# GERMAN REPARATIONS COMMITTEE REPORT

## FRED STORK DEMANDS THAT OTTAWA GOVERNMENT FULFIL OBLIGATIONS

### Case for Elevator Here Placed Clearly Before Parliament by Fred Stork in Forcible Address

**Puts matter up to Government to state yes or no whether they intend to develop the Port of Prince Rupert**

#### PLEADS FOR RECOGNITION ON PURELY BUSINESS GROUNDS

**Reminds House of Commons of Laurier Policy and tells how settlers have awaited action here**

Fred Stork, member for Skeena in the Federal Parliament, put the Prince Rupert elevator question straight up to the government in his recent speech and made a powerful plea to the House and to the government to fulfil the pledges made to the people here in regard to the development of this port. According to the Hansard report he said in part:

### CALGARY WINS CHAMPIONSHIP

**Beats Vancouver Maroons 3 to 1 and Gets Bye in Stanley Cup Series**

WINNIPEG, March 17.—Calgary's speedy hockey team took the measure of the Vancouver Maroons here Saturday night, the score being three to one in favor of the Alberta aggregation. This gives Calgary the championship of western Canada, it having won the old game out of three. Calgary deserved the verdict.

Yesterday both teams left for Montreal to play for the Stanley Cup.

Calgary's win gives her the bye in the Stanley Cup games. Vancouver will meet the Canadians on Tuesday night.

### KING AND GUTHRIE SPEAKING TODAY IN HOUSE OF COMMONS

**Division Tomorrow Will Probably End Debate on Address in Reply to Speech From Throne**

OTTAWA, March 17.—The debate on the address ends in the House of Commons tomorrow. An agreement to this effect has been reached among the party whips, which stands good unless later development makes postponement of the division necessary.

Premier King returned from the south where he went a week ago to rest. The debate was continued today by Hon. Hugh Guthrie for the Conservatives and Hon. J. H. King, minister of public works, for the government.

### EARTHQUAKE AGAIN IN JAPAN TODAY

TOKIO, March 17.—A pronounced earthquake that sent the inhabitants scurrying from their houses was felt today in the town of Fukushima, Northern Japan. No serious damage was reported.

**STORK HOPES TO GET ELEVATOR FOR PRINCE RUPERT**  
Word was received at the week end from Fred Stork by the local Board of Trade in which the member advises that it would not be beneficial to send a delegation to Ottawa just now. He says that he is working on the matter and hopes to get favorable action in regard to a grain elevator here.

### BIG AMERICAN FISH BOATS IN

**Fourteen Malibus Schooners Marketed Catches Totalling 177,000 Lbs. Today—Salmon in**

The arrival of four large American halibut boats swelled the list of fish sales at the Exchange this morning. Fourteen boats sold a total of 177,000 lbs., seven American boats having 142,000 lbs. and a similar number of Canadians, 35,000 lbs. There were also two small salmon arrivals.

Sales were as follows:

- American**
- Republic, 30,000 lbs., at 13.3c and 6c, and Senator, 33,000 lbs., at 13.4c and 6c, to the Canadian Fish & Cold Storage Co.
- Alten, 25,000 lbs., at 13.6c and 6c, to the Booth Fisheries Canadian Co.
- Gladstone, 31,000 lbs., at 13.3c and 6c, and Serious, 8,000 lbs., at 13.6c and 6c, to the Pacific Fisheries.
- Forward, 7,000 lbs., at 13.8c and 7c, and Laura, 8,000 lbs., at 14c and 7c, to the Royal Fish Co.
- Canadian**
- Hippo, 5,500 lbs., and Alliance, 4,000 lbs., at 11.6c and 6c, to the Atlin Fisheries.
- Selma, 7,000 lbs., at 11.6c and 6c, and Viola, 3,000 lbs., at 11.8c and 6c, to the Royal Fish Co.
- N. & S., 5,000 lbs.; Verna, 6,000 lbs., and Muirneag, 4,500 lbs., at 11.7c and 6c, to the Canadian Fish & Cold Storage Co.
- Salmon**
- First Place, 2,000 lbs., at 19.9c and 4c, to the Canadian Fish & Cold Storage Co.
- Karen, 1,000 lbs., at 19.8c and 4c, to the Royal Fish Co.

### OLD COUNTRY PEOPLE ARE SELLING LANDS

**Pressure of Taxes and Changing Conditions Cause Landlords to Take Action**

LONDON, March 17.—How landowners are continuing to divest themselves of real estate under pressure of increased taxation and changing conditions is shown by a catalogue of impending sales by an auctioneer in Scotland totalling 338,471 acres. Some of these lands have been held by vendors and their ancestors for centuries.

Photograph shows Manuel Gomez of Philadelphia and his bride by proxy. Four years ago they were sweethearts in Portugal—the bride's cousin acted as the proxy, and the courts forced open the immigration gates to her in America.

### Twelve Volcanoes in Eruption in Alaska Vomiting Clouds of Smoke, Ashes, and Molten Rock

VICTORIA, March 17.—His Majesty's Canadian ship Thiepval, which is taking north supplies for the British round the world flight and establishing supply stations at various points in Alaska and the Aleutian Islands reports to Cordova, Alaska, that she has sighted twelve volcanoes in the north in a state of eruption, vomiting dense clouds of smoke, ashes and molten rock.

According to several reports received here, the steamer has been having a trying time. Weather conditions have been bad. At one time the Thiepval had to run before a bad hurricane and she has experienced changeable weather which has delayed her.

### Fierce Gales off California Disable Tanker and Cause Delay to Other Shipping on the Coast

SAN FRANCISCO, March 17.—Gales which have been lashing the waters of the North Pacific Ocean off the Californian coast for the past 48 hours, disabled at least one large vessel, delayed transpacific liners and caused apprehension in local marine circles for the safety of smaller craft.

The tug Sea Ranger, battling the billowy waves in the teeth of fierce winds is today en route to the assistance of the Associated Oil Company's Shell tanker Frank H. Buck, 3850 tons, which is disabled off the northern California coast. Heavy seas ripped away the rudder stock yesterday and an appeal for help was sent out.

The Frank H. Buck carries a crew of 39 men.

### WILL INVESTIGATE BUSINESS METHODS RAILWAY AND MARINE

**Sir Henry Thornton Sends Regional Counsel to Hear Any Complaints**

MONTREAL, March 17.—The following announcement was issued here today by Sir Henry W. Thornton, chairman and president of the Canadian National Railways:

"Statements having been made that changes in the present methods of administering the affairs of the Canadian National Railways and Canadian Government Merchant Marine on the Pacific Coast would lead to increased efficiency and a greater degree of satisfaction to the business interests of British Columbia, R. H. M. Temple, regional counsel of the railway, has been instructed to proceed to Vancouver to receive statements and testimony. This inquiry will begin immediately.

### BIRTHS

A son was born at the Prince Rupert General Hospital on March 14, to Mr. and Mrs. H. S. Creelman, Terrace.

A son was born on March 16, to Mr. and Mrs. John Wilson, Parkview Apartments.

### BOTTLE FISHING OFF GLOUCESTER IS LATEST SPORT

GLOUCESTER, Mass., Mar. 15.—Bottle fishing is one of the latest sports along the coast here. The other day a small craft running liquor from one of the eight mother ships anchored off the twelve mile limit was hard pressed by coastguardmen and had to jettison part of the cargo. The bottles come floating in on the tide and throngs of people are gathered along the shore near Cape Anne in search of the prizes. A few are successful but most of them get nothing.

### WHITE SLAVE PACT RATIFIED

WARSAW, March 17.—The Polish Diet has ratified the international white slave traffic agreement. When ratified many women made speeches in the Diet, an unusual event.

Charles Barrett, the well known interior rancher, arrived in the city from Barrett Lake last night and is registered at the Prince Rupert Hotel.

### Committee of Experts Makes its First Report on German Reparations

PARIS, March 17.—The report of the first committee of experts which has been practically agreed upon is based on the following fundamentals:

Germany must pay as much in taxes as any other people of the allies.

The German economic machine must be free to function under German control unhindered by outside interference.

Minimum sums must be paid in the immediate future on reparations account, these to be increased in proportion to the revival of Germany's prosperity.

The experts propose to set up an international bank to have the exclusive right to issue Germany's currency on a gold basis.

The bank plan provides for the co-operation of allied and neutral nations in supplying capital and in the management of the institution which will be located in neutral country.

The indications are that capital will be raised by subscribers to loans to raise the necessary amount which will be secured by liens on Germany's productive monopolies.

The Reich is supposed to deposit in banks the sums required to pay the interest on loans and minimum reparations instalments.

The allies will be enabled to draw on the reparation fund proportionate percentages to be fixed at Spa. The French and Belgians are allowed to maintain a garrison in Ruhr or nearby and to seize the Ruhr industries if Germany fails to carry out the terms of the award.

### PRINCE OF WALES HAD ANOTHER FALL

**Is Recovering From Accident Which Took Place on Saturday**

LONDON, March 17.—The Prince of Wales is making good progress toward recovery from his latest accident on Saturday when the horse he was riding in an army point to point event at Arborfield Cross fell in the last steeplechase event. The Prince fell on his head and hands and bled freely from the face. He had been unseated earlier in the afternoon but sustained no injury.

Prince Henry had fallen early in the same race.

The Prince of Wales returned today to London from Aldershot where he had been under care over the week end. This is his twelfth riding accident.

### FRANCE SUPPRESSES HER MATCH MONOPOLY

PARIS, March 17.—The Senate passed by 163 to 119 a measure for the suppression of the state match monopoly.

### GENERAL PELLE DEAD

PARIS, March 17.—Maurice Pelle, one of the high officers appointed by the supreme war council in 1915, is dead.

### TOURISTS SHUN BERLIN

BERLIN, March 17.—The number of Americans visiting Berlin reached a new low mark in January. During that month only 130 Americans included the German capital in their stopping places.

### IS INCREASING LUMBER OUTPUT

**Manager of Buckley Bay Mill: Tells of Work Being Done on Massett Inlet**

### EIGHTH CAMP OPENED

**Will Cut About Seven and a Half Million Feet a Month from Now on**

The Massett Timber Co. is now starting its eighth logging camp on Massett Inlet for the Buckley Bay mill, J. M. Grosart, manager of the mill, who is in the city announces. Three other camps have been opened in the last three weeks and 325 men are now employed logging besides the 186 who are engaged in the mill which does not include other administration staffs. A. J. McGillough, who arrived from Vancouver last week, has succeeded J. M. O'Brien as logging superintendent. The latter has resigned and gone to Vancouver.

Mr. Grosart states it is planned to cut 7,500,000 feet of lumber a month at the Buckley Bay mill from now on. More than half of the production is one-inch rough lumber and the balance timbers. The output is being exported to California, Oregon and Washington on the company's own steamers.

### ROUND THE WORLD FLIGHT COMMENCED FROM SANTA MONICA

SANTA MONICA, March 17.—The United States army flight around the world started today at 9:32 a.m. on the first leg of its flight to Seattle. A squadron of four planes got away in command of Major Frederick Martin. The planes will remain in Seattle until about the end of the month.

### FIUME IS FORMALLY ANNEXED TO ITALY

**King Victor Emmanuel Present today at Ceremony and Presented with Address**

FIUME, Mar. 17.—King Victor Emmanuel was present to day at the formal ceremony of annexing Fiume to Italian rule. General Caetano read the proclamation and the King was presented with an address of welcome and the keys of the city.

**From Charlottetown  
To Prince Rupert.**

A new phrase has been adopted in describing Canada. Mc-  
Lean's Magazine of March 1 speaks of the burdened taxpayers  
from "Charlottetown to Prince Rupert." Hitherto that expression  
used has always been from Halifax to Vancouver. The inference  
from the change is that Prince Rupert is being recognized as a  
point the most westerly in Canada. It is one more step toward  
recognition. The oftener it is in people's mouths the better.  
Day by day we fight our way forward for recognition.

**Would Reform  
House of Commons.**

The suggestion that the House of Commons should be re-  
formed, coming from a member of the Senate is rather interest-  
ing. It was not very long ago that one of the members of the  
present government at Ottawa told a prairie audience that the  
Canadian Senate was being reformed by the Lord but that he was  
not making very good speed at it. In other words the senators  
do not die fast enough to please a good many. Perhaps if the  
Prince Rupert people would unite in praying for the death of  
enough senators to make the Senate Liberal, there would be  
more chance of getting appropriations for this port.

The Commons can be reformed by the people but the Senate  
is entrenched by the constitution.

**Is Better When  
Away From Home.**

Just as the Englishman is a better man when he is away  
from England so is the Irishman better when he is away from  
Ireland. When he is there he seems to be overflowing with re-  
ligious prejudices, but when he comes to Canada he is willing  
to adopt the Canadian custom of wide toleration and complete  
religious liberty.

**Canada Is  
Better Country.**

Canada is a better country than either England, Scotland or  
Ireland or even Wales or the Isle of Man. If it were not so, why  
are the English, Scotch, Irish, Welsh and Manxmen living here  
and not over there. Possibly a few may be unable to get back,  
but it is noticeable that practically every person who leaves Can-  
ada for Britain comes back sooner or later. The reason is ob-  
vious.

Strong exception will be taken to this by people who would  
not live in that country today if they were paid to do so.

**Skies Will Not  
Be Always Grey.**

The skies will not be always grey. Spring is practically  
here and we are already experiencing April weather in March.  
There is, however, the grey sky of unfulfilled hope that keeps  
back the sunshine. The sun is shining but it does not burst  
through the cloud. Soon it will, we hope, and then we shall en-  
joy the warmth and encouragement of spring much more than  
as if it had been always bright.

**SHAMROCK TEA AND  
SALE ON SATURDAY  
SUCCESSFUL AFFAIR**

The home of Mrs. George  
Rorie, 220 Fourth Avenue West,  
was the scene of a highly suc-  
cessful Shamrock tea and sale of  
home cooking and fancy work by  
the Ladies' Aid of the Presby-  
terian Church on Saturday after-  
noon. The affair was attended  
by many and the satisfactory  
sum of \$93.85 was realized. The  
house was tastefully decorated  
with flowers and foliage appro-  
priate to the occasion.

Mrs. C. A. Eggert and Mrs. H.  
R. Grant, relieved by Miss  
Blanche McDonald and Miss A.  
A. Pierce, poured. Mrs. C. E.  
Starr and Mrs. H. S. Hurn had  
charge of the home cooking  
table. Mrs. Joe Greer and Mrs.  
W. H. Wilson-Murray presided  
over the fancy work sale.

**FOOT EXPERT HAS  
ARRIVED IN CITY**

**Dr. Scholl Giving Advice to those  
Suffering from Foot  
Troubles**

R. Liddle, a foot comfort ex-  
pert of Chicago and Toronto  
trained under Dr. Scholl, arrived  
in the city on Saturday and es-  
tablished headquarters at the  
Family Shoe Store where he is  
giving the public of Prince Ru-  
pert the benefit of his advice en-  
tirely free. Judging from the  
large number of citizens taking  
advantage of this free service on  
Saturday his visit is particularly  
welcome to local foot sufferers.  
The Family Shoe Store have  
shown a progressive spirit in  
obtaining the services of such an  
expert and are thus keeping  
abreast of the times with the  
larger centres. Dr. Scholl's ex-  
pert will be at the Family Shoe  
Store to-day and to-morrow and  
will gladly give anyone suffering  
with foot troubles the benefit of  
his advice free of cost.

**CASE FOR ELEVATOR HERE  
PLACED CLEARLY BEFORE  
PARLIAMENT BY FRED  
STORK IN FORCIBLE AD-  
DRESS.**

(continued from page one)

Pacific 3,200,000 acres of agri-  
cultural land. The Mackenzie  
and Peace river country, which  
is an empire in itself, will pour  
its products out to the Pacific  
over the lines of the Grand  
Trunk Pacific Railway. That  
country today is peopled with  
settlers who have suffered in-  
tensely for lack of adequate rail-  
way facilities. The Grand Trunk  
Pacific runs through the Skeena  
Skeena country for a distance of  
350 miles. It serves the Nechaco  
valley, the Bulkley valley, the  
Skeena Valley, the Kispiox Valley,  
the Kikumkalum and Lakelse val-  
ley, each an empire in itself.  
These valleys are filled with set-  
tlers who are carrying on agri-  
cultural development as best they  
can. They are not meeting with  
very much success because local  
freight rates to the market are  
so high they can only with great  
difficulty make a living.

**Everyone Expecting**

Local freight rates are based  
entirely upon transportation  
costs, and there is no immediate  
outlook for relief in the matter  
of local freight reduction, when  
we consider that we have only  
two or three freight trains a  
week travelling over the line  
when there should be four or  
five; and therefore these settlers  
to a man are demanding that  
traffic over the road be increased  
by the handling of wheat, so that  
the volume of trade over that  
road will make that particular  
branch pay. If that way they  
have some hope of relief and  
redress in the matter of local  
rates. Our terminal rates are  
the same from Edmonton to  
Prince Rupert as they are from  
Edmonton to Vancouver. This  
350 miles of railroad running  
through the district of Skeena is  
manned by a great number of  
railway employees. We have  
firemen, engineers, conductors  
and brakemen, and all of the  
staff required to operate a rail-  
way. These men are only work-  
ing a short time, because railway  
men are paid by the mile, and  
not by the day or week. These  
men have been hanging on for  
years, expecting the fulfilment  
of the Laurier program and the  
development of the Grand Trunk  
Pacific. They have been waiting  
and hoping for the development  
to take place; so have the set-  
tlers along the line.

**Demand of People**

But I can say to you, Mr.  
Speaker, that the people have no  
intention of remaining in their  
present condition indefinitely.  
They desire and they demand to  
be told what the policy of this  
government is towards the Grand  
Trunk Pacific. If these people  
are given to understand that  
there is to be no further devel-  
opment in the port of Prince Ru-  
pert they will govern their con-  
duct accordingly. They will be  
able to map out their course for  
the future, but they do insist  
upon finding out at the earliest  
possible moment what the inten-  
tion of the government may be  
towards the completion of the  
Laurier idea.

The greatest argument I have  
in connection with pressing the  
claim for the construction of  
this elevator is that it will bring  
traffic to the Canadian National  
Railways. It will furnish for the  
farmers the cheapest market and  
the cheapest outlet available on  
the Pacific coast. They will find  
that at the port of Prince Ru-  
pert they can deliver their grain  
to the elevator which is con-  
structed at the water on property  
owned by the people of Can-  
ada. In marketing their grain to  
that port, they will find that  
there are no port charges, no  
tolls and no taxes or levies to be  
collected, and the port of Prince  
Rupert is as free as the air you  
breathe.

In regard to the harbor, I say,  
without boasting, Mr. Speaker,  
that it is the best harbor on the  
Pacific coast. The whole British  
fleet could anchor with safety  
within the shelter of that har-  
bor, and there is no danger of  
ever having to spend a dollar in  
dredging or in the upkeep of  
the harbor. We have an utter  
absence of fog and an utter  
absence of ice. You can see from  
the dock the flash of Triple Is-  
land light located fifteen miles  
out from the port—if a skipper  
believes he requires the services  
of a pilot he can procure one,  
although many of them do not  
do so. The pilot can escort him

to Triple Island light fifteen  
miles out from the port, and  
from that point he sets his  
course to Japan or for whatever  
port he may be destined to. Have  
we done anything with this port?  
We most assuredly have. At  
present there is loading in the  
port of Prince Rupert the first  
steamship to be loaded with  
lumber for the Orient—they  
make the journey from Prince  
Rupert to Yokohama in sixteen  
days, which is a three day im-  
provement over any other record  
made from the Pacific coast.  
The terminal rates are the same  
from Prince Rupert to Liverpool  
as they are from Vancouver to  
Liverpool. We are 462 miles  
closer to the Orient than any  
other port.

**Business Appeal**

I wish to draw the attention of  
those interested to the fact that,  
in the opening up and developing  
of the port of Prince Rupert, the  
people are buying goods in their  
own country, and putting money  
in their own pockets. I am not  
making this appeal tonight on  
behalf of the settlers, who think  
they are entitled to some reward  
for their pioneering, although,  
permit me to say that 35 years  
of pioneering in the West is de-  
serving of consideration. I am  
not pleading that special treat-  
ment should be given on that ac-  
count; but from the standpoint  
of good sound business logic, and  
from the standpoint of national  
economy, I join with all the people  
who are living in the western  
land, in the city of Edmonton  
and in the city of Prince Ru-  
pert, in the request that an ele-  
vator be constructed forthwith.

### Just a few minutes tonight—

THAT is all the time it will take to make your daintiest dress, or blouse like new again, or to get fresh underwear ready for tomorrow.

It is so easily accomplished with Lux. Just whisk a tablespoonful of the thin, satin-like Lux flakes into thick lather in a bowl of very hot water. Add cold water until lukewarm.

Then press the garment gently up and down in the rich suds, squeezing the soapy lather through and through the fabric. Then rinse three times in lukewarm water, roll in a towel, and when dry, press with a warm iron—never a hot one.

### To make them lovely

It only takes a few minutes, and your daintiest things will be as fresh and lovely as when you first saw and loved them.

Lux is sold only in sealed packets—dustproof!

### Here and There

A dispatch from London, England, states that the Sudan Government, through Capt. E. C. Midwinter, general manager of railways and steamers, Sudan, Africa, has accepted a tender from a British Columbia firm for 150,000 railway ties of Douglas fir. The contract expressly stipulates that the railway ties shall be of Canadian origin.

British Columbia's shipment of water-borne lumber to overseas markets totalled 521,707,132 board feet last year, against 275,146,800 in 1922, an increase of 91 per cent. This announcement was recently made by the provincial minister of lands and it is a remarkable index of the rapid expansion of the lumber industry in British Columbia.

Under a scheme inaugurated by the Provincial Government it is announced that British Columbia will advance loans up to \$200 a family to settlers from the Hebrides, on condition that the British Government advance a like amount. In view of the present depression in the islands, it is expected that the British Government will co-operate.

Keen interest in all Canadian manufactures and especially in mineral products, wood pulp, textiles, leather and rubber goods, heavy machinery and farm machinery is now manifested by France and Belgium, according to H. E. Tessier of Montreal, who recently accompanied an exhibit of these manufactures on a tour through every important city in these countries. Mr. Tessier believes that the tour will bring great practical benefit to Canada as soon as French currency becomes more stable.

The exterior of the great Canadian pavilion at Wembley has now been completed, and the interior decorators are busily finishing the building, according to H. E. Tessier, who has just returned to Canada abroad the Canadian Pacific liner Montclare. The exhibits are being rapidly assembled and everything points to Canada's display being ready in time for the opening of the British Empire Exhibition.

That Canada's culture has nothing to fear from the promised flow of immigration from continental Europe was the message recently delivered by J. Murray Gibbon, Canadian author and litterateur, in an address on "Canadian Literature and the Foreign-Born" given in Montreal recently. Of all the Scandinavian races contributing to the Canadian population, Mr. Gibbon considers the Icelanders to have the highest literary mentality.

More than 13,000,000 bushels of grain have been received at the Government elevator at Vancouver, B.C., from Canadian Pacific Railway cars since the opening of the crop year, according to a report issued by railway officials. Exported from Vancouver in the same period there have been 20,416,534 bushels, comprising 15,448,348 bushels to the United Kingdom, 4,559,105 to the Orient and 338,133 bushels to South America.

The aggregate value of all field crops in Canada in 1923, was \$201,755,200, according to a report of the Bureau of Statistics, a decrease of \$70,533,000 from 1922, caused mainly by the lower prices applicable practically to every crop. This sum was made up of the following: wheat, \$316,696,700; oats, \$17,704,400; barley, \$32,955,700; rye, \$11,248,900; hay and clover \$182,882,000; mixed grains, \$17,654,800; potatoes, \$57,076,800 turnips, etc., \$22,650,100; corn, husking, \$12,465,000.

A golden wedding, celebrated by Mr. and Mrs. R. H. Williams, of Regina, Saskatchewan, was one of the novelties enjoyed by the passengers on board the Canadian Pacific "Empress of Britain" when the ship was at Barbados during the West Indies cruise. "Here Comes the Bride" was played by the ship's orchestra, and a huge wedding cake was baked, adorned with 50 candles and presented to the happy couple at a surprise party, in which even the crew joined.

Earl Bridges, 17-year-old musher, from Le Pas, Manitoba, won the Eastern International Dog Sled Derby at Quebec, receiving the gold cup and \$1000 awarded for the team first past the winning post. The race was run on three successive days, February 21, 22 and 23, in daily laps of 40 miles, under extremely trying conditions due to the heavy snowfall on February 20, which was the worst Quebec has known for half a century. Bridges, who won the Le Pas Dog Sled Derby, also captured a silver cup awarded for the best-matched team of dogs in the Quebec race. There were 15 starters.

W. H. Manuel, C.N.R. traveling auditor, arrived from Prince George Saturday evening.

J. B. Agar, Terrace merchant, is in the city on business. He arrived from the interior on last night's train.

Nick Dopolis has taken over Bing's Cafe at Hyder, Alaska, and will be in complete charge until May 16.

Mrs. Robert McCarthy of Fifth Avenue East sailed Saturday afternoon by the Princess Beatrice for Vancouver.

college education is of little help in this task, and she fails, temporarily. In the end, however, all ends well.

The picture is based on the big Broadway stage success of the same name and was purchased by Joseph M. Schenck especially for Constance Talmadge because it offers unusual opportunities for clean, wholesome humor and action.

**The Story**

The story relates to a young wife who had a gift for gaucherie. She meddled into everything with the best intentions, only to do something or say something that was exactly the wrong thing to do or say. Finally she was inspired with an ambition to help her young husband in his business affairs. Said young husband was well able to manage his affairs and was then on the point of putting over a merger very much to his advantage. But friend wife butts in and almost ruins him. It is only because a crusty old business man, appalled at her boneheadedness, finally decides that it cannot be possible for a young woman to be so much a dumb-bell, that her husband is not utterly ruined.

### GLADYS HULETTE IN STORY OF DIVORCE

Man Was Mistaken is Shown in Picture to be Seen Tonight Here

Gladys Hulette, who plays a dual role in the William Fox screen version of "Hoodman Blind," at the Westholme tonight, the venerable production of Wallace's theatre vintage in 1885, has ventured a suggestion concerning the modernization of the play, which amused her colleagues in the picture cast.

"When Jack Yuletta discovers that his wife, as he believes, is unfaithful to him, instead of running wildly away to condemn all women, he should graciously offer to furnish evidence for a divorce, arrange for alimony and then move down to his club. The children would be sent away to a finishing school.

"And Nance, his wife, instead of going into retirement and eating her heart out, would run down to Atlantic City, hire a press agent and come back with an offer to go into a Broadway show. As for Jess, the irresponsible half sister, who really was the woman Jack saw in the other man's arms, she would call up Jack at his club and they would have dinner together frequently, go to the theatre and perhaps even marry. But in 1885, of course, Jack and Nance had to be brought together again and poor Jess had to die. But it made a great show, anyhow.

### RUGGLES OF RED GAP EXCRUCIATINGLY FUNNY

Shows Experiences of Hon. Geo. Basingwell of England's Valet in a Yankee Cow Town

"Ruggles of Red Gap," the week end theatre showing this week opens in the early days of Red Gap, a typical cow town of the Pacific Northwest. With the expansion of the commercial resources of the town comes wealth to the older inhabitants, among them the Flouds. Cousin Egbert is considered by the rest of the family as socially incompetent, and it is decided that it will be for the best to obtain a valet for him to see to it that he watches his p's and q's and to keep Egbert continually posted as to his social engagements.

So it is that Ruggles, one-time perfect valet of the Honorable George Basingwell of England, enters upon his new duties with the Flouds—but not as valet, for Cousin Egbert introduces him to some friends as "Colonel." In order that they may not be made the laughing stock of the town the Flouds are forced to accept him as "Colonel" Ruggles, their guest. The close of the picture finds Ruggles thoroughly Americanized, now a member, through marriage, of the family he had once served in the lowly capacity of valet. The picture is packed with laughs.

### BUSINESS IS BUSINESS

"Did you ever try to stop boot-legging in Crimston Gulch?" "No," declares Caetus Joe, "the local undertaker has such a political pull we're afraid to interfere with his business." —Washington Star.

The Duke of Wellington was accosted one day by a stranger, who, lifting his hat, said: "Mr. Ramsbotham, I believe."

"If you believe that," the Duke replied, "you will believe anything." —Yorkshire Post.

### YOU CAN EAT ANYTHING YOU LIKE AND NOT HAVE HEARTBURN

In all cases of heartburn there is a gnawing and burning pain in the stomach attended by a disturbed appetite, as when too much food is taken into the stomach it is liable to ferment and become extremely sour, vomiting occurs, and what is thrown up is generally sour and bitter. When you are in this condition you will find that Milburn's Laxa-Liver Pills will give you relief right away.

Mr. Joseph H. MacDonald, Christmas Island, N.S., writes:—"Two years ago I suffered all the time from heartburn. I took one vial of Milburn's Laxa-Liver Pills and have never been troubled since. It is very nice to be able to eat anything you like and not have heartburn any more."

Milburn's Laxa-Liver Pills are 25c a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

### BUCKLEY BAY STORE MANAGER IS CHARGED

Being Tried Here on Three Counts of Misappropriating Goods

Facing trial on three charges of misappropriating goods to the value of \$16,000, \$91 and \$45.45, Charles B. Strigley, manager of the Massett Timber Co.'s store at Buckley Bay, was brought to the city last night on the gasboat Pachena by Provincial Constable Saint. This afternoon at 2 o'clock preliminary hearing of the charges commenced in the provincial police court. W. A. Cantelon of Ladner & Cantelon, Vancouver, counsel for the Massett Timber Co., and W. O. Fulton of Paltmore & Fulton, counsel for accused, also arrived on the Pachena as well as the following witnesses: J. MacDonald, accountant for the Massett Timber Co.; G. A. Cuddy of Seattle, auditor; J. R. McWilliams, wireless operator, and J. M. Grosart, mill manager. Stipendiary Magistrate Mallory of Port Clements also arrived.

The case was started before Magistrate Mallory but the defence asked for a change of venue which was assented to by the company's counsel.

Following investigations made by the company's auditor, it is alleged that large shortages were found in Strigley's accounts. These are said to be much larger than the actual charges that were laid. Strigley was put under arrest and is now in jail.

### WILD AND TIMID RACE OF BEINGS IN NORTH INDIA

Bodies Covered With Dark Hair and They Use Crudest Tools and Live in Forest

CHICAGO, March 17.—A race of men living unclothed under rock ledges and overhanging cliffs, with a history that is not traceable and who speak a dialect that has no similarity to any known language, is described as existing in Pithoragarh, North India, by the Rev. M. Wells Branch, returned Methodist missionary.

Their bodies are covered with dark hair from living without shelter, are slightly Mongolian in type, small of stature and they never go armed. The use only the crudest tools beside their knives, yet they live in forests in which roam tigers, leopards, bears and wolves.

**Like Shadows**

"They are like shadows in the forests and will salute no one," said Rev. Mr. Branch, who lived

near them for a decade. "They make wooden dishes with their knives and are expert whittlers. When they wish to sell any of their dishes they come out of the forest, put down their wares and retire into the jungle. The traveler then inspects them and if he wants any, he leaves grain, other food or something of about equal value.

"They are anything but warlike and are reckoned the most timid denizens of the forests. They are wonderful tree climbers but do not live in them. How they manage to survive life in the forests in which roam tigers, leopards, bears and wolves, is more than anyone knows.

**Royal Blood**

"They believe themselves descended from royal blood. For this reason they call themselves Rajas, and claim to be descended from the forefathers of the Rajbar family, ruling house of Assam, a native state of that region. Some of their number occasionally visit the village bazaars but no one can talk with them or barter save by signs."

### KING TUTENKHAMEN'S TOMB TO BE EXHIBITED

Recent Discoveries to be Duplicated and Shown at British Empire Exhibition, Wembley Park

LONDON, March 17. — Those who have regretted their inability to visit King Tutenkhamen's tomb in Egypt, where Lord Carnarvon and Mr. Howard Carter discovered it, will see it exquisitely reproduced at the British Empire Exhibition. All the strange furniture, the chariots and objects of art, of which so much have been heard, will be displayed in three underground chambers, just as they were found at Luxor. W. ### PARTIAL DEAFNESS IS CURED BY RADIO

RENO, Nev., March 17.—Radio eventually may cure partial deafness, in the belief of Norman Squires, of this city, who cites his own case as an illustration. Two years ago, Squires says, he was totally deaf in his left ear. Now, after constant treatments by radio, he declares he can hear a whisper across the room.

Radio sound waves, passing along the auditory nerves from the head phones, massage the nerves and stimulate them to the extent that hearing is restored, he contends.

DAWSON ADDRESSES VANCOUVER BOARD

Tells Them of Advantages of Prince Rupert and Urges Development of Whole Province

Some marvellous geographical facts were suggested by F. G. Dawson, a director of the Canadian National Railways, during the course of an address on "the export possibilities of Prince Rupert," delivered before the foreign bureau of the Board of Trade says the Vancouver Evening Sun.

Mr. Dawson urged the necessity of all British Columbia business men getting together and developing the province. Within five years, he stated, 50 per cent of all the grain grown on the prairies would be taken over the western route.

a petition submitted by a group of North Edmonton storekeepers, asking for permission to keep their stores open after six o'clock on Saturday nights.

Mr. Bury's motion was strongly opposed by Aldermen Rice Sheppard and James East, and was finally defeated by an amendment proposed by Alderman Rea that the matter be tabled.

The petition, signed by a dozen Edmonton storekeepers, had been received by the mayor, asking for consideration on the part of the city authorities.

PROPERLY CHARGED

Two women in a country town were discussing their home troubles, when one asked, "By the way, what is your husband doing now?"

"Oh," said the other, "he's just a settin' round tellin' what's goin' to happen next election."

"Then he's a prophet?"

"No, he ain't. So far as this family is concerned, he's a dead loss."—Boston Transcript.

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 30 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers fanged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.
