it is expected that oil will be struck.

A pretty wedding took place last evening at the home of Mr. and Mrs. Walter S. Fisher, Fourth Avenue East, when their daughter, Miss Lillian Bayard, was married to Irving Nelson Linnell, Rev. J. F. Dimmick officiating. Mr. and Mrs. Linnell left for Spokane on a honeymoon trip and, on their return to the city, will reside on Borden Street.

### The Man in the Moon SAYS:-

AS Joe Scott would say, a demonstration is a revelation.

THERE'S one thing to be said for General MeFae, he did better than most of the third party leaders in the United States have done. But the General had the dough.

### CONSTANT HEADACHES AND DIZZINESS

It is hard to struggle along with a head that aches and pains all the time, and in nine cases out of ten the persistent headaches are due to some derangement of the stomach, liver or bowels.

Undoubtedly the cause must be removed before permanent relief may be had.

Burdock Blood Bitters removes the cause of the headaches, as it acts on every organ of the body and strengthens, purifies and regulates the whole system.

Mrs. Peter Curran, 27 Agorion St., Sydney, N.S., writes: - "I have been troubled for the last five years with constant headaches and dizziness. After trying several remedies, which I found to be of no avail, Burdock Blood Bitters was recommended to me.

B.B.B. did me a world of good, and cannot praise this remedy enough." Manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

## PAINTING AND WIRING OF FAIR HALL FINISHED

Exhibition Board is Now Planning to Further Improve Interior of Structure

L. O. Larsen has finished his contract for the painting of the Fair Building and the structure on Acropolis Hill now presents a very pleasing outward appearance. The Fair Board's building committee is now studying out plans for further improvement of the interior. The rewiring of the building by the city has been finished and an efficient and safe system has been installed replacing the old and dangerous one. The Fair Board intends to do work this year which will make the building a decided asset to the city.

## A SEVERE ATTACK OF HEART TROUBLE Was Relieved By MILBURN'S Heart and Nerve Pills.

Mr. S. E. Barnes, Athens, Ont., writes: "Four years ago I had a very severe attack of heart trouble. I consulted my doctor; he treated me for some time, but only seemed to be getting worse. My family went to our druggist and purchased three boxes of Milburn's Heart and Nerve Pills and derived immediate relief from their use, and I can truthfully say they are a wonderful medicine. I always keep a box on hand, and if I feel out of sorts take a few pills and feel all right again." Milburn's Heart and Nerve Pills are sold at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Mr. and Mrs. Ira A. Reid arrived in the city from Georgetown yesterday afternoon and Mrs. Reid left this morning on the Venture for Vancouver. Mr. Reid is relieving as accountant at the Big Bay Lumber Co.'s sawmill.

The division superintendent of the Canadian Government radio telegraphs in British Columbia recently advertised that those using radio sets and not registering would be proceeded against, the apparatus seized and the owner prosecuted. Action is to be taken at once against any who have still been delinquent in this respect.

## DUTHIE MINE IS CLOSING

Promising Property to Suspend Operations According to Word Received from Smithers

Word has reached the city that the Duthie Mine on Hudson Bay Mountain near Smithers is closing down. No reason is given and it is not yet known whether the shutdown is to be temporary or permanent.

On account of its high grade production, the Duthie Mine has been looked upon as one of the interior's most promising properties. It was acquired a couple of years ago by J. F. Duthie, the Seattle shipbuilding capitalist, and developed to the shipping stage by him. Last year the American & Refining Co. obtained a controlling interest in the property and during the past twelve months it has shipped high grade ore more or less regularly through this port to the smelter at Selby, California. The closing of the mine will mean the discontinuation of a fair sized payroll tributary to the town of Smithers.

There is now 300 tons of ore from the mine at this port awaiting shipment to Selby. The Canadian Volunteer is expected about July 1 to load it.

## Sport Chat

The vanguard of the local lacrosse aggregation that is going to play a series of two matches with Ocean Falls on Sunday and Tuesday will leave tonight on the steamer Prince Rupert for the south. The second batch of players will go forward on Monday night and all will return together on Wednesday next. The local boys are confident that they will be able to show the papermakers all they want to see about Canada's National game so, if the reports received about the skill and speed of the players at Ocean Falls prove correct, two lively encounters ought to ensue. The Prince Rupert players picked for

Doings of the Mosquito Fleet which is the chief source of Prince Rupert's prosperity

With good weather prevailing on the deep sea fishing grounds, good use has been made of the long summer days and boats of both the Canadian and American halibut fleets have been bringing in some healthy catches this week. Prices have remained very steady for both Canadian and American landings and fishing has been of a remunerative nature. Boats of the home fleets, both salmon and halibut, are conspicuous by their absence and Cow Bay has a deserted appearance. The mid-season repair work has been practically completed and all boats are now engaged plying their trade on the high seas.

The work boats are fully occupied in towing and other miscellaneous duties. The Prince Rupert Boat House and the Ketchikan float are veritable hives of industry with the Salt Lake trips and public hire service in full swing. With brilliant summer weather "on tap" last Sunday the Cow Bay floats and the Yacht Club floats were besieged at an early hour by parties of picnickers and all boats in commission were requisitioned for exploring purposes. Several boats of the halibut fleet, which chanced to be in port over the week end, took parties out to distant points. The evening fogs have been causing amateur skippers quite a deal of worry, although fortunately there have been no serious accidents.

#### Fish Business

From Monday to Friday 576,500 pounds of halibut have been marketed on the Fish Exchange. Canadians were high at 13.5c and 8c, and low at 11.5c and 6c. Americans were high at 14.4c and 8c and low at 12c and 6c. Arrivals were: Canadians—Prosperity, Fisher, M. M. Christopher, Mayflower, Bingo, Mab, Ring-leader, Verna, Pair of Jacks, Daisy, Rosespil, Tillie S., P. Doreen, S.A., Joe Baker, Ingrid H., Marguerite, Imperieuse, Lillian M., Gibson and Cape Swain. Americans—Bravo, Yukon, Crescent, Wabash, Mildred H., Lincoln, Lituya, Imperial, Norma, Rehance, Forward, Orient, Godric, Glacier, Gladys, Young America, Anna J., Vansee and Roald Amundsen.

#### A Novel Vacation

Frank Dowling and Barley Number, of Dominion government telegraph and banking fame respectively, have decided to spend their summer vacation in a novel and remunerative manner. With this end in view they are fitting up a gill net boat at the Bone Yard Creek ways in which they intend to fish for salmon on the Skeena river. The boat will be powered with a 6 horse power Caltee-Perfection engine, which, if it goes alright will give them a fair turn of speed. The engine is yet to be covered in and the cabin in the bow fixed up. Judging from appearances the sleeping accommodation will be rather cramped when the two "huskies" get fitted inside. It might be a good suggestion to fix up masts, one on the bow and one on the stern, and sling a hammock in between. This would save Barley a lot of time in getting to bed and give him infinitely more comfort to say nothing about giving Frank a little more room in which to stretch his rather extremities. It has not yet been definitely settled as to which one of the boys is to be skipper and which the first mate. Probably a pack of cards

will play a prominent part in the solution. When the boys go out, the best wishes of the nauticals will go with them.

A new 22 foot launch is being constructed at the Cow Bay creek ways for W. E. Collison. The launch is a useful looking craft of the canopy top type.

#### Naas River Trial Trip

A trial run was made to Barrett Rock on Wednesday night of the new power boat Naas River, recently constructed at the Shockey ways by John Darby, of Yukon fame. The boat is a beauty of its class, being especially designed for transportation work on the Naas River from which fact she derives her name. The trial trip proved very satisfactory and a normal speed of 18 miles per hour was attained. The boat is fitted with a 200 horse power Van Blerck engine of eight cylinders. Mr. Darby, who is designer, builder and owner of the boat, expressed much pleasure with the manner in which the high speed engine behaved and is certain that after she is tuned up properly, he will easily get an additional two miles out of her. The Van Blerck is a solid looking piece of machinery and is one of the premier high powered engines on the market today. The operation is comparative simple for such a high powered machine and with her automatic oil feed, double spark system and self-starting arrangement, is an ideal engine for the work in which she will be engaged. Fred Schafer, who tuned up the engine, was engineer in charge during the trial run. The passengers on the trial trip included John Darby, owner, Mrs. Anderson, Mr. and Mrs. Peter Bruno, H. Sedan, Capt. George Newcomb, S. Suga, Jack Cook and Jim Hubber. Mr. Darby expects to make the run to the Naas, which is 60 miles distant, easily in four hours. He will leave for the north shortly.

The power boat Eleanor Mae, Capt. W. Dass, is on the Cow Bay creek ways to have a new false keel fitted.

The power boat Leinsh, owned by Alderman Theo. Collart, has recently had a new stern post fitted.

Geo. Thane is having a launch built on the Cow Bay creek ways. Her dimensions are 23 foot long by a five foot beam and she will be fitted with a 6 horse power Fisherman engine.

The power boat Shawatlans, owned by W. E. Williams, recently underwent a general overhaul on the Prince Rupert Yacht Club ways.

Skipper Steve King, while out with a swimming party aboard the good ship Faith on Tuesday night, headed into a heavy fog on the return trip and made the Prince Rupert cannery in good time much to the surprise of the passengers. The folks aboard thought they were returning to the Yacht Club, as did skipper King, but somehow or other the course would not hold straight with the result that the absent compass was not conspicuous.

#### A Day of Days

A story in rhyme of a picnic to Lewis Island aboard the schooner Gaggoon, owned and skippered by Jim Morrison.

Picnics may come and picnics may go, no matter what the weather, but the picnic we went on Jim's good craft—well, the memory will live for ever. All trim and neat in a coat of paint, the schooner Gaggoon lay, while her skipper and mate were on the job both anxious to get away. The sun shone bright from a sea of blue and the water was still as glass as we piled the boat with a joyous freight, with many a happy laugh. With the eys piled up like a stack of hay and the engine singing a song, the skipper yells to "let her loose"

### Buried Treasure!

LONG AGO, men seeking a safe and secret depository for their money and plate, dug a hole in the ground and buried their treasure, often to lose it from one cause or another.

TODAY, even after centuries of progress and enlightenment, there still are people who prefer to hide their money in "secret" places, only to lose it by fire or theft.

The safest depository for your money and valuables is the one everybody knows about - The Bank.

and with a shout the gang is gone. The course is set for Lewis Isle, a jewel in the ocean blue, no care or worry to mar our joy, we sure were a happy crew. The time flies by as we speed along and take it in turns to steer, then somebody yells "who'd like some eats" and sixteen voices cheer. In double quick time the eats appear there's chicken, pie and cake, while Bill goes below to stir up the fire, the tea and coffee to make. The dressing table we sit around, and the top just bears the strain, as we eat and eat till we're fit to bust then start to eat again. The table cleared and things put away, the island hoves in view and all hands get busy to lower the skill to transport the kiddies and crew. The Lambly ranch is our rendezvous and the folks rush down to the beach to greet the gang as the skill pulls in while the chickens a welcome screech. When on the shore a new course is set and the ranch we go to see, while the cameras click and snaps are shot of scenes and you and me. The sun is hot and the waters cool appeal to the kids for a swim and as quick as a cow has switched her tail the youngsters undress and go in. But all too soon it is time to go, the schooner is boarded again, and some wit exclaims in a voice of disgust "this returning, it gives me a pain."

#### Better Than Ever

Things have not been going exactly according to Boyle aboard the launch Razor Blade, owned and skippered by Jack Keefe, and with the hunting season looming on the horizon it struck Jack that it would be necessary to fix things up. With this end in view the good launch has been given a couple of "twice overs" and everything has been fixed — to put it in the words of her owner (Continued on page six)

## Waterfront Whiffs

Continued from Page 5). "Better than ever." According to advices received in secret service circles the tame decoy duck, which Jack has under his wing, is being licked into shape and when the wild ducks become a little wilder Jack promises them a good time.

A clean up in Cow Bay creek would seem to be a very desirable undertaking by someone in authority. Just now the creek is littered with a bunch of old derelict hulls and doubtless good work could be done with a box of matches and a can of coal oil if the junk were removed to some suitable location for burning. Boatbuilders in that vicinity are desirous of installing ship ways, etc, but cannot get to the waters edge for the amount of rotten lumber lying about, doubtless in the remote past called boats. It seems a pity to hinder commercial progress through lack of the proper use of a box of matches.

**Trouble Ended**  
Capt. Benson, after many years of mechanical trials and tribulations with his speed boat Poinsettia, has given the knockout blow to past worries by installing a new Ford marine engine therein. Unless someone throws a monkey wrench into the works, which is very unlikely, it is on the cards that the Poinsettia will lead this summer and others will try to follow. The engine has been given a trial run and everything is working as fine as a piece of cut glass under a freight train. All Ben has to do now is to give her the gas and one turn of the flywheel and Henry Ford does the rest, Ben says, "Watch my smoke."

The 15 horse power heavy duty Buffalo engine, which is to be installed in the launch Five Roses, is being tuned up by skipper Rose preparatory to being fitted in the boat. It is expected the installation work will be completed in a few days.

The halibut boat Osomi is being transformed into a seining boat at the McLean yards. A winch and turn table is being installed.

The power boat Gumshewa, owned by the Rupert Marine Products, Ltd., Tucks Inlet, is undergoing an engine overhaul at the hands of Harry Love.

Capt. Claude Leigh, of Seal Cove fame, is out behind the island on his power boat Hesquit fishing for shrimp.

The Townen, Capt. J. Field, is now employed in the general towing business for the Georgetown mill.

## Celebrities Leaving

Two waterfront celebrities are leaving the city shortly to seek commercial pastures new in the person of Bill Shrubbsall, of smoked cod fame, and Jack Toner the man who put the "I" in Irish. Bill and Mrs. Shrubbsall are leaving on the Cardena on Tuesday evening for Vancouver en route to Boston. While in Vancouver Mr. and Mrs. Shrubbsall will visit with their niece for a short while. Jack Toner is going to New York and will probably join the Tammany Hall gang to assist in the forthcoming presidential elections. The nautical fraternity will greatly miss the genial presence of Bill Shrubbsall and the wonderful hospitality of Mrs. Shrubbsall. Many have been the pleasant evenings spent under the hospitable roof by nauticals, and their intention to leave the city has been received with much regret by those who know them both so well. However, all wish them long life and happiness and future prosperity in their new surroundings. Jack Toner, always a famous character in nautical circles, will also be missed. Many has been the laugh had in these columns at Jack and his doings. He always took everything in good part being blessed with a high sense of Irish humor, and extended much good fellowship to his comrades when located at Cow Bay. The boys wish Jack every good fortune in his future undertakings.
