TOKIO, May 27.—An American destroyer left Yokohama this morning for Hakodate to pick up a reserve plane belonging to Stuart MacLaren and take it to Hong Kong when it will be taken on another destroyer to Calcutta.

The plane will replace that which crashed with MacLaren near Akyab, Burma, in an accident which it was feared might terminate MacLaren's efforts.

United States destroyers leave tomorrow to take up their station along the route of the American flyers on their way from Kagoshima to Shanghai.

#### CECIL HACKER PRIZE WINNER

Gets the Radio Set in the Recent Daily News Essay Competition

RUTH GILLIES SECOND

Cecil Hacker, son of Rev. G. G. Hacker of this city, is the winner of the first prize in the recent Daily News essay competition. The second prize goes to Ruth Gillies of Annunciation School, while Nessie Smithson gets the third prize.

The five essays which receive prizes for honorable mention are: Andrew Leask, Ocean Falls; Jean Burns, New Hazelton; Sheila Stewart, Prince Rupert; Frances Barrett, Alice Arm; Mary Elizabeth Wilson, Terrace.

There were some good papers sent in from Pacific and one of them came near being in the honorable mention class. The papers were examined by C. S. Cowan, forester at Victoria, who had a great deal to do with the work on the provincial contests last year. He, in conference with the editor with whom he was in complete agreement, passed on the merits of the papers. Cecil Hacker's paper was two weeks ago forwarded to Ottawa where it competes with the prize winners from the other districts.

Cecil Hacker is thirteen years of age and a pupil of Borden St. School, Prince Rupert. His essay was an outstanding one and there was never the least doubt as to whether he was the winner or not. If it should be returned from Ottawa it will be published at a later date.

#### BRITISH AIRPLANES

#### Magoffin in Interview Urges Development of Prince Rupert as a Shipping Port for Grain

S. S. Magoffin, formerly of this city and now of Edmonton, has been urging the development of the grain route by way of Prince Rupert. In an interview given the Edmonton Journal he declares there has been shortsightedness somewhere in overlooking this port. The interview says in part:

Although not concerned with the grain business Mr. Magoffin, having put in a great deal of work on the line between here and Prince Rupert, is keenly interested in watching the development of the western grain route.

"There certainly has been shortsightedness somewhere," he said to a Journal reporter, "in giving almost exclusive attention to the Vancouver outlet and overlooking Prince Rupert," which Magoffin thinks is the only logical route for at least some forty millions of bushels of grain that Canada is now selling annually to the Orient.

"Twenty millions of dollars were spent in establishing a grade of four-tenths of one per cent, and a six-degree curvature throughout this line giving an economy of haulage not even closely equalled on any other line. Is that all going to be lost?" he asks.

Prince Rupert has an ideal harbor for grain handling, says Mr. Magoffin, and although Vancouver has a Panama service to Europe, there is no reason why the Oriental grain trade should not be handled through Prince Rupert, he thinks.

To the criticism that the northern line offers no return freight Mr. Magoffin replies that the bulk of the timber products of British Columbia for points east is now moving out over what was originally the Grand Trunk Pacific railway.

As for the general economic principle of shipping prairie grain by way of the Pacific, Mr. Magoffin says it is the natural course. "One may as well try to attempt to stop the grain movement toward the Pacific," he said.

#### RUPERT PEOPLE SELL COAL MINE

J. G. Scott and Nick Gurvich Dispose of Interest in Edson Property

Final negotiations for the purchase of the property of the McLeod River and Hard Coal Company on the Alberta Coal branch, five miles from Goalspur, were concluded yesterday by Fitzhugh Burns of Minneapolis, who has been in the city for the past few weeks, says the Edmonton Journal. Mr. Burns and his associates are in control of the McGillivray Coal and Coke Company at Coleman and are also engaged in development work on some coal lands that they have recently acquired in the Saunders Creek district. He and his party left last night for the property. The mine has been idle for some time on account of the strike. The former owners of the McLeod River Hard Coal Company were J. G. Scott and N. Gurvich who was originally the Grand Trunk Pacific railway.

At one time operated by a party of Serbians but the controlling interest was later acquired by grain by way of the Pacific. Mr. Scott, the normal output is about 150 tons per day and the coal goes largely to the domestic market. It was opened in 1920.

### Many Possibilities On This Coast.

Only a few months ago a man was heard to declare he could not see what possibility there was that Massett village would ever be any larger than it is today. Since that time there has been considerable interest taken in Massett. A clam cannery has made it headquarters and now the black sand gold is to be smelted there. A good many lots have been purchased in the townsite and very soon, if everything goes well, there will be a regular payroll at the place. That is one instance of the possibilities in a new country. Should the present black sand mining and smelting prove successful there will doubtless be many other similar concerns operating in the same neighborhood, for there is plenty of black sand and the market for gold is illimitable and varies little. Anyone who can produce gold knows what it will be worth when produced. In that respect it differs in a marked degree from copper.

### Lure Of Mirage Carries Away Many.

Major Martin says he was lured away from his route by a mirage. He thought he saw an expanse of water, but after leaving his proper course to follow it, he found that he was over the land instead of the water and soon he came to grief against the side of a mountain.

That is a common thing in life. It is easy to be lured away by something that looks good but which proves to be nothing but a deception. We buy fake stocks, we follow the ephemeral in politics, we go into foolhardy businesses, we follow the foolish pleasures of life and then we suddenly fall with a sickening thud and the mirage is dispelled.

Beware the mirage! It is the one thing in life that is not what it seems to be.

### Having Faith In British Empire.

Until recently it was the fashion at meetings of workmen to deride anything which smacked of patriotism and to speak lightly of the British Empire. Now the Labor government of Britain is leading the way in extolling the virtues of the Empire. The latest type of political speech is that of the Colonial Secretary, Hon. J. H. Thomas, who would have the British Empire the "Land of Hope and Glory, something to be maintained and defended and made worthy of all."

### Sympathy Goes Out To Major MacLaren.

The sympathy of the British Empire will go out to Major Stuart MacLaren who has been making a brave attempt to encircle the globe in his airplane. The despatches of yesterday state that his machine was badly damaged. Possibly today there will be better news. Of one thing we are all glad. That is that the major is safe.

### Short Campaign But Make It Snappy.

This is the time to learn all about politics. It is the one subject of conversation in certain circles. Everywhere the relative merits of candidates are being discussed and it is curious what views are advanced in favor of one man or against another. We are all influenced by small things while the big things of life pass us by and we do not notice them. It is well now and then to turn our attention to consideration of the science of government.

## FIRE ESCAPES AT HOSPITAL

Matter Is Discussed With City Council and Financial Aid Requested

A delegation from the hospital board consisting of D. C. Melbae, S. K. Campbell, J. H. Thompson and E. H. Mortimer appeared before the city council last night seeking financial assistance in connection with the putting in of fire protection equipment at the hospital recommended by the deputy fire marshal and the superintendent of utilities.

Mr. Melbae stated that the board already had its hands full in financing considerable improvements that had been made during the past year. It could not see its way clear to take care of further expenditure and did not feel justified in passing the hat again. It had been decided that it would be the best course to discuss the situation with the council with a view to finding a solution.

### Recommendations

Mr. Campbell read the letters of the assistant fire marshal and the superintendent of utilities. The former recommended improvements in the fire escapes of the nurses' home and the hospital building and also alterations in connection with the operating room, linen chutes, furnace room, kitchen range, etc. The letter of Mr. Love referred particularly to repairs in wiring and fire alarm equipment including exit lights.

The matter of fire escapes in the hospital, Mr. Campbell deemed most important. The present ones were little better than death traps and it would be impossible to get a patient out through them. An estimate had been secured on the cost of putting in proper fire escapes with double door entrances at the ends of the halls. It was between \$600 and \$800. The superintendent of utilities had given an estimate of \$300 for the fire alarm system and \$200 for a system of exit lights in conduit. If all the recommendations were acted upon the cost would be about \$2,000. He considered only three items absolutely necessary, however—the fire alarm system, exit lights in conduit and the fire escapes.

### Might be Laid Over

Ald. Macdonald agreed that some of the recommendations might be laid over for the time being but some were urgent. If any loss of life should occur, the council would be jointly responsible with the hospital board. The request for assistance was worthy of every consideration.

Ald. Casey felt that the assistant fire marshal has been trying to show all the authority he possessed in Prince Rupert. There was no reason for the council to stampeed though he admitted that some items were necessary.

Finally it was decided, on suggestion of the mayor, to leave the matter for the hospital board to go into with the finance committee. When a decision has been made by the committees as to what is necessary and the cost a report will be returned to the council.

Miss Jessie Peterson, Zealandia, Sask., writes:—I wish to let you know how much good Milburn's Heart and Nerve Pills have done for me.

For nearly three years I was very badly run down, had a weak heart, and was so nervous that sometimes I would almost faint away. I heard of many people who had recommended your Heart and Nerve Pills, so I decided to give them a trial. After I had used two boxes I found they had done me good, and after having taken five boxes I was completely relieved. I cannot recommend your Pills enough, and I would advise anyone having a weak heart or troubled with nervousness to use them. Milburn's H. & N. ## RETURNS TO VANCOUVER

Frank Morrison Says California Feeling Effect of Depression in States

Frank Morrison, son of D. H. Morrison, contractor, formerly of Prince Rupert, is back in Vancouver, and he says his father is likely to come north soon if Prince Rupert begins to develop.

Frank says that California is feeling the effect of the foot and mouth disease regulations, the presidential election and the over-booming of the country of recent years. It is estimated there that they have houses enough to last for the next five years without building any more and of course that means the coming of a slump. When the members of the building trades and many of the real estate men leave, there are more empty houses and offices and the place gets a setback.

It is now very difficult to get work in California and even in Vancouver and Victoria most of the positions are filled.

P. W. Anderson, provincial government road superintendent, is leaving tonight by the Gardena on a tour of inspection to the Bella Coola district.

Mayor Newton left on the Prince John last night for the Queen Charlotte Islands on a political campaign trip. Ald. Collart had been chosen acting mayor at the council meeting and, just as he was taking the chair, His Worship walked in stating that the boat was not leaving till late. He presided for the rest of the evening.

No objections having been posted against the project, the city council last night put through its first readings a by-law providing the construction under the local improvement plan of a fifteen foot paved roadway from Hays Creek along Sixth Avenue to Inmanuel Street thence to Seventh Avenue and along that avenue to the city limits. Consent of the railway company to the use of its right-of-way is yet to be received.

The city council last night referred to the Board of Works a report from the city engineer recommending that the putting in of a roadway on Taylor Street, in compliance with a petition from property holders there, be left over until next year. The reasons of the engineer in making this recommendation were that certain streets leading to Taylor Street would have to be repaired before equipment could be taken over them and that the whole of Taylor Street should be done instead of a portion of it as projected.

## FIRM BELIEVER IN THE FRUIT TREATMENT

MRS. LAURA ALFORD

Thousands of people owe the splendid Fruit Medicine—"Fruit-a-tives"—a lasting debt of gratitude, which they gladly pay by testifying to its merits.

Mrs. Laura Alford of 28 Florence St., Ottawa, says: For years, I was a martyr to Constipation and Dyspepsia. I have tried cathartics, salts and so-called vegetable laxatives but all were unpleasant and gave no permanent relief. Finally, I decided to try "Fruit-a-tives". I have been using "Fruit-a-tives" now for seven years; never have Constipation or Stomach Trouble; and have been in the best of health ever since. My husband and children use "Fruit-a-tives" regularly.

"Fruit-a-tives" contain intensified fruit juices combined with tonics. 25c and 50c a box—at dealers or Fruit-a-tives Limited, Ottawa.

## CONCENTRATE AMUSEMENTS AT CITY PARK

Gyro Club Asked to Locate Its Playground There Along With Swimming Pool

Final decision of the city council on the matter of installing a swimming pool at McClymont Park is being held over pending the decision of the Gyro Club on a request that has been made by the board of works that it erect its playground equipment on an adjacent site in McClymont Park instead of at the corner of Sixth Avenue and McBride Street.

At last night's council meeting the city engineer submitted an estimate of \$1,560 as the cost of a concrete pool at McClymont Park. It would be 50 by 20 feet, three feet high with a water depth of 2 1/2 feet. In order to supply it with water from the city mains, the laying of 600 feet of pipe would be involved, this being included in the estimate.

Ald. Perry felt the matter was now ready for the finance committee to deal with. He urged that it be taken care of at once. Ald. Collart was in favor of proceeding with the project but, before such a decision was made, he would like to know what action the Gyro Club was to take on the proposal of putting in its equipment at McClymont Park so that everything might be concentrated at one point.

It was decided that the Gyro Club be notified that a site would be provided for its equipment at McClymont Park and that the swimming pool project be referred back to the board of works in the meantime.

Tenders are in for the work at the Salt Lakes being undertaken by the Swimming Club but the letting of the contract is being held back awaiting the arrival of Major Taylor of the Provincial Public Works department. It is not sure yet just how the donation of the Provincial Government will be handled whether through the Swimming Club or direct through the department of public works. As the major is expected home tomorrow no considerable delay is anticipated.

The swimming club is still short of the amount required to carry on the work. They are asking that everyone using the Salt Lake procure a badge from some member of the club in order to help finance the undertaking.

## INDIGESTION GAS ON STOMACH PAINS AFTER MEALS

Many people suffer terribly from gas and pains in the stomachs after every meal, and are kept in constant misery.

For the past 44 years Burdock Blood Bitters has been bringing hope and joy to thousands suffering from various forms of stomach trouble, helping them to eat three square meals a day; helping them to eat anything they wish, without having to suffer for it after.

Mr. Fred Nielson, Moose Jaw, Saskatchewan, writes: "All last summer I was troubled with stomach trouble and indigestion, and also gas on the stomach. I could not eat anything except some light food and even then I would be bothered with pains after each meal. I could not work a whole day without being done out. I had tried everything; doctors, medicines and pills, until I read about Burdock Blood Bitters. I have taken four bottles and it has nearly, if not completely, restored me to health again."

## Sport Chat

With the Sons of Canada well away at the top of the standing, the Sons of England, Gallies and Great War Veterans are now tied in second place or the cellar—which ever may be chosen to describe the present situation in the league. Tonight the Sons of England and Gallies are due to meet. The winner will have at least temporary hold on second place and the loser will go to the bottom. In the event of a tie, both teams will add one point to their credit leaving the Great War Veterans in the hole. The Gallies are not a bit daunted by their defeat at the hands of the Englishmen in the first game of the season and are out to get revenge.

The teams will line up as follows:  
Sons of England—G. Harvey, goal; A. R. Lane and H. M. D. Lambe, full backs; P. Cameron, G. Kelsey and F. Hodgkinson, half backs; G. Bill, Jr., George Howe, G. P. Tinker, C. E. Dickens and H. S. Burn, forwards; A. J. H. Woolton and H. F. Thompson, reserves.

## LOOKING FOR ROCK QUARRY

City May Move Equipment to Lots Across from Club or to Seventh Avenue and McBride Street

The question of opening up a new rock quarry, now that the one adjacent to the Prince Rupert Club is becoming exhausted, was discussed by the city council last night. Ald. Casey, who introduced the subject, favored moving the equipment to the hill on Seventh Avenue at McBride Street. Ald. Perry was in favor of taking rock off the lots at the corner of Fifth Street and Second Avenue facing the present quarry free use of which had been offered by the owner. The question was laid over for a week.

**Cost of Quarrying**  
Ald. Casey felt that the cost of quarrying rock should be borne by the city as a whole and not by the property owners whose abutting streets were being surfaced. He thought that the site at the corner of Seventh Avenue and McBride Street was the logical one for the future supply of rock. Some 40,000 cubic yards, it was estimated was available there. By removing it, the dead end of a street would be opened up. The city engineer and chairman of the board of works had deemed that it would be dangerous to nearby buildings to take rock from there but, from his experience as a rockman, he took issue with them on that point.

Ald. Perry pointed out that it would cost \$1,000 in the first place, to open the new quarry. The rock from there would cost \$3 per yard and, in estimating the cost of doing the street work, an estimate of \$2 had been taken. In his opinion, there would be

Home Baseball Team was Beaten by Smithers by Score of 5 to 4.

TELKWA, May 27.—Visitors from points up and down the line came to Telkwa to enjoy the splendid program of sports arranged for May 24. The day was fine, and not too hot, and the beautiful grounds, of which Telkwites are so justly proud, presented a very gay appearance.

Early in the afternoon Smithers and Telkwa played baseball, the final score being 5-4 in favor of Smithers. This being the first game this season, it is hoped there will be many more good ones.

Several interesting horse-races followed, in which a couple of new horses and riders made their appearance.

A grand dance at night concluded the day's activities.

## TWO PRINCE GEORGE SAWMILLS DESTROYED

Bush Fires Wiped Out Plants at Shere and Otway—Cranbrook Mill was New One

PRINCE GEORGE, May 27.—Bush fires wiped out two mills in this district. The sawmill of the Elder & McDougall Lumber company at Shere was completely destroyed. The company had been hard hit previous to this by the high water in the Fraser, which carried off a considerable part of the winter's cut of logs.

The mill of the Cranbrook Sawmills Ltd., located at Otway, about seven miles west of here, was burned to the ground. This was a very prosperous and efficient mill, and its destruction is a real loss to Prince George. The loss is about \$50,000, partly covered by insurance.

## ADDRESS PRESENTED TO THOMAS DEASY

The address presented to Thomas Deasy a few days ago by the residents of Massett Indian village was worded as follows:

Massett Reserve, Queen Charlotte Agency, Graham Island, B.C. May 23, 1924.

Mr. and Mrs. T. Deasy,  
Dear Sir and Madam,  
GREETING!

On your retirement as the Agent of this agency; we, the representatives of the Haida band on the Massett Reserve of the Queen, Charlotte Agency, beg you to accept from us, on behalf of all the members of our band, this token of our heartfelt thanks for the many willing services you have both rendered to us in the past.

Especially at the time of our great distress during the epidemic of 1918 when you both so unselfishly gave yourselves to work for, and to assist us with our sick when all other help failed.

During the fourteen years of your office much has been done for the social welfare of this community, the memories of which afford us great pleasure.

In tendering this expression of our thanks for your efforts among us (which we know you will appreciate), our hope is that you both will be spared to enjoy the fruits of your labors to a good old age.

Signed on behalf of the Council and Church.

Yours sincerely,  
Alfred Adams,  
Peter Hill,  
Mark Ingram,  
Harry Weah.

# INTO THE ATTIC

Few youngsters today ever saw a horse-hair sofa. They wouldn't know what to do with a fire taper, carpet stretcher, or coal oil lamp. They couldn't braid rags into a rug, or wind yarn without tangling. But they know the how and why of typewriters, phonographs, telephones, automobiles; what happens when a push of the button gives light, or a kodak's flash fixes their image on paper.

Their education is as modern as the advertisements they see. They have no more use for the lamp and chimney of yesterday than you for the wick and tallow of the day before.

Advertisements induce such progress. They urge wide use that means improvement. They help you lift the out-of-date into the attic—rid you of the water buckets and soap kettles of slavery. They bring late improvements within your reach.

Read the advertisements regularly. Keep alert to the new.

Without advertising, you would never know a product's worth until you had bought it.

by the McRae party concerning the building of the Pacific Great Eastern railway. He claimed that the books were audited, and Mr. Justice Gallihier, who has been on the bench for many years, absolutely exonerated the government of any breach of trust or wrong doing.

Speaking of finances the attorney general stated that while the gross debt of the province is seventy-one millions the net debt is not more than thirty-eight million dollars. It was pointed out that under the Bowser administration the civil service cost was 39 per cent of the collected revenue, whereas during the fiscal year ending March 31, 1924, it was only 16.5 per cent of the collected revenue. Reduction of taxes during the past year were 50 per cent to bona fide farmers; 50 per cent on personal property; 25 per cent on automobile licenses; 100 per cent on amateur amusements; and 7 1/2 per cent on other amusements.

Commercial Strides  
Mr. Manson went on to show we have been making splendid commercial strides during the last eighteen months, and said that the industrial progress last year was such that 1923 was 20 million dollars better than 1922.

Commenting upon the liquor question the Attorney General said that our operation was greatly superior to the manner in which it is handled in Quebec, and showed a striking comparison. He said the balance sheet shows that it costs the province of Quebec three million dollars for the operation of seventy-three stores, or approximately 15 per cent; whereas in our own province the operating cost is \$700,000 for sixty-eight stores, or 7.5 per cent.

Freight Rates

Before closing Mr. Manson dealt with the freight rates question, during which he said W. F. McClintock, chairman of trade and commerce bureau, Vancouver Board of Trade, had stated that freight rates reductions mean from four to four and a half million dollars per year to taxpayers. The speaker declared Premier Oliver should be retained to continue the fight.

Nine Years Ago---A Few Remarks

The passing of May, 1924, marks the completion of our ninth year in business, as the Table Supply first opened its doors on June 1, 1915. During this time, our expansion has been rapid. We take this opportunity to express to the public our appreciation of the splendid support accorded us, and to assure our many loyal customers that we will do our utmost to retain their confidence for the future.  
Looking back, we cannot help recalling just one incident, which occurred on June 30, 1915. We disposed of more than 2,000 full size quart baskets of strawberries in one hour between 11 a.m. and 12 noon, at 5c per basket on the day before a holiday. Prince Rupert consumers never received such value before or since. Our policy of quick turnover and small profits has been a winner.
