Union Leaders Call off Strike Dockers in Britain Following Vote Taken in Ports Yesterday

LONDON, Feb. 25 (noon).—A conference of dock workers today called off the dockmen's strike, which has been in progress since February 16.

LONDON, Feb. 25 (a.m.).—There is every prospect that the strike will be ended today and work in the ports be resumed on Thursday. At Liverpool, Glasgow, Bristol, Hull, the dockers voted strongly yesterday in favor of acceptance of the terms offered by the employers. Conditions in London are less certain. Blue Union men held a meeting and resolved to strike for half a crown advance. It is said, however, that their action would not prevent a general settlement if the remainder of the ports came into line.

The terms granted are considered very favorable to the men. With an additional shilling a day to be granted next June they will be earning twelve shillings daily and there will be no reduction, even though the cost of living drops.

A committee will be appointed with an independent chairman nominated by the minister of Labor to develop and extend plans for the registration and decasualization recommended by Lord Shaw's committee of inquiry in 1920, but never given effect.

Many New Voters are on List Which has Been Completed in Readiness for Beer Plebiscite

The voters' list for the forthcoming beer plebiscite closed at midnight on Saturday evening with some 400 or 500 additional names having been placed on the list for Prince Rupert and Mackenzie ridings for which Prince Rupert is the head office. There will be a court of revision on April 7, the same date on which registration for the ordinary provincial voters' list closes. The court of revision for the latter will be held on May 19.

Walter Gale, deputy registrar, who is in charge of the recording for the lists, explained that it is not necessary for those who voted at the last provincial election in this district to register here again. Their names automatically go on the list. It is necessary, however, for those who did not vote at last election, those who have been transferred from one district to another, new citizens, etc., to register. This applies likewise to the beer plebiscite list, which has just been closed, and the ordinary list.

Skeena, which is divided from Prince Rupert on the west, a short way out of the city and on the east from Omineca just west of Telkwa, takes in Terrace, Hazelton, Smithers and Telkwa and Princess Royal Island, Surf Inlet and Swanson Bay on the coast. The head office for Skeena is Smithers which is also head office for Omineca which includes a large territory east of Skeena taking in Burns Lake, Fort Fraser, Vanderhoof, Francois, Ootsa and Stuart Lakes and the Babine district. Atlin, with head office at Anyox, is largely the same as it was before redistribution.

ANGLICANS OPPOSED TO OPEN BAR SAYS REV. DEAN QUANTON

VICTORIA, Feb. 25.—"While the best method of preventing the improper use of liquor is to create a strong public sentiment against unlawful traffic and against the abuse of lawful privileges, the means of enforcing the law should be improved," said Dean Quanton at the Anglican Synod here. It was recommended that all the police forces in the Province should be re-organized and consolidated into one body, whose jurisdiction should cover not only the unorganized districts but also the cities and rural municipalities. The dean, speaking for the committee, said that they were unanimous in their opposition to the open bar. Its abolition represented a real advance. But there was still, the committee thought, an excessive consumption of alcoholic liquors, and in this connection the report added: "It must be a very difficult thing to resist the temptation to encourage the sale of alcoholic liquors when its profits were devoted to the lightening of the burdens of taxation."

FIRPO KNOCKED OUT OPPONENT

Lodge Went Down Before Mighty Body Blow of Argentine Fighter

BUENOS AIRES, Feb. 25.—Luis Firpo knocked out Farmer Lodge in the fifth round of a fifteen round bout. The knockout blow was a terrific right to the body and was preceded by a left to the jaw. Lodge had to be carried to his corner. Frequent clinchings marked the fight, Lodge apparently seeking to guard against Firpo's mighty right. Lodge took the aggressive in the first round, forcing Firpo to the ropes. He scarcely landed a blow that the Argentine seemed to feel. Lodge was twice floored before the knockout. Firpo weighed 218 and his opponent 231.

Hopeless Conditions Turn Out All Right.

It seems to be quite true that we suffer more from our fears than from things that actually happen. Conditions look hopeless and we feel sure something dreadful is going to happen and then gradually the trouble dies away and we wonder later why we were so perturbed. The average person does not see very far and does not reason well. There is a lack of knowledge of human nature and particularly of the workings of the human mind that puts us quite wrong in our calculations.

The condition in Germany today looks rather hopeless, yet it will probably work out well. The people there are getting their first big real punishment from the war, a somewhat similar punishment to that which others got at the time of the conflict. However, people are beginning to realize that they cannot punish Germany without at the same time punishing themselves and in many cases it is the innocent who suffer. The selfishness of human nature will force the countries of the world to try to agree to treat each other properly. France is now going through a financial panic, the punishment for refusing to be magnanimous to Germany.

Housing Conditions In Great Britain.

The housing conditions in Great Britain are causing a good deal of worry. Houses are needed but the cost of building is so high that the possible rents do not pay interest on the investment and the result is people refuse to build new houses. The government has promised to deal with the question at an early date and going into the housing business will make taxes higher there.

Part of the trouble in connection with the housing problem has arisen from the refusal of Parliament to sanction a raise in rents. Wages have gone up and the cost of living generally has advanced and with it was bound to go the rents of houses. Some landlords took advantage of the scarcity to make inordinate profits so the government had to step in to protect the householder. This protection has been extended for another period of years. It was probably the right thing to do but it had its reaction. Prohibitory legislation is often useful but no one can tell what will be the effect on the country until it has been tried out.

Preparing For Hebridean Settlers.

It is announced that definite arrangements have been made for bringing the starving Hebridean settlers to British Columbia, where they will engage in fishing and farming. The Provincial Government will make loans to the settlers based on the work they do on their land.

Quick action will have to be taken in connection with these settlers. The conditions on this coast are ideal for them but the greatest care will have to be taken to insure that no mistakes are made and that the new settlers get the full benefit of all monies expended. They do not understand our customs here and will need a good deal of careful supervision at first. Large settlements should be avoided in order that they may become Canadianized as soon as possible.

Benefit Selves And Help Settlers.

By arranging to help the suffering people of the Hebrides we shall be doing a good act for them and at the same time shall be benefiting ourselves. It might be wiser to spend a little more money to get these Scottish people here than we should to secure settlers from other European countries. We have no objection to the people from any country in Europe in limited numbers but they have to learn the language and adapt themselves to the customs of the country and it is not until the second generation that they become real Canadians. The same is true of many English and Scotch people but the difference is not so marked.

BROOME NO STRANGER TO NORTHERN COAST

Man Who is Arranging for Flight Round the World Was Formerly in Alaska

Colonel Broome who is expected here this week to arrange for the visit of the British round the world flight is no stranger to this part of the country. At the time of the wreck of the Islander in 1901 he was supervising the construction of a cannery in Taku Harbor just seven miles away from where the tragedy took place. Two years before that he was associated in a business way with Capt. Neutoutsis, manager of the C.P.R. coast steamship service.

TELKWA

"The Terriers"—a number of school boys—played a snappy little game of hockey against the "Bloodhounds," the married men, on Thursday afternoon. There was some splendid play on both sides, and Telkwa may expect some real good players from the ranks of the boys in a few years time.

L. Clinton Johnston of Topley stopped in Telkwa on his way to Smithers on Wednesday last.

Miss Irene Gilmour is spending a few days visiting Miss Lola Wakefield at Tyee Lake.

The ladies of St. Stephens Church held a very successful whist drive on Friday evening.

Owing to the prevailing mild weather, which is unlooked for in this part of the world at this time of the year, there is a great deal of sickness. This is specially noticeable amongst the children.

Miss Perle McDonald left on Friday morning for Hazelton, where she will spend a few days visiting her sister who teaches there.

The Man in the Moon SAYS—

THE prisoner objected to the newspapers saying he walked forth a free man when he left jail in company with his wife. Just why, I wonder?

KISSING is all right as long as I am the kisser, but I just hate to see her kissing the other fellow.

FOR a person who lives chiefly for parties and afternoon teas, Prince Rupert is the place. Yes, certainly that little old town is one humdinger on teas.

THE British climate is much like that in British Columbia. Yet they play football there in the winter and here in the summer.

THESE are the days when you see the people straggling off of a Sunday afternoon to look over the boat, polish up the engine, or give her a short spin just to see what she can do.

THE French Government has the right idea. It says it will dissolve Parliament if the members don't vote right.

THE difficulty about having those Scotchmen from the Hebrides in Canada is that they do not speak our language.

SOME people aver that the National language of Canada is Scottish and you would think so too if you attended the police court regularly.

THE chief industries in Prince Rupert are said to be fishing, tea drinking, card playing and conducting fraternal functions.

Ten Years Ago in Prince Rupert

February 25, 1914.

The Daily News says that the provincial government is providing a mortgage of between \$400 and \$500 on every man, woman and child in British Columbia to back bonds for a railway which will sidetrack Prince Rupert and boost Vancouver.

Ten car loads of high grade ore passed through Prince Rupert last week bound from the Silver Standard mine at Hazelton to the Trail smelter. This makes a total of 24 carloads or 721 tons of ore that the property has shipped this winter.

A. H. Tomlinson, provincial horticulturalist, addressed the Prince Rupert Horticultural Society at a meeting in the city hall last night. M. M. Stephens presided.

FLOATING SPECKS BEFORE THE EYES MEANS LIVER TROUBLE

When specks start to float before the eyes, when everything seems to turn black for a few seconds and you feel as if you were going to faint, you can rest assured that your liver is not working properly.

The essential thing to do in all cases where the liver is slow, lazy or torpid, is to stir it up by the use of Milburn's Laxa-Liver Pills and clear away the accumulated mass of waste and poisonous matter from the system.

Mr. Chas. Ayland, Frankville, Ont., writes:—"I used to be awfully bothered with floating specks before my eyes, headaches and sickness to my stomach. I took just half a vial of your Milburn's Laxa-Liver Pills and ever since I have felt as well as I ever did. Now I always keep them on hand."

Here and There

Manitoba is perhaps the most marrying province in Canada. For instance, in Ontario, there were 24,871 marriages in 1921, a rate of 8.5 per 1,000, while in Manitoba it was 8.7 per 1,000 of its 610,000 population.

Eastbound steamship travel from Canadian ports via Canadian Pacific steamships is heavier at the present time than for several years past at this season, a recent report declares. Bookings in some instances have run as high as 70 per cent increase over those of last winter.

According to a recent official compilation, out of every 100 people in Canada 51 live on farms. The 70,000 farms in Canada represent a gross worth of \$700,000,000 or about \$10,000 per farm, and produce an annual revenue of nearly \$1,500,000, an average income per farm of \$2,000 yearly.

From the opening of the crop year, September 1st, to the official closing of navigation, December 12th, the Canadian Pacific Railway reported the heaviest marketing of grain since the inception of the road. Cars loaded by the company also created a record for the season, having numbered 116,232. Grain marketed topped the 200,000,000 bushel mark.

Thirty-seven per cent of all automobiles in Canada are owned by farmers. Ownership of the balance, according to recent statistics, is made up as follows: business men and brokers, 15 per cent; salesmen and travellers, 16 per cent; professional men, 8 per cent; laborers, 4 per cent; contractors and heavy men, 3 per cent each, and miscellaneous and no occupation stated, 13 per cent.

When the Canadian Pacific liner "Empress of Canada" left New York on January 30th for her great round-the-world cruise, she was the first Canadian vessel ever to commence such a voyage carrying a regular bookstall in the charge of experienced attendants, in addition to a free library. The stock includes many excellent recent books on travel, which will enable passengers to prepare themselves for the foreign lands they will visit, as well as a large number of novels by the best-known authors.

Of the total wheat exported from Canada in November, amounting to 64,156,993 bushels, by far the greater proportion went to the United Kingdom, which took 43,153,991 bushels. The United States was second largest importer of Canadian wheat, taking 9,910,145 bushels. Italy came next, taking 4,613,123 bushels, and Greece next, with 2,953,136 bushels. The exports of Canadian wheat to France during this period amounted to 1,722,354 bushels and to Belgium 1,075,216 bushels. These to Germany totaled 122,520 bushels.

In the keenest competition, embracing entries from all important agricultural districts of the North American continent, Alberta farmers won 43 prizes at the recent international stock and grain show at Chicago. Two grand championships—wheat, Major G. H. L. Strange and oats, J. W. Biglands—went to the province. Major Strange was also first with white field peas and Nunemaker Brothers, of Brooks, first with red clover seed. Major Strange's success is especially remarkable as he has only been a farmer four years.

The latest statements of the earnings and expenses of the Canadian Pacific Railway show that the strong position of that organization has been well maintained, and that a steady improvement has been achieved, in spite of the difficulties of the past few years. Children Like Pacific Milk

That children like Pacific Milk and thrive on it has been demonstrated by a mother on Twelfth Avenue West. The boy of 4 years and girl of 7 are pictures of health and strength. They have Pacific Milk on porridge every morning and it was the only food the boy could assimilate when he was an infant in arms.

USING SKIS FOR SMUGGLING FOOD

Germans Cross Frontier in Mountains and Return With Abundant Supplies

BRESLAU, Silesia, Feb. 25. — Almost everybody on this side of the Czechoslovakian frontier this winter is devoted to skiing. Skis never before were in such demand, and the call for them increased as the cost of food in Germany went up.

Parties of skiers leave every morning for the wild mountain passes leading toward Czechoslovakia, and come back before nightfall with knapsacks full of sausage and cheese, fresh meat and canned goods.

Over the hills, on the other side, runs the explanation, things to eat and drink cost less than half what they do in Germany; for in the mountain passes the snow lies too deep for the Czech customs officials to prevent smuggling.

CUT OWN THROAT AND IS NOW IN HOSPITAL

Octave Gagne, a French Canadian war veteran, who was overseas on active service, cut his own throat last week when in a state of melancholy. He was staying at the King George Hotel and the police were told that he was missing. The following day he came in with a nasty gash on his throat. He had gone to McClymont Park and gashed himself with a razor.

Dr. Cade was called and the man was sent to the hospital where he is recovering. He will be charged with attempted suicide when he comes out.

HER CHILDREN HAD WHOOPING COUGH

This is one of the most dangerous diseases of children. It starts with fever and cough. The cough is at first short and sharp, but gradually increases in severity and occurs in sudden spasms, vomiting follows, and sometimes there is nose bleed; the child turns livid in the face, the eyes appear as if they would burst from their sockets and suffocation seems imminent till relief is brought on by the "whoop."

Dr. Wood's Norway Pine Syrup will clear the bronchial tubes of the collected mucus and phlegm and in this way ease the racking cough, and in a short time make it disappear.

Mrs. L. Ambrose, Sarnia, Ont., writes: "My little ones were both sick with whooping cough. I read where Dr. Wood's Norway Pine Syrup was good, and I only used two bottles and they were better. I had chronic bronchitis for three years and tried everything until, finally, I got Dr. Wood's. I would not do without this remedy."

Price 35c a bottle; large family size 66c; put up only by The T. Muburn Co., Limited, Toronto, Ont.

Sport Chat

The decisive victory of the Great War Veterans over the St. Andrew's Society on Friday night has resulted in the former team once again drawing rather far ahead in the Prince Rupert City Billiard League competition for the Bulger & Cameron cup. Their lead is now so long that it is going to be rather a difficult matter to overcome it. Tonight, the Vets will be pitted against the Elks, third place team. If the soldiers are successful in gaining another victory anything like that of Friday night it ought to be pretty easy sledding for them thereafter. The Elks, however, who themselves are still much in the running, may change the complexion of things somewhat. The tournament will be an interesting one.

Tonight's basketball games should draw the bumper crowd of the season to the Elks' Home. The Sons of Canada, leaders, and Colts, runners up two points behind, will meet in the Senior League while the Adanacs and Maple Leafs, tied at the top of the Ladies' League, are to engage in combat. These two matches should be sufficient to draw the crowds for it goes without forecasting that the play will be well worth the money. In addition there will be an intermediate game between the Grotto and Colts and the Junior fixture between the Stars and High School.

WEEK AT THEATRES

Monday and Tuesday

"Kick In," a George Fitzmaurice production.
Comedy 2. "Fallen Arches."
International News.

Wednesday and Thursday

"The Nth Commandment."
Fox News Gazette.

Friday and Saturday

"Black Oxen" by Gertrude Atherton.
Cameo Comedy "Hurly up."
Fun from the Press.

Colonel McMordie is trying to get a Fox Film man here to photograph the arrival of the American round the world aviators. He has already taken the matter up with the company and they have referred it to the head office with a view to action.

"A Society Scandal" is rather a sensational picture with Gloria Swanson as leading lady. It is described as a great dramatic comedy-romance of high life, love and romance.

"Men" is a Polish play with a

Polish director and with the passionate Pola Negri, in the steller role. Miss Negri is the girl with many loves and adventures and its the old time fiery tigerish Pola that is seen in this production.

Those who like detective stories will want to see "The Leavenworth Case" and Seena Owen. The play bristles with action.

Lillian Gish is said to be drawing crowds with "White Sister." The picture was filmed in Italy and is said to be one of the biggest pictures of the year. It shows Vesuvius in eruption, with lava pouring down the side; a burst reservoir, a fight with Arabs on the desert and all sorts of dramatic scenes. The picture took seven months to make.

"Let Not Man put Asunder" is a play based on the objections to divorce, by Basil King.

Among the new plays released this month are "When a Man's a Man," "Tornent," "The Love Master," "Flowing Gold." The last mentioned is a tale of the oil fields.

Early next month a curious comedy "Galloping Fish" will be released. It is described as a hoisterous howl.

Corinne Griffith in "Black Oxen"

dents in the vicinity of Los Angeles realize the thrills that could be experienced on roller skates. It took a motion picture, "The Nth Commandment," which comes to the Westholme Wednesday to popularize roller skating in the south, and now it has become one of that sections greatest indoor sports.

Story of Picture

In the story of the play a beautiful department store girl, coveted by several of her fellow employees, marries one who contracts consumption. When it becomes necessary for the afflicted husband to go elsewhere for his health, grinding poverty forces the young wife to risk all so that funds to save her husband may be obtained. How the "Nth Commandment" is met and conquered by the brave little wife, provides a theme of unusual dramatic force.

CORINNE GRIFFITH WAS WELL KNOWN AS A BALLROOM DANCER

Star in Black Oxen Got into Picture by Sheer Merit

It was by sheer merit and by trying at the psychological time that Corinne Griffith got her start in the pictures.

Born and raised in Texas, Miss Griffith was a professional ballroom dancer for a year. Noting the progress of certain friends in motion pictures, Miss Griffith went to Los Angeles. She bided her time and when a certain studio conducted a contest for beautiful brunettes, she felt that if she could distinguish herself by winning this contest she would have established her name and facial features in the minds of producers, which would give her an entree into studioland, at least. Needless to say Miss Griffith won the contest, a director made a screen test of her, then another and a third. Miss Griffith proved not only strikingly beautiful but a histrionic discovery.

21 Changes

In "Black Oxen" Miss Griffith makes twenty-one complete changes of wardrobe and wears four different fur capes and wraps. One of her dresses, made of strung pearls over a foundation of pink silk, was more than two weeks in the making. The garment has 183 strands of pearls 22 inches long and 146 strands of pearls 14 inches long.

Miss Griffith's court dress is of silver metallic cloth with silver embroidered designs, lined with robin blue satin, and weighs nearly ten pounds. Among the other costumes which Miss Griffith wears during the action of the play are an evening gown of gold velvet trimmed with brown and black, a black velvet evening dress with an extreme V-cut back, and a formal gown of white charmeuse trimmed with silver and rhinestones, an evening dress of cherry red velvet, an opera gown of shell pink silk and cream colored satin, a director's evening gown of Nile green charmeuse and lace, designed by Lucille, and an afternoon dress of orange velvet. Miss Griffith's street suit is of grey broadcloth trimmed with silver squirrel.

Aim of Play

"Black Oxen" makes no attempt to establish which is proper and which is not as concerns marriage of true lovers, but critics who have previewed the film say that it presents a romantic adventure which is likely to be widely discussed in the future.

PLAY THAT LINGERS LONG IN PUBLIC EYE

Tonight "Kick In" Will be Shown Illustrating Something of New York Underworld

George Fitzmaurice's production of "Kick In," which scored a decisive hit at many leading theatres in the south, contains a group of famous film folk, in addition to a corking good story, one that has all the elements that go to make a successful motion picture. Betty Compson, Bert Lytell and May McAvoy are featured while Gareth Hughes in the capital screen version of Willard Mack's famous stage play. The players mentioned have combined to bring to the screen a photoplay that bids fair to linger in the public eye for a long time to come.

In New York one may in a few minutes walk from the fashionable district to the slums where

brooks and the beggars make their homes. Between these two classes of society there is but a narrow line, yet the man from the slums finds himself confronted with almost insurmountable obstacles when he attempts to approach his more fortunate neighbor. "Kick In" portrays these two classes as they really are and the people who like to know the truth about all phases of life will find this amazing picture well worth seeing.

ROLLER SKATING IN THE LATEST PICTURE

Nth Commandment to be Shown Here this Week Has Curious Thrill

California has served as the setting for the inception of many a new fad since it became the so-called garden spot for the making of motion pictures. But not until recently did the resi-

Showing at the Westholme Theatre Wednesday and Thursday.

Why?

WHY waste time in useless "shopping around" when the advertisements lay before you the choicest wares of every progressive merchant in town?

WHY use needless effort in an endless store-to-store quest when the advertisements enable you to make your choice of the finest merchandise without even leaving your home?

WHY pay more than you ought when you can stretch your dollar to the elastic limit by taking advantage of the bargains and good buys that are daily advertised in this paper?

WHY risk dissatisfaction by buying unknown, unbranded goods when you can assure yourself complete satisfaction by buying an advertised product, backed by the integrity of a man who spends real money to establish his name and to build up public good-will?

Read the Advertisements. Buy Advertised Wares. It is a safe and sound policy
