#### COLLY OPENS FORMAL DEBATE

Member For Kamloops Says Demands For Lower Taxes Not Sincere

##### RECALL ADVOCATED

VICTORIA, Nov. 5.—"If a member is not rendering his constituents proper service he should be recalled," declared J. R. Colly, Liberal member for Kamloops, in moving the address in reply to the speech from the throne in the Legislature yesterday.

Mr. Colly dealt in a general way with the government policy. He said they could not consider requests made by voters for lower taxes sincere as demands for expenditures were increasing at all times. He suggested that farmers' taxes be consolidated as a method of assisting them in making payment and that Orientals be excluded as owners of lands.

Another suggestion made by the Kamloops member was that all text books required by the provincial schools should be printed by the government.

Mr. Colly said he refrained from commenting on the beer situation but intimated that he would have something to say upon that matter at the proper time.

## Overwhelming Victory for Coolidge in United States Election With La Follette Practically Extinguished

### Smith Chosen Governor of New York State over Roosevelt: Wisconsin Only State for Independent

NEW YORK, Nov. 5.—As returns from the states continued to roll in today they served only to swell the tide upon which Coolidge is riding to apparent overwhelming victory over his two opponents in the presidential contest. In eight states, all of which are in the west, the result is still in doubt at mid-day but Coolidge leads in seven of them, including Minnesota, and north and south Dakota, which the followers of La Follette had expected to give independent candidates their electoral votes.

The returns in the congressional contests are slow and at noon they were still not sufficient to show whether Coolidge will have a real working majority for his party in either the House or the Senate.

**Expresses Thanks**  
WASHINGTON, Nov. 5.—President Coolidge, having received a vote of confidence from the voters expressed "simple thanks" as his one first act after his election was assured.

**SEATTLE, Nov. 5.**—Compilation of returns today in about half the precincts of the state give Coolidge a total of 100,766 against 64,850 for La Follette and 18,850 for Davis.

**PORTLAND, Nov. 5.**—Oregon endorsed Coolidge, the returns up

Pennsylvania, Rhode Island, Vermont, California, West Virginia (Davis' home state, Arizona, Colorado, Delaware, Idaho, Indiana, Kentucky, Maryland, Michigan, Minnesota, Missouri, Montana (Wheeler's home state), Nevada, New Jersey, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington, Wyoming.

Davis states — Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, Texas, Virginia, Oklahoma and Tennessee.

La Follette state—Wisconsin (La Follette's state).  
Alaska territory has no vote in the electoral college.

**Morning Figures**  
NEW YORK, Nov. 5.—At 8 o'clock this morning Coolidge was assured of 342 electoral college votes out of a total of 534 with the possibility that the number might be increased to 379 when the returns from several doubtful states have been tabulated.

Davis was assured of 136 electoral college votes and La Follette of 13 votes. It still appeared doubtful whether the Republicans would have a working majority in Congress. Re-

#### RAISED \$125 AT A BASKET SOCIAL FOR SKIDEGATE SCHOOL

Crews of Prince Rupert Fishing Boats Took Part in Event on Queen Charlotte Islands

SKIDEGATE, Nov. 5.—A very successful basket social was held at Skidegate last Friday at which \$125 was raised for the building fund of the new Skidegate school. Altogether about \$600 has been raised so far.

J. P. Dover auctioned off the baskets the highest bid for which was \$16. Those in charge of the event were Mrs. E. C. Stevens, Mrs. S. DeBucy and Mrs. G. D. Turner.

Those who came from the East coast were Mr. and Mrs. G. Turner, Miss D. Husband, Miss D. Richardson, Miss M. Richardson, W. Prettyjohn. The popular crews of the two Gold Storage boats Grier Starrett and Chief Legiac helped to make the affair a success.

#### WILL ERECT A NEW SCHOOL AT SKIDEGATE

SKIDEGATE, Nov. 5.—A public meeting was held this week at the residence of Mrs. M. McIntyre of all those interested in the erection of a new school here. It was decided to put up a structure 30 feet by 24 feet and the trustees will call for tenders for the building.

It is expected to start work on the building in about two weeks.

#### STEEL HOUSE BUILT ALL IN ONE DAY

LONDON, Nov. 5.—A steel house was built in a day at Glasgow for the committee who are investigating methods of mass building of houses for the Minister of Health. The sections for the steel house were examined, and in an hour and a half the walls were up, floors laid and the roof nearly completed. The house was practically complete by 5 p.m. Under ordinary circumstances, however, it would take 14 or 15 days to complete a steel house down to the last detail.

#### MUCH SALMON COMING HERE

Skipper of Bellingham Says Vessel will Call at Prince Rupert Regularly this Winter

The motorship Bellingham will continue to call here throughout the winter bringing canned salmon from the vicinity of Ketchikan for transshipment East over the Canadian National Railways stated Capt. Len Williams, master of the vessel which is in port today with four carloads of frozen fish which is being handled over the Royal Fish Co.'s dock. There are 30,000 or 40,000 cases which are to be delivered before Christmas and this will keep the Bellingham busy in the meantime carrying about 10,000 cases per trip. During the past few weeks there has been little movement of salmon from the Ketchikan canneries.

After discharging here, the Bellingham will proceed to Seattle to pick up freight for Ketchikan. On her last trip from Seattle to Ketchikan the Bellingham had a cargo of over 300 tons of general. She ran ashore on the way north near Active Pass but sustained little damage.

#### WINNIPEG CONCERT HEARD AT HAWAII

Letter Received from Jack Costa at that Place Names Artists and Selections

WINNIPEG, Nov. 5.—An interesting comparison of the speed with which the human voice travels via the radio wave as compared with communication by letter is provided in the receipt by the Canadian National Railways radio department at Winnipeg from a radio enthusiast located at Haiku, Mavi, T.H., who writes to express appreciation and surprise at his clear reception of a radio program broadcast from the Canadian National station C.N.R.W. at Winnipeg on October 23. Songs by Winnipeg artists, whom he mentions by name and selections played by the Fort Garry Hotel orchestra were received in the Hawaiian Islands within the fraction of a second of their delivery in Winnipeg, while the letter of appreciation mailed at 2 o'clock in the afternoon of October 23, took until this morning to be delivered in Winnipeg.

Jack Costa, the writer of the letter states that the broadcast was received with perfect modulation, signals being very clear. He mentions artists and names of selections as proof of reception.

Beasts, Men And Gods By Dr. Ossendowski.

One of the new books, a translation from the Russian, is "Beasts, Men and Gods" by Dr. Ossendowski. It tells of the efforts made by the author to escape from Siberia when the Bolshevik movement spread to his district and of the time he spent and the people he met in Mongolia. He devotes several chapters to telling of the mysteries of the Buddhist religion or what is known as the Yellow branch of it. He spent much time with the Lamas and with the living Buddha or as he is generally styled "The Living God." Also he heard from the Buddha and from others the mystery of the Kingdom of Agharti and the King of the World.

Possibly there is no means by which one could get as good an idea of life of the people of Mongolia as from this book and the narrative form helps to add to the interest.

Popular Verdicts Often Are Wrong.

Popular verdicts are closely allied to mob rule and are often wrong. Stories are passed around quietly and are generally believed and denials are useless. That seems to have happened in the case of the recent murder case at Vancouver. The affair was hushed up and that gave rise to all sorts of suspicions. Tongues began to wag and the names of different people in prominent stations in life were dragged in and their reputations besmirched. Until the mystery is cleared up there will be suspicion on those who are innocent.

The difficulty with stories that go around in a matter of this kind is that it is so difficult to deny them. To do so would involve publication of the suspicion and of the denial together. The Vancouver and provincial police say they have investigated all the rumors and have found themselves at a dead end.

The chief fault in regard to the whole business seems to have arisen from the laxity of the Point Grey police, who failed to make proper investigations at the time of the tragedy.

Babcock Appointment Is Best Possible.

The appointment of J. P. Babcock on the halibut commission, which was announced exclusively in this paper yesterday, should be most satisfactory to those who wish to secure real scientific information in regard to the habits of the fish and the best means of coping with the situation. That they will be depleted before long goes without saying, unless something is done to prevent it. The close season which has been established is the first step in that direction and any further action will have to follow the report of the commission.

Mr. Babcock is an authority on salmon but so far no one seems to know very much about halibut. It will be the business of the commission to thoroughly investigate the habits and breeding grounds of the fish.

All Preparing For Christmas Season.

People are now all looking forward to Christmas and the "shop early" warning is just as appropriate this year as in the past. There is always a rush at the end and at that time the goods in the stores have been all picked over by the early buyers and the best selections made.

Every person wants to make some presents at the festive season. It is just as easy to begin making the purchases now as to wait until the time when everybody is haunting the stores and becoming irritable at not being able to get proper service.

SEASIDE OUTINGS FOR WAYWARD GIRLS

English Latest Idea is to Give Them Good Time on Holidays

LONDON, Nov. 5.—The English reformers' idea of making bad girls better is to give them trips to the seaside. Accordingly last year several of the detention institutions for young girls took parties of inmates to various seaside resorts, where they were given a two weeks' vacation with only the supervision of two matrons to each party of 25 girls.

Last year's outings proved so successful that nearly all similar institutions this year took up the idea and allowed their best behaved girls to have a vacation. The expenses for the trip, above what it would have cost to feed and provide for the girls at the institution, were donated by persons interested in progressive and humanizing methods in the correctional institutions of the country.

As a result, people are asking themselves today: 'Am I insurable?' 'How can I get sufficient life insurance?' and the answer is found in the ever-increasing number of policies now being applied for. There is a foundation for this success: The general public is rapidly coming to realize the solid basis upon which life insurance rests; that the business is subject to a rigid system of Government inspection; and that while Life Insurance is a form of organized sharing of each other's burdens, it is managed on a sound business basis. —Life Insurance Service"

LIGHT SENTENCES GIVEN IN RUSSIA

Murder Gets Five to Ten Years; Divorce Easy and Little Bigamy as Result

MOSCOW, Nov. 5.—Persons guilty of murder and other crimes in Soviet Russia are punished with sentences so light that they will amaze American judges and public prosecutors. In most cases punishment for murder in the first degree does not exceed five years. It rarely exceeds 10 years, unless the crime is associated with banditry. Punishment for other crimes, such as arson, forgery, robbery, rape, infanticide and criminal assault is correspondingly light.

Bigamy is another offense which is only lightly punished. In Soviet Russia have been made very easy, however, there are relatively few cases of bigamy. Death sentences are given only for counter-revolutionary activities, "economic espionage," counterfeiting, organized banditry and crimes against the state. But even in these cases capital punishment is sometimes withheld. A notorious case in recent weeks was that of Boris Savinkof, charged with widespread spying activities and other crimes against the Soviet. Although he confessed his complete guilt, he was given only 10 years in prison.

According to word received from the interior, game is very plentiful in the Ootsa Lake district and several parties have met with marked success. As an example, Buster Harrison of Wistaria and Percy Carr of Burns Lake had a very successful trip to the west end of Ootsa Lake last week. Their bag consisted of one deer, six geese and twenty-six ducks. The results of the sport was shared among the many friends of the two hunters.

**PUBLISHER TELLS ABOUT STEWART**

Only Objection He Has is to Customs Regulations Which Cause Delays

Wherever you dig a hole in the ground anywhere at Stewart, there seems to be ore, according to E. C. Herron, publisher of the Alaska Weekly and also of the Anchorage daily paper, who passed through the city yesterday southbound. He says lumber is being taken to the Dunwell mine for the bunkers and the Daly-Alaska is also about to begin shipping. Mr. Herron is very enthusiastic. He went up with a representative of the American Smelting and Refining Company and made a thorough examination of some of the properties.

The latest reported strike there he says, is at Seven Mile in a property owned by J. Strong and his Ketchikan associates. This is reported to be good.

It is from the upper Bear river that Mr. Herron looks for the greatest returns. Also he is pleased with some of the showings close to Stewart, he says at the Dunwell they are pretty sure to strike the rich ore in the fourth tunnel and if they do it will mean they have a big mine.

**Customs Delays**

There is but one fly in the ointment at Stewart and that is the customs regulations. To get to Premier it is necessary to pass through a strip of U.S. territory and it is Mr. Herron's idea that the regulations should be made so as to facilitate business. This is true on both sides of the line. What people need is to be able to get through, do their work and catch the boat. In some cases it is impossible to do this because of the regulations. The matter is being taken up with the officials with a view to efforts being made to expedite travel.

Over 400 Guests Made Merry for Two Days During Ceremony

SMOKY LAKE, Nov. 5.—Celebrated according to the old Ukrainian traditions was a recent wedding here. It began on a Wednesday evening, the young people gathered at dinner at eight o'clock, and Ukrainian dishes were served. Then old folk songs were sung and dancing went on in the open air, a platform hedged by evergreens having been erected and the revellers made the most of the five pieces orchestra. Next morning the bride, bridegroom and bridesmaids went to the local Orthodox Church and were married. After their return home, the time had come for the elderly and married couples for enjoyment. They all had lunch, sang and danced. The revellers made merry until Friday morning. It was easily one of the largest wedding ceremonies ever held in New Canadian communities. Over 400 guests were present.

Church Hampered by Unintellectual Beliefs Which Weaken Influence

LONDON, Nov. 5.—"The churches cannot afford to be hampered by unintellectual beliefs which greatly weaken their influence on those who are worth influencing; religion stands on ground which cannot be assailed; it has no use for rickety defences." Such were the words in which Prof. J. S. Haldane, of New College, Oxford, brother of England's lord chancellor, told the Conference of Modern Churchmen of the harm done to Christianity by ancient dogmas which, he said, were not in keeping with present-day knowledge. He was discussing biology and religion. Prof. Haldane admitted that he was not a church member and proceeded to tell the conference the reason why.

"I am one of many," Prof. Haldane said, "who are kept away from existing churches by dogmas we cannot honestly countenance. There is, perhaps, a still larger number who are actively hostile because they regard churches as hotbeds of superstition."

Continuing, the speaker said: "If I belonged to a church at all it would be to my own Scots church, for the one reason that it possesses the advantage of having no prayer book."

Hazleton Hospital. He was a Farmer Government for Return of Taxes

EDMONTON, Nov. 5.—There is a fight on between the Union of Municipalities and the Farmer Government over the proportion of taxes collected from the cities and utilized by the province for general revenue purposes. The cities claim that money collected from autos, gasoline and other similar taxes should be shared with the cities as is done in British Columbia. The Farmer government so far is sitting tight.

The Edmonton city council is bringing pressure to bear on the Government to secure a share of the taxes for road building and other purposes.

**NEW COQUALEETZA HOME IS OPENED**

Accommodation Provided for 200 Pupils Under Auspices of Methodist Church

Owing to the large number of Indian pupils sent annually to Coqualeetza Institute, the following account from the Victoria Times of the opening of the new home will prove of interest here:

The new Coqualeetza Institute at Sardis in the Fraser Valley, the most imposing residential school for Indians, was opened with befitting ceremony on Tuesday. Commissioned W. E. Ditchburn has returned from representing the Indian Department, which was also represented at the ceremony, which took place in the afternoon, by R. H. Cairns, Inspector of Indian Schools, and A. N. Daunt, Indian Agent. Mr. Ditchburn presided at the afternoon meeting at which Rev. Dr. C. E. Manning, general secretary of the Methodist Church in Canada, unlocked the new building as representing that church, and at the evening banquet Principal G. H. Raley presided, the commissioner replying for the Indian Department by quoting the history of educational expenditure for the Indians in B.C. since Confederation.

Among those attending were Rev. C. M. Tate and Mrs. Tate, who first began the work in 1880, and were honored as the founders; Rev. T. Ferrier, superintendent of hospital and Indian education for the Methodist Church in Canada; Rev. J. P. Westman, president of the B.C. Conference; Elgin Munroe, M.P.; Rev. O. Darwin, D.D., superintendent of missions, and Rev. J. H. White, D.D., his predecessor in that office.

The building is the third to house a mission school, the first being destroyed by fire in 1911, and the recent building erected in 1893 having been removed this summer after completion of the new building.

Mr. and Mrs. Tate, who are now living here after a lengthy association with British Columbia Methodism, were honored with the leadership of the procession when the new building was dedicated. A message of congratulation was received from Dr. D. C. Scott, Deputy Superintendent-General of Indian Affairs, who laid the corner stone of the main building on July 28, 1923, when on an inspection trip to the coast.

Educational work up to the first year of high school work and all social activities are carried on. There is accommodation for 200 pupils.

**AIR SERVICES ARE PLANNED**

Sir Sefton Brancker Tells of Work Being Done Toward Development of Travel

LONDON, Nov. 5.—(By Canadian Press).—Canada to England in two and a half days!

This was one of the possibilities of the air which read like dreams, mentioned in a paper on Imperial Communications delivered by Air Vice-Marshal Sir Sefton Brancker at a conference of the Institute of Transport at Wembley.

Sir Sefton declared that "the rapidity and efficiency of our Imperial communications may well be the measure of our success or failure," and afterwards visualized the future. Among other things he predicted were:

Air services to Australia from Singapore via Dutch East Indies; British East Africa to the Mediterranean; British West Indies to Guiana; Calcutta to Rangoon; British bi-weekly service to India and Australia, the through journey in 11 days, possible trip and back in a month's holiday; British weekly service to the Cape by way of west Africa in five days; regular Atlantic airship lines; Canada to England in two and a half days; aeroplane and flying boats between British East Africa and Egypt, saving 14 days in trip to London; flying boat services throughout the West Indies and Guiana; considerable development in cross-channel traffic.

Sir Sefton also spoke of aircraft which could be operated cheaply by perfecting a heavy oil engine suitable for aircraft. This is already on the experimental bench.

Referring to the development of the airship as a commercial vehicle, the Air Vice-Marshal said that two big ships had been ordered, and while their construction was in progress, the Government would prepare air ports in India and at some halfway station, probably in the Canal Zone. As soon as this half way station was completed R-33, one of the old ships, would

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e. carrying not 8,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that range.

Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emption must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price for first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMELESS AREAS, not exceeding 20 acres, may be leased as homesteads, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

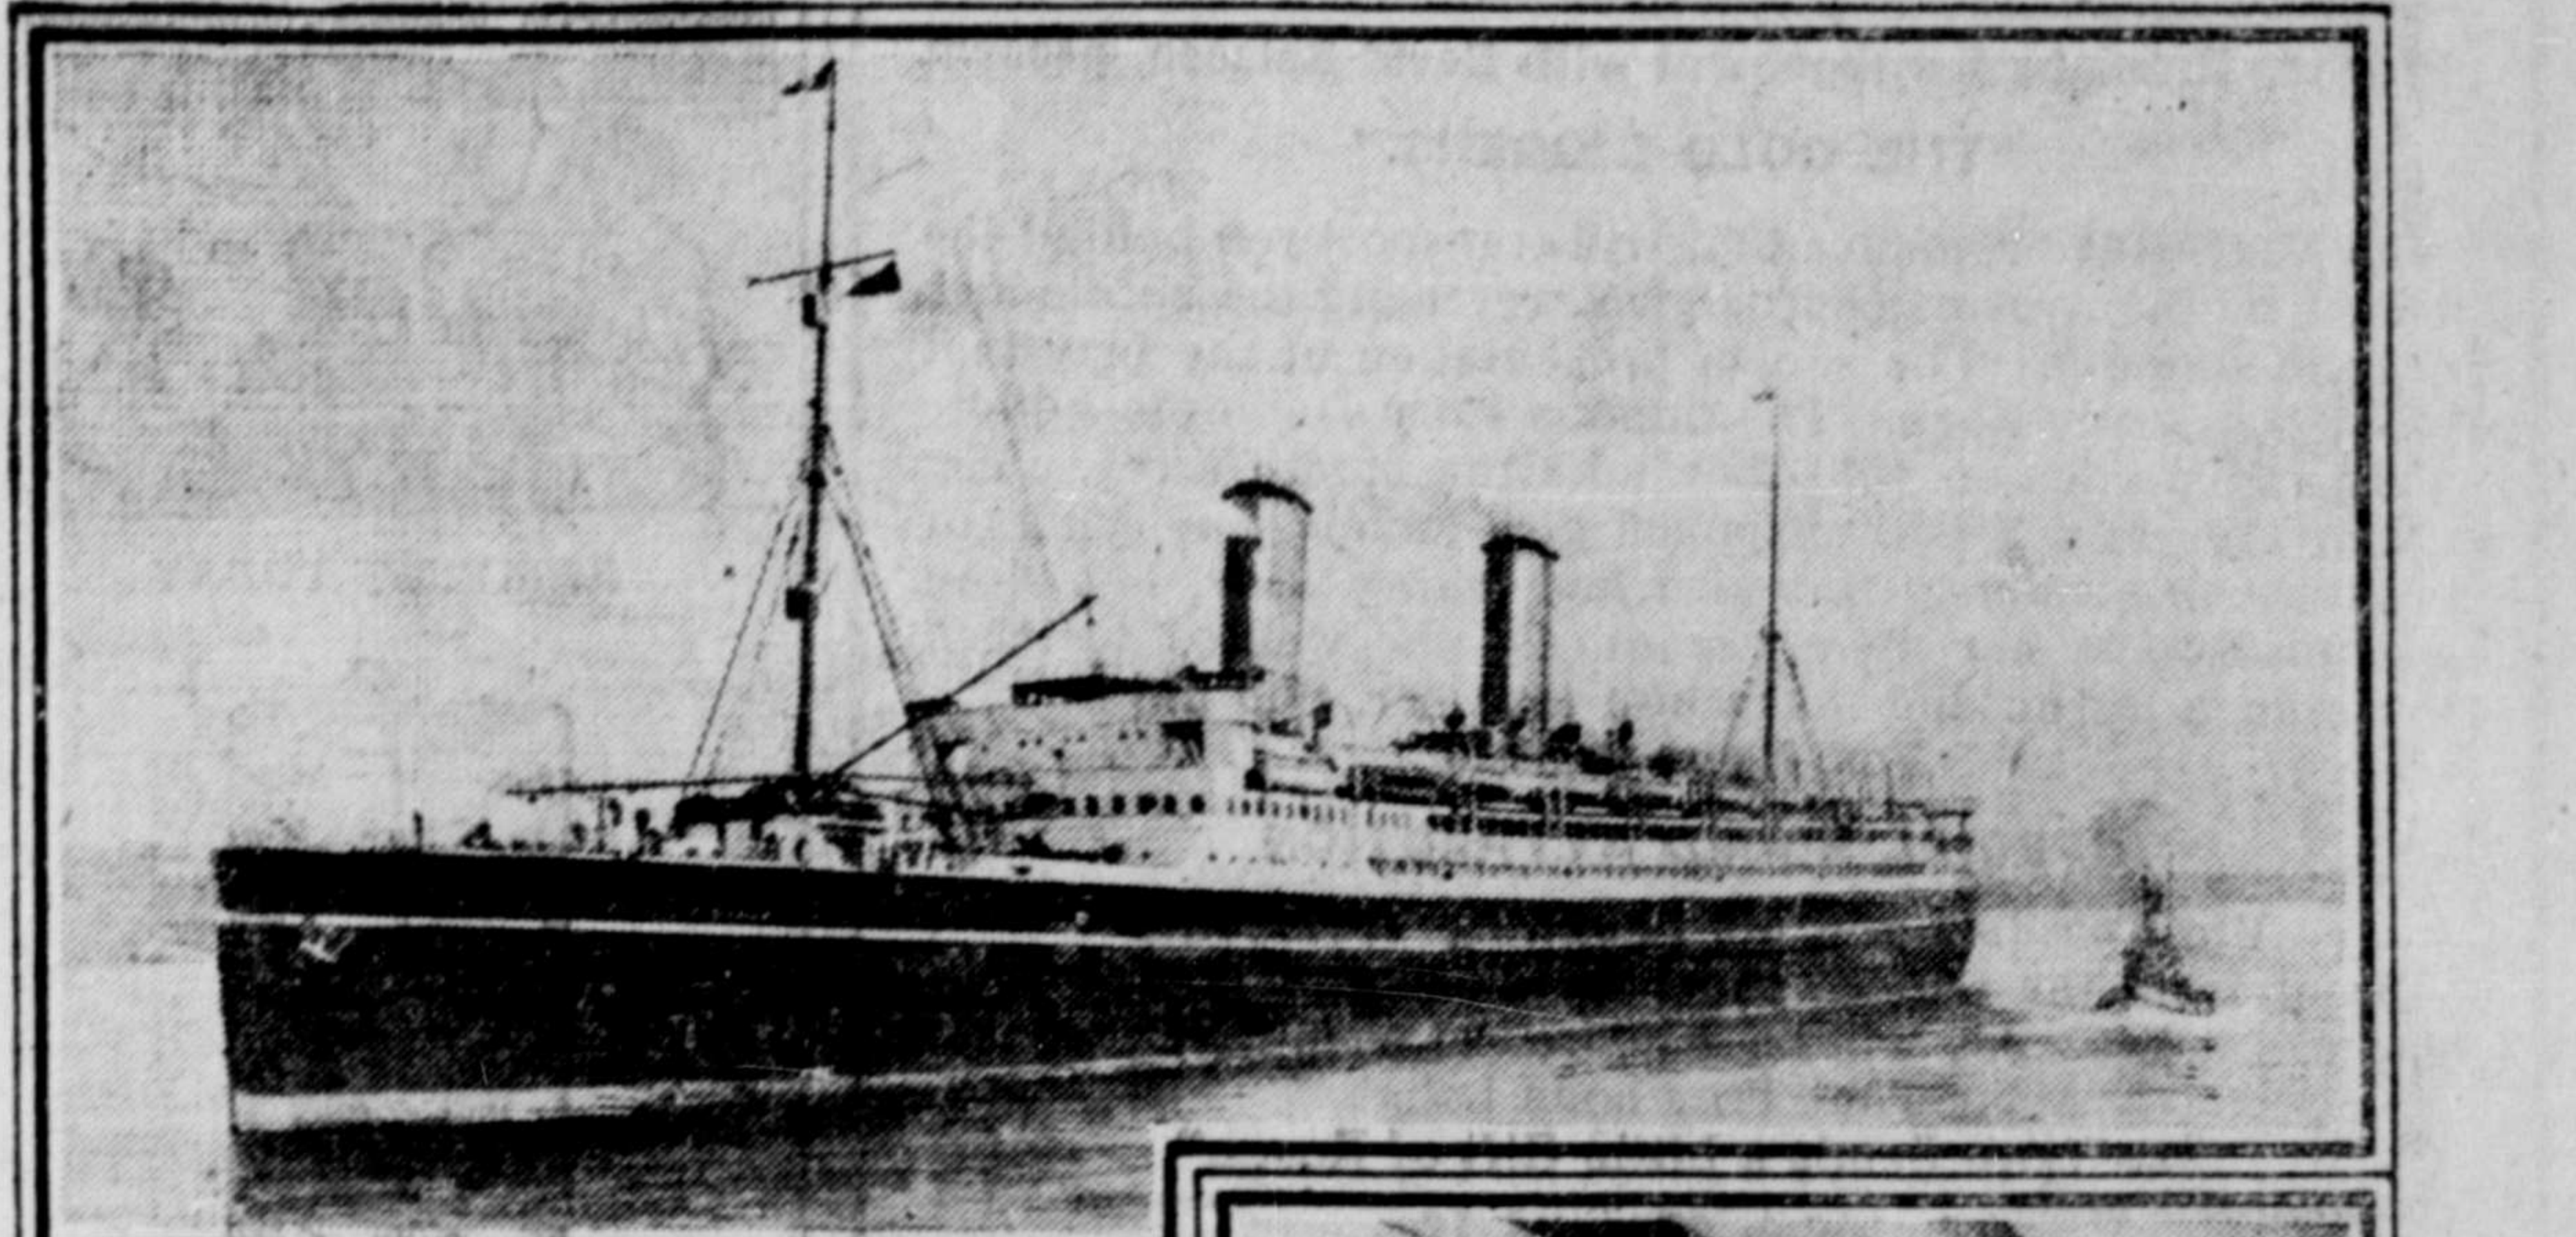

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Fees, or partly free, permits are available for settlers, campers and travellers, up to ten head.

To See What Other Half Is Doing.

Above—The Canadian Pacific S.S. Empress of France chosen to carry the Canadian flag round the world in 1925. Right—The bedroom of one of the suites aboard the vessel.

One reads almost daily that so many automobiles have been shipped to foreign countries, that Canadian agricultural implements and other manufactured articles are finding foreign markets, and now one reads that there is an increasing demand in China and Japan for Canadian wheat and that thousands of bushels of grain are being shipped to Oriental Ports. Of vital importance is this news to the Canadian, because the growth of Canadian exports means that new industries are being created, that more employment is guaranteed, that more money is placed in general circulation, and that there are more opportunities for the workman, manufacturer and commercial man, and a larger home market for the farmer.

But it means more than all this. The increasing demand for Canadian, American and European goods, which is apparent, means that the other half of the world—the world itself—is changing. The automobile is gradually replacing the rickshaw and the one horse cabs in the gateway ports of the world, and is working its way inland, not so slowly as it is surely. Fields that once knew only the primitive agricultural implements are being tilled with up-to-date machinery, and on the busy streets where people thronged in picturesque and native garb, the occidental costume does not strike a strange note. Customs are changing even in respect to foodstuffs. Outside the little restaurants one sees "English Speak Here", and knows that inside it will be harder to procure a native dish than a European one. Everywhere there is change. The Turks abolish their caliphate and their harems. The Greeks proclaim a republic, education for women appears in India. The Chinese are erecting modern factories.

Yet the world of romance still exists. Foreign countries still hold an allurements, and always will, but as the occidental civilization spreads, the Oriental atmosphere which, after all, is what the tourist goes to find, disappears before it, and the man of today has opportunity which those who come later will never see. Opportunity to see and come in contact with old customs, costumes, crafts and civilizations which are entering or about to enter a transient stage. Opportunity to experience the picturesque life of the other half of the world and to absorb at will the colorful atmosphere of strange lands; for the traveller may still feast his eyes upon the barbaric splendors of Peking and experience the thrill of shopping in the tumultuous market place at Cairo. The auto has not yet replaced the ledge which taxis through the steep and cobbled streets of Madeira.

January 14th next will see the palatial Canadian Pacific S.S. Empress of France leave New York on a globe encircling tour which will extend over 130 days. It will be a cruise which will embrace twenty-seven "Gateway Ports", and give the passengers opportunity of coming into contact with more than half a hundred different ports. Madeira, Monaco, Naples, Haifa, Padang, Shanghai, Taku, Hilo, Balboa and Havana are but a few of the interesting ports of call, and inland excursions will be made to Jerusalem, Cairo, Agra for the Taj Mahal, Peking, Nikko and other places. Last year another Canadian vessel, the Empress of Canada, made a similar trip—a very successful one—and the first to be operated under Canadian Pacific auspices throughout. A Mediterranean cruise is also planned this year by the Company, the Empress of Scotland being scheduled to leave New York, February 9th on a 62 day voyage, and, in addition, the Montroyal, formerly the Empress of Britain, will make two cruises between New York and the West Indies, one on January 20th and the other on February 21st. So it is seen that there is demand not only for Canadian foods, but for Canadian vessels, these last having won for themselves an enviable reputation on both the Atlantic and Pacific waters as seaworthy and comfortable ships.

**BUSINESS REVIVAL IN BERLIN FOLLOWS SIGNING OF TREATY**

Hotels Crowded and Theatres Opening and Preparations Made for Great Activity

BERLIN, Nov. 5.—Amazing changes have come about in Berlin with the opening of the new theatrical and musical season, the business revival effected by the stabilized rentenmark, and the adoption of the agreement worked out at the London Conference for the execution of the Dawes plan.

High-priced hotels are crowded; there are theatre and opera openings almost nightly; various German commercial organizations are holding conventions and conferences; directors of various shipping companies are preparing for the extension of their activities and hotelmen have been encouraged to greater activity. Hotel lobbies are more brightly lighted and private dining rooms are again entertaining many parties. Berlin hotel keepers are especially jubilant over the dropping of the tax of 15 per cent which the city has imposed on all foreigners occupying rooms in Berlin.

Berlin's leading hotels are taking on an especially international aspect, and celebrities from all parts of the world are again appearing here as in pre-war days. In the lobby of a single hotel Mrs. Katherine Tingley, Ganna Walska, Ossip Gabrilowitsch, Isadora Duncan, Mr. and Mrs. Rufus Dawes, H. M. Robin-

#### NOTICE

TAKE NOTICE that with effect from date I intend to apply to the Minister of Lands for authority to construct a road to exceed forty (40) feet in width from the Engineer Mine to Wann River and across the underground mineral claims, viz: the "Jersey Lignite Mine," "Fractional Gold Mine," "The Boy," "Jack & Jay," "King George," "Brownie No. 4." All situated on the East side of Taku Arm, in the Atlin Lake Mining Division, Cassiar District, Province of British Columbia. Also to construct such power line as may be requisite and necessary for transmission of power from the Cassiar plant situated on Wann River to the plant operated or controlled by the Engineer Gold Mines Ltd., Inc. Dated at Vancouver, B.C., 22nd day of October, 1921.

ANDREW SOSTAD, Agent for Engineer Gold Mines Ltd., Inc.

about two to one over the Senator with approximately one-third of the precincts in the state heard from.

The first precinct reported in Seattle gave President Coolidge more than a three to one lead over Davis and La Follette. Hill, the Democratic candidate for governor, had almost as heavy a lead over Hartley, the Republican nominee, and Oman, Farmer Labor candidate.

Though the tide in the east was going strongly against them, Democratic leaders in New York last night were hoping that the

West would turn the trick in their favor as it did for Wilson in 1916.

South True to Form  
Reports from most of the section beyond the Mississippi last night were still of a most fragmentary character but they gave President Coolidge the best of it in some of the larger states. All the southern states including Tennessee, Oklahoma, Kentucky, Texas and Missouri, were piling up majorities for Davis. The south had apparently returned by the usual vote its Democratic candidates for the Senate, except in Oklahoma where J. C. Walton was running behind.

The election of two Republican senators, Borah of Idaho, and Capper of Kansas, was conceded last night.

Coolidge carried California in spite of early and incomplete returns which favored Davis.

### OVERWHELMING VICTORY FOR COOLIDGE IN UNITED STATES ELECTION WITH LA FOLLETTE PRACTICALLY EXTINGUISHED.

(continued from page 1)

turns from two thirds of the seats showed that the Republicans had made a net gain of around a dozen. The election of nine Democrats and nine Republican senatorial candidates is definitely known with the Republican leading Democratic opponents in several other states.

#### Early Returns

NEW YORK, Nov. 5.—Early returns last night indicated that President Coolidge was leading his two opponents by an overwhelming majority in New England, New York, Ohio and Illinois. With these three big blocks of the electoral vote, the president was likewise holding the advantage, but by a lesser margin, in several of the states that had been claimed by the Davis and La Follette managers in their pre-election forecasts. These included Iowa, West Virginia and Maryland.

So sweeping was the Coolidge tide that, at 9:30 standard time last night, the New York World, Democratic organ, conceded the election of Coolidge at the same time claiming New York State for Governor Alfred E. Smith, Democrat, despite the tremendous lead of his Republican opponent, Theodore Roosevelt, jr. in the upstate counties. The Brooklyn Eagle, strong Democrat, declared that Coolidge's victory was apparently a landslide and that, unless there was a slump in the Far West, Coolidge would be elected with a vote in the electoral college nearly as large as that given the late President Harding in 1920. The New York Evening Journal, Independent, said the indications were that Coolidge would receive a substantial majority in the electoral college and relatively a much greater popular vote throughout the country.

The first returns, coming in largely from New England and the East, gave Coolidge a heavy lead over Davis and La Follette. In Massachusetts, Coolidge's home state, the president led Davis 7 to 1. The south was returning its customary Democratic majority.

#### Smith as Governor

Charles D. Hilles, Republican national committeeman, informed the White House shortly after 10 o'clock last night that indications were Al Smith would defeat Theodore Roosevelt, jr. for governor by about 84,000. At 11:30, the New York Tribune, which was supporting the candidacy of Roosevelt, conceded the re-election of Governor Smith by about 100,000 votes.

La Follette headquarters at Des Moines, Iowa, conceded Iowa to Coolidge at 10:15. At that time, the president had a lead of

### RUPERT HOUSEWIVES BECOME BUSINESSLIKE

The housewives of Prince Rupert are no longer content to believe that a certain brand of goods is the best in the world or that it will last longer. They are realizing that the only proper way to find out which brand is the best is to make a practical test in their own homes and compare values. This is just as it should be.

And the merchant who has the superior article welcomes the acid test of comparison because he knows his chances of selling are improved.

More Prince Rupert women than ever before are testing coal, trying to discover the most economical fuel for furnace, heater, fireplace or range. Those who have tried agree that Nanaimo-Wellington is very much superior. They say less quantity need be used, that there is very little ash and no clinker or rock. These are some of the reasons for the many repeat orders.

To secure this famous Nanaimo-Wellington coal, orders should be phoned direct to Albert & McCaffery who are sole agents in Prince Rupert. Their phone numbers are 116 and 564.

They have their own delivery trucks and wagons and give prompt service. Watch them and be convinced that most of the people in Prince Rupert burn Nanaimo-Wellington coal. There's a reason. Ask the woman who burns it.
