STUART MACLAREN IS REPORTED MISSING

CHURCH UNION BILL FINALLY PASSES PARLIAMENT AND BECOMES LAW

Stuart MacLaren Fails to Arrive at Paramashira and is Reported Six Hours Late

TOKIO, July 16.—Stuart MacLaren, the British round-the-world aviator, who left here this morning for Paramashira has not arrived and is six hours overdue. He was to have landed today and a Japanese destroyer has set out to search for him and his airplane, according to a report from Paramashira today.

When MacLaren set out the weather seemed favorable and the expectation was that he would make good progress.

Paramashira is on the Keurile Islands belonging to Japan.

SASKATCHEWAN VOTING TODAY PROHIBITION

Effort Being Made to Change Law as at Present Favor of Government Control

REGINA, July 16.—The people of Saskatchewan are today registering their expression of opinion on prohibition in a plebiscite ordered by the Legislature.

If there is a decisive majority against the principle of prohibition, there will be established a system of Government control of liquor sales somewhat similar to that obtaining in the two provinces to the west, Alberta and British Columbia. Should prohibition be upheld or be defeated by only a small majority, the Saskatchewan Temperance Act will be continued in force.

FISH PRICES ARE HIGHER

Cold Storage Demand in Alaska Causes Scarcity Here of American Product

The price of fish on the local exchange was higher this morning, influenced doubtless by the small supply. Owing to the close season regulation cold storage plants in Alaska have been buying more eagerly than usual and American boats have sold their catches at Ketchikan and other ports instead of coming here. This morning only 32,500 pounds was offered and but one American boat was in port with her catch. Prices ranged from fifteen to eighteen cents. Following were the sales:

American
Hazel H., 5,000, to Booth Fisheries, at 17.80 and 9.

Canadian
Nuha, 9,000, at 16.10 and 8 to Booth Fisheries.

Impereuse, 6,500, to Booth Fisheries at 16 and 8.

Toodie, 19,000, to Atlin Fisheries at 15.80 and 8.

N. & S., 2,000, to Cold Storage at 15 and 8.

FUNERAL NOTICE

Members of the Mooseheart Legion and of the Loyal Order of Moose are requested to meet at the Metropole Hall at 2 p.m. Thursday, to attend the funeral service of the late Mrs. Kerr.

Mrs. E. LARSEN.

RIOTING AT DELHI RELIGIOUS STRIFE

DELHI, July 16.—Six persons were killed and more than one hundred wounded in rioting yesterday between Mohammedans and Hindus.

COURT OPINION ON EIGHT HOUR DAY

Supreme Court of Canada to Decide Whether Provinces Have Jurisdiction

OTTAWA, July 16.—Reference to the supreme court of Canada for an opinion as to whether the Dominion or the provinces have jurisdiction in regard to the eight hour day is recommended to the House of Commons today by the select committee on industrial and international relations in their final report to the federal government.

BEAR ARRIVING AT NOME TODAY

NOME, July 16.—After fighting ice floes, which put dents in her hull, the United States cutter Bear will arrive here late today according to a wireless message received from the ship.

ELECTRIC STORM WAS VERY WIDE SPREAD EXTENDING 100 MILES

NOME, July 16.—After fighting ice floes, which put dents in her hull, the United States cutter Bear will arrive here late today according to a wireless message received from the ship.

ACTRESS DIES

BEXHILL, England, July 16.—Winnifred E. Murray, the actress, who was in private life Mrs. Cyril Maude, is dead.

YACHT CLUB TO HOLD A PICNIC

Committee Appointed to Carry Out Arrangement For Big Event

OTTAWA, July 16.—Canada has been invited to attend a conference late this year to discuss inter-imperial relations with the British Government and the other Dominions, the Premier announced.

BOY FELL THIRTY FEET FROM ROADWAY

Roy Morrison Had Dangerous Accident but is None the Worse Today

A cycle accident which might have been attended with serious consequences, occurred last night Benson, the youngest son of Capt. and Mrs. Jim Morrison, Third Ave. East. Roy was R. E. Benson, Geo. Rorie, Dr. W. T. Kergin, Dr. J. P. Cade, and Alex. McRae, secretary. When he lost control of the machine and ran over the edge of the roadway taking a drop of some thirty feet to the rocks below. However, but for a severe shaking the little fellow appeared none the worse for his fall and is around today as bright as ever. The cycle was badly bent by the fall.

COURT OPINION ON EIGHT HOUR DAY

Supreme Court of Canada to Decide Whether Provinces Have Jurisdiction

OTTAWA, July 16.—Reference to the supreme court of Canada for an opinion as to whether the Dominion or the provinces have jurisdiction in regard to the eight hour day is recommended to the House of Commons today by the select committee on industrial and international relations in their final report to the federal government.

BEAR ARRIVING AT NOME TODAY

NOME, July 16.—After fighting ice floes, which put dents in her hull, the United States cutter Bear will arrive here late today according to a wireless message received from the ship.

ACTRESS DIES

BEXHILL, England, July 16.—Winnifred E. Murray, the actress, who was in private life Mrs. Cyril Maude, is dead.

An element of grim humor entered the tragic Leopold-Loeb case of Chicago when someone sent each of the confessed slayers a box of lilies. States attorneys are here shown examining the flowers.

BUILD RAILWAY SALMON RIVER HANES BEATEN BY LIBERAL

Articles of Incorporation Filed For Line From Hyder to International Boundary

VANCOUVER, July 16.—The Articles of incorporation have been filed in Juneau for the Terminal Railway and Power Co. of column as the result of the absentee vote, the final figures giving the Salmon River Bank, of Hyder, being J. Arthur Hall, president of the Hyder townsite; P. R. R. F. Cruise, Provincial ... 4,150

Backus, mining and civil engineer, a pioneer of this district who has had a wide experience in railroad work, and Jas. R. Keefer, a prominent attorney of Seattle, says the Portland Canal News.

Mr. Hall, when seen by the News, said that while it is too early yet to go into details, only the preliminary steps having been taken, it is the intention to go ahead with construction at the earliest possible moment, the district having reached a point in its development where more adequate means of transportation than those now available, are an absolute necessity.

Roughly, it is the plan of the company to construct a standard-gauge railroad up the Salmon Valley from Hyder to the boundary line at 43-mile, with a spur up Texas creek. Later the main line may be extended to the head of the Salmon basin, depending, of course, on tonnage available.

CANADIAN ROWERS ARE IN THE FINALS

PARIS, July 16.—The Canadian eight-oared crew from the Toronto University today won the right to compete in the finals of the Olympic competition by winning the race between the crews which had finished second in the original heats.

Ald. Collart Challenged

As a result of a majority of the City Council having passed a motion of repudiation upon me at Monday evening's meeting, I hereby challenge Alderman Collart, as the prime mover, to resign, as I will do, in order to enable the Prince Rupert electors to decide the issue as to whether I shall or shall not speak on their behalf.

S. M. NEWTON.

Church Union Bill has Passed Parliament and Is Now Law of Land

OTTAWA, July 16.—The Church Union Bill became law last night when the House of Commons adopted the Senate amendment providing for a vote either by ballot or at a church meeting of the congregation wishing to remain without the United Church.

The union of the Presbyterian, Methodist and Congregational Churches has been advocated for many years, as in matters of doctrine there is very little difference between them, the distinction being largely one of church government. Following

REPARATIONS CONFERENCE OPENS TODAY

In Force Next Year

The new law comes into force in June 1925. The Methodists and Congregationalists have been unanimous in regard to union but in the Presbyterian Church considerable opposition has developed and at the last General Assembly about twenty per cent of the representatives opposed the movement. Some congregations have intimated that they will break away from the new union church and continue the old Presbyterian Church as a separate entity. It is generally thought, however, that much of the opposition will break down when the union is effected.

The permission of Parliament was not sought in order to unite the churches but simply to incorporate for the purpose of holding property. The Methodist Church is already incorporated but the Presbyterian Church is not. Had the Presbyterian Church been an incorporated body it is said that union could have been brought about without the sanction of Parliament.

1700 UNION CONGREGATIONS

Under the new scheme a governing body will be formed combining some of the features of each church but conforming most closely to the present Presbyterian plan, most of these being in mission districts where the churches are not self-supporting.

It is anticipated that no change will take place locally. Two churches are affected, the Presbyterian under the pastorate of Rev. H. R. Grant, D.D., where a new church building is to be erected, and the Methodist Church in charge of Rev. G. G. Hacker, which receives a small support from the Methodist mission fund. Both congregations will be independent, just as today two Presbyterian congregations may be independent in the same city, but they will each send delegates to the district governing body.

MANY ATTEND EXHIBITION

Wembley Attracts Thousands and Proves of Educational Advantage to Children

WEMBLEY, July 16.—One of the educational features of the British Empire exhibition here is seen in the immense number of British school children who are attending. Every day sees excursions of children from almost every part of the Kingdom. Scotland sends her quota and by the time the season is over it is estimated that hundreds of thousands of the children of Britain will have gained some conception of what the Dominions stand for in the Empire.

In addition to the children's excursions there are general excursions every day and a dozen lines of buses run constantly from different parts of London.

Visitors from overseas are arriving daily and especially from the Dominions and Colonies. Many foreigners, too, are visiting the exhibition and thousands of Americans are crossing on every ship.

**Conservative Leadership
Not Much Squashed For.**

According to advices received from the south the leadership of the Conservative party is not considered a very attractive position. Before the election it might have been, as there was then a chance of the leader becoming premier. Now the leader has been defeated and probably will retire from public life, and the men who might have assumed the leadership early in the summer do not want the job. A period of four or five years in opposition is not one to be envied.

No Leader At Present In Sight.

There is no strong leader in sight at present. Colonel Peck is a useful man but scarcely a political leader. R. H. Pooley is not exactly of the calibre of men who leads parties to victory. There does not seem to be one good speaker among the opposition members unless he is developed from the rank and file. Rev. Joshua Hinchliffe has no personal magnetism nor has he ability to handle large questions in a large way. In the Legislature he has been given to quibbling over petty things rather than dealing with the important things of state.

In order that good government may follow it is very desirable that the opposition should have a leader who is an able and yet constructive critic. He must be a man with clear mind and clear speech and able to inspire his followers. With such a man at the head of the group to the left of the speaker we may look for much better legislation than could be expected with only a weak opposition, poorly led and without that enthusiasm which comes from good organization and able leadership.

Compensations In Everything.

The law of compensations works in every walk of life. Take the matter of weather. Here there has been an excess of dampness and we have worried somewhat at the dreary sight of tourists getting wet through and being unable to see the mountains. At the same time residents in some other districts are losing their crops from an excess of drought and forest fires have been taking their toll of life and property in others. Taken on the whole, Prince Rupert is a good place in which to reside, although California is warmer and anyone wishing extremes of hot and cold would do well to try the prairies.

Using Fish For Reduction Purposes.

Under the heading "Pilchards Are Wasted," the Vancouver Sun says: Bills are before parliament to reduce the licence fees on British Columbia canneries, to regulate the by-products and to impose a tax of 25 cents a ton on dry salt herring in this province.

Doubtless these measures are conceived for the good of the fishing industry here, but they will not accomplish a tithe of the benefit that would accrue by the simple expedient of throwing open District No. 3 for the reduction of pilchards into fish-meal, oil and fertilizer.

Pilchards are most prolific. Nature herself has to step in to prevent them choking up the seas. No quantity that can be seined will deplete the shoals.

But a stupid restriction prevents utilization of this great gift and the creation of the industry which might be based on it.

Your pipe tobacco, always in its original fine condition—when you buy OGDEN'S CUT PLUG in the 1/2 lb. vacuumized tin.

THE DESTINY OF A GREAT PROVINCE**FOREST INDUSTRIES OUR MAIN FACTOR IN PROVINCE'S EXPORT TRADE****A Twelve-fold Increase in Shipments in Ten Years**

As more and more of her products are carried along the trade routes of the world, so is British Columbia fulfilling her destiny of becoming the greatest maritime trade centre on the Pacific. The forest products industries of British Columbia are taking by far the greatest share in building up the export trade of the province.

Fully sixty per cent of the big vessels that travel down the sea lanes of commerce from the ports of British Columbia carry full or part cargoes of wood products to the principal markets of the world.

Creates Offshore Trade

It must be remembered that as the lumbering industries have been the main factor in creating our offshore trade, so would their defection at this time mean a sudden eclipse of British Columbia's commercial aspirations.

The following figures give some idea of the growth of the Province's lumber export trade: In

1894 B.C. exported 36,000,000 feet lumber.
1904 B.C. exported 33,000,000 feet lumber.
1914 B.C. exported 41,000,000 feet lumber.
1923 B.C. exported 521,000,000 feet lumber.

Over \$12,000,000 was paid out in ocean freights last year on wood products exported from British Columbia.

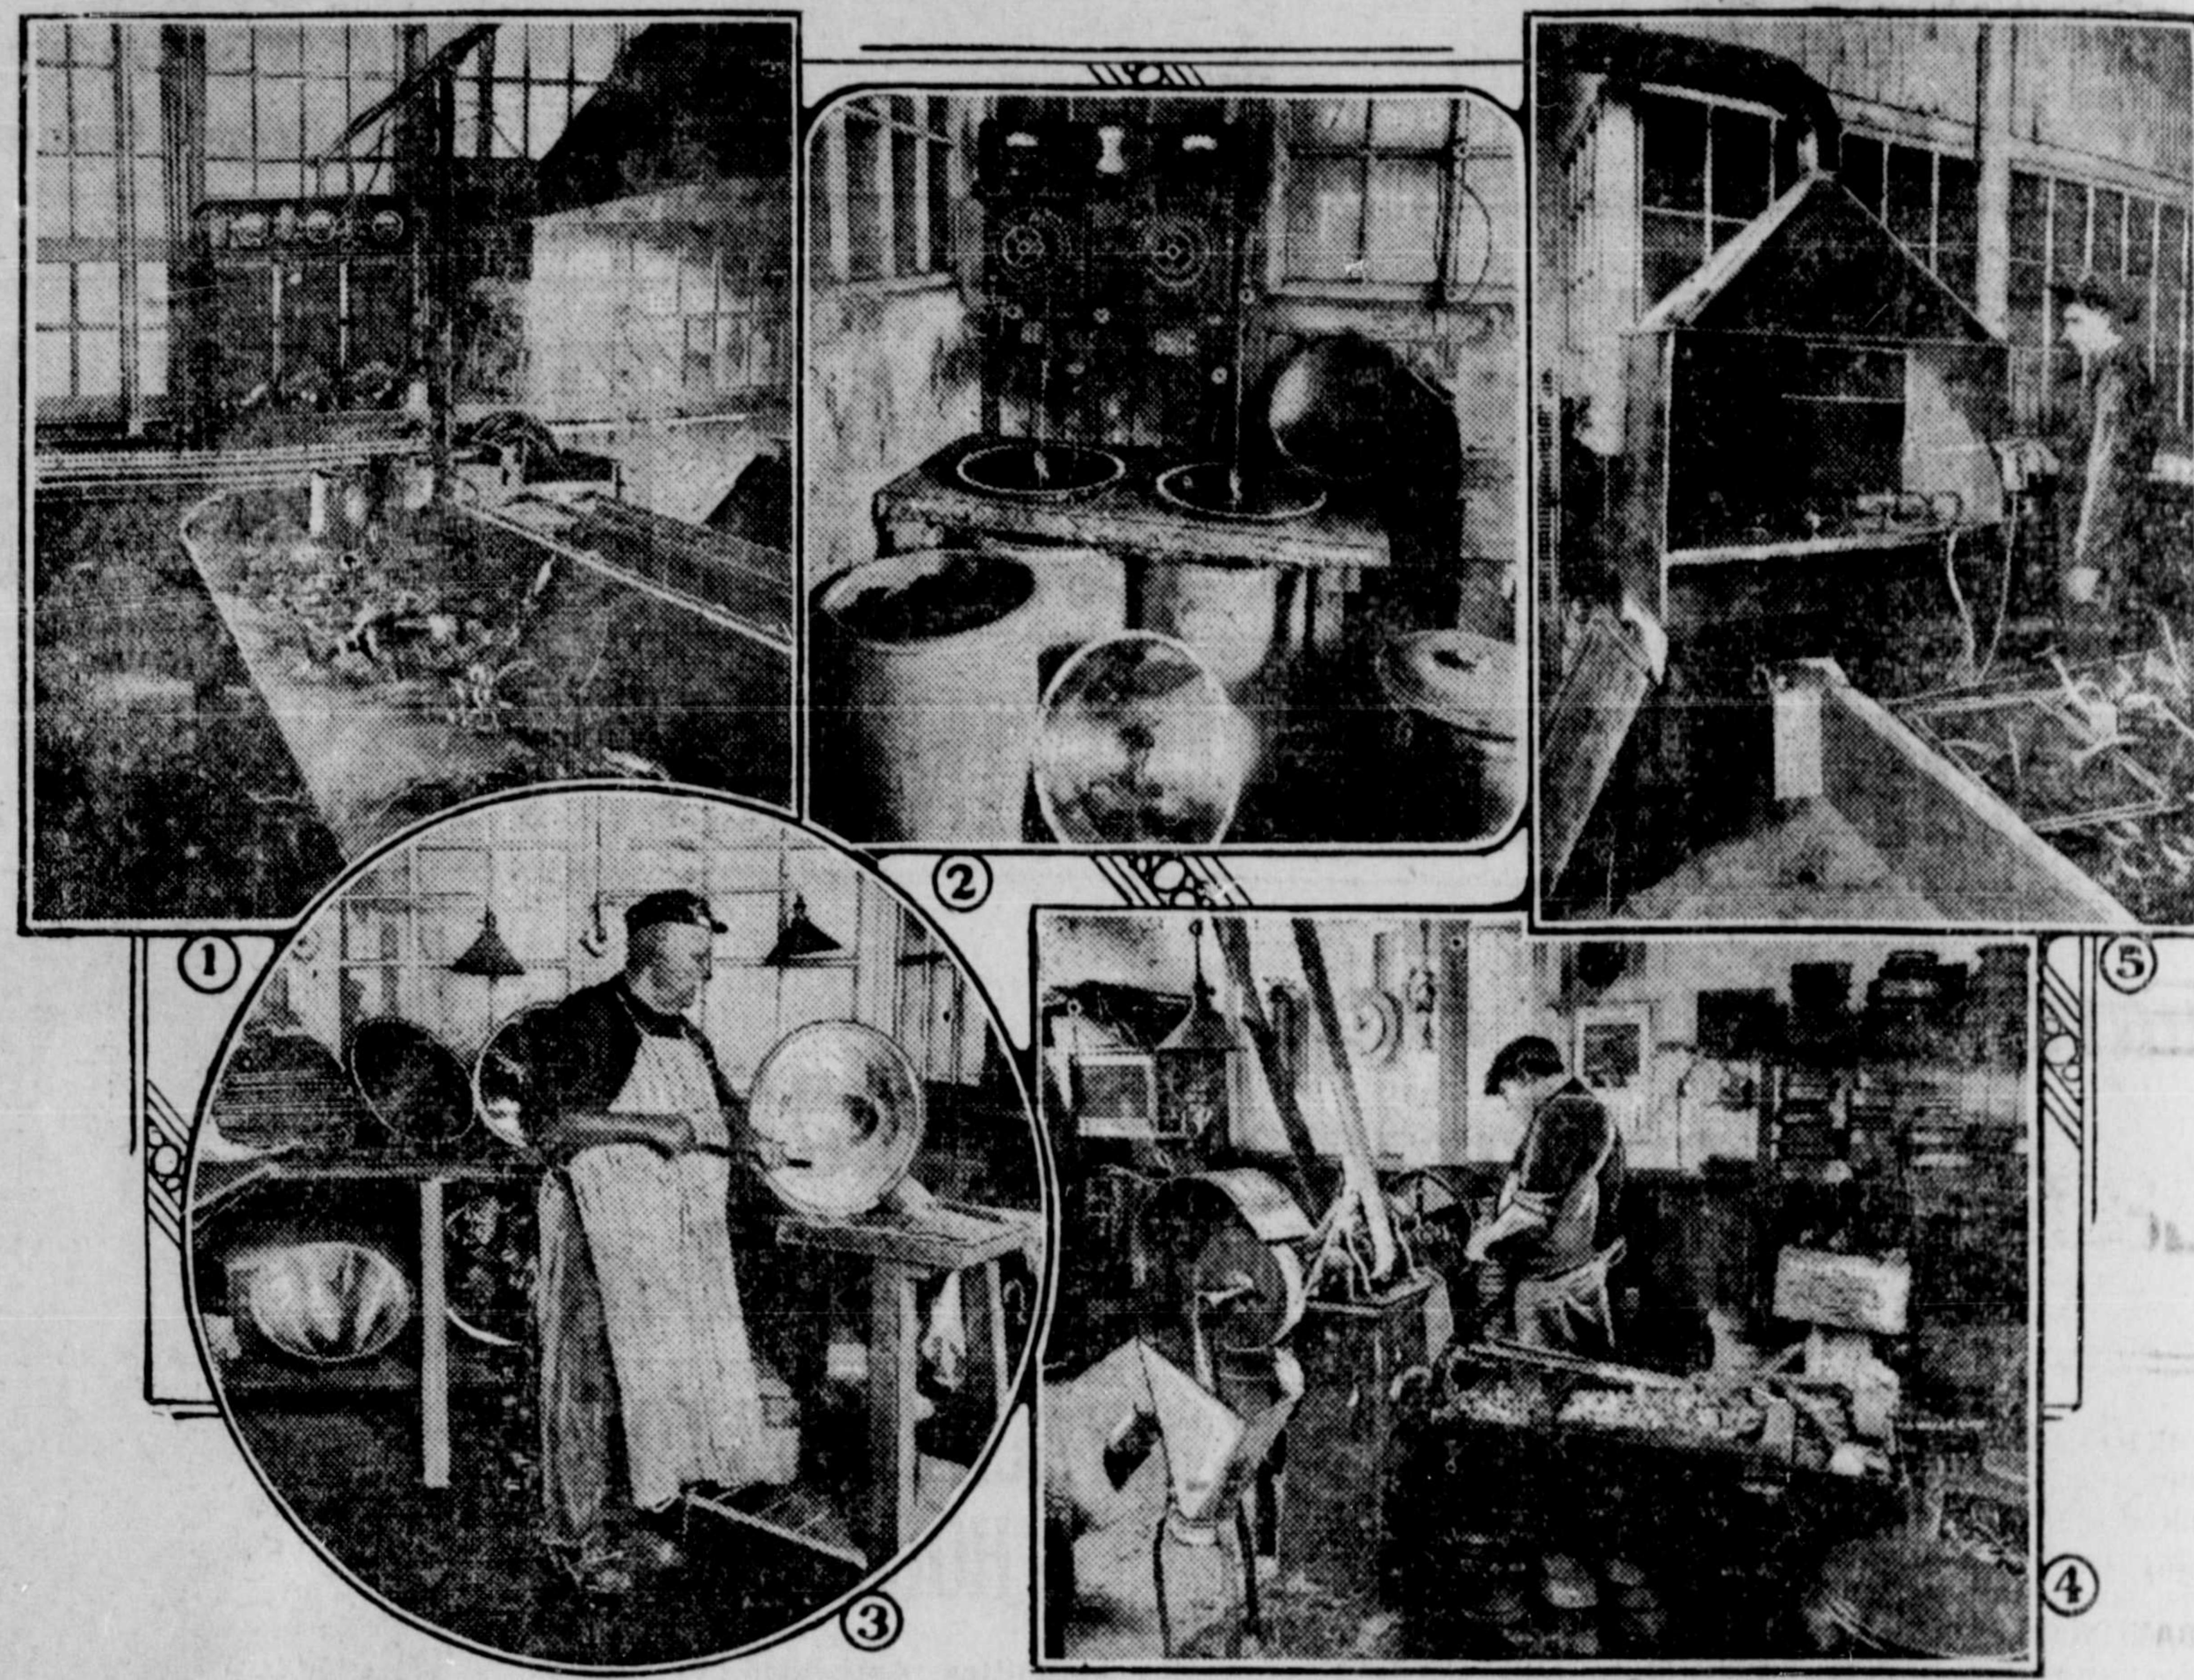

It is this business that is attracting so many big ships upon whose comings and goings our ports are dependent for their very existence.

This series of articles communicated by the Timber Industries Council of British Columbia.

VANCOUVER ISLAND WANTS NAME CHANGE**Objects to Being Overshadowed by Big City at Terminus of C.P.R.**

VICTORIA, July 16.—Resolutions from the Victoria Chamber of Commerce for the consideration of the Associated Boards of Trade of Vancouver Island at the convention to be held in Courtenay, August 21, will be drafted by a committee consisting of C. P. W. Schwengers, president; B. G. Nicholas, vice-president; Alderman A. E. Todd, M. P. Blair and George L. Warren, secretary. From the same committee will be named the delegates who will present the Victoria Chamber at the convention. M. P. Blair as vice-president of the Associated Boards, will be one of the Victoria men who will attend.

The proposal that a change be made in the name of Vancouver Island so that Victoria can reap the full benefit of its publicity for the city and the Island will be among the outstanding matters to be discussed. A mass of evidence in support of the argument is available and numerous instances of confusion between Vancouver Island and Vancouver can be quoted. The Island Boards of Trade have shown great interests in the subject whenever it has been brought forward and suggestions that steps be taken in an effort to change the name have been often advanced at the Chamber of Commerce meetings and meetings of other public

THE DAILY NEWS**Electro-plating a Canadian Railway Operation**

Photographs showing electro-plating operations at the Angus Shops, Montreal. No. 1 shows the tanks in which small articles are hung for plating, and No. 5 the lacquer process. The text below explains the other photographs fully.

Passengers on the Trans-Canada and other Canadian trains have often admired the tableware with which the dining cars are equipped, but comparatively few of the travelling public appreciate the extent to which electro-plating enters into every day use on a Railway. As a matter of fact, practically all metal hardware parts of passenger equipment interiors are plated, many of the engine parts, including the copper reflector of the head-light are plated, and various platings are used on a thousand and one articles which enter daily into the life of a railroader.

The traveller notices the silver plate perhaps more than any other, but many metals are used by the railroad companies. Gold, for instance, is used by the Canadian Pacific for plating pepper caster tops and similar articles, copper is used on lighting and other metal car fixtures, zinc on refrigerator hardware, nickel on kitchen utensils, tin on trainmen's lanterns, mercury on telegraph elements and aluminum or lead on miscellaneous articles.

At the Angus Shops, Montreal, the Canadian Pacific Railway Company has quite an extensive plant where the most of its electro-plating is carried on. The method used by this Company is a simple one but none the less effective.

The articles to be plated are first chemically cleaned, after which they are usually hung from a metal bar into a long vat where they are immersed in a chemical solution which varies with the metal to be deposited. The electric current, which is of low voltage, is connected, the positive pole to the metal plate or plates, and the negative to the bar from which the articles to be plated are suspended. As the electric cur-

bodies. This, however, will be the first time that a resolution has been presented with the object of lining up the forces of the Island in the fight to change the name of Vancouver Island to one that will not by its similarity create the wrong geographical impressions that are frequently noted.

The Man in the Moon SAYS:-

HE has a little boat,
That surely gets his goat.
She coughs and chokes—
And then she smokes—
What he says I dare not quote.

HE has a little flivver
That makes the neighbors shiver.

As he bumps along,
You can hear his song
I wish he would fall in the river.

LYING is wrong but telling the truth is sometimes positively wicked.

BEN Self had to take a set of oilskins to Edmonton in order to feel at home there.

IT takes more than an earthquake to shake up the Ottawa legislators, Jake says.

NEWS despatches say some of the Doukhobors may be lost. And yet nobody seems to be worrying much.

IT'S a good thing Prince Rupert has some Elks, else she would not often be heard of abroad. One day it's Edmonfon, another Ketchikan.

A GREAT catastrophe occurred the other day. Rocky Kansas went down in the eleventh round. How sad!

MISS Cutie is good looking. I like her now I swear. Perhaps you know the reason Is because she has bobbed hair.

THERE'S one consolation, its

easier to start a quarrel with your wife than it is to start the blamed engine sometimes.

MY idea of an optimist is to expect the mayor to resign following that vote of censure.

I WAS a model man
I seldom cussed or swore
I never went out late at night
And didn't care what I wore.

But now I'm a blasé sort
Of language I've a store
I swagger home at any old time
And consider bridge a bore.

My wife is a blasé woman
My daughter's blasé too
We live a blasé baneful life
With a blasé baneful crew.

THERE'S many a man loses his mind when his wife dies.

Ten Years Ago in Prince Rupert

July 16, 1914.

The deputy minister of Indian affairs; Mr. Scott of Ottawa, is expected in the city by the venture at the end of the week. While here he will confer with the various officials of the department. Indian Agent Deasy of the Queen Charlotte Islands, and Indian Agent Perry of Metlakatla, are in the city for the visit.

Some fine 30 foot banners have been made by Fred Watrin for use on the Board of Trade trip to Granby. They bear the legend "Come to Prince Rupert Exhibition."

During the past few weeks nearly the whole of the male population of Massett Inlet and district have been out staking oil and coal locations.

A GREAT catastrophe occurred the other day. Rocky Kansas went down in the eleventh round. How sad!

MISS Cutie is good looking. I like her now I swear. Perhaps you know the reason Is because she has bobbed hair.

THERE'S one consolation, its

rent flows from the plating metal to the suspended articles, the metal is carried through the solution and deposited in the form of a thin coating over the entire surface of the required article.

This process is well illustrated in No. 2, which shows two electric headlight reflectors in the process of receiving silver plating. In this case the plate of silver is suspended in the centre of the reflector, which is filled with cyanide of potassium solution, and the electric current flows from the plate to the reflector which is, itself, the negative pole.

Illustration No. 3 shows the next step in the treatment of the headlight reflector, which, by the way, gives the highest concentration of light known. This is hand burnishing the operator burnishing two reflectors in a working day. For articles which can be readily polished by a rotating buffing wheel, this is accomplished in the manner shown in No. 4.

Upon completion of the polishing operation, articles to be so treated are placed in a metal container and, by means of a small compressed air gun, placed with suitable lacquer. If it is desired to oxidize the plated article in order to make it harmonize with woodwork or other material, as is often the case with copper platings, it is exposed to heat or vapor, or immersed in some solution prior to the application of the finishing coat of lacquer.

The Canadian Pacific Railway Company was the first large corporation in Canada to install its own electro-plating plant, but during the last few years this method of protecting metal from oxidation has developed into quite an industry and one which employs a large number of Canadian workmen.

FASHIONS & FOIBLES

by Shirley Sharon

The slashed front with its in-and-out cravat and new collar shows the trend toward greater consideration of the neck treatment.

There has been a very marked change in the last few months in the attitude of the French dressmakers toward the neck. The day has passed when there was practically only one outline used and that collarless. Now the bateau neck in many cases show the softening influence of a collar, and the V, square and high round neck are used a great deal for all types of day dresses. Paris is making very smart frocks of beige or Lanvin green silk alpaca on the new, narrow and beltless lines with small collars, hour-glass cuffs and the capette. They are also very nice in heavy silk crepe, flannel or kasha.

Mr. and Mrs. M. M. Stephens of Prince Rupert, and two youngest children, spent a few days in town during the week. They travelled on their own launch, the Vera S. Fry. Mr. Stephens was busy writing fire insurance while in town. They left on Wednesday evening, and will visit Anyox and Stewart before returning to Prince Rupert.—Alice Arm Herald.

TOURIST PARTY IS EXPECTED TODAY

A tourist party of 15 people, organized by the L. B. Woods' tours of Philadelphia, will arrive on the westbound train this afternoon en route to Anyox and return to Vancouver. On arrival the party will visit the Canadian Fish & Cold Storage Co.'s plant and will take a launch trip around the harbor. The party is being conducted personally by J. P. Donnelly of Philadelphia.

BIRTHS

A daughter was born to Mr. and Mrs. W. Smith, 1041, Sixth Ave. West at the Prince Rupert General Hospital on July 15.

At the Prince Rupert General Hospital on July 15, a daughter was born to Mr. and Mrs. Eugene Clancy, Thurston Harbor.

A son was born at the Prince Rupert General Hospital on July 16 to Mr. and Mrs. Alex Mackenzie, Tatlow Street.

Sunday, July 20. Pioneers' Picnic at Salt Lakes. Every-body come. Transportation from Prince Rupert Boathouse free. Admission to the grounds, under 12 years, 25c. Over 12, 50c.

Mrs. Geo. Casey and her two daughters, Mary and Mickie, are booked to sail on the Princess Alice this afternoon. Mrs. Casey is going to Rossland, B.C. to visit her parents, Mr. and Mrs. Hadfield.

Jas. Kriklevsky is building a residence on Eighth Ave. East on lot 17, block 24. The house is to contain six rooms and will be built on a cedar pile foundation. The cost will be approximately \$3,500.

Royal Bank inspectors E. J. Evenett, L. F. Martin and F. E. Robertson, who have been in the city for the past few days on local bank business, are returning to Vancouver on the Prince Rupert tomorrow night.

G. W. Kent, secretary of the Elks' Lodge, Vancouver, who has been visiting in the city for the past few days with W. Cruickshank, of the C.N.R. ticket office staff, is returning south on the steamer Prince Rupert tomorrow night.

C.N.R. steamer Prince Rupert, Capt. D. Donald, due to arrive at 3 o'clock this afternoon from Vancouver and wayports is reported on time. The westbound train due to arrive this afternoon at 4 o'clock is also reported on time.

The Tennis Club will hold a tournament day on Saturday, July 19, the program taking the form of American tournaments. Play will commence at 2 p.m. All players wishing to take part are requested to get in touch with Mr. Bartlett, Mr. Press or Miss Tremayne.

Mr. and Mrs. M. M. Stephens of Prince Rupert, and two youngest children, spent a few days in town during the week. They travelled on their own launch, the Vera S. Fry. Mr. Stephens was busy writing fire insurance while in town. They left on Wednesday evening, and will visit Anyox and Stewart before returning to Prince Rupert.—Alice Arm Herald.

A big milk chocolate bar full of tasty peanuts!

Have you ever longed for a peanut bar that really had enough peanuts in it?

Here it is! A generous bar of Neilson's finest milk chocolate, just chock full of delicious peanuts.

The tastiest 5c. worth of nuts and chocolate you can buy anywhere—Neilson's Virginia Peanut Bar.

BRINGING UP FATHER

BEAR STOLE GREEN PEAS FROM GARDEN SHOT BY OWNER

Stewart Man Objected to Bruin Making so Free With His Legumes

Beautiful gardens are an attraction not only to human beings, says the Portland Canal News. The other day a black bear wandered into the garden of W. B. George and started to have a feed of green peas. This not meeting with approval of the owner, and there being no trespassers law that will prosecute bears, Mr. George had no other recourse but to despatch the intruder with his high-powered rifle.

BURNS LAKE

A daughter was born to Mr. Mrs. E. H. Meents of Francois Lake at the Hazelton Hospital on July 8.

Mrs. Pereival Carr has left for Vancouver.

Misses Beatrice and Harriett Harrison and Clifford Harrison of Wistaria were visitors here the end of last week.

H. J. Macdonald has arrived from Vancouver and is leaving for the Babine to undertake further development work on the Silver Island claim.

C. R. Hinton is a Francois Lake visitor.

E. H. Meents of East Francois Lake has gone to Hazelton to visit his wife and newly arrived baby girl. Mr. Meents has an ideal location at the east end of Francois Lake and he reports his garden truck in a flourishing condition and tomatoes in full bloom.

Miss Zella Clark has left for Hazelton and Smithers to spend a holiday.

Professor Buckell, assistant dominion entomologist of Vernon, was in the district last week with D. D. Munro looking over the grasshopper situation. The poison for control is being sent out for the use of the farmers.

ALICE ARM

Misses Helen and Christine Nueich arrived home last week from Prince Rupert to spend summer holidays with their mother. They are both attending school at Prince Rupert.

J. B. Haffner, general superintendent of the Granby Co., was a visitor in town last week inspecting the logging operations of the company.

Mrs. Phippen and family arrived from Anyox on Thursday and will spend holidays here.

J. Hopper and daughter Maud of Areola, Sask., arrived on

Thursday on a visit to his nephews, Messrs. T. W. and Al. Falconer. Mr. Hopper and daughter are also visiting various towns on the coast.

Constable H. Martin arrived back on Thursday from holidays spent in Vancouver and Victoria.

Mrs. Loftus and child arrived here recently to spend holidays.

D. Falconer arrived on Thursday from Vancouver on a visit to his sons Messrs. Al. and T. W. Falconer.

S. Dumas has left on a visit to Prince Rupert.

Another strike of high grade ore has been made on the property of J. Strombeck, who has been developing the property during the past few weeks. The new strike was made at a distance of only 150 feet from the trail to the Wolf property and 50 feet south of the strike that was made two years ago. The ledge has been proven to be six feet wide and the ore is composed of ruby, native, and brittle silver. The ore also carries galena. Samples will be sent out for assaying.

If the building boom at Alice Arm continues for the next few years at the same pace as it has during the past three years, there will be at the head of the Arm a town of considerable proportions. Several buildings are in the course of construction and several more are planned to be built before the next snow flies.

The new home of H. F. Kergin on Sea View Heights, midway between the town and the wharf, is well under way and the interior finishing is about all that remains to be done.

N. P. Wickstrom is building a bungalow on River Drive near Falls Creek.

The commodious new residence of Morris Peterson, near

the tennis courts, is fast nearing completion, and will shortly be ready for occupation.

STEWART

Mrs. J. A. Hall has returned from a visit of several weeks in Seattle.

E. J. Conway, field engineer for the Granby, spent the week end in camp.

Mrs. P. R. Backus returned Saturday from a visit to Ketchikan and Rupert.

Mrs. D. A. Smitheringale returned Saturday from a round trip to Chicago.

George Young, distant road superintendent, left Alice Arm on Wednesday.

S. P. Fitzgerald, president and managing director of the Independence Co., returned last Saturday from a business trip to Seattle, Victoria and Vancouver.

Vince Lade has left on a visit to Prince Rupert.

Miss McConkey has left for Anyox to visit friends before proceeding to her home in Vancouver. She was accompanied by her friend Miss Viola Dill, who has arrived from Maple Bay the same morning in the course of a holiday trip to northern points.

Jack Lee, 11 year old son of Thomas Lee, arrived from Victoria on the Cardena Monday evening.

In the first game of the Stuarts Shield series between the Sons of Canada and the Gallies played on Monday night it is reported that a player on the field lost his temper and deliberately tried to injure an opposing player. Such procedure is a very serious matter and reflects discredit not only upon his own team but on football players generally. Any man who loses his temper at any form of sport should refrain from taking an active part at all. If a player loses his temper it is a very easy matter for him to do serious physical injury to an opposing player, especially in certain positions on the field. In an amateur football game played in England one of the players in the forward line had evidently set out to get one of the opposing backs. He repeatedly ran with the ball and without continually playing it would turn his attention to the back in question with the idea of injuring him. Unfortunately the referee had no idea of the tactics intended by the forward. Eventually the ball was "skied" and as the back rushed forward to meet him, and instead of kicking at the ball hit the man at back full

under the chin with his knee. The result was that the back player nearly bit his tongue in two and had to be removed from the field on a gate, being laid up for weeks. It was not until some time afterwards that the forward player owned up to his action although he had continually visited the sick man. It was a lesson to him in after life never to try to foul an opponent.

Jack Burns, a likely looking light-heavyweight wrestler is in the city from Spokane, Washington, and is seeking a bout with Nets Jepson, light heavyweight wrestling champion of Canada, who resides in Edmonton. The promotion of such a match locally would doubtless be quite an expensive undertaking, but the staging and ultimate success of the undertaking rests with those who have had experience in such matters. Such a match would be a big drawing card and, judging from the size of past audiences at local sport exhibitions, a good crowd would be on hand. As far as is known there is no local boy who would be a match for Burns. On the other hand if a "dark horse" could be unearthed to give him a bout it would doubtless be a paying proposition for the promoters, and the merits of the Spokane boy could then be better judged. Wrestling is a fine clean sport and it is a pity we do not see more of it participated in locally.

SUGAR PRICES NOT ADVANCING

Flour Moving Up But New Potatoes are Cheaper

Advices from the Philippines on the sugar situation go to show that prices in this commodity are favorable towards a steady or lower market and there should be no advance during the canning season. Crop conditions are very good and as they stand today do not warrant any advances in price. The price on sugar has recently dropped 15c per 100 pounds and there does not appear to be any likelihood of an advance.

Flour Up

The flour market is again on the advance and looks like going back to very high levels. Futures in wheat are being held at high prices which augers for the advances in flour. Feed lines are advancing in sympathy and the market is firm.

Eggs Climbing

The egg market in British Columbia for No. 1 stock is climbing and foretells high prices on eggs for some time to come.

New potatoes have declined in price. New carrots and beets are coming in and are getting more reasonable in price. Small vegetables like new beans and celery are due to arrive shortly.

Market prices prevailing here to-day are as follows:

Butter

Alberta 45c
Brookfield and Shamrock, 2 lbs. 85c
E. C. D. 45c
Vanderhoof 45c
Dairy No. 1, 2 lbs. for 75c

In THE COUNTY COURT OF PRINCE Wallace, of Atlin, in the County of Prince Rupert, in the Province of British Columbia, deceased, who died on April 12, 1923.

NOTICE is hereby given that by an order of His Honour F. McB. Young, Judge of the County Court, dated the 17th day of April 1924, the undersigned was appointed administrator of the estate of the above-named deceased.

And notice is hereby further given that all persons having claims against the said estate are required to file such claims with the undersigned, Atlin, within one month before the 15th day of August, 1924, after which date I will proceed to distribute the assets of the said estate among the claimants, unless otherwise provided by law.

Any notice of claim shall be given to me, and I will not be liable for said assets or any part thereof, to any person of whose claim I shall not then have received notice.

Dated at Atlin, B.C., this 20th day of June, 1924.

C. L. MONROE,
Official Administrator.

The "Ad" that Saved a City

Rome was being attacked. The massive walls were breached. The enemies pressed hard on every side. To the north, the invaders crept stealthily through the night to storm the gates. In the dark, they stumbled on a flock of geese. The fowls cackled loud and long--the sentries heard--and Rome was saved.

Advertising is continually saving something for someone. It will save for you, too, if you use it properly.

It will save you money by pointing out real bargains, by telling you of true values, by giving you prices to compare and by telling you how much you should pay.

It will save you time and effort by telling you exactly where and when to go for what you want to buy. You don't have to "shop around."

It will save you disappointment by telling you just what you can expect from your purchases. Every time a merchant or manufacturer advertises, he obliges himself to sell you goods that fulfil his claims. He knows it doesn't pay to advertise unworthy wares.

Read the advertisements as a plain, every-day business proposition. It is a duty you owe yourself and your purse.

The advertisements will help you save

Are you?
Dainty Dorothy wants to know if you are a good manager when it comes to clothes

Dorothy was looking through some cast off garments from the wardrobe of a friend the other day and said "Polly, dear, why I'm ashamed of you — you are throwing the outfit of an American debutante of fashion into the discard because of thoughtlessness. Why, honey, don't you know that a little time spent upon alterations and a little of your clothes allowance spent for dry cleaning would make you the best dressed girl in town?"

P.S.—Polly surrendered.

LOOK FOR LAND OF HOT SPRINGS

Grass is Always Green There and no Winter Comes on Yukon Boundary

Major and Mrs. Gooch of Crawford Bay, B.C., well known in Edmonton, are leaving in a few weeks for the most northerly portion of British Columbia, and will endeavor to locate the valley of hot springs close to the Yukon boundary where the grass is said to remain green the year around says the Edmonton Bulletin.

A report of this valley was brought to the "outside" by Frank Perry, the well known mining engineer of Vancouver and at that time published exclusively in the Bulletin. The report of the discovery stirred the imagination of many people, as the article was copied widely throughout the United States and Canada.

Account Astonishing

Perry has lived alone in the far north—in entirely unknown territory—for seventeen years; he travelled with nothing but a single pack dog, a rifle, a copy of a geological treatise, and made a number of wonderful discoveries—mineral and otherwise. For years at a time he never saw a living person, Indian or White, and on his return to civilization brought out an astonishing account of the wonders to be encountered.

In the valley spoken of Perry claimed that due to the number of hot springs, the temperature was an even one the whole year around; that the animals having their habitat there were so fat they could not move faster than a walk, while the vegetation was described as abnormal, with shrubs growing to the size of trees, and black loam soil forty and more feet deep.

Mastodon Bones Found

He also claims to have seen the bones of mastodons protruding from the cliffs, and the sandstones marked with the impress of three-toed prehistoric animals. For many years the Indians had brought word of this valley to the fur traders at Fort Nelson and Fort Liard, but the stories were discounted as being "Indian yarns."

Old timers in the far north are of the opinion that it is possible such a valley does exist as is described, and Major and Mrs. Gooch are determined to find it. Two years ago they spent the summer in the North West Territories, going down on the Alberta and Arctic company's steamer to the mouth of the Mackenzie, and later returning to the point where the Great Slave lake flows into the Mackenzie where they remained to fish.

Both are experienced travellers in this and other countries, and it is quite possible that they may win a way through to Perry's valley.

Optician and Optometrist

Diamond Specialist

There will be offered for sale at Public Auction, at noon on the 26th day of July, 1924, in the office of the Forest Supervisor at Smithers, the Licence X6369, to cut 42,000 Jackpine Ties on an area situated on part of Lot 354 in Block 184 and area adjoining, about 4½ miles up Shovel Creek from the Canadian National Railway, Range Five, Coast District.

Two (2) years will be allowed for removal of timber.

"Provided any one unable to attend the auction in person may submit a sealed tender to be opened at the hour of auction and treated as one."

Further particulars of the Chief Forester, Victoria, B.C., or District Forester, Prince Rupert, B.C.

Sealed Tenders will be received by the Minister of Lands, at Victoria, not later than noon on the 31st day of July, 1924, for the purchase of Licence X 6371, to cut 15,000 Jackpine Ties on an area situated about 33½ miles south of Bulkley Lake, Range 5, Coast District.

Two (2) years will be allowed for removal of timber.

Further particulars of the Chief Forester, Victoria, B.C., or District Forester, Prince Rupert, B.C.
